Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on February 26, March 2, March 4, and March 5, 1981, the Pacific Stock Exchange, Inc. ("PSE"), Boston Stock Exchange, Inc. ("BSE"), New York Stock Exchange, Inc. ("NYSE") and Philadelphia Stock Exchange, Inc. ("Phlx"), respectively, filed with the Securities and Exchange Commission the proposed rule changes as described in Items I, II, and III below, which items have been prepared by the self-regulatory organizations. The Commission is publishing this notice [1] to solicit comments on the proposed rule changes from interested persons.

I. Self-Regulatory Organizations' Statement of Terms of Substance of the Proposed Rule Changes

The BSE, NYSE, PSE, and Phlx have all proposed adopting rules regarding ITS "Trade-Throughs" and "Locked Markets."

The provisions of the proposed rules specify that a member shall avoid initiating a trade-through for any ITS Eligible Listed Security, with the exception that a member may be relieved of this obligation should an applicable condition described in the rule occur.

In the event that a trade-through occurs the proposed rules place the responsibility on the party who initiated the trade-through to respond as promptly as practical to the aggrieved party's complaint. The member is to notify the aggrieved party that either the member was relieved of his obligation undr an applicable condition described in the rule or that the complaint is valid and corrective action is being taken pursuant to the rule.

The procedures for corrective action vary depending upon whether the broker-dealer initiating the trade-through ("initiating broker-dealer") and the broker-dealer representing the *contra* side ("*contra* broker-dealer") are executing orders which originated from off the floor. In the event that both the initiating and *contra* broker-dealers were acting for their own account, the trade-through would be cancelled and removed from the consolidated transaction reporting system ("consolidated system"). If, on the other hand, either the initiating or *contra* broker-dealer was executing (in whole or in part) an order which originated from off the floor, one of the following two alternative procedures would be required:

(i) the initiating broker shall "satisfy, or cause to be satisfied, the bid or offer traded through in its entirety at the price of such bid or offer" or

(ii) the initiating and *contra* side broker-dealers shall correct the price of their transaction to a price at which the trade-through would not have occurred ("adjusted price"), and the price correction shall be reported in the consolidated system.

Regardless of which corrective procedure is followed, the initiating broker-dealer also would be required to assure that the off-floor orders that were executed in the transaction which constituted the trade-through receive the price which caused the trade-through; the price at which the bid or offer traded-through was satisfied, if it was satisfied; or the adjusted price, if there was an adjustment; whichever of those prices is most beneficial to that order.

The proposed rule also provides that if a member makes a bid for an ITS Security on the Exchange and causes a locked market with another ITS participating market center, the member shall send a commitment to trade to such other market center seeking the offer he has equalled or exceeded, which commitment shall be for either the number of shares he has bid or for the number of shares offered on the other market center, whichever is less. The same principle shall apply to a member who makes an offer for an ITS Security on the Exchange and causes a locked market with another ITS participating market center. This provision is subject ot exceptions listed in the proposed rule.

All the rule filings [2] also propose an ITS block trade policy on satisfying better priced displayed bids and offers. The policy provides that a member executing a block trade in an ITS Eligible Security, at a price outside the "best" quotation for the security displayed by any ITS participating market, must commit to satisfy superior displayed bids or offers on other ITS market centers, at the block print price. The policy defines block transaction as 10,000 or more shares or securities with a market value of at least $200,000.

II. Self-Regulatory Organizations' Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes

In their filings with the Commission, the self-regulatory organizations included statements concerning the purpose of and basis for the proposed rule changes and discussed any comments received on the proposed rule changes. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organizations prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) *Self-Regulatory Organizations' Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes.*

The provisions of the rules were arrived at through a joint agreement of the ITS participating market centers and adopted to protect market orders as much as possible from executions at price inferior to prices which exist on other market centers.

The statutory basis for the adoption of the trade-through rules is found in Sections 6(b)(5) and 11A(a)(1)(C), in that they are designed to facilitate transactions in securities; remove impediments to and perfect the mechanism of a free and open market and a national market system; encourage brokers to seek out and obtain execution of customer orders in the best market; and, in general, protect investors and the public interest.

(B) *Self-Regulatory Organizations' Statement on Burden on Competition.*

The BSE, NYSE, PSE and Phlx do not believe that any burdens would be placed on competition by the proposed rule changes. Rather they believe that competition among ITS participating market centers would be encouraged.

---

[1] Because the substantive content of the proposed rule changes is virtually identical in all of the filings, a single notice is being published. *See also*, SR-MSE-81-1, SEC Release No. 34-17579 (February 28, 1981).

[2] The PSE submitted its block trade policy as a separate proposed rule change, under Rule 19b-4. *See* File No. (SR-PSE-80-03) submitted on February 27, 1981.

(C) *Self-Regulatory Organizations' Statement on Comments on the Proposed Rule Changes Received from Members, Participants or Others.*

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Changes and Timing for Commission Action

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule changes that are filed with the Commission, and all written communications relating to the proposed rule changes between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W., Washington, D.C. Copies of such filings will also be available for inspection and copying at the principal offices of the above-mentioned self-regulatory organizations. All submissions should refer to the appropriate file number in the caption above and should be submitted on or before April 3, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 34-17906; File No. SR-MSE-81-2]

Self-Regulatory Organizations; Proposed Rule Change By Midwest Stock Exchange, Inc.

Proposed rule change by Midwest Stock Exchange, Inc., relating to short sales of a security. Comments requested on or before April 3, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on February 26, 1981, the Midwest Stock Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Article XX, Rule 8 has been amended as follows:

Additions Italicized—[Removals Bracketed] Remove .06 in its entirety.

.06 All offerings shall be executed in accordance with applicable short sales rules:

EXAMPLE: MSE Market in XYZ–43¼–43⅛ (short) NYSE Market in XYZ–43⅜–43⅛ Consolidated tape last sale–43⅜ The MSE offering at 43⅛ may be filled at its limit price subsequent to a Consolidated Tape sale at 43⅜ provided that the offering was equal to or above the last sale on the Consolidated Tape at the time it was first communicated.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) *Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.*

(1) The purpose of the proposed rule change is to eliminate the potential conflict between the operation of Rule 10a–1 and the "firmness requirement" of the Quote Rule in situations where execution of an offer would be rendered unlawful because of a subsequent trade through even though the offer had been at a price permitted under Rule 10a–1 at the time when that market maker, specialist, or broker-dealer had communicated it to the Exchange for inclusion in the Consolidated Quotation System.

(2) The statutory basis for the adoption of the proposed rule change is found in 6(b)(5) and 19(g)(1) of the 1934 Act.

The proposed rule change like the Commission's amendments made to Rule 10a-1 further the public interest, the protection of investors, and the maintenance of fair and orderly markets.

(B) *Self-Regulatory Organization's Statement on Burden on Competition.*

The Midwest Stock Exchange, Incorporated does not believe that any burdens will be placed on competition as a result of the proposed rule change. Rather, it believes that it will encourage the linking of all markets in the development of a National Market System.

(C) *Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others.*

Comments have neither been solicited nor received.

III. Date of Effectiveness of the Proposed Rule, Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of Securities Exchange Act Rule 19b–4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies or the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written

communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W., Washington D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submission should refer to the file number in the caption above and should be submitted on or before April 3, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

March 9, 1981.

George A. Fitzsimmons,

Secretary.

[FR Doc. 81-7803 Filed 3-13-81; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34-17607; File No. SR-PSE-81-04]

Self-Regulatory Organizations; Proposed Rule Change by the Pacific Stock Exchange, Inc.

Proposed rule change by the Pacific Stock Exchange, Inc., relating to eligibility for membership on the Pacific Stock Exchange.

Comments requested on or before April 3, 1981.

Pursuant to Section 19 (b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on February 27, 1981, The Pacific Stock Exchange Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Pacific Stock Exchange Incorporated ("PSE") proposes to amend Article VI, Section 1, of its Constitution. The text of the amended Article is set forth below. (Italics indicate new language and brackets indicate removals.)

Eligibility

Sec. 1. Membership in this Exchange shall be limited to individuals who must be at least [twenty-one (21) years of age,] *the* minimum age of majority required to be responsible for his contracts in each jurisdiction in which he conducts business and whose [chief] *principal* business *purpose* is that of transacting business as a broker or dealer in securities.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to remove unnecessary restrictions on the ability of persons to become members or become associated with members of the Exchange.

The proposed rule change is consistent with Section 6(b) of the Act in general and furthers the objectives of Section 6(b) (2) of the Act, in particular, in that it would enhance the ability of persons to become members of the Exchange.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change will promote competition by removing unnecessary restrictions on the ability of persons to become members of the PSE. The proposed rule change will not impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before April 3, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

March 9, 1981.

BILLING CODE 8010-01-M

[Release No. 34-17589; File No. SR-PHLX 81-3]

Self-Regulatory Organizations; Proposed Rule Change by Philadelphia Stock Exchange, Inc.

Proposed rule change by Philadelphia Stock Exchange, Inc., relating to Increase of Annual Fee Charged to members Working on Equity Trading Floor for Use of Trading Post Space Comments requested on or before April 16, 1981.

Pursuant to Section 19(c)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on February 6, 1981, the Philadelphia Stock Exchange, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II and III, below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to

solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is instituting an increase in the annual fee charged to members for use of trading post space on the Equity Trading Floor.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed fee increase is to offset in part the increased costs of supplying trading post space and other services provided by PHLX. These services include manpower, automation, utilities and other costs associated with providing a market place for the trading of securities.

The current fee charged for the use of such space on the Equity Trading Floor has not been increased since 1975, although the average annual increase of expenses over that period has been 30.7%. In addition, the fee charged to members on the Options Trading Floor for the use of their trading post space is currently $1,000.

The basis under the Act for the proposed rule change is Section 6(b)(4) requiring the rules of an Exchange to provide for the equitable allocation of reasonable dues, fees, and other charges among its members, issuers and other persons using its facilities.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The fee change is not expected to create a burden on competition.

(c) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The PHLX has not solicited or received any comments on this proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of Securities Exchange Act Rule 19b–4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 "L" Street, N.W. Washington, D.C. Copies of such filing will also be available for inspection and copying at the prinicpal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before April 3, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

February 27, 1981.

BILLING CODE 8010–01–M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Art Print Advisory Panel; Closed Meeting

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of Closed Meeting of Art Print Advisory Panel.

SUMMARY: A closed meeting of the Art Print Advisory Panel will be held in Washington, D.C.

DATE: The meeting will be held April 14 and 15, 1981.

FOR FURTHER INFORMATION CONTACT: Karen Carolan, T:C:E:V, 1111 Constitution Avenue, NW., room 5547, Washington, D.C., 20224, Telephone No. (202) 566–6143 (not a toll free number).

Notice is hereby given pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. app. (1976), that a closed meeting of the Art Print Advisory Panel will be held on April 14 and 15, 1981, beginning at 10:00 a.m. in Room 3313, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, D.C. 20224.

The agenda will consist of the review and evaluation of the acceptability of fair market value appraisals and allocations of value of the assets in art print publishing ventures involved in Federal Income tax returns. This will involve the discussion of material in individual tax returns made confidential by the provisions of section 6103 of Title 26 of the United States Code.

A determination as required by section 10(d) of the Federal Advisory Committee Act has been made that these meetings are concerned with matters listed in section 552b(c)(3), (4), (6), and (7) of Title 5 of the United States Code, and that the meetings will not be open to the public.

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the Treasury Directive appearing in the **Federal Register** for Wednesday, November 8, 1978. (43 FR 52122.)

William E. Williams,

Acting Commissioner.

[1] Hotel Washington, 15th and Pennsylvania Ave. NW., Washington, D.C. 20004.
[2] Sheraton-Washington Hotel, 2660 Woodley Rd., NW., Washington, D.C. 20008.
[3] Sherry Towers Hotel, 2117 E St., NW., Washington, D.C. 20037.

These meetings will be for the purpose of evaluating scientific merit of research conducted in each specialty by Veterans Administration investigators working in Veterans Administration hospitals and clinics.

The meetings will be open to the public up to the seating capacity of the room at the start of each meeting to discuss the general status of the program. All of the Merit Review Board meetings will be closed to the public after approximately one-half hour from the start, for the review, discussion and evaluation of initial, and renewal research projects.

The closed portion of the meetings involve: discussion, examination, reference to, and oral review of site visits, staff and consultant critiques of research protocols, and similar documents. During this portion of the meeting, discussion and recommendations will deal with qualifications of personnel conducting the studies, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, as well as research information, the premature disclosure of which would be likely to significantly frustrate implementation of proposed agency action regarding research projects. Closure of these meetings is in accordance with subsection 10(d) of Public Law 92–463, as amended by Public Law 94–409, and as cited in 5 U.S.C. 552b(c)(6) and (9)(B).

The appearance of this notice in the Federal Register at least 15 days prior to the first meeting listed, has been hindered due to delays in administrative processing.

Because of the limited seating capacity of the rooms, those who plan to attend should contact Mr. Howard M. Berman, Chief, Merit Review Board Staff Division, Medical Research Service (151D), Veterans Administration, Washington, DC 20420, (202) 389–5065, at least five days prior to each meeting. Minutes of the meeting and rosters of the members of the Boards may be obtained from this source.

Dated: March 9, 1981.

Rufus H. Wilson,

Acting Administrator.

Part II

Department of Labor

Wage and Hour Division, Employment Standards Administration

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21136) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions

Modifications and supersedeas decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Office of Government Contract Wage Standards, Division of Government Contract Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Determination Decision.

New General Wage Determination Decisions

None.

Modification to General Wage Determination Decisions

The numbers of the decisions being modified and their dates of publication in the **Federal Register** are listed with each State.

Arkansas—AR80–4060, Oct. 31, 1980; AR80–4061, Nov. 7, 1980; AR80–4063, Oct. 31, 1980.
Connecticut—CT80–2074, Aug. 15, 1980.
Illinois, Indiana, Michigan, Minnesota, New York, Ohio, Pennsylvania & Wisconsin—IL79–2062, July 6, 1979.
New York—NY80–3020, Apr. 4, 1980; NY80–3048, Aug. 29, 1980; NY80–3057, Sept. 19, 1980; NY81–3003, Jan. 23, 1981.
Texas—TX80–4099, Dec. 5, 1980.

Supersedeas Decisions to General Wage Determination Decisions

The numbers of the decisions being superseded and their dates of publication in the **Federal Register** are listed with each State. Supersedeas decision numbers are in parentheses following the numbers of the decisions being superseded.

Illinois, Indiana, Kentucky, Missouri, Ohio & West Virginia—IL80–2018 (IL81–2004), Mar. 28, 1980.
Nebraska—NE81–4012 (NE81–4014), Feb. 13, 1981; NE80–4075 (NE81–4014), Sept. 26, 1980.

Cancellation of General Wage Determination Decisions

This is to advise all interested parties that the Department of Labor intends to withdraw 14 days from the date of this notice the following general wage determinations:

TN77–11120—Coffee County, Tennessee dated September 30, 1977 in 42 FR 52860—Building Construction
TN77–1100—Carroll, Dyer, Gibson, Henry, Lake, Obion and Weakley Counties, Tennessee dated August 12, 1977 in 42 FR 41094—Building Construction
TN79–1008—Bradley County, Tennessee dated January 5, 1979 in 44 FR 1668—Building Construction
TN79–1009—Madison County, Tennessee dated January 5, 1979 in 44 FR 1669—Building Construction
TN79–1010—Rutherford County, Tennessee dated January 5, 1979 in 44 FR 1669—Building Construction

Signed at Washington, D.C., this 6th day of March 1981.

Dorothy P. Come,

Assistant Administrator, Wage and Hour Division.

BILLING CODE 4510-27-M

DEPARTMENT OF EDUCATION

34 CFR Part 690

Pell Grant Program; Revision in the 1981–82 Family Contribution Schedules

AGENCY: Department of Education.

ACTION: Final regulations.

SUMMARY: These regulations revise the Family Contribution Schedules for the Pell Grant Program which were published as final regulations on January 19, 1981. The Family Contribution Schedules are the formulas used in determining student eligibility for Pell Grants on the basis of financial need.

EFFECTIVE DATE: These regulations are expected to take effect 45 days after they are transmitted to Congress. Regulations are usually transmitted to Congress several days before they are published in the Federal Register. The effective date is changed if the Congress takes certain adjournments. It should be noted, however, that these regulations apply only to Pell Grants made for the period of July 1, 1981 through June 30, 1982. If you want to know the effective date of these regulations call or write the Department of Education contact person.

FOR FURTHER INFORMATION CONTACT: William L. Moran or David Morgan, Office of Student Financial Assistance, ROB–3, Room 4318, 400 Maryland Avenue SW., Washington, D.C. 20202. Telephone (202) 472–4300.

SUPPLEMENTARY INFORMATION:

General Background

The Family Contribution Schedules include an "offset" based on family size which is used in computing the size of the Pell Grant. These offsets are updated each year to reflect the increases in the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor. The offsets represent basic subsistence costs for families. The offsets are subtracted from the income of the student and his family along with other deductions to derive "discretionary income." A portion of discretionary income is assessed as the student's expected family contribution.

On January 19, 1981, the Department of Education published in the Federal Register the final regulations for the 1981–82 Family Contribution Schedules increasing the offsets by 12.6 percent to reflect the increase in the Consumer Price Index (46 FR 5320). This regulation rescinds that increase and restores the family size offsets to the level set in the 1980–81 Family Contribution Schedules. The dependent student offsets will also remain at their 1980–81 levels.

As a part of President Reagan's Budget Reform Plan a number of changes are being made in the student aid programs with the intention of reducing Federal expenditures and curbing inflation. A number of the changes will require legislative action, and proposed amendments have already been submitted to Congress. The family size offsets, however, may be changed by a regulatory amendment without the need for a legislative amendment.

By holding the family size offsets at the 1980–81 level, and thus increasing the amount of family income considered discretionary and subject to assessment in the formula, the Secretary is reemphasizing the traditional responsibility of the family in financing postsecondary education. Additionally, by not indexing the offsets, the Secretary is including the Pell Grant Program in the effort to combat inflation.

Waiver of Notice of Proposed Rulemaking

The issue of raising the family size offsets to reflect the increase in the Consumer Price Index was included in the notice of proposed rulemaking for the Family Contribution Schedules published in the Federal Register of August 1, 1980. Several comments were received including one that suggested that the use of the Consumer Price Index artificially increased financial need. For the reasons stated earlier, the Secretary is now in agreement with this comment. Moreover, the Family Contribution Schedules are used to determine the amount of a student's Pell Grant for the award period starting on July 1, 1981 while section 431(d) of the General Education Provisions Act delays the effective date of regulations for 45 days after they are transmitted to Congress. Accordingly, the Secretary finds that publication of a proposed rule in this instance would be unnecessary and impracticable within the meaning of 5 U.S.C. 553(b), and is publishing these rules as final regulations.

(Catalog of Federal Domestic Assistance No. 84.063, Pell (Basic) Grant Program)

Dated: March 9, 1981.

T. H. Bell,

Secretary of Education.

PART 690—PELL GRANT PROGRAM

Subparts C and D of Part 690 of Title 34 of the Code of Federal Regulations are amended as follows:

1. In § 690.34 the family size offsets in paragraph (a)(1) are amended to read as follows:

§ 690.34 Computation of the expected family contribution for a dependent student from the effective family income.

* * * * *

(a) * * *

(1) * * *

Family Size Offsets

Family members	Amount
2	$5,000
3	6,050
4	7,700

DEPARTMENT OF LABOR

29 CFR Part 92

Redwood Employee Protection Program

AGENCY: Department of Labor.

ACTION: Proposed rule.

SUMMARY: The Department of Labor is responsible for administering the Redwood Employee Protection Program established by Title II of the Redwood National Park Expansion Act of 1978 (Pub. L. 95-250). Under Title I of the Act, employees whose jobs were lost as a result of this Park expansion were designated to receive preference in hiring for both Federal civilian jobs and jobs with certain private employers. In addition, under Title II of the Act, these employees were provided with a program of income and benefit maintenance, and with retraining, job search, and job relocation allowances.

The Department proposes to clarify criteria to be used in determining applicant eligibility for Redwood Employee Protection Program (REPP) benefits based on layoffs occurring subsequent to September 30, 1980.

DATE: Written comments must be received by the Department of Labor by the close of business April 13, 1981.

ADDRESS: Written comments should be submitted to the Redwood Employee Protection Program, Division of Employee Protections, Room N-5656, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Johnson of the Department of Labor at (202) 523-6495. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION:

Discussion

Section 92.11(a) *Filing After Layoff.* This section has been revised to conform with the period of time during which a covered employee may file an application for REPP benefits as set forth in the new § 92.15.

Section 92.15 *Layoffs After September 30, 1980.* This section has been added to provide criteria for determining eligibility for REPP benefits as a result of a layoff occurring after September 30, 1980. The statute provides in Section 203 that a layoff occurring between May 31, 1977 and September 30, 1980 is conclusively presumed to be attributable to the expansion of the Redwood National Park. This new section sets forth criteria for determining if layoffs occurring between October 1, 1980 and September 30, 1984 are attributable to the Park expansion for the purpose of qualifying for REPP benefits.

The criteria contained in this section apply only to covered employees who are laid off in the period October 1, 1980 to September 30, 1984. Any covered employee who has remained on a layoff that occurred between May 31, 1977 and September 30, 1980, has continued to be qualified for REPP benefits as a result of that layoff.

Note.—The Department of Labor has determined that the proposal in this document is not a major regulation that requires the preparation of a regulatory analysis, within the meaning of Executive Order 12291 and the Department's guidelines published at 44 FR 5570. This note also reflects that I have certified, in accordance with 5 U.S.C. 605(b), that the regulation in this document will not have a significant economic impact on a substantial number of small business entities.[1] This document was prepared under the direction and control of the Acting Deputy Assistant Secretary, Labor-Management Services Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210; telephone: (202) 523-8036.

Accordingly, it is proposed to amend 29 CFR Part 92 as set forth below.

1. The authority citation for Part 92 reads as follows:

Authority: Sections 202 and 213(c)(2), Pub. L. 95-250, dated March 27, 1978.

2. Section 92.11(a) is revised to read as follows:

§ 92.11 When to apply.

(a) *Filing After Layoff.* An initial application for REPP benefits by a covered employee may be filed with respect to a total or partial layoff by an affected employer which occurred before September 30, 1980 or as provided in § 92.15 of this Part.

* * * * *

3. A new § 92.15 is added to read as follows:

§ 92.15 Layoffs After September 30, 1980.

(a) *Qualifying Layoffs.* A covered employee laid off between October 1, 1980 and September 30, 1984 shall be deemed to be an affected employee if such layoff occurred under one of the following circumstances:

(1) The covered employee suffered a qualifying layoff from an affected employer and the employee returned to work for a known short-term recall from that employer and is again laid off when that term expires; or

(2) The covered employee works for an affected employer on a staggered work schedule during the period beginning May 31, 1977 and ending September 30, 1980 and has continued to work on such schedule beyond September 30, 1980; or

(3) The covered employee works as a seasonal worker who was recalled for part of a season or recalled to substitute for other workers as vacation or sick leave relief and is again laid off; or

(4) The covered employee was laid off by an affected employer under any other circumstances related to the Park expansion; or

(5) The covered employee was laid off by an affected employer for reasons determined by the Secretary to be related to the Park expansion.

(b) *Non-Qualifying Layoffs.* After the effective date of this section any covered employee laid off between October 1, 1980 and September 30, 1984 shall not be deemed an affected employee if such layoff occurred under one of the following circumstances:

(1) A strike, lockout, maintenance shutdown, vacation shutdown, flood, earthquake, fire, temporary adverse weather condition; or

(2) Any other reason unrelated to the Park expansion.

(c) *Eligibility Review After the Effective Date of This Section.* Notwithstanding § 92.50 of this Part, after the effective date of this section, an affected employee receiving REPP benefits based on a layoff occurring after September 30, 1980 shall have the circumstances of that layoff redetermined on the basis of the above criteria. Only those employees whose layoffs are found to be qualifying, upon redetermination, shall continue to receive REPP benefits.

Signed at Washington, D.C., on February 22, 1981.

Raymond J. Donovan,

Secretary of Labor.

Department of Health and Human Services

Office of Human Development Services

Child Abuse and Neglect Grants Program: Fiscal Year 1981 State Grants

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of Human Development Services

[Notice No. 13628-813]

Child Abuse and Neglect Grants Program: Fiscal Year 1981 State Grants

AGENCY: The Office of Human Development Services, DHHS.

SUBJECT: Announcement of availability of grant funds for FY 1981 Child Abuse and Neglect Grants Program—State Grants.

SUMMARY: The Administration for Children, Youth and Families announces that applications are being accepted for State grants for Fiscal Year 1981. This program is authorized by the Child Abuse Prevention and Treatment Act, Pub. L. 93-247, as amended. Regulations governing this program are published in the *Code of Federal Regulations* in 45 CFR Part 1340.

DATE: The closing date for receipt of applications is May 31, 1981.

Scope of This Notice

The Child Abuse Prevention and Treatment Act (Pub. L. 93-247, as amended) in Section 4(b)(1) provides that the Secretary, through the National Center on Child Abuse and Neglect, (NCCAN) is authorized to make grants to States. This Notice identifies NCCAN's FY 1981 objectives and funding priorities for States making application for a State grant.

Program Purpose

The primary purpose of the Child Abuse and Neglect State Grants Program is to support the States in developing, strengthening, and carrying out child abuse and neglect prevention and treatment programs.

Eligible Applicants

The Regulations implementing the legislation provide that "Whichever State office, agency or organization is designated by the Governor, may apply for financial assistance under section 4(b)(1) (of the Act) for the payment of reasonable and necessary expenses in developing, strengthening, and carrying out child abuse and neglect prevention and treatment programs." (45 CFR 1340.3-2(b)).

The term State as defined in Section 4(b)(1) of the Act includes each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territories of the Pacific. In order for a State to qualify for a State grant, the State must meet the eligibility criteria stipulated in Appendix C.

Available Funds

Pub. L. 93-247, as amended, provides that 30 percent of the funds appropriated in FY 1981 for the implementation of the Act will be used for making State grants. The FY 1981 appropriation of the Department of Health and Human Services provides the National Center on Child Abuse and Neglect with a FY 1981 authorization of $16,928,000 plus $4,000,000 earmarked for programs to prevent, identify, and treat the sexual abuse of children. As a result of this additional allotment, $6,678,400 will be available to eligible States. Of this amount $5,678,400 will be allocated for the regular State program objectives (listed under Category A) and $1,200,000 will be allocated for sexual abuse program objectives (listed under Category B).

Funds to States will be allocated for regular program objectives on the basis of the following criteria: An amount of $25,000 plus an additional amount bearing the same ratio to the total amount made available for the purpose as the number of children under the age of eighteen in each State bears to the total number of children under 18 in all States.

Funds to States will be allocated for sexual abuse program objectives on the basis of the following criteria: An amount of $12,500 plus an additional amount bearing the same ratio to the total amount made available for the purpose as the number of children under the age of eighteen in each State bears to the total number of children under 18 in all States.

The actual allocations to each eligible State will probably be slightly higher. Some States will probably not apply or will be found ineligible and their cumulative allocations for FY 1981 will be distributed by the formulas stated above to eligible States. As soon as the number of eligible States and the number of ineligible States, or States not applying for a grant, can be determined, the allocations to eligible States can be finalized. However, States should not delay submission of their applications until the actual allocation is known. Instead, they should use the tentative allocations provided in Appendix A for preparing their applications.

State grant funds for the prevention, identification and treatment of child abuse, child neglect and child sexual abuse are not intended to substitute for State or Federal monies which are currently being used to address these problems, and should not be used for ongoing support or maintenance of current agency programs.

Funds awarded to States should support specific developmental or startup activities (usually no longer than three years in duration for any one project activity) such as those described under "PROGRAM OBJECTIVES" in this Notice.

Applicants may apply for their regular allocation only; the sexual abuse allocation only; or they may apply for both. Applicants may use both allocations for child sexual abuse objectives, but cannot use the child sexual abuse allocation for regular State program objectives.

Use of Unobligated Balance

Pub. L. 93-247, as amended, provides that any State which fails to obligate funds within 18 months after the award will receive a reduction of the next grant award in an amount equal to the unobligated balance unless the Secretary determines that extraordinary reasons justify the failure to so obligate.

Program Objectives

Category A (To be supported with Regular Program Funds).

Applications are solicited from States for projects which reflect one or more of the following program objectives.

1. Developing and implementing education, awareness, and technical assistance programs for those persons required by State law to report known or suspected instances of child abuse and neglect for the purpose of:

(a) Clarifying statutory obligations for reporting child abuse and neglect;

(b) Defining situations and conditions which must be reported and to whom;

(c) Addressing issues of confidentiality and privileged communication;

(d) Clarifying for reporters the States' immunity provisions for reporters of child abuse and neglect;

(e) Defining circumstances under which a child may be taken into protective custody and the authority for doing so;

(f) Understanding the use and limits of authority;

(g) Clarifying procedures and roles within the child protective service system and the juvenile justice system.

(h) Dealing with the threats of malpractice to mandated reporters; and/or

(i) Explaining the central register/index and its use.

2. Improving the investigation of reports of child abuse and neglect through:

(a) Development and promulgation of working definitions of child abuse and neglect which are consistent with statutory definitions;

(b) Establishment, improvement, or strengthening the capacity to review and screen reported cases of child abuse and neglect;

(c) Development and implementation of written guidelines for the screening and referral of reported cases of child abuse and neglect;

(d) Provision of services for the immediate investigations of situations when there is imminent danger to a child's health or safety and the initiation of investigation within 24 hours for all other reported cases;

(e) Use of teams (protective service worker and police juvenile bureau officer) to respond to situations of imminent danger to children and, where removal of children is strongly indicated;

(f) Development and promulgation of written guidelines and criteria for determining when a child should be removed from his/her home and taken into custody. Under what circumstances can emergency protective custody be used without a court order; and/or

(g) Identification of investigator's responsibilities in giving notices to: courts of juvenile jurisdiction, agencies mandated to receive reports, parents, and, when appropriate, coroners.

3. Improving treatment capabilities through:

(a) Use of multidisciplinary case consultation teams and development and implementation of criteria for use of teams;

(b) Assignment of child advocates to follow the child and family through the maze of resources to insure delivery of services;

(c) Use of written treatment plans with child/family participation;

(d) Periodic review of cases involving children in placement pending court action; and/or

(e) Community commitment of resources, on a priority basis, to children at risk.

4. Developing and strengthening information systems including central registers for the purpose of:

(a) Providing a conduit for reporting;

(b) Facilitating self-referrals;

(c) Monitoring cases in the child protective service system;

(d) Planning; and

(e) Research

5. Developing and strengthening programs using volunteers, parent aides and self-help groups under the direction of professional leadership.

6. Developing and strengthening for the protection and treatment of children who, as a result of spouse abuse or other form(s) of family violence, are neglected or themselves abused. Programs may focus on the development and implementation of specialized services necessary to prevent traumatization of children from abusive families. This could include crisis intervention as well as ongoing therapeutic treatment of child victims of domestic violence.

7. Establishing an organizationally visible State Child Protective Services unit responsible for policy and program direction. This unit would provide a focal point for coordinating program activities; developing and promulgating staff manuals and procedural guides; enhancing resource development; convening child protection coordinating committees and conducting research and demonstration programs. These responsibilities are suggestive and not exhaustive.

8. Preventing and correcting child abuse and neglect in residential institutions and foster care placements through

a. Development and promulgation of regulations, operational procedures and guidelines for the identification, reporting and investigation of all incidents of child abuse and neglect in residential care facilities.

b. Establishment of a special unit for this purpose at the State level.

c. Support of review commissions at the individual institution or groups of institutions.

9. Developing a training capacity within the State agency that includes a plan for meeting the training needs of those working in a child protective service system. The use of grant funds for training those providing direct service to the clients is specifically excluded as Title XX and Title IV–B funds are available for this use.

Category B (To be supported with Sexual Abuse Program Funds and/or Regular program funds).

Applications are solicited from States for projects related to child sexual abuse which reflect one or more of the following program objectives. They are not listed in any priority order.

1. Establishment of a special unit within the State Protective Services Agency, or the establishment of a sexual abuse specialist position within a specific State Protective Service Unit which would be responsible for developing policy and program guidance in matters relating to sexual abuse of children.

2. Develop a training and technical assistance capability within the State or local protective service agency that includes a plan for meeting the training needs of the child protective service staff handling sexual abuse cases. Funds may be utilized to:

- Support travel, lodging, subsistence and registration fees for child protective workers to attend training programs which are specifically related to the handling of sexual abuse cases.
- Establish a specific on-going training capacity within the State agency for the training of personnel who will be involved in the investigation, case management, and treatment of child sexual abuse cases.
- Provide specific technical assistance for the establishment and implementation of specialized units or programs within the child protective services system for the treatment of sexually abused children and their families.

3. Establish or strengthen follow-up and long term treatment resources for sexually abused children and their families who are in need of ongoing therapeutic intervention. Services must be closely coordinated with the activities of the State and local child protective service agency and a special effort made to avoid duplication.

4. Develop, support, or strengthen hot lines or helplines specifically designed to be responsive to calls concerning sexual abuse and support for parent and child self-help programs specifically for the treatment of child sexual abuse.

The Application Process

Availability of Application Forms

The agency, designated by the Governor, that wishes to apply under this grant Notice may request application forms from the appropriate DHHS Regional Office (See Appendix B). The application consists of two forms:

1. The Eligibility Statement (Form 627).

2. The Application for Federal Assistance (Form 424).

No applications will be considered unless the Eligibility Statement (Form 627) and the Application for Federal Assistance (Form 424) are completed according to the instructions provided.

States which have never applied or which have previously been found ineligible for a State Child Abuse and Neglect grant are encouraged to apply at the earliest possible time but no later than May 31, 1981, as described in the section dealing with the Closing Date for Receipt of Applications.

A–95 Clearinghouse Notice

In compliance with the Department of Health and Human Services implementation of Office of Management and Budget Circular No. A–95 Revised (interim procedures at 41 FR 3160, July 29, 1976), applicants who request grant support must, prior to submission of an application, notify both the State and area A–95 Clearinghouse of the intent to apply for Federal Assistance. If the application is for a Statewide project which does not affect areawide or local planning and programs, the notification need be sent only to the State Clearinghouse. Some State and Area Clearinghouses provide their own forms on which such information is to be submitted.

Applicants should contact the appropriate State Clearinghouse (listed at 42 FR 2210, January 10, 1977) for information on how they can meet the A–95 requirements.

Criteria For Review and Evaluation

Criteria to be used in the review process are the eligibility requirements contained in 45 CFR 1340.3–3. (See Appendix C)

The DHHS Regional Office Officials have been delegated responsibility for the review and approval of Eligibility Statements and Applications for Federal Assistance.

Eligible applicants submitting applications and approved for funding are notified through issuance of Notices of Financial Assistance Awarded which set forth the amounts of funds awarded, the terms and conditions of the grant, the effective dates of the grants, the budget periods for which support is given, and the total periods for which support is contemplated.

Application Submission

In order to be considered for a grant under the State Child Abuse and Neglect Grants Program, an application must be submitted on the forms and in the manner described above. The application must be signed by an individual authorized to act for the applicant agency and to assume for the agency the obligations imposed by the terms and conditions of the grant award, including the regulations of the Program. One signed original and two copies of the grant application, including all attachments, are required.

Applications sent by mail should be addressed to the appropriate Regional Office of Fiscal Operations. Addresses will be provided in the Application Kit.

Closing Date For Receipt of Applications

The closing date for receipt of applications under this Notice is May 31, 1981. Applications received after the close of business on May 31, 1981, will be considered ineligible and will not be reviewed and evaluated. An application sent by mail will be considered to be received on time by the DHHS Regional Office if:

1. The application was sent by registered or certified mail no later than May 31, 1981, as evidenced by the U.S. Postal Service Postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service.

2. An application delivered by hand must be delivered to the appropriate DHHS Regional Office before close of business on May 31, 1981. As the Regional Offices have different hours of operation, applicants may wish to contact the Regional Office for the time of day that the office closes.

(Catalog of Federal Domestic Assistance Program Number 13.628, Child Development—Child Abuse)

Dated: March 2, 1981.

John Buse,

Acting Commissioner for Children, Youth and Families.

Approval: March 6, 1981.

Warren Master,

Acting Assistant Secretary for Human Development Services.

Appendix C

§ *1340.3–3 Qualification for assistance.*

(a) The Act enumerates ten elements of a comprehensive system to prevent and treat child abuse and neglect which a State must have in order to qualify for assistance under section 4(b)(1). The enactment of identical laws and procedures in the States is not necessary. Rather, as its purpose, the Act seeks to insure that all States receiving assistance under this subsection (in meeting the ten requirements) must provide what may be grouped into four fundamental child protective capabilities: (1) Detection through third party reporting of children in danger, including mandatory and permissive reporting of suspected child abuse and neglect; (2) child protective services to provide noncriminal investigations for the verification of reports, to provide immediate protection of children through such means as protective custody, and to provide rehabilitative and ameliorative services; (3) juvenile or family court action to remove a child or to impose treatment services; and (4) law enforcement investigations and criminal court prosecution, when appropriate.

(b) Similarly, it is not necessary for States to adopt language for the definition of "child abuse and neglect" identical to that used in the Act. A State definition which is the same in substance as the one set forth in this part will be sufficient. In addition, nothing in this part is intended to prevent a State from further elaborating on the definition or from providing additional grounds to consider a child abused or neglected. This part takes this approach in recognition of the need to allow and encourage flexibility and innovation in light of the diverse local conditions found from State to State and community to community.

(c) Finally, in order to facilitate compliance, this part makes a distinction between requirements that can be satisfied by a specific State law and those that can be satisfied by a legally authorized and legally binding administrative procedure, if certified by the State's Attorney General.

(d) In order for a State to qualify for assistance under section 4(b)(1) of the Act, the State shall satisfy each of the following ten requirements:

(1) The State must have in effect a child abuse and neglect law which includes provisions for immunity for all persons reporting, whether mandated by law or not, instances of known or reasonably suspected child abuse and neglect, from civil or criminal prosecution under any State or local law, arising out of such reporting. In the absence of a specific statutory provision in an existing child abuse and neglect reporting law, this requirement may be satisfied, but only until July 1, 1975, or the close of the next session of the State legislature, whichever is later, by a legal opinion of the State's Attorney General holding that such immunity exists under State law.

(2)(i) The State must provide for the reporting of known or suspected instances of child abuse and neglect. This requirement shall be deemed satisfied if a State requires specified persons by law, and has a law or administrative procedure which requires, allows, or encourages all other citizens, to report known or suspected instances of child abuse and neglect to one or more properly constituted authorities with the power and responsibility to perform an investigation and take necessary ameliorative and protective steps as required in paragraph (3). A properly constituted authority may include the police, the juvenile court or any agency thereof, or a legally mandated, public or private child protective agency: *Provided,* However, that a properly constituted authority must be an agency other than the agency, institution or facility involved in the acts or omissions, if the report of child abuse and neglect involves the acts or omissions of a public or private agency or other institution or facility.

(ii) In the absence of a specific statute, the requirements of this subsection may be satisfied by an opinion of the State Attorney General holding that the State administrative procedures in this regard are legally binding.

(3)(i) A State must provide that upon the receipt of a report of known or suspected instance of child abuse or neglect an appropriate investigation by a properly constituted authority shall be initiated promptly to substantiate the accuracy of the report. Such investigation may include contact with central registers, field investigations and interviews, home visits, consultation with other agencies, medical examinations, and psychological and social evaluations.

(ii) The State must provide further that, upon a finding of abuse or neglect, immediate steps, as required by law and/or administrative procedures, shall be taken to protect the health and welfare of the abused or neglected child, as well as that of any other child under the same care who may be in danger of abuse or neglect. Such steps may include multidisciplinary teams, instruction in education for parenthood, protective and preventive social counseling, foster care, emergency caretaker service, emergency homemaker service, emergency shelter care, emergency medical service, and, if appropriate, criminal court or juvenile court action, in order to protect the child and help strengthen the family, help the parents in their child rearing responsibilities, and if necessary, remove the child from a dangerous situation.

(4) The State must demonstrate that there are in effect throughout the State, in connection with the enforcement of child abuse and neglect laws and with the reporting of suspected instances of child abuse and neglect, such administrative procedures, such personnel trained in child abuse and neglect prevention and treatment, such training procedures, such institutional and other facilities (public and private), and such related multidisciplinary programs and services as may be necessary or appropriate to assure that the State has operational procedures and capabilities sufficient to deal effectively with child abuse and neglect cases in the State. Such operational procedures and capabilities shall include: provision for receipt, investigation and verification of reports; provision for the determination of treatment or ameliorative social service and medical needs; provision of such services; and, when necessary, resort to criminal or juvenile court.

(5) The State must provide for methods to preserve the confidentiality of all records concerning reports of child abuse and neglect in order to protect the rights of the child, his parents or guardians. This section shall be satisfied only if a State has a law which makes such records confidential and which makes any person who permits or encourages the unauthorized dissemination of their contents guilty of a crime. Such law may allow access to such records but only to the following agencies and persons: (i) A legally mandated, public or private child protective agency investigating a report of known or suspected child abuse or neglect or treating a child or family which is the subject of a report or record; (ii) a police or other law enforcement agency investigating a report of known or suspected child abuse or neglect; (iii) a physician who has before him a child whom he reasonably suspects may be abused or neglected; (iv) a person legally authorized to place a child in protective custody when such person has before him a child whom he reasonably suspects may be abused or neglected and such person requires the information in the report or record in order to determine whether to place the child in protective custody; (v) an agency having the legal responsibility or authorization to care for, treat, or supervise a child who is the subject of a report or record, or a parent,

guardian, or other person who is responsible for the child's welfare; (vi) any person named in the report or record who is alleged to be abused or neglected; if the person named in the report or record is a minor or is otherwise incompetent, his guardian ad litem; (vii) a parent, guardian, or other person responsible for the welfare of a child named in a report or record, with protection for the identity of reporters and other appropriate persons; (viii) a court, upon its finding that access to such records may be necessary for determination of an issue before such court, but such access shall be limited to in camera inspection, unless the court determines that public disclosure of the information contained therein is necessary for the resolution of an issue then pending before it; (ix) a grand jury upon its determination that access to such records is necessary in the conduct of its official business; (x) any appropriate State or local official responsible for the child protective service or legislation carrying out his official functions; (xi) any person engaged in a bona fide research purpose, provided, however, that no information identifying the subjects of the report shall be made available to the researcher unless it is absolutely essential to the research purpose and the appropriate State official gives prior approval. Nothing in these regulations is intended to affect a State's laws or procedures concerning the confidentiality of its criminal court and its criminal justice system.

(6) The State must provide for the cooperation of law enforcement officials, courts of competent jurisdiction, and all appropriate State agencies providing human services in relation to preventing identifying and treating child abuse and neglect. Such cooperation may include joint consultation and services, joint, planning, joint case management, joint public education and information service, utilization of each other's facilities, and joint staff and other training.

(7) The State must provide that in every case involving an abused or neglected child which results in a judicial proceeding, a guardian ad litem shall be appointed to represent the child in such proceedings. The requirement of this clause may be satisfied by a State law or by a legal opinion of the State's Attorney General holding that such appointments can be made, and by a statement from the Governor that such appointments are made, in all cases. Such guardian ad litem need not be an attorney; however, such representative may be an attorney charged with the presentation in a judicial proceeding of the evidence alleged to amount to the abuse and neglect, so long as his legal responsibility includes representing the rights, interests, welfare, and well-being of the child; where such appointments are made, the legal opinion of the State Attorney General must specify that such attorney has said legal responsibility.

(8) The State must provide that the aggregate of State support for programs or projects related to child abuse and neglect assisted by State funds shall not be reduced below the level provided during Federal fiscal year 1973, and set forth policies and procedures designed to assure that Federal funds made available under this Act for any fiscal year will be so used as to supplement and, to the extent practicable, increase the level of State funds which would, in the absence of Federal funds, be available for such programs and projects.

(9) The State must provide for dissemination of information to the general public with respect to the problem of child abuse and neglect and the facilities and the prevention and treatment methods available to combat instances of child abuse and neglect; and

(10) To the extent feasible, the State must insure that parental organizations combating child abuse and neglect, as recognized by the State, receive preferential treatment.

In addition, whenever the term "child abuse and neglect" is used (laws, administrative procedures, etc.) it must satisfy all elements of the definition expressed in 45 CFR 1340.1–2(b) of the Regulations which is Question 1 of the Eligibility Statement (HHS Form 627).

Part VI

Office of Management and Budget

Budget Rescissions and Deferrals

OFFICE OF MANAGEMENT AND BUDGET

Budget Rescissions and Deferrals

To the Congress of the United States:

In accordance with the Impoundment Control Act of 1974, I herewith propose 3 new rescissions of budget authority previously provided by the Congress, totalling $128.0 million. In addition, I am reporting 24 new deferrals totalling $825.5 million, and revisions to five previously reported deferrals increasing the amount deferred by $876.4 million.

The rescission proposals affect programs of the Department of the Interior and the National Consumer Cooperative Bank. The deferrals affect Appalachian regional development programs, programs in the Departments of Commerce, Defense, Education, Energy, Housing and Urban Development, Justice, Labor, and Transportation, as well as the Veterans Administration, the General Services Administration, and the Small Business Administration.

The details of each rescission proposal and deferral are contained in the attached reports.

Ronald Reagan

THE WHITE HOUSE,
March 10, 1981.

Rescission Proposal No: R81-35

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of the Interior	New budget authority (P.L. 96-514): $ 60,000,000
Bureau: Office of the Solicitor and Office of the Secretary	Other budgetary resources:
Appropriation title & symbol: Youth Conservation Corps 1410109	Total budgetary resources: 60,000,000
	Amount proposed for rescission: $ 38,194,000
OMB identification code: 14-0109-0-1-302	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☒ Yes 1/ ☐ No	
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This rescission proposes to eliminate spending for the Youth Conservation Corps. The program is proposed for elimination because it is one of the most costly and least targeted Federal youth programs and the work accomplished by enrollees is low priority. Elimination of the program will be accomplished by enrolling no new participants in the summer Youth Corps camps administered by the Federal conservation agencies in 1981 and by awarding no further grants to the states to carry out similar activities on non-Federal lands and waters.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects: In the Youth Conservation Corps program, 1981 enrollment by the Federal conservation agencies will be eliminated, a reduction of 19,600 participants from the 1980 level. For the state grant portion of the program, enrollment would be reduced to 8,800 instead of the 12,800 enrollment level of 1980. The number of states participating in the program would be reduced to 30.

Outlay Effect: (in millions of dollars)

1981 Outlay Estimate		Outlay Savings

PROPOSED RESCISSION OF BUDGET AUTHORITY

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Youth Conservation Corps

Of the funds appropriated under this head in the Department of the Interior and Related Agencies Appropriations Act, 1981, $38,194,000 are rescinded.

Rescission Proposal No: RSI-36

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: National Consumer Cooperative Bank	New budget authority (P.L. 96-526): $ 87,220,000
Bureau:	Other budgetary resources: 28,578,568
Appropriation title & symbol: Investment in National Consumer Cooperative Bank 201/21866 200/11866	Total budgetary resources: 115,798,568
	Amount proposed for rescission: $ 59,849,294
CMB identification code: 20-1866-0-1-376	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1981 September 30, 1982 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The National Consumer Cooperative Bank Fund was created by P.L.95-351 to make sound loans to creditworthy consumer cooperatives. The Bank has been very slow to organize. Although in existence since 1979, it had committed only about $21 million (out of over $50 million available) by the end of FY 1980. Inactive during October, November, and December, the Bank suddenly committed $59 million in loans during one week in January.

At present the only source of funding for bank loans is Treasury purchases of preferred stock. Although private purchases have occurred (they are required by law), for the most part they have been financed by Bank credit. This proposal would halt further Treasury purchases of capital stock and new commitments for guaranteed loans.

The planned rescission is an integral part of President Reagan's objective of ending the National Consumer Cooperative Bank in order to achieve budgetary restraint by reducing or eliminating lower priority programs. Although there may be merit to its activities, funding of loans by the Bank is clearly a low priority compared to remaining Federal activities and other Federal functions that have been reduced or ended.

Estimated effect: No new loans would be made by the Bank Fund with appropriated monies.

Outlay effect: (in millions of dollars)

1981 Outlay Estimate		Outlay Savings			
Without Rescission	With Rescission	1981	1982	1983	1984
97.4	55.5	41.9	18.0	--	--

R81-36

DEPARTMENT OF THE TREASURY

Investment in National Consumer Cooperative Bank

Of the funds appropriated under this head in the Department of Housing and Urban Development - Independent Agencies Appropriation Act, 1981, $59,849,284 are rescinded.

During 1981, within the resources available, gross obligations of the National Consumer Cooperative Bank Fund for the principal amount of direct loans shall not exceed $55,949,284. No additional commitments to guarantee loans shall be made during 1981.

Rescission Proposal No: R81-37

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency National Consumer Cooperative Bank	New budget authority (P.L. 96-526) $ 26,190,000
Bureau	Other budgetary resources 10,500,000
Appropriation title & symbol: Self-Help Development and Technical Assistance 1/ 280/10201 281/20201	Total budgetary resources 36,690,000
	Amount proposed for rescission $ 29,990,000
OMB identification code: 28-0201-0-1-376	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☒ Multiple-year 9/30/82 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Self-Help Development and Technical Assistance fund was created to make long-term capital advances to consumer cooperatives unable to meet the criteria of the Bank's regular lending program and to provide interest subsidies to cooperatives serving low income persons. The program, despite relatively generous support in the past, has been extremely slow to organize. Only $6.5 million has been committed out of the $37.7 million appropriated since 1979, and most of that during the past several weeks.

This rescission proposal is an integral part of President Reagan's plan to terminate the National Consumer Cooperative Bank in order to achieve budgetary restraint by reducing or eliminating lower priority programs and programs whose fundamental merit is debatable. Although there may be merit to the activities of the Office of Self-Help Development and Technical Assistance they are clearly of lower priority compared to remaining Federal activities and other Federal functions that have been reduced or terminated.

Estimated effect: No new capital advances by the Self-Help Development and Technical Assistance Fund will be made.

Outlay effect: (In millions of dollars)

NATIONAL CONSUMER COOPERATIVE BANK

Self-Help Development and Technical Assistance

Of the funds appropriated under this head in the Department of Housing and Urban Development - Independent Agencies Appropriation Act, 1980, and the Department of Housing and Urban Development - Independent Agencies Appropriation Act, 1981, $29,900,000 are rescinded.

During 1981, within the resources and authority available, gross obligations for the principal amount of direct loans shall not exceed $5,700,000.

Deferral No: D81-79

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency Funds Appropriated to the President	New budget authority (P.L. 96-367) $ 339,300,000
Bureau Appalachian Regional Development Programs	Other budgetary resources 50,233,279
Appropriation title & symbol: Appalachian Regional Development Programs 11X0090	Total budgetary resources 389,533,279
	Amount to be deferred: Part of year $ ____ Entire year 10,000,000
OMB identification code: 11-0090-0-1-452	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: This appropriation provides funds for the Appalachian Regional Commission's highway, area development, and research and local development district support activities. As part of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens, the non-highway activities of the Commission will be proposed for termination in 1981.

Funds associated with non-highway activities will be deferred for the remainder of FY 1981. These funds will be available in 1982 and subsequent years to pay the termination costs for this account.

Estimated Effect: This deferral action will provide for termination costs associated with elimination of funding that will be proposed for the Appalachian Regional Commission.

Outlay Effect: This deferral action will shift an estimated $5.9 million in FY 1981 outlays into FY 1982.

Deferral No: D81-80

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: DEPARTMENT OF COMMERCE	New budget authority (P.L. 96-536): $135,000,000
Bureau: Maritime Administration	Other budgetary resources: 110,211,253
Appropriation title & symbol: Ship Construction 13X1708	Total budgetary resources: 245,211,253
	Amount to be deferred: Part of year: $ ____
	Entire year: 92,000,000
OMB identification code: 13-1708-0-1-403	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other ____
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification:

This appropriation provides for the payment to U.S. shipyards of construction differential subsidies (CDS) which enable the construction or reconstruction of ships for U.S. citizens at prices comparable to those which would be paid for equivalent ships constructed in foreign shipyards.

Funds totalling $92,000,000 will be deferred for the remainder of FY 1981 and made available for obligation in FY 1982. This deferral action assumes that two ships will be contracted for in FY 1982, a comparable, but somewhat reduced program level from FY 1981.

The Administration plans a full review of maritime policies and the specific uses of these deferred funds will flow from the revised policies.

This deferral action is an integral component of President Reagan's comprehensive economic plan for spending reductions.

Estimated Effect:

This deferral action will delay the contracting for construction of two new ocean-going vessels and may preclude the Government subsidization of pollution retrofits on privately-owned subsidy-operated tankers. Since ship construction activity is up, there should be minimal impact from this deferral.

Outlay Effect:

This deferral action will shift an estimated $21 million in 1981 outlays into 1982 and $16 million in 1982 outlays into 1983.

Deferral No: D81-81

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Defense--Civil	New budget authority (P.L. 96-367___): $1,585,742,000
Bureau: Corps of Engineers -- Civil	Other budgetary resources: 189,419,708
Appropriation title & symbol: Construction, general 96X3122	Total budgetary resources: 1,775,161,708
	Amount to be deferred: Part of year: $ ____
	Entire year: 10,000,000
OMB identification code: 96-3122-0-1-301	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other ____
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: This appropriation is devoted primarily to the construction of water resources development projects throughout the nation.

Funds totalling $10,000,000 will be deferred for the remainder of FY 1981. This will preclude further construction activity on three projects under construction which have been proposed for termination: Red River Waterway, LA; Tetonville, KY; and Big South Fork National River and Recreation area, KY and TN. The funds deferred in FY 1981 will be utilized in FY 1982 to efficiently close down activity on these three projects.

This deferral is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects: As a result of this deferral, no further construction contracts will be awarded and action will commence to shut down all construction activity for these projects.

Outlay Effects: This deferral will shift an estimated $10.0 million in 1981 outlays to 1982.

Deferral No: D81-82

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

D81-82

Estimated Effect: No new HEFLI loans will be initiated during 1981.

Deferral No: D81-82

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of Education	New budget authority (P.L.) $ ---
Bureau Office of Postsecondary Education	Other budgetary resources 69,896,102
Appropriation title & symbol: Higher Education Facilities Loan and Insurance 91X0240	Total budgetary resources 69,896,102
	Amount to be deferred: Part of year $; Entire year 23,000,000
OMB identification code: 91-0240-0-1-502	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other
Grant program ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The higher education facilities loan program authorizes loans for construction of academic facilities in higher education institutions. The Department of Education pays a variable rate of interest to the Department of Treasury on appropriations which established the fund between 1965 and 1969. This rate is currently 11 1/4 percent. No new appropriations have been provided for the program since 1969 and no new loans have been made since 1972.

The interest rate charged to participating institutions under this program was three percent, and will be four percent for any new loans as required by the Education Amendments of 1980. The deficit in the interest expense is met by drawing funds from unobligated balances in the Higher Education Facilities Loan and Insurance (HEFLI) account. The unobligated balance has declined from $123 million in 1979 to $43.5 million in 1980, and will decline to $29.4 million at the end of 1981 and to $6.7 million at the end of 1982. The balance will soon be exhausted, and additional appropriations will be required to meet the interest expense to the Department of the Treasury.

If any HEFLI funds are made available for new lending activity, the depletion of the fund will be accelerated and additional appropriations would be required to meet mandatory interest expenses in 1982. Further loans from the HEFLI account will also increase interest paid to the Treasury in proportion to the size of the new loans.

Because of these considerations, the Administration does not want to initiate new lending activity under this program in 1981. A proposal to this effect is now before the Congress.

Estimated Effect: No new HEFLI loans will be initiated during 1981.

Outlay Effect: This deferral action has no significant effect on outlays.

D81-29A

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344

This report revises Deferral No. D81-29, transmitted to the Congress on January 15, 1981.

This revision to a deferral for Atomic energy defense activities, operating expenses in the Department of Energy increases the amount previously reported as deferred from $5,000,000 to $10,000,000. This increase of $5,000,000 reflects the President's decision to scale back and redirect the inertial fusion program.

Deferral No: D81-29A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Energy	New budget authority (P.L. 96-367 & P.L. 96-369): $2,937,323,000
Bureau: Atomic Energy Defense Activities	Other budgetary resources: 705,792,260
Appropriation title & symbol: Atomic Energy Defense Activities, Operating Expenses 89X0220	Total budgetary resources: 3,643,115,260
	Amount to be deferred: Part of year: $ ____ Entire year: *10,000,000
OMB identification code: 89-0220-0-1-053	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: This deferral action of FY 1981 funds into FY 1982 reflects a decision to rescope the inertial fusion program and to focus on near term R&D, utilizing current facilities. This deferral action permits an orderly phase-down to a lower recommended funding level for inertial fusion in FY 1982, consistant with the above strategy. Advanced technology development activities (which anticipate the construction of large future demonstration facilities) will be phased out.

Estimated Effects:*
- Reduction in force of 106 contractor personnel in this program; partial absorption by weapons R&D program.
- Reduction in glass laser development contracting planned for FY 1981 not yet let.
- Phase out of the efforts in Advanced Driver Technology evaluation.

Estimated Outlay Effects*

This deferral action will have the effect of shifting $10 million in outlays from FY 1981 into FY 1982.

* Revised from previous report.

Deferral No: D81-83

D81-33A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Deferral No: D81-33

D81-33A

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of Energy	New budget authority (P.L. 96-536, 96-514) $1,485,000,000
Bureau Energy Programs	Other budgetary resources 23,669,194
Appropriation title & symbol: Strategic Petroleum Reserve 89X0218	Total budgetary resources 1,508,669,194
	Amount to be deferred: Part of year $ 8,000,000
	Entire year
OMB identification code: 89-0218-0-1-274	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This account finances the development of the Strategic Petroleum Reserve, including oil acquisition and transportation, facilities development, planning and administration. On October 1, a reserve of $8 million was established to provide for unanticipated costs associated with the development of facilities for Phase II of the Reserve. These funds will be made available as the need arises.

This routine reserve was established in accordance with the provisions of the Antideficiency Act (31 U.S.C. 665) which provides for the establishment of reserves for contingencies. This deferral action was not reported earlier due to an administrative oversight.

Estimated Effects: This deferral action will have no programmatic or budgetary effects.

Outlay Effects: This deferral action has no effect on outlays.

SUPPLEMENTAL REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344

This report revises Deferral No. D81-33, transmitted to the Congress on January 15, 1981.

This revision to a deferral for fossil energy construction funds in the Department of Energy increases the amount previously reported as deferred from $42,000,000 to $205,000,000. This increase of $163,000,000 reflects a decision to defer funds intended for the SRC II coal liquefaction plant pending conclusion of consultations with international participants in the project and consideration of possible funding support for the project by the Synthetic Fuels Corporation.

Deferral No: 081-33A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Energy	New budget authority (P.L. 96-514): $423,300,000
Bureau: Energy Programs	Other budgetary resources: 162,706,000*
Appropriation title & symbol: Fossil Energy Construction 89X0214	Total budgetary resources: 586,006,000*
	Amount to be deferred: Part of year: $ ____ Entire year: $205,000,000*
OMB identification code: 89-0214-0-1-271	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification:*

Under the Administration's synthetic fuels policy all funding for fossil energy demonstration projects currently being supported in the Department of Energy would be terminated. These and other advanced synthetic fuel technology projects will be considered by the Synthetic Fuels Corporation for support as less than full-sized synthetic fuel project modules. In the case of the SRC II coal liquefaction plant, no rescission can be proposed until consultations with the international participants in this project have been completed. The construction funds appropriated in FY 1981 and prior years are deferred pending completion of these consultations.

Estimated Effects:*

This deferral of FY 1981 and unobligated prior year construction funds will have no effect on the completion of the detailed design currently scheduled for completion in 1983 or the completion and final decision on required environmental impact statement for this project. Some construction phase activities (e.g. long lead procurement) will be delayed pending conclusion of international consultations and possible consideration of this project by the SFC.

Outlay Effects:*

This deferral action will have the effect of shifting $80 million in FY 1981 outlays into FY 1982.

* Revised from previous report.

Deferral No: 081-34

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Housing and Urban Development	New budget authority (P.L. 96-526): $44,650,000
Bureau: Policy Development and Research	Other budgetary resources: 10,024,529
Appropriation title & symbol: Research and Technology 861/2010X 860/1010X	Total budgetary resources: 54,674,529
	Amount to be deferred: Part of year: $ ____ Entire year: 5,000,000
OMB identification code: 86-0108-0-1-451	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program: ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1981 / September 30, 1982 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: In accordance with the Administration's plan for reducing Federal spending $5,000,000 in funds intended for low priority research and technology projects are deferred the remainder of this fiscal year. The deferred funds will be available for research activities in FY 1982, thereby reducing the amount of appropriated funds requested for that year.

Estimated Effects: This reduction in the amount of funding available for research activities will mean that fewer contracts can be awarded, resulting in fewer analyses of program performance and related topics. Research efforts will be concentrated on high priority projects with a foreseeable use of the end product.

Outlay Effects: This deferral action will reduce outlays by $1.0 million in FY 1981 and $3.6 million in FY 1982.

Deferral No: 081-85

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Deferral No: D81-85

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Justice	New budget authority (P.L. 96-536): $ 39,433,000
Bureau: General Administration	Other budgetary resources: 3,451,000
Appropriation title & symbol: Salaries and Expenses 1810128	Total budgetary resources: 42,884,000
	Amount to be deferred: Part of year: $ 7,485,000
	Entire year:
CMB identification code: 15-0128-0-1-751	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act
Grant program: ☐ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This appropriation finances administrative activities of the Department of Justice as well as the Federal justice research program. In accordance with the goals of the Administration to reduce unnecessary government spending, the Department of Justice is deferring $7,485,000 in new budget authority pending transfer of these funds to offset supplemental requirements in the Federal Bureau of Investigation. The major program elements affected by the deferral are the State and Local Drug Grant Program ($6,185,000) and the Special Management Studies Program ($1,300,000). An additional reduction for the State and Local Drug Grant Program of $145,000 will be taken by reducing pending supplemental requests.

Estimated Effect: The effect of this deferral will be to preserve these funds pending congressional action on the transfer request.

Outlay Effect: This deferral action has no net effect on outlays.

Deferral No: D81-86

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Justice	New budget authority (P.L. 96-536): $ 334,400,000
Bureau: Federal Prison System	Other budgetary resources: 12,224,000
Appropriation title & symbol: Salaries and Expenses 1811060	Total budgetary resources: 346,624,000

Grant program: ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This appropriation finances expenses necessary for the administration, operation, and maintenance of Federal penal and correctional institutions. In accordance with the goals of the Administration to reduce unnecessary government spending, $4,385,000 in savings realized from reductions in personnel, procurement and contracting is being deferred pending congressional action on a request to transfer these funds to offset supplemental requirements for the Immigration and Naturalization Service.

Estimated Effects: The effect of this deferral will be to preserve these funds pending congressional action on the transfer request.

Outlay Effects: This deferral action has no net effect on outlays.

Deferral No: D81-87

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Justice	New budget authority (P.L. 96-536): $ 127,845,000
Bureau: Office of Justice Assistance, Research, and Statistics	Other budgetary resources: 43,800,590
Appropriation title & symbol: Law Enforcement Assistance 15X0400	Total budgetary resources: 171,645,590
	Amount to be deferred: Part of year: $ 670,000
	Entire year:
OMB identification code: 15-0400-0-1-754	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This appropriation finances grants, contracts, cooperative agreements, and other assistance authorized by the Justice System Improvement Act of 1979 and Title II of the Juvenile Justice and Delinquency Prevention Act of 1974 as well as administrative functions to carry out these activities. Savings realized from employment and procurement reductions amount to $670,000. These funds are deferred pending transfer to help offset supplemental requirements for the Immigration and Naturalization Service.

Estimated Effects: The effect of this deferral will be to preserve these funds pending congressional action on the transfer request.

Outlay Effect: This deferral action has no effect on outlays.

D81-36A

SUPPLEMENTARY REPORT
Report pursuant to Section 1014(c) of Public Law 93-344

This report revises Deferral No. D81-36 transmitted to the Congress on January 15,1981.

The amount deferred for Employment and Training Assistance in the Department of Labor is $729,187,000, an increase of $652,488,000 over the amount previously deferred. This increase is attributable to decisions to (a) phase out the Public Service Employment program funded under title II-D of this account by the end of fiscal year 1981, and (b) discontinue welfare reform demonstration programs started under the previous administration.

Deferral No: D81-36A

D81-36A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

The major program involved is the title II-D Public Service Employment program. This program is being phased out because it has

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of Labor	New budget authority (P.L. 96-536) $6,987,244,000
Bureau Employment and Training Administration	Other budgetary resources 196,360,000
Appropriation title & symbol	Total budgetary resources 7,183,604,244
Employment and training assistance 161/20174	Amount to be deferred: Part of year $ ____
	Entire year 729,187,000*
OMB identification code: 16-0174-0-1-504	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other ____
Type of account or fund: ☐ Annual	Type of budget authority: ☒ Appropriation
☒ Multiple-year September 30, 1982 (expiration date)	☐ Contract authority
☐ No-year	☐ Other ____

Justification:*

In addition to the $76,699,000 previously reported as deferred, an additional $652,488,000 of the amount made available by the Continuing Resolution (P.L. 96-536) through June 5, 1981 is now deferred. If the financing levels provided by the Continuing Resolution were to be continued beyond June 5, 1981, an additional $21,968,000 would be deferred. The deferral is being accomplished both by an appointment reserve of unobligated balances and by other management actions which will prevent the expenditure of appropriations.

This appropriation provides for a system of Federal, State, and local programs of training and other services for economically disadvantaged, unemployed, and underemployed persons intended to lead to permanent gains in employment and increased self-sufficiency. The additional amount deferred reflects a decision to phase out by the end of 1981 those programs funded by this appropriation that have proven ineffective in providing the disadvantaged with skills marketable in the private sector or that are not relevant to current program directions.

The major program involved is the title II-D Public Service Employment program. This program is being phased out because it has proven not to lead to placement in the private sector and not to show as substantial long-term returns to individuals as do some training programs. The phase out will be accomplished by freezing enrollments, allowing for attrition, and, if necessary, laying off participants. It has also been decided to terminate the welfare reform demonstration programs developed by the previous administration to test aspects of its welfare proposals. The projects will be phased out as quickly as possible.. This administration is not renewing the proposal these expensive demonstrations were intended to test.

The amounts are to be deferred for the entire year. Their availability in 1982 will decrease the need for budget authority for continuing other programs financed under this account.

Estimated Effects:*

In the title II-D Public Service Employment program, 1981 enrollment would average 146,670, compared to the 213,200 funded by the Continuing Resolution. The twelve welfare reform and other demonstrations at several sites will be phased out.

Outlay Effects:*

Current outlay estimate for 1981:

Under current deferral	7,400,000,000
Under revised deferral	6,856,177,000
Additional 1981 outlay savings	543,823,000

* Revised from previous report.

Deferral No: D81-88

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of Transportation	New budget authority (P.L. 96-400) $10,788,698
Bureau Office of the Secretary	Other budgetary resources 3,075,732
Appropriation title & symbol: Transportation Planning, Research, and Development 6900142	Total budgetary resources 13,864,431
	Amount to be deferred: Part of year $ —; Entire year 1,040,000
OMB identification code: 69-0142-0-1-407	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other
Grant program ☐ Yes ☒ No	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	

JUSTIFICATION: This appropriation provides for the conduct of research activities concerned with planning, analysis, and information development needed to support the development of national transportation policies. As part of the President's program to reduce Federal spending, obligations under this program will be slowed with greater reliance being placed on the results of studies and research being carried out by the operating administrations.

Estimated Effects: This deferral will not jeopardize the effective exercise of policy formulation and leadership responsibilities of the Secretary, but reflects a slowdown in research conducted in the Office of the Secretary in 1981. The reserved funds will be applied to the 1982 request by reducing the appropriation requested for research and development.

Outlay Effects: This deferral action will have the effect of shifting $520,000 in 1981 outlays into 1982 and a like amount from FY 1982 into FY 1983.

D81-178

SUPPLEMENTARY REPORT

Report pursuant to Section 1014(c) of P.L. 93-344.

This report revises Deferral No. D81-17A transmitted to the Congress on December 2, 1980.

The amount currently deferred for Facilities and Equipment for the Federal Administration is $365,783,045. The decrease of $8,642,965 from the amount previously deported as deferred reflects a release of $14,893,000 and a subsequent increase in the amount deferred of $6,250,000.

This revision to the previous report is necessary to report a change in the justification for $30 million of the funds currently deferred. This amount is now reserved as a part of the Administration's program for reducing Federal spending.

Deferral No: D81-178

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Deferral No: D81-178

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 96-400): $ 350,000,000
Bureau: Federal Aviation Administration	Other budgetary resources: 387,533,045
Appropriation title & symbol: Facilities & Equipment (Airport and Airway Trust Fund) 69X8107 690/48107 698/28107 691/58107 699/38107	Total budgetary resources: 737,533,045
	Amount to be deferred: Part of year: $ -0-
	Entire year: 365,783,045
OMB identification code: 69-8107-0-7-402	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual 698/28107 9/30/82 699/38107 9/30/83 690/48107 9/30/84 ☒ Multiple-year 691/58107 9/30/85 (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

JUSTIFICATION:*

Funds from this account are used to procure specific congressionally approved facilities and equipment for the expansion and modernization of the National Airspace System. Because of the lengthy procurement and construction time for interrelated new facilities and complex equipment systems, it is not possible to obligate all funds necessary to complete each project in the year funds are appropriated. Therefore, it is necessary to apportion funds so that sufficient resources will be available in future periods to complete these projects. Of the $365.8 million deferred for the remainder of this fiscal year, $335.8 million is reserved in accordance with the congressional intent to provide multi-year funding for the total costs of these projects. This amount is reserved for program requirements in subsequent years pursuant to the provisions of the Antideficiency Act (31 U.S.C. 665). The remaining $30.0 million is reserved as part of the Administration's program for reducing Federal spending. This amount will be used to help offset requirements for additonal new budget authority in fiscal year 1982.

Estimated Effects:*

The deferral of $335.8 million is consistent with the normal operation of this program and has no budgetary or programmatic effects. Deferral of the remaining $30 million will delay the installation of new equipment and provision of new facilities at sites that are considered to be of lower priority or not in compliance with minimum FAA criteria for the program.

Outlay Effects:* This deferral action will reduce fiscal year 1981 outlays by $3.5 million.

* Revised from previous report.

Deferral No: D81-69

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 96-400): $ 25,000,000
Bureau: Federal Highway Administration	Other budgetary resources: 45,350,177 P.L. 96-400: -82,858,177
Appropriation title & symbol: Trust Fund Share of Other Highway Programs 69X8009	Total budgetary resources: 37,500,000
	Amount to be deferred: Part of year: $
	Entire year (estimated): 37,500,000
OMB identification code: 69-8009-0-7-601	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☐ No	
Type of account or fund: ☐ Annual ☒ Multiple-year Sept. 30, 1981 Sept. 30, 1982 (expiration date) ☐ No-year Sept. 30, 1983 Sept. 30, 1984	Type of budget authority: ☐ Appropriation ☒ Contract authority ☐ Other

Justification:

Section 129 of the Federal-Aid Highway Act of 1973 authorized the Secretary to establish criteria for the location and construction or reconstruction of a National Scenic and Recreational Highway designated as the Great River Road. A single continuous route was designated which runs through all ten States bordering the Mississippi River.

The Surface Transportation Assistance Act of 1978 provides authorizations of $10 million in general funds and $25 million in Highway Trust Funds for each of the fiscal years 1979 through 1982. The general fund authorizations require an appropriation to become available. The trust fund authorizations are contract authority and become available on the first day of the fiscal year for which authorized. Current budgetary resources for FY 1981 total $90.4 million, all of which is against trust fund authority. This consists of $25 million of new authority for FY 1981 plus $65.4 million in unobligated balances from prior year authorizations. Section 311 of the Department of Transportation and Related Agencies Appropriations Act, 1981 (P.L. 96-400) limits FY 1981 obligations to $37.5 million.

All segments of the Great River Road other than access spurs have been designated as being on the Federal-aid System and may be improved using regular Federal-aid funds. The discrete Great River Road program is duplicative and unnecessary.

Deferral No: D91-90

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 96-400): $ 50,000,000
Bureau: Federal Railroad Administration	Other budgetary resources: 13,145,680
Appropriation title & symbol: Railroad Research and Development 69X0745	Total budgetary resources: 63,145,680
	Amount to be deferred: Part of year: $ ____ Entire year: 383,000
OMB identification code: 69-0745-0-1-401	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act ☐ Other ____
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: This appropriation is devoted to four basic railroad research and development objectives: (1) improvements in the safety of train operations; (2) improvements in the area of freight operations; (3) improvements in rail passenger systems; and (4) development of policies that assist railroads, labor, and shippers in identifying and overcoming various problems. A research and development facility, the Transportation Test Center in Pueblo, Colorado, is operated in support of the Department of Transportation and other Government agencies.

Savings associated with reductions in staffing, restrictions on travel, and reductions in equipment and the use of consulting services total $383,000 for FY 1981. These funds are deferred for the remainder of this fiscal year and will be used to help offset administrative costs in FY 1982.

Estimated Effects: This deferral action will preserve the savings realized during FY 1981 and allow a reduction in the FY 1982 budget request for administrative expenses.

Outlay Effects: This deferral action will have the effect of reducing 1981 outlays by $383,000.

D81-89

2

All unobligated balances remaining available as of March 10, 1981, are deferred. Effective upon that date, all obligational activity was suspended and will remain so through the remainder of this fiscal year. Actual obligations through this date are not yet known, but are estimated to be $16 million leaving an unobligated balance of $21.5 million under the obligation limitation. Until the final balance is known, this estimated amount is being shown as the deferred authority.

This deferral action is an integral component of the President's economic program announced on February 18. The withholding of obligational authority for this program for the remainder of FY 1981 will assist in reducing Federal spending.

Estimated Effects: The deferral of an estimated $21.5 million in FY 1981 will cause some or all of the ten States eligible for funding under this program to delay or cancel highway projects planned for the remainder of this fiscal year. However, virtually all of these projects are eligible for funding under the regular Federal-aid Highways program.

Outlay Effects: This deferral action will shift an estimated $6.5 million in FY 1981 outlays into FY 1982.

Deferral No: D81-91

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

D81-91

Deferral No: D81-91

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 96-400): $124,423,000
Bureau: Federal Railroad Administration	Other budgetary resources: 18,931,715
Appropriation title & symbol: Rail Service Assistance 69X0122	Total budgetary resources: 143,354,715
	Amount to be deferred: Part of year: $80,000,000
	Entire year: 341,000
OMB identification code: 69-0122-0-1-401	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act ($341,000)
Grant program: ☒ Yes ☐ No	☐ Other _____
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification: This appropriation provides financial assistance to states for continuing rail services on low volume branch lines, providing assistance to minority businesses, monitoring Conrail and Amtrak operations, facilitating rail restructuring projects, supporting a Conrail workforce reduction program, and liquidating loan guarantee defaults.

Funds totaling $80 million for continuing services on low volume branch lines are deferred pending congressional action on a request to divert these funds to offset FY 1981 supplemental appropriation requests in this account. The funds will be diverted as follows: (1) $50 million to offset a supplemental of like amount for rail restructuring assistance; (2) $25 million to offset a supplemental of like amount for Conrail's workforce reduction program; and (3) $5 million to offset approximately half of a $9.6 million supplemental for loan guarantee defaults. Deferral and subsequent termination of the low volume branch line program is justified on the basis that the benefits of the program are primarily local and because interstate commerce will not be disrupted.

Savings associated with staffing reductions, travel restrictions, and reductions in equipment purchases and use of consulting services total $341,000 for FY 1981. These funds are deferred for the remainder of this fiscal year and will be used to help offset administrative costs in FY 1982.

Estimated Effects: The $80 million low volume branch line program will be discontinued, but carryover funds available in 1981 will be used to meet current commitments. The deferred funds will be used to reduce the FY 1982 budget request for appropriations for administrative costs.

Outlay Effects: This deferral action will result in a FY 1981 outlay reduction of $8 million from low volume branch lines and $341,000 from administrative expenses.

Deferral No: D81-92

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 96-400): $ 350,000,000
Bureau: Federal Railroad Administration	Other budgetary resources: 183,561,073
Appropriation title & symbol: Northeast Corridor Improvement Program 69X0123	Total budgetary resources: 533,561,073
	Amount to be deferred: Part of year: $ ____ Entire year: $125,000,000
OMB identification code: 69-0123-0-1-401	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: This appropriation provides for the upgrading of rail passenger service between Boston, Massachusetts, and Washington, D. C. Improvements to the Northeast Corridor include improvements to the right-of-way, associated facilities, and installation of the necessary equipment for improved operations. Major rehabilitation efforts in 1981 include route realignment, track structure, bridges, electrification, signaling, service facilities, and stations.

This deferral action is part of the Administration's effort to reduce the inflationary impact of Federal spending on the general economy by postponing lower priority activities wherever feasible. Obligation of these funds is planned for 1982.

This deferral action will preserve these funds for the remainder of this fiscal year and will allow the full amount to be applied toward reducing the 1982 appropriation request. It is consistent with the Administration's decision to reorient the program from trip time goals to safe, efficient and reliable service.

Estimated Effects: This deferral action will have the effect of delaying various improvements including bridge and electrification overhaul, track improvements, signaling and communications. It will place emphasis on those projects directly related to safe, efficient, and reliable service.

Outlay Effects: This deferral action will have the effect of reducing 1981 outlays by $25 million.

Deferral No: D81-93

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 96-400): $ 4,615,200,000
Bureau: Urban Mass Transportation Administration	Other budgetary resources: 705,955,110
Appropriation title & symbol: Urban Mass Transportation Fund (Urban Discretionary Grants) 69X1119 69l/41119	Total budgetary resources: 5,321,155,110
	Amount to be deferred: Part of year: $ ____ Entire year: 210,000,000
OMB identification code: 69-1119-0-1-401	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program: ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1984 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: The Urban discretionary grant program was authorized by the Urban Mass Transportation Act of 1974, as amended. It provides Federal financing to States and local agencies for mass transportation investments. Such investments may include construction of new, fixed guideway systems; extensions to existing guideway systems; major bus fleet expansions; emergency repairs to transit facilities resulting from natural disasters; deployment of new technology; innovative transit demonstration projects; and technical planning assistance.

The Department of Transportation and Related Agencies Appropriations Act, 1981 (P.L. 96-400) provided $2,190 million for the Urban discretionary grant program. A program level of $1,980 million is planned in FY 1981 for these discretionary grants. This decreased program level will be made possible by deferring funds from low priority projects for the remainder of this fiscal year, and then reprogramming these funds to offset FY 1982 budget authority requirements in higher priority programs.

This deferral action is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects: This deferral action will reduce the 1981 program level in New Starts and Urban Initiatives, and through reprogramming, allow a reduction in requested FY 1982 budget authority.

Outlay Effects: This deferral action will have the effect of reducing 1981 outlays by $30 million.

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 96-400): $31,420,000
Bureau: Research and Special Programs Administration	Other budgetary resources: 3,182,000
Appropriation title & symbol: Research and Special Programs 6910104 69X0104	Total budgetary resources: 34,982,000
	Amount to be deferred: Part of year: $1,000,000
	Entire year: 2,100,000
CMB identification code: 69-0104-0-1-407	Legal authority (in addition to sec. 1013): [X] Antideficiency Act ($1,000,000) [ ] Other
Grant program: [ ] Yes [X] No	
Type of account or fund: [X] Annual [ ] Multiple-year ____ (expiration date) [X] No-year	Type of budget authority: [X] Appropriation [ ] Contract authority [ ] Other

Justification: This appropriation provides for the conduct of advanced research and technology. This program seeks to improve the national transportation system by the investigation of basic transportation theories and concepts, multimodal technologies and energy efficiencies, and the movement of goods through terminal areas including the development of multimodal terminals. As part of the Administration's effort to reduce Federal spending, $2.1 million in advanced research funds will be deferred for the remainder of this fiscal year and used to reduce FY 1982 appropriations requested for research and development. In addition, $1.0 million in funds for administrative expenses are deferred pending enactment of a supplemental request to transfer these funds to the Urban Mass Transportation Administration for increased pay costs.

Estimated Effects: This deferral action will have no significant programmatic effect on current research and program administration activities.

Outlay Effects: This deferral action will reduce FY 1981 outlays by $2.0 million.

Deferral No: D81-95

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Veterans Administration	New budget authority (P.L. 96-___): $6,020,013,000
Bureau:	Other budgetary resources: 46,000,000
Appropriation title & symbol: Medical Care 3610160	Total budgetary resources: 6,066,013,000
	Amount to be deferred: Part of year: $29,389,000
	Entire year: ____
CMB identification code: 36-0160-0-1-703	Legal authority (in addition to sec. 1013): [ ] Antideficiency Act [ ] Other ____
Grant program: [ ] Yes [X] No	
Type of account or fund: [X] Annual [ ] Multiple-year ____ (expiration date) [ ] No-year	Type of budget authority: [X] Appropriation [ ] Contract authority [ ] Other ____

Justification:

This program provides funds for operating the Veterans Administration medical system which is comprised of 172 hospitals, 13 nursing homes, 229 outpatient clinics, and 16 domiciliaries and has an average employment of 185,880 persons. This deferral action reflects a decision to defer funds for non-direct care staffing of 1,280 full-time equivalents until the fourth quarter. These funds are deferred as part of the Administration's efforts to curtail the growth of Federal employment.

Estimated Effects:

Deferral of non-direct care staffing funds will have a minimal effect on various activities, including building management, medical administration, gardening, voluntary service, library, and recreation. This deferral action will have no effect on direct care services.

Outlay Effect:

This deferral action will shift funds into the fourth quarter, thus permitting a reduction in the supplemental request for increased pay costs.

Deferral No: D81-96

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Veterans Administration	New budget authority (P.L. 96-526): $132,153,000
Bureau:	Other budgetary resources: 7,968,433
Appropriation title & symbol: Medical and Prosthetic Research 300/10161 361/20161 36X0161	Total budgetary resources: 140,121,433
	Amount to be deferred: Part of year: $1,690,000
	Entire year:
CNB identification code: 36-0161-0-1-703	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1982 September 30, 1981 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

This program provides funds for medical, rehabilitative, and health services research of health problems common to veterans and has an average employment of 4,443. This deferral action reflects a decision to defer staffing funds for 74 full-time equivalents until the fourth quarter of the current fiscal year. These funds are deferred as part of the Administration's efforts to curtail the growth of Federal employment.

Estimated Effect:

Deferral of these staffing funds will result in postponement of low priority research activities. Essential research activities will be continued.

Outlay Effect:

This deferral action will shift funds into the fourth quarter, thus permitting a reduction in the supplemental request for increased pay costs.

Deferral No: D81-97

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Veterans Administration	New budget authority (P.L. 96-526): $51,218,000
Bureau:	Other budgetary resources: 0
Appropriation title & symbol: Medical Administration and Miscellaneous Operating Expenses 3610152	Total budgetary resources: 51,218,000
	Amount to be deferred: Part of year: $515,000
	Entire year:
CNB identification code: 36-0152-0-1-703	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

This appropriation provides for the administration and supervision of Veterans Administration medical programs, the conduct of post graduate and in service training activities to support the medical programs, and the exchange of medical information with the medical-scientific community. Average employment for this account is 869. This deferral action reflects a decision to defer staffing funds for 14 full-time equivalents until the fourth quarter. These funds are deferred as part of the Administration's efforts to curtail the growth of Federal employment.

Estimated Effects:

This deferral action will have minimal effect on the management of the VA medical system.

Outlay Effect:

This deferral action will shift funds into the fourth quarter, thus permitting a reduction in the supplemental request for increased pay costs.

Deferral No: D81-28

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Veterans Administration	New budget authority (P.L. 96-529): $423,774,000
Bureau:	Other budgetary resources: 853,523,090
Appropriation title & symbol: Construction, Major Projects 36X0110	Total budgetary resources: 277,297,090
	Amount to be deferred: Part of year: $; Entire year: 183,493,000
OMB identification code: 36-0110-0-1-703	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	

Justification:

Amounts shown reflect a decision to defer contract awards through FY 1981 for nine large construction contracts, (Denver, Colo. clinical addition; New Orleans, La., clinical addition; Chillicothe, Ohio, phased facility replacement; Washington, D.C. nursing home and parking garage; Long Beach, Calif. research and education addition; Palo Alto, Calif surgical addition; East Orange, New Jersey, facility renovation; St. Albans, New York laundry building; and Gainesville, Florida clinical and research expansion). This amount is deferred while the Administration reviews all Major Construction projects for VA medical facilities and considers alternative methods for providing readily available quality medical care for eligible veterans.

Estimated Effects:

This deferral action may result in the delay of these projects while VA's medical facility construction program is being evaluated.

Outlay Effect:

This deferral action will have the effect of shifting outlays by fiscal year as follows:

-- 1981 into 1982, $10 million;
-- 1982 into 1983, $45 million;
-- 1983 into 1984, $41 million.

Deferral No: D81-29

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: General Services Administration	New budget authority (P.L. 96-536): $15,300,000
Bureau:	Other budgetary resources:
Appropriation title & symbol: Office of Inspector General 4710108	Total budgetary resources: 15,300,000
	Amount to be deferred: Part of year: $444,000 ; Entire year:
OMB identification code: 47-0108-0-1-804	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	

Justification: This appropriation finances agency-wide audit and investigative functions to identify and correct management and administrative deficiencies within GSA. Savings of $444,000 will be realized in this account as a result of theFederal hiring freeze. This amount is being proposed for transfer to the Federal Supply Service as part of its revised pending enactment of the supplemental appropriation authorizing the transfer.

Estimated Effects: This deferral will preserve these funds pending Congressional action on the transfer request.

Outlay Effect: This deferral action has no effect on outlays.

Deferral No: D81-[illegible]

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: General Services Administration	New budget authority (P.L. 96-536): $ 823,000
Bureau:	Other budgetary resources:
Appropriation title & symbol: Allowances and office staff for former Presidents 4710105	Total budgetary resources: 823,000
	Amount to be deferred: Part of year: $ 8,000
	Entire year:
OMB identification code: 47-0105-0-1-802	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This appropriation provides for the pensions, office staffs and related expenses for former Presidents and for pensions and postal franking privileges for the widows of former Presidents Harry S. Truman and Lyndon B. Johnson. Savings anticipated from a 15 percent travel reduction amount to $8,000. These funds are deferred pending transfer to help offset supplemental requirements for the National Archives and Records Service.

Estimated Effects: This deferral will preserve these funds pending Congressional action on the transfer request.

Outlay Effect: This deferral action has no effect on outlays.

Deferral No: D81-[illegible]

DEFERRAL OF BUDGET AUTHORITY

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

D81-41A

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344

This report revises Deferral No. D81-41, transmitted to the Congress on January 15, 1981.

This revision to a deferral for the Small Business Administration's business loan and investment fund increases the amount previously reported as deferred from $57,500,000 to $113,400,000. This increase of $55,900,000 in deferred funds results from a decision to decrease 1981 loan activities in accordance with the President's plan to reduce Federal spending.

Deferral No: D81-41A

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Small Business Administration Bureau:	New budget authority (P.L. 96-536): $609,000,000 Other budgetary resources: 531,228,898 Total budgetary resources: 1,140,228,898
Appropriation title & symbol: Business Loan and Investment Fund 73X4154	Amount to be deferred: Part of year: $ Entire year: 113,400,000*
OMB identification code: 73-4154-0-3-376	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: * The Continuing Resolution (P.L. 96-536) provided $609 million in 1981 as a capital appropriation for the Business Loan and Investment Fund. This amount would provide for direct and guaranteed loans at a level that is $113.4 million higher than the level originally requested. These additional funds are not needed to provide an adequate credit assistance program for small businesses in FY 1981. Therefore, as a part of the Administration's effort to reduce Federal spending, $113.4 million will be reserved for the remainder of this fiscal year and used to reduce requirements for new budget authority in FY 1982.

This deferral action is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: * The effect of this deferral will be to reduce SBA's 1981 direct business loan activity by about 25 percent and its guaranteed loan activity by about 20 percent. Despite this deferral, the level of new guaranteed loan commitments will be more than $200 million higher than the 1980 level.

Outlay Effects: * This deferral action will reduce outlays by $88 million in FY 1981 and $25.4 million in FY 1982.

* Revised from previous report.

Deferral No: 081-102

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Small Business Administration Bureau:	New budget authority (P.L. 96-536): $ 30,000,000 Other budgetary resources: 22,164,441 Total budgetary resources: 52,164,441
Appropriation title & symbol: Surety Bond Guarantees Revolving Fund 73X4156	Amount to be deferred: Part of year: $ ____ Entire year: 6,000,000
OMB identification code: 73-4156-0-3-376 Grant program: ☐ Yes ☒ No	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: The Continuing Resolution (P.L. 96-536) provided $30 million in budget authority to enable the Small Business Administration (SBA) to provide surety bonds for contracts totalling $1.6 billion in 1981. Under this program, SBA will guarantee a portion of the losses sustained by a surety company as a result of the issuance of a bid, payment, and/or performance bond to a small business concern on a contract up to $1 million. The deferral of $6 million in 1981 budget authority will still enable SBA to provide bond guarantees for contracts totalling $1.4 billion. However, the limited availability of guarantees should serve as an additional incentive to SBA to improve the operation of this program so as to preclude continuation of the high loss rates which have occurred in recent years.

This deferral action is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: The effect of this deferral will be to reduce SBA's 1981 surety bond activity by about 12%. By targeting its available resources more effectively, this reduction should have a minimal effect on SBA's ability to assist those clients who are most deserving.

Outlay Effect: This deferral action will have the effect of shifting $6 million in FY 1981 outlays into FY 1982.

[FR Doc. 81-7913 Filed 3-12-81; 8:45 am]

BILLING CODE 3110-01-C

Cumulative Report on Rescissions and Deferrals

March 1, 1981.

This report is submitted in fulfillment of the requirements of Section 1014(e) of the Impoundment Control Act of 1974 (Public Law 93–344). Section 1014(e) provides for a monthly report listing all budget authority for this fiscal year with respect to which, as of the first day of the month, a special message has been transmitted to the Congress.This month's report gives the status as of March 1, 1981 of 34 rescissions and 78 deferrals contained in the first five special messages for FY 1981. These messages were transmitted to the Congress on October 1 and December 2, 1980, January 15 and 29, and February 13, 1981.

Rescissions (Table A and Attachment A)

Rescission proposals totalling $1.5 million are currently pending before the Congress. Table A summarizes the status of rescissions proposed by the President as of March 1, 1981, while Attachment A shows the history and status of each rescission proposed during FY 1981.

Deferrals (Table B and Attachment B)

As of March 1, 1981, $5,281.8 million in 1981 budget authority was being deferred from obligation and another $9.2 million in 1981 obligations was being deferred from expenditure. Attachment B shows the history and status of each deferral reported during FY 1981.

Information From Special Messages

The special messages containing information on the deferrals covered by the cumulative report are printed in the Federal Register of:

Monday, October 6, 1980 (Part VIII, Vol. 45, No. 195)
Friday, December 5, 1980 (Part VII, Vol. 45, No. 236)
Wednesday, January 21, 1981 (Part XII, Vol. 46, No. 13)
Tuesday, February 3, 1981 (Part III, Vol. 46, No. 22)
Thursday, February 19, 1981 (Part II, Vol. 46, No. 33)

FOOTNOTES

a. These funds were proposed for rescission from January 15, 1981 until February 13, 1981. The former rescission proposal related to these funds is listed in Attachment A.

b. This amount was released before the special message containing the deferral was transmitted to the Congress.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

16897 **Hazardous Waste** EPA extends comment period to 3–27–81, on interim final regulations for treatment, storage and disposal

16940 **Motor Vehicles** EPA announces conclusions of fuel economy retrofit device evaluation for "Basko MW Enginecoat"

16888 **Air Traffic Control** DOT/FAA updates and clarifies air traffic flight rules; effective 3–13–81

16916 **Indians** Interior/BIA extends comment period to 6–6–81, on proposal to provide for tribal regulation of reserved waters on reservations

16916 **Indians** Interior/BIA extends comments period to 4–15–81, on clarification of circumstances under which appropriated funds may be provided to a tribe for private attorneys' legal services

16892 **Foreign Investments in U.S.** Commerce/BEA revokes rules regarding international leasing transactions in 1975 and foreign direct investment; effective 3–16–81

16921 **Foreign Trade** Commerce/ITA intends to conduct administrative review of certain antidumping and countervailing duty orders; effective 3–16–81

16921 **Customs Duties** Commerce/ITA suspends countervailing duty investigation involving leather wearing apparel from Uruguay; effective 3–16–81

16997 **Postal Service** PS announces new rates and fees for certain categories of international mail; effective 3–22–81

16918 **Government Procurement** OMB/FPPO seeks comments by 5–19–81, on segment of draft Federal Acquisition Regulation (FAR) regarding cost principles and procedures applicable to contracts with State and local governments

16923 **Privacy Act Documents** Blind and Other Severely Handicapped, Committee for the Purchase from DOD/DLA, DOD/Sec'y

17005 **Sunshine Act Meetings**

Title 3—

The President

Executive Order 12297 of March 12, 1981

International Coffee Agreement 1976

By the authority vested in me as President by the International Coffee Agreement Act of 1980 (Public Law 96–599; 94 Stat. 3491) and Section 301 of Title 3 of the United States Code, and in order to carry out and enforce the International Coffee Agreement 1976, it is hereby ordered as follows:

Section 1. The functions vested in the President by Public Law 96–599 (94 Stat. 3491) are delegated to the United States Trade Representative.

Sec. 2. In carrying out the functions delegated to him, the United States Trade Representative shall consult with the Secretary of Agriculture and the Secretary of State. The United States Trade Representative may redelegate some or all of those functions to the head of another Executive agency with the consent of the head of such agency.

Vol. 46, No. 50
Monday, March 16, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

FEDERAL HOME LOAN BANK BOARD

12 CFR Part 544

Preparedness Emergency Amendments to Bylaws; Correction

Dated: March 10, 1981.

AGENCY: Federal Home Loan Bank Board.

ACTION: Final regulations; correction.

SUMMARY: This document corrects an amendment to § 544.6–1 that was part of the reduction and simplification of the regulations for the Federal Savings and Loan System that was published in the Federal Register of July 3, 1979 (44 FR 39114). The inadvertent inclusion of the word "mutual" in the preamble of § 544.6–1 as published served to exclude associations of the capital stock form from the effect of the regulation. This action is necessary to make the regulation apply as intended to both mutual and capital stock associations.

EFFECTIVE DATE: August 3, 1979.

FOR FURTHER INFORMATION CONTACT: John P. Soukenik ((202) 377–6427), Office of General Counsel, Federal Home Loan Bank Board, 1700 G Street, N.W., Washington, D.C. 20552.

SUPPLEMENTARY INFORMATION: Because this action implements the intended effect of the regulation and makes clear that the regulation applies to both mutual and capital stock associations, the Board finds it is unnecessary to the public interest to publish general notice of proposed rule-making pursuant to 12 CFR 508.13 and 12 U.S.C. 553(b) and to delay publication of the amendments for the period of time specified in 12 CFR 508.14 and 12 U.S.C. 553(d).

Accordingly, the Board hereby corrects § 544.6–1 of Subchapter C, Chapter V of Title 12, Code of Federal Regulations, to read as set forth below.

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

PART 544—CHARTER AND BYLAWS

1. Revise the introductory language of § 544.6–1 by removing the word "mutual", to read as follows:

§ 544.6–1 Preparedness emergency amendments to bylaws.

This section constitutes approval by the Board of any of the following amendments to the bylaws of a Federal association:

* * * * *

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464, Reorg. Plan No. 3 of 1947; 3 CFR, 1943–1948 Comp.)

By the Federal Home Loan Bank Board.

Ira L. Tannenbaum,
Acting General Counsel.

BILLING CODE 6720-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Airworthiness Docket No. 81–ASW–6; Amdt. 39–4058]

Airworthiness Directives; Aerospatiale Model SA315, SA316, and SA319 Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action publishes in the Federal Register and makes effective to all persons the priority mail Airworthiness Directive (AD) No. 81–03–04 dated January 22, 1981, which was previously made effective to all known operators of Aerospatiale Model SA315, SA316, and SA319 series helicopters. This AD required initial and repetitive inspections for excessive wear at the coupling splines of the rear output bevel pinion-to-vertical gear shaft of the main transmission. This action is needed to prevent loss of continuity in the tail rotor gear train and subsequent loss of directional control of the helicopter.

DATES: Effective March 16, 1981, for all persons except those persons to whom it was made effective immediately by priority mail letter AD dated January 22, 1981.

Compliance required as prescribed in body of AD.

ADDRESSES: The applicable service bulletins may be obtained from Aerospatiale Helicopter Division, Service Department, Boite Postale 13, 13722 Marignane, (France), or Aerospatiale Helicopter Corporation, 2701 Forum Drive, Grand Prairie, Texas 75051; Attention: Customer Support.

A copy of each of the service bulletins is contained in the Rules Docket, [Rm. 916, 800 Independence Avenue, SW., Washington, D.C. 20591.] or at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas 76101.

FOR FURTHER INFORMATION CONTACT: Wilbur F. Wells, Helicopter Policy and Procedures Staff, Engineering and Manufacturing Branch, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, telephone number (817) 624–4911, extension 502.

SUPPLEMENTARY INFORMATION: There have been reports of spline failure in the main gearbox installed in Aerospatiale Model SA315, SA316B, SA316C and SA319 helicopters. These failures are associated with excessive wear at the spline coupling between the lower bevel pinion for the tail rotor drive and the bevel gear flared stub shaft. Failure in this area will result in loss of continuity in the tail rotor drive train with consequent loss of directional control of the helicopter and a hazardous emergency landing.

On September 5, 1980, the FAA issued telegraphic AD No. T80–19–51, effective upon receipt to all known operators of these helicopters, which required initial and repetitive inspections and possible replacement of the main gearbox; however, it was found that this AD contained an unconservative error in a critical dimension. Also, improved inspection procedures became available. In view of this, AD No. T80–19–51 was superseded by a new priority mail AD, No. 81–03–04 dated January 22, 1981, which provided corrected and updated inspection criteria, effective upon receipt to all known operators of Aerospatiale Model SA315, SA316, and SA319 series helicopters.

This condition still exists and the AD with minor editorial changes is hereby published in the Federal Register as an amendment to § 39.13 of Part 39 of the

Federal Aviation Regulations to make it effective for all persons.

Since a situation exists that requires immediate adoption of this rule, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

Societe National Industrielle Aerospatiale. Applies to Models SA315, SA316B, SA316C, and SA319 helicopters certificated in all categories. Compliance required as follows, unless already accomplished:

1. Within 10 hours' time in service after the effective date ot this AD for helicopters with transmissions which have 390 hours' or more total time in service, or,

2. Before accumulation of 400 hours' total time in service for helicopters with transmissions which have less than 390 hours' time in service on the effective date of this AD, and,

3. Thereafter at intervals not to exceed 400 hours' time in service.

Inspect transmission components for possible excessive wear at the coupling splines of the rear output bevel pinion-to-verticle gearshaft of the main gearbox in accordance with instructions in Aerospatiale Service Bulletin No. 05.68 dated October 3, 1980, or FAA-Approved equivalent for the Aerospatiale Model SA316 and SA319 series helicopters, or Aerospatiale Service Bulletin No. 05.16 dated October 3, 1980, or FAA-Approved equivalent, for the Aerospatiale Model SA315 helicopter. (Except for model designation these bulletins are identical). If the total displacement found by this inspection exceeds 1.00 millimeter (0.04 inches) before further flight replace the transmission with a serviceable like transmission.

Equivalent means of compliance must be approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Office, c/o American Embassy, Brussels, Belgium.

For further information contact Chris Christie, Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Office, c/o American Embassy, Brussels, Belgium, or, Wilbur F. Wells, Helicopter Policy and Procedures Staff, Engineering and Manufacturing Branch, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. Telephone No. (817) 624-4911, extension 502.

This amendment becomes effective March 12, 1981, for all persons except those to whom it was made effective immediately by priority mail letter AD No. 81-03-04 dated January 22, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Fort Worth, Texas, on February 27, 1981.

C. R. Melugin, Jr.,

Director, Southwest Region

[FR Doc. 81-7976 Filed 3-13-81; 8:45 am]

BILLING CODE 4910-13

14 CFR Part 39

[Airworthiness Docket No. 81-ASW-2; Amdt. 39-4055]

Airworthiness Directives; Aerospatiale (SNIAS) Models SA330F, G, and J Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action makes effective to all persons a new Airworthiness Directive (AD) that was previously made effective for all known U.S. owners and operators of certain Aerospatiale (SNIAS) Models SA330F, G, and J series helicopters by individual telegrams. The AD requires a one-time inspection to assure proper installation of the pilot and copilot (crew) doors. An unwanted separation of a crew door was reportedly found during the investigation of a serious accident and was considered a possible cause of the accident.

DATES: Effective March 16, 1981, to all persons except those persons to whom it was made effective by telegraphic AD No. T81-01-52 issued December 31, 1980, which contains this amendment.

Compliance required within 5 hours' time in service after the effective date of this AD unless already accomplished since December 22, 1980.

ADDRESSES: A copy of the service information may be examined in the rules docket at the Office of the Regional Counsel, FAA, Southwest Region, 4400 Blue Mound Road, Fort Worth, Texas.

FOR FURTHER INFORMATION CONTACT: C. Christie, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa and Middle East Region, FAA, c/o American Embassy, Brussels, Belgium, telephone: 513.38.30; or J. H. Major, Helicopter Policy and Procedures Staff, ASW-211, FAA, P.O. Box 1689, Fort Worth, Texas 76101, telephone (817) 624-4911, extension 502.

SUPPLEMENTARY INFORMATION: On December 31, 1980, telegraphic AD T81-01-52 was issued and made effective immediately to all known U.S. operators and owners of all Aerospatiale (SNIAS) Models SA330F, G, and J series helicopters. The AD required a one-time inspection for proper installation of the jettisonable pilot and copilot (crew) doors or the jettisonable copilot panel, if installed. The unwanted separation of one of the crew doors or panel is considered to be a possible cause of a serious accident.

In the interest of safety, the French airworthiness authorities issued a telegraphic AD December 23, 1980, and a revision December 24, 1980, requiring a one-time inspection of the crew doors or panel for proper installation on all Aerospatiale Model SA330 series helicopters certificated in all categories. This AD was issued for the reasons cited previously.

Immediate corrective action was required and notice and public procedure thereon were impracticable and contrary to the public interest, and good cause existed for making the AD effective immediately to all known U.S. owners and operators of all Aerospatiale (SNIAS) Models SA330F, G, and J series helicopters by telegraphic AD T81-01-542 issued December 31, 1980. These conditions still exist and the AD is hereby published in the **Federal Register** with the noted changes as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective to all persons.

The mandatory reporting requirement has been deleted from the AD. Voluntary reporting should be sufficient.

Minor editorial changes have been made also. These changes in the AD impose no additional burden on persons and the AD may be adopted without further notice.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Societe Nationale Industrielle Aerospatiale.
Applies to Models SA330F, G, and J series helicopters, certificated in all categories.

Compliance required within five (5) hours' time in service after the effective date of this AD unless already accomplished since December 22, 1980.

To prevent possible inflight loss of the pilot or copilot doors or the copilot's jettisonable panel (if installed) accomplish the following:

(a) Inspect the jettisonable pilot door in accordance with Aerospatiale SA330 work cards Nos. 52-10-601 and 52-10-401 of the SA330 Maintenance Manual (Document 8582), or an FAA-approved equivalent, and

(b) Inspect either—

(1) the jettisonable copilot in accordance with Aerospatiale SA330 work cards Nos. 52-21-601 and 52-21-401 or an FAA-approved equivalent, or

(2) the jettisonable copilot door (if fitted per Aerospatiale Modification No. OP-11-611 or OP-11-670) in accordance with Aerospatiale work cards Nos. 52-10-601 and 52-10-401 of the maintenance manual, or an FAA-approved equivalent.

(c) Rerig improperly rigged doors and panels before further flight. Use serviceable parts in accordance with the respective reference work cards or FAA-approved equivalents.

This amendment become effective March 16, 1981, to all persons except those persons to whom it was made immediately effective by telegraphic AD T81-01-52, issued December 31, 1980, which contained this amendment.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Fort Worth, Texas, on February 27, 1981.

C. R. Melugin, Jr.,
Director, Southwest Region.

[FR Doc. 81-7877 Filed 3-13-81; 8:45 am]
BILLING CODE 4910-13-M

14 CFR Part 39

[Airworthiness Docket No. 81-ASW-5; Amdt. 39-4064]

Airworthiness Directives; Aerospatiale (SNIAS) Model SE 313, SA 315, SA 316, SA 318, and SA 319 Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires inspections for cracks or deformation in the transmission deck and flight control bellcrank support, and the installation of certain clamps and supports until a certain modification is accomplished. Loss of the support for the flight controls could cause possible loss of helicopter control.

DATES: Effective March 20, 1981. Compliance required as indicated in the AD.

ADDRESSES: A copy of the service information and supplemental type certificate (STC) may be examined at Office of Regional Counsel, FAA, Southwest Region, 4400 Blue Mound Road, Fort Worth, Texas. A copy of this information may be obtained from Aerospatiale Helicopter Corp., 2701 Forum Dr., Grand Prairie, Texas 75051, Attn: Customer Support.

FOR FURTHER INFORMATION CONTACT: C. Christie, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, FAA, c/o American Embassy, Brussels, Belgium, telephone 513.38.30; or J. H. Major, Helicopter Policy and Procedures Staff, ASW-211, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, telephone number (817) 624-4911, extension 502.

SUPPLEMENTARY INFORMATION: Fatigue cracks have been found in the transmission deck stringer support at the forward attachment clamp area that allowed sagging or deformation of the forward transmission deck in the area of the flight control bellcrank supports on the Aerospatiale (SNIAS) Model SE 313, SA 315, SA 316, SA 318, and SA 319 series helicopters. Excessive deformation of the flight control bellcrank support may reduce control effectiveness and may result in the loss of helicopter control. The French airworthiness authorities issued a directive effective January 7, 1981, concerning this matter.

Since this condition is likely to exist or develop in other helicopters of the same type design an airworthiness directive is being issued to require initial and repetitive inspections, and repair as necessary if cracks are found. It will also require installation of certain clamps on the Aerospatiale Model SE 313, SA 315, SA 316, SA 318, and SA 319 series helicopters at the initial inspection. A modification may be accomplished to strengthen the support structure thereby eliminating the necessity for further inspections.

Since a situation exists that requires immediate adoption of this AD, it is found that notice and public procedure are impracticable and good cause exists for making this amendment effective immediately to all known U.S. owners and operators of Aerospatiale (SNIAS) Model SE 313, SA 315, SA 316, SA 318, and SA 319 series helicopters.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Societe Nationale Industrielle Aerospatiale.
Applies to Model SE 313, SA 315, SA 316, SA 318, and SA 319 series helicopters, certificated in all categories, that do not have Aerospatiale Modification No. AM 2195 incorporated.

Compliance required as indicated.

To detect and prevent possible fatigue cracks and failures of the forward transmission deck support and the flight control bellcrank support accomplish the following, unless already accomplished:

(a) For helicopters which on the effective date of this AD, have 375 or more hours' time in service since new or since last overhaul, inspect in accordance with paragraph (c) of this AD, within the next 25 hours' time in service.

(b) For those helicopters which on the effective date of this AD, have less than 375 hours' time in service since new or overhaul, inspect in accordance with paragraph (c) of this AD before the accumulation of 400 hours' time in service.

(c) Visually inspect for cracks and deformation on the lower side of transmission deck stringer, and using the dye penetrant method, inspect for cracks in the inner bending radius of the stringer in accordance with the applicable Aerospatiale Service Bulletin Number 05.17 or Number 05.69 each dated December 15, 1980, or an FAA approved equivalent.

(d) If no cracks are found as the result of the inspection required in paragraphs (a), (b), (d), or (e) of this AD:

(1) Before further flight install 2 additional clamps P/N 55212.280BGZ, unless already accomplished, in accordance with Aerospatiale SA 315 Service Bulletin Number 53.02 revised June 12, 1978, for Model SA 315 and Service Bulletin 53.32, revised June 12, 1978, for all other models, or FAA approved equivalent, and return the aircraft to service.

(2) Repeat the inspections required by paragraph (c) of this AD at intervals not to exceed 400 hours' time in service since the last inspection, or comply with paragraph (f) of this AD.

(e) If deformation or cracks are found as a result of the inspection required in paragraphs (a), (b), (d), or (e) of this AD, before further flight:

(1) Replace the Z stringer with a serviceable stringer of the same part number and install clamps specified in subparagraph (d)(1) of this AD unless already installed, or

(2) Replace the transmission deck, install clamps specified in subparagraph (d)(1) of this AD unless already installed, and repeat the inspections required by paragraph (c) of this AD at intervals not to exceed 400 hours' time in service since the last inspection, or

(3) Comply with paragraph (f) of this telegram.

(f) The repetitive inspections required in paragraphs (d) and (e) of this AD may be discontinued when the helicopter is modified in accordance with AM 2195 or Supplemental Type Certificate (STC) No. SH4266SW.

Note.—MODIFICATION AM 2195 is the subject of Aerospatiale Service Bulletin Number 53.05 for the Model SA 315, Number 53.35 for the models SE 313 and SA 316, Number 53.36 for the models SA 316 and SA 319, all dated December 30, 1980. STC SH4266SW provides for use of alternate parts.

(g) In accordance with FAR 21.197, flight is permitted to a base where the inspection and repairs required by this AD may be accomplished, provided satisfactory operation of the flight control system has been established prior to the flight.

(h) The Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, c/o American Embassy, Brussels, Belgium, may approve equivalent methods of repair or modifications when the request is submitted through an FAA maintenance inspector and contains adequate supporting data.

This amendment becomes effective March 20, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Fort Worth, Texas, on March 4, 1981.

C. R. Melugin, Jr.,

Director, Southwest Region.

[FR Doc. 81-7974 Filed 3-13-81; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Airworthiness Docket No. 81-ASW-3; Amdt. 39-4063]

Airworthiness Directives; Bell Helicopter Textron Model 206L-1 Helicopter

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires the fuel filter on Bell Helicopter Textron (BHT) Model 206L-1 helicopters to be moved from its present position behind the engine turbine module to a location on the forward firewall and the relocation of an oil line. This AD is needed to keep flammable fluid carrying components which could cause hazardous quantities of leakage from passing through the plane of turbine rotation. This will reduce the susceptibility of these components to rupturing and producing subsequent fires in the event of turbine disintegration.

DATE: Effective—March 24, 1981. Compliance is required within the next 50 hours' time in service after the effective date of this AD.

ADDRESSES: The Alert Service Bulletin specified in this AD may be obtained from Bell Helicopter Textron, Product Support Department, Post Office Box 482, Fort Worth, Texas 76101.

A copy of the service bulletin is contained in the Rules Docket, Office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas.

FOR FURTHER INFORMATION CONTACT:

R. H. A. West, Propulsion Section, ASW-214, Engineering and Manufacturing Branch, Federal Aviation Administration, Post Office Box 1689, Fort Worth, Texas 76101, telephone number (817) 624-4911, extension 525.

SUPPLEMENTARY INFORMATION: There have been two reports of failures and subsequent disintegration of the turbine wheel on the Detroit Diesel Allison Model 250-C28B engine used on the BHT Model 206L-1 helicopter. Fragments from the disintegrating turbine wheels penetrated a fuel supply hose near the engine and serious fires resulted. Since this condition is likely to exist or develop on other helicopters of the same type design, an Airworthiness Directive is being issued to require the relocation of components containing flammable fluids so that they do not cross the turbine wheel plane of rotation. The components affected are the fuel filter with its associated fuel lines on all BHT Model 206L-1 helicopters and the oil line to the freewheeling assembly on non-IFR equipped BHT Model 206L-1 helicopters.

Since a situation exists which requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

Bell: Applies to Model 206L-1 helicopters, S/N 45154 through 45448.

Compliance is required within the next 50 hours' time in service after the effective date of the AD unless already accomplished.

To prevent fires due to fuel/oil lines damaged by a disintegrating turbine wheel, accomplish the following:

(a) As directed by BHT Alert Service Bulletin No. 206L-80-13, "Modification of Engine Fuel Filter, Associated Fuel Hoses and Freewheeling Oil Hoses," dated June 17, 1980, perform the following modifications:

(1) On all affected rotorcraft, relocate the fuel filter from its present position to the specified location on the forward firewall.

(2) Replace the aft freewheeling oil hose on all affected rotorcraft except rotorcraft equipped with BHT IFR Kit No. 206-705-001.

(3) As applicable, replace bleed air tubes to avoid an interference at the new filter location.

(b) Any alternate method of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Bell Helicopter Textron, Product Support Department, Post Office Box 482, Fort Worth, Texas 76101. These documents may also be examined at the Office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas, and at the FAA Headquarters, 800 Independence Avenue, SW., Washington, D.C. A historical file on this AD, which includes the incorporated material in full, is maintained by the FAA at their headquarters in Washington, D.C., and at the Southwest Regional Office in Fort Worth, Texas.

This amendment becomes effective March 24, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); 14 CFR 11.89))

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Exective Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Fort Worth, Texas, on March 3, 1981.

C. R. Melugin, Jr.,

Director, Southwest Region.

Note.—The incorporation by reference in this document was approved by the Director of the Federal Register on June 19, 1967.

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 81-SO-7; Amdt. No. 39-4054]

Airworthiness Directives; Gulfstream American Model G-1159 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires inspection of the landing gear selector valve on Gulfstream American Model G-1159 airplanes. The AD is needed to correct a deficiency in the landing gear control valve, which could result in an adverse effect on the controllability of the airplane.

DATES: Effective March 27, 1981. Compliance required within the next 10 hours time in service after the effective date of this AD.

ADDRESSES: The applicable customer bulletin may be obtained from Gulfstream American Corporation, P.O. Box 2206, Savannah, Georgia 31402.

A copy of the customer bulletin is contained in the Rules Docket, Room 275, Engineering and Manufacturing Branch, FAA, Southern Region, 3400 Norman Berry Drive, East Point, Georgia.

FOR FURTHER INFORMATION CONTACT: George Carver, Aerospace Engineer, Engineering and Manufacturing Branch, FAA, Southern Region, P.O. Box 20636, Atlanta, Georgia 30320, telephone (404) 763-7781.

SUPPLEMENTARY INFORMATION: There have been reports of two failures of the nose landing gear actuator on the Gulfstream American G-1159A airplanes as a result of a condition in the landing gear selector valve, induced by interrupting the landing gear operation cycle. Since this condition is likely to exist or develop on G-1159 model airplanes, an Airworthiness Directive is being issued which requires inspection of the landing gear selector valve. If the part number is determined to be 1159SCH216-1 or 1159SCH216-5, no further action is required. If the part number is determined to be 1159SCH216-3, the selector valve must be replaced with a 1159SCH216-1 or 1159SCH216-5 valve.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

Gulfstream American Corporation (formerly Grumman American Corporation, Grumman Aerospace Corporation): Applies to Gulfstream American Model 1159, serial numbers 1 through 256, and 775, certificated in all categories.

Compliance is required as indicated, unless already accomplished. To prevent improper functioning of the landing gear system, accomplish the following:

Within the next 10 hours time in service after the effective date of this AD, inspect the landing gear selector valve to determine valve part number (Ref. Gulfstream II Illustrated Parts Catalog (IPC) Figure 32-23, Item 52).

(a) If P/N 1159SCH216-1 or P/N 1159SCH216-5 is installed, no further action is required.

(b) If P/N 1159SCH216-3 is installed, accomplish the following:

(1) Before further flight, install placard adjacent to the landing gear selector handle. The wording of the placard shall be: "Interruption of Landing Gear Retraction or Extension Prohibited," using letters of ⅛ inch minimum height. Concurrently, FAA Approved Flight Manual Supplement No. GII-81-01, dated February 6, 1981, must be added to the Airplane Flight Manual. The Flight Manual Supplement may be obtained from Gulfstream American Corporation, P.O. Box 2206, Savannah, Georgia 31402.

(2) Within 60 landing gear operating cycles (one retraction and one extension) after effective date of this AD, replace P/N 1159SCH216-3 landing gear selector valves with either a P/N 1159SCH216-1 or a P/N 1159SCH216-5 valve. Remove the placard and the Airplane Flight Manual Supplement added in section (1) when either of the replacement valves is installed.

An equivalent method of compliance may be approved by the Chief, Engineering and Manufacturing Branch, FAA Southern Region.

Note.—Information concerning replacement selector valves may be obtained from Gulfstream American Corporation Customer Bulletin No. 305, amendment No. 1, January 15, 1981.

This amendment is effective March 27, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of

Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's Memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in East Point, Georgia, on March 5, 1981.

George R. LaCaille,

Acting Director, Southern Region.

[FR Doc. 81-7980 Filed 3-13-81; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 81-CEF-1-AD; Amdt. 39-4062]

Airworthiness Directives; Mitsubishi Heavy Industries, Ltd.; Models MU-2B, MU-2B-10, MU-2B-15, MU-2B-20, MU-2B-25 and MU-2B-26 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This Amendment adopts a new Airworthiness Directive (AD) which requires the modification of the engine aft nacelle area on certain Mitsubishi Heavy Industries, Ltd., MU-2B series airplanes. This AD is necessary to prevent heat damage that can occur from combustion of entrapped fuel in the aft nacelle area. In addition, the AD requires installation of drain provisons in the wing trailing edge and aft nacelle area to prevent the accumulation of flammable fluids. Ignition of any accumulated fuel could lead to an inflight fire hazard and result in possible loss of the airplane.

DATES: Effective date: March 19, 1981. Compliance schedule: As prescribed in the body of the AD.

ADDRESSES: Mitsubishi MU-2 Service Bulletin #177B dated September 11, 1980, pertaining to this AD, may be obtained from Mitsubishi Heavy Industries, Ltd., 10, Oye-cho, Minato-ku, Nagoya, Japan, or Mitsubishi Aircraft International, Inc., P.O. Box 3948, San Angelo, Texas 76901. A copy of the Service Bulletin is contained in the Rules Docket, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106. The document may also be examined in Room 7321, Federal Aviation Administration, Pacific-Asia Region, Engineering and Manufacturing District Office, 300 Ala Moana Blvd., Honolulu, Hawaii 96850.

FOR FURTHER INFORMATION CONTACT: Gary K. Nakagawa, Chief, Engineering and Manufacturing District Office, APC-210, FAA, Pacific-Asia Region, P.O. Box 50109, Honolulu, Hawaii 96850; Telephone (808) 546-8650 or 546-8658, or Earsa L. Tankesley, Chief, Airworthiness Standards Program, ACE-215, 601 East 12th Street, Kansas City, Missouri 64106; Telephone (816) 374-6937.

SUPPLEMENTARY INFORMATION: In August 1976, during an attempt to airstart the engine, an inflight fire occurred in the engine aft nacelle area of a Mitsubishi MU-2B-25 model airplane. Subsequent investigation indicated that the fire developed when the fuel, which had accumulated in the engine tail pipe assembly, ignited. The fire went undetected and progressed to a point where substantial heat damage occurred to the flight and engine controls and wing structure. Upon subsequent coordination with the Japan Civil Aviation Bureau (JCAB), it was determined that the cause of the fire was due to a malfunctioning Bendix fuel control unit. Further investigation revealed a broken fuel filter assembly. The incident was classified as an isolated case and, as such, mandatory corrective action was not taken. Also, the JCAB confirmed that those MU-2B airplanes, MU-2B-25 (S/N 239 through 318) and MU-2B-26 (S/N 319 and up), that use Bendix fuel control unit Part Number 2524529-24, incorporated fuel drain provisions on the airframe which lessen the likelihood of residual fuel to ignite. The JCAB verified that this particular modification was accomplished on the production line in Japan.

In October 1980, the manufacturer, Mitsubishi Heavy Industries, Ltd., submitted a revised MU-2 Service Bulletin No. 177B dated September 11, 1980. Mitsubishi stated that the reason for the revision was to (1) change the model effectivity to apply to certain MU-2B series airplanes and (2) add drain provisions to the wing trailing edge and aft nacelle area. In view of the current service bulletin action, FAA, again, raised questions as to the need for mandatory corrective action. The JCAB advised the FAA of the impending Japanese Airworthiness Directive action to incorporate modifications to these airplanes. Under these circumstances and since the condition described herein is likely to exist or develop in other airplanes of the same type design, an Airworthiness Directive is being issued applicable to certain Mitsubishi MU-2B series airplanes, to require a modification to incorporate (1) a braided asbestos seal on the aft nacelle and (2) drain provisions and sealant within the wing trailing edge and aft nacelle area in accordance with Mitsubishi MU-2 Service Bulletin No. 177B. MU-2B series airplanes manufactured at Mitsubishi's, San Angelo, Texas, facility have the aforementioned modifications incorporated in production and have serial numbers with the suffix "SA." Consequently, the AD does not apply to those airplanes.

The FAA has determined that there is an immediate need for this regulation to correct an unsafe condition and assure safe operation of the affected airplanes; consequently, this action is within the exemption provisions of Section 8(a)(1) of Executive Order 12291. In addition, notice and public procedure under 5 U.S.C. 553(b) is impractical and contrary to the public interest, and good cause exists for making the Amendment effective in less than thirty (30) days after the date of publication in the Federal Register.

Adoption of the Amendment

Accordingly and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following AD:

Mitsubishi Heavy Industries, Ltd. Applies to Models MU-2B, MU-2B-10, MU-2B-15, MU-2B-20, MU-2B-25 and MU-2B-26 (Serial Numbers 239 through 347, except Serial Numbers 313 and 321) airplanes certificated in all categories. This AD does not apply to MU-2B series airplanes having serial numbers with the suffix "SA."

Compliance: Required as indicated unless already accomplished. To prevent a possible inflight fire in the engine aft nacelle area, accomplish the following:

(a) Within the next 50 hours time-in-service after the effective date of this AD, install the braided asbestos seal on both the LH and RH engine aft nacelles in accordance with Modification I of Mitsubishi MU-2 Service

Bulletin No. 177B dated September 11, 1980. Installation of the seal can be accomplished without the removal of the engine.

(b) Within the next 100 hours time-in-service after the effective date of this AD, modify the engine aft nacelle area and wing trailing edge in accordance with Modification II of Mitsubishi MU-2 Service Bulletin No. 177B dated September 11, 1980. Modification to incorporate drain provisions within the aft nacelle area and rework of the wing trailing edge requires removal of the engine. See the appropriate MU-2 Maintenance Manual for proper engine removal.

(C) Aircraft may be flown in accordance with FAR 21.197 to a location where these modifications can be accomplished.

(D) Any equivalent method of compliance with this AD must be approved by the Chief, Engineering and Manufacturing District Office, FAA, Pacific-Asia Region, P.O. Box 50109, Honolulu, Hawaii 96850.

Note.—All persons affected by this AD who have not already received the applicable service bulletin from the manufacturer may obtain a copy upon request to: Mitsubishi Heavy Industries, Ltd., 10, Oye-cho, Minato-ku, Nagoya, Japan, or Mitsubishi Aircraft International, Inc., P.O. Box 3848, San Angelo, Texas 76901. The Service Bulletin may also be examined at FAA, Pacific-Asia Region, Room 7321, 300 Ala Moana Boulevard, Honolulu, Hawaii 96850, and at the FAA, Central Region, Office of the Regional Counsel, Room 1558, 601 East 12th Street, Kansas City, Missouri 64106.

This amendment becomes effective on March 19, 1981.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); § 11.89 of the Federal Aviation Regulations (14 CFR Sec. 11.89))

It has been determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981. Further, this regulation does not meet the criteria for a major rule as defined in Section 1(b) of Executive Order 12291. This regulation imposes a one-time correction of an unsafe condition.

Note.—The FAA has determined that this document involves a regulation which is not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). A copy of the evaluation prepared for this document is contained in the docket. A copy of it may be obtained by writing to the Office of the Regional Counsel, Room 1558, Federal Aviation Administration, Central Region, 601 East 12th Street, Kansas City, Missouri 64106; Telephone (816) 374-5446.

Issued in Kansas City, Missouri, on March 3, 1981.

John E. Shaw,

Acting Director, Central Region.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 80-SO-70; Amdt. No. 39-4061]

Airworthiness Directives; Teledyne Continental Motors Models GTSIO-520- L, M, and N Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends an existing Airworthiness Directive (AD) applicable to Teledyne Continental Motors (TCM) Model GTSIO-520- L, M, and N by establishing a cut-off serial number for the affected models and clarifying the appropriate oil to be used during the first 100 hours time in service.

The amendment is needed because the FAA has determined that the requirements of the AD do not apply to engines beyond certain serial numbers due to design changes in these engines.

DATES: Effective March 23, 1981. Compliance schedule as prescribed in body of AD.

ADDRESSES: The applicable service bulletin may be obtained from Teledyne Continental Motors, P.O. Box 90, Mobile, Alabama 36601.

A copy of the service bulletin is also contained in the Rules Docket, Room 275, Engineering and Manufacturing Branch, FAA, Southern Region, 3400 Norman Berry Drive, East Point, Georgia 30344.

FOR FURTHER INFORMATION CONTACT: Gil Carter, ASO-214, Engineering and Manufacturing Branch, FAA, Southern Region, P.O. Box 20636, Atlanta, Georgia 30320, telephone (404) 763-7435.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39-3984 (43 FR 79416), AD 80-25-06, which currently requires inspection of the oil filter for contamination, inspection of the propeller shaft end clearance for excessive thrust washer bearing wear and a preflight and post flight special engine oil pressure check on certain TCM Model GTSIO-520- L, M, and N engines. After issuing Amendment 39-3984, the FAA has determined that cut-off serial numbers can be established due to modifications to current production engines which have prevented the problem from developing on new engines. Therefore, the FAA is amending Amendment 39-3984 by establishing a cut-off serial number for the affected models and clarifying the appropriate oil to be used during the first 100 hours time in service on certain TCM Model GTSIO-520- L, M, and N engines.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment 39-3984 (43 FR 79416), AD 80-25-06, as follows:

Change the applicability to read:

Applies to Models GTSIO-520-L, serial numbers 606324 through 606827; GTSIO-520-M, serial numbers 606619 through 606890; and GTSIO-520-N, serial numbers 610001 through 610107, engines with 100 hours or less total time in service on the effective date of this AD, installed on but not limited to certain Cessna Models 404 and 421C airplanes certificated in all categories.

Delete existing paragraph (d) and substitute the following:

(d) Upon or before the accumulation of 25 hours, 50 hours and 100 hours total time in service, change oil and oil filter. Do not use multiviscosity oils within the first 100 hours time in service.

After the paragraph beginning "An equivalent method of compliance * * *," add the following paragraph:

Note.—Continental Motors Service Bulletin No. M80-30, dated December 10, 1980, pertains to this subject.

This amendment becomes effective March 23, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As

such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in East Point, Georgia, on March 2, 1981.

George R. LaCaille,
Acting Director, Southern Region.

Airworthiness Directives; Puritan-Bennett Aero Systems Company; Deferral of Effective Date

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; deferral of effective date.

SUMMARY: Pursuant to the President's memorandum dated January 29, 1981, Amendment 39-4017, Airworthiness Directive AD 81-02-03, regarding the Puritan-Bennett Aero Systems Company, (46 FR 3495), published on January 15, 1981, is hereby delayed as to its effectivity until April 6, 1981.

DATES: Effective April 6, 1981.
Compliance schedule—As prescribed in the body of the AD unless already accomplished.

ADDRESSES: The applicable service information may be obtained from:

Puritan-Bennett Aero Systems Company, 111 Penn Street, El Segundo, California 90245

Also, a copy of the service information may be reviewed at, or a copy obtained from:

Rules Docket in Room 916, FAA, 800 Independence Avenue, S.W., Washington, D.C. 20591, or
Rules Docket in Room 6W14, FAA Western Region, 15000 Aviation Boulevard, Hawthorne, California 90261.

FOR FURTHER INFORMATION CONTACT:
Robert T. Razzeto, Executive Secretary, Airworthiness Directive Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, World Way Postal Center, Los Angeles, California 90009. Telephone: (213) 536-6351.

SUPPLEMENTARY INFORMATION:
Amendment 39-4017, (46 FR 3495), AD 81-02-03, had an effective date of March 20, 1981. On January 29, 1981 the President issued a memorandum which directed that all agencies, by Notice in the **Federal Register**, postpone for 60 days from January 29, 1981, the effective date of all Regulations that had been promulgated in final form and that were scheduled to become effective during the 60 day period. Amendment 39-4017, (AD 81-02-03), falls within the President's memorandum. The rule is being made effective April 6, 1981.

Since this amendment imposes no additional burden on any person, notice and public procedure hereon are unnecessary and good cause exists for making the amendment effective in less than 60 days.

Adoption of the Amendment

Pursuant to the President's memorandum dated January 29, 1981, Amendment 39-4017, Airworthiness Directive AD 81-02-03, regarding the Puritan-Bennett Aero Systems Company, published on January 15, 1981 on page 3495, is hereby delayed as to its effectivity until April 6, 1981.

Accordingly, pursuant to the authority delegated to me by the Administrator, on page 3496, in the first column, under **DATES**, change "Effective March 20, 1981" to read "Effective April 6, 1981." Also, in the amendment to § 39.13 of Title 14 of the Code of Federal Regulations, in the line that is seventh from the top of the third column of page 3496, change "March 20, 1981" to read "April 6, 1981."

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The Federal Aviation Administration has determined that this document involves a final regulation which is not considered to be significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979).

This amendment is not a major rule under Sections 1.(b) and 8 of Executive Order 12291. The amendment to the AD only delays the effectivity of the rule until April 6, 1981. It is impracticable to delay this amendment to the AD, and the procedures of Executive Order 12291 are not followed.

It has been determined under the criteria of the Regulatory Flexibility Act that this rule, at promulgation, will not have a significant impact on a substantial number of small entities.

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Los Angeles, California on March 4, 1981.

John D. Mattson,
Director, FAA Western Region.

[FR Doc. 81-8010 Filed 3-13-81; 8:45 am]
BILLING CODE 4910-13-M

14 CFR Part 91

[Docket No. 21022; Amdt. No. 91-175]

Use of FDC Notices to Airmen To Communicate Emergency Regulatory Information and Actions Relating to FAA's Ability To Operate the Air Traffic System

Note.—This document originally appeared in the **Federal Register** for Friday, March 13, 1981. It is reprinted in this issue to meet requirements for publication on the Monday/Thursday schedule assigned to the Federal Aviation Administration.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment updates and clarifies the air traffic flight rules. It adds a new section to expressly provide that FAA Notices to Airmen (NOTAMs) are an authorized means of advising pilots and aircraft operators of the issuance of certain emergency rules and regulations, which have been adopted in accordance with the Administrative Procedure Act, when such rules and regulations are needed to ensure the FAA's ability to operate the Air Traffic Control System. The existing regulatory provisions authorizing use of NOTAMs to communicate regulatorily significant information are limited to specific situations (such as §§ 91.91, 91.102, and 91.104 of the Federal Aviation Regulations). This amendment clarifies the current process of the FAA by providing that, when emergency conditions relating to the FAA's ability to operate the Air Traffic Control System exist and are not adequately covered by the existing rules and regulations, the FAA may use regulatory ("FDC" coded) NOTAMs to advise pilots and aircraft operators of air traffic rules which have been adopted by the Administrator. FDC NOTAMs provide a timely means for communicating the existence of immediately effective rules from shortly after those rules have been issued until the FAA is able to publish them in the **Federal Register**. Those emergency rules (including, as appropriate, air traffic requirements, restrictions, or conditions) remain in effect as specified in the rule for the duration of the emergency unless sooner modified or revoked by the

Administrator. This amendment does not address the issues raised by FAA Notice No. 80-19, which are being deferred pending further consideration.

EFFECTIVE DATE: March 13, 1981.

FOR FURTHER INFORMATION CONTACT: B. Keith Potts, Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 426-3731.

SUPPLEMENTARY INFORMATION:

Regulatory History

On November 13, 1980, the FAA published Notice No. 80-19 proposing to provide in the air traffic flight rules a new section expressly indicating the current FAA process of issuing "regulatory" Notices to Airmen (FDC NOTAMs) to communicate information of regulatory significance to those directly affected (45 FR 75099). While the proposal dealt primarily with internal FAA procedure and management and did not itself propose to establish any new requirement or burden on pilots or aircraft operators, it was published in notice form to receive public comment on the matter in conjunction with the potential use of FDC NOTAMs in certain situations. Under the proposal in Notice No. 80-19, FDC NOTAMs would be used, for example, if the Administrator finds it necessary to activate the National Air Traffic Control Contingency Plan (which was also published in draft form for public comment at 45 FR 75100). The basic objective of the Contingency Plan is to maximize the number of aircraft, people, and cargo that can be safely accommodated with the reduced air traffic control work force. If the Contingency Plan is activated, in whole or part, the FAA will be making every effort to ensure the continued movement of aircraft to the fullest extent practicable consistent with maintaining flight safety in light of available resources to staff the Air Traffic Control System. However, the proposed rule was independent of the draft contingency plan and addressed other situations in which the adoption of immediately effective flight rules or critical flight information must be promptly communicated to pilots and aircraft operators in the interest of flight safety. Contrary to the views of many commenters, it did not propose to expand the authority of the Administrator in fulfilling the statutory responsibility to provide for the safe and efficient use of the navigable airspace and navigation facilities. The intent of the proposal was to update and clarify the current practice and procedure for using FDC NOTAMs as an effective means of immediately communicating legally adopted emergency rules and regulations. FDC NOTAMs are used when the publication of the emergency rules in the Federal Register as a condition precedent to their becoming effective would unreasonably delay the effectivity of a safety requirement. The FDC NOTAMs are not themselves regulations; they merely communicate information, including essential information concerning regulations already adopted by competent FAA authority. However, in response to public comment on the notice and based on further consideration of the proposal, the FAA has concluded that the instant rule should be limited to emergency actions relating to the FAA's ability to operate the Air Traffic Control System safely and efficiently when existing rules are inadequate to respond to emergency conditions.

Discussion of the Rule in Light of Comments on Notice No. 80-19

For a better understanding of this rule, the following discussion summarizes a number of concerns expressed in response to Notice No. 80-19. Forty-nine public comments were received. The FAA's preliminary review of those comments identified considerable objection to the perceived nature and effect of the use of NOTAMs to advise the public of emergency rules. Those views and resulting suggestions indicate they may be based upon a misunderstanding of the intent and purpose of the proposal. Thus, they will require further review and evaluation to provide adequate and responsible disposition of them. Since the potential exists for disruption of the FAA's ability to operate the Air Traffic Control System at current levels, however, the FAA must be prepared to respond to conditions which might develop with appropriate administrative and regulatory action. Accordingly, it has been determined necessary to adopt a regulation to ensure that pilots and aircraft operators are provided timely notice of any emergency air traffic rules or regulations that may be issued in response to those conditions.

Almost all commenters felt that the FAA already has adequate authority to act in an emergency thereby making the proposed rule unnecessary. The FAA agrees that it has broad authority to respond to an emergency affecting flight safety; however, the adoption of regulatory provisions indicating how the FAA's authority will be exercised and how it will communicate its emergency actions to affected persons is necessary. This amendment does not create or confer on the FAA any new substantive regulatory authority; instead, this amendment deals with process. That is, this amendment codifies in the air traffic rules a principal means by which the necessary regulatory actions are communicated to affected persons pending publication of the rules involved in the Federal Register. Any emergency procedures and resulting actions taken by the FAA will comply fully with the Federal Aviation Act of 1958, as amended (the "FA Act"), and the Administrative Procedure Act (5 U.S.C. 551-553). The FA Act gives the FAA Administrator the authority to respond to an emergency and to issue appropiate rules. The authority to prescribe air traffic rules and to designate that airspace in which those rules apply is governed by § 307 of the FA Act which also requires compliance with the Administrative Procedure Act in promulgating those rules. Notice No. 80-19 did not propose to deviate from the FAA's lawful process but simply proposed to codify in the regulations a means by which the FAA communicates emergency, immediately effective, regulatory requirements that will have already been issued by the Administrator. The NOTAM is not the regulation but its message would provide official notice of the adoption of an immediately effective, emergency rule or regulation and the essential information concerning the content of the regulation involved. Telegrams and telephone calls and other forms of nonregulatory communciation may also be used to effect that communication; the proposal in Notice No. 80-19 and this rule concern only the NOTAM system of communication because it is used consistently, though not exclusively, by the FAA in emergencies under the current rules. Thus, any emergency rules so issued would, owing to the need for flexibility and for wide, reliable, and timely distribution, be communicated through the NOTAM system, in the manner currently described in Paragraph 294 of the current Airman's Information Manual (AIM).

The instant rule indicates the FAA's use of FDC NOTAMs as discussed in the AIM. Therefore, the FAA is not expanding its authority but is merely clarifying the regulatory status of FDC NOTAMs for the purposes covered by the rule and the distinction between them and other "informational" but nonregulatory NOTAMs carried in the NOTAM system. The rule is similar to the FAA's other expressed provisions for regulatory NOTAMs concerning

certain air traffic rules, such as §§ 91.91, 91.102, and 91.104 of the Federal Aviation Regulations.

Any NOTAM issued pursuant to § 91.100 will reference that section and provide information concerning the effect of the emergency regulation. Persons with knowledge of the regulatory requirements would be required to comply as provided by law. Subsequent publication of the regulation in the **Federal Register**, will provide constructive legal notice of the emergency regulation to all persons who may not have received the NOTAM or otherwise have legal notice of the adoption of that regulation.

Most commenters expressed concern about potential abuse of the proposed rule in its future application. They felt that the proposed rule could facilitate circumvention of the normal rulemaking process and its safeguards. As previously indicated, however, the FAA will comply fully with the FA Act and Administrative Procedure Act in taking the regulatory actions under the stated emergency conditions. Of course, notice and public procedure would not precede emergency actions because of the time needed to complete that process and because one or more of the exceptions to the requirement to propose rules for public comment before their adoption do not apply to such emergency rulemaking. With regard to the instant rule, it is the FAA's intent only to ensure the integrity of the operation of the Air Traffic Control System during emergency conditions. Thus, the commenters' concerns do not apply to it. However, to eliminate any misunderstanding concerning the purpose of the rule and its scope, it has been written to expressly limit its application to emergency conditions relating to the FAA's ability to operate the Air Traffic Control System and to clarify the effect of the NOTAM. The broader aspects of the rule proposed in Notice No. 80–19 will be considered in the disposition of that notice. Accordingly, the rule being issued herein as a Federal Aviation Regulation is narrower in scope than that originally proposed in Notice No. 80–19. The instant rule also reflects the recommendation of commenters who advocated disassociation of the proposal in the notice from the National Air Traffic Control Contingency Plan.

Some commenters objected to the proposal on the basis that there is no documented need for such a rule. However, a specific emergency condition need not have previously occurred and be documented before rules are developed relating to how the FAA will respond to such an emergency. A failure to anticipate the potential need for emergency actions would not be responsive to the FAA's responsibility to provide flight safety and operate the Air Traffic Control System. A need for contingency planning and providing the means for implementing those plans when necessary is clear. This amendment responds to that part of the need when the Administrator has cause to issue emergency rules concerning the FAA's ability to operate the Air Traffic Control System and, in accordance with the established practice and the proposed rule, communicates them through the NOTAM system. As with other rules providing for regulatory NOTAMs, the proposal recognizes the potential for unusual conditions or events wherein the existing rules do not provide adequate levels of safety in air transportation. In such events (or emergencies), the regulatory significance of such NOTAMs should be expressly provided in the rules.

Some commenters objected to the proposal in Notice No. 80–19 on the basis that the FAA's NOTAM system, to varying degrees, is either ineffective or inappropriate for conveying information of regulatory significance to affected persons. There may well be room for improving the effectiveness of the NOTAM system in particular situations but deficiencies have not been identified of a magnitude that render the system unusable for its intended purposes. Several commenters offered to work with the FAA to improve the NOTAM system's effectiveness for immediately disseminating regulatory information that requires timely, reliable, and wide distribution. However, as noted, the FAA will be reviewing the methods of communicating information of regulatory significance and how to provide the most expeditious and effective means to ensure that information is provided to those affected by it. If found appropriate, additional rulemaking proceedings will be initiated to ensure a thorough public discussion of the subjects and issues involved.

One commenter agreed with the stated intent of the rule proposed in the notice but offered recommended modifications to §§ 91.100 (b) and (c), and on procedural matters. That commenter recommended that proposed § 91.100(b) be revised by deleting reference to the "efficient" use of the navigable airspace because efficiency can be preserved by the normal rulemaking processes and does not warrant emergency action. While improving efficiency does not by itself normally justify emergency action, ignoring efficiency under § 91.100 emergency rules would leave safety as the sole, not just a principal, objective of any rule or regulation issued pursuant to the new section. For example, the measures available to achieve simply the safety objectives could unnecessarily reduce efficiency in the Air Traffic Control System. However, safety, coupled with efficiency, promotes the most prudent and reasonable use of the airspace.

The commenter further recommended that § 91.100(c) be expanded to provide for annotation of NOTAMs issued under this section to reflect their authority. NOTAMs issued pursuant to § 91.100 will be identified as having been issued under that section. Under established practice, each rule, including rules communicated by NOTAM, provides a statement of its legal basis. However, the various means of communicating rules, such as NOTAMs, do not contain the authority statement published in the emergency rule. It is inappropriate to require that procedural matter in the instant § 91.100 rule.

The commenter also recommended publication of a NOTAM's substance as a notice of proposed rulemaking (NPRM) in the **Federal Register** within five working days after issuance of the NOTAM in order that it would be subjected to the normal rulemaking processes. As previously indicated, an FDC NOTAM is not a rule. It provides notice that a rule has been adopted. The FAA will publish the emergency rules, not an NPRM, in the **Federal Register**, as soon as practicable after their adoption. However, the FAA will not delay the issuance of a regulatory NOTAM under § 91.100 pending that publication. Under established procedures, the preamble to each rule not preceded by notice requests public comment on the rule and, to the extent practicable, the FAA will consider comments received in evaluating whether the rule should be modified. Further, the regulation will be published for public information even if the emergency conditions have ended and the NOTAM is cancelled before the rule is published. The timeliness of its publication must be reasonable as dictated by the prevailing conditions and publishing constraints which cannot be specified for all cases in new § 91.100. Accordingly, it would not be useful to submit to the "normal" rulemaking process an "emergency" rule that has been properly established under the unusual conditions anticipated by the laws and in accordance with those laws.

The commenter suggested the FAA publish a statement of its

responsibilities and liabilities for its actions taken under § 91.100, including any losses sustained during the emergency under the rule. Any NOTAM issued under § 91.100 would simply communciate emergency air traffic rules that have been established in accordance with the FA Act and the Administrative Procedures Act. Those rules will have been issued pursuant to those Acts in response to conditions which those Acts contemplated would necessitate foregoing prior notice and public participation and other routine processes suitable for nonemergency action. In such instances, the FAA, nonetheless, remains responsible for its action under established principles of law which the FAA cannot modify.

The commenter also recommended that the FAA take extraordinary measures to acquaint pilots and aircraft operators with the existence and content of § 91.100 NOTAMs. As relates to the instant rule, the FAA will make every reasonable effort to ensure availability for those FDC NOTAMs issued under the rule. The nature and extent of that effort will be tailored to the existing conditions but will not relieve pilots of their responsibilities prescribed under §§ 91.3, 91.5, and other applicable regulations.

Several commenters took exception to the FAA's determination that the proposal in Notice No. 80-19 was not significant under Executive Order 12044. The FAA continues to stand by that determination even though the Executive Order has since been revoked. It was made in accordance with established procedures and criteria to evaluate regulatory actions. The proposed action in Notice No. 80-19 involves agency procedure for communicating regulatory decisions when an emergency is found to exist. It was not an evaluation of the potential regulatory actions that may be taken in response to those emergency conditions, but an evaluation of the proposed rule which concerns one means by which emergency regulations would be communicated to those affected. Thus, the FAA considered the anticipated impact as so minimal that it did not warrant preparation of a regulatory evaluation under the Executive Order or implementing guidelines.

Synopsis of the Rule

This amendment establishes a new § 91.100 under the air traffic rules of Part 91, Subpart B. The rule does not itself create any new requirement for pilots or aircraft operators but establishes the FAA procedure for issuing regulatory (FDC) Notices to Airmen to provide information of regulatory significance relating to its ability to operate the Air Traffic Control System during an emergency. The new section, like §§ 91.91, 91.102, and 91.104, is limited to particular situations. It concerns the possible situations where the Administrator determines that an emergency exists, or will exist, relating to the FAA's ability to operate the Air Traffic Control System (including the possible activation of the National Air Traffic Control Contingency Plan). It addresses those situations in which normal flight operations under existing rules and regulations cannot be conducted at the required levels of safety and efficiency. Whenever that occurs, the Administrator, pursuant to statutory authority, may prescribe appropriate rules and regulations that govern flight operations, the use of navigational facilities, and the designation of that airspace in which the rules and regulations apply. If those regulatory requirements must be given effect before they can be published in the Federal Register, the Administrator, or his designee (the Director of the Air Traffic Service), issues a regulatory (FDC) NOTAM to immediately advise pilots and aircraft operators of the existence and import of those requirements that have been issued in the emergency rule. The NOTAMs themselves are not regulations but are the means for immediately communicating to those affected the regulatory requirements already issued under competent authority. As soon as practicable, the Administrator publishes the emergency rules in the Federal Register to achieve the constructive legal notice provided by that publication. In some cases, however, the emergency may have concluded and the rules may have been rescinded before they can be published; in that case publication will simply provide public notice of the action previously taken. The final paragraph of § 91.100 indicates that, because of the regulatory requirements already adopted by competent authority in a regulation before issuance of the FDC NOTAM, no person may operate an aircraft, or other device subject to the regulation, except in accordance with the authorizations, terms, and conditions prescribed in the regulation communicated by the NOTAM. As previously noted, a further discussion of the FDC NOTAM is contained in paragraph 294 of the Airman's Information Manual (AIM); NOTAMs are also covered by FAA Order 7930.2.

Postponement/Effective Date

This amendment to FAR Part 91 involves a matter relating to agency procedure and management of its programs and is needed to clarify the means for communicating certain emergency information of regulatory significance, including that needed in the event of the potential activation of the National Air Traffic Control Contingency Plan. Accordingly, I find that good cause exists for making it effective in less than 30 days after publication in the Federal Register and that it is excepted from postponement under the provisions of the President's Memorandum of January 29, 1981 (46 FR 11227; Feb. 6, 1981) for matters related to agency organization, management, or personnel and to emergency situations.

Adoption of the Amendment

Accordingly, Subpart B of Part 91 of the Federal Aviation Regulations (14 CFR Part 91) is amended effective March 13, 1981, by adding a new § 91.100 to read as follows:

§ 91.100 Emergency air traffic rules.

(a) This section prescribes a process for utilizing Notices to Airmen (NOTAM) to advise of the issuance and operations under emergency air traffic rules and regulations and designates the official who is authorized to issue NOTAMs on behalf of the Administrator in certain matters under this section.

(b) Whenever the Administrator determines that an emergency condition exists, or will exist, relating to the FAA's ability to operate the Air Traffic Control System and during which normal flight operations under this chapter cannot be conducted consistent with the required levels of safety and efficiency—

(1) The Administrator issues an immediately effective Air Traffic rule or regulation in response to that emergency condition, and

(2) The Administrator, or the Director, Air Traffic Service, may utilize the Notice to Airmen (NOTAMs) system to provide notification of the issuance of the rule or regulation.

Those NOTAMs communicate information concerning the rules and regulations that govern flight operations, the use of navigation facilities, and designation of that airspace in which the rules and regulations apply.

(c) When a NOTAM has been issued under this section, no person may operate an aircraft, or other device governed by the regulation concerned, within the designated airspace, except in accordance with the authorizations, terms, and conditions prescribed in the regulation covered by the NOTAM.

(Secs. 307, 313(a), 601, 603, 902, 1110, and 1202, Federal Aviation Act of 1958, as

amended (49 U.S.C. 1340, 1354(a), 1421, 1442, 1443, 1472, 1510, and 1522); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Note.—The FAA has determined that this document involves an emergency regulation which is not significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Further, in light of the potential disruption of the FAA's ability to operate the Air Traffic Control System, this amendment provides the procedural basis for timely communicating certain regulatory information and actions in the event of activation of the National Air Traffic Control Contingency Plan or the adoption of similar regulatory actions, which require immediate action. Thus, it is an emergency nonmajor regulation under Executive Order 12291 and the President's Memorandum of January 29, 1981. There are no cost impacts associated with this regulation since it is only procedural. Regulations which are distributed in accordance with the procedures in this amendment will be evaluated individually, as appropriate, to determine whether they have cost impacts.

Issued in Washington, DC, on March 9, 1981.

Charles E. Walthoner,

Acting Administrator.

BILLING CODE 4910-13-M

DEPARTMENT OF COMMERCE

Bureau of Economic Analysis

15 CFR Parts 804 and 805

Foreign Direct Investment in the United States Survey Regulations and Preliminary Survey of International Leasing Transactions in 1975

AGENCY: Bureau of Economic Analysis, Commerce.

ACTION: Final rule; revocation.

SUMMARY: 15 CFR Parts 804 and 805 are hereby revoked. This action is taken to consolidate the regulations and to remove reporting requirements of the Bureau of Economic Analysis (BEA) that were for one-time surveys.

EFFECTIVE DATE: March 16, 1981.

FOR FURTHER INFORMATION CONTACT: George R. Kruer, Chief, International Investment Division (BE-50), Bureau of Economic Analysis, U.S. Department of Commerce, Washington, D.C. 20230 (202-523-0657).

SUPPLEMENTARY INFORMATION: Because these parts, when in effect, imposed a burden on the public and provided for one-time surveys, it is not deemed necessary to seek comments from the public as to whether they should be revoked.

Part 804—*Foreign Direct Investment in the United States Survey Regulations,* was issued pursuant to the Foreign Investment Study Act of 1974 (Public Law 93-479) which called for a study which was to be completed in 18 months, with no provision for a continuation.

Part 805—*Preliminary Survey of International Leasing Transactions in 1975,* was issued pursuant to the Bretton Woods Agreements Act (22 U.S.C. 286f) and Executive Order 10033. The rules provided for a preliminary survey of international leasing transactions to determine if they were of such a magnitude as to warrant a regular reporting program. The results indicated that they were not and no follow-on survey was initiated.

Notice of the intention of BEA to delete 15 CFR 804 and 805 has previously been published with the Department of Commerce Semiannual Agenda of Regulations required by Executive Order 12044.

The public should note that the revocation of the rules concerning foreign direct investment in the United States as contained in Part 804 in no way effects the regulations contained in 15 CFR Part 806 concerning direct investment surveys—of both U.S. direct investment abroad and foreign direct investment in the United States.

PARTS 804 AND 805 [REMOVED]

Therefore, Title 15 of the Code of Federal Regulations is amended by removing Parts 804 and 805.

The Authority citations for Parts 804 and 805 are: The Foreign Investment Study Act of 1974 (Pub. L. 93-479), and The Bretton Woods Agreements Act, (22 U.S.C. 286f), and E.O. 10033, respectively.

Dated: March 10, 1981.

George R. Kruer,

Chief, International Investment Division.

BILLING CODE 3510-08-M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Dockets C-2868 and C-2869]

Revlon, Inc., et al. and Deluxol Laboratories, Inc., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Modifying order.

SUMMARY: This order, among other things, reopens the proceeding and modifies the Commission order issued on January 3, 1977, 42 FR 17106, 89 F.T.C. 1, by amending Paragraph IA4 to permit conditioning and manageability claims with proper substantiation.

DATES: Decision issued Jan. 3, 1977. Modifying order issued Feb. 24, 1981.

FOR FURTHER INFORMATION CONTACT: FTC/P, Albert H. Kramer, Washington, D.C. 20580. (202) 523-3727.

SUPPLEMENTARY INFORMATION: In the Matters of Revlon, Inc., et al. and Deluxol Laboratories, Inc., et al. The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, remain unchanged.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45, 52)

The Order Granting Request To Reopen the Proceeding and Modifying Order To Cease and Desist is as follows:

Revlon, Inc., on behalf of itself and its subsidiaries Revlon-Realistic Professional Products, Inc. and Deluxol Laboratories, Inc., having requested on December 4, 1980 that the Commission reopen the proceedings in Dockets C-2868 and C-2869 for the purpose of modifying the Order to Cease and Desist entered in those dockets; and

The Commission having placed such request, together with supporting documents attached thereto, upon the public record for a period of thirty (30) days, pursuant to Section 2.51 of its Rules; and

The Commission having duly considered the comments filed thereafter by interested persons; and

The Commission being of the opinion that the public interest would be served by such reopening of the proceedings;

Now, therefore, it is ordered that the proceedings in Dockets C-2868 and C-2869 be, and they hereby are, reopened; and

It is further ordered that the Order in Dockets C-2868 and C-2869 be modified by amending Paragraphs IA4 as follows:

"4. Any hair straightening product conditions or helps condition or improves condition of hair or makes or helps make hair more manageable, unless, at the time the representation is made, respondents have in their possession a reasonable basis, consisting of competent and reliable controlled tests, to support such representation."

It is further ordered that the foregoing modifications shall be effective upon service of this order.

Issued: February 24, 1981.

By direction of the Commission.
Carol M. Thomas,
Secretary
[FR Doc. 81-8037 Filed 3-13-81; 8:45 am]
BILLING CODE 6760-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing-Federal Housing Commissioner

24 CFR Parts 203, 207, 213, 220, 221, 232, 234, 235, 236, 241, 242, 244

[Docket No. R-81-914]

Mortgage Insurance and Home Improvement Loans; Changes in Interest Rates

AGENCY: Department of Housing and Urban Development.

ACTION: Final rule.

SUMMARY: This change in the regulations increases the HUD/FHA maximum interest rates on insured home and multifamily loan programs. This action by HUD is designed to bring the maximum interest rate loans into line with other competitive market rates and help assure an adequate supply of and demand for FHA financing.

EFFECTIVE DATE: March 9, 1981.

FOR FURTHER INFORMATION CONTACT: John N. Dickie, Director, Financial Analysis Division, Office of Financial Management, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410 (202-426-4667).

SUPPLEMENTARY INFORMATION: The following miscellaneous amendments have been made to this chapter to increase the maximum interest rate which may be charged on loans insured by this Department. The maximum interest rate on HUD/FHA mortgage insurance programs has been raised from 13.50 percent to 14.00 percent for level payment insured home mortgage programs (including operative builder home loans programs), and from 14.00 percent to 14.50 percent for graduated payment home loan programs (GPM). For insured multifamily project mortgage loan programs, the maximum interest rate has been raised from 13.50 percent to 14.00 percent for permanent financing loans.

The Secretary has determined that such changes are immediately necessary to meet the needs of the market and to prevent speculation in anticipation of a change, in accordance with his authority contained in 12 U.S.C. 1709-1, as amended. The Secretary has, therefore, determined that advance notice and public comment procedures are unnecessary and that good cause exists for making this amendment effective immediately.

A Finding of Inapplicability with respect to the National Environmental Policy Act of 1969 has been made in accordance with HUD's environmental procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours in the Office of Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410.

Accordingly, Chapter II is amended as follows:

PART 203—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

Subpart A—Eligibility Requirements

1. Section 203.20 paragraph (a) is revised to read as follows:

§ 203.20 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 14.00 percent per annum with respect to mortgages insured on or after March 9, 1981.

* * * * *

2. Section 203.45 paragraph (b) is revised to read as follows:

§ 203.45 Eligibility of graduated payment mortgages.

* * * * *

(b) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rates shall not exceed 14.50 percent per annum with respect to mortgages insured on or after March 9, 1981.

* * * * *

3. Section 203.46 paragraph (c) is revised to read as follows:

§ 203.46 Eligibility of modified graduated payment mortgages.

* * * * *

(c) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 14.50 percent per annum with respect to mortgages insured on or after March 9, 1981.

* * * * *

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

Subpart A—Eligibility Requirements

4. Section 207.7 paragraph (a) is revised to read as follows:

§ 207.7 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after March 9, 1981, which rate shall not exceed:

(1) 14.00 percent per annum with respect to permanent financing;

(2) 17.00 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

* * * * *

PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

Subpart A—Eligibility Requirements—Projects

5. Section 213.10 paragraph (a) is revised to read as follows:

§ 213.10 Maximum interest rate.

(a) The mortgage or a supplementary loan shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, or the lender and the borrower, with respect to mortgages or supplementary loans receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after March 9, 1981, which rate shall not exceed:

(1) 14.00 percent per annum with respect to permanent financing;

(2) 17.00 percent per annum with respect to construction financing prior to and including the cutoff date of cost certification.

* * * * *

Subpart C—Eligibility Requirements—Individual Properties Released From Project Mortgage

6. Section 213.511 paragraph (a) is revised to read as follows:

§ 213.511 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 14.00 percent per annum with respect to mortgages insured on or after March 9, 1981.

* * * * *

PART 220—URBAN RENEWAL MORTGAGE INSURANCE AND INSURED IMPROVEMENT LOANS

Subpart C—Eligibility Requirements—Projects

7. Section 220.576 paragraph (a) is revised to read as follows:

§ 220.576 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower with respect to loans receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after March 9, 1981, which rate shall not exceed:

(1) 14.00 percent per annum with respect to permanent financing;

(2) 17.00 percent per annum with respect to construction financing prior to and including the cutoff date of cost certification.

* * * * *

PART 221—LOW COST AND MODERATE INCOME MORTGAGE INSURANCE

Subpart C—Eligibility Requirements—Moderate Income Projects

8. Section 221.518 paragraph (a) is revised to read as follows:

§ 221.518 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor with respect to mortgages receiving initial endorsement (or endorsement in mortgages involving insurance upon completion) on or after March 9, 1981, which rate shall not exceed:

(1) 14.00 percent per annum with respect to permanent financing;

(2) 17.00 percent per annum with respect to construction financing prior to and including the cutoff date of cost certification.

Interest shall be payable in monthly installments on the principal amount of the mortgage outstanding on the due date of each installment.

* * * * *

PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE

Subpart A—Eligibility Requirements

9. Section 232.29 paragraph (a) is revised to read as follows:

§ 232.29 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after March 9, 1981, which rate shall not exceed:

(1) 14.00 percent per annum with respect to permanent financing;

(2) 17.00 percent per annum with respect to construction financing prior to and including the cutoff date of cost certification.

* * * * *

Subpart C—Eligibility Requirement—Supplemental Loans to Finance Purchase and Installation of Fire Safety Equipment

10. Section 232.560 paragraph (a) is revised to read as follows:

§ 232.560 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 14.00 percent per annum with respect to loans insured on or after March 9, 1981.

* * * * *

PART 234—CONDOMINIUM OWNERSHIP MORTGAGE INSURANCE

Subpart A—Eligibility Requirements—Individually Owned Units

11. Section 234.29 paragraph (a) is revised to read as follows:

§ 234.29 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor which rate shall not exceed 14.00 percent per annum with respect to mortgages insured on or after March 9, 1981.

* * * * *

12. Section 234.75 paragraph (b) is revised to read as follows:

§ 234.75 Eligibility of graduated payment mortgages.

* * * * *

(b) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate will not exceed 14.50 percent per annum with respect to mortgages insured on or after March 9, 1981.

* * * * *

13. Section 234.76 paragraph (c) is revised to read as follows:

§ 234.76 Eligibility of modified graduated payment mortgages.

* * * * *

(c) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 14.50 percent per annum with respect to mortgages insured on or after March 9, 1981.

* * * * *

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

Subpart D—Eligibility Requirements—Rehabilitation Sales Projects

14. Section 235.540(a) is revised to read as follows:

§ 235.540 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 14.00 percent per annum with respect to mortgages insured on or after March 9, 1981.

* * * * *

PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENTS FOR RENTAL PROJECTS

Subpart A—Eligibility Requirements for Mortgage Insurance

15. Section 236.15(a) is revised to read as follows:

§ 236.15 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after March 9, 1981, which rate shall not exceed:

(1) 14.00 percent per annum with respect to permanent financing;

(2) 17.00 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

* * * * *

PART 241—SUPPLEMENTARY FINANCING FOR INSURED PROJECT MORTGAGES

Subpart A—Eligibility Requirements

16. Section 241.75 is revised to read as follows:

§ 241.75 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower with respect to loans insured on or after March 9, 1981, which rate shall not exceed:

(1) 14.00 percent per annum with respect to permanent financing;

(2) 17.00 percent per annum with respect to construction financing prior to

and including the cutoff date for cost certification.

Interest shall be payable in monthly installments on the principal then outstanding.

PART 242—MORTGAGE INSURANCE FOR HOSPITALS

Subpart A—Eligibility Requirements

17. Section 242.33(a) is revised to read as follows:

§ 242.33 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after March 9, 1981, which rate shall not exceed:

(1) 14.00 percent per annum with respect to permanent financing;

(2) 17.00 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

Interest shall be payable in monthly installments on the principal then outstanding.

* * * * *

PART 244—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

Subpart A—Eligibility Requirements

18. Section 244.45(a) is revised to read as follows:

§ 244.45 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after March 9, 1981, which rate shall not exceed:

(1) 14.00 percent per annum with respect to permanent financing;

(2) 17.00 percent per annum with respect to construction financing prior to and including the cutoff date for cost certification.

BILLING CODE 4210-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-5-FRL 1777-5]

Approval and Promulgation of Implementation Plans; Michigan Revision; Correction

AGENCY: U.S. Environmental Protection Agency.

ACTION: Correction of final rulemaking.

SUMMARY: On December 24, 1980 (45 FR 85004), the U.S. Environmental Protection Agency (EPA) announced final rulemaking to approve a revision to the Michigan State Implementation Plan (SIP) for the Consumers Power Company's J. H. Campbell Plant. There was an error in the codification of the SIP revision. This notice corrects the error.

FOR FURTHER INFORMATION CONTACT: Richard J. Clarizio, Regulatory Analysis Section, Air Programs Branch, USEPA, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886-6035.

SUPPLEMENTARY INFORMATION: On December 24, 1980 (45 FR 85004), EPA announced final approval of a revision to the Michigan SIP. The revision, in the form of a Final Order, extends from January 1, 1980 until January 1, 1985, the date by which the Consumers Power Company is required to bring sulfur dioxide (SO_2) emissions from coal-fired boilers at its J. H. Campbell plant into compliance with SO_2 regulations in the federally approved Michigan SIP. There was an error in the codification of that SIP revision on page 85005. On page 85005 of the December 24, 1980, Federal Register, the section heading for the Identification of Plan was incorrectly designated as § 52.1120. It should have been designated as § 52.1170. The purpose of today's notice is to correct that error.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

This notice of final rulemaking is issued under the authority of Sections 110 and 301 of the Clean Air Act, as amended.

Dated: March 5, 1981.

Valdas V. Adamkus,

Acting Regional Administrator.

[FR Doc. 81-7985 Filed 3-13-81; 8:45 am]

BILLING CODE 6560-38-M

40 CFR Part 52

[A-7-FRL 1776-3]

Approval and Promulgation of Implementation Plans; Missouri

AGENCY: Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: In the Federal Register on November 21, 1980, EPA proposed to approve a submission made by the state of Missouri showing that certain conditions involving the State Implementation Plan (SIP) have been fulfilled. These conditions were promulgated by EPA on April 9 and May 9, 1980. The conditions involved a schedule for implementing an inspection and maintenance (I/M) program for vehicle emissions control, a commitment regarding the adoption of difficult transportation control measures (TCMs), and the Missouri definition of the term "potential emissions." EPA did not receive any comments on its proposed rulemaking.

This notice advises the public that EPA is taking final action to approve the Missouri submission.

EFFECTIVE DATE: This Rule is effective April 15, 1981.

ADDRESSES: Copies of the state submission and the EPA prepared rationale document are available for inspection during normal business hours at the following locations:

Air, Noise and Radiation Branch, Environmental Protection Agency, 324 East 11th Street, Kansas City, Missouri 64106.

Public Information Reference Unit, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

Missouri Department of Natural Resources, 2010 Missouri Boulevard, Jefferson City, Missouri 65102.

A copy of the state submission is also available at the Office of the Federal Register, 1100 L Street NW., Room 8401, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Wayne G. Leidwanger at 816 374-3791 (FTS 758-3791).

SUPPLEMENTARY INFORMATION: On April 9, 1980, EPA conditionally approved certain elements of Missouri's SIP with regard to the requirements of Part D of the Clean Air Act, as amended. A detailed discussion of that action can be found in the Federal Register notice published on that date (45 FR 24140).

As a result of EPA's conditional approval of the SIP, the state submitted

documentation on September 9, 1980, that two conditions have been fulfilled. The submission included a schedule for implementing an inspection and maintenance (I/M) program for vehicle emissions control and a commitment involving the adoption of difficult transportation control measures (TCMs). On November 21, 1980, EPA proposed to approve the state's submission and to revoke the applicable conditions (45 FR 77053). A complete discussion of these conditions, the state's submission and EPA's proposed action can be found in the **Federal Register** notice published on that date.

On August 7, 1980, EPA published regulatory changes affecting new source review in nonattainment areas. As a consequence, a third condition, attached to EPA's approval of the Missouri SIP, was addressed by these new source permitting regulations. On November 21, 1980, EPA proposed to revoke the condition concerning Missouri's definition of the term "potential emissions." EPA noted at that time that the Missouri regulation might allow consideration of physical or operational limitations which are not federally enforceable when determining potential emissions of a source. A complete discussion of this issue can be found in the November 21 **Federal Register** notice (45 FR 77053) and in the promulgation of the condition on April 9, 1980 (45 FR 24140). In the November 21 notice, EPA stated that it believed the Missouri definition was consistent with EPA's definition. EPA also solicited comments on whether the regulation should be approved or whether some remedial action by EPA would be appropriate.

No comments were received as a result of EPA's proposed rulemaking. EPA believes all three conditions have been fulfilled. EPA is now taking final action to approve the Missouri submission and to revoke the three conditions.

Action

EPA approves the I/M schedule and the commitment to justify any decision not to adopt difficult TCMs as part of the Missouri SIP and removes the applicable conditions. EPA also removes the condition concerning Missouri's definition of potential emissions.

There are other conditions promulgated by EPA which must be addressed by the state before the Missouri SIP can be fully approved. Until all conditions are met, conditional approval of the SIP will continue.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

This notice of proposed rulemaking is issued under the authority of Section 110 of the Clean Air Act as amended.

Dated: January 27, 1981.

Walter C. Barber,

Acting Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Missouri was approved by the Director of the Federal Register on July 1, 1980.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Subpart AA—Missouri

1. 40 CFR Part 52 is amended by adding § 52.1320(c)(24) to read as follows:

§ 52.1320 Identification of plan.

* * * * *

(c) * * *

(24) A schedule for an inspection and maintenance program in St. Louis and a commitment by the East-West Gateway Coordinating Council regarding difficult transportation control measures, submitted on September 9, 1980.

§ 52.1324 [Amended]

2. Section 52.1324 is amended by removing subparagraphs (c)(1)(i), (c)(1)(iii)(C) and (c)(3)(i).

[FR Doc. 81-7987 Filed 3-13-81; 8:45 am]

[A-1-FRL 1776-7]

Approval and Promulgation of Implementation Plans; New Hampshire Revisions; Correction

AGENCY: Environmental Protection Agency.

ACTION: Final rule; correction.

SUMMARY: This document corrects the rulemaking contained in a final approval of the New Hampshire air quality monitoring network published on December 18, 1980 (45 FR 83228).

FOR FURTHER INFORMATION CONTACT: Donald P. Porteous, Air Section, EPA, Region I, 60 Westview Street, Lexington, Massachusetts 02173, (617) 861-6700.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

The following corrections are made in FR Document 80-39329(A-1-FRL 1694-5) appearing on page 83228 in the issue of December 18, 1980:

The amendatory language and paragraph designation for § 52.1520, appearing in column one on page 83228 should have read as follows:

"Under § 52.1520, Identification of Plan, add paragraph (c)(17) as shown below:

* * * * *

(c) * * *

(17) * * *"

Dated: February 12, 1981.

40 CFR Part 52

[A-2-FRL 1761-7]

Approval and Promulgation of Implementation Plans; New York Revision; Correction

AGENCY: Environmental Protection Agency.

ACTION: Correction of final rule.

SUMMARY: This document corrects a final rule which appeared on page 8461 of the January 27, 1981 **Federal Register**. The January 27, 1981 notice allowed for relaxation of sulfur-in-fuel oil requirements for certain sources located in specific parts of the Southern Tier East, Central New York, and Champlain Valley (Northern) Air Quality Control Regions of New York State. This action is necessary to further define the affected sources.

FOR FURTHER INFORMATION CONTACT: William S. Baker (212) 264-2517.

SUPPLEMENTARY INFORMATION:

The Office of Management and Budget has exempted this regulation from OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

(Secs. 110, 172, and 301 of the Clean Air Act, as amended (42 U.S.C. 7410, 7502, and 7601))

Dated: February 13, 1981.

Charles S. Warren,

Regional Administrator, Environmental Protection Agency.

Correction is made in FR Doc. 81-2862 appearing on page 8461 in the issue of January 27, 1981, to revise 40 CFR 52.1670(c)(56) to read as follows:

§ 52.1670 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * * * *

(56) Revision submitted on October 31, 1979 and supplemented on April 28, 1980 and May 20, 1980 by the New York

State Department of Environmental Conservation which grants a "special limitation" under 6 NYCRR Part 225. This "special limitation" relaxes to 2.8 percent, by weight, until December 31, 1982, the sulfur-in-fuel-oil limitation applicable to fuel burning sources which have a capacity less than 250 million BTU per hour and which are located in:

(i) The Southern Tier East Air Quality Control Region (AQCR), with the exception of all sources in Broome County.

(ii) The Central New York AQCR, with the exception of the Oswego Facilities Trust Company in Oswego County and all sources in Onondaga County.

(iii) The Champlain Valley (Northern) AQCR, with the exception of all sources in the City of Glens Falls and sources in the Town of Queensbury which have a total heat input greater than 100 million BTU per hour.

40 CFR Parts 122, 264 and 265

[SWH-FRL 1775-7]

Standards Applicable to Owners and Operators of Hazardous Waste Treatment Storage and Disposal Facilities; Consolidated Permit Regulations; Extension of Comment Period

AGENCY: Environmental Protection Agency.

ACTION: Notice of extension of comment period.

SUMMARY: The Environmental Protection Agency is extending the comment period on the interim final regulations for treatment, storage and disposal of hazardous waste promulgated on January 12, 1981 (46 FR pp. 2802–2982). The regulations promulgated on January 12 set forth requirements for location, closure and post-closure care, financial requirements, use and management of containers, storage and treatment in tanks, surface impoundments and piles, and content of the Part B permit applications. Additions and changes were also made to the interim status closure, post-closure care and financial requirements.

The comment deadline for the January 12 interim final rules was originally established as March 13, 1981. Due to the length and technical nature of the requirements, several commenters requested a 30 day extension of the comment period. While these requests were reasonable, the Agency must allow sufficient time between the comment deadline and the effective date of the requirements (July 13, 1981) for any necessary revisions to the requirements. Therefore, a 14 day extension of the comment period has been granted.

DATES: Comments on the interim final regulations promulgated on January 12, 1981 (46 FR pp. 2802–2982) will be accepted until March 27, 1981. Comments in response to Requests in the Preamble of the January 12 regulations will also be accepted until March 27, 1981.

ADDRESSES: Comments should be sent to the Docket Clerk [Docket No. 3004], Office of Solid Waste (WH-562), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: For further information contact the RCRA hazardous waste hotline, Office of Solid Waste (WH-565), U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460 (phone: 800-424-9346, or in Washington, D.C. 554-1404).

Dated: March 10, 1981.

G. M. Dietrich,
Acting Deputy Assistant Administrator for Solid Waste.

40 CFR Part 52

[A-1-FRL 1772-4]

Approval and Promulgation of Implementation Plans; Vermont Revisions; Correction

AGENCY: Environmental Protection Agency.

ACTION: Final rule; correction.

SUMMARY: This document corrects the rulemaking contained in a final approval of the Vermont air quality monitoring network published on October 8, 1980 (45 FR 66789). Inadvertently, paragraph (c)(13) under the Identification of Plans was not included.

FOR FURTHER INFORMATION CONTACT: Donald P. Porteous, Air Section, EPA, Region I, 60 Westview Street, Lexington, Massachusetts 02173, (617) 861-6700.

SUPPLEMENTARY INFORMATION: The following corrections are made in FR Doc. 80-29434 appearing on 66789 in the issue of October 8, 1980:

The rulemaking appearing on column three, page 66789, beginning with the words "Subpart UU—Vermont" and ending with "(1) (Reserved)" is removed and replaced with the following:

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart UU—Vermont

Section 52.2370, paragraph (c) is amended by adding subparagraph (13) as follows:

§ 52.2370 [Amended]

(c) * * *

(13) A revision to the air quality monitoring network which meets the requirements of 40 CFR Part 58, submitted on March 21, 1979 by the Governor of Vermont.

2. Section 52.2382, paragraph (b) is revised by removing subparagraph (1) and redesignating subparagraphs (2) through (6) as (1) through (5).

The Office of Management and Budget has exempted this regulation from the review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

Dated: December 29, 1980.

Leslie Carothers,
Acting Regional Administrator, Region I.

[FR Doc. 81-6928 Filed 3-13-81; 8:45 am]
BILLING CODE 6560-38-M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

43 CFR Part 20

Employee Responsibilities and Conduct

AGENCY: United States Department of the Interior.

ACTION: Notice of Availability—Appendices C, D, E, F and G to 43 CFR Part 20.

SUMMARY: This notice announces the availability of Appendices C, D, E, F, and G which list all positions within the Department of the Interior for which statements of Employment and Financial Interests are required to be filed. These Appendices have been updated as of February 1, 1981 and have been printed as an agency document that will not be published in the **Federal Register** but which are available to the public.

EFFECTIVE DATE: February 1, 1981.

ADDRESS: Copies of the Appendices may be obtained through the Deputy Ethics Counselor for each bureau or office within the Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Gabriele J. Paone, Deputy Department Ethics Counselor, or Mason Tsai, Assistant Department Ethics Counselor, U.S. Department of the Interior,

Washington, D.C. 20240, Telephone: (202) 343–3932 or (202) 343–5916.

SUPPLEMENTARY INFORMATION: The Department of the Interior requested and received approval from the Office of Government Ethics, Office of Personnel Management, to print Appendices C, D, E, F and G to 43 CFR Part 20 as an agency document only, and at the same time announce their availability in the **Federal Register.** Notice of this arrangement was first provided with the publication of 43 CFR Part 20 as a proposed rule on October 6, 1980 (45 FR 66370). This arrangement meets administrative requirements which affect only Department employees and at the same time defrays costs of publishing in the **Federal Register.** Copies of the Appendices are on file with the Office of the Federal Register and are also available from the above address.[1]

Appendix C lists Department of the Interior positions, in addition to GS–15's for which a Confidential Statement of Employment and Financial Interests (Form DI–212) is required to be filed by Executive Order 11222. The positions in addition to GS–15's identified in Appendix C are effective for the February 1, 1981 filing date. Appendix C was approved by the Office of Government Ethics, Office of Personnel Management, in January 1981.

Appendices D, E, F and G are published to show bureaus and offices, or subunits thereof, performing functions or duties under the Federal Land Policy and Management Act (Pub. L. 94–579), the Mining in the Parks Act (Pub. L. 94–429), the Energy Policy and Conservation Act (Pub. L. 94–163), and the Outer Continental Shelf Lands Act (as amended by Pub. L. 95–372), respectively, and positions within those bureaus and offices which the Secretary has determined to be exempt from public disclosure requirements. As provided by these Acts, all officers and employees of the Department who are employed in offices or bureaus, or subunits thereof, performing functions or duties under any of the four Acts are required to file appropriate public disclosure statements unless specifically exempted by the Secretary. Such exemptions are identified in Appendices D, E, F and G are effective for the February 1, 1981 filing date.

Authorities

Appendices C, D, E, F and G to Part 20 of Title 43 of the Code of Federal Regulations are published under E.O. 11222, 30 FR 6469, 3 CFR, 1964–65 [Comp], as amended (18 U.S.C. 201 note); 5 CFR 735.104; 5 U.S.C. 301; Sec. 313, Pub. L. 94–579, 90 Stat. 2769 (43 U.S.C. 1743); Sec. 13, Pub. L. 94–429, 90 Stat. 1344 (16 U.S.C.A. 1912 (Supp. 1980)); Sec. 522, Pub. L. 94–163, 89 Stat. 962, as amended by Sec. 601(b)(2), Pub. L. 95–619, 92 Stat. 3288 (42 U.S.C. 6392 (Supp. II 1978)); and Sec. 605, Pub. L. 95–372, 92 Stat. 696 (43 U.S.C. 1804 (Supp. II 1978)).

The Appendices were compiled by Bureau and Office Ethics Counselors and consolidated by Gabriele Paone and Mason Tsai of the Department Ethics Counselor's staff.

Therefore, the text of Appendices C–G to 43 CFR Part 20 is removed from the Code of Federal Regulations. These Appendices remain in effect and are filed with the Office of the Federal Register.

Dated: March 5, 1981.

Richard R. Hite,

Deputy Assistant Secretary of the Interior.

Proposed Rules

Federal Register
Vol. 46, No. 50
Monday, March 16, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 80-AEA-78]

Alteration of Airway V-213

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to establish a low altitude airway between Robbinsville, N.J., and Solberg, N.J., VORTACs. This airway doglegs in alignment with a maximum authorized altitude (MAA) of 8,000 feet that is required to avoid delegated airspace. The traffic that now operates on this route is essentially tower en route between Atlantic City, Newark, and other satellite airports and by designating it as an airway would reduce verbiage in spelling out this route, thereby, reducing the chance of a misunderstanding.

DATES: Comments must be received on or before March 30, 1981.

ADDRESSES: Send comments on the proposal in triplicate to:
Director, FAA Eastern Region, Attention: Chief, Air Traffic Division, Docket No. 80-AEA-78, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430.
The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket (AGC-240), Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:
Charles R. Horne, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received on or before March 30, 1981 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) that would extend Federal Airway V-213 (which currently terminates at Robbinsville, N.J., VORTAC) to Sparta, N.J., VORTAC via the intersection of Robbinsville 025° and Solberg, N.J., 145° magnetic radials; Solberg direct to Sparta. This route, presently undefined on the charts, is used for traffic that operates in tower controller airspace between Atlantic City, Newark, and other satellite airports. This action also proposes that a MAA between Robbinsville and Sparta be designated at 8,000 feet. The dogleg alignment of the proposed extension along with the MAA is proposed to avoid delegated airspace. This proposal, if adopted, will reduce verbiage in defining the route and will help the pilots in planning their routes through the impacted area.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (46 FR 409) as follows:

Under V-213 after "Robbinsville" remove the period and add the following:

; INT Robbinsville 015°T (025°M) and Solberg, N.J., 135°T (145°M) radials; Solberg; to Sparta, N.J. The airspace above 8,000 feet MSL between Robbinsville and Sparta is excluded.

(Secs. 307(a), 313(a), and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a), and 1510); Executive Order 10854 (24 FR 9565); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

Note.—It has been determined under the criteria of the Regulatory Flexibility Act that this proposed rule, at promulgation, will not have a significant impact on a substantial number of small entities.

The FAA has determined that this document involves a proposed regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation and a comment period of less than 45 days is appropriate. The FAA has also determined that this proposed regulation is *not* a major rule under Executive Order 12291 since the action only involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current.

Issued in Washington, D.C., on February 18, 1981.

Harold W. Becker,

Acting Chief, Airspace and Air Traffic Rules Division.

Informal Airspace Meeting

AGENCY: Federal Aviation Administration (FAA), DOT.

SUMMARY: This Informal Airspace Meeting is to give interested persons a chance to submit such written data, views, or arguments as they may desire to discuss the proposed Buffalo, New York TCA. The information obtained from this Informal Airspace Meeting will be given consideration during the composition of the Notice of Proposed Rule Making (NPRM). All interested individuals and groups are invited to attend but, limited to space available.

DATE: This notice announces an Informal Airspace Meeting to be held at 7:30 p.m. to 10:30 p.m. on May 12, 1981.

ADDRESS: The meeting will be held at the Maryvale High School, 1050 Maryvale Drive, Cheektowaga, New York (Jr. High Bldg. entrance to parking lot off Union Road) on the proposed Buffalo, New York Terminal Control Area (TCA) Docket No. 18606–AEA–4–BUF.

FOR FURTHER INFORMATION CONTACT: Mr. Walter Rusch, Chief, Buffalo Towes, Federal Aviation Administration, Greater Buffalo International Airport, Terminal Building, Room 226, Buffalo, New York 716–846–5181. Office hours are 8:00 a.m. to 4:30 p.m., Monday through Friday.

Issued on February 26, 1981.

Everett J. Simon, Jr.,

Chief, Airspace and Procedures Branch, AEA–530.

[Airspace Docket No. 81–SO–6]

Proposed Designation of Control Zone and Alteration of Transition Area, Jupiter, Florida

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule will designate the Jupiter, Florida, Control Zone and lowers the base of controlled airspace in the vicinity of the William P. Gwinn Airport, formerly United Technologies Airport, from 700 feet AGL to the surface. The description of Jupiter, Florida, Transition Area will be altered by changing the airport name and correcting the airport geographic location.

DATES: Comments must be received on or before April 27, 1981.

ADDRESS: Send comments on the proposal to: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320.

FOR FURTHER INFORMATION CONTACT: Harlen D. Phillips, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone: 404–763–7646.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Federal Aviation Administration, Attention: Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320. All communications received on or before April 27, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rulemaking will be filed in the public, regulatory docket.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA–430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426–8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11–2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart F and Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR 71) to designate the Jupiter, Florida, Control Zone. The existing nonfederal airport traffic control tower on the private-use William P. Gwinn Airport, formerly United Technologies Airport, meets the requirements for establishment of a part-time control zone with regular hours of operation. In order to provide the maximum level of safety, designated airspace protection to the surface is required to contain Instrument Flight Rule (IFR) operations near the airport.

It is necessary to alter the description of the Jupiter, Florida, Transition Area, to reflect the airport name change and correct the airport geographic location.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend Subpart F, § 71.171 (46 FR 455), and Subpart G, § 71,181 (46 FR 540), of Part 71 of the Federal Aviation Regulations (14 CFR 71) as follows:

Jupiter, Florida

Within a 5-mile radius of William P. Gwinn Airport (lat. 26°54'29" N., long. 80°19'45" W.); within 3 miles each side of the 267° bearing from the United RBN (lat. 26°54'22" N., long. 80°19'58" W.), extending from the 5-mile radius zone to 8.5 miles west of the RBN; excluding the area within a 1.5-mile radius of Citrus Ridge Airport (lat. 26°50'14" N., long. 80°17'10" W.). This control zone is effective from 0700 to 1900 hours, local time, daily.

Jupiter, Florida

"• • • United Technologies Airport (lat. 26°54'28" N., long. 80°19'38" W.) • • •" is deleted and "• • • William P. Gwinn Airport (lat. 26°54'29" N., long. 80°19'45" W.) • • •" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Note.—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation. The FAA has also determined that this proposed regulation is *not* a major rule under Executive Order 12291 since the action only involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current.

It has been determined under the criteria of the Regulatory Flexibility Act that this proposed rule, at promulgation, will not have a signficant impact on a substantial number of small entities.

Issued in East Point, Georgia, on February 13, 1981.

George R. LaCaille,

Acting Director, Southern Region.

[Airspace Docket No. 81-AWE-7]

Proposed Alteration of Transition Area, Cochise, Arizona

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed rule making.

SUMMARY: This notice proposes to alter the transition area at Cochise, Arizona, to provide additional controlled airspace for aircraft utilizing Instrument Flight Rule (IFR) departure procedures from Tucson International Airport and Davis-Monthan Air Force Base, Tucson, Arizona.

DATES: Comments must received on or before March 31, 1981.

ADDRESSES: Send comments on the proposal in triplicate to Director, Federal Aviation Administration, Attn: Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, California, 90261. A public docket will be available for examination in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California, 90261; telephone (213) 536-6270.

FOR FURTHER INFORMATION CONTACT: Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California, 90261; telephone (213) 536-6182.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the Airspace Docket Number and be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California, 90261. All communications received on or before March 31, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Federal Aviation Administration, Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, California, 90261, or by calling (213) 536-6180. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procudures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the transition area at Cochise, Arizona. This action will provide controlled airspace for aircraft utilizing IFR departure routes from the Tucson area.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend Subpart G, § 71.181 (46 FR 540) of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by redescribing the transition area as follows:

71.181 Cochise, Arizona

That airspace extending upward from 1200 feet above the surface beginning at latitude 32° 22' 30" N, longitude 110° 00' 00" W, latitude 32° 22' 00" N, longitude 109° 57' 00" W, latitude 32° 15' 00" N, longitude 109° 27' 55" W, latitude 32° 10' 00" N, longitude 109° 37' 55" W, latitude 32° 06' 50" N, longitude 109° 23' 05" W, latitude 31° 54' 00" N, longitude 109° 25' 25" W, latitude 31° 57' 05" N, longitude 109° 55' 00" W, latitude 32° 07' 00" N, longitude 109° 54' 00" W, latitude 32° 07' 30" N, longitude 110° 00' 00" W, to point of beginning.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

Note.—The FAA has determined that this document involves a proposed regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation and a comment period of less than 45 days is appropriate. The FAA has also determined that this proposed regulation is *not* a major rule under Executive Order 12291 since the action only involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current.

It has been determined under the criteria of the Regulatory Flexibility Act that this proposed rule, at promulgation, will not have a significant impact on a substantial number of small entities.

Issued in Los Angeles, California on Februray 12, 1981.

[Airspace Docket No. 81-AWE-9]

Proposed Alteration to Transition Area, Victorville, California

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: This notice proposes to alter the transition area west of Victorville, California, to provide additional controlled airspace for aircraft operations in the Palmdale, Edwards AFB, and George AFB areas. The additional 700-foot transition area airspace will provide uniformity of Minimum Vector Altitudes (MVAs) in this area and enhance flight operations.

DATES: Comments must be received on or before March 31, 1981.

ADDRESSES: Send comments on the proposal in triplicate to Director, Federal Aviation Administration, Attn: Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, California 90261. A public docket will be available for examination in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261; telephone: (213) 536-6270.

FOR FURTHER INFORMATION CONTACT: Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261; telephone: (213) 536-6182.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the Airspace Docket Number and be submitted in triplicate to

the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261. All communications received on or before March 31, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Federal Aviation Administration, Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, California 90261, or by calling (213) 536-6180. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the transition area at Victorville, California. This action will provide controlled airspace for radar vector procedures in the Palmdale, Edwards AFB and George AFB areas.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend Subpart G, § 71.181 (46 FR 540) of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by adding the following:

71.181 Victorville, California

Delete all following, "* * * north and south of TACAN, * * *" and add "and that airspace beginning at latitude 35°06'30" N., longitude 117°37'15" W., to latitude 34°52'45" N., longitude 117°17'15" W., to latitude 34°15'10" N., longitude 117°33'00" W., to latitude 34°28'00" N., longitude 117°54'45" W. to point of beginning."

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

It has been determined under the criteria of the Regulatory Flexibility Act that this proposed rule, at promulgation, will not have a significant impact on a substantial number of small entities.

Note.—The FAA has determined that this document involves a proposed regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation and a comment period of less than 45 days is appropriate. The FAA has also determined that this proposed regulation is *not* a major rule under Executive Order 12291 since the action only involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current.

Proposed Alteration of Transition Area, Winchester, Va.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the Winchester, Va. Transition Area over Winchester Municipal Airport, Winchester, Va. The Front Royal, Virginia VORTAC has been relocated and requires revising instrument approach procedures to Winchester Municipal Airport. This alteration will provide protection to aircraft executing the revised instrument approaches which have been developed for the airport. An instrument approach procedure requires the designation of controlled airspace to protect instrument aircraft utilizing the instrument approach.

DATES: Comments must be received on or before April 23, 1981.

ADDRESSES: Send comments on the proposal in triplicate to: Chief, Airspace & Procedures Branch, AEA-530, Eastern Region, Federal Aviation Administration, Federal Building, Jamaica, New York 11430. The docket may be examined at the following location: FAA, Office of Regional Counsel, AEA-7, Federal Building, J.F.K. International Airport, Jamaica, New York 11430.

FOR FURTHER INFORMATION CONTACT: Al Reale, Airspace and Procedures Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, New York 11430, Telephone (212) 995-3391.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, New York 11430.

All communications received on or before April 23, 1981, will be considered before action is taken on the proposed amendment. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Chief, Airspace and Procedures Branch, AEA-530, Eastern Region, Federal Aviation Administration, Federal Building, Jamaica, New York 11430, or by calling (212) 995-3391.

Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the Winchester, Va., Transition Area. The airport is at present overlaid by a 700-foot area which will be altered by deleting the present southwest extension and adding an area of approximately 14 miles wide and 18 miles long to the northeast of the airport.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by altering the Winchester, Virginia, 700-Foot Floor Transition Area as follows:

Delete "within 3.5 miles each side of the Front Royal, Virginia, VORTAC 223° radial extending from the VORTAC to 11.5 miles southwest of the VORTAC" and substitute the following: "Within 9.5 miles southeast and 4.5 miles northwest of the Shawnee VORTAC 042 radial extending from the VORTAC to a point 18.5 miles northeast."

(Section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348(a)] and of Section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)]; and 14 CFR 11.65.)

Note.—The FAA has determined that this document involves a proposed regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operation, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation.

It has further been determined under the criteria of the Regulatory Flexibility Act that this proposed rule, at promulgation, will not have a significant impact on a substantial number of small entities. The FAA has also determined that this proposed regulation is *not* a major rule under Executive Order 12291 since the action only involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current.

Issued in Jamaica, New York, on February 12, 1981.

Murray E. Smith,

Director, Eastern Region.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Subchapter B

[Docket No. EL81-9-000]

Examination of Policies Relating to Preliminary Permits for Hydropower Projects; Extension of Time for Comments

March 10, 1981.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of Inquiry; extension of comment period.

SUMMARY: On February 19, 1981, the Commission issued a Notice of Inquiry involving the Examination of Policies Relating to Preliminary Permits for Hydropower Projects (46 FR 15512, March 6, 1981). The comment period is being extended at the request of National Renewable Resources, Inc., the law firm of Spiegel and McDiarmid and the American Public Power Association.

DATE: Comments must be submitted on or before April 6, 1981.

ADDRESS: Submit comments to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT:

Kenneth F. Plumb, Secretary, (202) 357-8400.

SUPPLEMENTARY INFORMATION:

On March 2, 1981, March 5, 1981 and March 6, 1981, National Renewable Resources, Inc., the law firm of Spiegel and McDiarmid and the American Public Power Association filed respective motions for an extension of time to file comments in response to the Commission's Notice of Inquiry issued February 19, 1981, in the above-docketed proceeding. These respective motions state that additional time is needed because the Commission's notice raises significant questions of law and policy which will require careful review and in-depth responses. The motions further state that additional time is required because the parties experienced certain delays in the receipt of the Commission's notice.

Upon consideration, notice is hereby given that an extension of time for the filing of comments is granted to and including April 6, 1981.

Kenneth F. Plumb,

Secretary.

[Docket No. RM81-19]

Interstate Pipeline Blanket Certificates for Routine Transactions; Proposed Rulemaking

March 10, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission gives notice that it proposes to adopt regulations providing procedures for the issuance of blanket certificates of public convenience and necessity under section 7(c) of the Natural Gas Act. The blanket certificates will authorize interstate pipelines to perform various specified activities, including construction of facilities and transportation and storage of natural gas. The proposed rule would create an integrated program for authorizing interstate pipeline activities, resulting in a reduction of regulatory burdens.

DATES: Requests for oral hearing by April 27, 1981. Public hearing on May 4, 1981. Written comments by May 8, 1981.

ADDRESS: All comments and requests for oral hearing to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT:

Robert C. Platt, Assistant Advisory Counsel, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, (202) 357-8457;

or

Robert J. Cupina, Office of Pipeline and Producer Regulation, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, (202) 357-9036.

SUPPLEMENTARY INFORMATION:

I. Background

The Federal Energy Regulatory Commission (Commission) is proposing a rule to modify its procedures under the Natural Gas Act for issuing certificates of public convenience and necessity to interstate pipelines. The modifications would create an integrated program under which some transactions would be authorized under a "blanket certificate" covering various defined generic actions of interstate pipelines, other transactions would be authorized under the blanket certificate only after a notice and protest procedure has been completed, while certificates for still other types of pipeline activities would continue to be issued as a result of case-specific determinations by the Commission.

Section 7 of the Natural Gas Act, 15 U.S.C. 717f, provides that no natural gas company may engage in the transportation and sale of natural gas in interstate commerce for resale, the construction of facilities to be used in those activities, or the abandonment of any jurisdictional service or facilities, prior to obtaining the Commission's approval of such activities. To carry out this statutory responsibility, the Commission has a number of different certificate programs. Some of these programs involve various generic determinations of public convenience and necessity and the issuance of so-called blanket certificates or "budget-type certificates" which permit interstate pipelines to undertake specific activities which fall within parameters established generically. Actions covered by section 7 which do not fall

within some blanket certificate program are authorized by certificates granted on a case-by-case basis.

In an effort to make the certificate process more efficient, the Commission has delegated a number of its activities to the Director of the Office of Producer and Pipeline Regulation (18 CFR 375.307). Each delegated activity requires significant time and effort by the pipeline companies and Commission staff. The Commission has also provided (18 CFR 1.32 and 157.11) for expedited hearings by the full Commission of uncontested, routine applications. In addition, § 157.7(a) provides for short-form applications where special information is not required or already has been filed with the Commission. Despite these efforts to expedite the process of considering and disposing of applications for certificates of public convenience and necessity, the Commission is of the opinion that substantial opportunities for regulatory reform remain.

One suggestion for regulatory reform of the Commission's certificate and abandonment authorization procedures was made by the Subcommittee on Regulatory Process of the Commission's Advisory Committee on Practice and Procedure. The Subcommittee strongly endorsed a new-notice and comment procedure for many of the certificates currently issued by the Commission after a case-specific determination. One of the purposes of this rulemaking is to implement that suggestion by the Commission's Subcommittee.[1]

Another purpose of this rulemaking is to provide an opportunity for a general review of the Commission's procedures for granting certificates of public convenience and necessity. Where it appears appropriate, the Commission is prepared to change the specifications and qualifications for blanket certificates. The Commission is also prepared to adjust its delegation assignments as appropriate. And, as noted, the Commission proposes to issue blanket certificates which would create a new notice and comment procedure for certain actions by jurisdictional pipelines that require certification. The Commission hopes that the end result of this rulemaking will be more streamlined and efficient procedures and specifications that reflect current economic conditions and the experience of the Commission in granting certificates. In addition, the Commission believes the proposed changes will lead to a more integrated and coherent program for granting certificates.

The Commission has divided the various actions that it certificates into three categories. The first category is routine actions by interstate pipelines that either have relatively little financial impact on the ratepayer or are routine pipeline operations and investments which are so well understood as an established industry practice that relatively little scrutiny is required to determine their compatibility with the public convenience and necessity. The second category is comprised of relatively routine actions in which various interested parties might or might not have a concern. In such cases there is a need to provide an opportunity for a closer review and possible adjudication of controversial aspects. The third category is comprised of actions with such a major potential impact on the ratepayer or which propose such non-routine and important considerations that close scrutiny and case specific deliberation by the Commission is warranted prior to the issuance of a certificate.

For the first category the Commission proposes to utilize a blanket certificate program similar to that provided in Subpart G of Part 284. For the second category the Commission proposes to utilize a notice and comment procedure similar to the Advisory Committee's proposal. For the third category the Commission proposes to continue to utilize its existing case-specific deliberation procedures as provided in the present regulations at Part 157. The Commission invites comments both upon the procedures proposed for each category and upon the classification of particular transactions into the categories.

Not all possible transactions have been addressed in this proposed rule. The areas that may be addressed in future rule makings include: (1) sales for resale between interstate pipelines, (2) modification of restrictions placed on transportation arrangements for gas sold to end-users, (3) section 311(a)(2) authorization of intrastate pipeline transportation incidental to any transaction authorized under the blanket certificate, and (4) modification of the Commission's regulations implementing sections 311 and 312 of the NGPA.

II. Summary of the Proposed Rule

Under the proposed rule, any interstate pipeline proposing to undertake certain defined categories of routine investment or operations may obtain a one-time blanket certificate of public convenience and necessity that will authorize such transactions (which are described in §§ 157.208 through 157.218).

Subject to the conditions imposed by the blanket certificate, the holder is automatically authorized to engage in the first category of transactions, without making formal application to the Commission. The certificate holder will be required to file annual reports summarizing the transactions which have been authorized under the certificate.

For actions which fall in the second category, the interstate pipeline will file a request with the Commission. The required contents of each request is significantly less than the required elements of a certificate application filed under the Commission's existing regulations. Notice of this request will be published in the Federal Register. If neither the Commission staff nor any other interested party files a protest within the specified 45-day period, the transaction is authorized under the blanket certificate.[2] If a protest is filed, the action is not authorized under the blanket certificate and must be considered in accordance with the procedures required for the third category of arrangements.

The third category of arrangements are authorized through case-specific deliberation by the Commission. As noted, the Commission would propose to utilize its present procedures for certificate proposals that fall in this category.

Section 157.206 of the proposed rule specifies the standard conditions which will pertain to any blanket certificate issued under this subpart. The intent of these conditions is to reflect the standard Commission practice regarding such policy issues as the treatment of production-related costs and allocation of costs to the transportation of liquids and liquefiable hydrocarbons. On other important matters, such as environmental considerations and disposition of revenues, a uniform set of criteria will be imposed in order to reconcile the Commission's case-specific statutory obligations with the scope of the generic authorization embodied in the blanket certificate.

[1] While the proposed rule would not implement the suggestions of the subcommittee in their entirety, the blanket certificate procedure would implement most of the suggestions, and where variations are proposed, the Commission contemplates that the public interest would be better served by assuring that essential information is available at the time of filing so that unnecessary protective interventions or protests can be avoided.

[2] Temporary certificates would also continue to be available to interstate pipelines requiring immediate authorizations in emergency situations. In cases where a pipeline cannot wait for the 45-day notice period, the pipeline may file a case-specific application accompanied by a request for a temporary certificate.

One of the issues considered by the Commission in preparing this proposed rule was what procedures are appropriate in a case where facts are called to the Commission's attention which indicate that a request contained an untrue statement of material fact or omitted a statement of material fact which renders the request misleading. If such untrue statements or omitted facts occur in the environmental portions of a request, prompt Commission action may be necessary in order to prevent environmental damage. The Commission believes that its existing enforcement authority is sufficient to handle any such instance. However, the Commission invites public comment upon whether a specific termination procedure should be added as a standard certificate condition.

III. Authorized Transactions

The division of the Commission's certificate caseload into the three categories discussed above is summarized in the following table:

Category	Self-implementing procedure	Prior notice procedure	Case by case review procedure
Construction and then operation of facilities	Projects costing less than $3.5 million [1]	Projects costing between $3.5 and $10 million	Projects costing more $10 million.
End user transportation	Up to 5 yr if eligible under order No. 2 or 27, and other programs authorized in the future.	Greater than 5 yr	Transportation to end-users outside the "Qualified end-user definition."
Transportation of system supplies	None (see order No. 60)	If on behalf of an interstate pipeline, intrastate pipeline or distribution.	None.
Sales for resale	(To be cured by separate rulemaking)		
Sales taps	Right of way grantor, subject to a 200 million Btu per day limit.	Other sales taps, if within certificate entitlements.	None.
Change in delivery points	None	If change is between rate zones	None.
Contract storage service	Up to 2 yr under commission approved rate schedule.	In excess of 2 yr	If no commission approved rate schedule on file.
Change in storage capacity	None	If no new facilities are required	If new facilities are required.
Abandonments	Gas supply facilities if producer abandonment obtained or unnecessary.	Sales taps or lateral lines, if all customers consent.	If customers do not consent or producer certificate is outstanding.
Change in rate schedules	Volumetric limits not increased	None	If volumetric limits increased.
Name change	Customer's name, if the result of reorganization or acquisition.	None	None.

[1] Subject to an annual limit which varies between $1 million and $36 million depending upon the size of the pipeline. These limits escalate with the implicit GNP deflator.

A. Construction, Acquisition and Operation of Facilities

At present, various types of minor transactions, most of them involving the construction and operation of facilities are authorized under the "budget-type" certificate program set forth in § 157.7, paragraphs (b) through (g). The regulations authorize four kinds of transactions so long as the cost of constructing the facilities for each transaction does not exceed certain monetary limits. The four types of transactions presently authorized include: construction of facilities for attaching gas supplies, testing and development of underground storage, abandonment of direct sales measuring stations, and miscellaneous facility rearrangements. Under present regulations, a separate "budget-type" certificate must be obtained for each category of construction or abandonment. In addition, in three of the categories, certificate applications must be refiled each year.

The proposed procedure presents advantages over the budget-type certificate program because it simplifies the certification process and authorizes the construction of a greater range of facilities. Under the proposal only one certificate would be required to authorize the construction and operation of any minor facility so long as the certificate holder does not exceed certain cost limitations. A "minor facility" is any jurisdictional facility in the gas transmission system except for the main line, an extension of the main line, or a facility which alters the capacity of a main line.

If the cost of the facility does not exceed $3,500,000, the construction and operation of the facility is automatically authorized. The authorization to automatically construct facilities is also subject to an annual limit which is the lesser of $36,000,000 or 3% of the certificate holder's net plant. A company with less than $33.3 million in its net gas plant account may construct facilities having a total annual cost of up to $1,000,000. However, upon application this annual limit may be waived. Facilities which exceed $3,500,000 but not $10,000,000 may be authorized under the blanket certificate but are subject to the notice procedure. (The $3,500,000, $10,000,000 and $36,000,000 limits will be adjusted annually to reflect inflation.) For any year in which minor facilities are constructed under the authority of the blanket certificate, the certificate holder must file an annual report concerning the facilities constructed.

Because the proposed blanket certificate authorizes the construction and operation of everything that could be authorized under a budget-type certificate and reduces the procedural burdens imposed during the certificate process, the Commission proposes to eliminate the budget-type certificate program when the blanket procedure becomes effective. The terms and conditions of any outstanding budget-type certificate would remain effective. However, upon adoption of a final rule in this docket, the Commission would no longer accept applications for budget-type certificates. Moreover, each blanket certificate holder would be required to surrender any outstanding budget-year certificate as a condition of accepting a blanket certificate.

B. Transportation

The proposed rule authorizes transportation services for both the system supply of other pipelines and distributors as well as for certain individual end-users.

1. *End-user transportation.*—The Commission has a number of separate end-user transportation programs under Order Nos. 2, 27 and 30, for different categories of end-users. Section 2.79, promulgated by Order No. 2, permits interstate pipelines to transport gas sold by producers to certain commercial, process and feedstock users. Subpart E of Part 157, promulgated by Order No. 27, permits interstate pipelines to transport gas to schools, hospitals, and essential agricultural users. Subpart F of Part 284, promulgated by Order No. 30, authorizes the transportation of fuel oil displacement gas. The eligibility criteria and certificate conditions are different for each program. Except for certain Order No. 30 transaction,[3] the regulations under each program require separate certification for each transaction. Under the proposed rule, any end-user who is eligible to participate in the Order Nos. 2, 27 and 30 programs would be able to obtain

[3] Order No. 30, in § 284.202 does authorize certain transportation on a generic basis under section 311(a)(1) of the NGPA.

pipeline transportation of the end-user's natural gas under the blanket certificate. The blanket certificate would eliminate the need for separate certification of each transaction. Transportation of end-user owned gas for periods greater than five years duration would be subject to the notice procedure. Regardless of whether authorized automatically or after the notice procedure, all transportation arrangements for end-users would be subject to the current eligibility criteria and end-use restrictions of Order Nos. 2, and 27 or such other programs as may be prospectively designated.[4]

2. *Transportation for system supplies.*—The current blanket certificate program promulgated by Order No. 60 and contained in Subpart G of Part 284 authorizes the transportation of natural gas by an interstate pipeline on behalf of any other interstate pipeline. At Subpart B of Part 284 certain transportation of gas by any interstate pipeline on behalf of any intrastate pipeline or any local distribution company is authorized under section 311(a)(1) of the NGPA. Both of these authorizations are limited to transactions involving two years or less. The Commission intends to retain both the Order No. 60 blanket certificate program and the self-implementing transportation authorizations under section 311(a). However, the proposed rule would give a holder of a blanket certificate the additional option (after following the notice procedure) of entering into certain transportation arrangements which will extend beyond two years. Such transportation may not require additional capacity and the gas transported must ultimately become a part of the system supply of a pipeline or distributor.

C. Sales for Resale

The Commission will consider in a separate rulemaking whether or not sales for resale between interstate pipelines for system supplies should be authorized under the blanket certificate program proposed under this rulemaking. At this time the Commission simply proposes to reserve a section for sales for resale between interstate pipelines.

D. Sales taps

1. *Right-of-way grantors.* The present policy of the Commission is to routinely approve, through normal certification procedures, the construction and operation of sales taps[5] for the delivery of relatively small volumes of gas to right-of-way grantors if the tap is permitted as consideration for a right-of-way easement obtained by the certificate holder.[6] The proposed blanket certificate would authorize automatically such sales taps so long as the gas at each tap to be delivered does not exceed 200 MMBtu per day.

2. *Existing customers.* Under existing regulations, an interstate pipeline must also obtain a certificate for each sales tap it constructs to serve other customers as well as right-of-way grantors. The Commission reviews both the end-use of the gas and the proposed sales price before authorizing the construction of a tap. If the end-use and price are appropriate, taps for existing customers are routinely approved. Under the proposed rules, construction of new taps to connect existing customers of the certificate holder are authorized subject to the notice procedure.

E. Changes in Delivery Points

At present, the Commission gives case-by-case consideration to applications for certificate amendments authorizing new delivery points or reassignment of delivery points. These amendments are routinely authorized. Proposed § 157.212 authorizes (subject to the notice procedure) a certificate holder to add new delivery points or reassign volumes between delivery points. The total volumes to be delivered to the customer may not exceed the volumes previously authorized. The change is not authorized if it is prohibited by the certificate holder's tariff or if the certificate holder does not have sufficient capacity to accomplish the deliveries without detriment or disadvantage to other customers.

F. Performance of Storage Service

The Commission routinely authorizes pipelines to provide storage service where such service does not exceed the pipeline's existing capacity. However, under the present regulations such authorization must be obtained through normal certification procedures each time the pipeline proposes to provide such service. Proposed § 157.213 provides blanket authorization for the certificate holder to provide storage service if the storage service is within the certified storage capacity of the certificate holder, the term of the service does not exceed two years and, the rate for the service is covered by an effective rate schedule. Any such storage arrangement which exceeds two years may be authorized but is subject to the notice procedure.

G. Increase in Storage Volumes

Proposed § 157.214 authorizes the certificate holder to provide for the storage of additional volumes of natural gas so long as the certificate authorized the operation of a storage field, and the additional storage will not exceed the physical limitation of the facility and will not require the construction of additional facilities. Such authorization is subject to the notice procedure. Most problems which arise with respect to the storage of additional volumes in an existing facility concern the safety of providing such additional storage. Therefore, in requesting authorization for additional storage the certificate holder must submit information which reflects the facility's ability to store additional volumes. In addition the certificate holder must submit a semi-annual report containing information pertinent to the safety of the storage facilities.

H. Underground Storage Testing

Section 157.7(d) of the Commission's existing budget-type certificate regulations authorize a testing and development of underground storage fields for a term of three years. The authorization provided in § 157.7(d) are carried forward in § 157.215. Because of the perpetual term of the blanket certificates, the three year time limit and $3,000,000 limit contained in § 157.7(d) have been dropped. Under proposed § 157.215, the certificate holder may test and develop any number of proposed storage fields, so long as no more than $1,000,000 is spent on such testing during any given year.

I. Abandoment

The Commission routinely authorizes pipelines to abandon gas supply facilities where the sales have already terminated and any necessary abandonment was obtained. Again, these transactions must presently be authorized on a case-by-case basis pursuant to the normal abandonment procedure. Proposed § 157.216 authorizes abandonment of gas supply facilities and service if the seller has been authorized to abandon the sale or the sale has ceased and has been removed from the Commission's abandonment jurisdiction by operation of section 001(a)(1) of the NGPA. The

[4] The Order No. 30 program automatically expires on May 31, 1981.

[5] A sales tap consists of the incidental facilities necessary to serve a new customer from the certificate holder's existing line. It includes meters and connecting pipe.

[6] Opinion No. 773, issued August 13, 1976, in Docket No. CP75-333.

authority to abandon these facilities is automatic under the blanket authorization. Sales taps or lateral and related facilities may be abandoned subject to the notice procedure if all buyers currently served through the tap or lateral line consent to the abandonment. Buyers currently served do not include customers which have ceased to exist.

J. Changes in Rate Schedules

The Commission has routinely amended certificates to permit an existing customer to change from one rate schedule to another. Proposed § 157.217 automatically authorizes the certificate holder to shift purchases of an existing customer from one rate schedule to another. Such changes are authorized if they have the effect of not changing the total volumetric limitations on deliveries for that customer and must be consistent with the terms of effective tariffs.

K. Changes in Customer

Finally, the Commission also routinely approves amendments to outstanding certificates to reflect customer name changes. Proposed § 157.218 automatically authorizes amendments in outstanding certificates to reflect the change in the name of an existing customer if the name change is a result of corporate reorganization or acquisition. Where the customer's name changes for other reasons the authorization of the amendment is subject to the notice procedure. Because the Secretary of the Commission is already authorized to change the name of a certificate holder under § 375.302(a), no corresponding authority is needed under the blanket certificate.

IV. Environmental Issues

An environmental assessment of the proposed rulemaking is being prepared by the Commission's environmental staff. This assessment will identify the significance of any potential environmental impact which might result from transactions which would be authorized under the blanket certificate. The environmental assessment will provide the basis for determining the need to prepare an environmental impact statement (EIS) prior to the issuance of the final rule.

Full consideration will be given to the type of projects and actions allowed under the self-implementing and notice procedure authorizations and to the proposed standard environmental compliance conditions and environmental reporting requirements proposed in the rulemaking. The assessment will evaluate direct environmental effects that may occur from authorizing transactions such as construction of facilities proposed in §§ 157.208 and 157.211 as well as secondary effects that might arise from non-construction transactions authorized in §§ 157.209, and 157.212 through 157.218.

Any person who wishes to submit comments on environmental issues should provide a detailed explanation which address each specific environmental concern and the reason each concern is felt to be a significant issue. This information will be helpful to the staff in developing an environmental record in this rulemaking, and will be incorporated in the Commission's scoping process should an EIS be prepared.

V. Certification of No Significant Economic Impact on Small Businesses

The Regulatory Flexibility Act (RFA)[7] requires certain statements, descriptions and analyses of proposed rules that will have "a significant economic impact of a substantial number of small entities."

Pursuant to section 605(a) of the RFA, the Commission finds that the provisions of the Act do not apply to this rulemaking. If promulgated, this rulemaking would simplify the procedures under which interstate pipelines may obtain certificates authorizing routine transactions. The budget-type certificate regulations were promulgated for similar purposes 24 years ago. The characteristics of the participants in the budget-type certificate program reflect the nature of the interstate pipeline industry. With five exceptions, only Class A pipeline companies[8] have participated in the program. Of the five exceptions, only two were not affiliated with a major natural gas company. Because the nature of the budget-type certificate program and the proposed blanket certificate program are similar, the nature of the participants in each program should also be similar. Therefore, the Commission believes that very few, if any, of the interstate pipelines which will participate in this program will be small entities.

As such, this rulemaking does not impose any regulatory or administrative burdens upon a significant number of small entities, nor does it require an expense of resources by such entities. For these reasons, the Commission hereby certifies that this rulemaking, if promulgated, would not have a significant impact on a substantial number of small entities.

[7] 5 U.S.C. 601–602 (Pub. L. 96-345, September 19, 1980).

[8] To be classified as Class A company, the company's should have annual gas operating revenues of $2,500,000 or more and maintain that level for three consecutive years. (See Part 201, Uniform System of Accounts for Natural Gas Companies Subject to the Provisions of the Natural Gas Act (Class A and Class B); General Instructions.

VI. Public Comment Procedure

A. Written Comments

Interested persons are invited to submit written comments, data, views, or arguments with respect to this proposal. Comments should be submitted to the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 and should reference Docket No. RM81–19. An original and 14 copies should be filed. All comments received prior to 4:30 p.m. EST, May 8, 1981, will be considered by the Commission prior to promulgation of final regulations. All written submissions will be placed in the public file which has been established in this docket and which is available for public inspection in the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. during regular business hours.

B. Public Hearing

A public hearing on this proposed rule will be held on May 4, 1981, beginning at 10:00 a.m. EST at the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. The exact location will be posted at the Commission on the morning of the hearing. Interested persons may also obtain this information by calling the Office of the Secretary of the Commission.

Requests to participate in the hearing should be directed to the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, no later than seven days prior to the hearing. Requests should reference Docket No. RM81–19, and should indicate the amount of time required for the oral presentation, and the telephone number at which the person making the presentation can be reached. Persons participating in the public hearing should, if possible, bring 50 copies of their testimony to the hearing. A list of the participants in the hearing will be available in the Commission's Division of Public Information three days before the hearing and will be available at the site of the hearing on the morning it is convened.

The hearing will not be of a judicial or evidentiary type. There will be no cross-examination of persons presenting

statements. However, the panel may question such persons and any interested person may submit questions to the presiding officers to be asked of persons making statements. The presiding officer will determine whether the question is relevant and whether the time limitations permit it to be presented. Any further procedural rules will be announced by the presiding officer at the hearing. Transcripts of the hearing will be available in the public file for this proceeding, Docket No. RM81-19 in the Commission's Division of Public Information.

(Natural Gas Act, 15 U.S.C. 717; Natural Gas Policy Act of 1978, Pub. L. No. 95-621, 92 Stat. 3350, 15 U.S.C. 3301])

Accordingly, the Commission proposes to amend the regulation in Part 157, Chapter I, Title 18, Code of Federal Regulations, as set forth below.

By Direction of the Commission.

Kenneth F. Plumb,

Secretary.

PART 157—[AMENDED]

1. Part 157 is amended in the Table of Contents by adding Subpart F to read as follows:

Subpart F—Interstate Pipeline Blanket Certificate and Abandonment Authorization Under Section 7 of the Natural Gas Act for Routine Transactions

Sec.
157.201 Applicability.
157.202 Definitions.
157.203 Blanket certification.
157.204 Application procedures.
157.205 Notice procedure.
157.206 Standard conditions.
157.207 General reporting requirements.
157.208 Construction and operation of facilities.
157.209 Transportation.
157.210 Sales for resale [Reserved].
157.211 Construction and operation of sales taps.
157.212 Changes in delivery points.
157.213 Storage services.
157.214 Increase in storage capacity.
157.215 Underground storage testing and development.
157.216 Abandonments.
157.217 Changes in rate schedules.
157.218 Changes in customer name.

Authority: Natural Gas Act, 15 U.S.C. 717, Natural Gas Policy Act of 1978, Pub. L. No. 95-621, 92 Stat. 3350, 15 U.S.C. 3301.

2. Part 157 is amended by adding a new Subpart F to read as follows:

Subpart F—Interstate Pipeline Blanket Certificate and Abandonment Authorization Under Section 7 of the Natural Gas Act for Routine Transactions

§ 157.201 Applicability.

(a) *Scope.* This subpart establishes a procedure whereby any interstate pipeline may obtain a blanket certificate authorizing certain routine construction and operation of facilities, transportation, and sales arrangements under section 7 of the Natural Gas Act. Each blanket certificate also authorizes certain routine certificate amendments and abandonments.

(b) *Who may apply.* This procedure is only applicable to interstate pipelines.

(c) *Cross-references.* For other blanket certificate authorizations applicable to interstate pipelines and certain local distribution companies, see Subpart G of Part 284 of this chapter.

(d) *Availability of case-specific certificates.* Nothing in this subpart shall preclude an interstate pipeline from proceeding under any other provision of the Commission's regulations to obtain Commission approval of abandonments or a temporary or permanent certificate of public convenience and necessity or from proceeding under section 311(a)(1) of the NGPA regarding transportation service if applicable.

§ 157.202 Definitions.

For the purposes of this subpart:

(a) Terms defined in the Natural Gas Policy Act of 1978 shall have the same meaning for the purposes of this subpart as they have under the NGPA.

(b) "Certificate holder" means any interstate pipeline with an effective blanket certificate issued pursuant to this subpart.

(c) "Gas supply facilities" means minor, routine facilities subject to the Natural Gas Act jurisdiction of this Commission, which are necessary to connect the system of an interstate pipeline company, or the system of another pipeline company authorized to transport gas for or exchange gas with an interstate pipeline company to natural gas supplies destined for the system supply of an interstate pipeline company.

(d) "Main line" means the principal transmission facilities of a pipeline system to market areas and does not include small diameter lateral or gathering lines.

(e) "Minor facility" means any facility except a main line of a transmission system, or an extension of a main line; a facility, including compression, which alters the transmission capacity of a main line system; or facilities required to develop an underground storage field or to store gas above ground in either a gaseous or liquid state. "Facility" shall not be interpreted to include any item described in § 2.55 of this chapter.

(f) "NGPA" means the Natural Gas Policy Act of 1978.

(g) "Project" means a unit of improvement or construction which upon completion is functional without any further construction of facilities.

(h) "Project cost" means the total actual cost of constructing a project. In the case of a project constructed jointly by more than one interstate pipeline, the project cost is the total cost, irrespective of the amount paid by each pipeline.

(i) "Right-of-Way grantor" means a person who grants a right of way easement to the certificate holder in reliance upon obtaining natural gas service as part of the easement agreement.

(j) "Sales tap" means metering and appurtenant facilities necessary to enable the certificate holder to deliver gas to a distribution customer or an end-user.

(k) "Sensitive environmental area" means:

(1) The habitat of a species which has been identified as endangered or threatened species under the Endangered Species Act (Pub. L. 93-205, as amended),

(2) National or State Forests or Parks,

(3) Sites listed in, or eligible for inclusion in, the National Register of Historic Places, or the National Register of Natural Landmarks,

(4) Flood plains and wetlands,

(5) Designated or proposed wilderness areas or national or state wild and scenic rivers, wildlife refuges, or preserves, or

(6) Prime agricultural lands, designated by the Department of Agriculture.

(l) "Qualified end-user" means:

(1) An "eligible user" as defined in § 157.102(b) of this chapter;

(2) Any end-user eligible to receive gas transported under § 2.79 of this chapter; or

(3) Any end-user which the Commission specifically authorizes from time-to-time to receive gas under this subpart.

(m) "Storage service" means the receipt of natural gas for injection into storage and the subsequent withdrawal of an equivalent volume (less any fuel or unaccounted for volumes) at a later date.

§ 157.203 Blanket certification.

(a) *Effect.* A blanket certificate issued pursuant to this subpart authorizes an interstate pipeline to engage in any of the activities specified in § 157.208 through § 157.218 (as amended from time to time) in accordance with the provisions of this subpart.

(b) *Automatic authorization.* A blanket certificate issued pursuant to this subpart authorizes the certificate holder to engage in transactions described in §§ 157.208(a), 157.209(a), 157.211(a), 157.213(a), 157.215, 157.216(a),

157.217 and 157.218(a) without further Commission approval.

(c) *Prior notice required.* A blanket certificate issued pursuant to this subpart authorizes the certificate holder to engage in transactions described in §§ 157.208(b), 157.209(b), 157.211(b), 157.212, 157.213(b), 157.214, or 157.216(b), if the requirements of § 157.205 have been fulfilled and no protests were filed in accordance with § 157.205(d).

§ 157.204 Application procedure.

(a) *Who may apply.* Any interstate pipeline may apply for a blanket certificate under this subpart.

(b) *Hearing procedure.* Upon receiving an application for a blanket certificate under this subpart, the Commission will conduct a hearing pursuant to section 7(c) of the Natural Gas Act and §§ 1.32 and 157.11 of this chapter.

(c) *Issuance.* If required by the present or future public convenience and necessity, the Commission will issue a blanket certificate to the applicant.

(d) *Application contents.* Applications for blanket certificates shall contain:

(1) Information indicating the exact legal name of applicant; its principal place of business; whether applicant is an individual, partnership, corporation or otherwise; the state under the laws of which organized or authorized; the agency having jurisdiction over rates and tariffs and the name, title, and mailing address of the person or persons to whom communications concerning the application are to be addressed,

(2) A list of outstanding budget-type certificates held by the applicant issued pursuant to § 157.7, and

(3) A statement that the applicant will comply with the terms, conditions and procedures specified in this subpart.

§ 157.205 Notice procedure.

(a) *Applicability.* No transaction described in §§ 157.208(b), 157.209(b), 157.211(b), 157.212, 157.213(b), 157.214, or 157.216(b) is authorized by a blanket certificate issued under this subpart unless the notice requirements have been fulfilled in accordance with the provisions of this section and no protest has been filed in accordance with paragraph (d) of this section.

(b) *Submission of request by pipeline.* For any transaction subject to the requirements of this section, the certificate holder shall file with the Secretary of the Commission an original and fifteen copies of a request containing the following items:

(1) The exact legal name of the certificate holder and mailing address of the person or persons to whom communications concerning the request are to be addressed;

(2) The docket number in which its blanket certificate was issued;

(3) Any information required in § 157.208 through § 157.216 for the particular transaction;

(4) A verified statement that the proposed transaction complies with the requirements of this subpart; and

(5) A form of notice suitable for publication in the **Federal Register**, as contemplated by § 157.6(b)(7) and § 157.9, which briefly summarizes the facts contained in the request in such a way as to acquaint the public with its scope and purpose.

(c) *Publication of notice of request.* The Secretary shall publish a notice of the request as soon as it is practicable. The notice shall designate a deadline for filing protests or interventions to the request. The deadline shall be at least 45 days after the filing date of the request.

(d) *Protests.* (1) Any person or the Commission's staff may file a protest prior to the deadline established by the Secretary. Copies of the protest must be served on the Secretary of the Commission, the certificate holder, and any intervenor or other party protesting the requested authorization.

(2) Protests shall be filed in the following form:

United States of America Before the Federal Energy Regulatory Commission

[Name of Pipeline]

Docket No. [Include both docket No. of the blanket certificate and subdocket].

Protest to Proposed Blanket Certificate Transaction

[Name of Protestor] hereby protests the request filed by [Name of pipeline] to conduct a [sale, transportation, construction of facilities, abandonment, etc.] under § 157.____ of the Commission regulations. Protestor seeks to have this request processed as a separate application.

[Include a brief statement of Protestor's interest in the transaction and the grounds for the objection.]

(e) *Effect of protest.* If a protest is filed in accordance with paragraph (d) of this section, the transaction shall not be authorized by the blanket certificate. Instead, the request filed by the certificate holder shall be treated as an application for section 7 authorization for the particular transaction. The **Federal Register** notice of the request shall be deemed to be notice of the section 7 application sufficient to fulfill the notice requirement of §§ 157.9 and 157.10

(f) *Final authorization.* If no protest is filed by any person or the Commission's staff within the deadline prescribed by the Secretary, the certificate holder shall be deemed to be authorized to conduct the transaction under its blanket certificate, effective upon the day after the deadline established by the Secretary

§ 157.206 Standard conditions.

Any transaction authorized under a blanket certificate issued pursuant to this subpart shall be subject to the following conditions:

(a) *Revisions.*

(1) The Commission reserves the right to amend the requirements of this subpart from time to time and to revoke any blanket certificate on 60 days notice.

(2) The blanket certificate is not transferable in any manner and shall be effective only so long as applicant continues the operations authorized by the order issuing such certificate and in accordance with the provisions of the Natural Gas Act, as well as applicable rules, regulations, and orders of the Commission.

(b) *Production-related costs.* At such time as the certificate holder proposes to recover in its rates any costs incurred by it to compress, process, treat, or gather natural gas purchased or transported by it, the pipeline may be required to prove that the activity which engendered those costs was prudent. In determining prudence, the Commission will apply the statement of policy set out under § 2.102 of this chapter.

(c) *Liquids and liquefiable hydrocarbons.* To the extent that the certificate holder transports substances other than natural gas (which are ultimately removed from the natural gas stream) pursuant to the blanket certificate or uses facilities authorized by the blanket certificate for the transportation of such substances, the certificate holder shall be required to allocate costs to the transportation of those substances. This certificate is issued without prejudice as to any action taken by the Commission in Phase II of the Louisiana First Use Tax proceeding in Docket No. RM78–23.

(d) *Environmental compliance.* (1) All transactions authorized by the blanket certificate shall be in full compliance with § 2.69 of this chapter.

(2) All transactions shall be consistent with the provisions of the following statutes and regulations or compliance plans developed to implement these statutes:

(i) Clean Water Act, as amended (33 U.S.C. 1251 et. seq.) and the National Pollution Discharge Elimination System Program, 40 CFR Part 122 et. seq.;

(ii) Clean Air Act, as amended (42 U.S.C. 1801 et. seq.) and air quality regulations and state implementation

plans adopted pursuant to 40 CFR Parts 50 through 99;

(iii) Safe Drinking Water Act, as amended (42 U.S.C. 300f et. seq.);

(iv) National Historic Preservation Act of 1966 (16 U.S.C. 470 *et. seq.*);

(v) Archeological and Historic Preservation Act of 1974 (Pub. L. 93–291);

(vi) Coastal Zone Management Act of 1977, as amended (16 U.S.C. 1451 *et. seq.*);

(vii) Endangered Species Act of 1973, Pub. L. 93–205, as amended (16 U.S.C. 1531 *et. seq.*);

(viii) Executive Order 11988, May 24, 1977 requiring Federal agencies to evaluate the potential effects of any actions it may take on a floodplain;

(ix) Executive Order 11990, May 24, 1977 requiring an evaluation of the potential effects of construction on wetlands;

(x) Wild and Scenic Rivers Act (16 U.S.C. 1274 *et. seq.*);

(xi) National Wilderness Act (16 U.S.C. 1133 *et. seq.*);

(xii) National Parks and Recreation Act of 1978 (16 U.S.C. 1 and 230 *et. seq.*);

(xiv) Wildlife Restoration Act (16 U.S.C. 3669 *et. seq.*).

(3) Any transaction shall not significantly impact, or adversely affect:

(i) An endangered or threatened species as identified under the Endangered Species Act, or

(ii) A sensitive environmental area.

(4) Any compressor installed pursuant to the blanket certificate shall not increase ambient noise levels at nearby existing residences above a mean level (L_{dn}) of 55 dBA.

(e) *Budget-type certificates.* The certificate holder shall surrender any outstanding budget-type certificates issued pursuant to § 157.7 upon acceptance of a certificate issued pursuant to this subpart.

(f) *Commencement.* Any authorized construction, extension, or acquisition shall be completed and in actual operation by the certificate holder and any authorized operation, service or sale shall be actually undertaken within one year of the deadline for protests established by the Secretary under § 157.205(c).

(g) *Treatment of revenues.* (1) Except as provided in subparagraphs (2) and (3) of this paragraph, all revenues received for transportation (including storage service) authorized under the blanket certificate in excess of an allowance of one cent per MMBtu shall be credited to Account No. 191 and flowed back to the certificate holder's customers.

(2) A certificate holder is not required to credit revenues to Account No. 191 pursuant to subparagraph (1):

(i) To the extent revenues attributable to such services fall within representative levels which have been credited in arriving at a test period cost of service; or

(ii) To the extent that volumes transported fall within representative levels which have been included in billing determinants for the purpose of establishing rates.

(3) The certificate holder may elect to forego the one cent per MMBtu allowance provided in paragraph (g)(1) of this section. In such a case the certificate holder is not required to credit to Account No. 191 any amount which, upon application, the Commission finds to have been demonstrated as representing the out-of-pocket expenses of the certificate holder in connection with a transaction authorized under this Subpart.

(h) *Reports.* The certificate holder shall file reports as required by this subpart.

§ 157.207 General reporting requirements.

(a) *Annual report.* On March 1 of each year, the certificate holder shall file a statement, in writing and under oath, listing for the previous calendar year:

(1) For each new facility authorized by § 157.208; the information specified by § 157.208(e);

(2) For each transportation service authorized pursuant to § 157.209, the information specified by § 157.209(d);

(3) For each sales tap authorized pursuant to § 157.211(a); the information required by § 157.211(e);

(4) For each storage service authorized pursuant to § 157.213(a), the information specified in § 157.213(c);

(5) For each storage project tested or developed pursuant to § 157.215; the information specified by § 157.215(b)(1);

(6) For each abandonment authorized pursuant to § 157.216(a); the information specified by § 157.216(d);

(7) For each change in rate schedule authorized pursuant to § 157.217, the information specified in § 157.217(b); and

(8) For each change in customer name authorized pursuant to § 157.218, the information specified in § 157.218(b).

(b) *Subsequent reports.* If any significant change occurs with respect to the information filed under this section, the certificate holder shall file with the Commission within 30 days, under oath, appropriate amendments to its request or annual report, signed by a senior official of the company.

(c) *Final reports.* Within thirty days after the termination of any arrangement authorized under §§ 157.209, or 157.213, the certificate holder shall file with the Commission a report, under oath, signed by a senior official of the company, stating:

(1) The identity of the certificate holder;

(2) The identity of all parties to the transaction;

(3) The dates of commencement and termination of the arrangement;

(4) Actual total and maximum daily volumes of natural gas transported pursuant to the arrangement;

(5) Total revenues received and a complete statement of the manner in which the revenues were treated;

(6) A brief explanation of the transaction; and

(7) In the case of transportation to an end-user authorized under §§ 157.209(a) or (b)(1), the information required by § 157.105(f).

(d) *Other reports.* For other reporting requirements see the individual sections §§ 157.208 through 157.218.

§ 157.208 Construction and operation of facilities.

(a) *Automatic authorization.* (1) Subject to the annual budget limitation of subparagraph (2), the certificate holder is authorized to construct and operate any minor facility whose project cost does not exceed the amount specified in line 1 of Table I.

(2) The total cost of all minor facility construction authorized pursuant to this paragraph during any calendar year under the blanket certificate shall not exceed the lesser of:

(i) The amount specified in line 2 of Table I; or

(ii) The greater of:

(A) $1,000,000 or

(B) Three percent (3%) of the certificate holder's net plant in Account No. 101. The dollar limit for construction during a partial calendar year shall bear the same proportion to the certificate holder's limit as the number of months in the calendar year bears to 12.

The certificate holder may apply to the Commission for a waiver of the calendar year dollar limit of this subparagraph for any year.

(b) *Prior notice.* Subject to the notice procedure of § 157.205, the certificate holder is authorized to construct and operate any minor facility whose project cost is greater than the amount specified in line 1 of Table I, but less than the amount specified in line 3 of Table I.

(c) *Contents of request.* Request filed pursuant to paragraph (b) shall contain:

(1) A description of the purpose of the proposed facilities;

(2) A detailed description of the proposed facilities specifying length, diameter and wall thickness for pipeline; and size, type, number of horsepower needed, installed and proposed, volume

of fuel gas, suction and discharge pressures and compression ratio for compressors.

(3) A USGS 7½ minute series (scale 1:24000) topographic map (or map of equivalent detail) showing the location of the proposed facilities, and indicating the location of any sensitive environmental areas.

(4) A map showing the relationship of the proposed facilities to the applicant's existing facilities.

(5) Flow diagram or comparative study showing daily design capacity, daily maximum capacity and reflecting system operation with and without the proposed facilities added.

(6) Gas supply and market data/study or other circumstances supporting the need for the proposed facilities.

(7) The estimated cost and method of financing the project.

(8) A statement clearly showing the effect on the operating revenues and operating expenses of the estimated revenues and expenses related to the proposed facility.

(9) A statement explaining how the public convenience and necessity is served by approval of the project.

(10) A concise analysis which identifies the existing environmental conditions and the expected impacts and whether or not the proposed action will cause any significant impact to the quality of the human environment, including those expected to occur on sensitive environmental areas. The analysis shall also demonstrate that the proposed action shall be consistent with any applicable state coastal zone management programs; state water quality management plans under the Clean Water Act of 1977 (Pub. L. 95–217, as amended) and Safe Drinking Water Act (Pub. L. 93–523, as amended) and State Implementation Plans developed under the Clean Air Act.

(d) *Inflation adjustment.* The limits specified in Table I shall be adjusted each calendar year to reflect the "GNP implicit price deflator" published by the Department of Commerce for the previous calendar year. The Director of the Office of Pipeline and Producer Regulation authorized to compute and publish limits for future calendar years as a part of Table I, pursuant to § 375.307(n) of this chapter.

Table I

Limit	1981
1. Automatic project cost limit	$3,500,000
2. Annual limit	30,000,000
3. Notice procedure limit	10,000,000

(e) *Reporting requirements.* By March 1 of the year following each calendar year during which a blanket certificate issued pursuant to this subpart is in effect, the certificate holder shall file an annual report which contains the following information:

(1) A description of the facilities installed pursuant to this section, including a description of the length and size of pipelines, compressor horsepower, metering facilities, taps, valves, and any other facilities constructed;

(2) The specific location of the facilities installed;

(3) The actual installed cost of each facility listed pursuant to paragraph (c)(1) of this section, separately stating the cost of materials and labor as well as other costs allocable to the facilities;

(4) The estimated gas supply in Mcf at 14.73 psia made available to the certificate holder by means of the described facilities;

(5) The names of the fields connected;

(6) The specific location of the supply source or well attached if the attachment is for gas owned or produced by the certificate holder;

(7) The names of the independent producers, other sellers or intrastate pipelines from whom the gas is being purchased or received, together with the respective dates of their gas sales or transportation contracts and any FERC gas rate schedule designations if the facility is to receive gas purchased by the applicant;

(8) A statement clearly reflecting whether the report is for a full calendar year or a partial year if the report is for the certificate holder's first blanket certificate year;

(9) The amount of the certificate holder's gas plant account (Account No. 101), as well as its computation of its calendar year and single project dollar limits;

(10) If no construction took place under the certificate, a statement to that effect.

(f) *Special conditions.* (1) For any project authorized under paragraph (b), the certificate holder shall file with the Commission, in writing and under oath, an original and four conformed copies and, upon request, shall furnish an intervener with a single copy, of the following:

(i) Within ten days after the bona fide beginning of construction, notice of the date of such beginning;

(ii) Each three months after filing notice of commencing construction, a progress report showing the exact status of authorized construction;

(iii) Within ten days after authorized facilities have been constructed and placed in service or any authorized operation, sale, or service has commenced, notice of the date of such placement and commencement; and

(iv) Within six months after authorized facilities have been constructed, a statement showing, on the basis of all costs incurred to that date and estimated to be incurred for final completion of the project, the cost of constructing authorized facilities, such total costs to be classified according to the estimates submitted in the certificate proceeding and compared therewith and any significant difference explained.

(2) In the interest of safety and reliability of service, facilities authorized by the certificate shall not be operated at pressures exceeding the maximum operating pressure set forth in the request as it may be amended prior to issuance of the certificate. In the event the certificate holder thereafter wishes to change such maximum operating pressure it shall file an appropriate petition for amendment of the authorization under the blanket certificate. Such petition shall include the reasons for the proposed change. Nothing contained herein authorizes the certificate holder to operate any facility at a pressure above the maximum prescribed by state law, if such law requires a lower pressure than authorized hereby.

§ 157.209 Transportation.

(a) *Automatic authorization.* The certificate holder is authorized to transport natural gas owned by a qualified end-user for ultimate consumption by the qualified end-user, for a term of up to 5 years, if:

(1) The sale of such natural gas is a first sale as defined in section 2(21) of the NGPA;

(2) Such natural gas was not committed or dedicated to interstate commerce on November 8, 1978.

(b) *Prior notice.* (1) Subject to the notice procedures of § 157.205, the certificate holder is authorized to transport natural gas in transactions described in paragraph (a)(1) for terms in excess of five years. Any request for transportation under this subparagraph shall include the information specified in § 157.103.

(2) Subject to the notice procedure of § 157.205, and subparagraph (3) of this paragraph, the certificate holder is authorized to transport natural gas on behalf of any:

(i) Local distribution company;

(ii) Interstate pipeline, or

(iii) Intrastate pipeline.

(3) No transportation is authorized under subparagraph (2) unless:

(i) The transportation can be performed using the existing capacity of the certificate holder, and

(ii) The transported natural gas is delivered directly or indirectly to an interstate pipeline, intrastate pipeline, or local distribution company, which receives such natural gas for its system supply.

(c) *Contents of request.* (1) Requests filed pursuant to paragraph (b) of this section shall include the information specified in § 157.103.

(2) Requests filed pursuant to paragraph (b)(2) shall include the information required in § 284.107 of this chapter.

(d) *Special conditions.* Any transportation authorized under either paragraphs (a) or (b) of this section shall be subject to the following conditions:

(1) The rates and charges shall be subject to in § 284.103 of this chapter;

(2) The contract for the transportation shall provide that service under the contract shall be subject to the availability of capacity sufficient to provide the service without detriment or disadvantage to the certificate holder's existing customers who are dependent upon the certificate holder's general system supply;

(3) For transportation authorized under paragraphs (a) or (b)(1) of this section, the volume transported shall not exceed the maximum permitted if the transportation had been authorized pursuant to certificates issued under § 2.79 of this chapter or Subpart E of this part; and

(4) Any transportation authorized under paragraphs (a) or (b)(1) is conditioned upon the end-use restrictions:

(i) Specified in § 2.79(m) applicable to eligible users as defined in § 2.79(c) of this chapter;

(ii) Specified in § 157.105 applicable to schools, hospitals and essential agricultural users; or

(iii) Specified from time to time in Commission orders authorizing transportation to other designated categories of qualified end-users.

(d) *Reporting requirements.* (1) As a part of the annual report, the certificate holder shall file for each transaction authorized under paragraph (b)(2): The name of each customer receiving natural gas, the total and maximum daily deliveries to each customer, and the expiration date of the transportation arrangement;

(2) For each transaction authorized under paragraphs (a) or (b)(1) of this section, the information specified by § 157.105.

§ 157.210 Sales for resale [Reserved].

§ 157.211 Construction and operation of sales taps.

(a) *Automatic authorization.* The certificate holder is authorized to construct and operate sales taps for the delivery of gas to the end user if:

(1) the natural gas is ultimately delivered to and consumed by a right-of-way grantor; and

(2) no more than 200 MMBtu of natural gas per day are to be delivered to the right-of-way grantor.

(b) *Prior notice.* Subject to the notice procedure of § 157.205, the certificate holder is authorized to construct and operate sales taps, if:

(1) The natural gas is ultimately consumed by an end-user currently served directly or indirectly from the general system supply of the certificate holder,

(2) The volumes delivered are within the certificate entitlements of the customers, and

(3) The certificate holder's tariffs do not prohibit the addition of new delivery points.

(c) *Contents of request.* Requests filed pursuant to paragraph (b) should contain:

(1) The name of the end-user;

(2) The authority for the current sale to the end-user;

(3) The quantity of gas to be sold through the proposed facility;

(4) The rate or rate schedule applicable to the sale made through the proposed tap.

(d) *Reporting requirements.* As part of the certificate holder's annual report, the certificate holder shall report:

(1) The name of the end-user; and

(2) The maximum daily volumes to be sold.

(3) The actual cost of the sales tap.

(e) *Indirect customers.* The authorization in paragraphs (a) and (b) of this section shall apply irrespective of whether the certificate holder sells the natural gas directly to the end-user or the natural gas is delivered to the end-user, for the account of a local distribution company.

§ 157.212 Changes in delivery points.

(a) *Prior notice.* Subject to the notice requirements of § 157.205, the certificate holder is authorized to add new delivery points for a customer or to reassign volumes of gas to be delivered from one of the customer's delivery points to another, if:

(1) The total volumes to be delivered to the customer after the amendment does not exceed the total volumes authorized prior to the amendment;

(2) The change is not prohibited by an existing tariff of the certificate holder; and

(3) The certificate holder has sufficient capacity to accomplish the deliveries specified under the amendment without detriment or disadvantage to the certificate holder's other customers.

(b) *Contents of request.* When requesting any amendment authorized under paragraph (a) of this section, the certificate holder shall state:

(1) The name of the customer;

(2) The location of the delivery points;

(3) A citation to the certificate authorizing the delivery points; and

(4) The present and proposed quantities of natural gas to be delivered at each of the affected delivery points.

§ 157.213 Storage services.

(a) *Automatic authorization.* The certificate holder is authorized to provide contract storage services and any incidental transportation on behalf of any person, if:

(1) The storage service is within the certified capacity of the certificate holder's existing storage facilities;

(2) The storage arrangement does not exceed a period of two years;

(3) The rates charged for the storage and transportation service are covered by a currently effective rate schedule; and

(4) The contract for the storage service provides that the service under the contract shall be subject to the availability of capacity sufficient to provide the service without detriment or disadvantage to the certificate holder's existing customers who are dependent upon the certificate holder's general system supply.

(b) *Prior notice.* Subject to the notice requirements of § 157.205, the certificate holder is authorized to provide transportation and storage services specified in paragraph (a) of this section for periods in excess of 2 years.

(c) *Contents of request and reporting requirements.* In any annual report filed for transactions under paragraph (a) of this section and in any request for services authorized under paragraph (b) of this section, the certificate holder shall provide:

(1) The name of the customer;

(2) A copy of the storage service agreement;

(3) The storage facility proposed to be used;

(4) The amount of storage capacity in the facility rendered under the contract, and the amount of uncommitted storage capacity remaining after executing the storage service agreement, and

(5) The expiration date of the arrangement.

§ 157.214 Increase in storage capacity.

(a) *Prior notice.* Subject to the notice requirements of § 157.205, the certificate holder is authorized to increase the maximum volume of natural gas authorized to be stored in a storage field to the extent that geological data and operating experience have demonstrated that a volume of natural gas greater than that currently certificated may be safely stored without the construction of additional facilities.

(b) *Contents of request.* In any such request the following information shall be provided:

(1) Current and requested maximum storage capacity;

(2) Current and requested maximum storage pressure;

(3) Average depth of the storage formation; and

(4) Copies of any geological or engineering studies to demonstrate the feasibility of the increase in storage volume.

(c) *Reporting requirements.* For any storage facility whose capacity is increased pursuant to this section, the certificate holder shall submit semi-annual reports (to coincide with the termination of the injection and withdrawal cycles) containing the following information. The certificate holder shall continue to file semiannually reports until the storage inventory volume has reached or closely approximated the maximum specified in the request. Thereafter, the reports shall continue on a semiannual basis for a period of one year. At the end of the one year period, the filing of reports shall be discontinued unless otherwise ordered by the Commission. (Volumes shall be stated at 14.73 psia and 60°F, and pressure shall be stated in psia.)

(1) The daily volume of natural gas injected into and withdrawn from the storage reservoir.

(2) The volume of natural gas in the reservoir at the end of the reporting period.

(3) The maximum daily injection or withdrawal rate experienced during the reporting period. The average working pressure on such maximum days taken at a central measuring point where the total volume injected or withdrawn is measured.

(4) Results of any tracer program by which the leakage of injected gas may be determined. If the leakage of gas exists, the report should show the estimated total volume of gas leakage, the volume of recycled gas and the remaining inventory of gas in the reservoir at the end of the reporting period.

(5) Any surveys of pressures in gas wells, water levels in observation wells, pump test results for the aquifer type reservoirs, and the results of back-pressure tests conducted during the reporting period.

(6) For the reporting period, a summary of wells drilled, recompleted or worked-over, with subsea depth of formation and casing settings. Summarized results of reservoir characteristics from any logs or cores taken in well.

(7) The latest revised structure and isopachous contour maps showing the location of the wells, the location and extent of the gas bubble in the storage reservoir for aquifer type reservoirs and in any other reservoirs of the project in which gas bubbles are known to exist. This map need not be filed if there is no material change from the map previously filed.

(8) Discussion of current operating problems and conclusions.

(9) Such other data or reports which may aid the Commission in the evaluation of the storage project.

§ 157.216 Underground storage testing and development.

(a) *Automatic authorization.* The certificate holder is authorized to construct and operate natural gas pipeline and compression facilities for the testing and development of underground reservoirs for the possible storage of gas, if:

(1) The testing and development will be completed within a three year period;

(2) The quantity of natural gas to be injected into the prospective storage fields does not exceed a total of 10,000,000 MMBtu, with no more than 2,000,000 MMBtu being injected into any single field;

(3) Gas will be injected for testing purposes only during off-peak periods;

(4) The storage field developed pursuant to this section will not be utilized to render service without further authorization from the Commission; except that gas may be withdrawn on occasion for testing purposes;

(5) The total expenditures pursuant to this section do not exceed $1,000,000 per calendar year. These costs shall include expenditures for leases, wells, pipeline, compressors, and related facilities, but shall exclude the cost of the natural gas to be used for testing purposes.

(b) *Reporting requirements.* (1) *Annual reports.* For any storage project tested or developed pursuant to this section, the certificate holder shall file as part of its annual report:

(i) A description of the facilities constructed and the type of storage reservoir; i.e., gas expansion or dry gas, water-drive or aquifer,

(ii) The location of the facilities,

(iii) The cost of such facilities,

(iv) The monthly volumes of gas injected into and withdrawn from each reservoir, and

(v) An estimate of the storage capacity and daily deliverability of each project.

(2) *Quarterly reports.* If the reservoir to be tested and developed is an aquifer-type reservoir, the certificate holder shall file for each such project quarterly reports, under oath, containing the following information in addition to the data required by subparagraph (2) of this paragraph:

(i) The daily volumes of natural gas injected into and withdrawn from the aquifer during the quarter and the volume of gas in the aquifer at the end of each month.

(ii) The maximum daily injection or withdrawal rate experienced during the quarter and the average working pressure on such maximum days taken at a central measuring point where the total volume injected or withdrawn is measured.

(iii) Results of any tracer program by which leakage of gas may be determined.

(iv) Any pressure surveys of gas wells and water levels in observation wells conducted during the quarter by individual well. Copies of any core analyses, gamma ray, neutron or other electric log surveys and back-pressure tests taken during the quarter.

(v) A map of the storage project showing the location of the wells, the latest revised structure contours, the location and extent of the gas bubble. This map need not be filed if there is no material change from the map previously filed.

(vi) Such other data or reports which may aid the Commission in the evaluation of the project.

(vii) Reports shall continue to be filed quarterly until the project is either certificated for regular service or abandoned, unless otherwise ordered by the Commission.

(c) *Accounting.* The cost of any project ultimately determined to be infeasible for storage shall be charged to Account No. 822 of Part 201, Underground Storage Exploration and Development Expenses.

§ 157.216 Abandonments.

(a) *Automatic authorization.* The certificate holder is authorized pursuant

to section 7(b) of the Natural Gas Act to abandon gas supply facilities, if:

(1) The supplier has been authorized to abandon its sale; or

(2) No abandonment of the supplier's sale is required under the Natural Gas Act by operation of section 601(a)(1) of the NGPA.

(b) *Prior notice.* Subject to the notice requirements of § 157.205, the certificate holder is authorized pursuant to section 7(b) of the Natural Gas Act to abandon any sales tap or lateral line and related facilities and service if all of the buyers currently served through the sales tap or lateral line consent in writing to the abandonment.

(c) *Contents of request.* Any request submitted pursuant to paragraph (b) shall describe:

(1) The location of the subject facilities;

(2) The docket authorizing the construction and operation of the facilities to be abandoned;

(3) An oath statement that all of the customers served by the subject facilities have consented to the abandonment, or an explanation of why the customers' consent is not available; and

(4) A proposed accounting treatment of any facilities to be abandoned.

(d) *Reporting requirements.* The annual report filed by the certificate holder should contain, for each abandonment:

(1) The name of the seller,

(2) The docket number of the certificate authorizing the sale,

(3) Of the full sale, and accounting treatment of the facilities, abandoned.

§ 157.217 Changes in rate schedules.

(a) *Automatic authorization.* The holder of a blanket certificate is authorized to permit an existing customer to change from one rate schedule to another, if:

(1) The combined volumetric limitations on deliveries to the customer under both rate schedules are not increased, for either annual or peak day limitations; and

(2) The changes are consistent with the terms of effective tariffs on file with the Commission.

(b) *Reporting requirements.* In the annual report for any year in which the certificate holder has permitted an existing customer to change from one rate schedule to another pursuant to this section the certificate holder shall state:

(1) The name of the customer; and

(2) The rate schedules involved and a citation to the certificate which authorized the service to the customer.

§ 157.218 Changes in customer name.

(a) *Automatic authorization.* The outstanding certificates of the certificate holder may be amended to the extent necessary to reflect the change in the name of an existing customer, if:

(1) The change in customer is the result of a corporate reorganization or acquisition;

(2) The certificate holder has filed any necessary conforming changes in its tariffs; and

(3) The customer's use of gas will not be affected by the change in name.

(b) *Reporting requirements.* For each customer name change authorized during a calendar year, the certificate holder shall include as a part of its annual report:

(1) The old and new names of the party;

(2) A brief explanation of the reason for the name change; and

(3) A list of all affected certificates.

PART 375—[AMENDED]

2. Section 375.307 is amended by adding new paragraphs (a)(11) and (n) to read as follows:

§ 375.307 Delegations to the Director of the Office of Pipeline and Producer Regulations.

The Commission authorized the Director of the Office of Pipeline and Producer Regulation or the Director's designee to:

(a) Pass upon the following types of uncontested applications or contested amendments to applications: * * *

(11) Applications for blanket certificates of public conveniences and necessity pursuant to Subpart F of Part 157.

* * * * *

(n) Compute, for each calendar year, pursuant to § 157.208 of this chapter, the project limits specified in Table I of that section adjusted for inflation, and to publish such limits as soon as possible thereafter in the **Federal Register**.

18 CFR Part 271

[Docket No. RM79-76 (West Virginia-1)]

High-Cost Gas Produced From Tight Formations; Notice of Proposed Rulemaking

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions that present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas subject to an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This notice of proposed rulemaking by the Director of the Office of Pipeline and Producer Regulation contains the recommendation of the State of West Virginia Office of Oil and Gas that the Ravencliff, Injun-Squaw, Weir and Berea Formations be designated as tight formations under § 271.703(d).

DATE: Comments on the proposed rule are due on April 8, 1981.

PUBLIC HEARING: No public hearing is scheduled in this docket as yet Written requests for a public hearing are due on March 24, 1981.

ADDRESS: Comments and requests for hearing must be filed with the Office of the Secretary, 825 North Capitol Street NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357-8307, or Ting Chin, (202) 357-8595/John Bassett, (202) 357-8589.

SUPPLEMENTARY INFORMATION:

Issued: March 9, 1981.

I. Background

On February 20, 1981, the State of West Virginia Office of Oil and Gas (West Virginia) submitted to the Commission a recommendation in accordance with § 271.703 of the Commission's regulations (45 FR 56034, August 22, 1980), that the Ravencliff Formation, Injun-Squaw Formation, Weir Formation and Berea Formation, located in Fayette and Raleigh Counties, West Virginia, be designated as tight formations in the Commission's regulations. Pursuant to § 271.703(c)(4) of the regulations, this Notice of Proposed Rulemaking is hereby issued to determine whether West Virginia's recommendation that the Ravencliff, Injun-Squaw, Weir and Berea Formations be designated as tight formations should be adopted. West Virginia's recommendation and supporting data are on file with the Commission and are available for public inspection.

II. Description of Recommendation

The four recommended formations lie within portions of Fayette and Raleigh Counties, West Virginia. (A more detailed description of the recommended area is contained in the

recommendation on file with the Commission.) All four formations are Mississippi Age deltaic sandstone deposits. The Ravencliff Formation lies below the Princeton Sandstone and above the Maxton Sandstone. The Ravencliff Formation ranges in thickness from thin stringers in the eastern portion of the two counties to a maximum thickness of 140 feet in the central portion of the area. The Injun-Squaw Formation lies below the Big Lime-Keener Formation and above the Weir Formation. The Injun-Squaw Formation ranges in thickness from a maximum of 20 feet in northwestern Fayette County to thin stringers to the south and east. The Weir Formation lies approximately 200 feet below the Injun-Squaw Formation and approximately 200 feet above the Berea Formation. The Weir Formation ranges in thickness from 50–80 feet in the northeastern part of the recommended area to 100 feet in the southern portion of the area. The Berea Formation lies approximately 200 feet below the Weir Formation. The Berea Formation ranges in thickness from 55 feet in northwestern Fayette County to thin shaly sandstone stringers in the southern portion of the recommended area.

III. Discussion of the Recommendation

West Virginia claims in its submission that evidence gathered through information and testimony presented at a public hearing convened by West Virginia on this matter demonstrates that:

(1) The average *in situ* gas permeability throughout the pay sections of the proposed areas is not expected to exceed 0.1 millidarcy;

(2) The stabilized production rate, against atmospheric pressure, of wells completed for production from the recommended formation, without stimulation, is not expected to exceed the maximum allowable production rate set out in § 271.703(c)(2)(i)(B); and

(3) No well drilled into the recommended formations is expected to produce more than five (5) barrels of oil per day.

West Virginia further asserts that existing State and Federal Regulations will assure that development of the Ravencliff, Injun-Squaw, Weir and Berea Formations will not adversely affect any fresh water aquifers that are, or are expected to be, used as a domestic or agricultural water supply. Protection of fresh water aquifers will be assured by enforcing compliance with Section 15, Part 1, Section V of the West Virginia Administrative Regulations and Chapter 22–4–8a of the Code of West Virginia.

Accordingly, pursuant to the authority delegated to the Director of the Office of Pipeline and Producer Regulation by Commission Order No. 97, issued August 1, 1980 in Docket No. RM80–68 (45 FR 53456, August 12, 1980), notice is hereby given of the proposal submitted by West Virginia that the Ravencliff, Injun-Squaw, Weir and Berea Formations, as described and delineated in West Virginia's recommendation as filed with the Commission, be designated as tight formations pursuant to § 271.703.

IV. Public Comment Procedures

Interested persons may comment on this proposed rulemaking by submitting written data, views or arguments to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before April 8, 1981. Each person submitting a comment should indicate that the comment is being submitted in Docket No. RM79–76 (West Virginia—1), and should give reasons, including supporting data for any recommendations. Comments should include the name, title, mailing address, and telephone number of one person to whom communications concerning the proposal may be addressed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written comments will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. during business hours.

Any person wishing to present testimony, views, data, or otherwise participate at the public hearing should notify the Commission in writing that they wish to make an oral presentation and therefore request a public hearing. Such request shall specify the amount of time requested at the hearing. Requests should be filed with the Secretary of the Commission no later than March 24, 1981.

(Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432)

Accordingly, the Commission proposes to amend the regulations in Part 271, Chapter I, Title 18, Code of Federal Regulations, as set forth below, in the event West Virginia's recommendation is adopted.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

Section 271.703(d) is amended by adding new subparagraphs (36) through (39) to read as follows:

§ 271.703 Tight Formations.

* * * * *

(d) *Designated tight formations.* The following formations are designated as tight formations. A more detailed description of the geographical extent and geological parameters of the designated tight formations is located in the Commission's official file for Docket No. RM79–76, as subindexed below, and is also located in the official files of the jurisdictional agency that submitted the recommendation.

* * * * *

(19) through (35) [Reserved]

(36) *Ravencliff Formation in West Virginia.* RM79–76 (West Virginia—1)

(i) *Delineation of Formation.* The Ravencliff Formation underlies portions of Fayette and Raleigh Counties, West Virginia.

(ii) *Depth.* The Ravencliff Formation lies below the Princeton Sandstone and above the Maxton Sandstone. Within the recommended area the Ravencliff Formation ranges in thickness from thin stringers in the eastern portion of the two counties to a maximum thickness of 140 feet in the central portion of the area.

(37) *Injun-Squaw Formation in West Virginia.* RM 79–76 (West Virginia—1)

(i) *Delineation of formation.* The Injun-Squaw Formation underlies portions of Fayette and Raleigh Counties, West Virginia.

(ii) *Depth.* The Injun-Squaw Formation lies below the Big Lime-Keener Formation and above the Weir Formation. The Injun-Squaw Formation ranges in thickness from a maximum of 20 feet in northwestern Fayette County to thin stringers to the south and east.

(38) *Weir Formation in West Virginia.* RM79–76 (West Virginia—1)

(i) *Delineation of formation.* The Weir Formation underlies portions of Fayette and Raleigh Counties, West Virginia.

(ii) *Depth.* The Weir Formation lies approximately 200 feet below the Injun-Squaw Formation and approximately 200 feet above the Berca Formation. The Weir Formation ranges in thickness for 50–80 feet in the northeastern part of the recommended area to 100 feet in the southern portion of the area.

(39) *Berea Formation in West Virginia.* RM79–76 (West Virginia—1)

(i) *Delineation of formation.* The Berea Formation underlies portions of Fayette and Raleigh Counties, West Virginia.

(ii) *Depth.* The Berea Formation lies approximately 200 feet below the Weir Formation. The Berea Formation ranges in thickness from 55 feet in northwestern Fayette County to thin shaly sandstone

stringers in the southern portion of the recommended area.

Bureau of Indian Affairs

25 CFR Part 72

Attorney Contracts With Indian Tribes; Payment of Tribal Attorney Fees With Appropriated Funds

AGENCY: Bureau of Indian Affairs.

ACTION: Propose rule; re-opening of comment period; correction.

SUMMARY: A proposed rule which clarifies the circumstances under which the Bureau of Indian Affairs may provide appropriated funds to an Indian tribe for the payment of a private attorney's legal services was published on December 16, 1980 on pages 82667–82669 of the **Federal Register**. A 30-day public comment period began on December 16, 1980 and extended through January 15, 1981. However, the final date for submission of comments was erroneously stated as January 1, 1981 in the proposed rulemaking document. Notice of the correct comment closing date of January 15, 1981 was published on page 84088 of the **Federal Register** of December 22, 1980. Because of the confusion generated by the comment closing date error, an additional 30-day comment period is being provided to ensure that all interested persons have a full opportunity to comment on the proposed rule. This document also corrects cross-reference errors contained in the proposed rule.

DATE: Comments must be submitted on or before April 15, 1981.

ADDRESS: Send written comments to Hans Walker, Jr., Acting Associate Solicitor, Office of the Solicitor, Department of the Interior, 18 & C Sts., N.W., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:
Hans Walker, Jr., Associate Solicitor, Department of the Interior (202) 343–9401.

SUPPLEMENTARY INFORMATION:

The following corrections are made in FR Doc. 80–39035 appearing on pages 82667–82669 of the issue of December 16, 1980:

1. On page 82669, first column, § 72.42, "proceeding under § 72.41 (a), (b), (d), and (e)" is corrected to read "proceeding under § 72.41 (a), (c), (d), and (e)."

2. On page 82669, second column, § 72.43, "(a) A tribe seeking funds under § 74.41" is corrected to read "(a) A tribe seeking funds under § 72.41."

Dated: March 2, 1981.

James Canan,
Acting Deputy Assistant Secretary—Indian Affairs.

Regulation of Reserved Waters on Indian Reservations

AGENCY: Bureau of Indian Affairs.

ACTION: Proposed rule; extension of comment period; correction.

SUMMARY: Proposed rulemaking to provide for tribal regulation of reserved waters on Indian reservations was published January 5, 1981 on pages 944–946 of the **Federal Register**. A 60-day comment period, beginning on January 5, 1981 and extending through March 6, 1981, was provided. Because of the broad interest generated by the proposed rule, this document extends the comment period for an additional 90 days until June 6, 1981 in order to allow all interested persons a full opportunity to comment. This document also corrects several citation errors contained in the proposed rule.

DATE: Comments must be submitted on or before June 6, 1981.

ADDRESS: Send written comments to Daniel M. Rosenfelt, Office of the Solicitor, Department of the Interior, 18th & C Sts., NW., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:
Daniel M. Rosenfelt, Office of the Solicitor, Department of the Interior (202) 343–6967.

SUPPLEMENTARY INFORMATION:

The following corrections are made in FR Doc. 81–207 appearing on pages 944–946 of the issue of January 5, 1981:

1. On page 944, column 1, first paragraph, "Chapter IX" is corrected to read "Chapter I."

2. On page 945, column 1, paragraph 3, "Section 250.3(a)(5)" is corrected to read "Section 260.3(a)(9)."

3. On page 945, column 2, second full paragraph, "Chapter IX" is corrected to read "Chapter I."

4. On page 945, column 2, "Part 260—The Use of Water on Indian Reservations" is corrected to read "Part 260—Regulation of Reserved Waters on Indian Reservations."

Dated: March 9, 1981.

James G. Watt,
Secretary of the Interior.

Administrator's Toxic Substances Advisory Committee; Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule related notice.

SUMMARY: There will be a meeting of the Administrator's Toxic Substances Advisory Committee to discuss matters related to EPA's implementation of the Toxic Substances Control Act (Pub. L. 94–569). The meeting will be open to the public.

DATES: The meeting will be held from 9:15 a.m. to 4:45 p.m. on Thursday, April 23, 1981 and from 9:00 a.m. to 12:45 p.m. on Friday, April 24, 1981.

ADDRESS: The meeting will be held in: Environmental Protection Agency, Rm. 3906 and 3906, Waterside Mall, 401 M St., SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT:
Marsha Ramsay, Executive Secretary, Administrator's Toxic Substances Advisory Committee (TS–777), Office of Pesticides and Toxic Substances, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460, (202–426–2660).

SUPPLEMENTARY INFORMATION: After convening on Thursday morning, the Commmittee will break into two study sessions to discuss testing issues under TSCA section 4 and follow-up activities to track new or increased uses of chemicals. At 3:30 p.m. the Committee will reconvene for reports and discussion of the study groups' findings. The Friday agenda includes a general update on EPA's activities.

The meeting will be open to the public and time will be set aside for public comments concerning the work of the Committee. Any member of the public wishing to present an oral or written statement relating to the Committee's work should contact Ms. Marsha Ramsay at the address or phone number listed above.

Dated: March 6, 1981.

[PP 8E2131/P176; PH-FRL 1780-3]

Chlorthiophos; Proposed Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposed that a tolerance be established for residues of the insecticide chlorthiophos in or on tomatoes imported from Mexico at 0.5 part per million (ppm). The proposal was submitted by EM Laboratories, Inc. This regulation would establish a maximum permissible level in tomatoes.

DATE: Comments must be received on or before March 26, 1981.

ADDRESS: Send comments to: Jay Ellenberger, Product Manager (PM) 12, Office of Pesticide Programs, Registration Division (TS-767C), Environmental Protection Agency, Rm. 400, CM #2, 1921 Jefferson Davis Highway, Arlington, Virginia 22202.

FOR FURTHER INFORMATION CONTACT: Mr. Jay Ellenberger at the above address (703-557-7024).

SUPPLEMENTARY INFORMATION: EM Laboratories, Inc., 500 Executive Boulevard, Elmsford, NY 10523, has submitted a pesticide petition (PP 8E2131) to the EPA. This petition requests that the Administrator propose that 40 CFR Part 180 be amended to establish a tolerance for the combined residues of the insecticide chlorthiophos, that is a mixture of 0-[2,5-dichloro-4-(methylthio) phenyl] 0,0-diethylphosphorothioate; 0-[2,4-dichloro-5-(methylthio) phenyl] 0, 0-diethylphosphorothioate; 0-[4,5-dichloro-2-(methylthio) phenyl] 0,0-diethylphosphorothioate and the metabolites 0-[2, 4(2, 5 or 4, 5)-dichloro-5(4 or 2)-(methylsulfinyl) phenyl] 0,0-diethylphosphorothioate,* and 0-[2, 5 or 4, 5)-dichloro-5(4 or 2)-(methylthio) phenyl] 0,0-diethylphosphate [0-isolog] in or on tomatoes imported from Mexico at 1.0 part per million (ppm).

Subsequently the petition was amended by decreasing the proposed tolerance from 1.0 ppm to 0.5 ppm and revising the tolerance regulation to read chlorthiophos and its diethyl phosphorus ester-moiety-containing metabolites.

The data submitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the proposed tolerance included a two-year rat feeding/oncogencity study and a mouse oncogencity study which were negative at 6.4 ppm and 50 ppm, both of which are the maximum tolerated doses, respectively; and one-year dog feeding study with a no-observable-effect level (NOEL) of 8.0 ppm; a rabbit teratology study which was negative for teratogenic effects at up to 5.0 milligrams (mg)/kilogram (kg) of body weight/day and exhibited a NOEL of 1 mg/kg for fetotoxic effects; a delayed neurotoxicity study in rats which showed a negative potential; and a reproduction study which showed a NOEL of 2.0 ppm. Based on the one-year dog feeding study with an 8.0 ppm NOEL for systemic effects and using a safety factor of 100, the acceptable daily intake (ADI) for man is 0.002 mg/kg bw/day. The theoretical maximal residue contribution (TMRC) in the human diet from the proposed use does not exceed the ADI.

Desirable data that are lacking from the petition are mutagenicity testing and toxicity of plant metabolites. The mutagenicity and plant metabolite studies will be required for any future petitions and/or registrations.

The metabolism of chlorthiophos is adequately understood and an adequate analytical method (gas chromatography with a phosphorus detector) is available for enforcement purposes. No actions are currently pending against registration of chlorthiophos nor are there any other relevant considerations involved in establishing the proposed tolerance.

The pesticide is considered useful for the purpose for which the tolerance is sought, and it is concluded that the tolerance established by amending 40 CFR Part 180 will protect the public health. It is proposed, therefore, that the tolerance be established as set forth below.

Any person who has registered or submitted an application for registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act, which contains any of the ingredients listed herein, may request on or before March 26, 1981, that this rulemaking proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act. The Agency has published this proposal with a ten day comment period rather than the normal thirty day comment period in an effort to expedite the tolerance setting process because of the urgency for an effective insecticide against the leaf miner on tomatoes grown in Mexico.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the petition/document control number, "PP 8E2131/P176". All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the office of PM 12, Room 400, Crystal Mall 2, from 8:30 a.m. to 4 p.m. Monday through Friday.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

For information on the Regulatory Flexibility Act, see the Appendix to this rule.

(Sec. 408(e), 68 Stat. 514, (21 U.S.C. 346a(e)))

Dated: March 11, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

Therefore, it is proposed that Subpart C of 40 CFR Part 180 be amended by adding § 180.396 to read as follows:

§ 180.396 Chlorthiophos; tolerances for residues.

A tolerance is established for the combined residues of the insecticide chlorthiophos, that is a mixture of 0-[2,5-dischloro-4-(methylthio)phenyl] 0,0-diethylphosphorothioate; 0-[2,4-dichloro-5-(methylthio)phenyl] 0,0-diethylphosphorothioate; and 0-[4,5-dichloro-2-(methylthio)phenyl] 0,0-diethylphosphorothioate and its diethyl phosphorus ester-moiety containing metabolites in or on the following raw agricultural commodity:

---

*0-[2,4(2,5 or 4,5)-dichloro-5(4 or 2)-(methylsulfonyl) phenyl] 0,0-diethylphosphorothioate.

Commodity	Part per million
Tomatoes	0.5

Appendix.—Certification Under Regulatory Flexibility Act

Congress recently enacted the Regulatory Flexibility Act (Pub. L. 96-543, 94 Stat. 1164, 5 U.S.C. 601-612, effective January 1, 1981). The purpose of the Act is to assure that the Agency analyzes the effect of regulatory requirements on small businesses, government jurisdictions, and organizations (collectively referred to as "small entities"). The law requires that all "notice and comment" rulemaking, both proposed and final, be accompanied by an initial or final regulatory flexibility analysis, or by a certification by the Administrator that no such analysis is necessary because the regulation will not have significant adverse impact on a substantial number of small entities.

Under Sec. 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended, (21 U.S.C. 346a), the Agency is authorized to establish by regulation tolerance levels, or exemptions from the requirements for a tolerance, for pesticides resulting in residues on raw agricultural commodities. Under Sec. 409 of the same Act (21 U.S.C. 348), the Agency is authorized to issue regulations establishing permissible levels of residues of pesticides found as additives in processed food or feed. These tolerance and additive regulations are intended to protect the public while giving appropriate consideration to the production of an adequate, wholesome and economical food supply.

The establishment of a tolerance or an exemption or an additive level allows a pesticide product to be registered for a particular use resulting in residues on food or feed. This generally has beneficial economic impacts on the producer, distributor, and professional applicator of the pesticide, all of whom benefit through sale of the pesticide. It also benefits the ultimate user of the pesticide, usually a grower or food processor, who would otherwise not be able to sell crops containing residues of that pesticide.

This proposed regulation would establish a tolerance for residues of the insecticide chlorthiophos in/on tomatoes at 0.5 part per million (ppm), and would also establish a preharvest interval of 7 days as a condition for the tolerance. This proposed rule would establish a maximum permissible level for residues of the insecticide in/on tomatoes, and would be beneficial in that it would allow registration of a new insecticide for use on tomatoes.

Accordingly, I hereby certify that this proposed regulation would not, if promulgated, have a significant adverse impact on a substantial number of small entities. Therefore, this regulation does not require a regulatory flexibility analysis.

Dated: March 11, 1981.

Walter C. Barber, Jr.,

Acting Administrator.

OFFICE OF MANAGEMENT AND BUDGET

Office of Federal Procurement Policy

48 CFR Part 31

Contract Cost Principles and Procedures—Contracts With State and Local Governments

AGENCY: Office of Federal Procurement Policy, Office of Management and Budget.

ACTION: Notice of availability and request for comment on draft Federal Acquisition Regulation.

SUMMARY: The Office of Federal Procurement Policy is making available for public and Government agency review and comment a segment of the draft Federal Acquisition Regulation (FAR) regarding cost principles and procedures applicable to contracts with state and local governments. Availability of additional segments for comment will be announced on later dates. The FAR is being developed to replace the current system of procurement regulations.

DATE: Comments must be received on or before May 19, 1981.

ADDRESS: Obtain copies of the draft regulation from and submit comments to William Maraist, Assistant Administrator for Regulations, Office of Federal Procurement Policy, 726 Jackson Place, N.W., Room 9025, Washington, D.C. 20503. Federal agency requests must be directed to the FAR Agency Contact Point listed below.

FOR FURTHER INFORMATION CONTACT: William Maraist (202) 395-3300.

SUPPLEMENTARY INFORMATION: The fundamental purposes of the FAR are to reduce proliferation of regulations; to eliminate conflicts and redundancies; and to provide an acquisition regulation that is simple, clear and understandable. The intent is not to create new policy. However, because new policies may arise concurrently with the FAR project, the notice of availability of draft regulations will summarize the section or part available for review and describe any new policies therein.

The following part of the draft Federal Acquisition Regulation is available upon request for public and Government agency review and comment.

PART 31—CONTRACT COST PRINCIPLES AND PROCEDURES

Subpart 31.6—Contracts With State and Local Governments

This subpart implements Office of Management and Budget Circular A-87 (Revised), Cost Principles for State and Local Governments, with respect to Federal acquisitions by contract. It prescribes principles for determining allowable costs of contracts with state and local governments and also with Federally-recognized Indian tribal governments. The principles are for cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in financing a particular contract.

There are no proposed policy changes in the FAR coverage. However, since OMB Circular A-87 applies to both contracts and assistance agreements, its coverage throughout attempts to apply its principles to both types of arrangements by intermittently using terms associated with both. In accordance with the stated objectives to the FAR, the drafters have simplified the FAR implementation of A-87 by applying its language to contracts only and deleting, where appropriate, references to grants and other assistance terminology. Reviewers of this FAR segment are requested to note and comment if the drafters have inadvertently caused a policy change in this proposed implementation.

Dated: March 10, 1981.

LeRoy J. Haugh,

Associated Administrator for Regulatory Policies and Practices.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230, on or before April 6, 1981.

Regulations (15 CFR 301.9) issued under the cited Act prescribe the requirements for comments.

A copy of each application is on file, and may be examined between 8:30 A.M. and 5:00 P.M., Monday through Friday, in Room 3109 of the Department of Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 81–00020. Applicant: University of Denver (Colorado Seminary), Denver, Colorado 80208. Article: Airborne Spectrophotometer Interferometer, Model ABDA 2.01 and Source Tracking System, FA3.5. Manufacturer: BOMEM Company Ltd., Canada. Intended use of article: The article is intended to be used for measurements of the trace constituents present in the stratosphere and the variability of these constituents with time and location. Measurements are made on the basis of infrared absorption features present on infrared solar spectra. The solar spectra are taken from various altitudes. The article will be used by graduate students as part of their training and to obtain data to be used in their thesis work. Application received by Commissioner of Customs: October 21, 1980.

Docket No. 80–00036. Applicant: Sandia Laboratories, P.O. Box 5800, Albuquerque, NM 87185. Article: Laser, Model TEA–103–2. Manufacturer: Lumonics Research, Canada. Intended use of article: The article is intended to be used to study laser-initiated discharge formation relevant to propagation of ion and/or electron beams in inertially confined fusion energy research. The phenomenon to be studied involves vibrational excitation of gas molecules with 100 nanosecond laser pulses. Application received by Commissioner of Customs: October 30, 1980.

Docket No. 81–00037. Applicant: St. Vincent's Medical Center, 1800 Barris Street, P.O. Box 2982, Jacksonville, FL 32203. Article: Radiation Therapy Equipment & Accompanying Accessories (Thereac 6). Manufacturer: Atomic Energy of Canada Limited, Canada. Intended use of article: The article is intended to be used to provide radiation therapy treatment to certain cancer patients. Application received by Commissioner of Customs: October 31, 1980.

Docket No. 81–00039. Applicant: Medical College of Ohio at Toledo, C.S. 10008, Toledo, Ohio 43699. Article: Radiation Therapy Simulator, Therasim 750. Manufacturer: A.E.C.L., Canada. Intended use of article: The article is intended to be used in a variety of clinical and basic radiation therapy research projects to accurately define target volumes for irradiation. The initial projects in which the article will be used include:

1. Iodine 125, 5 Fluorouracil and Precision High Dose External Beam Radiation Therapy for Pancreatic Carcinoma.
2. Adjuvant "Sandwich" Radiation Therapy for Resectable Bladder Carcinoma.
3. Adjuvant "Sandwich" Radiation Therapy for Resectable Carcinoma of the Rectum.
4. Precision High Dose Radiation Therapy for Carcinoma of the Cervical Esophagus.
5. Intraoperative Pre-resection Radiation Therapy for Gastric Carcinoma.
6. Combined Radiation Therapy and Chemotherapy of Malignant Pleural Mesothelioma.
7. Detection of Occult Radiation Damage to Optic Pathways.
8. External and Interstitial Radiation Therapy for Intracranial Neoplasms.

The article will also be used for the education of medical students, residents in Radiation Therapy, residents in Surgical Oncology, residents in Medical Oncology and residents in other specialties, as well as for the education of student technologists and graduate physicians and physicists. Application received by Commissioner of Customs: November 3, 1980.

Docket No.: 81–00047. Applicant: University of Colorado, Boulder, Colorado 80309. Article: Electron Microscope, Model H–600–3. Manufacturer: Hitachi Scientific Instruments, Japan. Intended use of article: The article is intended to be used for a wide variety of experiments investigating the ultrastructure and function of cells, and the structure of nucleic acids. These experiments will include examination of the following:

1. The structure of the mitotic spindle in very small algae, particularly diatoms.
2. The lumenal plasm membranes of the mammalian urinary bladder.
3. The "ground substance" that permeates the cytoplasm between other defined organelles.
4. The structure of biological membranes at the supra-molecular level.
5. The ribosomal gene from Tetrahymena.
6. Chinese hamster ovary hybrid cells.
7. Embryonic stages of the nematode *C. elegans*.

The article will also be used for educational purposes in the courses: MCDB 511—Introductory Electron Microscopy for Biologists and MCDB 490–690 Workshop in Electron Microscopy. Application received by Commissioner of Customs: November 6, 1980.

Docket No.: 81–00048. Applicant: Pontiac General Hospital, Seminole at West Huron Streets, Pontiac, Michigan 48053. Article: Electron Microscope, Model H–300 and Accessories. Manufacturer: Hitachi Scientific Instruments, Japan. Intended use of article: The article is intended to be used to supplement light microscopic investigation of various tissues obtained by biopsy, surgical procedures, or autopsy. Some specific tissues and their diseases which will be studied include, but are not limited to, renal biopsies, liver biopsies, muscle biopsies, and a wide range of poorly differentiated tumors. The article will also be used in a Residency Training Program in anatomic and clinical pathology. Application received by Commissioner of Customs: November 6, 1980.

Docket No.: 81–00049. Applicant: University of California, Los Angeles, CA 90024. Article: Electron Microscope, Model JEM 100CX and Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to study heart muscle. This tissue will be rapidly frozen and thin frozen sections prepared from it. The sections will then be examined and the various small components of cell structure will be observed. Certain structures will be selected for analysis of their chemial content. The ultimate aim is to gain essential information about the location and movement of substances which control heart function. Secondarily, the article will be used to train advanced students in the above research. Application received by Commissioner of Customs: November 6, 1980.

Docket No.: 81–00050. Applicant: Regents of The University of California, 405 Hilgard Avenue, Los Angeles, CA 90024. Article: Electron Microscope, JEM 100CX and Accessories. Manufacturer: JOEL Ltd., Japan. Intended use of article: The article is intended to be used exclusively for the study

of structure-function relationships in cardiovascular physiology. The materials to be examined will include myocardial tissue from rat, rabbit and frog including preparations of tissues, cultured cells and isolated membrane. Experiments to be conducted will involve subjecting various isolated tissue models (rat myoblasts grown in culture, isolated and perfused papillary muscles from rabbit hearts) to perturbations which alter the permeability of cell membrane to molecules especially ions like Ca. The tissues will then be studied with the electron microscope to detect changes in the cell surface and bilayer of the membranes. Application received by Commissioner of Customs: November 6, 1980.

BILLING CODE 3510-25-M

Intent to Conduct Administrative Review of Certain Antidumping Findings and Orders and Countervailing Duty Orders

AGENCY: U.S. Department of Commerce, International Trade Administration.

ACTION: Notice of intent to conduct administrative reviews of certain antidumping findings and orders and countervailing duty orders.

SUMMARY: The Department of Commerce intends to review and determine the amount of any antidumping or countervailing duties due under certain antidumping and countervailing duty orders (listed below) at least once during the 12-month period beginning on the anniversary date of publication of the orders. We will also continue to review annually and determine the amount of any dumping or countervailing duties due under findings and orders (again listed below) for which we have completed our first annual review.

In the future all published final results of administrative review will include a statement of intent to conduct another administrative review of the case within the next 12 months.

EFFECTIVE DATE: March 16, 1981.

FOR FURTHER INFORMATION CONTACT: John R. Kugelman, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202-377-5289).

SUPPLEMENTARY INFORMATION: In accordance with section 751(a)(1) of the Tariff Act of 1930 ("the Tariff Act") (19 U.S.C. 1675(a)(1)) and sections 355.41 and 353.53 of the Commerce Regulations (19 CFR 355.41, 353.53), the Department of Commerce ("the Department") is conducting administrative reviews of certain antidumping findings under the Antidumping Act of 1921 ("the 1921 Act"), and of certain antidumping and countervailing duty orders under the Tariff Act. The antidumping reviews are to determine the foreign market value and United States price of each entry of merchandise subject to the finding or order and to determine the amount, if any, by which the foreign market value exceeds the United States price. The countervailing duty reviews are to determine if benefits have been provided exporters or producers of the merchandise subject to the orders which are deemed subsidies pursuant to sections 771(5) and 771(6) of the Tariff Act and to determine the amounts, if any, of any such net subsidies.

Section 751(a)(1) provides that administrative reviews take place at least once during the 12-month period beginning on the anniversary of the date of publication of the findings under the 1921 Act or orders under title VII of the Tariff Act. Current orders not listed in the previously published notice of intent (45 FR 20511-12, 31455-56) and their dates of publication are listed below. Also listed are findings for which reviews have been published but which did not include a statement of intent to conduct another review for the following years. The administrative reviews of the listed findings and orders will be completed by the anniversary in 1981 or 1982, as applicable, of the date of publication of the finding/order.

Current Antidumping (AD) and Countervailing Duty Orders (CVD) not Listed in Previous Notices

Order date	Commodity	Country
4/4/80	(CVD) Pig iron	Brazil
4/8/80	(AD) Spun acrylic yarn	Japan
4/8/80	(AD) Spun acrylic yarn	Italy
4/9/80	(AD) Sugar and syrups	Canada
5/9/80	(AD) Portable electric typewriters	Japan
7/21/80	(CVD) Certain fasteners	India
9/4/80	(CVD) Fresh cut roses	Israel
10/16/80	(CVD) Certain iron metal castings	India
12/29/80	(AD) Certain electric motors	Japan
1/7/81	(AD) Anhydrous sodium metasilicate.	France

Antidumping Finding Reviews Published Without Statement of Intent

Finding date	Commodity	Country
2/27/74	Racing plates (aluminum horseshoes).	Canada
5/18/79	Perchlorethylene	Belgium
5/18/79	Perchlorethylene	France
5/18/79	Perchlorethylene	Italy

The Department will deliver questionnaires to affected foreign embassies, manufacturers, exporters, or transhippers, as appropriate. The responses will be analyzed and then, in accordance with sections 355.41(d) and 353.53(d) of the Commerce Regulations (19 C.F.R. 355.41 (d), 353.53(d)), the parties to the proceeding can request disclosure of the nonconfidential information. In addition, parties to the proceeding may request an administrative protective order.

Disclosure, when requested, will be made generally at least 30 days prior to the date of a notice of final results of administrative review is published. Written views may be presented, and an opportunity to present oral views may be requested by any interested party. After providing an opportunity for comment by interested parties, the Department will publish in the **Federal Register** the final results of such review, together with notice of any antidumping or countervailing duties to be assessed and estimated antidumping or countervailing duties to be deposited.

This notice is published in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 10, 1981.

[FR Doc. 81-7980 Filed 3-13-81; 8:45 am]

BILLING CODE 81-7980-M

Leather Wearing Apparel From Uruguay: Suspension of Countervailing Duty Investigation

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Suspension of investigation.

SUMMARY: The Department of Commerce has decided to suspend the countervailing duty investigation involving leather wearing apparel from Uruguay.

EFFECTIVE DATE: March 16, 1981.

FOR FURTHER INFORMATION CONTACT: Miguel Pardo de Zela, Office of Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202-377-5050).

SUPPLEMENTARY INFORMATION:

Procedural Background.

On October 15, 1980, the Department received a petition in proper form from Ralph Edwards Sportswear, Inc., Cape Girardeau, Missouri, on behalf of U.S. producers of leather wearing apparel. The petitioner alleged that the Government of Uruguay provides to manufacturers, producers, and exporters

of such apparel certain benefits that are subsidies within the meaning of Section 701 of the Tariff Act of 1930 (19 U.S.C. 1671) ("the Act"). In response, on November 12, 1980, we published a notice (45 FR 74743) stating that we were initiating a countervailing duty investigation of these imports. Since Uruguay is a "country under the Agreement," as defined in Section 701(b) of the Act, we referred this case to the International Trade Commission for a preliminary injury determination. The notice stated that if the ITC determined that there was a reasonable indication that U.S. imports of such apparel were materially injuring or threatening to materially injure an industry in the United States, the investigation would proceed to its conclusion.

On December 11, 1980, the ITC preliminarily determined that there is a reasonable indication that these imports are threatening to materially injure an industry in the United States (45 FR 81689).

On December 17, 1980, we published a notice of "Preliminary Affirmative Countervailing Duty Determination" (45 FR 82979). The notice stated that the Government of Uruguay gave the leather wearing apparel industry a subsidy of 17.387 percent ad valorem through a combination of tax certificates and income tax exemptions. We found additional benefits of 8.63 percent ad valorem resulting from retroactive benefits accruing to the industry from the alleged retroactive payment of a "tanner's subsidy" and the rebate of an export tax. Thus the preliminary determination found that the total benefit of subsidies amounted to 26.017 percent ad valorem. This amount was later reduced to 18.923 percent upon confirmation that no back payments of the "tanner's subsidy" had been made.

Scope of the Investigation

The merchandise covered by this investigation is leather wearing apparel currently provided for in item 791.76 of the Tariff Schedules of the United States.

Suspension of Investigation

After our preliminary affirmative finding of a subsidy benefit on this merchandise the Government of Uruguay proposed that we enter into negotiations for a suspension of the investigation.

In accordance with Section 704(e) of the Act, the petitioner was informed of, and consulted with concerning, a proposed agreement for suspending the investigation, and was provided an explanation of how the Agreement would be carried out and enforced, why the Department felt it would meet the criteria for suspension and was given an opportunity to comment. Other parties to the investigation were notified of the proposed agreement and were permitted to submit comments.

The Department has considered the comments submitted with respect to the proposed suspension. We have determined that the criteria for suspension of an investigation have been satisfied. We have not yet received a request to continue the investigation. Therefore, for the purposes of the annexed Agreement the net subsidy amounts found to exist are as follows: 16.83 percent for garments made from leather of domestic origin; 13.46 percent on garments of semi-finished imported leather and; 8.91 percent on garments of finished imported leather.

However, if we should receive a request to continue the investigation under section 704(g) of the Act the net subsidy amounts referred to in the annexed Agreement will be those as published in the final countervailing duty determination. We are satisfied that the Agreement completely eliminates any subsidy on exports to the United States, can be monitored effectively, and is in the public interest. The terms and conditions of the Agreement are set out in Annex 1 to this notice.

Pursuant to Section 704(f)(2)(A) of the Act, the liquidation of entries of leather wearing apparel suspended effective December 17, 1980, as directed in the Preliminary Affirmative Countervailing Duty Determination (45 FR 82979), is terminated. Any cash deposits on entries of leather wearing apparel from Uruguay pursuant to that suspension of liquidations shall be refunded and any bonds or other security shall be released.

The Department intends to conduct an administrative review within twelve months of the publication of this suspension agreement as provided in section 751 of the Act.

This notice is published pursuant to Section 704(f)(1)(A) of the Act.

John Greenwald,

Deputy Assistant Secretary for International Trade.

March 10, 1981.

Annex 1: The Agreement

Pursuant to the provisions of Section 704 of the Tariff Act of 1930 (19 U.S.C. 1671c) (the Act) and section 355.31 of the Commerce Regulations (19 CFR 355.31) (the Regulations), the Department of Commerce (the Department) enters into the following Agreement with the Government of Uruguay. On the basis of this Agreement, the Commerce Department shall suspend its countervailing duty investigation with respect to leather wearing apparel from Uruguay in accordance with the terms and provisions set forth below.

A. Product Coverage

This Suspension Agreement is applicable to all products covered by the investigation. Specifically, the products involved are all leather garments exported to the United States and currently classified in item number 791.76 of the Tariff Schedules of the United States (TSUS). Included in this merchandise are men's, boys, women's and girls' leather coats, jackets, other leather apparel (such as vests, pants, and skirts), and parts and pieces thereof as currently classified in item number 791.76 of the TSUS.

B. Basis of the Agreement

1. The Government of Uruguay hereby undertakes to eliminate completely the amount of the net subsidy determined by the Department to exist with respect to the products described in paragraph A on all shipments to the United States made on or after three months from the effective date of the suspension of the investigation.

2. In accordance with the provisions of the Act and applicable regulations, this Agreement applies to the products described in Paragraph A which are produced in Uruguay and exported, directly or indirectly, to the United States.

3. The Government of Uruguay agrees that during the three-month period following the effective date of the suspension of the investigation the quantity of the products described in paragraph A, which are exported to the United States from Uruguay, will not exceed the quantity of such exports during the three-month period of July through September 1979.

4. The Department will monitor all exports during the three-month period following the effective date of the suspension of the investigation and will issue instructions to deny entry, or withdrawal from warehouse, for consumption of any such products described in paragraph A that are exported in excess of the quantity exported during the period of July through September 1979.

5. The Government of Uruguay hereby certifies that no new or equivalent benefits will be provided to exporters of the products described in paragraph A to the United States as a substitute for any benefits eliminated by virtue of the actions described in this Agreement. The Government of Uruguay further certifies that it shall not, in substitution of the benefits eliminated under this Agreement, directly or indirectly increase the benefits on exports of the products described in paragraph A to third countries.

C. Monitoring

The Government of Uruguay agrees to supply to the Department such information as the Department deems necessary to demonstrate that it is in full compliance with this Agreement. The Government of Uruguay shall notify the Department within 15 days after the beginning of each quarter (March, June, September, December) whether it continues to be in compliance with this Agreement by eliminating the net subsidy

referred to in paragraph B (1) and that it has not substituted any new or equivalent benefits to leather wearing apparel exporters. Failure to supply such reports in a timely fashion may result in the immediate reopening of the investigation. Furthermore, the Government of Uruguay will permit such verification and data collection as is requested by the Department in order to monitor this Agreement. The Department will request such information and perform such verifications periodically pursuant to annual reviews conducted under section 751 of the Act.

D. Reopening of the Investigation

The Department shall terminate this Agreement and will reopen the investigation with respect to leather wearing apparel described in section A if the Department determines, pursuant to section 704(i)(1) of the Act, that the Government of Uruguay has not honored its obligations under this Agreement. The Department will also terminate this Agreement and will reopen the investigation if it determines that the suspension is no longer practicable. Once reopened, the investigation will be resumed as if the affirmative preliminary determination was made on the date that the Department terminates this Agreement.

Signed this 27th day of February, 1981.

Agreed to:
Government of Uruguay
By *Jorge Pacheco Areco*

I have determined that the provisions of paragraph B eliminate the possibility of any unfair trade practices which were the subject of this investigation, and that the provisions of paragraph C ensure that this Agreement can be monitored effectively. Therefore, I have determined that this Agreement to suspend this investigation meets the requirements of Section 704(b) of the Act and is in the public interest as required in Section 704(d) of the Act.

Department of Commerce.

John D. Greenwald.

Privacy Act of 1974; Annual Publication of Systems of Records

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Annual publication of systems of records.

SUMMARY: The Privacy Act of 1974 (5 U.S.C. 552a(e)(4) requires agencies to publish annually in the Federal Register a notice of the existence and character of their systems of records. The Committee for Purchase from the Blind and Other Severely Handicapped last published the full text of its systems of records at 42 FR 49075, August 15, 1977. No further changes have occurred, therefore, the systems of records remain in effect as published.

The full text of the Committee for Purchase from the Blind and Other Severely Handicapped's systems of records also appears in Privacy Act Issuances, 1979 Compilation, Volume III, page 2568. This volume may be ordered through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The price of this volume is $9.50.

FOR FURTHER INFORMATION CONTACT: Mr. C. W. Fletcher, Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street, North, Suite 610, Arlington, Virginia 22201; telephone: 703/557-1145.

C. W. Fletcher,
Executive Director.

DEPARTMENT OF DEFENSE

Defense Logistics Agency

The Privacy Act of 1974; Amendments to a Notice for a System of Records

AGENCY: Defense Logistics Agency.

ACTION: Notification of amendment to a system of records.

SUMMARY: The Defense Logistics Agency proposes to amend the notice for their system of S322.10DLA-LZ entitled: "Defense Manpower Data Center Data Base" to more clearly identify the routine users and the uses to which these users put the data they receive. The entire system notice as amended appears below.

DATE: This system shall be amended as proposed without further notice on April 15, 1981, unless comments are received which will result in a contrary determination.

ADDRESS: Send any comments to the system manager identified in the notice.

FOR FURTHER INFORMATION CONTACT: Mr. Preston B. Speed, Chief, Administrative Management Division (DLA-XA), Defense Logistics Agency, HQ DLA, Cameron Station, Alexandria, VA 22314. Telephone (area code 202) 274-6250.

SUPPLEMENTARY INFORMATION: The system notices for the Defense Logistics Agency system of records subject to the Privacy Act of 1974 were published in the Federal Register at:

FR Doc. 81-897 (46 FR 6457), January 21, 1981

These amendments do not fall within the purview of 5 U.S.C. 522a(o) of the Privacy Act which requires the submission of altered system report.

M. S. Healy,
OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

March 10, 1981.
[Enclosure 1]

Amendments

S322.10DLA-LZ

Categories of individuals covered by the system:

Delete: "DHEW, Office of Education and Longitudinal Survey" and substitute: "Department of Health and Human Services, National Longitudinal Survey."

Delete: "individuals receiving Veterans Administration Disability Benefits or having entitlement to VA medical care." and substitute: "survivors of retired military personnel who are eligible for or currently receiving disability payments or disability income compensation from the Veterans Administration; surviving spouses of active or retired deceased military personnel; 100% disabled veterans and their survivors."

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Add to first paragraph: "and to provide a single central facility within the Department of Defense for the identification of current and former DoD civilian and military personnel and their conditions of Service."

Paragraph 11 delete: "Department of Health, Education and Welfare (DHEW)" and substitute: "Department of Health and Human Services or the Department of Education."

Paragraph 12 delete: "Office of Education, DHEW" and substitute: "Department of Education (DoE)". Delete: "DHEW" and substitute: "DoE".

Paragraph 13 delete: "DHEW" and substitute: "DHHS." Add: "To the Office of the Inspector General, DHHS, for the purpose of identifying and investigating DoD employees (military and civilian) who may be improperly receiving funds under the Aid for Families of Dependent Children Program.

To the Office of Child Support Enforcement Department of Health and Human Services, pursuant to Pub. L. 93-647, for the purpose of assisting state child support enforcement officers in locating absent parents in order to establish and/or enforce child support obligations.

To the Director of the Selective Service System for use in wartime or

emergency mobilization and for mobilization planning."

Record source categories:

Delete: "Department of Education of the Department of HEW" and substitute: "Department of Education, Department of Health and Human Services."

Authority for maintenance of the system:

Add: "This statute provides for the operation of the Office of Secretary of Defense. The Defense Manpower Data Center operates under direct policy guidance from the Office of the Secretary of Defense thus its record keeping functions are authorized by the General statute. Specifically subsection 10 U.S.C. 136(b)(3) provides for establishment of administrative procedures 'to carry out the principles and policies of the Secretary' to include administrative matters relating to among other matters 'program and statistical reporting' (10 U.S.C. 136(b)(3)(c)). This is one of the primary functions of this system."

S322.10DLA-LZ

SYSTEM NAME:

Defense Manpower Data Center Data Base.

SYSTEM LOCATION:

Primary location: W.R. Church Computer Center, Navy Postgraduate School, Monterey, CA 93940.

Back-up locations for processing: Air Force Data Services Center, Room 1D167, The Pentagon, Washington, D.C. 20330.

U.S. Army Management Systems Support Agency, Room BD972, The Pentagon, Washington, D.C. 20310.

National Military Command Systems Support Center, Room BE685, The Pentagon, Washington, D.C. 20331.

Back-up files maintained at two offices of the Defense Manpower Data Center, 7th Floor, 300 N. Washington St., Alexandria, VA 22314 and 2nd Floor, 550 Camino El Estero, Monterey, CA 93940.

Selected historic files are maintained at Air Force Data Services Center, Room 1D167, The Pentagon, Washington, D.C. pursuant to court order in IBM anti-trust case. These files will be withdrawn from current location when legally permissible.

Decentralized segments—military personnel centers of the services; selected civilian contractors with research contracts in manpower area; other Federal agencies.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All officers and enlisted personnel who served on active duty from July 1, 1968 and later; or who have been a member of a reserve component since July 1975; or are retired military; participants in Project 100,000 and Project Transition and the evaluation control groups for these programs; all individuals examined to determine eligibility for military service at an Armed Forces Entrance and Examining Station from July 1, 1970, and later; DoD civilian employees or civilian employees separated since January 1, 1971; all veterans who have utilized Vietnam-era or GI Bill education and training entitlements, who visited a State Employment Service office since July 1, 1971, or who participated in a Department of Labor special training program since July 1, 1971; all individuals who ever participated in an educational program sponsored by the U.S. Armed Forces Institute, all individuals who participated in the Armed Forces Vocational Aptitude Testing Programs at the high school level since September 1969, individuals who responded to various paid advertising campaigns seeking enlistment information since July 1, 1973; participants in the Department of Health and Human Services, National Longitudinal Survey, individuals responding to Recruiting Advertisements since January 1978; survivors of retired military personnel who are eligible for or currently receiving disability payments or disability income compensation from the Veterans Administration; surviving spouses of active or retired deceased military personnel; 100% disabled veterans and their survivors.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, Service Number, Selective Service Number, Social Security Account Number, demographic information such as hometown, age, sex, race, and educational level; civilian occupational information, military personnel information such as rank, length of service, military occupation; aptitude scores, post-service education, training, and employment information for veterans; participation in various in-service education and training programs, military hospitalization records.

AUTHORITY FOR MAINTAINANCE OF THE SYSTEM:

10 U.S.C. 136. This statute provides for the operation of the Office of Secretary of Defense. The Defense Manpower Data operates under direct policy guidance from the Office of the Secretary of Defense thus its record keeping functions are authorized by the General statute. Specifically subsection 10 U.S.C. 136(b)(3) provides for establishment of administrative procedures "to carry out the principles and policies of the Secretary" to include administrative matters relating to among other matters "program and statistical reporting" (10 U.S.C. 136(b)(3)(c)). This is one of the primary functions of this system.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose of the system of records is to provide a longitudinal statistical analysis capability for assessing military manpower trends and evaluation programs impacting on military personnel, potential enlistees, and veterans and to provide a single central facility within the Department of Defense for the identification of current and former DoD civilian and military personnel and their conditions of Service."

Defense Manpower Data Center—used to analyze accession patterns and trends, promotion and occupation patterns and trends, loss patterns and trends, qualification rates, effectiveness of recruiting programs, participation in education and training programs, force characteristics, post-service experiences of veterans, evaluation of military special pays and bonuses; evaluation of special programs affecting military personnel; to select sample population for surveys, to provide statistical data to OMB, GAO, the Military Services, DoD civilian contractors, educational institutions and other Federal agencies.

Personnel Research and Personnel Management activities of the Military Services—uses are same as those specified above.

Veterans Administration, Management Sciences Staff, Reports and Statistics Service, Office of the Comptroller—used to select sample for surveys asking veterans about the use of veterans benefits and satisfaction with VA services, and to validate eligibility for VA benefits.

Office of Research and Statistics, Social Security Administration—used for statistical analyses of impact of military service and use of GI Bill benefits on long term earning.

DoD Civilian Contractors—used by contractors performing research on manpower problems for statistical analyses.

Aggregate data and/or individual records in the record system may be

transferred to other Federal agencies having legitimate use for such information and applying appropriate safeguards to protect data so provided.

Records may be disclosed to the Civil Service Commission concerning pay, benefits, retirement deductions; and other information necessary for the Commission to carry out its Government-wide personnel management functions.

Any record contained in the system of records may be transferred to any other component of the Department of Defense having the need-to-know in the performance of official business.

Name and address information of former military personnel obtained from the Veterans Administration or the Military Department may be released to a number of DoD Components for use in attempting to recruit and reenlist prior service personnel through direct contact methods. These components are as follows: U.S. Army Recruiting Command; U.S. Armed Forces Command; Navy Recruiting Command; Chief of Naval Personnel; Chief of Naval Reserve; U.S. Air Force Recruiting Service; U.S. Air Force Tactical Air Command; Headquarters Air Force Reserve; National Guard Bureau; Headquarters, U.S. Marine Corps; District Directors, U.S. Marine Corps; Commanding General 4th Marine Division; Commanding General, 4th Marine Air Wing; Commandant, U.S. Coast Guard.

Information on the name, rank, social security accounting number, duty station, birth date, retirement date, and retirement annuity may be disclosed to the Department of Health and Human Services or the Department of Education for the following purposes:

To the Department of Education, DoE, for the purpose of identifying individuals who appear to be in default on their guaranteed student loans so as to permit the DoE to take action, where appropriate, to accelerate recoveries of defaulted loans.

To the Bureau of Supplemental Security Income, Social Security Administration, DHHS, in order to verify and adjust as necessary payments made to active and retired military members under the Supplemental Security Income Program.

To the Office of the Inspector General, DHHS, for the purpose of identifying and investigating DoD employees (military and civilian) who may be improperly receiving funds under the Aid for Families of Dependent Children program.

To the Office of Child Support Enforcement Department of Health and Human Services, pursuant to Pub. L. 93-647, for the purpose of assisting state child support enforcement offices in locating absent parents in order to establish and/or enforce child support obligations.

To the Director of the Selective Service System for use in wartime or emergency mobilization and for mobilization planning.

To the Veterans Administration for analysis of the costs to the individual of military service connected disabilities.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic computer tape.

RETRIEVABILITY:

Retrievable by name, SSAN, age, occupation, or any other data element contained in system.

SAFEGUARDS:

Primary location—at W. R. Church Computer Center, tapes are stored in a locked cage in machine room, which is a controlled access area; tapes can be physically accessed only by computer center personnel and can be mounted for processing only if the appropriate security code is provided.

At back-up locations in Alexandria, VA and Monterey, CA tapes are stored in rooms protected with cypher locks, buildings are locked after hours, and only properly cleared and authorized personnel have access.

The Air Force Data Services Center, the U.S. Army Management Systems Support Agency, and the National Command Systems Support Center are in all TOP SECRET facilities.

RETENTION AND DISPOSAL:

Files constitute a historical data base and are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Chief, Defense Manpower Data Center (DMDC), 550 Camino El Estero, Monterey, CA 93940.

NOTIFICATION PROCEDURE:

Information may be obtained from: Deputy Chief, Defense Manpower Data Center, 550 Camino El Estero, Monterey, CA 93940. Telephone: Area Code 408/646-2951.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to Deputy Chief, Defense Manpower Data Center (DMDC), 550 Camino El Estero, Monterey, CA 93940.

Written requests for information should contain the full name, Social Security Account Number, date of birth, and current address and telephone number of the individual.

For personal visits, the individual should be able to provide some acceptable identification such as drivers license, or military or other ID card.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSTEM MANAGER.

RECORD SOURCE CATEGORIES:

The Military Services, the Veterans Administration, the Department of Education, Department of Health and Human Services, from individuals via survey questionnaires, the Department of Labor, the Civil Service Commission.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 3810-01-M

Defense Science Board Task Force on Review of the DOD Space-Based Laser Weapons Study; Advisory Committee Meeting

Office of the Secretary

The Defense Science Board Task Force on Review of the DoD Space-Based Laser Weapons Study will meet in closed session on 6 April 1981 in the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Research and Engineering on scientific and technical matters as they affect the perceived needs of the Department of Defense.

At its meeting on 6 April 1981 the Defense Science Board Task Force on Space-Based Lasers (SBL) will review the Defense Department's SBL options and make recommendations concerning the potential utility of SBL weapons.

In accordance with 5 U.S.C. App. 1 Section 10(d) (1976), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C.

552b(c)(1)(1976), and that accordingly, this meeting will be closed to the public.

M. S. Healy,
OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.
March 10, 1981.

BILLING CODE 3810-70-M

The Privacy Act of 1974; Amendments to System of Records Notices

AGENCY: Office of the Secretary of Defense.

ACTION: Notification of amendments of systems of records notices.

SUMMARY: The Office of the Secretary of Defense proposes to amend notices for four systems of records subject to the Privacy Act of 1974. The specific amendments to the system notices are set forth below under "Amendments". A complete amended system notice for each system is also set forth below.

DATES: These systems shall be amended as proposed without further notice on April 15, 1981, unless comments are received which will result in a contrary determination.

ADDRESSES: Privacy Act Officer, Defense Systems Management College, Civilian Personnel and Administration, Ft. Belvoir, Virginia 22060.

FOR FURTHER INFORMATION CONTACT: Norma Cook, Privacy Act Officer, ODASD(A), telephone: 202/694-0970.

SUPPLEMENTARY INFORMATION: The Office of the Secretary of Defense systems of records as prescribed by the Privacy Act were published in the **Federal Register** at:

FR Doc. 81-897 (46 FR 6427) January 21, 1981

These proposed amendments are not within the purview of the provisions of 5 U.S.C. 552a(o) of the Act which requires submission of a new or altered system report.

M. S. Healy,
OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.
March 9, 1981.

Amendments

DSMC-03

System name:

Defense Systems Management College (DSMC) Track Record System (46 FR 6427, January 21, 1981).

Changes:

System location:

In the second paragraph, second line, delete "Systems Management Department," and insert: "Acquisition Management Laboratory,".

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Under the above heading delete the entry and insert:

"The purposes of the system are to assemble career information on current and former students of DSMC in order to provide data to enable DSMC to monitor utilization of former students; to enable DSMC to perform research to assist in refinement of student selection criteria; to provide a data base to research for the improvement of program management; to provide a system for generating student transcripts; and to provide a data base for the DSMC Mailing List System, student and graduate registers.

Internal users, uses, and purposes:

The Defense Systems Management College—Used in assessing incoming student experience and educational levels; to produce student registers; to monitor utilization of former students by DoD Components; to verify and consolidate measures of student performance, to produce student transcripts which may be required by former students in her/his later educational process; to perform research into the success of former students; to provide input into the DSMC Mailing List System in order to mail surveys, newsletters and other items of interest to former students including graduate registers; to perform research to improve program management.

Individual records in a system of records might be transferred to any component of the Department of Defense (except GPA, functional course grades and individual survey responses).

External users, uses, and purposes:

Computer Sciences Corporation—mounts tapes and disc packs which contain files and operates the system; does not maintain the system.

Individual records of civilian industry students or former students might be transferred to the corporation sponsoring the individual (except GPA, functional course grades and individual survey responses).".

System manager(s) and address:

Delete "Director, Department of Plans and Curriculum Development," and insert: "Registrar,".

Notification procedure:

Delete "703-664-2017.", and insert: "703-664-3120.".

Record source categories:

Delete "U.S. Civil Service Commission", and insert: "Office of Personnel Management (OPM)".

DSMC-04

System name:

Defense Systems Management College (DSMC) Academic Analysis System (46 FR 6427, January 21, 1981).

Changes:

System location:

In the second paragraph, delete "Dept. of Systems Management," and insert: "Acquisition Management Laboratory,".

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Under the above heading delete the entry and insert:

"The purposes of this system are: To provide a research data base for improvement of the PMC academic program and its integration with DSMC Cooperative Graduate Programs, to provide a research data base for evaluating the quality and performance of current and former PMC students as well as DSMC Cooperative Graduate Program participants, and to facilitate administration of DSMC Cooperative Graduate Programs.

Internal users, uses, and purposes:

DSMC officials designated by the Commandant-Used to determine areas for improvement of the PMC academic program and its integration with DSMC Cooperative Graduate Programs; used to evaluate the quality and performance or current and former PMC students as well as participants in DSMC Cooperative Graduate Programs; used to administer DSMC Cooperative Graduate Programs; used for monitoring participation in DSMC Cooperative Graduate Programs and for counseling PMC students regarding participation; used to furnish DSMC Cooperative Graduate Program enrollment data for PMC student academic evaluation reports.

External users, uses, and purposes:

See Office of the Secretary of Defense Blanket Routine Uses at the head of this Component's published system notices.".

Notification procedure:

Delete "703-664-2017", and insert: "703-664-3120.".

DSMC-05

System name:

Biographical Record System (46 FR 6427, January 21, 1981).

Changes:

System location:

In the first paragraph, delete "Publications," and insert: "Information,".

In the second paragraph, delete "Plans and Curriculum Development," and insert: "Administration,".

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Under the above heading delete the entry and insert:

"Purpose is to provide information for selection and introduction of guest lecturers and to perform research.

Internal users, uses, and purposes:

Department of Administration—To develop statistical data on Department of Defense Program Management Offices; to present data to Policy Guidance Council to determine worthiness of nominees to serve on Board of Visitors.

Department of Program Management—To provide the credentials of guest lecturer to the students prior to the presentation.

Department of Executive Management—To present the credentials of guest lecturers to the students prior to the presentation.

External users, uses, and purposes:

See Office of the Secretary of Defense Blanket Routine Uses at the head of this Component's published system notices.".

System manager(s) and address:

Delete "Director," and insert "Dean,". Also, delete "Publications," and insert "Information,".

DSMC-06

System name:

Defense Systems Management College (DSMC) Mailing List (46 FR 6427, January 21, 1981).

Changes:

System location:

Delete the first paragraph, and insert: "Primary location—Publications Division, Defense Systems Management College, Fort Belvoir, Va. 22060."

In the second paragraph, delete "Systems Management Department," and insert: "Publications Division,".

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Under the above heading, delete the entry and insert:

"The purposes of the system is to provide a mailing list for distribution of newsletters, surveys, graduate registers and other information relating to acquisition management which is of interest to individuals included in the system."

Internal users, uses, and purposes:

DSMC—Used to disseminate newsletters, surveys, graduate registers and other information relating to acquisition management which is of interest to individuals on the DSMC mailing list; to prepare registers of former graduates; to prepare lists of Department of Defense Program Managers.

Any individual records in a system of records might be transferred to any component of the Department of Defense or other Government agency.

External users, uses, and purposes:

Computer Science Corporation—Mounts tapes and disc packs which files and operates the system; does not maintain the system.

Storage:

Delete the first two entries, and insert: "Primary file is addressograph plates.".

Safeguards:

Delete the second and third paragraphs.

System manager(s) and address:

Delete "Director," and insert "Dean,". Also, delete "Publications," and insert "Information,".

DSMC 03

SYSTEM NAME:

Defense Systems Management College (DSMC) Track Record System.

SYSTEM LOCATION:

Primary Location—Computer Sciences Corporation, Information Network Division, 650 North Sepulveda Boulevard, El Segundo, Ca. 90245.

Hard copy back-up files and punched card back-up files located in Acquisition Management Laboratory, Defense Systems Management College, Building 202, Ft. Belvoir, Va. 22060.

CATEGORIES OF INDIVIDUALS COVERED BY SYSTEM:

All current and former students of the Defense Systems Management College (DSMC)

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain name, SSAN, marital status, sex, date of birth, nickname, professional society membership, spouse's name, children's names, accompanied status, years of service, promotion history, job or assignment history, current years of service, current assignment code, military or civilian occupational code, DSMC assignment status, security clearance, current business telephone numbers, retirement status, educational history, class at DSMC, Grade Point Average (GPA), functional courses grades, graduation status, individual survey responses, awards and recognition.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 136, and Department of Defense Directive 5160.55, 'Defense Systems Management College,' January 5, 1977.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purposes of the system are to assemble career information on current and former students of DSMC in order to provide data to enable DSMC to monitor utilization of former students; to enable DSMC to perform research to assist in refinement of student selection criteria; to provide a data base to research for improvement of program management; to provide a system for generating student transcripts; and to provide a data base for the DSMC Mailing List System, student and graduate registers.

Internal users, uses, and purpose:

The Defense Systems Management College—Used in assessing incoming student experience and educational levels; to produce student registers; to monitor utilization of former students by DoD Components; to verify and consolidate measures of student performance, to produce student transcripts which may be required by former students in her/his later educational process; to perform research into the success of former students; to provide input into the DSMC Mailing List System in order to mail surveys, newsletters and other items of interest to former students including graduate registers; to perform research to improve program management.

Individual records in a system of records might be transferred to any component of the Department of Defense (except GPA, functional course grades and individual survey responses).

External users, uses, and purpose:

Computer Sciences Corporation—mounts tapes and disc packs which contain files and operates the system; does not maintain the system.

Individual records of civilian industry students or former students might be transferred to the corporation sponsoring the individual (except GPA, functional course grades and individual survey responses).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Primary file is magnetic disc.

Back-up files are magnetic computer tape and punched cards.

Hardcopy back-up files are paper records in file folders.

RETRIEVABILITY:

Files are sequenced by Social Security Account Number.

SAFEGUARDS:

Primary location is a controlled access area.

Operator personnel are screened and cleared in accordance with Government Services Administration contract procedures.

Access to magnetic disc and computer tapes requires computer phone number, used ID, password and project code which are only accessible to personnel authorized by the System Manager.

Back-up file storage is in a building which is locked during non-business hours and is located on a military installation.

Only individuals designated as having a need for access to files by the Systems Manager are authorized access to information in the files.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Registrar, Defense Systems Management College, Building 202, Ft. Belvoir, Va. 22060.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager. Telephone: 703–664–3120.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commandant, Defense Systems Management College, ATTN: Chief, Administration Division, Building 202, Ft. Belvoir, Va. 22060.

Written requests for information should contain the full name of the individual, SSAN, current address and telephone number.

For personal visits, the individual must contact the Chief, Administration Division, Building 202, Ft. Belvoir, Va. 22060, and provide acceptable identification, such as, military or other ID card, driver's license.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR 286b and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Information is provided by the individual, employer, staff and faculty of DSMC, each DoD Component, and the Office of Personnel Management (OPM) (including their automated personnel systems).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DSMC 04

SYSTEM NAME:

Defense Systems Management College (DSMC) Academic Analysis System.

SYSTEM LOCATION:

Primary Location—Office of the Commandant, Defense Systems Management College (DSMC), Ft. Belvoir, Va. 22060.

Back-up data File—Acquisition Management Laboratory, Defense Systems Management College, Ft. Belvoir, Va. 22060.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All current and former Program Management Course (PMC) students and participants in DSMC Cooperative Graduate Programs.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's name, SSAN, sex, date of birth, service affiliation, affiliation status, years of service, promotion history, job or assignment history, current assignment code, military or civilian occupation code, educational history, class at DSMC, DSMC class standing, DSMC grade point average, DSMC functional course grades, graduation status, pre- and post-test scores, Miller Analogies Test scores, Graduate Record Exam scores, individual survey responses, and course enrollment data and course grades in DSMC Cooperative Graduate Programs.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 136, and Department of Defense Directive 5160.55, "Defense Systems Management College," January 5, 1977.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS, AND THE PURPOSES OF SUCH USES:

The purposes of this system are: To provide a research data base for improvement of the PMC academic program and its integration with DSMC Cooperative Graduate Programs, to provide a research data base for evaluating the quality and performance of current and former PMC students as well as DSMC Cooperative Graduate Program participants, and to facilitate administration of DSMC Cooperative Graduate Programs.

Internal users, uses, and purposes:

DSMC officials designated by the Commandant—Used to determine areas for improvement of the PMC academic program and its integration with DSMC Cooperative Graduate Programs; used to evaluate the quality and performance of current and former PMC students as well as participants in DSMC Cooperative Graduate Programs; used to administer DSMC Cooperative Graduate Programs; used for monitoring participation in DSMC Cooperative Graduate Programs and for counseling PMC students regarding participation; used to furnish DSMC Cooperative Graduate Program enrollment data for PMC student academic evaluation reports.

External users, uses, and purposes:

See Office of the Secretary of Defense (OSD) Blanket Routine Uses at the head of this Component's published system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Primary file is paper records in file folders.

Back-up data file is punched cards.

RETRIEVABILITY:

Filed by class alphabetically by last name of PMC student and participant in Cooperative Graduate Programs.

SAFEGUARDS:

Primary file is in a loclcoked cabinet.

Back-up data file is in a building which is locked during nonbusiness hours and is located on a military installation.

Only individuals designated as having a need for access to files by the System Manager are authorized access to information in the files.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Commandant, Defense systems Management College, Building 202, Ft. Belvoir, Va. 22060.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager. Telephone: 703–664–3120.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commandant, Defense Systems Management College, ATTN: Chief, Administration Division, Building 202, Ft. Belvoir, Va. 22060.

Written requests for information should contain the full name of the individual, SSAN, current address and telephone number.

For personal vists, the individual must contact the Chief, Administration Division, Building 202, Ft. Belvoir, Va. 22060, and provide some acceptable identification, such as military or other identification card, driver's license.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR 286b and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Information is provided by the individual, staff and faculty of DSMC, each DoD Component and the Office of Personnel Management (OPM) (including their automated personnel systems), educational institutions and testing services.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

SYSTEM NAME:

Biographical Record System.

SYSTEM LOCATION:

Program Manager Biographies—Department of Research and Information, Defense Systems Management College.

Board of Visitor Biographies, Department of Administration, Defense Systems Management College.

Program Management Course Guest Lecturer Biographies—Department of Program Management, Defense Systems Management College.

Executive Course Guest Lecturer Biographies—Department of Executive Management, Defense Systems Management College.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Key governmental officials.

Guest Lecturers at the Defense Systems Management College.

Present and past members of the Board of Visitors and Policy Guidance Council.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain official biographic data, such as: individual's position, title, current business affiliation, record of past experience and education, awards and honors, memberships, addresses, phone numbers, photographs, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 136, and Department of Defense Directive 5160.55, "Defense Systems Management College," January 5, 1977.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS, AND THE PURPOSES OF SUCH USES:

Purpose is to provide information for selection and introduction of guest lecturers and to perform research.

Internal users, uses, and purposes:

Department of Administration—To develop statistical data on Department of Defense Program Management Offices; to present data to Policy Guidance Council to determine worthiness of nominees to serve on Board of Visitors.

Department of Program Management—To provide the credentials of guest lecturer to the students prior to the presentation.

Department of Executive Management—To present the credentials of guest lecturer to the students prior to the presentation.

External users, uses, and purposes:

See Office of the Secretary of Defense (OSD) Blanket Routine Uses at the head of this Component's published system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name, except program manager/deputy program manager files which are filed by organization titles.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Dean, Department of Research and Information, Defense Systems Management College, Ft. Belvoir, Va. 22060.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager. Telephone: 703–664–5783.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commandant, Defense Systems Management College, ATTN: Chief, Administration Division, Building 202, Ft. Belvoir, Va. 22060.

Written requests for information should contain full name of the individual, current position and affiliation.

Visits are limited to the departments at the school where the information is filed. For personal visits, the individual must provide acceptable identification.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR 286b and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Key official data from official Government files.

Board of Visitors nominee data from Policy Guidance Council members, present Board of Visitors members, DSMC Commandant and "Who's Who."

Guest Lecturer data from lecturers themselves, from their offices, or from Agency Public Affairs Offices.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DSMC 06

SYSTEM NAME:

Defense Systems Management College (DSMC) Mailing List.

SYSTEM LOCATION:

Primary location—Publications Division, Defense Systems Management College, Fort Belvoir, Va. 22060.

Hard copy back-up files and punched card back-up files located in Publications Division, Defense Systems Management College, Building 202, Fort Belvoir, Va. 22060.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All former students of the Defense Systems Management College (DSMC); members of the DSMC Policy Guidance Council and Board of Visitors; program managers associated with defense systems acquisition programs; key acquisition managers throughout Department of Defense; former staff and faculty members of the DSMC and individuals desiring to be included in the system.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains name, SSAN, class at DSMC, job code, mailing address, rank or grade, position and professional title and affiliation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 136, and Department of Defense Directive 5160.55, "Defense Systems Management College," January 5, 1977.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose of the system is to provide a mailing list for distribution of newsletters, surveys, graduate registers and other information relating to acquisition management which is of interest to individuals included in the system.

Internal users, uses and purposes:

DSMC—Used to disseminate newsletters, surveys, graduate registers and other information relating to acquisition management which is of interest to individuals on the DSMC mailing list; to prepare registers of former graduates; to prepare lists of Department of Defense Program Managers.

Any individual records in a system of records might be transferred to any component of the Department of Defense or other Government agency.

External users, uses, and purposes:

Computer Science Corporation—Mounts tapes and disc packs which contain files and operates the system; does not maintain the system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Primary file is addressograph plates.

Hard copy back-up files are paper records in file folders.

RETRIEVABILITY:

Files are retrievable by name, SSAN, class, job code and zip code.

SAFEGUARDS:

Primary location is a controlled access area.

Back-up file storage is in a building which is locked during non-business hours and is located on a military installation. Only individuals designated as having a need for access to files by the Systems Manager are authorized access to information in the files.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Dean, Department of Research and Information, Defense Systems Management College, Building 202, Ft. Belvoir, Va. 22060.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager. Telephone: 703-664-5783.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Commandant, Defense Systems Management College, ATTN: Chief, Administration Division, Building 202, Ft. Belvoir, Va. 22060.

Written requests for information should contain the full name of the individual, SSAN, current address and telephone number.

For personal visits, the individual must contact the Chief, Administration Division, Building 202, Ft. Belvoir, Va. 22060, and provide acceptable identification, such as, military or other ID card, driver's license.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR 286B and OSD Administrative Instruction No. 18.

RECORD SOURCE CATEGORIES:

Information is provided by the individual, employer, staff and faculty of DSMC, each DoD Component and the Office of Personnel Management (OPM) (including their automated personnel systems).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 5810-70-M

DEPARTMENT OF ENERGY

Voluntary Agreement and Plan of Action To Implement the International Energy Program; International Energy Agency; Meeting

In accordance with section 252(c)(1)(a)(i) of the Energy Policy and Conservation Act (42 U.S.C. 6272), notice is hereby provided that a meeting of the Industry Advisory Board (IAB) to the International Energy Agency (IEA) will be held on March 24, 1981, at the offices of the IEA, 2 rue Andre Pascal, Paris, France, beginning at 9:30 a.m. The purpose of this meeting is to permit attendance by representatives of the IAB at a joint meeting of the IEA Standing Group on Emergency Questions (SEQ) and the IEA Standing Group on the Oil Market (SOM), which is being held at Paris on that date.

The agenda for the meeting is under the control of the SEQ and the SOM. It is expected that the following draft agenda will be followed.

1. Adoption of draft agenda.
2. Current oil market situation.
3. Monitoring of the December measures—situation following February and March Questionnaire A and B submissions.
4. Policy recommendations to the Governing Board and subsequent quarters of 1981.
5. Any other business.
6. Future meeting dates.

As provided in section 252(c)(1)(A)(ii) of the Energy Policy and Conservation Act, this meeting will not be open to the public.

Issued in Washington, D.C., March 9, 1981.

Craig S. Bamberger,

Assistant General Counsel, International Trade and Emergency Preparedness.

[FR Doc. 81-8041 Filed 3-13-81; 8:45 am]

BILLING CODE 6450-01-M

Proposed Subsequent Arrangement

Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of a proposed "subsequent arrangement" under the Agreement for Cooperation Between the Government of the United States of America and the Government of Canada Concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangement to be carried out under the above mentioned agreement involves approval for the shipment of 35 kilograms of enriched uranium fuels from the NRX and NRU research reactors in Canada to the DOE

Savannah River facility for reprocessing and storage of recovered uranium.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security. This arrangement for returning U.S. origin highly enriched uranium (HEU) to the U.S. is consistent with U.S. non-proliferation policy in that it serves to reduce the amount of HEU abroad.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: March 10, 1981.

For the Department of Energy.

Harold D. Bengelsdorf,

Director for Nuclear Affairs, International Nuclear and Technical Programs.

[FR Doc. 81-7964 Filed 3-13-81; 8:45 am]

BILLING CODE 6450-01-M

Economic Regulatory Administration

Simon Oil Co.; Proposed Remedial Order

Pursuant to 10 CFR Section 205.192(c), the Economic Regulatory Administration (ERA) of the Department of Energy hereby gives notice of a Proposed Remedial Order which was issued to Simon Oil Company, 1316 Main Street, Niagara Falls, New York 14301. This Proposed Remedial Order charges Simon with pricing violations in the amount of $114,255.85 exclusive of interest connected with the resale of motor gasoline during the period February 16, 1976 through October 5, 1979.

A copy of the Proposed Remedial Order, with confidential information deleted, may be obtained from Edward Momorella, District Manager of Enforcement, (215) 597-2633. Within 15 days of publication of this notice, any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals, 2000 M Street, N.W., Washington, D.C. 20461, in accordance with 10 CFR Section 205.193.

Issued in Philadelphia, Pa., on the 5th day of March 1981.

Edward F. Momorella,

District Manager, Northeast District Enforcement.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket No. TA81-2-5-000]

Midwestern Gas Transmission Co.; Tariff Filing

March 10, 1981.

Take notice that on February 27, 1981, Midwestern Gas Transmission Company (Midwestern) tendered for filing Seventeenth Revised Sheet No. 5A to Third Revised Volume No. 1 of its FERC Gas Tariff, to be effective April 1, 1981. Midwestern states that this filing reflects in Midwestern's Northern System rates the increase in the rate charged to Midwestern by its Canadian supplier, TransCanada PipeLines Ltd., from $4.47 per MMBtu to $4.94 per MMBtu effective April 1, 1981.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 23, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-7967 Filed 3-13-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. RP80-107, et al.]

Natural Gas Pipe Line Co. of America; Informal Settlement Conference

March 9, 1981.

Take notice that on March 19, 1981, at 10:00 a.m., at the request of the natural Gas Pipeline Company of America, a further settlement conference will convene in the above-captioned docket. All interested persons are invited to attend this conference. The meeting place for this conference will be at the offices of the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

Customers and other interested persons will be permitted to attend but if such persons have not previously been permitted to intervene in this matter by order of the Commission, attendance will not be deemed to authorize intervention as a party in these proceedings.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

ENVIRONMENTAL PROTECTION AGENCY

[OPTS-51233; TSH FRL 1778-7]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Section 5(d)(2) requires EPA to publish in the **Federal Register** certain information about each PMN within 5 working days after receipt. This Notice announces recept of four PMN's and provides a summary of each.

DATES: Written comments by:

PMN 81-57, 81-60: April 10, 1981
PMN 81-63: April 11, 1981
PMN 81-68: April 12, 1981

ADDRESS: Written comments to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, DC 20460, (202-426-2610).

FOR FURTHER INFORMATION CONTACT:

PMN Number, Notice Manager, Telephone, and Room No.

81-57, 81-63, 81-68, Rick Green (202-426-8816), E-208
81-60, Kirk Maconaughey (202-426-3936), E-210
Mail address of notice managers: Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION: Section 5(a)(1) of TSCA [90 Stat. 2012 (15 U.S.C. 2604)], requires any person who intends to manufacture or import a new chemical substance to submit a PMN to EPA at least 90 days before manufacture or import commences. A "new" chemical substance is any substance that is not on the Inventory of existing substances compiled by EPA under section 8(b) of TSCA. EPA first

published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the **Federal Register** of May 15, 1979 (44 FR 28558-Initial) and July 29, 1980 (45 FR 50444-Revised). The requirement to submit a PMN for new chemical substances manufactured or imported for commerical purposes became effective on July 1, 1979.

EPA has proposed premanufacture notification rules and forms in the **Federal Register** issues of January 10, 1979 (44 FR 2242) and October 16, 1979 (44 FR 59764). These regulations, however, are not yet in effect. Interested persons should consult the Agency's Interim Policy published in the **Federal Register** of May 15, 1979 (44 FR 28564) for guidance concerning premanufacture notification requirements prior to the effective date of these rules and forms. In particular, see page 28567 of the Interim Policy.

A PMN must include the information listed in section 5(d)(1) of TSCA. Under section 5(d)(2) EPA must publish in the **Federal Register** nonconfidential information on the identity and use(s) of the substance, as well as a description of any test data submitted under section 5(b). In addition, EPA has decided to publish a description of any test data submitted with the PMN and EPA will publish the identity of the submitter unless this information is claimed confidential.

Publication of the section 5(d)(2) notice is subject to section 14 concerning disclosure of confidential information. A company can claim confidentiality for any information submitted as part of a PMN. If the company claims confidentiality for the specific chemical identity or use(s) of the chemical, EPA encourages the submitter to provide a generic use description, a nonconfidential description of the potential exposures from use, and a generic name for the chemical. EPA will publish the generic name, the generic use(s), and the potential exposure descriptions in the **Federal Register**.

If no generic use description or generic name is provided, EPA will develop one and after providing due notice to the submitter, will publish an amended **Federal Register** notice. EPA immediately will review confidentiality claims for chemical identity, chemical use, the identity of the submitter, and for health and safety studies. If EPA determines that portions of this information are not entitled to confidential treatment, the Agency will publish an amended notice and will place the information in the public file, after notifying the submitter and complying with other applicable procedures.

After receipt, EPA has 90 days to review a PMN under section 5(a)(1). The section 5(d)(2) **Federal Register** notice indicates the date when the review period ends for each PMN. Under section 5(c), EPA may, for good cause, extend the review period for up to an additional 90 days. If EPA determines that an extension is necessary, it will publish a notice in the **Federal Register**.

Once the review period ends, the submitter may manufacture the substance unless EPA has imposed restrictions. When the submitter begins to manufacture the substance, he must report to EPA, and the Agency will add the substance to the Inventory. After the substance is added to the Inventory, any company may manufacture it without providing EPA notice under section 5(a)(1)(A).

Therefore, under the Toxic Substances Control Act, summaries of the data taken from the PMN's are published herein.

Interested persons may, on or before the dates shown under "DATES," submit to the Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, DC 20460, written comments regarding these notices. Three copies of all comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the document control number "[OPTS-51233]" and the specific PMN number. Comments received may be seen in Rm. E-106 at the above office between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays.

(Sec. 5, 90 Stat. 2012 (15 U.S.C. 2604))

Dated: March 5, 1981.

Edward A. Klein,

Director, Chemical Control Division.

PMN 81-57

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 10, 1981.

Manufacturer's Identity. American Hoechst Corporation, Rt. 202-206 North Bridgewater, NJ 08876.

Specific Chemical Identity. Acetamide, *N*-[4-[(2-hyroxyethyl)sulfonyl]-2-methoxy 5-methylphenyl].

Use. Site-limited use as a dye chemical intermediate.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Melting point—187-188°C.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that 4 workers manufacturing the PMN substance will be exposed dermally and by inhalation for 8 hours per batch, resulting in worker exposure (at maximum annual production) of 305 man-hours per year.

Environmental Release/Disposal. The manufacturer states that because the PMN substance is used as a chemical intermediate, it will be largely consumed by a subsequent reaction with little release into the environment. Release will be limited by dust collectors, and waste liquor containing less than 0.5 percent of the new chemical will be treated on-site at an NPDES-permitted biological treatment facility.

PMN 81-60

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 10, 1981.

Manufacturer's Identity. International Minerals & Chemical Corporation, Mundelein, IL 60060.

Specific Chemical Identity. Resin from alkali-refined safflower oil, neopentyl glycol, trimethylolpropane, isophthalic acid, dimethylolpropionic acid, and isophorone diisocyanate.

Use. Clear wood finish.

Production Estimates. The manufacturer intends to produce 100,000 lb/yr of the new substance.

Physical/Chemical Properties on Starting Materials

Acid number, mg KOH/g—40.3.
Physical state—Semi-solid or liquid.
Color, Gardner—8 maxium.
Ratio of monomers used—
Safflower oil, 0.948
Neopentyl glycol, 1.394
Trimethylolpropane, 0.902
Isophthalic acid, 2.054
Dimethylolpropionic acid, 1.828
Isophorone diisocyanate, 1.192
Solvents used in processing—Xylene mineral spirits, ethyleneglycol *n*-butyl ether, and isobutyl alcohol.

Toxicity Data. Not data were submitted; however, the manufacturer states that the new product is not likely to present a hazard from a toxicity standpoint.

Exposure. The manufacturer states that two manufacturing workers will be exposed to the PMN substance for 8 to 16 hr/yr.

Environmental Release/Disposal. The manufacturer states that vapors from

the reactor will be vented to a condenser before release into the air; solutions from cleaning the reactor will be held in a storage tank for yearly removal by a certified waste disposal service. Also, amounts of the new substance requiring disposal will be absorbed by a mineral absorbent and removed to an approved chemical waste-disposal site.

PMN-81-63

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 11, 1981.

Manufacturer's Identity. The Upjohn Co., 410 Sacket Point Rd., No. Haven, CT 06473.

Specific Chemical Identity. Isocyanic acid, tetramethylene bis (oxytrimethylene) ester.

Use. The manufacturer states that the PMN substance will be used in an industrial use as polyurethane coatings and elastomers.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Appearance—Clear liquid.
Boiling point—130° C/0.1 mm Hg.
Specific gravity—0.95.
Vapor pressure—0.05 mm at 150° C.
Ionic chloride—0.05%.
Isocyanate equivalent weight—128.5.

Reactive toward any chemical substance containing active hydrogen such as water, alcohols, phenols, glycols, amines (primary and secondary), and mercaptons.

Toxicity Data

Primary skin irritation (New Zealand white rabbits)—Moderately to severely irritating.

Acute dermal toxicity LD_{50} (male and female albino rabbits)—>2.0 g/kg.

Acute 4-hour inhalation exposure LC_{50} (rats)—Harmful and injurious at concentrations >1 mg/1.

Exposure. The manufacturer states that three manufacturing and processing workers could have skin and inhalation exposure to the PMN substance for 8 hr/da, 125–250 da/yr, at a peak concentration of 0–1 ppm while filling containers.

At a user's site, 30 workers using the new chemical would have inhalation exposure for 8 hr/da, 60 da/yr, at a peak concentration of 0 to 1 ppm during the formulations, moldings, or castings.

Environmental Release/Disposal. The manufacturer states that during manufacture and processing, less than 10 kg/yr will be released into the water of a sewer for disposal.

PMN 81-65

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 12, 1981.

Manufacturer's Identity. Chattem Drug and Chemical, 1715 West 38th St., Chattanooga, TN 37407.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Sodium salt of disulfonated alkylaromatic.

Use. The manufacture states that the PMN substance will be used in an industrial and commercial use as an industrial alkaline cleaner.

Production Estimates. No data were submitted.

Physcial/Chemical Properties. No data were submitted.

Toxicity Data

Ames test—Non-mutagenic.

Primary skin irritation—Non-irritating or corrosive.

Primary eye irritation—Non-irritating.

Acute oral toxicity LD_{50} (male albino rabbits)—> 4 g/kg.

Exposure. The manufacturer states that 18 manufacturing and processing workers will have skin and inhalation exposure to the new substance for 12 hr/da, 30 da/yr, at an average concentration of 1 to 10 ppm and a peak concentration of more than 100 ppm. Skin exposure could result from cleaning the system, spillage at pump seal, and loading drums; inhalation exposure could occur during packaging or stacking packages.

The manufacturer also states that users could have daily skin exposure when using a cleaning solution containing the new substance at a concentration of less than 1 percent.

Environmental Release/Disposal. The manufacturer states that during manufacture and processing, 10 to 100 kg/yr of the PMN substance will be released into the water of a publicly owned treatment works (POTW) 24 hr/da, 30 da/yr. Vapors will be passed through an alkaline scrubber, solid waste will be collected and hauled to a fill area, and a baghouse and sanction device will be used to control airborne particulates.

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Section 5(d)(2) requires EPA to publish in the Federal Register certain information about each PMN within 5 working days after receipt. This Notice announces receipt of eight PMN's and provides a summary of each.

DATES: Written comments by:

PMN 81-55, 81-56, 81-58, 81-59: April 10, 1981

PMN 81-64, 81-65, 81-66, 81-67: April 11, 1981

ADDRESS: Written comments to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, DC 20460 (202-426-2610).

FOR FURTHER INFORMATION CONTACT:

PMN Number, Notice Manager, Telephone, Room No.

81-55, 81-56, Carolyn Brown (202-426-3960), E-221

81-58, 81-59, Rick Green (202-426-8616), E-208

81-64, Rachel Diamond (202-426-3960), E-221

81-65, 81-66, 81-67, George Bagley (202-426-3938), E-210

Mail address of notice managers: Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Aency, 401 M St., SW, Washington, DC 20460.

SUPPLEMENTARY INFORMATION: Section 5(a)(1) of TSCA [90 Stat. 2012 (15 U.S.C. 2604)], requires any person who intends to manufacture or import a new chemical substance to submit a PMN to EPA at least 90 days before manufacture or import commences. A "new" chemical substance is any substance that is not on the Inventory of existing substances compiled by EPA under section 8(b) of TSCA. EPA first published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the Federal Register of May 15, 1979 (44 FR 28558-Initial) and July 29, 1980 (45 FR 505444-Revised). The requirement to submit a PMN for new chemical substances manufactured or imported for commercial purposes became effective on July 1, 1979.

EPA has proposed premanufacture notification rules and forms in the Federal Register issues of January 10, 1979 (44 FR 2242) and October 16, 1979

(44 FR 58764). These regulations, however, are not yet in effect. Interested persons should consult the Agency's Interim Policy published in the **Federal Register** of May 15, 1979 (44 FR 28564) for guidance concerning premanufacture notification requirements prior to the effective date of these rules and forms. In particular, see page 28567 of the Interim Policy.

A PMN must include the information listed in section 5(d)(1) of TSCA. Under section 5(d)(2) EPA must publish in the **Federal Register** nonconfidential information on the identity and use(s) of the substance, as well as a description of any test data submitted under section 5(b). In addition, EPA has decided to publish a description of any test data submitted with the PMN and EPA will publish the identity of the submitter unless this information is claimed confidential.

Publication of the section 5(d)(2) notice is subject to section 14 concerning disclosure of confidential information. A company can claim confidentiality for any information submitted as part of a PMN. If the company claims confidentiality for the specific chemical identity or use(s) of the chemical, EPA encourages the submitter to provide a generic use description, a nonconfidential description of the potential exposures from use, and a generic name for the chemical. EPA will publish the generic name, the generic use(s), and the potential exposure descriptions in the **Federal Register.**

If no generic use description or generic name is provided, EPA will develop one and after providing due notice to the submitter, will publish an amended **Federal Register** notice. EPA immediately will review confidentiality claims for chemical identity, chemical use, the identity of the submitter, and for health and safety studies. If EPA determines that portions of this information are not entitled to confidential treatment, the Agency will publish an amended notice and will place the information in the public file, after notifying the submitter and complying with other applicable procedures.

After receipt, EPA has 90 days to review a PMN under section 5(a)(1). The section 5(d)(2) **Federal Register** notice indicates the date when the review period ends for each PMN. Under section 5(c), EPA may, for good cause, extend the review period for up to an additional 90 days. If EPA determines that an extension is necessary, it will publish a notice in the **Federal Register.**

Once the review period ends, the submitter may manufacture the substance unless EPA has imposed restrictions. When the submitter begins to manufacture the substance, he must report to EPA, and the Agency will add the substance to the Inventory. After the substance is added to the Inventory, any company may manufacture it without providing EPA notice under section 5(a)(1)(A).

Therefore, under the Toxic Substances Control Act, summaries of the data taken from the PMN's are published herein.

Interested persons may, on or before the dates shown under "DATES," submit to the Document Control Officer (TS–793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E–401, 401 M St., SW., Washington, DC 20460, written comments regarding these notices. Three copies of all comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the document control number "[OPTS–51234]" and the specific PMN number. Comments received may be seen in Rm. E–106 at the above address between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays.

(Sec. 5, 90 Stat. 2012 (15 U.S.C. 2604))

Dated: March 10, 1981.

Edward A. Klein,

Director, Chemical Control Division.

PMN 81–55

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 10, 1981.

Manufacturer's Identity. Claimed confidential business information. Organizational description provided:

Manufacturing site—Middle Atlantic U.S.

Standard Industrial Classification Code—285; e.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Acrylated urethane oligomer.

Use. Claimed confidential business information. Generic use information provided: The manufacturer states that the PMN substance will be used in an open use that will release more than 50 but less than 5,000 kg per year into the environment with potential for skin and eye exposure to both chemical and non-chemical industry employees.

Production Estimates

	Kilograms per year	
	Minimum	Maximum
1st year	100	35,000
2d year	1,000	65,000
3d year	1,000	75,000

Physical/Chemical Properties. No data were submitted.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that at two manufacturing sites, 66 workers could have skin and eye exposure for 6 hr/da, 3–7 da/yr, during extracting and testing samples for quality control, cleaning filtration apparatus, and drumming. At a processing site, 54 workers could have skin and eye exposure for 6 hr/da, 12 da/hr, during filling of the mix tank and drums.

At the site of a typical user, 3 workers could have skin and eye exposure for 1 hr/da, 240 da/yr.

Environmental Release/Disposal. The manufacturer states that at both manufacturing and procesing sites, less than 90 kg/yr of the new substance will be released into the air, land, and water. Vapors will pass through glycol or Venturi scrubbers before release into the air; glycol, sludge, and other organic wastes will be incinerated or landfilled.

At the site of a typical user, less than 20 kg/yr will be released into the air and water; from 10 to 100 kg/yr will be released into the land. Disposal at a user's site will be by landfill or incineration.

PMN 81–56

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 10, 1981.

Manufacturer's Identity. Claimed confidential business information. Organizational description provided:

Manufacturing site—Middle Atlantic U.S.

Standard Industrial Classification Code—285; e.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Polymer of substituted alkanediol, carbomonocyclic anhydride, and substituted alkanoic ester.

Use. Claimed confidential business information. Generic use information provided: The manufacturer states that the PMN substance will be used in an open use that will release more than 50 but less than 5,000 kg per year into the environment with potential skin and eye

exposure to chemical industry employees and potential skin, eye, and inhalaition exposure to non-chemical industry employees.

Production Estimates

	Kilogram per year	
	Minimum	Maximum
1st year		19,800
2d year	19,800	100,000
3d year	100,000	300,000

Physical/Chemical Properties

*Acid value—9.0–11.0.
*Hydroxyl value—205–215.
†Density—8.65 lbs/gal.
%Total solids—90%.
†Viscosity—15–22 stokes.
†Flash point—39C.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that at two manufacturing sites 64 workers will have skin and eye exposure for 4–24 hr/da, 5–10 da/yr, while sampling for quality control, filtering, and filling storage containers. At a processing site, 50 workers could have skin and eye exposure for 16 hr/da, 157 da/yr, while incorporating the new substance into a finished product, quality control sampling, and cleanup and filling operations.

At the site of a typical user, 50 workers using the new substance could have skin, eye, and inhalation exposure 8 hr/da, 200 da/yr, at an average concentration of 0 to 1 mg/m³ and a peak concentration of 1 to 10 mg/m³.

Environmental Release/Disposal. The manufacturer states that at both the manufacturing and processing sites, less than 60 kg/yr of the new chemical will be released into the air and water. In all three sites, release to land will range from less than 10 to more than 10,000 kg/yr. Vapors are cleaned by scrubbers and a baghouse; sludge is incinerated.

At the site of a typical user, less than 20 kg/yr of the new substance would be released into the air and water; from 1,000 to 10,000 kg/yr would be released into the land.

PMN 81–58

Toxicity Data. Claimed confidential business information.

Exposure. Claimed confidential business information.

Environmental Release/Disposal. Claimed confidential business information.

PMN 81–59

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 10, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Phenolic novolak resin.

Use. Claimed confidential business information.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties. Claimed confidential business information.

Toxicity Data. Claimed confidential business information.

Exposure. Claimed confidential business information.

Environmental Release/Disposal. Claimed confidential business information.

PMN 81–64

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 11, 1981.

Manufacturer's Identity. Claimed confidential business information.

Organizational description provided:

Annual sales—Between $100 million and $499,999,999.

Manufacturing site—Northeastern U.S.

Standard Industrial Classification Code—285 "Paints, Varnishes, Lacquers, Enamels, Allied Products."

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Polymer of neopentyl glycol, adipic acid, trimellitic anhydride, and an aromatic aliphatic estar.

Use. The manufacturer states that the PMN substance will be used in an industrial use as a resin for water-borne industrial paints.

Production Estimates

	Kilogram per year	
	Minimum	Maximum
1981	6,000	150,000
1982	25,000	500,000
1983	25,000	500,000

Physical/Chemical Properties

Acid value (Solids basis)—42–46.
Viscosity (Gardner, Holdt)—Z5–Z6.
Weight per gallon—9.5 lb.
Weight % non-volatile—75 ± 1%.
Volume % non-volatile—66.3%.
Solubility in water (100% solids sample, 24 hour extraction)—0.14%.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that during manufacturing and processing, 21 workers could have skin and inhalation exposure 8 hr/da, 85–100 da/yr, while removing the substance from the reactor, filling drums or tank wagons, and cleaning the filter.

At a user's site, 20 workers could have skin exposure 16 hr/da, 300 da/yr, at an average concentration of 1 to 10 ppm during transfer of paint to coating machine and during machine cleanup.

Environmental Release/Disposal. The manufactuerer states that in both manufacturing and processing sites, less than 40 kg/yr of the new substance will be released into the air and water 10 hr/da, 100 da/yr, and from 100 to 10,000 to 10,000 kg/yr will be released to the land. Disposal will be by landfill or through a POTW.

At a user's site, 1,000 kg/yr will be released into the land.

PMN 81–65

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 11, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Disubstitutednitorbenzene.

Use. The manufactuerer states that the PMN substance will be used as a site-limited chemical intermediate. The final chemical will be a minor constituent of a commercial and consumer article.

Production Estimates

	Kilogram per year	
	Minimum	Maximum
1st year	5,	20

Production Estimates—Continued

	Kilogram per year	
	Minimum	Maximum
2d year	10	30
3d year	50	150

Physical/Chemical Properties

Solubilities:
Water—<0.1%.
DMSO—>10.0%.
Acetone—>10.0%.
Corn oil—<0.1%.
Octanol—<0.1%.
Melting point—113°C.

Toxicity Data

Acute oral LD_{50}—800–1,600 mg/kg.
Acute dermal LD_{50}—>1,000 mg/kg.
Skin irritation—Slight.
Ames *Salmonella* Mutagenicity Assay:
With metabolic activation—Moderately positive.
Without metabolic activation—Modrately positive.

The manufacturer states that the new substance may present a low carcinogenic hazard to man.

Exposure. The manufacturer states that at a site controlled by the submitter, four workers manufacturing and using the new substance could have skin and inhalation exposure .3–1 hr/da, 1 da/yr, at an average concentration of 0 to 1 mg/m ^{3} and a peak concentration of 1 to 10 mg/m ^{3}.

Environmental Release/Disposal. The manufacturer states that there would be negligible amounts of the new substance released into the air, land, and water of a navigable waterway. Emissions of vapors and dust will be scrubbed before release into the air; spills and liquid and solid wastes will be destroyed by high temperature thermal, chemical, or combined high temperature thermal/chemical distruction techniques.

PMN 81–66

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 11, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Bis[(substituted)-aminophenyl]substituent.

Use. The manufacturer states that the PMN substance will be used as a site-limited chemical intermediate. The final chemical will be a minor constituent of a commercial and consumer article.

Production Estimates

	Kilograms per year	
	Minimum	Maximum
1st year	5	20
2d year	10	30
3d year	50	150

Physical/Chemical Properties

Solubilities:
Water—<0.1%.
DMSO—>0.1%.
Acetone—<0.1%.
Corn oil—<0.1%.
Octanol—<0.1%.
Melting point—Decomposes above 150°C.

Toxicity Data

Acute oral LD_{50}—1,600mg/kg.
Acute dermal LD_{50}—>1,000 mg/kg.
Skin irritation—Slight.
Ames *Salmonella* Mutagenicity Assay:
With metabolic activation—Moderately positive.
Without metabolic activation—Negative.

The manufacturer states that the new substance may present a low carcinogenic hazard to man.

Exposure. The manufacturer states that, at a site controlled by the submitter, four workers manufacturing and using the new substance could have skin and inhalation exposure 1–3 hr/da, 1–6 da/yr, at an average concentration of 0 to 1 mg/m ^{3} and a peak concentration of 1 to 10 mg/m ^{3}.

Environmental Release/Disposal. The manufacturer states that there would be negligible amounts of the new substance released into the air, land, and water of a navigable waterway. Emissions of vapors and dust will be scrubbed before release into the air; spills and liquid and solid wastes will be destroyed by high temperature thermal, chemical, or combined high temperature thermal/chemical destruction techniques.

PMN 81–67

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 11, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Bis[(substituted)-nitrophenyl]substituent.

Use. The manufacturer states that the PMN substance will be used as a site-limited chemical intermediate. The final chemical will be a minor constituent of a commercial and consumer article.

[FR Doc. 81-7982 Filed 3-13-81; 8:45 am]
BILLING CODE 6560-31-M

[OPTS-51235; TSH-FRL 1779-3]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to

submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Section 5(d)(2) requires EPA to publish in the Federal Register certain information about each PMN within 5 working days after receipt. This Notice announces receipt of two PMN's and provides a summary of each.

DATES: Written comments by:

PMN 81-62: April 11, 1981
PMN 81-70: April 14, 1981

ADDRESS: Written comments to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, DC 20460, (202-426-2610).

FOR FURTHER INFORMATION CONTACT: Kirk Maconaughey, Chemical Information Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-210a, 401 M St., SW., Washington, DC 20460, (202-426-3936).

SUPPLEMENTARY INFORMATION: Section 5(a)(1) of TSCA [90 Stat. 2012 (15 U.S.C. 2604)], requires any person who intends to manufacture or import a new chemcial substance to submit a PMN to EPA at least 90 days before manufacture or import commences. A "new" chemical substance is any substance that is not on the Inventory of existing substances compiled by EPA under section 8(b) of TSCA. EPA first published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the Federal Register of May 15, 1979 (44 FR 28558-Initial) and July 29, 1980 (45 FR 50444-Revised). The requirement to submit a PMN for new chemical substances manufactured or imported for commerical purposes became effective on July 1, 1979.

EPA has proposed premanufacture notification rules and forms in the Federal Register issues of January 10, 1979 (44 FR 2242) and October 16, 1979 (44 FR 59764). These regulations, however, are not yet in effect. Interested persons should consult the Agency's Interim Policy published in the Federal Register of May 15, 1979 (44 FR 28564) for guidance concerning premanufacture notification requirements prior to the effective date of these rules and forms. In particular, see page 28567 of the Interim Policy.

A PMN must include the information listed in section 5(d)(1) of TSCA. Under section 5(d)(2) EPA must publish in the Federal Register nonconfidential information on the identity and use(s) of the substance, as well as a description of any test data submitted under section 5(b). In addition, EPA has decided to publish a description of any test data submittd with the PMN and EPA will publish the identity of the submitter unless this information is claimed confidential.

Publication of the section 5(d)(2) notice is subject to section 14 concerning disclosure of confidential information. A company can claim confidentiality for any information submitted as part of a PMN. If the company claims confidentiality for the specific chemical identity or use(s) of the chemical, EPA encourages the submitter to provide a generic use description, a nonconfidential description of the potential exposures from use, and a generic name for the chemical. EPA will publish the generic name, the generic use(s), and the potential exposure descriptions in the Federal Register.

If no generic use description or generic name is provided, EPA will develop one and after providing due notice to the submitter, will publish an amended Federal Register notice. EPA immediately will review confidentiality claims for chemical identity, chemical use, the identity of the submitter, and for health and safety studies. If EPA determines that portions of this information are not entitled to confidential treatment, the Agency will publish an amended notice and will place the information in the public file, after notifying the submitter and complying with other applicable procedures.

After receipt, EPA has 90 days to review a PMN under section 5(a)(1). The section 5(d)(2) Federal Register notice indicates the date when the review period ends for each PMN. Under section 5(c), EPA may, for good cause, extend the review period for up to an additional 90 days. If EPA determines that an extension is necessary, it will publish a notice in the Federal Register.

Once the review period ends, the submitter may manufacture the substance unless EPA has imposed restrictions. When the submitter begins to manufacture the substance, he must report to EPA, and the Agency will add the substance to the Inventory. After the substance is added to the Inventory, any company may manufacture it without providing EPA Notice under section 5(a)(1)(A).

Therefore, under the Toxic Substances Control Act, summaries of the data taken form the PMN's are published herein.

Interested persons may, on or before the dates shown under "DATES," submit to the Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, DC 20460, written comments regarding these notices. Three copies of all comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the document control number "[OPTS-51235]" and the specific PMN number. Comments received may be seen in Rm. E-106 at the above office between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays.

(Sec. 5, 90 Stat. 2012 (15 U.S.C. 2604))

Dated: March 10, 1981.

Edward A. Klein,

Director, Chemical Control Division.

PMN 81-62

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 11, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: polyester-polyether copolymer reaction product with toluene diisocyanate and hydroxyethyl methacrylate.

Use. The manufacturer states that the PMN substance will be used in an industrial use as plastic printing plates.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Vapor pressure at 25°C—0-1 ^{2} torr.

Density—>1.1 gm/cc.

Solubility at 25°C in toluene—>15 gm/1.

Freezing point—<0°C.

Boiling point—Does not boil.

Toxicity Data

Primary skin irritation (albino rabbits)—Non-irritating.

Acute oral toxicity LD_{50} (albino rats)—>5.0 g/kg.

Acute dermal toxicity LD_{50} (albino rabbits)—>2.0 g/kg.

Acute inhalation toxicity (albino rats)—No deaths; some labored breathing.

Exposure. The manufacturer states that at two sites (one of which is controlled by the submitter) eight manufacturing workers could have skin exposure 1 hr/da, 150 da/yr, at a peak concentration of 0 to 1 ppm. The manufacturer also states that because the PMN substance is manufactured in a closed system, exposure would be

minimal and limited to discharging the chemical from reactors to drums.

Environmental Release-Disposal. The manufacturer states that none of the PMN substance will be released into the environment.

PMN 81-70

The following information is taken from data submitted by the manufacturer in the PMN.

Close of Review Period. May 14, 1981.

Manufacturer's Identity. Claimed confidential business information. Organizational description provided:

Annual sales—Over $500 million.

Manufacturing site—East-North Central U.S.

Standard Industrial Classification Code—2821.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: 2-Methyl-2-propenoic acid, polycyclohexyl ester.

Use. The manufacturer states that the PMN substance will be used in a site-limited use as a monomer in polymers for lithographic and gravure inks.

Production Estimates

	Kilogram per year	
	Minimum	Maximum
1st year	2,000	10,000
2d year	5,000	15,000
3d year	5,000	30,000

Physical-Chemical Properties. Claimed confidential business information.

Toxicity Data. Claimed confidential business information.

Exposure. The manufacturer states that at a site controlled by the submitter, six workers manufacturing and using the new chemical could have skin exposure 1–2 hr/da, 24–30 da/yr, at an average concentration of 0–1 ppm and a peak concentration of 1–10 ppm. Manufacturing workers will be exposed to potential skin and eye contact during sampling or through spills; workers using the PMN substance could have skin and eye exposure during transfer to reactor or through spills.

Environmental Release/Disposal. The manufacturer states that virtually none of the new substance will be released into the air and water; less than 10 kg/yr will be released into the land.

FMC Corp.; Extension of Experimental Use Permit; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice corrects a document that published in the Federal Register of August 26, 1980 (45 FR 56910) FR Doc. 80-26011. The effective date line read: "* * * The program is effective from July 14, 1980, to July 14, 1980." It should have read "* * * The program is effective from July 14, 1980, to July 14, 1981."

FOR FURTHER INFORMATION CONTACT: John A. Richards, Federal Register Staff (TS-788), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-125, 401 M St., SW., Washington, D.C. 20460, (202-426-2600).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the Federal Register of August 26, 1980 (45 FR 56910) that FMC Corp., Agricultural Chemical Group, 2000 Market St., Philadelphia, PA 19103 had been issued an extension of an experimental use permit. Correct the 27th and 28th lines to read: "* * * The program is effective from July 14, 1980, to July 14, 1981."

Dated: February 10, 1981.

Douglas D. Campt,

Director, Registration Division Office of Pesticide Programs.

BILLING CODE 6560-32-M

[OPP-180551; PH-FRL 1779-5]

Georgia; Issuance of Specific Exemption for Fenvalerate on Cabbage

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted permission to the Georgia Department of Agriculture (hereafter referred to as the "Applicant") to use fenvalerate (cyano(3-phenoxyphenyl)methyl-4-chloro-alpha-(1-methyl(ethyl)benzeneacetate)) on cabbage to control the cabbageworm complex. The specific exemption is issued under the Federal Insecticide, Fungicide, and Rodenticide Act.

DATE: The specific exemption expires on December 31, 1981.

FOR FURTHER INFORMATION CONTACT: Libby Welch, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 502C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7123).

SUPPLEMENTARY INFORMATION: According to the Applicant, the cabbageworm complex has become an increasingly important pest on cabbage which is grown primarily in the coastal plain of Georgia. The Applicant estimates a loss of as much as 50 percent of the cabbage production if an effective control program is not available this season.

The Applicant states that none of the currently registered products, methomyl, mevinphos, and *Bacillus thuringiensis*, have been effective and they are not providing adequate control. The Applicant reports that use of methamidophas is precluded because it may not be used with 35 days of harvest.

The Applicant proposed to apply fenvalerate at a rate of 0.05 to 0.1 pound per acre by ground in a minimum of 4 gallons of water per acre.

EPA has determined that residues of the active ingredient (a.i.) fenvalerate from the proposed use should not exceed 2.0 part per million (ppm) in cabbage. This level has been judged by the EPA to be adequate to protect the public health. EPA has also determined that the proposed use should not have an unreasonable adverse effect on the environment.

After reviewing the application and other available information, EPA has determined that the criteria for an exemption have been met. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until December 31, 1981, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. The product Pydrin (EPA Reg. No. 201-401), manufactured by Shell Chemical Company, may be used. If an unregistered label is used in connection with the above product, it must contain the identical applicable precautions and restrictions which appear on the registered label.

2. Total acreage of cabbage may not exceed 5,000 acres.

3. A maximum of 4,000 pounds of active ingredient may be applied at a maximum rate of 0.05 to 0.1 pound a.i. per acre.

4. A maximum of eight applications is authorized.

5. A 7-day preharvest interval is imposed.

6. All applications must be made by State-certified applicators or persons under their direct supervision.

7. Root crops may not be planted in treated fields for 12 months after

application. A 60-day crop rotation restriction is imposed for any other crop.

8. Fenvalerate will be applied by ground equipment in a minimum spray volume of 4 gallons of water per acre.

9. Fenvalerate may be applied to cabbage fields only when fields are to be harvested within 35 days and a State entomologist has determined that:

a. A major infestation of cabbageworm complex exists.

b. Registered pesticides are not controlling the cabbageworm complex.

c. Significant economic losses to cabbage growers will occur.

10. It is recommended that fenvalerate not be applied any closer to fish-bearing freshwaters than 100 feet (at the 0.05 lb. a.i. rate) and 200 feet (at the 0.1 lb. a.i. rate). Application closer than these may result in fish and/or other aquatic organism kills.

11. Participants are to be notified of their obligation to report any and all adverse effects on nontarget organisms arising from the use of this product. The EPA shall be immediately informed of any adverse effects resulting from the proposed use.

12. Precautions must be taken to avoid or minimize spray drift to nontarget areas. It is recommended that pesticide application be made when wind speeds are between 2 and 5 miles per hour. No pesticide applications are to be made when wind speed exceeds 10 miles per hour.

13. This product is highly toxic to bees exposed to direct treatment or to residues on crops or weeds. It may not be applied or allowed to drift to weed or crops in bloom if bees are actively visiting the treatment area. Protective information may be obtained from the State Cooperative Agriculture Extension Service.

14. Fenvalerate is extremely toxic to fish and aquatic invertebrates. It must be kept out of lakes, streams, ponds, tidal marshes, and estuaries. It may not be applied directly to any body of water and drift reduction precautions must be observed. It may not be applied where excessive runoff is likely to occur. Care must be taken to prevent contamination of water by cleaning of equipment or disposing of waste or excess pesticides.

15. Cabbage with residues of fenvalerate not exceeding 2 ppm may enter interstate commerce. The Food and Drug Administration, U.S. Department of Health and Human Services, had been advised of this action.

16. Cabbage trimmings from treated fields must not be fed to livestock.

17. All applicable directions, restrictions, and precautions on the product label must be adhered to.

18. The Applicant is responsible for assuring that all of the provisions of this specific exemption are met and must submit a final report summarizing the results of this program by June 30, 1982.

19. This specific exemption becomes effective January 1, 1981. No pesticide applications under this exemption may take place until then.

(Sec. 18 as amended, 92 Stat. 819; (7 U.S.C. 136))

Dated: March 2, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

BILLING CODE 6560-32-M

[OPTS-59048; TSH-FRL-1779-6]

Substituted Phenol; Premanufacture Exemption Application

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1)(A) of the Toxic Substances Control Act (TSCA) requires any person intending to manufacture or import a new chemical substance for a commercial purpose in the United States to submit a premanufacture notice (PMN) to EPA at least 90 days before he commences such manufacture or import. Under Section 5(h) the Agency may, upon application, exempt any person from any requirement of section 5 to permit such person to manufacture or process a chemical for test marketing purposes. Section 5(h)(6) requires EPA to issue a notice of receipt of any such application for publication in the Federal Register. This notice announces receipt of an application for an exemption from the premanufacture reporting requirements for test marketing purposes and requests comments on the appropriateness of granting the exemption.

DATE: The Agency must either approve or deny this application by April 5, 1981. Persons should submit written comments on the application no later than March 31, 1981.

ADDRESS: Written comments to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, DC 20460, (202-426-2610).

FOR FURTHER INFORMATION CONTACT: George Bagley, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-210, 401 M St., SW., Washington, DC 20460, (202-426-3936).

SUPPLEMENTARY INFORMATION: Under section 5 of TSCA (90 Stat. 2012 (15 U.S.C. 2604)), any person who intends to manufacture or import a new chemical substance for commercial purposes in the United States must submit a notice to EPA before the manufacture or import begins. A "new" chemical substance is any chemical substance that is not on the Inventory of existing chemical substances compiled by EPA under section 5(b) of TSCA. EPA first published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the Federal Register on May 15, 1979 (44 FR 28558—Initial) and July 29, 1980 (45 FR 50544—Revised). The requirement to submit a PMN for new chemical substances manufactured or imported for commercial purposes became effective on July 1, 1979.

Section 5(a)(1) requires each PMN to be submitted in accordance with section 5(d) and any applicable requirement of chemical substances that are subject to testing rules under section 4. Section 5(b)(2) requires additional information in PMN's for substances which EPA, by rules under section 5(b)(4), has determined may present unreasonable risks of injury to health or the environment.

Section 5(h), "Exemptions," contains several provisions for exemptions from some or all of the requirements of section 5. In particular, section 5(h)(1) authorized EPA, upon application, to exempt persons from any requirement of section 5(a) or section 5(b) to permit the persons to manufacture or process a chemical substance for test marketing purposes. To grant such an exemption, the Agency must find that the test marketing activities will not present any unreasonable risk of injury to health or the environment. EPA must either approve or deny the application within 45 days of its receipt and the Agency must publish a notice of its disposition in the Federal Register. If EPA grants a test marketing exemption, it may impose restrictions on the test marketing activities.

Under section 5(h)(6), EPA must publish in the Federal Register a notice of receipt of an application under section 5(H)(1) immediately after the Agency receives the application. The notice identifies and briefly describes the application (subject to section 14 confidentiality restrictions) and gives interested persons an opportunity to comment on it and whether EPA should grant the exemption. Because the Agency must act on the application withing 45 days, interested persons should provide comments within 15 days

after the notice appears in the **Federal Register**.

EPA has proposed Premanufacture Notification Requirements and Review Procedures published in the **Federal Register** of January 10, 1979 (44 FR 2242) and October 16, 1979 (44 FR 59764) containing proposed premanufacture rules and notice forms. Proposed 40 CFR 720.15 (44 FR 2288) would implement section 5(h)(1) concerning exemptions for test marketing and includes proposed 40 CFR 720.15(c) concerning the section 5(h)(6) **Federal Register** notice. However, these requirements are not yet in effect. In the meantime, EPA has published a statement of Interim Policy published in the **Federal Register** of May 15, 1979 (44 FR 28564) which applies to PMN's submitted prior to promulgation of the rules and notice forms.

Interested persons may, on or before March 31, 1981, submit to the Office of Pesticides and Toxic Substances, Rm. E-401, 401 M St., SW., Washington, DC 20460, written comments regarding this notice. Three copies of all comments shall be submitted, except that individuals may submit single copies comments. The comments are to be identified with the document control number "[OPTS-59046]." Comments received may be seen in Rm. E-106 at the above address between 8:00 a.m. and 4:00 p.m., Monday through Friday excluding legal holidays.

(Sec. 5, 90 Stat. 2012 (15 U.S.C. 2604))

Dated: March 5, 1981.

Edward A. Klein,

Director, Chemical Control Division.

TM 81-6

The following summary is taken from the data submitted by the manufacturer in the test marketing exemption application.

Close of Review Period. April 5, 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Substituted phenol.

Use. Claimed confidential business information.

Production Estimates. The manufacturer states that less than 10 kilograms will be manufactured for test marketing purposes to be conducted in March and April 1981. Five customers will be provided the new substance during the test period.

Physical/Chemical Properties. No data were submitted.

Toxicity Data

Acute oral LD_{50} (rat)—>5 g/kg

Primary skin irritation (rabbit)—0.3/8.0—Minimally irritating.

Eye irritation—43.2/110.0—Severely irritating.

Eye irritation washout—

5 second contact—6.0/110.0
30 second contact—9.7/110.0
Minimally irritating

Ames Assay—In progress.

Exposure. Manufacture. The submitter states that no more than four employees will be exposed to the new chemical for periods of less than two hours when handling the chemical during the laboratory-scale manufacture of the PMN substance. All personnel involve in the preparation use protective gloves, goggles, and garments.

Use. The manufacture states that the proportion of the new chemical which comprises the final product is less than 1%.

Environmental Release/Disposal. The manufacturer states that the manufacture and use of the new substance do not present any unreasonable risk of injury to health or the environment. Any waste will be disposed by incineration.

[FR Doc. 81-7984 Filed 3-13-81; 8:45 am]

BILLING CODE 6560-31-M

[AMS-FRL 1778-5]

Announcement of Fuel Economy Retrofit Device Evaluation for "Basko MW Enginecoat"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of fuel economy retrofit device evaluation.

SUMMARY: This document announces the conclusions of the EPA evaluation of the "Basko MW Enginecoat" device under provisions of Section 511 of the Motor Vehicle Information and Cost Savings Act.

FOR FURTHER INFORMATION CONTACT: Merrill W. Korth, Emission Control Technology Division, Office of Mobile Source Air Pollution Control, Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, Michigan 48105, 313-668-4299.

BACKGROUND INFORMATION: Section 511(b)(1) and Section 511(c) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2011(b)) requires that:

"Upon application of any manufacturer of a retrofit device (or prototype thereof), upon the request of the Federal Trade Commission pursuant to subsection (a), or upon his own motion, the EPA Administrator shall evaluate, in accordance with rules prescribed under subsection (d), any retrofit device to determine whether the retrofit device increases fuel economy and to determine whether the representations (if any) made with respect to such retrofit devices are accurate."

(c) "The EPA Administrator shall publish in the **Federal Register** a summary of the results of all tests conducted under this section, together with the EPA Administrator's conclusions as to—

(1) The effect of any retrofit device on fuel economy;

(2) The effect of any such device on emissions of air pollutants; and

(3) Any other information which the Administrator determines to be relevant in evaluating such device."

EPA published final regulations establishing procedures for conducting fuel economy retrofit device evaluations on March 23, 1979 (44 FR 17946).

Origin of Request for Evaluation

On March 4, 1980, the EPA received a request from Bask Industries, Inc. for evaluation of a fuel saving device termed the "Basko MW Enginecoat." An evaluation has been made and the results are described completely in a report entitled: "EPA Evaluation of the Basko MW Enginecoat Under Section 511 of the Motor Vehicle Information and Cost Savings Act." Copies of this report are available upon request.

Summary of Evaluation

"Basko MW Enginecoat" is two paint-like products, one designed to insulate engine components, the second designed to cool other engine components. Application of these coatings to the engine is claimed to improve fuel economy and performance while reducing emissions.

The Applicant submitted no valid test data with the application to support these claimed benefits. Analysis of the information submitted by the Applicant did not *prove* that the use of "Basko MW Enginecoat" would enable a vehicle operator to improve a vehicle's fuel economy or emissions. Thus, there is no technical basis to support any claims for a fuel economy improvement or emissions reduction due to the use of the "Basko MW Enginecoat" device.

Installation of the device on an engine already installed in a vehicle would be very time consuming.

Dated: March 9, 1981.

Edward F. Tuerk,

Acting Assistant Administrator for Air, Noise, and Radiation.

Bank Holding Companies; Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than April 9, 1981.

A. *Federal Reserve Bank of New York* (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

Chemical New York Corporation, New York, New York (reinsurance activities; Florida): to engage, through its existing subsidiaries, Sun States Life Insurance Company and Great Lakes Insurance Company, in the reinsuring of credit life and credit accident and health insurance which is directly related to extensions of credit made or acquired by indirect subsidiaries of Chemical New York Corporation, at their offices in the State of Florida. These proposed activities will be conducted from offices located in Cleveland, Ohio, and serving the State of Florida.

B. *Federal Reserve Bank of San Francisco* (Harry W. Green, Vice President) 400 Sansome Street, San Francisco, California 94120:

1. U.S. Bancorp, Portland, Oregon (financing, industrial loan and insurance activities; Utah): to engage through its subsidiary, U.S. Thrift & Loan, in the making, acquiring and servicing of loans and other extensions of credit, either secured or unsecured, for its own account or the account of others, including, but not limited to commercial, rediscount and installment sales contracts; to issue thrift certificates and passbooks and to act as insurance agent with regard to credit life and disability insurance solely in connection with extensions of credit by U.S. Thrift & Loan. These activities would be conducted from an office in Moab, Utah, serving the counties of Grand and San Juan, Utah.

2. U.S. Bancorp, Portland, Oregon (financing, industrial loan and insurance activities; Utah): to engage through its indirect subsidiary, U.S. Thrift & Loan, in the making, acquiring and servicing of loans and other extensions of credit, either secured or unsecured, for its own account or the account of others, including, but not limited to commercial, rediscount and installment sales contracts; to issue thrift certificates and passbooks and to act as insurance agent with regard to credit life and disability insurance solely in connection with extensions of credit by U.S. Thrift & Loan. These activities would be conducted from an office in Spanish Fork, Utah, serving the southern part of Utah county including Springville, Spanish Fork, Mapleton, Salem, Payson, Santaquin, Genola and Goshen.

C. *Other Federal Reserve Banks:* None.

GENERAL SERVICES ADMINISTRATION

[H-81-1]

Delegation of Authority to the Secretary of the Interior

1. *Purpose.* This delegation authorizes the Secretary of the Interior to administer the competitive leasing of surplus mineral resources underlying the properties listed below as prescribed in part 101-47 of the Federal Property Management Regulations (FPMR) (41 CFR 101-47).

a. Outlying Landing Field Magnolia, Baldwin County, Alabama, 4-N-AL-554.

b. Outlying Landing Field Faircloth, Baldwin County, Alabama, 4-N-AL-555.

c. Outlying Landing Field Kings, Escambia County, Florida, 4-N-FL-737.

d. Richards-Gebaur Air Force Base, Missouri, 6-D-MO-502 & A.

2. *Effective Date.* The delegation is effective immediately.

3. *Delegation.*

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, as amended, particularly sections 203 and 205(d) (40 U.S.C. 484 and 486(d)), authority is delegated to the Secretary of the Interior to dispose of surplus property in accordance with this Act and implementing regulations.

b. The Secretary of the Interior may redelegate this authority to any officer, official, or employee of the Department of the Interior.

c. Under the delegated authority, the Department of the Interior, as the disposal agency, is responsible for the following: (1) securing, in accordance with FPMR 101-47.303-4, any appraisals deemed necessary by the Secretary; (2) coordinating with all present and subsequent surface land-holders, Federal or otherwise, so as not to impede use of the facilities or impair the integrity of utilization; (3) ensuring that lands which are disturbed or damaged are restored after removal of the mineral deposits is completed; and (4) notifying the General Services Administration when the disposal of all marketable mineral deposits has been completed.

d. The Department of the Interior, as the disposal agency, is responsible for complying with the requirements of the following: (1) the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321, et seq.), Executive Order 11514 of March 5, 1970, entitled "Protection and Enhancement of Environmental Quality," as amended by Executive Order 11991, Relating to Protection and Enhancement of Environmental Quality, and implementing regulations issued by the Council on Environmental Quality (40 CFR 800); (2) section 106 of the National Historic Preservation Act of 1966 (16 U.S.C. 470f); and (3) the Coastal Zone Management Act of 1972 (16 U.S.C. 1451, et seq.) and the Department of Commerce implementing regulations (15 CFR Parts 923 and 930).

e. A copy of any documents executed under this delegation shall be forwarded immediately to the General Services Administration (DR), Washington, DC 20406.

Dated: March 5, 1981.

Ray Kline,

Acting Administrator of General Services.

Control Technology Assessment of Petroleum Refinery Operations; Open Meeting

The following meeting will be convened by the National Institute for Occupational Safety and Health of the Centers for Disease Control, and the Radian Corporation, and will be open to the public for observation and participation, limited only by the space available:

Control Technology Assessment of Petroleum Refinery Operations

Date: April 14, 1981
Time: 9 a.m. to 2 p.m.
Place: NIOSH Ridge Road Facility, 5555 Ridge Road, Cincinnati, Ohio 45213
Purpose: To discuss the study, which is to determine and document existing control technology which effectively prevents the exposure of petroleum refinery workers to harmful chemical and physical agents, with representatives from labor, industry, academia, and government. The Radian Corporation has been awarded a contract by NIOSH to perform this investigation.

Additional information may be obtained from:

National Institutes of Health

Biometry and Epidemiology Contract Review Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Biometry and Epidemiology Contract Review Committee, National Cancer Institute, April 16, 1981, Building 31C, Conference Room 8, National Institutes of Health, Bethesda, Maryland 20205. The meeting will be open to the public on April 16, from 9:00 a.m. until 9:30 a.m., to review administrative details.

Attendance by the public will be limited to space available.

In accordance with provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92–463, the meeting will be closed to the public on April 16, from 9:30 a.m. to adjournment, for the review, discussion and evaluation of individual contract proposals. These proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the proposals, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mrs. Winifred Lumsden, the Committee Management Officer, National Cancer Institute, Building 31, Room 4B43, National Institutes of Health, Bethesda, Maryland 20235 (301/496–5708) will provide summaries of the meeting and rosters of committee members, upon request.

Dr. Wilna Woods, Executive Secretary, Biometry and Epidemiology Contract Review Committee, National Cancer Institute, Westwood Building, Room 822, National Institutes of Health, Bethesda, Maryland (301/496–7153) will furnish substantive program information.

(Catalog of Federal Domestic Assistance Number 13.398, project grants in cancer research manpower, National Institutes of Health)

(NIH programs are not covered by OMB Circular A–95 because they fit the description of "programs not considered appropriate" in section 8(b) (4) and (5) of that Circular)

Dated: March 5, 1981.

[CA–7538 WR]

California; Proposed Continuation of Withdrawal and Opportunity for Public Hearing

Correction

In FR Doc. 81–4722 appearing at page 11887, in the issue of Wednesday, February 11, 1981, make the following correction:

On page 11889, third column, the third line of second legal discription, San Bernardino Meridian, California, "T. 6N; R. 7E," should read "T. 6N; R. 17E".

BILLING CODE 1505–01–M

Utah; Vernal District Advisory Council; Meeting

March 9, 1981.

AGENCY: Bureau of Land Management.

ACTION: Notice.

SUMMARY: Notice is hereby given in accordance with 43 CFR Part 1780 that a meeting of the Vernal District Advisory Council will be held April 23, 1981.

The meeting will begin at 9:00 a.m. in the conference room of the Bureau of Land Management office at 170 South 500 East, Vernal, Utah. The agenda for the meeting will include: (1) Ongoing planning for 1981 Prototype Oil Shale leasing, (2) Updating of other planning in the Bookcliffs Resource Area, (3) Discussion of the status of energy development in the Uintah Basin and what can be expected in the near future, (4) Discussion of Council committee assignments, (5) Scheduling the next meeting and agenda topics.

The meeting is open to the public. Interested persons may make oral statements to the Council between 2:00 p.m. and 3:00 p.m. on April 23, 1981, or file a written statement for the Council's consideration. Anyone wishing to make oral statements to the Council must notify the District Manager, Bureau of Land Management, 170 South 500 East, Vernal, Utah 84078, by April 16, 1981.

Summary minutes of the Council's meeting will be maintained in the District Office and will be available for public inspection during regular business hours.

Lloyd H. Ferguson,

District Manager.

March 9, 1981.

BILLING CODE 4310–84–M

Fish and Wildlife Service

Endangered Species Permit; Receipt of Applications

The applicants listed below wish to conduct specific activities with Endangered Species:

Applicant: Area Manager, PRT 2–7721, U.S. Fish and Wildlife Service, East Lansing, Michigan.

The applicant requests a permit to take wild Kirtland's warblers *(Dendroica kirtlandii)* from Michigan, Indiana and Ohio for banding, radio-tagging, nest checks, observing, and collecting parts (e.g. feathers) for

physiological studies for scientific research.

Applicant: Area Manager, PRT 2-7724, U.S. Fish and Wildlife Service, East Lansing, Michigan.

The applicant requests a permit to take wild bald eagles *(Haliaeetus leucocephalus)* from Michigan, Indiana and Ohio for banding, observing, radio telemetry, and collecting parts (e.g. feathers) for physiological studies for scientific research.

Applicant: Karen Anderson, PRT 2-7118, New York University, New York, New York.

The applicant requests a permit to take and sacrifice four (4) wild pine barrens tree frogs *(Hyla andersoni)* from Florida for genetic research at the New York University.

Applicant: Herpetofauna, Inc., PRT 2-7733, Fort Meyers, Florida.

The applicant requests a permit to import in foreign commerce two false gavial *(Tomistoma schlegelii)* from Tom Wheal, Ontario, Canada for enhancement of propagation. Mr. Wheal has had these animals since 1972.

Applicant: Tom and Carolyn Collins, PRT 2-7730, French Lick, Indiana.

The applicant requests a permit to purchase in interstate commerce two captive-bred gray wolves *(Canis lupus)* from David Meeks, Wellford, South Carolina for enhancement of propagation and survival.

Humane care and treatment during transport, if applicable, has been indicated by the applicants.

Documents and other information submitted with these applications are available to the public during normal business hours in Room 601, 1000 N. Glebe Road, Arlington, Virginia, or by writing to the Director, U.S. Fish & Wildlife Service, WPO, P.O. Box 3654, Arlington, VA 22203.

Interested persons may comment on these applications within 30 days of the date of this publication by submitting written data, views, or arguments to the Director at the above address.

Dated: March 9, 1981.

BILLING CODE 4310-55-M

Geological Survey

Delegation of Authority; Outer Continental Shelf Leases

Federal Oil and Gas Lease Form 3300–1 (September 1978) provides for the submission of royalty and other payments as follows:

The lessee shall make all payments to the lessor by check, bank draft, or money order unless otherwise provided by regulations or by direction of the lessor. Rentals, royalties and other payments required by this lease shall be made payable to the United States Geological Survey and tendered to the *Director*, except that filing charges, bonuses, first year's rental and other payments due upon lease issuance, shall be made payable to the Bureau of Land Management and remitted to the manager of the appropriate field office of that Bureau.

The Director of the Geological Survey has delegated his authority to receive rental and royalty payments from Outer Continental Shelf (OCS) lessees pursuant to Lease Form 3300–1 to the Chief, Conservation Division. The Chief, Conservation Division, has redelegated this authority to the Deputy Division Chief, Royalty Management, in order to conform the practice under Lease Form 3300–1 with the practice under other OCS lease forms.

The redelegation as it will appear in the Geological Survey Manual reads as follows:

.6 The authority in SM 220.2.7 to receive rental and royalty payments from Outer Continental Shelf (OCS) lessees under Lease Form 3300–1 (September 1978), is hereby redelegated by the Chief, Conservation Division, to the Deputy Division Chief, Royalty Management.

The redelegation is effective on March 16, 1981.

Dated: March 6, 1981.

Doyle G. Frederick,

Acting Director.

BILLING CODE 4310-03-M

Water and Power Resources Service

Contract Negotiation With Water User Interests Willamette Basin Project, Oreg.; Intent To Begin Water Service Contract Negotiations

The Department of the Interior, through the Water and Power Resources Service, intends to negotiate water service contracts with several individuals and entities during the 1981 irrigation season. Water will be provided from the Willamette Basin Project for these irrigation purposes. Potential contractors known at this time are: (1) the Oregon State Department of Fish and Wildlife, seeking a supply to irrigate approximately 200 acres of land located adjacent to Fern Ridge Reservoir near Eugene, Oregon; (2) Raymond H. Blood Farms, Inc., seeking a supply of water from the Willamette River to irrigate approximately 70 acres of land located near Junction City, Oregon; and (3) Carl M. Kebelbeck, who desires a supply of water from the Cottage Grove Reservoir to irrigate approximately 5 acres of land located near Cottage Grove, Oregon. The proposed contracts will be written pursuant to the Reclamation Project Act of 1939 (53 Stat. 1187), and the Flood Control Act of 1944 (58 Stat. 887).

Water will be made available from Willamette Basin Project storage reservoirs constructed and operated by the Corps of Engineers. Section 8 of the Flood Control Act authorizes the Secretary of the Interior to market water from Corps of Engineers' reservoirs for agriculturual use.

The proposed contract with the Oregon State Department of Fish and Wildlife will allow diversion of a maximum annual water supply of 559 acre-feet, or not to exceed 2.15 acre-feet per acre. Similarly, the proposed contracts with Raymond H. Blood Farms, Inc. and Carl M. Kebelbeck will cover maximum annual supplies of about 151 acre-feet and 11 acre-feet, respectively. The initial water rates will be $1.25 per acre-foot. An annual minimum charge of $20 will be applicable for the contract with Carl M. Kebelbeck. Both the annual rates and the annual minimum charge will be adjustable at intervals not to exceed 5 years. The term for each of the proposed contracts is 40 years. Each of the contractors must furnish those facilities needed to divert and distribute the water, and in addition, obtain a diversion permit from the State of Oregon.

Copies of the proposed contracts are available at the Water and Power

Resources Service offices in Boise, Idaho, and Salem, Oregon. Parties interested in receiving further information should contact Ms. Cathy Kent, Repayment Contract Assistant, Water and Power Resources Service, Division of Water, Power, and Lands, Attention Code 440, 550 West Fort Street, Box 043, Boise, Idaho 83724, telephone (208) 334-9011.

The public is invited to submit written comments on proposed contracts not later than 30 days after the completed contract drafts are made available. Comments should be addressed to Regional Director, Attention Code 440, at the above address. All written correspondence concerning the proposed contracts is available to the general public pursuant to the terms and procedures of the Freedom of Information Act (30 Stat. 383), as amended.

Dated: March 9, 1981.

Alden D. Nielsen,

Acting Assistant Commissioner of Water and Power Resources.

[Docket No. AB-28 (Sub-2F)]

Central of Georgia Railroad Co.—Abandonment—Between Greenville and Raymond, GA; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a Certificate and Decision decided February 24, 1981, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that the public convenience and necessity permit the abandonment by the Central of Georgia Railroad Company of the portion of a line of railroad which extends from Milepost R55.0 near Greenville, GA, to Milepost R72.9 at Raymond, GA in Coweta and Meriwether Counties, GA, a

total distance of 17.88 miles, subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). The line includes the non-agency stations of Allie (Milepost R55.1), Primrose (Milepost R58.5), Luthersville (Milepost R63.2) and Bexton, Ga (Milepost R67.1). A certificate of public convenience and necessity permitting abandonment was issued to the Burlington Northern Inc. Since no investigation was instituted, the requirement of § 1121.38(b) of the Regulations that publication of notice of abandonment decisions in the **Federal Register** be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed with the Commission and served concurrently on BN, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than March 26, 1981. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective 30 days from the service date of the certificate.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8048 Filed 3-13-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the **Federal Register** on July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service and to comply with the appropriate statutes and Commission regulations. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g.s., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP5-72

Decided: February 26, 1981.

By the Commission, Review Board No. 2, members Chandler, Eaton, and Liberman.

MC 99439 (Sub-17), filed February 5, 1981. Applicant: SUWANNE TRANSFER, INC., 9800 Normandy Blvd., P.O. Box 40764, Jacksonville, FL 32203. Representative: Martin Sack Jr., 203 Marine National Bank Bldg., 311 W. Duval St., Jacksonville, FL 32202. Transporting *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions) for the U.S. Government, between points in the U.S.

MC 110098 (Sub-190), filed February 4, 1981. Applicant: ZERO REFRIGERATED LINES, a corporation, 1400 Ackerman Rd., Box 20380, San Antonio, TX 78220. Representative: T. W. Cothren (same address as applicant). Transporting (1) *general commodities* (except household goods, hazardous or secret materials, and sensitive weapons and munitions), for the U.S. Government, and (2) *shipments weighing 100 pounds or less if* transported in a motor vehicle in which no one packaged exceeds 100 pounds, between points in the U.S.

MC 135328 (Sub-7), filed February 4, 1981. Applicant: MARVIN E. YATES, d.b.a. YATES TRUCKING CO., 1600 Joe Wright Rd., Klamath Falls, OR 97601. Representative: Lawrence V. Smart, Jr., 419 NW. 23d Ave., Portland, OR 97210. Transporting *general commodities* (except used household goods, hazardous or secret materials and sensitive weapons and munitions) for the U.S. Government, between points in the U.S.

MC 143229 (Sub-3), filed February 3, 1981. Applicant: ANDERSON CARTAGE COMPANY, a corporation, 4040 Holly St., Unit 10, Denver, CO 80216. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Ave., Memphis, TN 38137. Transporting *shipments* weighing 100 pounds or less, if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S. Condition: The person or persons who appear to be in common control of applicant and another regulated carrier must either file an application for approval of common control under 49 U.S.C. § 11343, or submit an affidavit indicating why such approval is unnecessary.

MC 145108 (Sub-28F), filed November 21, 1980. Applicant: BULLET EXPRESS, INC., 5600 First Ave., Brooklyn, NY 11220. Representative: George A. Olsen,

Gladstone, NJ 07934. Transporting for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

MC 145829 (Sub-26F), filed February 6, 1981. Applicant: ETI CORP., P.O. Box 1, Keasbey, NJ 08832. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934. Transporting *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions) for the U.S. Government between points in the U.S.

MC 153019F, filed December 1, 1980. Applicant: J & S TRUCK BROKERAGE, INC., P.O. Box 807, Lexington, NC 27292. Representative: C. Jack Pearce, Suite 1200, 1000 Connecticut Ave. NW., Washington, DC 20036. As a *broker of general commodities* (except household goods), between points in the U.S.

MC 153619 (Sub-1), filed January 28, 1981. Applicant: WALTER D. JANUSH, JR., d.b.a. JANUSH BROS. MOVING & STORAGE, 19285 Conant Ave., Detroit, MI 48234. Representative: Nancy Janush (same address as applicant). Transporting *used household goods* for the account of the United States Government incident to the performance of a pack-and-crate service on behalf of the Department of Defense, between points in the U.S.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or juridictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY–2–001

Decided: February 26, 1981.

By the Commission, Review Board No. 1, Members Carleton, Joyce, and Jones.

MC 10343 (Sub-43), filed February 10, 1981. Applicant: CHURCHILL TRUCK LINES, INC., U.S. Highway 36, West, P.O. Box 250, Chillicothe, MO 64601. Representative: Vernon M. Masters (same address as applicant), (816) 646–1590. Transporting *general commodities* (except classes A and B explosives) serving points in Kenosha County, WI, as off-route points in connection with carrier's otherwise authorized regular-route operations.

MC 37303 (Sub-4), filed February 10, 1981. Applicant: A.E.F.-SELOVER

TRANSPORTATION, INC., 650 Eddystone Avenue, Eddystone, PA 19013. Representative: Alan Kahn, 1430 Land Title Bldg., Philadelphia, PA. (215) 561–1030. Transporting *general commodities* (except classes A and B explosives) between Philadelphia, PA and New York, NY, on the one hand, and, on the other, points in CT, DE, MA, MD, NC, NJ, NH, NY, PA, RI, VA, and DC.

MC 59583 (Sub-181), filed February 9, 1981. Applicant: THE MASON AND DIXON LINES, INCORPORATED, Post Office Box 969, Kingsport, TN 37662. Representative: Kim D. Mann, Suite 1010, 7101 Wisconsin Ave., Washington, DC 20014, (301) 986–1410.Transporting *general commodities* (except classes A and B explosives) between those points in the U.S. in and east of LA, AR, MO, IA, and MN.

MC 71043 (Sub-11F), filed February 10, 1981. Applicant: LaPORTE TRANSIT CO., INC., P.O. Box 578, LaPorte, IN 46350. Representative: James C. Hardman, 33 N. LaSalle St., Chicago, IL 60602, (312) 236–5944. Over regular routes, transporting *general commodities* (except classes A and B explosives), (1) between Gary, IN, and Angola, IN, over U.S. Hwy 20, (2) between Gary and Butler, IN over, U.S. Hwy 6, (3) between Dyer and Fort Wayne, IN, over U.S. Hwy 30, (4) between Dyer, IN and junction U.S. Hwys 41 and 136, from Dyer over U.S. Hwy 41 to its junction with U.S. Hwy 136, and return over the same routes; (5) between Gary and Crawfordsville, IN, from Gary over I-Hwy 65 to junction U.S. Hwy 231, then over U.S. Hwy 231 to Crawfordsville, and return over the same routes; (6) between Chesterton and Frankfort, IN, from Chesterton over U.S. Hwy 20 to junction U.S. Hwy 421, then over U.S. Hwy 421 to Frankfort, and return over the same routes; (7) between Michigan City and Gas City, IN, over U.S. Hwy 35, (8) between South Bend and Kokomo, IN, over U.S. Hwy 31, (9) between Bristol and Marion, IN, over IN Hwy 15, (10) between Howe and Huntington, IN over IN Hwy 9, (11) between Veedersburg and Crawfordsville, IN, over U.S. Hwy 136, (12) between Crawfordsville and Frankfort, IN, from Crawfordsville over IN Hwy 32 to junction IN Hwy 39, then over IN Hwy 39 to Frankfort, and return over the same routes; (13) between Frankfort and Kokomo, IN, from Frankfort over IN Hwy 28 to junction U.S. Hwy 31, then over U.S. Hwy 31 to Kokomo, and return over the same routes; (14) between junction U.S. Hwy 35 and IN Hwy 9 and Fort Wayne, IN, from junction U.S. Hwy 35 and IN Hwy 9, over IN Hwy 9 to junction U.S. Hwy 24, then over U.S. Hwy 24 to Fort Wayne, and return over the same routes; (15) between Fort Wayne, IN and junction U.S. Hwy 20 and I-Hwy 69, from Fort Wayne over I-Hwy 69 to junction U.S. Hwy 20, and return over the same routes; serving in connection with routes (1) to (15) above, all intermediate points and all points in Allen, Benton, Carroll, Cass, Clinton, Dekalb, Elkhart, Fountain, Fulton, Grant, Howard, Huntington, Jasper, Kosciusko, La Grange, Lake, La Porte, Marshall, Miami, Montgomery, Newton, Noble, Porter, Pulaski, St. Joseph, Starke, Steuben, Tippecanoe, Wabash, Warren, White and Whitley Counties, IN as off-route points in connection with carriers otherwise authorized regular-route operations.

Note.—Applicant intends to tack the above requested authority with its existing regular-route operations.

MC 107012 (Sub-665F), filed February 9, 1981. Applicant: NORTH AMERICAN VAN LINES, INC., 5001 U.S. Highway 30 West, P.O. Box 988, Fort Wayne, IN 46801. Representative: David D. Bishop (same as applicant), (219) 429–2110. Transporting *rubber and plastic products*, between points in Madison County, AL, on the one hand, and, on the other, points in FL, GA, KY, MS, NC, SC, and TN.

MC 115092 (Sub-128), filed February 10, 1981. Applicant: TOMAHAWK TRUCKING, INC., P.O. Box 9, Vernal, UT 84078. Representative: Walter Kobos, 1016 Kehoe Dr., St. Charles, IL 60174, (312) 584–6018. Transporting (1) *lumber and wood products, and forest products*, and (2) *building materials*, (except those in (a) above) between those points in the U.S. in and west of MT, WY, CO, and NM, on the one hand, and, on the other, those points in the U.S. in and east of MN, IA, MO, AR, and LA.

MC 115092 (Sub-129F), filed February 10, 1981. Applicant: TOMAHAWK TRUCKING, INC., P.O. Box O, Vernal, UT 84078. Representative: Walter Kobos, 1016 Kehoe Dr., St. Charles, IL 60174, (312) 584–6018. Transporting (1) *lumber and wood products and forest products*, and (2) *building materials* (except those in (1) above), between points in AZ, CA, CO, ID, KS, MT, ND, NE, NV, NM, OK, OR, SD, TX, UT, WA, and WY.

MC 125433 (Sub-458F), filed February 10, 1981. Applicant: F–B TRUCK LINE COMPANY, 1945 So. Redwood Rd., Salt Lake City, UT 84104. Representative: Roger E. Crum (same address as applicant), (801) 973–4242. Transporting *electrical machinery* between points in De Soto County, FL, on the one hand, and, on the other, points in the U.S.

MC 135753 (Sub-3), filed February 9, 1981. Applicant: WILLIAMS TRANSPORT CO., INC., 938 E. Fourth St., Richmond, VA 23206. Representative: John R. Sims, Jr., 915 Pennsylvania Bldg., 425—13th St., NW., Washington, D.C. 20004, (202) 737–1030. BILLING CODE 7035-01-M

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the Federal Register of July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before [45 days from date of publication], (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new

entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplicaton shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP2-041

Decided: March 10, 1981.

By the Commission, Review Board No. 1, Members Taylor, Chandler, and Parker.

MC 5623 (Sub-57F), filed February 6, 1981. Applicant: ARROW TRUCKING CO., P.O. Box 7280, Tulsa, OK 74105. Representative: J. G. Dail, Jr., P.O. Box LL (703) 893-3050. Transporting (1) *Mercer commodities* and (2) *earth drilling equipment*, between points in AZ, CA, NV, OR, and WA, on the one hand, and, on the other, points in CO, KS, LA, MT, NM, ND, OK, TX, and WY.

MC 10343 (Sub-41), filed February 6, 1981. Applicant: CHURCHILL TRUCK LINES, INC., U.S. Hwy 36, West, P.O. Box 250, Chillicothe, MO 64601. Representative: Vernon M. Masters (same address as applicant) 1-(816) 646-1500. Transporting *general commodities* (except classes A and B explosives), between points in St. Charles County, MO, on the one hand, and, on the other, points in the U.S.

MC 14702 (Sub-90), filed February 2, 1981. Applicant: OHIO FAST FREIGHT, INC., P.O. Box 808, Warren, OH 44482. Representative: Paul F. Beery, 275 East State St., Columbus, OH (614) 228-8575. Transporting *such commodities* as are dealt in by manufacturers and distributors of food and drugs, between points in Allegheny, Cumberland, Bucks, Fayette, and Washington Counties, PA, Passaic County, NJ, Wayne County, MI, Aiken County, SC, Chatham County, GA, Davidson County, TN, Cook County, IL, Jackson County, MO, Dallas County, TX, Denver County, CO, Los Angeles and San Francisco Counties, CA, Multnomah County, OR, Milwaukee County, WI, and Hennipin County, MN, on the one hand, and, on the other, points in the U.S.

MC 61592 (Sub-303), filed February 6, 1981. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 667, Jeffersonville, IN 47130. Representative: Elisabeth A. DeVine, P.O. Box 737, Moline, IL 61265, (309) 764-8347. Transporting *building materials*, between the facilities used by (a) Rockwool Industries, Inc., and (b) R & G Sloane Manufacturing Company, Inc., at Cleveland, OH, and points in Pueblo County, CO, Bell County, TX, Clinton County, MO, Madison County, IN, and Los Angeles, Kern, and Orange Counties, CA, on the one hand, and, on the other, points in the U.S.

MC 106223 (Sub-42), filed February 5, 1981. Applicant: CENTURY-MERCURY MOTOR FREIGHT, INC., 2160 Mustang Dr., P.O. Box 43050, St. Paul, MN 55164. Representative: Stephen F. Grinnell, 1600 TCF Tower, Minneapolis, MN 55402 (612) 333-1341. Over regular routes, transporting *general commodities* (except classes A and B explosives), between Minneapolis, MN and Houston, TX: from Minneapolis over Interstate Highway 35 to junction Interstate Hwy 35E, then over Interstate Hwy 35E to junction Interstate Hwy 45, then over Interstate Hwy 45 to Houston, and return over the same route, serving all intermediate points, and serving Forest City, IA, Topeka, KS, and Tulsa, OK, as off-route points.

MC 121082 (Sub-21), filed February 5, 1981. Applicant: ALLIED DELIVERY SYSTEM, INC., 2201 Fenkell, Detroit, MI 48238. Representative: Robert E. McFarland, 2855 Coolidge, Suite 201A, Troy, MI 48084, (313) 649-6650. Transporting *such commodities* as are dealt in by manufacturers and distributors of (1) drugs, (2) hospital supplies, (3) intravenous solutions, (4) toilet preparations, and (5) personal care products, between Detroit, MI, on the one hand, and, on the other, points in the lower peninsula of MI.

MC 126822 (Sub-113), filed February 6, 1981. Applicant: WESTPORT TRUCKING COMPANY, 15580 South 169 Hwy, Olathe, KS 66061. Representative: John T. Pruitt (Same address as applicant) 913-782-6060. Transporting *clay, concrete, glass or stone products*, between points in the U.S.

MC 127902 (Sub-18), filed February 5, 1981. Applicant: DIETZ MOTOR LINES, INC., P.O. Box 1427, Hickory, NC 28601. Representative: John R. Sims, Jr., 915 Pennsylvania Bldg., 425 13th St, NW Washington, DC 20004, 202-737-1030. Transporting *furniture and fixtures*, between the facilities of S & H Furniture, a Division of Sperry & Hutchinson Company, at points in VA, NC, and TN, on the one hand, and, on the other, points in the U.S.

MC 128772 (Sub-19), filed February 5, 1981. Applicant: STAR BULK TRANSPORT, INC., 821 North Front St., New Ulm, MN 56073. Representative: Val M. Higgins, 1600 TCF Tower, Minneapolis, MN. transporting *general commodities* (except Classes A and B explosives), between points in the U.S., under containing contract(s) with Trans-Continental Tire Sales, Inc., of Fridley, MN.

MC 134062 (Sub-19), filed February 6, 1981. Applicant: K. H. TRANSPORT, INC., 4796 Limphicum Rd., Dayton, MD 21036. Representative: David Earl Tinker, 1000 Connecticut Ave. N.W., Suite 1112, Washington, DC 20036, 202-887-5868. Transporting *food and related products*, between points in the U.S.

MC 142873 (Sub-9), filed February 5, 1981. Applicant: D & W TRUCK LINES, INC., 200 First St., Parsons, WV 26287. Representative: E. Stephen Heisley, 805 McLachlen Bank, 666 Eleventh St., NW., Washington, DC 20001, 202-628-6243. Transporting *lumber or wood products*, between points in the U.S., under continuing contract(s) with WIMI Lumber Corp., of Elkins, WV.

MC 143553 (Sub-6), filed February 6, 1981. Applicant: CONTINENTAL TRANSPORT SYSTEMS, INC., 35 Main St., P.O. Box 236, Versailles, CT 06383. Representative: Russell S. Callahan, P.O. Box 1806, Brockton, MA 02403 (617) 697-7748. Transporting *chemicals and related products*, and *rubber and plastic products*, between points in the U.S., under continuing contract(s) with Monsanto Plastic and Resins Co., of Deep River, CT.

MC 151442 filed February 6, 1981. Applicant: LYNNCO LINES, INC., 2302 E. Del Amo Boulevard, Compton, CA 90220. Representative: Jim Van Hosen (same as applicant) (213) 632-4966. Transporting (1) *machinery and household goods*, between points in Los Angeles and Orange Counties, CA, on the one hand, and, on the other, points in the U.S., and (2) *transportation equipment*, between points in the U.S.

MC 152253 (Sub-2), filed February 5, 1981. Applicant: CHEROKEE HAULING & RIGGING, INC., Highway 85 East, Madisonville, KY 42431. Representative: William E. Henderson, Jr., P.O. Box 731, Madisonville, Ky 42431 (502) 821-7060. Transporting *general commodities* (except classes A and B explosives), between points in Maricopa County AZ, Larimer, El Paso, Moffat, and Denver Counties, CO, Fairfield, New London, and New Haven Counties, CT, Ada County, ID, Boone, Linn, Polk,

Muscatine, and Mahaska Counties, IA, Androscoggin and Cumberland Counties, ME, Suffolk, Hampden, Norfolk, and Middlesex Counties, MA, Hennepin and St. Louis Counties, MN, Yellowstone and Missoula Counties, MT, Jefferson, Hall, Lancaster, Madison, Douglas, and Scotts Bluff Counties, NE, Clark, Pershing, and Douglas Counties, NV, Cheshire County, NH, Socorro and Eddy Counties, NM, Burleigh, Cass, Grand Forks, Ward, and Williams Counties, ND, Jackson and Multnomah Counties, OR, Providence and Kent Counties, RI, Davison, Hughes, Pennington, Minnehaha, and Codington Counties, SD, Weber, Salt Lake, and Utah Counties, UT, Rutland County, VT, King, Pierce, and Clark Counties, WA, Manitowoc, Monroe, and Waukesha Counties, WI, and points in AR, AL, CA, DE, FL, GA, IL, IN, KS, KY, LA, MD, MI, MS, MO, NJ, NY, NC, OH, OK, PA, SC, TN, TX, VA, and WV, on the one hand, and, on the other, points in the U.S.

MC 153012 (Sub-1), filed February 5, 1981. Applicant: CAMPBELL TRUCKING AND HEAVY HAULERS, INC., 5905 East Ute, Tulsa, OK 74115. Representative: C. L. Phillips, Room 248, Classen Terrace Bldg., 1411 N. Classen, Oklahoma City, OK 73106. Transporting *Mercer commodities*, between points in Tulsa County, OK, on the one hand, and, on the other, points in AL, AR, CO, FL, IL, IN, KS, KY, LA, MI, MS, MT, NM, OH, PA, TX, UT, and WY.

Volume No. OP4-85

Decided: March 10, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 3677 (Sub-51), filed January 15, 1981, previously noticed in the Federal Register issue of February 4, 1981, and republished this issue. Applicant: WMA INTERSTATE MOTOR LINES, INC., 900 Michigan Ave., N.E., Washington, DC 20017. Representative: Maxwell A. Howell, 1100 Investment Bldg., 1511 K St., N.W., Washington, DC 20005. Over regular routes, transporting *passengers and their baggage*, between Washington, DC, and Atlantic City, NJ: from Washington over Interstate Hwy 95 to its junction with Interstate Hwy 295, then over Interstate Hwy 295 to its junction with the New Jersey Turnpike, then over the New Jersey Turnpike to its junction with NJ Hwy 42 (North South Freeway), then over NJ Hwy 42 to its junction with the Atlantic City Expressway, then over the Atlantic City Expressway to Atlantic City, and return over the same route, serving all points in the commercial zone of Washington, DC, Baltimore, MD, State Road, DE, and Atlantic City, NJ, as either intermediate or off-route points, restricted to the transportation of traffic moving to or from Atlantic City, NJ.

Note.—The purpose of this republication is to correctly state the requested authority.

MC 117577 (Sub-5), filed January 23, 1981, previously noticed in the FR of February 24, 1981. Applicant: A.C. WIDENHOUSE, INC., 400 Old Charlotte, Rd., Concord, NC 28025. Representative: Robert E. Born, Suite 508, 1447 Peachtree St., NE, Atlanta, GA 30309. Transporting *petroleum, natural gas and their products* between points in Brunswick and New Hanover Counties, NC, on the one hand, and, on the other, points in Granville County, NC.

Note.—The purpose of this republication is to reflect the destination area as Granville County, NC, instead of as Granville, NC.

MC 143417 (Sub-10F), filed November 12, 1980, previously noticed in the FR issue of December 2, 1980, and republished this issue. Applicant: FLASH INTERSTATE DELIVERY SYSTEM, INC., 4711 West 16th St., Cicero, IL 60650. Representative: Barry Roberts, 806 17th St., N.W., Washington, DC 20006. Transporting *general commodities* (except household goods as defined by the Commission, classes A and B explosives, commodities in bulk, and those requiring special equipment), from Chicago, IL, to points in the lower peninsula of MI and points in CT, IN, MA, MD, NJ, NY, OH, PA, RI, WI, and DC, restricted to traffic having a prior movement by rail.

Note.—The purpose of this republication is to correctly state the territorial description.

Volume No. OP1-099

Decided: March 10, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Taylor.

MC 39921 (Sub-19), filed January 15, 1981, previously noticed in the Federal Register issue of February 5, 1981. Applicant: KMA LEASING, INC. DBA WM. H.P., INC., 1342 North Howard Street, Philadelphia, PA 19122. Representative: Michael R. Werner, P.O. Box 1409, 167 Fairfield Road, Fairfield, NJ 07006. Transporting *food and related products*, between points in Cleveland, OH, and Philadelphia, PA, on the one hand, and, on the other, points in AL, IL, IN, KY, LA, MS, TN and WI.

Note.—The purpose of this republication is to reflect the correct points of origin.

MC 148731 (Sub-4), filed February 3 1981. Applicant: MINKEVITCH TRUCKING & HAULING, INC., P.O. Box 21525, Salt Lake City, UT 84121. Representative: Fred J. Minkevitch, Jr., 6290 S. Holladay Blvd., Salt Lake City, UT 84121 (801) 972-6373. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with Processed Minerals Inc., of Hutchinson, KS.

BILLING CODE 7035-01-M

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the Federal Register of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full

effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP1-065

Decided March 5, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Taylor. (Member Taylor dissenting in part.)

MC 200 (Sub-585), filed February 9, 1981. Applicant: RISS INTERNATIONAL CORPORATION, P.O. Box 100, 215 W. Pershing Road, Kansas City, MO 64141. Representative: H. Lynn Davis (same address as applicant). Transporting *metal products and rubber and plastic products*, between points in Wayne and Jackson Counties, MI, Pike County, OH, and Douglas County, KS, on the one hand, and, on the other, points in the U.S.

MC 35320 (Sub-639), filed February 23, 1981. Applicant: T.I.M.E.-DC, INC., 2596 74th Street, P.O. Box 2550, Lubbock, TX 79408. Representative: Kenneth G. Thomas (same address as applicant), (806) 745-7262. Over regular routes, transporting *general commodities* (except classes A and B explosives), serving Richmond, VA, and points in Chesterfield, Henrico and Hanover counties, VA, as off-route points in connection with carrier's otherwise authorized regular-route operations.

MC 35320 (Sub-640), filed February 23, 1981. Applicant: T.I.M.E.-DC, INC., 2596 74th Street, P.O. Box 2550, Lubbock, TX 79408. Representative: Kenneth G. Thomas (same address as applicant). Transporting: general commodities (except classes A and B explosives), serving points in Mecklenburh County, as off-route points in connection with carrier's otherwise authorized regular-route operations.

MC 52580 (Sub-9), filed February 23, 1981. Applicant: COLUMBIAN STORAGE & TRANSFER CO., 900 Hall St., SW., Grand Rapids, MI 49502. Representative: Kenneth T. Johnson, Bankers Trust Bldg., Jamestown, NY 14701. Transporting *general commodities* (except classes A and B explosives), between points in MI, and points in Williams, Fulton, Lucas, Wood and Ottawa Counties, OH, Steuben, DeKalb, Allen, Lagrange, Noble, Elkhart, St. Joseph, LaPorte, Porter, Lake, Kosciusko, Marshall, Whitley, Wells, Adams and Huntingdon Counties, IN, and Lake, McHenry, DuPage, Will, Kane and Cook Counties, IL.

MC 59640 (Sub-53), filed February 10, 1981. Applicant: DELTA LINES, INC., P.O. Box 2081, Oakland, CA 94621. Representative: Kirk Wm. Horton, 333 Hegenberger Road, Suite 400, Oakland, CA 94621. Transporting *general commodities* (except classes A and B explosives), between points in WA, OR, CA, ID, NV, AZ, UT, WY, MT, and CO.

MC 59150 (Sub-186), filed February 20, 1981. Applicant: PLOOF TRUCK LINES, INC., 1414 Lindrose, St., Jacksonville, FL 32206. Representative: Martin Sack, Jr., 203 Marine National Bank Bldg., 311 W. Duval St., Jacksonville, FL 32202. Transporting *general commodities* (except classes A and B explosives), between points in AL, AR, FL, GA, KY, LA, MS, NC, SC, TN, VA, and WV, on the one hand, and, on the other, points in the U.S.

MC 59720 (Sub-13), filed February 10, 1981. Applicant: KENMORE TRANSPORTATION COMPANY, 22 Eskow Road, Worcester, MA 01604. Representative: James C. Hardman, 33 N. LaSalle St., Chicago, IL 60602. Transporting *food and related products*, between points in NY and PA and points in Hartford County, CT, and Worcester County, MA.

MC 65491 (Sub-16), filed February 9, 1981. Applicant: GEORGE W. BROWN, INC., 1475 East 22nd St., Bronx, NY 10469. Representative: William Biederman, 371 Seventh Ave., New York, NY 10001. Transporting *metal products*, between Philadelphia, PA, New York, NY, Baltimore, MD, and points in Fairfield and New Haven Counties, CT, on the one hand, and, on the other, points in Hamilton County, OH.

MC 74321 (Sub-161), filed February 9, 1981. Applicant: B. F. WALKER, INC., 1555 Tremont Place, P.O. Box 17-B, Denver CO 80217. Representative: Richard P. Kissinger, Steele Park, Suite 330, 50 South Steele St., Denver CO 80209, (303) 320-6100. Transporting (1) *those commodities which because of their size or weight require the use of special equipment or handling*, and *commodities* which do not require special handling or the use of special equipment when moving in the same shipment on the same bill of lading as commodities which because of their size and weight require the use of special equipment and handling, and (2) *transportation equipment, and machinery*, between points in AR, IL, IN, IA, KY, MD, MI, MO, NC, OH, PA, SC, TN, VA, WV, and WI.

BILLING CODE 7035-01-M

Motor Carrier Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

Notice No. F-102

The following applications were filed in region I. Send protests to: Interstate Commerce Commission, Regional Authority Center, 150 Causeway Street, room 501, Boston, MA 02114.

BILLING CODE 7035-01-M

Water Carrier Application

Finance Docket No. 29554, filed January 5, 1981. Knappton Corporation (Knappton) (9030 N.W., St. Helens Road, Portland, OR 97203)—CONTROL AND MERGER—SMITH TUG & BARGE CO. (Smith) (P.O. Box S, Ranier, WA 97048) and LONGVIEW TUGBOAT COMPANY (Longview) (P.O. Box S, Ranier, WA 97048). Applicants' representative: Donald Macleay, 1625 K Street, N.W., Washington, D.C. 20006 (202) 393-3390. By this application Knappton seeks authority under 49 U.S.C. 11344 to purchase all of the outstanding stock of Smith, a Washington corporation and that of Longview, also a Washington corporation, which is Smith's wholly owned subsidiary and thereafter to merge Smith and Longview into Knappton for ownership, management, and operation. The total purchase price is $125,000. By the same application, Peter J. Brix, of Portland, OR, who controls Knappton through ownership of Knappton's voting common stock, seeks authority under the same section to acquire control of the operating rights and properties through the transaction.

Smith and Longview hold authority under Docket No. W-413 which authorizes joint operations, as a common carrier, in interstate or foreign commerce, by non-self-propelled vessels with the use of separate towing vessels in the transportation of commodities generally, and by towing vessels in the performance of general towage, between ports and points along the Pacific Coast (not including local service between ports and points on Puget Sound) and along the Columbia River and its tributaries below and including Bonneville, OR, with operations on the Willamette River to extend only to Oregon City, OR).

Knappton holds authority in Docket No. W-420, authorizing operations, as a common carrier, in interstate or foreign commerce, by towing vessels in the performance of general towage of commodities generally, and by non-self-propelled vessels with the use of separate towing vessels in the transportation of general commodities between ports and points in Oregon, Washington, and Idaho along the Columbia, Snake, and Clearwater River and Tributaries from the mouth of the Columbia River to Priest Island, WA and to 3 miles from the mouth of the Grande Ronde River on the Snake River in Idaho and to Hog Island on the Clearwater River in Idaho approximately 8½ miles from the confluence of the Snake River and Clearwater River, with towing operations on the Willamette River limited to points at and below Oregon City, OR.

Interested persons may participate formally in this proceeding by submitting written comments regarding the application. Such submissions shall indicate the proceeding designation Finance Docket No. 29674 and the original and two copies thereof shall be filed with the Secretary, Interstate Commerce Commission, Washington, DC 20423, not later than 30 days after notice of the filing of the application in the **Federal Register**. Such written comments shall include the following: The person's position, e.g., party protestant or party in support, regarding the proposal transaction; specific reasons why approval would or would not be in the public interest; and a request for oral hearing if one is desired. Additionally, interested persons who do not intend to formally participate in the proceeding but who desire to comment thereon, may file such statements and information as they desire, subject to the filing and service requirements specified herein. Persons submitting written comments to the Commission shall, at the same time serve copies of such written comments on the applicants.

Agatha L. Mergenovich,

Secretary.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

[Delegation of Authority No. 135; Amdt. No. 1]

Controller; Delegation of Authority

Pursuant to the authority delegated to me by Delegation of Authority No. 1 of October 1, 1979, from the Director of the United States International Development Cooperation Agency and Executive Order No. 12163 of September 29, 1979, I hereby amend Delegation of Authority No. 135, dated April 27, 1980 (45 FR 31239) as follows:

1. Paragraphs 8, 9, 10, 11, and 12 are redesignated 9, 10, 11, 12, and 13 respectively.

2. A new paragraph 8 is added as follows:

"8. Authority to develop Agency's cash management policy, including all regulations and procedural requirements as required in the Department of the Treasury Circular No. 1084, and a method of monitoring Agency cash management practices to ensure compliance with the requirements."

This amendment is effective immediately.

Dated: February 23, 1981.

Joseph C. Wheeler,

Acting Administrator.

BILLING CODE 4710-02-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Importation of Controlled Substances; Application

Pursuant to Section 1008 of the Controlled Substances Import and Export Act (21 U.S.C. 958(h)); the Attorney General shall, prior to issuing a registration under this section to a bulk manufacturer of a controlled substance in schedule I or II, and prior to issuing a regulation under Section 1002(a) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore in accordance with § 1311.42 of Title 21, Code of Federal Regulations (CFR), notice is hereby given that on January 9, 1981, Stephan Chemical Company, Natural Products Dept., 100 W. Hunter Avenue, Maywood, N.J. 07607, made application to the Drug Enforcement Administration to be registered as an importer of coca leaf, a basic class of controlled substance in schedule II.

As to the basic class of controlled substance listed above for which application for registration has been made, any other applicant therefor, and any existing bulk manufacturer registered therefor, may file written comments on or objections to the issuance of such registration and may, at the same time, file a written request for a hearing on such application in accordance with 21 CFR 1301.54 in such form as prescribed by 21 CFR 1316.47. Such comments, objections and requests

for a hearing may be filed no later than April 20, 1981.

Comments and objections may be addressed to the DEA Federal Register Representative, Office of Chief Counsel, Drug Enforcement Administration, Room 1203, 1405 Eye Street, N.W., Washington, D.C. 20537.

Dated: March 10, 1981.

Peter B. Bensinger,

Administrator, Drug Enforcement Administration.

[FR Doc. 81-8013 Filed 3-13-81; 8:45 am]

BILLING CODE 4410-09-M

Manufacture of Controlled Substances; Application

Pursuant to § 1301.43(a) of Title 21 of the Code of Federal Regulations (CFR), this is notice that on October 22, 1980, Hoffman La Roche Inc., Kingland Rd. and Bloomfield Avenue, Nutley, New Jersey 07110, made application to the Drug Enforcement Administration (DEA) for registration as a bulk manufacturer of the basic class of controlled substances listed below:

Drug	Schedule
Alphaprodine	II
Levorphanol	II

Any other such applicant, and any person who is presently registered with DEA to manufacture such substances, may file comments or objections to the issuance of the above application and may also file a written request for a hearing thereon in accordance with 21 CFR 1301.54 and in the form prescribed by 21 CFR 1316.47.

Any such comments, objections or requests for a hearing may be addressed to the Administrator, Drug Enforcement Administration, United States Department of Justice, 1405 I Street, N.W., Washington, D.C. 20537, Attention: DEA Federal Register Representative (Room 1203), and must be filed no later than April 20, 1981.

Dated: March 10, 1981.

Peter B. Bensinger,

Administrator, Drug Enforcement Administration.

BILLING CODE 4410-09-M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Humanities Panel; Meeting

AGENCY: National Endowment for the Humanities.

ACTION: Notice of meeting.

SUMMARY: Pursuant to the provision of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that the following meeting of the Humanities Panel will be held at 806 15th Street, N.W., Washington, D.C. 20506.

DATE: April 9, 1981.

TIME: 9:00 a.m. to 5:30 p.m.

ROOM: 1023.

PROGRAM: This meeting will review applications submitted for the Planning and Assessment Studies Program, Office of Planning and Policy Assessment, for projects beginning after June 1, 1981.

The proposed meeting is for the purpose of Panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. Because the proposed meeting will consider information that is likely to disclose:

(1) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(2) Information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and

(3) Information the disclosure of which would significantly frustrate implementation of proposed agency action;

pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated January 15, 1978, I have determined that this meeting will be closed to the public pursuant to subsections (c)(4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Further information about this meeting can be obtained from Mr. Stephen J. McCleary, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, D.C. 20506, or call (202) 724-0367.

Stephen J. McCleary,

Advisory Committee Management Officer.

BILLING CODE 7536-01-M

Media Arts Panel; Production: Individuals Section; Meeting

Pursuant to Section 10(a)(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Media Arts Panel (Production: Individuals Section) to the National Council on the Arts will be held on March 30-April 1, 1981, from 9:00 a.m.-5:30 p.m. in the 12th floor screening room of the Columbia Plaza Office Complex, 2401 E St., N.W., Washington, D.C. 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the national Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determinations of the Chairman published in the Federal Register of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and 9(b) of section 552b of Title 5, United States Code.

Further information with references to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-6070.

John H. Clark,

Director, Office of Council and Panel Operations, National Endowment for the Arts.

February 3, 1981.

BILLING CODE 7537-01-M

OFFICE OF MANAGEMENT AND BUDGET

Agency Forms Under Review

March 11, 1981.

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Federal Reports Act (44 U.S.C., Chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the Act also considers comments on the forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms received for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions,

extensions (burden change), extensions (no change), or reinstatements. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available);

The office of the agency issuing this form;

The title of the form;

The agency form number, if applicable;

How often the form must be filled out;

Who will be required or asked to report;

The Standard Industrial Classification (SIC) codes, referring to specific respondent groups that are affected;

Whether small businesses or organizations are affected;

A description of the Federal budget functional category that covers the information collection;

An estimate of the number of responses;

An estimate of the total number of hours needed to fill out the form;

An estimate of the cost to the Federal Government;

The number of forms in the request for approval;

The name and telephone number of the person or office responsible for OMB review; and an abstract describing the need for and uses of the information collection.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the notice predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim J. Tozzi, Assistant Director for Regulatory and Information Policy, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

DEPARTMENT OF AGRICULTURE

Agency Clearance Officer, Richard J. Schrimper, 202-447-6201

Revisions

• Economics and Statistics Service
Mushroom grower survey
Annually
Businesses or other institutions
Mushroom growers and processors
Sic: 018 203
Small businesses or organizations
Agricultural research and services, 592 responses; 148 hours; $7,000 Federal cost; 2 forms
Office of Federal Statistical Policy and Standard, 202-673-7974

Provides data to estimated mushroom production, disposition and value in all states having commercial production. Estimates are used by mushroom producers and processors in marketing decisions.

Extensions (Burden Change)

• Economics and Statistics Service
Peanut stocks and processing report
Monthly
Businesses or other institutions
Peanut shellers, crushers, processors and warehouseman
Sic: 207 204 515 422
Small businesses or organizations
Agricultural research and services, 5,484 responses; 2,742 hours; $37,000 Federal cost; 3 forms
Office of Federal Statistical Policy and Standard, 202-673-7974

Provides detailed and comprehensive summation of fats relating to peanuts in off-farm positions; report used for projecting domestic use of peanuts by type. CCC uses data in management of its inventories. Price supports are tied directly to peanut stocks. Milling data used as check on production estimate.

• Animal and Plant Health Inspection Service
National poultry improvement plan vs 9-2, 3, 4, 5, 6 and 7 and 10-3
On occasion annually
State or local governments/businesses or other institutions
State agencies, part. hatch., dealers, and indep. flockowners
Sic: 025 514 201 804
Agricultural research and services, 30,012 responses; 2,530 hours; $3,849 Federal cost; 7 forms
Charles A. Ellett, 202-395-7340

The NPIP is a voluntary State-Federal program for improvement of poultry breeding flocks, and identifies breeding flocks which have met certain standards for breeding and freedom from diseases. Data obtained from State agencies is used to evaluate the effectiveness of the program and provided information for use in national publications.

Extensions (No Change)

• Agricultural Stabilization and Conservation Service
Honey storage agreement
CCC-56, CCC-56-1, CCC-56-2
On occasion
Businesses or other institutions
Honey warehousemen
Sic: 422
Farm income stabilization, 10 responses; 10 hours; $3,355 Federal cost; 3 forms
Charles A. Ellett, 202-395-7340

This contract is used for handling and storage of extracted honey under the current price support program. (Pub. L. 80-806)

• Agricultural Stabilization and Conservation Service
Application for approval of warehouse and supplement to application (grain, rice, seed, and edible beans)
CCC-24, CCC-24-1
Monthly
Businesses or other institutions
Grain warehousemen
Sic: 422 515
Farm income stabilization, 200 responses; 100 hours; $48 Federal cost; 2 forms
Charles A. Ellett, 202-395-7340

Application used by ASCS commodity office with approval of warehouse for the storing, handling of grain, rice, seed and edible beans owned by or held by CCC as security for price support loans (Pub. L. 806)

DEPARTMENT OF COMMERCE

Agency Clearance Officer, Edward Michals, 202-377-3627

Revisions

• Bureau of the Census
Construction project report
C-700
Monthly
Businesses or other institutions

Owners of privately owned nonres. construction projects.
Sic: Multiple
Small businesses or organizations
Other advancement and regulation of commerce, 61,600 responses; 30,800 hours; $394,000 Federal cost; 1 form
Office of Federal statistical policy and standard, 202-673-7974

These statistics are used in economic research and analysis to assess the effect of construction activity on the economy and for direct input to the national income and products accounts. They are also used in marketing research and private business.

DEPARTMENT OF DEFENSE

Agency Clearance Officer, John V. Wenderoth, 703-697-1195

New

• Departmental and Others
The 1981 survey of applicants for military service
Nonrecurring
Individuals or households
Youth ages 16-21
Department of Defense—Military, 3,015 responses; 1,507 hours; $240,000 Federal cost; 1 form
Kenneth B. Allen, 202-395-3765

The fiscal year DOD authorization bill mandated the test of an educational assistance program. The collection effort described in the attached supporting statement and documents will help in the study of the (1) implementation of the test programs, (2) awareness and interest in educational benefits, (3) the role played by educational benefits vs. other incentives in the enlistment decision process, and (4) the potential appeal of benefits not included in the test.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency Clearance Officer, Joseph Strnad, 202-245-7488

New

• Human Development Services
Program instruction: Methods for determining the costs of title XX services to be utilized in establishing eligibility under section 1619
On occasion
State or local governments
State title XX agencies in the 50 States and D.C.
Sic: 832
Social services, 51 responses; 663 hours; $1,000 Federal cost; 1 form
Gwendolyn Pia, 202-395-6880

Pub. L. 96-265 and section 1619 to title XVI of the Social Security Act. This section provides that eligibility for titles XIX (medicaid) and XX (social services) will be continued for certain disabled or blind individuals receiving supplemental security income (SSI) benefits whose earnings rise to the point where they no longer qualify for SSI or special cash benefits.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Agency Clearance Officer, Robert G. Masarsky, 202-755-5184

New

• Policy Development and Research
Evaluation of interagency anti-crime program in public housing: Resident surveys
Nonrecurring
Individuals or households
Re. of dem. and com. pub. hous. sites and surr. neighborhoods.
Community development, 15,967 responses; 7,245 hours; $1,831,762 Federal cost; 1 form
Richard Sheppard, 202-395-6880

Public Housing Security Demonstration Act of 1978 mandates this evaluation. Findings from the resident surveys will be incorporated in reports to Congress, HUD officials, and public housing staff and residents to serve as basis for policy and program funding decisions.

DEPARTMENT OF TRANSPORTATION

Agency Clearance Officer, John Winsor, 202-426-1887

New

• Research and Special Programs Administration
Application for designation as an approval agency
On occasion
Businesses or other institutions
Org. or persons having know. of a specified packaging spec.
Small businesses or organizations
Other transportation, 3 responses; 9 hours; $250 Federal cost; 1 form
Terry Grindstaff, 202-395-7340

These records are needed to obtain information from persons seeking designation as an approval agency relative to their qualifications to approve a packaging. The MTB will use this information to evaluate the applicants' qualifications to perform the applicable approval function. This information collection is prescribed by section 107.402.

C. Louis Kincannon,
Assistant Administrator For Reports Management.

POSTAL SERVICE

International Postal Rates and Fees

AGENCY: Postal Service.

ACTION: New international rates and fees.

SUMMARY: Pursuant to its authority under 39 U.S.C. 407, the Postal Service announces new rates and fees for certain categories of international mail as indicated below.

EFFECTIVE DATE: 12:01 a.m., March 22, 1981.

FOR FURTHER INFORMATION CONTACT: Don Allen (202) 245-4418.

SUPPLEMENTARY INFORMATION: On December 3, 1980, the Postal Service published new international postal rates and fees that became effective on January 1, 1980 (45 FR 80215). Those international rates and fees that are related to our domestic rates and fees are now being adjusted to reflect impending changes in domestic schedules. Accordingly, the Postal Service hereby adopts the following rate and fee changes, which will be published in the Postal Service's International Mail Manual.

I. International Rates and Fees

A. New Rates and Fees

1. Letters and Letter Packages (Surface) Rates for Canada and Mexico are being increased from 15 cents to 16 cents for the first ounce and from 13 cents to 17 cents for each additional ounce up to 12 ounces; over 12 ounces the applicable eighth zone rate for domestic Priority Mail will apply.

2. Post Cards. The post card rate for Canada and Mexico is being increased from 10 cents to 12 cents.

3. Regular Printed Matter and Small Packets (Surface). For weight steps zero through 16 ounces, the rates are being adjusted to the levels indicated below due to changes in the domestic rates. The rates shown below for items over 16 ounces are the existing rates which have not been changed.

Surface Rates

Weight steps	Regular printed matter: Canada and Mexico	Regular printed matter: All other countries	Small packets: Canada	Small packets: Mexico	Small packets: All other countries
Over/through (ounces):					
0–1	$0.18	$0.23	$0.18	$0.18	$0.23
1–2	.35	.35	.35	.35	.35
2–3	.52	.52	.52	.52	.52
3–4	.69	.69	.69	.69	.69
4–6	.70	.72	.70	.70	.72
6–8	.92	.92	.92	.92	.92
8–10	1.14	1.14	1.14	1.14	1.14
10–12	1.36	1.36	1.36	1.36	1.36
12–14	1.58	1.58	1.58	1.58	1.58
14–16	1.81	1.81	1.81	1.81	1.81
16–20	1.94	1.94		1.94	1.94
20–22	2.07	2.07		2.07	2.07
22–24	2.21	2.21		2.21	2.21
24–26	2.35	2.35		2.35	2.35
26–28	2.49	2.49		2.49	2.49
28–30	2.62	2.62		2.62	2.62
30–32	2.76	2.76		2.76	2.76
Over/through (pounds):					
2–3	3.31	3.31			
3–4	3.86	3.86			
Each additional pound	.96	.96			

B. New Special Service Fees

All fees indicated below are being increased to the same level as for the comparable domestic special services.

1. Nonstandard Surcharge.

a. Letters (weighing one ounce or less): 9 cents

b. Regular Printed Matter (weighing one ounce or less): 9 cents

2. Customs Clearance and Delivery Fee: $1.75 (No change).

3. Inquiry Fee: $3.75.

4. Return receipt requested at time of mailing: 60 cents.

5. Registered Mail.

Limit of indemnity	Fee
1 Canada:	
$00.00 to $100	$3.25
$100.01 to $200	3.58
2 All other countries:	
$15.76	3.25

6. Insured Mail (the fees for All Other Countries are not changed).

Limit of indemnity	Fees: Canada	Fees: All other countries
Over/up to:		
0- $20	$0.45	$0.85
$20- 50	0.85	1.10
50- 100	1.25	1.85
100- 150	1.70	2.35
150- 200	2.05	2.35
200- 300	3.45	3.85
300- 400	4.70	5.10
400- 500		5.40
500- 600		5.70
600- 700		6.00
700- 800		6.30
800- 900		6.60
900-1,000		6.90
1,000-1,100		7.20
1,100-1,200		7.50

7. Money Orders.

a. Orders Issued on Domestic Form.

Amount of money order	Fee
$0.01 to $25	$0.75
$25.01 to $50	1.10
$50.01 to $400	1.55

b. Orders Issued on International Form (fees not changed).

Amount of money order	Fee
$0.01 to $25	$1.30
$25.01 to $50	1.50
$50.01 to $400	1.80

8. Special handling.

Weight	Fee
Not more than 10 pounds	$0.75
More than 10 pounds	1.30

9. Special delivery.

Class of mail	Not more than 2 pounds	Over 2 pounds but not more than 10 pounds	Over 10 pounds
Letters, letter packages, post and postal cards, and other articles (air only)	$2.10	$2.35	$3.00
Other articles (surface only)	2.35	3.00	3.40

10. Restricted delivery: $1.00.

11. Certificates of mailing

	Fee
Individual listed pieces:	
Original	$0.40
Copy of original certificate of mailing or receipt for registered or insured mail	0.40
Identical pieces:	
Up to 1,000 pieces	$1.25
For each additional 1,000 pieces, or fraction	0.15
Duplicate copy	0.40

(39 U.S.C. 401, 403, 404(2), 407, 410(a))

Coast Guard

[CGD 81-019]

Rules of the Road Advisory Committee; Meeting

AGENCY: Coast Guard, DOT.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Rules of the Road Advisory Committee. Notice of this meeting is required under section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. I).

DATES: The meeting will be held at 9:00 a.m. each day on Wednesday and Thursday, April 15 and 16, 1981.

ADDRESS: The meeting will be held at the Maritime Institute of Technology and Graduate Studies (MITAGS), 5700 Hammonds Ferry Road, Linthicum Heights, MD 21090.

FOR FURTHER INFORMATION CONTACT: Captain D. B. Charter, Jr., Executive Director, Rules of the Road Advisory Committee, c/o Commandant (G-WWM/11), U.S. Coast Guard, 2100 Second Street S.W., Washington, D.C. 20593, (202) 755–6146.

SUPPLEMENTARY INFORMATION: The agenda for the meting is as follows:

1. Welcome.
2. Adoption of agenda.
3. Adoption of the minutes of the March 26 and 27, 1980 meeting.
4. Consideration of 72 COLREGS matters discussed at the twenty-fifth meeting of the Inter-Governmental Maritime Consultative Organization's Subcommittee on Safety of Navigation.
5. Consideration of the use of strobe lights on vessels.
6. Consideration of the draft proposed Annexes I–V to the new Inland Navigation Rules:

Annex I—Positioning and Technical Details of Lights and Shapes.

Annex II—Additional Signals for Fishing Vessels Fishing in Close Proximity.

Annex III—Technical Details of Sound Signal Appliances.

Annex IV—Distress Signals.

Annex V—Pilot Rules.

7. Consideration of format for a new CG–169, *Navigation Rules, International-Inland.*
8. Tour of MITAGS facilities.
9. Any other business.

Attendance is open to the public. With the approval of the chairman, members of the public may present oral statements at the meeting. Persons wishing to present oral statements should notify Captain D. B. Charter, Jr., Executive Director, Rules of the Road Advisory Committee, at the above address, not later than the day before the meeting. A member of the public may present a written statement to the committee at any time.

Dated: March 10, 1981.

W. E. Caldwell,

Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Summary Notice No. PE-81-7]

Petitions for Exemption; Summary of Petitions Received and Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemptions received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I) and of dispositions of certain petitions previously received. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before: April 6, 1981.

ADDRESSES: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–204), Petition Docket No.———, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC–204), Room 916, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW, Washington, D.C. 20591; telephone (202) 426–3644.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, D.C., on March 9, 1981.

Edward P. Faberman,

Assistant Chief Counsel, Regulations and Enforcement Division.

Petitions for Exemptions

Docket No.	Petitioner	Regulations affected	Description of relief sought
21345	Fairchild Swearingen, Corp	14 CFR SFAR 41 § 5(c)	To allow the SA226/SA227 series of airplanes to use a 1.3VS gliding approach for the determination of landing distance requirements.
21254	Renton Aviation, Inc.	14 CFR 135.203(a)(1)	To permit petitioner to conduct operations at an altitude below 500 feet over water outside of controlled airspace.
21363	Bar Harbor Airlines	14 CFR 135.261	To allow petitioner to assign a flight crewmember and to permit a flight crewmember to accept an assignment without complying with 10 consecutive hour rest period requirement during the 24 hour period preceding the planned completion of the assignment.
21304	Ozark Air Lines, Inc.	14 CFR 121.291(a)	To permit petitioner to increase the seating capacity of its DC-9-30 series aircraft from 100 to 110 passenger seats without first conducting a full-seating capacity emergency evacuation demonstration.
16290	Kenmore Air Harbor, Inc.	14 CFR 141.37(e) and 3(b)(4) of Appendix D	To permit petitioner to use a seadrome without permanent runway lights for night training flights involving seaplanes; and to credit toward flight instruction, cross-country night flights in seaplanes with a landing in a body of water less than 100 miles from point of departure under certain conditions.
21385	General Electric	14 CFR various §§ Part 33	To allow the use of alternate procedures in lieu of compliance with the requirements pertaining to engine time for first overhaul, low cycle fatigue operational limit establishment, engine mount attachment deformation, rotor overspeed test, and rotor disc growth.
21297	Joe Ware Flying Service	14 CFR 135.243(b)(3)	To allow petitioner to operate as pilot in command in petitioner's Part 135 operation during day visual flight rule condition without an instrument rating.
21294	Medical Air Rescue, Inc.	14 CFR 135.261(b)	To permit petitioner's pilots to operate helicopters in hospital rescue operations with 8 hours crew rest in a 24 hour period in lieu of the required 10-consecutive-hour rest.
19113	Capitol International Airways, Inc.	14 CFR various sections of Part 121	To permit petitioner, a charter of Air Carrier, to continue to conduct scheduled passenger service over authorized routes under Supplemental Air Carrier Rules.
21376	General Electric, Co.	14 CFR various sections Part 33	Relief from the overhaul requirements rotor component life, growth, and overtemperature tests, and engine mount deformation.
11575	Altair Airlines, Inc.	14 CFR 135.261(b)	Extention of the termination date of Exemption No. 1512E. It allows an 8-hour rest period for petitioner's pilots instead of the 10-hour rest required. *Note:* The Exemption (1512F) was granted January 30, 1981, however, comments will be taken under consideration to assist the agency in determining if additional relief is justified.

Dispositions of Petitions for Exemptions

Docket No.	Petitioner	Regulations affected	Description of relief sought disposition
21015	Ransome Airlines	14 CFR 135.63(c)(9)	To allow petitioner to use a Part 121 operators's computer system without listing crew names or crew positions on the original of the load manifest. *Granted 3/6/81.*
16718	Flight Safety International	14 CFR 61.57(d)(2) 61.58(a)	Renewal of present exemption which permits petitioner's trainees to complete a 24-month pilot-in-command and Category II pilot authorization check in an FAA-approved flight simulator rather than in an airplane. *Granted 2/27/81.*
20420	Altair Airlines, Inc.	14 CFR 65.53(a)	To allow Ms. Cynthia Brown to be issued an aircraft dispatcher certificate before reaching her 23rd birthday. *Denied 2/27/81.*
20236	Mississippi Valley	14 CFR 65.53(a)	To allow Mr. Steven L. Madsen, Flight Controller, to be issued a dispatcher certificate before reaching his 23rd birthday. *Denied 2/27/81.*
20841	United Airlines	14 CFR 65.53(a)	To allow Mr. John C. Mallory to be issued an aircraft dispatcher's certificate prior to reaching his 23rd birthday. *Denied 2/27/81.*
20807	Britt Airways, Inc.	14 CFR 121.61(a)(2)	To permit petitioner to employ Mr. Kerry J. Gambrel as chief inspector without meeting the experience requirements. *Granted 3/3/81.*
15735	Cessna Aircraft Co.	14 CFR 65.81(a) and 145.39(d)	To amend Exemption No. 2263C to include the McCauley Model 700 Series propellers, and extend the exemption which presently applies to the 18-month experience requirements for propeller repairmen. *Granted 3/3/81.*
19910	Canadian Warplane Heritage, Inc.	14 CFR 91.27(a)(1)	To enable certain Canadian-registered aircraft that do not hold an airworthiness certificate to attend various airshows in the U.S. during Calender Year 1981. *Granted 3/3/81.*
20484	Presidential Airways	14 CFR 135.337(b)(2)	To allow, to the extent necessary, the use of a qualified Flight Safety International simulator instructor to serve in the capacity of a check airman without having received the initial pilot and flight instructor ground training under Subpart G of Part 135. *Denied 3/5/81.*
20370	Transamerica Airlines and World Airways	14 CFR 121.693(e)	To allow operations to be conducted without listing all passengers on the load manifest carried in the aircraft. *Withdrawn 3/3/81.*
20037	McDonnell Douglas Corp.	14 CFR portions of Parts 21 and 91	Extension of Exemption No. 2917A which permits petitioner to operate Douglas DC-9 airplane, N1306T, under Part 91 in accordance with the Douglas DC 9 (all models) master minimum equipment list. *Granted 2/27/81.*
20849	Wayne David Kaplan	14 CFR 61.151(a)	To permit petitioner to obtain an Airline Transport Pilot Certificate (ATC) before reaching his 23rd birthday. *Denied 2/27/81.*

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement; Thomas County, Georgia

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Thomas County, Georgia.

FOR FURTHER INFORMATION CONTACT: Joe Wilkerson, Acting Division Administrator, Federal Highway Administration, Suite 700, 1422 West Peachtree Street, N.E., Atlanta, Georgia 30309, telephone (404) 881–4756, or Peter Malphurs, State Environmental Analysis Engineer, Georgia Department of Transportation, Office of Environmental Analysis, 65 Aviation Circle, Atlanta, Georgia 30336, telephone (404) 696–4634.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Georgia Department of Transportation (Georgia DOT) will prepare an environmental impact statement (EIS) on the proposed construction of the North Thomasville Bypass in Thomasville, Georgia. A two lane facility on four lane right-of-way will be constructed on new alignment, beginning at U.S. 84 (S.R. 38) northwest of Thomasville and extending east to U.S. 319 (S.R. 35). The proposed length of the project is approximately 4.8 miles. The proposed work is necessary to reduce congestion in the downtown area and to allow truck traffic to bypass Thomasville.

Alternatives under consideration include: (1) taking no action; and (2) the construction of a tow lane rural facility with open ditches to be constructed on new location.

Letters describing the proposed action and soliciting comments have been sent to appropriate Federal, State and local agencies. No formal scoping meetings were held on the subject project. However, a public hearing will be held. Public notice wil be given of the time and place of the hearing.

To ensure that the full range of issues related to this proposed project are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

Issued: March 2, 1981.

Joe Wilkerson,

Acting Division Administrator, Atlanta, Georgia.

BILLING CODE 4910-22-M

National Highway Traffic Safety Administration

"Energy Efficient Commercial Vehicle Driving"; Contract Briefing; Public Meeting

The National Highway Traffic Safety Administration will hold a public meeting on March 31, 1981, to present the results of the first phase of a study entitled "Energy Efficient Commercial Vehicle Driving." This study is sponsored by the Joint Industry-Government Voluntary Truck and Bus Fuel Economy Program, managed by the NHTSA and is designed to help fleets design and implement cost/effective driver training and motivation programs to conserve fuel. The program, carried out by the Chilton Company as contractor to the NHTSA, has been effective in reducing fleet fuel consumption by a sustained 10 percent.

The meeting will be held in Room 2230 at the DOT Headquarters Building, 400 Seventh Street, Southwest, from 9:30 to 11:30 a.m. The briefing, to be presented by the Chilton Company, will consist of short overview of the study's findings, a detailed discussion of training and motivation programs to encourage drivers to conserve fuel, and an opportunity for audience questions.

Additional informaiton may be obtained from Dr. John Eberhard, (202 426–4892), the Contract Technical

Manager, or Mr. Hank Seiff, (202 426–4560), Acting Manager of the Voluntary Program.

Issued in Washington, D.C. on March 9, 1981.

R. Rhoads Stephenson,

Associate Administrator for Research and Development.

BILLING CODE 4910–59–M

"Improved Commercial Vehicle Conspicuity and Signalling Systems"; Public Meeting

The National Highway Traffic Safety Administration will hold a public meeting on April 2, 1981, to present a progress report on a contracted research study entitled "Improved Commercial Vehicle Conspicuity and Signalling Systems." The objectives of the study are to perform a detailed investigation of the car-into-truck accident problem, to determine to adequacy of Federal Motor Vehicle Standard 108 (Lamps, Reflective Devices, and Associated Equipment), and to develop and test improved lighting and marking systems for heavy-duty commercial vehicles. Improved conspicuity could reduce the number of side and rear collisions of other vehicles into heavy-duty trucks on a favorable cost-benefit ratio.

The meeting will be held at the Howard Johnson Motel, 5990, Green Valley Circle, Culver City, California 90230, telephone: (213) 641–7740, beginning at 9:30 a.m. and will be presented by the contractor, Vector Enterprises, Inc., 1550 Seventeenth Street, Santa Monica, California 90404, telephone: (213) 829–6741. The agenda will consist of a brief overview of the study purpose, a description of the contractor's recommendations for alternative lighting and marking systems for test and evaluation, a tour and demonstration of the contracotr's conspicuity simulation laboratory, and a discussion of the contractor's experimental plan for evaluating the proposed alternative lighting and marking systems. Time will be allotted for audience questions and suggestions concerning the conduct of the study.

Additional information may be obtained from Dr. Charles M. Overbey, Office of Driver and Pedestrian Research, Room 6240, Nassif Building, 400 Seventh Street Southwest, Washington, D.C. 20590, telephone: (202) 755–8753.

Issued in Washington, D.C. on March 9, 1981.

R. Rhoads Stephenson,

Associate Administrator for Research and Development.

BILLING CODE 4910–59–M

National Highway Safety Advisory Committee; Site Visits

The National Highway Safety Advisory Committee's Task Force on Support for Highway Safety Programs is planning site visits to Albany, New York on April 2 and 3; and Madison, Wisconsin on April 23 and 24. The members will be meeting with State and local officials, public and private organizations, and volunteer groups involved in highway safety issues. The members believe that there is a constituency for highway safety, but that it is coordinated loosely, if at all. Yet the magnitude of the highway safety problem and the potential gains to be realized make it essential that the problem be addressed more effectively than it has been in the past. Representatives of interested organizations will have an opportunity to present their historical perspective and predict the future of highway safety. In addition, the members are interested in what role these organizations play in providing input into State highway safety programs; what type of coordination/cooperation exists among the various groups; and how successful have these groups been in influencing changes in highway safety issues.

The information received from these site visits along with that received from a prior meeting will be compiled into a report with recommendations and presented at the full Committee meeting June 15–17, 1981.

Arrangements for the site visits are being made by the appropriate NHTSA Regional Offices and the States Governors' Highway Safety Representatives.

These site visits are subject to the approval of the appropriate DOT officials.

Additional information may be obtained from the NHTSA Executive Secretary, Room 5221, 400 Seventh Street, S.W., Washington, D.C. 20590, telephone 202–426–2872.

Issued in Washington, D.C. on March 11, 1981.

Robert E. Doherty,

Assistant Executive Secretary.

4

FEDERAL COMMUNICATIONS COMMISSION.

The following Common Carrier items have been deleted at the request of the Common Carrier Bureau, and the Office of the General Counsel from the list of agenda items scheduled for consideration at the March 11, 1981 Open Meeting and previously listed in the Commission's Public Notice of March 4, 1981.

Agenda, Item No., and Subject

Common Carrier—5—*Title:* MCI Services Corp. v. American Telephone and Telegraph Co., *et.al.* (File No. TS 16-76). *Summary:* The Commission will consider a formal complaint filed by MCI Services and a Petition for Declaratory Ruling filed by AT&T. Both deal with interconnection between a "stand-alone" switching system and the public switched telephone network.

Common Carrier—6—*Title:* Complaint by Western Union Telegraph Company against Wiltek, Inc. (File No. TS-4-75). *Summary:* The Commission will consider whether the provision of switching without transmission facilities (i.e., "stand-alone" switching), is subject to common carrier regulation under Title II.

Additional information concerning this meeting may be obtained from Maureen P. Peratino FCC Public Affairs Office telephone number (202) 254-7674.

Federal Communications Commission.
Issued March 10, 1981.

William J. Tricarico,
Secretary.

BILLING CODE 6712-01-M

5

FEDERAL COMMUNICATIONS COMMISSION.

The subject matter listed below was inadvertently omitted from the March 4th Public Notice (No. 07718), which listed the subjects to be considered at the Wednesday, March 11, 1981, Open Meeting, which is scheduled to commence at 9:30 A.M., in Room 856, at 1919 M Street, N.W., Washington, D.C.

Agenda, Item No., and Subject

Private Radio—1—*Title:* Public coast radiotelegraph (Class I) station applications at Arcadia, TX. *Summary:* The FCC will consider disposition of two applications regarding service by public coast radiotelegraph Class I stations. One application submitted by ITT World Communications, Inc., seeks to close a station at Arcadia, TX; and the other application requests authority to operate a new station at the same location.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

Additional information concerning this meeting may be obtained from Maureen Peratino, FCC Public Affairs Office, telephone number (202) 254-7674.

Issued March 10, 1981.

Federal Communications Commission.
William J. Tricarico,
Secretary.
[S-409-81 Filed 3-12-81; 9:37 am]
BILLING CODE 6712-01-M

6

FEDERAL COMMUNICATIONS COMMISSION.

The Federal Communications Commission will consider an aditional item on the subject listed below on Wednesday, March 11, 1981, following the Open Meeting, which is scheduled to commence at 9:30 A.M., in Room 856, at 1919 M Street, N.W. Washington, D.C.

Agenda, Item No., and Subject

Hearing—2—A Petition for Deferral of Oral Argument in the Stereo Broadcasters, Inc., Garden City, New York FM license renewal proceeding (Docket No. 20590).

The prompt and orderly conduct of Commission business requires that less than 7-days notice be given consideration of this additional item.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

Additional informaton concerning this meeting may be obtained from Maureen Peratino FCC Public Affairs Office, telephone number (202) 254-7674.

Issued March 10, 1981.

Federal Communications Commission.
William J. Tricarico,
Secretary.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

Last Listing February 13, 1981

The list of agency billing codes assigned by the Government Printing Office follows:

BILLING PROCEDURES FOR AGENCIES

As part of the billing procedures announced in the FEDERAL REGISTER of August 24, 1977, and to insure that each agency is correctly billed for only its own documents, the Office of the Federal Register requests agencies to insert the proper billing code on all of their documents. The six-digit billing code should be typed or handwritten in ink at the top of the first page on all three copies of documents submitted to the Office of the Federal Register for publication, as follows:

BILLING CODE: 0000-00

The list of agency billing codes assigned by the Government Printing Office follows:

Department	*Billing Code*
ACTION	6050-01
Actuaries, Joint Board for Enrollment	4810-25
Administration Office, Executive Office of the President	3115-01

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

17066 **Commercial Grain Elevator** USDA/ASCS request comments by 4–15–81 on bankruptcy grain elevator issue

17022 **Farm Credit** FCA publishes for comment a proposed amendment to its regulation concerning the disposition of obsolete records; comments by 5–18–81

Title 3—

The President

Proclamation 4824 of March 13, 1981

National Poison Prevention Week, 1981

By the President of the United States of America

A Proclamation

The care and protection of children is a primary responsibility of all parents. This task should not be taken lightly because the stakes are high and, often, irreversible. Such is the case when dealing with poisons and other potentially hazardous material.

Thanks to child-protection packaging and greater awareness of parents, in the past two decades we have witnessed a reduction in the accidental poisoning of children. While progress has been made, we must remain vigilant. The death of even one child due to the ingesting of poison is too many.

A tragedy involving any family's child is a tragedy for us all. Parents around the Nation should be keenly aware that the danger of accidental poisoning knows no boundary and that only parental attention to the hazards around them will protect their children from needless suffering and possible death. Even heightened community awareness, even new safety packaging, even new laws on the books are less important than strict parental supervision when avoiding a tragedy from the misuse or abuse of common pharmaceutical and household products.

By Joint Resolution on September 26, 1961 (75 Stat. 681, 36 U.S.C. 165) Congress requested that the President issue an annual proclamation designating the third week in March as National Poison Prevention Week, to alert the American people to the problems of accidental poisoning among children and urge preventive measures for their solution.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby designate the week beginning March 15, 1981, as National Poison Prevention Week.

IN WITNESS WHEREOF, I have hereunto set my hand this thirteenth day of March, in the year of our Lord nineteen hundred eighty-one, and of the Independence of the United States of America the two hundred and fifth.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 46, No. 51
Tuesday, March 17, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

FARM CREDIT ADMINISTRATION

12 CFR Part 611

Compensation of District Board Members

AGENCY: Farm Credit Administration.

ACTION: Final rule.

SUMMARY: The Farm Credit Administration (FCA) publishes an amendment to its regulations pertaining to the level of compensation of district board members. FCA regulations currently provide that district board members may be compensated at a maximum rate of $125 per day. Six Farm Credit districts have requested that district director per diem be raised and at its December meeting the Policy Coordinating Committee, an advisory body within the Farm Credit System composed of district directors, recommended that the Federal Farm Credit Board increase district director per diem to a maximum level of $200. The Board received the recommendation of the Policy Coordinating Committee and directed FCA to prepare the appropriate regulations change. Since these regulations reflect only agency policy, procedure and practices concerning organization of the Farm Credit Administration, the Board found that proposed rulemaking is not required nor necessary to the public interest.

EFFECTIVE DATE: March 17, 1981.

Larry H. Bacon, Deputy Governor, Office of Administration, Farm Credit Administration, 490 L'Enfant Plaza, SW., Washington, D.C. 20578 (202–755–2161).

Chapter VI of Title 12 of the Code of Federal Regulations is amended in Part 611 as follows:

PART 611—ORGANIZATION

§ 611.1020 is revised to read as follows:

§ 611.1020 Compensation of district board members.

Directors may be compensated for attendance at board meetings and special assignments, including reasonable travel time from and to their residences. Such compensation shall not exceed $200 per day plus reasonable travel, actual subsistence, and other related expenses incurred in connection with such meetings and assignments. Compensation at the regular per diem rate for normal travel time to and from board meetings and special assignments, when the distance and meeting or special assignment schedule involved require travel on any portion of the day prior to or following the meeting or special assignment date, may be allowed on a full-day basis, or on a part of a full-day basis in increments of half-days, as authorized in a policy established by the board. Travel time in excess of one full-day may be permitted under unusual conditions if provided for in the policy of the board.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 270

[Release No. IC–11676; S7–832]

Exemption of Certain Purchase or Sale Transactions Between a Registered Investment Company and Certain Affiliated Persons Thereof

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Securities and Exchange Commission is adopting an amendment to a rule under the Investment Company Act of 1940 to exempt from section 17(a) of the Act, provided that certain conditions are satisfied, the purchase or sale of certain securities between registered investment companies which are affiliated persons, or affiliated persons of affiliated persons, of each other, or between a registered investment company and a person, which is an affiliated person of such company (or an affiliated person of such person) solely by reason of having a common investment adviser or investment advisers which are affiliated persons of each other, common officers, and/or common directors. Absent this amendment, such a transaction would be permissible only upon the issuance, pursuant to an application, of an exemptive order by the Commission.

EFFECTIVE DATE: March 10, 1981.

FOR FURTHER INFORMATION CONTACT:
Arthur J. Brown, Chief (202–272–2048) or Paul F. Roye, Esq. (202–272–3014), Investment Company Act Study Group, Division of Investment Management, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: The Commission today is adopting an amendment to rule 17a–7 [17 CFR 270.17a–7] under the Investment Company Act of 1940 ("Act") [15 U.S.C. 80a–1 et seq.] to exempt from section 17(a) of the Act [15 U.S.C. 80a–17(a)] certain purchase or sale transactions between registered investment companies which are affiliated persons, or affiliated persons of affiliated persons, of each other, or between a registered investment company and a person which is an affiliated person of such company (or an affiliated person of such person) solely by reason of having a common investment adviser or investment advisers which are affiliated persons of each other, common officers, and/or common directors. The background of section 17(a) and rule 17a–7, and the reasons for proposing to amend rule 17a–7 are discussed thoroughly in Investment Company Act Release No. 11136 (April 21, 1980) [45 FR 29067, May 1, 1980]. Persons interested in more detailed discussions of the various conditions of the proposed amendment to rule 17a–7 should refer to that release.

In response to its request for comments, the Commission received and considered 9 letters. As a result of considering the comments, the Commission has determined to adopt the rule as proposed, subject to the following modifications.

First, the exemption has been made available to any investment company and a person which is an affiliated person of such investment company solely because their investment advisers are affiliated persons of each other. Several commentators pointed out that certain corporate complexes have two or more investment advisers, which may themselves be under common control. Their clients, including registered investment companies, may be deemed to be affiliated persons of one another under a theory of common control. Thus, any purchase or sale transaction where one of the participants is an investment company could be prohibited by section 17(a) of the Act. Since these circumstances appear to involve little more than a variation in corporate structure, the Commission has determined to amend rule 17a-7 so that it will apply also to an investment company and affiliated persons in a multiple-adviser corporate complex.

Second, the introductory paragraph of the proposed rule exempts transactions between separate series of a registered investment company.[1] Since there appears to be no policy reason for a distinction to be made between a complex of investment companies and separate series of a single investment company with respect to the affiliated transactions authorized by the rule, the rule has been modified. The revised language of the rule clarifies that a purchase or sale transaction could be effected between a separate series of an investment company and another investment company or other enumerated affiliated persons.[2]

The Commission has also determined to modify the principal market standard in paragraph (b) of the proposed amendment to rule 17a-7 for determining the independent current market price of securities sold pursuant to the rule. The Commission is of the view that paragraph (b) should be revised to reflect the development of the consolidated transaction reporting system ("Consolidated System") contemplated by rule 11Aa3-1 under the Securities Exchange Act of 1934 [17 CFR 240.11Aa3-1].[3] The rule retains the basic standards incorporated into the proposed amendment to rule 17a-7 to determine the independent current market price of securities sold pursuant to the rule. However, rather than categorizing the securities covered by the rule as securities traded on a national securities exchange or in the over-the-counter market, the securities are categorized as securities reported in the Consolidated System [4] and securities that are not reported in the Consolidated System.

If the security is a "reported security," the "current market price" is the last sale price with respect to such security reported in the Consolidated System prior to the proposed transaction or the average of the highest current independent bid and lowest current independent offer for such security (reported pursuant to rule 11Ac1-1 under the Exchange Act [17 CFR 240.11Ac1-1]) if there are no reported transactions in the Consolidated System that day. If the security is not a reported security and the principal market for such security is an exchange, the "current market price" is the last sale on such exchange or the average of the highest current independent bid and lowest current independent offer on such exchange if there are no reported transactions on such exchange that day. Where the security is not a reported security and is quoted in the NASDAQ System, the "current market price" is the average of the highest current independent bid and lowest independent offer reported on Level 1 of NASDAQ. For all other securities, the "current market price" is the average of the highest current independent bid and lowest current independent offer determined on the basis of reasonable inquiry. Since questions have been raised about the language of the proposed rule regarding the uncertainty involved in determining the "independent current market price" for all securities, paragraph (b) of the rule imposes a reasonable inquiry standard for determining the "independent current market price" for certain securities sold pursuant to the rule other than reported securities and non-reported securities whose principal market is on an exchange or quoted in the NASDAQ System.

The amended rule, provided that its conditions are fulfilled, exempts from the prohibition of section 17(a) of the Act any purchase or sale of certain securities (1) between registered investment companies or separate series of registered investment companies, which are affiliated persons, or affiliated persons of affiliated persons, of each other, (2) between separate series of a registered investment company, or (3) between a registered investment company or a separate series of a registered investment company and a person which is an affiliated person of such registered investment company (or affiliated person of such person) solely by reason of their having a common investment adviser or investment advisers which are affiliated persons of each other, common directors, and/or common

[1] For purposes of rule 18f-2 [17 CFR 270.18F-2], a series company is a registered open-end investment company which, in accordance with the provision of section 18(f)(2) of the Act [15 U.S.C 80a-18(f)(2)], issues two or more classes or series of preferred or special stock each of which is preferred over all other classes or series in respect of assets specifically allocated to that class or series. The individual series of such company are, for all practical purposes, separate investment companies. Each series of stock represents a different group of stockholders with an interest in a segregated portfolio of securities. *See* Investment Company Act Release No. 7276 (August 8, 1972) [37 FR 17386, August 26, 1972]. It appears that each series may be viewed as a company controlled by the same investment adviser, directors and officers and therefore series of the same investment company would be affiliated persons of each other. (Section 2(a)(3) [15 U.S.C 80a-2(a)(3)] defines the term "company" as "a fund or any organized group of persons whether incorporated or not.") Therefore, section 17(a) would be applicable to transactions involving the purchase or sale of securities between series of a single registered investment company.

[2] Paragraph (c) of the rule provides that the transactions executed pursuant to the rule must be consistent with the policy of each registered investment company as recited in its registration statement and reports filed under the Act. Since various series of an investment company may have different investment policies, paragraph (c) of the rule has been changed to also indicate that each transaction under the rule must be consistent with the investment policy of each series of an investment company participating in the transaction.

[3] *See* Securities Exchange Act Release No. 16589 (February 19, 1980) (adopting rule 11Aa3-1) [45 FR 12377, February 29, 1980].

[4] Rule 11Aa3-1 under the Exchange Act [15 U.S.C 78a et seq.] defines a "reported security" as any listed equity security or non-listed national market system security for which a transaction reporting plan with respect to transactions in such security is required to be filed pursuant to the rule. The rule further defines a "listed equity security" as any equity security listed and registered, or admitted to unlisted trading privileges, on a national securities exchange. A "non-listed national market system security" is defined as any security or class of securities which (i) is designated as qualified for trading in a national market system pursuant to section 11A(a)(2) of the Exchange Act [15 U.S.C 78K-1(a)(2)] and the procedures established thereunder, and (ii) is not a listed equity security. As a general matter, reported securities include: (1) any common stock, long term warrant or preferred stock registered or admitted to unlisted trading privileges on either the American ("Amex") or New York ("NYSE") Stock Exchanges, (2) any common stock, long term warrant, or preferred stock registered on any exchange or admitted to unlisted trading privileges thereon which substantially meets either Amex or NYSE listing requirements and (3) any right to acquire any of the securities described in (1) and (2) which are traded on the same exchange as the eligible securities. In addition, the Commission recently has adopted rule 11Aa2-1 under the Exchange Act [17 CFR 240.11Aa2-1] and related amendments to rule 11Aa3-1 which will require, as of February 1, 1982, that last sale reports be provided for a limited number of actively traded over-the-counter securities. *See* Securities Exchange Act Release No. 17349 (February 17, 1981). Accordingly, once those securities are subject to mandatory transaction reporting, transactions in such securities covered by rule 17a-7 will be subject to the pricing restrictions applicable to securities included in the Consolidated System.

officers.[5] The rule is conditioned upon the requirements that the transaction involve a security for which market quotations are readily available and that the transaction be effected at the independent current market price of such security. The rule also requires the transaction to be consistent with the policy of each registered investment company participating in the transaction, and it requires that no brokerage commission or other remuneration be paid in connection with the transaction. However, because the Division of Investment Management will not hereafter individually review these transactions, the rule requires the directors of an investment company, including a majority of the directors who are not interested persons[6] of the investment company, to adopt procedures which are reasonably designed to ensure that all the rule's requirements have been met and to review these procedures at least annually for their continuing appropriateness.[7] Moreover, the rule requires that, at least quarterly, the investment company's directors determine whether transactions effected pursuant to the rule have satisfied the procedures which the directors have established. Finally, the rule includes certain recordkeeping requirements so that the Commission may monitor, through its inspection program, the experience of investment companies with the rule.

Several commentators recommended that rule 17a–7 be expanded to permit the sale of securities for which market quotations are not readily available. By limiting the purchases or sales authorized under rule 17a–7 to securities for which market quotations are readily available and requiring the transactions to be effected at the independent current market price for such security, the Commission believes the potential for abuse would be remote. Reliance upon such market quotations provides an independent basis for determining that the terms of the transaction are fair and reasonable to each participating investment company and do not involve overreaching. If the rule were expanded to include securities for which market quotations are not readily available, the independent basis for determining the value of securities would be eliminated. Thus, the Commission does not believe it would be appropriate presently to make the proposed change. However, since a "current market price" can be determined for many of the securities—such as certain government securities, certificates of deposit and bankers' acceptances—held by investment companies because there is an active secondary market for these securities, the amendment to rule 17a–7 should assist in the execution of intra-complex securities transactions.

Additionally, if the rule were to allow a fund's board of directors to determine that purchases and sales of debt securities could be effected at amortized cost, as was suggested by several commentators, the impact of market factors subsequent to the date each such debt security was initially purchased might not be considered. Factors such as changes in interest rates can affect the fair value of the securities. If this valuation were permitted for registered open-end management investment companies, an investor purchasing or redeeming shares could pay or receive more or less than the actual value of his proportionate share of the fund's current net assets.[8] The effect of such sales or redemptions may result in unfair dilution of the assets and returns of existing shareholders. Thus, reliance on a valuation method that does not directly take into account the market impact upon the value of securities for purposes of the rule would appear to undermine the independent basis for determining the fairness of the transaction. Accordingly, the Commission views the utilization of amortized cost valuation as incompatible with the theory upon which the exemption in rule 17a–7 is predicated. However, the Commission would be interested in receiving additional comments from interested persons as to how the purchase or sale of securities, particularly money market instruments, for which market quotations are not readily available could be included within the scope of rule 17a–7 in a manner which would provide an independent and valid basis for determining the fair value of such securities. Such comments should address alternative methods by which the fair value of such securities could be established and what factors are relevant in determining whether a particular method accurately reflects fair value. In this respect, such comments would assist the Commission in determining whether it would be appropriate for the Commission to provide any additional guidance on the valuation of debt securities by investment companies.

Authority, Effective Date

The Commission amends rule 17a–7 under the Act pursuant to the provisions of sections 6(c) [15 U.S.C. 80a–6(c)] and 38(a) [15 U.S.C. 80a–37(a)] of the Act. Because the rulemaking is exemptive in nature, the foregoing action becomes effective immediately [15 U.S.C. 553(d)(1)].

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

Text of Amended Rule

Part 270 of Chapter II of Title 17 of the Code of Federal Regulations is amended by revising the subject heading and text of § 270.17a–7 as follows:

§ 270.17a–7 Exemption of certain purchase or sale transactions between an investment company and certain affiliated persons thereof.

A purchase or sale transaction between registered investment companies or separate series of registered investment companies, which are affiliated persons, or affiliated persons of affiliated persons, of each other, between separate series of a registered investment company, or between a registered investment company or a separate series of a registered investment company and a person which is an affiliated person of such registered investment company (or affiliated person of such person) solely by reason of having a common investment adviser or investment advisers which are affiliated persons of each other, common directors, and/or common officers, is exempt from section 17(a) of the Act; *Provided*, That:

(a) The transaction is a purchase or sale, for no consideration other than cash payment against prompt delivery of

---

[5] The rule does not represent a Commission finding that investment companies having common officers, directors or investment advisers are always affiliated persons or affiliated persons of an affiliated person. They may or may not be, depending on the facts. The rule enables the parties to go forward without resolving that question if the requirements of the rule are met.

[6] The term "interested person" is defined in section 2(a)(19) of the Act [15 U.S.C. 80a–2(a)(19)].

[7] The Board of directors may delegate to a directorial committee or other persons associated with the investment company the drafting task of preparing recommended procedures to be considered by the board as a whole. Of course, the board is responsible for any procedures that it ultimately chooses. Moreover, in considering any recommendations in the course of making such a determination the board should request from the initial draftsmen and evaluate such information as may reasonably be necessary to determine if the procedures would comply with the requirements of paragraph (e)(1) of the rule. *Compare* sections 15 (a) and (c) of the Act [15 U.S.C. 80a–15 (a) and (c)] [procedures for directors approving an investment advisory contract]. *See Burks v. Lasker*, 441 U.S. 471, n. 10 (1979) [minimum Federal fiduciary standards apply to decisions which investment company directors may be called upon to make].

[8] *See* Investment Company Act Release No. 9786 (May 31, 1977) [42 FR 28999, June 7, 1977]; Accounting Series Release No. 118 [December 23, 1970].

a security for which market quotations are readily available;

(b) The transaction is effected at the independent current market price of the security. For purposes of this paragraph the "current market price" shall be:

(1) If the security is a "reported security" as that term is defined in rule 11Aa3–1 under the Securities Exchange Act of 1934 [17 CFR 240.11Aa3–1], the last sale price with respect to such security reported in the consolidated transaction reporting system ("consolidated system") or the average of the highest current independent bid and lowest current independent offer for such security (reported pursuant to rule 11Ac1–1 under the Securities Exchange Act of 1934 [17 CFR 240.11Ac1–1]) if there are no reported transactions in the consolidated system that day; or

(2) If the security is not a reported security, and the principal market for such security is an exchange, then the last sale on such exchange or the average of the highest current independent bid and lowest current independent offer on such exchange if there are no reported transactions on such exchange that day; or

(3) If the security is not a reported security and is quoted in the NASDAQ System, then the average of the highest current independent bid and lowest current independent offer reported on Level 1 of NASDAQ; or

(4) For all other securities, the average of the highest current independent bid and lowest current independent offer determined on the basis of reasonable inquiry;

(c) The transaction is consistent with the policy of each registered investment company and separate series of a registered investment company participating in the transaction, as recited in its registration statement and reports filed under the Act;

(d) No brokerage commission, fee (except for customary transfer fees), or other remuneration is paid in connection with the transaction;

(e) The board of directors of the investment company, including a majority of the directors who are not interested persons of such investment company, (1) adopts procedures pursuant to which such purchase or sale transactions may be effected for the company, which are reasonably designed to provide that all of the conditions of this section in paragraphs (a) through (d) have been complied with, (2) reviews no less frequently than annually such procedures for their continuing appropriateness, and (3) determines no less frequently than quarterly that all such purchases or sales made during the preceding quarter were effected in compliance with such procedures; and

(f) The investment company (1) maintains and preserves permanently in an easily accessible place a written copy of the procedures (and any modifications thereto) described in paragraph (e) of this section, and (2) maintains and preserves for a period not less than six years from the end of the fiscal year in which any transactions occurred, the first two years in an easily accessible place, a written record of each such transaction setting forth a description of the security purchased or sold, the identity of the person on the other side of the transaction, the terms of the purchase or sale transaction, and the information or materials upon which the determinations described in paragraph (e)(3) of this section were made.

By the Commission.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

19 CFR Part 355

Countervailing Duties, Footwear From the Republic of Korea; Final Results of Administrative Review and of Revocation of Countervailing Duty Order

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of final results of administrative review and of revocation of countervailing duty order.

SUMMARY: On December 31, 1980, the Department of Commerce published a notice of "Preliminary Results of Administrative Review and Tentative Determination To Revoke" with respect to the countervailing duty order on footwear from Korea. Reasons for the tentative determination were given in the notice and interested parties were afforded an opportunity to present written or oral comments. The Department received no comments. Therefore, the Department of Commerce is revoking the order on the grounds that net subsidies have been *de minimis* for at least two years. The table in Part 355, Annex III of the Commerce Regulations is amended to reflect this revocation.

EFFECTIVE DATE: March 17, 1981.

FOR FURTHER INFORMATION CONTACT: Josephine A. Russo, Office of Compliance, Room 1126, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–2786).

SUPPLEMENTARY INFORMATION:

Procedural Background

On January 9, 1976, a notice of "Final Countervailing Duty Determination" with respect to footwear from the Republic of Korea was published in the **Federal Register** as Treasury Decision 76–13 (41 FR 1588). On December 31, 1980, the Department of Commerce ("the Department") published the preliminary results of its administrative review and a tentative determination to revoke the countervailing duty order (45 FR 85804).

Scope of the Review

Imports covered by this review are rubber and non-rubber footwear. "Rubber footwear" is that which is either: (1) over 50 percent by weight of rubber or plastics; or (2) over 50 percent by weight of a combination of fibers with rubber or plastics, with at least 10 percent by weight of rubber or plastics. Such footwear is currently classifiable under items 700.51, 700.52, 700.53, 700.54 and 700.58 (both formerly 700.55), and 700.60, Tariff Schedules of the United States (TSUS). "Non-rubber footwear" covers all other footwear classifiable under Part 1, Subpart A, of Schedule 7 of the TSUS. The review is based upon information for the period January 1977 through December 1979.

The programs found countervailable in the Final Determination were: (1) preferential short-term export financing, (2) special tax benefits provided to enterprises located in the Masan Free Trade Zone, (3) tax benefits resulting from the inclusion in loss accounts of reserve funds for losses accruing from overseas activities, and (4) accelerated depreciation of machinery and equipment utilized for export production. The preliminary results of the review specified that no firm received a net subsidy of more than 0.3 percent per annum for over a two year period. This level is considered to be *de minimis*. Interested parties were afforded an opportunity to furnish oral or written comments. The Department received no such comments.

Final Results of the Review

As a result of the review, we conclude that the imported merchandise has not benefitted from a net subsidy for at least the two-year period specified in section 355.42 of the Commerce Regulations (19 CFR 355. 42). As further required by this

section, the concerned manufacturers and exporters have agreed in writing to an immediate suspension of liquidation and, if appropriate, reinstatement of the order if circumstances develop which indicate that the imported merchandise benefits from a net subsidy. Therefore, the Department revokes the countervailing duty order concerning footwear from Korea (T.D. 76-13) with respect to all merchandise entered, or withdrawn from warehouse, for consumption on or after December 31, 1980. In addition, the Department will instruct Customs officers to proceed to liquidate all unliquidated entries from January 1, 1980 to December 31, 1980 without regard to countervailing duties.

Part 355, Annex III [Amended]

The table in Part 355, Annex III of the Commerce Regulations (19 CFR Part 355, Annex III) is amended under the country heading "Korea" by deleting from the column headed "Commodity," the word "Footwear"; from the column "Treasury Decision," the number "76-13"; and from the column headed "Action," the words "Bounty declared."

This revocation, administrative review, and notice are in accordance with sections 751(a)(1),(c) of the Tariff Act of 1930 (19 U.S.C. 1675(a)(1),(c)) and sections 355.41 and 355.42 of the Commerce Regulations (19 CFR 355.41, 355.42).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 12, 1981.

BILLING CODE 3510-25-M

ENVIRONMENTAL PROTECTION AGENCY

21 CFR Part 193

[FAP 9H5202/T63; PH-FRL 1780-7]

Tolerances for Pesticides in Food Administered by the Environmental Protection Agency; Fluridone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule extends a food additive regulation related to the experimental use of the herbicide fluridone (1-methyl-3-phenyl-5-[3-(trifluoromethyl)-phenyl]-4(1*H*)-pyridinone) in lakes and ponds. This extension was requested by Elanco Products Co. This rule will permit the use of fluridone in potable water while further data are collected on the pesticide.

EFFECTIVE DATE: Effective on March 17, 1981.

ADDRESS: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Richard F. Mountfort, Product Manager (PM) 23, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 412, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7070).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of August 28, 1980 (45 FR 57391) that a regulation had been established for residues of the herbicide fluridone (1-methyl-3-phenyl-5-[3-(trifluromethly)-phenyl]-4(1H)-pyridinone) in lakes and ponds at 0.01 part per million (ppm). This regulation was requested by Elanco Products Co., A Division of Eli Lilly and Co., PO Box 1750, Indianapolis, IN 46206.

The regulation was established in conjunction with an experimental use program (1471-EUP-67) that was submitted under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (92 Stat. 819; 7 U.S.C. 136). Under the experimental use permit, fishing, swimming, drinking, or other use of the treated pond water was restricted for 150 days after application.

Elanco Products Co. has requested a 2-year extension of the temporary food additive regulation to permit continued testing to obtain additional data.

The scientific data reported and other relevant material have been evaluated, and it has been determined that the pesticide may be safely used in accordance with the provisions of the experimental use permit which is being extended concurrently under FIFRA. The pesticide is considered useful for the purpose for which the tolerance is sought. Accordingly, the food additive regulation permitting residues of fluridone with a limitation of 0.01 ppm is extended as set forth below.

Any person adversely affected by this regulation may, on or before April 16, 1981, file written objections with the Hearing Clerk, EPA, Rm. M-3708 (A-110), 401 M ST. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

Effective date: March 17, 1981.

Dated: March 10, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart A of 21 CFR Part 193 is amended by revising § 193.219 to read as follows:

§ 193.219 Fluridone.

A tolerance of 0.01 part per million is established for residues of the herbicide fluridone (1-methyl-3-phenyl-5-[3-(trifluoromethyl)-phenyl]-4(1H)-pyridinone) in potable water. Such residues may be present therein only as a result of application of the herbicide fluridone to lakes and ponds under the experimental use program which expires June 1, 1983. This program is to be conducted by Elanco Products Co. Residues remaining in potable water after June 1, 1983 will not be considered actionable if the pesticide is legally applied during the term and in accordance with the provisions of the experimental use permit and the food additive tolerance.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule amends a feed additive regulation related to an experimental use permit for the insecticide amitraz (*N'*-(2,4-dimethylphenyl)-*N*-[[(2,4-dimethylphenyl) imino]methyl]-*N*-methylmethanimidamide and its metabolites *N'*-(2,4-dimethylphenyl)-*N*-methylmethanimidamide and *N'*-(2,4-dimethylphenyl)formamide in citrus pulp resulting from application of the insecticide to growing grapefruit, lemons, oranges, and tangerines in accordance with an experimental use permit issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This regulation establishes a feed additive tolerance of 7 parts per million (ppm).

EFFECTIVE DATE: Effective on March 17, 1981.

ADDRESS: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Rm. M–3708 (A–110), 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Jay S. Ellenberger, Product Manager (PM) 12, Registration Division (TS–767), Office of Pesticide Programs, Environmental Protection Agency, Rm. E–303, 401 M St. SW., Washington, D.C. 20460, (202–426–2635).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the Federal Register of September 9, 1975 (40 FR 41773), that Upjohn Co., Kalamazoo, MI 49001 had filed a feed additive petition (FAP 5H5091) with the EPA. The petition established a feed additive regulation for residues of the insecticide amitraz (*N'*-(2,4-dimethylphenyl)-*N*-[[(2,4-dimethylphenyl)imino]methyl]-*N*-methylmethanimidamide and its metabolites *N'*-(2,4-dimethylphenyl)-*N*-methylmethanimidamide and *N*-(2,4-dimethylphenyl)formamide in citrus pulp at 3 parts per million resulting from application of the insecticide to growing grapefruit, lemons, oranges, and tangerines in accordance with experimental use permit 1023–EUP–35.

Based on the information submitted in the original petition, the tolerance has been increased to 7 parts per million. A related document (PP5G1623/T283A) amending temporary tolerances for residues of the insecticide in or on grapefruits, lemons, oranges, tangerines, by establishing tolerances for the meat, fat, and meat byproducts of cattle, goats, hogs, horses, and sheep at 0.01 ppm has been issued.

Any person adversely affected by this regulation may, on or before April 16, 1981, file written objections with the Hearing Clerk, Environmental Protection Agency, Rm. M–3708 (A–110), 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this regulation from the OMB requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

Effective on: March 17, 1981.

(Sec. 409(c)(1), 72 Stat. 1786, (21 U.S.C. 348(c)(1)))

Dated: March 12, 1981.

Edwin L. Johnson,

Deputy Assistant Adminstrator for Pesticide Programs.

Therefore, Part 561 of 21 CFR is amended by revising § 561.195 to read as follows:

§ 561.195 Amitraz.

A temporary tolerance is established for residues of the insecticide amitraz (*N'*-(2,4-dimethylphenyl)-*N*-[[(2,4-dimethylphenyl)imino]methyl]-*N*-methylmethanimidamide and its metabolites *N'*-(2,4-dimethylphenyl)-*N*-methylmethanimidamide and *N*-(2,4-dimethylphenyl)formamide in citrus pulp at 7 parts per million resulting from application of the insecticide to grapefruits, lemons, oranges, and tangerines. Such residues may be present therein only as a result of application of the insecticide in an experimental use program that expires July 17, 1981. Residues not in excess of this tolerance remaining after the expiration of this experimental use program will not be considered actionable if the pesticide is legally applied during the term and in accordance with the provisions of the experimental use permit and the feed additive tolerance.

POSTAL SERVICE

39 CFR Part 10

International Express Mail Rates

AGENCY: Postal Service.

ACTION: Final international express mail rates.

SUMMARY: Pursuant to its authority under 39 U.S.C. 407, the Postal Service revises and generally increases all International Express Mail rates as indicated in the tables below.

EFFECTIVE DATE: March 22, 1981.

FOR FURTHER INFORMATION CONTACT: Martin R. Anker (202) 245–4418.

SUPPLEMENTARY INFORMATION: On February 6, 1981, the Postal Service published for comment in the Federal Register, 46 FR 11296, a notice proposing revised rates of postage for International Express Mail Service as well as a new On Demand Service with France. The notice invited written data, views, or arguments concerning the rates and new service. However, no comments were received. Accordingly, the Postal Service adopts without change the rates of postage for International Express Mail set out in the following tables (designated Tables 1 through 17 for inclusion as separate country entries in the International Mail Manual, incorporated by reference 39 CFR 10.1).

The Postal Service does not intend to institute On Demand Service with France at this time.

(39 U.S.C. 401, 403, 404(2), 407, 410(a), Universal Postal Convention, Lausanne, 1974, T.I.A.S. No. 8231, Art. 6)

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

In consideration of the foregoing, the Postal Service revises Tables 1 through 17 of the International Mail Manual to read as follows which are incorporated by reference in 39 CFR 10.1:

[FR Doc. 81-8042 Filed 3-16-81; 8:45 am]

BILLING CODE 7710-12-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-4-FRL 1776-2]

Approval and Promulgation of Implementation Plans, Prevention of Significant Deterioration of Air Quality: Partial Delegation of Authority to the State of Florida; Address Change

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: Certain provisions of the Clear Air Act authorize the Administrator of the Environmental Protection Agency (EPA) to delegate his authority to implement and enforce the Prevention of Significant Deterioration of Air Quality (PSD) regulations to any State which has submitted adequate implementation and enforcement procedures. At 46 FR 1204, February 2, 1981, a notice was published announcing a partial delegation of authority to the

State of Florida. Under the partial delegation of PSD authority, EPA will continue to issue and enforce PSD permits for sources in Florida but the State will process and evaluate the applications for permits. This document makes address changes for the implementation of the technical and administrative portions of the PSD program.

EFFECTIVE DATE: October 27, 1980.

ADDRESSES: This amendment provides that all reports, requests, applications, submittals, and communications required for the delegated review will now be sent to the following address instead of to EPA's Region IV office: Florida Department of Environmental Regulation, Bureau of Air Quality Management, Twin Towers Office Building, 2600 Blair Stone Road, Tallahassee, Florida 32301.

FOR FURTHER INFORMATION CONTACT:

Archie Lee, Air Programs Branch, Environmental Protection Agency, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30308, 404/881-3043 (FTS 257-3043).

SUPPLEMENTARY INFORMATION: The Regional Administrator finds good cause for forgoing prior public notice and for making this rulemaking effective immediately in that it is an administrative change and not one of substantive content. No additional substantive burdens are imposed on the parties affected. The delegation which is reflected by this administrative amendment was effective October 27, 1980 and it serves no purpose to delay the technical change of this addition of the State address to the Code of Federal Regulations. This rulemaking is effective immediately and is issued under authority of sections 101, 110, and 301 of the Clean Air Act (42 U.S.C. 7401, 7410, and 7601).

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that order.

Under Section 307(b)(1) of the Clean Air Act, judicial review of EPA's approval of this action is available only by the filing of a petition for review in the United States Court of Appeals of appropriate circuit within 60 days of today. Under 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

(Sections 101, 110, and 301 of the Clear Air Act (42 U.S.C. 7401, 7410, and 7601))

Dated: January 20, 1981.

John A. Little,

Acting Regional Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations is amended as follows:

Subpart K—Florida

1. In § 52.520, paragraph (c) is amended by adding subparagraph (26) as follows:

§ 52.520 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * *

(26) Request for delegation of authority for PSD submitted on September 22, 1980, by the Department of Environmental Regulation.

2. § 52.530 is amended by adding a new paragraph (c) as follows:

§ 52.530 Significant deterioration of air quality.

* * * * *

(c) All applications and other information required pursuant to § 52.21 of this part from sources located in the State of Florida shall be submitted to the Florida Department of Environmental Regulation, Bureau of Air Quality Management, Twin Towers Office Building, 2600 Blair Stone Road, Tallahassee, Florida 32301.

[FR Doc. 81-8187 Filed 3-16-81, 8:45 am]

BILLING CODE 6560-38-M

40 CFR Part 180

[PP OE2323/R295; PH-FRL 1778-8]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; Acephate

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for residues of the insecticide acephate (*O,S*-dimethyl acetylphosphoramidothioate) and its cholinesterase-inhibiting metabolite methamidophos (*O,S*-dimethyl phosphoramidothioate) in or on mint hay at 15 parts per million (ppm) (of which not more than 1 ppm is methamidophos). This regulation was requested by the Interregional Research Project No. 4 (IR-4). This regulation establishes the maximum permissible level for residues of acephate in or on mint hay.

EFFECTIVE DATE: March 17, 1981.

ADDRESSES: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Rm. M-3708 (A-110), 401 M St., SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Clinton Fletcher, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 509C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202. (703-557-7123).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of November 3, 1980 (45 FR 72708) that the Interregional Research Project No. 4 (IR-4) had submitted a pesticide petition (PP OE2323) to the EPA. The petition proposed that a tolerance be established for residues of the insecticide acephate (*O,S*-dimethyl acetylphosphoramidothioate) and its cholinesterase-inhibiting metabolite methamidophos (*O,S*-dimethyl phosphoramidothioate) in or on the raw agricultural commodity mint hay at 15 ppm (of which not more than 1 ppm is methamidophos). No comments or request for referral to an advisory committee were received by the agency in response to this notice of proposed rulemaking.

The data submitted in the petition and all other relevant material have been evaluated. The pesticide is considered useful for the purpose for which the tolerance is sought, and it is concluded that the tolerance will protect the public health. Therefore, 40 CFR Part 180 is amended as set forth below.

Any person adversely affected by this regulation may, on or before April 16, 1981 file written objections with the Hearing Clerk, EPA, Rm. M-3708; (A-110), 401 M St., SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested the objections must state the issues for the hearing. A hearing will be granted if the objections are legally sufficient to justify the relief sought.

For regulations exempted from the Order:

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

Effective on: March 17, 1981.

(Sec. 408(e), 68 Stat. 514; (21 U.S.C. 346a(e)))

Dated: February 24, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart C of 40 CFR Part 180 is amended by inserting the following entry for "mint hay" in § 180.108 to read as follows:

§ 180.108 Acephate; tolerances for residues.

* * * * *

15 parts per million (of which no more than 1 ppm is *O, S*-dimethyl phosphoramidothioate) in or on mint hay.

[FR Doc. 81-8100 Filed 3-16-81; 8:45 am]

BILLING CODE 6560-32-M

---

40 CFR Part 180

[PP 8E2123/R300; PH-FRL 1760-5]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; O,O.-Dimethyl S-[(4-OXO-1,2,3-Benzotriazin-3 (4H)-YL) Methyl] Phosphorodithioate

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes tolerances for residues of the insecticide *O,O*-dimethyl *S*-[(4-oxo-1,2,3-benzotriazin-3(4H)methyl] phosphorodithioate) in or on birdsfoot trefoil and birdsfoot trefoil hay. This regulation was requested by the Interregional Research Project No. 4 (IR-4). This rule establishes the maximum permissible level for residues of *O,O*-dimethyl *S*-[(4-oxo-1,2,3-benzotriazin-3(4H)-yl)methyl] phosphorodithioate) on birdsfoot trefoil at 2 parts per million (ppm) and birdsfoot trefoil hay at 5 ppm.

EFFECTIVE DATE: Effective on March 17, 1981.

ADDRESS: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Rm. M-3708, 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Clinton Fletcher, Registration Division (TS-707C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 509C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703-557-7123).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of November 28, 1980 (45 FR 79119) that the Interregional Research Project No. 4 (IR-4), New Jersey Agricultural Experiment Station, PO Box 231, Rutgers University, New Brunswick, NJ 08903 has submitted a pesticide petition 8E2123 to the EPA. The petition proposed that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, establish tolerances for residues of the insecticide *O,O*-dimethyl *S*-[(4-oxo-1,2,3-benzotriazin-3(*4*)-yl)methyl]phosphorodithioate in or on birdsfoot trefoil at 2 parts per million (ppm) and birdsfoot trefoil hay at 5 ppm.

No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

The data submitted in the petition and all other relevant material have been evaluated and it has been determined that the pesticide is considered useful for the purpose for which the tolerances are sought, and that amending 40 CFR Part 180 will protect the public health. Therefore, the tolerance is established as set forth below.

Any person adversely affected by this regulation may, on or before April 16, 1981, file written objections with the Hearing Clerk, EPA, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

For regulations exempted from the Order:

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

Effective date: March 17, 1981.

(Sec. 408(e), 68 Stat. 514, (21 U.S.C. 346a(e)))

Dated: February 24, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart C of 40 CFR Part 180 is amended by alphabetically inserting "birdsfoot trefoil" and "birdsfoot trefoil hay" in the table under § 180.154 to read as follows:

§ 180.154 O,O-dimethyl S-[(4-oxo-1,2,3-benzotriazin-3(4H)-yl)methyl] phosphorodithioate; tolerances for residues.

* * * * *

Commodity	Parts per million
* * * * *	
Birdsfoot trefoil	2
Birdsfoot trefoil hay	5
* * * * *

BILLING CODE 6560-32-M

Proposed Rules

Federal Register
Vol. 46, No. 51
Tuesday, March 17, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

FARM CREDIT ADMINISTRATION

12 CFR Part 618

General Provisions

AGENCY: Farm Credit Administration.

ACTION: Proposed rule.

SUMMARY: The Farm Credit Administration, by its Federal Farm Credit Board, publishes for comment a proposed amendment to its regulation concerning the disposition of obsolete records. Since the U.S. Government no longer has capital in the Farm Credit banks and associations, the banks have requested the requirement for maintaining capital stock records permanently amended or deleted.

DATES: Written comments must be received on or before May 18, 1981.

ADDRESSES: Submit any comments or suggestions in writing to Donald E. Wilkinson, Governor, Farm Credit Administration, Washington, DC 20578. Copies of all communications received will be available for examination by interested persons in the Office of Director, Public Affairs Division, Office of Administration, Farm Credit Administration.

FOR FURTHER INFORMATION CONTACT: Larry H. Bacon, Deputy Governor, Office of Administration, Farm Credit Administration, 490 L'Enfant Plaza, S.W., Washington, DC 20578 (202–755–2181).

SUPPLEMENTARY INFORMATION: FCA regulations currently contain the requirement for maintaining capital stock records permanently. FCA believes this requirement was retained from the time when the U.S. Government had capital in the Farm Credit banks and associations. Since the U.S. Government no longer has capital in the Farm Credit banks and associations, the banks have requested the requirement for maintaining capital stock records permanently amended or deleted. The proposed changes to the regulation provides for microfilming of records, disposition of records upon the expiration of the statute of limitation, except for capital stock transfer records, and retention of capital stock transfer records for 5 years or until the expiration of the statute of limitation, whichever is longer.

PART 618—GENERAL PROVISIONS

12 CFR Part 618 amended by revising § 618.8360 (a) to (c) to read as follows:

§ 618.8360 Authorization.

(a) Banks and associations are authorized to dispose of obsolete records not required for research, legal, or audit purposes in accordance with written procedures, except the following:

(1) Original corporate records, including articles of incorporation, bylaws, and minutes of meetings of stockholders, directors, and committees.

(2) Payroll records, including gross salary and deductions for retirement, social security, and income tax withholding.

(3) Basic personnel records, including personnel folders, service records, cards, and earnings records for all active and former employees covered under the Civil Service Retirement Act.

(4) Records required by Federal or State laws.

(5) Federal records.

(6) Financial reports of the banks and associations as of June 30 and December 31 each year.

(7) Applications, notes, security instruments, financial statements, and any individual records pertaining to loans charged off where the borrower has a significant, enforceable, and residual liability.

(8) Listing of obsolete records destroyed.

(b) If management desires, records may be retained in a form other than the original provided that the records are acceptable for legal evidence of a transaction in the jurisdiction in which the institution is located.

(c) Capital stock transfer records may be disposed of after 5 years following the date on which the stock was retired and the proceeds paid to the owner, or as required by the statute of limitation, whichever is longer. Management will determine if a longer retention period is desirable.

* * * * *

(Secs. 5.9, 5.12, 5.18, Pub. L. 92–181, 85 Stat. 619, 620, 621, 12 U.S.C. 2243, 2246 and 2252)

Donald E. Wilkinson,
Governor.

CIVIL AERONAUTICS BOARD

14 CFR Part 241

[Economic Regulations Policy Statements Dockets 30240 and 31233; EDR-335C, EDR-336C, and PSDR-59C]

Uniform System of Accounts and Reports for Certificated Air Carriers

Dated: March 12, 1981.

AGENCY: Civil Aeronautics Board.

ACTION: Termination of Rulemaking Proceedings.

SUMMARY: The CAB is terminating two rulemakings on the question of excluding air carriers' lobbying and institutional advertising expenditures from Board determinations of rate levels because recent legislative changes have reduced the potential effect of such exclusions. The costs to the carriers and the public of concluding these rulemakings now outweigh the benefit. The rulemakings were in response to a petition by the Aviation Consumer Action Project.

DATES: Adopted: March 12, 1981. Effective: March 17, 1981.

FOR FURTHER INFORMATION CONTACT: Robert S. Goldner, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W, Washington, D.C. 20428, 202–673–5205.

SUPPLEMENTARY INFORMATION: On December 21, 1978, the Aviation Consumer Action Project (ACAP) petitioned the CAB to amend its accounting rules (14 CFR Part 241) to require that certificated air carriers report their lobbying and institutional advertising expenditures as "nonoperating costs", *i.e.*, costs not integrally related to providing air transportation (Sec. 8(3)), which are excluded from the costs used in ratemaking determinations. ACAP felt that such costs should properly be borne by airlines' stockholders rather than paid for by passenger fares.

In 1977, the CAB issued a notice of proposed rulemaking, (EDR–335, 42 FR

46339, September 15, 1977), to require that air carriers report their lobbying expenditures in a separate "nonoperating costs" account. At the same time, the CAB issued an advance notice of proposed rulemaking (EDR–336/PSDR–50, 43 FR 46345, September 15, 1977) to solicit comments on how best to treat advertising costs for ratemaking purposes. The majority of the commenters, mostly airlines and trade associations, opposed the proposed regulation of lobbying and advertising expenditures as anti-competitive, burdensome and an unwarranted interference in air carriers' business decisions. Several of them invoked the First Amendment rights to petition and free speech. Consumer groups supported the rulemakings for the reasons argued by ACAP.

These rulemakings were issued during the time that the CAB was beginning to implement airline deregulation. As the comments indicate, the proper treatment of institutional advertising and lobbying expenses for ratemaking purposes is a sharply disputed issue. The cost effect of the question is relatively trivial, however. It has become more so since the deregulation legislation, and subsequent Board actions, have together created a system of broad zones within which the airlines are free to adjust their prices at will. The effect of the deregulation scheme of a statutorily fixed zone basis (the Standard Industry Fare Level) adjusted periodically for cost increases is that removing these disputed costs from the rate base would have only a *de minimis* effect on permissible fares in any event. At a time when the Board is moving toward complete pricing deregulation, the public benefit of resolving this detailed matter of principle and having the carriers adjust their figures accordingly would, in our judgment, be virtually nil, and would be far outweighed by the costs of doing so. We find, therefore, that it is in the public interest to terminate these rulemakings.

Accordingly, the Civil Aeronautics Board terminates the rulemaking proceedings in Dockets 30240 and 31333.

(Secs. 204, 1002, Pub. L. 85–726, as amended; 72 Stat. 743, 788; 49 U.S.C. 1324, 1482)

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

[Docket No. RM78–22 (Part 7)]

Revision of Commission Rules of Practice; Procedures To Expedite Trial-Type Hearings

March 9, 1981.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: Federal Energy Regulatory Commission proposes to revise its Rules of Practice and Procedure which govern the conduct of Commission proceedings. The purpose of the revision is to expedite Commission proceedings and to establish uniform procedures for proceedings arising from various statutes administered by the Commission.

DATES: Hearing on May 19, 1981 at 10:00 a.m. Written comments by June 1, 1981.

ADDRESS: Comments should be sent to and hearing will be held at: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 (Reference Docket No. RM78–22, Part 7).

FOR FURTHER INFORMATION CONTACT:

Maryjane Reynolds, Office of Commissioner Hughes, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, (202) 357–8388.

Christine P. Benagh, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, (202) 357–8606.

SUPPLEMENTARY INFORMATION:

I. Introduction and Summary

This rulemaking has three objectives. First, it proposes new procedural rules for cases which may be set for hearing. These new rules are contained in Subparts A, B, E, F, G, and T of the new Part 385. They would replace parallel provisions in Part 1.

Second, it would implement one step in the new organization for the procedural rules. It would remove from Part 1 the remaining rules of practice and place them in Subparts H, I, J, K, M, S, U, and V of Part 385. It also removes the public information regulations from Part 1 and places them in Part 388.

Third, it would make oil pipeline proceedings subject to the Commission rules with two exceptions: the ICC ex parte rule and ICC modified procedures would remain applicable to oil pipeline matters pending Commission rules on these subjects. No other procedural rules of the ICC would apply to oil pipeline proceedings.

II. Background

Since its inception in 1977, the Commission has been faced with a substantial backlog and numerous proceedings which had been pending for a number of years. In mid-1978, it undertook an examination of its decisionmaking process. To this end, the Commission established an Advisory Committee on the Rules of Practice and Procedure. One of the Subcommittees was asked to focus on the Hearing procedures.[1] The work product of that Subcommittee is the subject of this rulemaking.

There are two primary objectives in this proposed rulemaking: to create a comprehensive set of rules that can be easily understood by all persons affected by Commission action and to recommend new hearing procedures that would remove unnecessary work from the Commission's agenda and expedite decisionmaking by the Commission.

The need for reorganized and comprehensive procedural rules is compelling. The DOE Act conferred upon the Commission many functions of the old Federal Power Commission ("FPC") as well as the oil pipeline ratemaking functions of the Interstate Commerce Commission ("ICC"). Savings provisions in the DOE Act (42 U.S.C. 7295) continued the effectiveness of FPC and ICC regulations for Commission proceedings previously conducted by those agencies until such time as the Commission promulgates its own procedural rules. Accordingly, at this time, the Commission operates under two unreleated sets of rules. This, of course, is difficult and confusing for both the Commission and the public. Equally confusing is the fact that in many respects the existing rules are obsolete and do not accurately reflect current Commission practice.

Work on these proposed rules has led to the conclusion that a complete reorganization of the procedural rules was necessary to achieve a set of rules that could be easily found and understood. The general reorganization,

[1] Staff prepared two discussion drafts on revisions of the hearings procedures. These drafts were the subject of two public meetings of the Subcommittee. The drafts and transcripts of the meetings are available for inspection at the Commision's Division of Public Information.

which extends beyond the parameters of this proposed rule are described in III. *Reorganization, infra.*

The need to expedite proceedings is self-evident. Various proposals to do this are discussed in IV. *Discussion of the Proposed Rule, infra.* They include delegations to the Chief Administrative Law Judge to consolidate and sever. They would also allow the Presiding Administrative Law Judge to phase cases and to summarily dispose of issues or an entire proceeding without full hearing. Suggestions on additional ways to expedite hearings are most welcome.

The efforts in this rulemaking were directed to rules that would apply to cases which might be set for hearing. This, of course, includes rules for all types of pleadings, including petitions, applications, answers, and motions. It would require repeal of a number of the provisions in Part 1. Since the provisions proposed to be repealed were an integral part of the rules that were not being replaced, we have moved the remaining rules (those not directly involving cases which might be set for hearing) to the new Part 385. These transferred provisions are explained in more detail in Part IV, B.

III. The Proposed Reorganization

In March 1980 the Commission initiated the reorganization and updating of its Procedural Rules. It placed its rules relating to its establishment and internal management of the Commission in Subchapter W, Parts 375 and 376. Simultaneously, it revoked obsolete and parallel provisions that were previously scattered throughout Subchapter A, Parts O, 1, and 3.

This rulemaking would implement the second major step in the reorganization. It would place all Commission rules concerning the conduct of business by members of the public in a new Subchapter X. Specifically, Part 385 would contain rules of practice and procedure. Parts 386 and 387 would be reserved and Part 388 would contain the provisions concerning access to public information. It would also repeal all provisions currently found in Part 1 (except Subpart A) since these provisions would be contained in Parts 385 and 388. Part 1 would be solely for definitions and rules that are used throughout all Commission regulations.

The following chart indicates our present plan for reorganization. It includes not only the new and proposed Parts 375, 376, 385, and 388 but also indicates Parts tentatively assigned to rules which have not yet been promulgated and which are not part of this rulemaking, e.g., Part 380, Environmental Policy Act Regulations. It also indicates where some existing Commission Rules will be recodified, e.g., Part 379, Standards of Conduct for Commission Employees.

TITLE 18—CODE OF FEDERAL REGULATIONS

CHAPTER 1—FEDERAL ENERGY REGULATORY COMMISSION

Subchapter A

Part
1—Definitions Used in This Chapter.
2—General Policy and Interpretations.
3—Reserved.

Subchapter W

375—The Commission.
376—Organization, Mission and Functions, Operations During Emergency Conditions.
377—National Security Information.
378—Privacy Act Regulations.
379—Standards of Conduct for Commission Employees.
380—National Environmental Policy Act Rules.
381–384—Reserved.

Subchapter X

385—Rules of Practice and Procedure.
386—Investigations.
387—Reserved.
388—Freedom of Information Act Rules.
389–399—Reserved.

IV. Discussion of the Proposed Rule

A. *New rules on hearing procedures.* Subparts A, B, E, F, G, and T of proposed Part 385 are new provisions, often representing substantial revisions to corresponding provisions in the current regulations. Particular issues upon which the Commission has focused are highlighted below in the context of the summary of each of the revised subparts. Staff has prepared two memoranda. One discusses the derivation of the proposed rules and details distinctions between the proposed and current rules. The second is a derivation table that indicates the sections of the current rule that are being replaced by the proposed rule. Although they are not official Commission documents, they are available in the Division of Public Information to assist persons in their preparation of comments.

Subpart A of Part 385 describes the applicability of Part 385 and defines common terms used throughout the part. Subpart A also codifies Commission authority to waive its procedural rules for good cause. Some members of the Advisory Committee were concerned that abuses could arise under the waiver provision. However, the Commission believes that the public interest is protected by the Commission's recognition that it may not exercise waiver authority if to do so would unduly prejudice persons appearing before the Commission.

Subpart B contains the general rules governing tariff or rate filings, applications, complaints, petitions, protests to oil pipelines valuations, notices of tariff or rate examination, orders to show cause, protests, motions, answers, interventions, amendments, withdrawal of pleadings, and summary disposition. This subpart corresponds to portions of §§ 1.5–1.12 of the present rules, and is generally applicable whenever these procedures are used in proceedings before the Commission.

The proposed rule condenses many of the current pleadings requirements. It departs from the current rules in some respects in order to expedite, simplify or clarify the procedures. The sections regarding tariff or rate schedule filings, protests to oil pipeline valuations, notices of examinations of tariffs or rate schedules, and summary disposition (Rules 205, 206, 209 and 216, respectively) are new, although they reflect current Commission practice.

The proposed intervention rule (Rule 213) contains three changes from current practice. First, it makes intervention automatic when there is no opposition. Second, the proposed rule contains stricter standards for late interveners to discourage late intervention. Finally, under the current rule, State commissions may intervene at any time by filing a notice of intervention. We retain notice procedure for State commissions if their intervention is timely, but if they are late they must file a motion to intervene like private parties. There is some concern that the possibility that a State Commission may be denied intervention for filing late would present a more serious disadvantage to the Commission than that caused by late intervention.

Subpart B also codifies, in Rule 216, the current Commission practice of allowing summary disposition by a presiding officer of a proceeding or portion of a proceeding, even though the Commission has set the proceeding for hearing.

Subpart B, in Rule 211, requires that protests be served on the person who is the subject of the protest, but delegates to the Secretary the authority to waive the service requirement. In all cases the protest is to be placed in the public file. Certain members of the Advisory Committee expressed concern that the absence of this waiver provision might prevent persons unfamiliar with formal Commission practice from being heard

in protest to a given tariff or rate. However, the Commission believes that the Secretary should waive the service rule judiciously.

Subparts C and D are reserved for future rules. Subpart D is tentatively set aside for new discovery rules that are being developed. Pending promulgation of new rules, the existing provisions on subpoenas and depositions would be continued in effect and recodified in Rules 1905 and 1906. We note, however, that Rules 1905 and 1906 would apply to all pipeline proceedings until new discovery rules are promulgated for all Commission proceedings. We believe the need for uniform rules outweigh the inconvenience that might arise from adjusting to the existing FPC rules and then adjusting to any changes in these rules at a later time. However, we specifically seek comment on this conclusion.

Subpart E applies to proceedings which the Commission sets for hearing under the subpart. Under the proposed rule, these are proceedings in which, unless sooner disposed of, a decision is made by a presiding officer after an on-the-record hearing. Proceedings to fix rates or concerning the grant of certificates or licenses under the Federal Power Act, the Natural Gas Act, or the Interstate Commerce Act, would usually be conducted under these rules. The subpart deals with hearings, consolidation and severance, presiding officers, witnesses, testimony, exhibits, evidence, stipulations, and transcripts. The proposed rule rearranges and simplifies corresponding sections of the Commission's rules (§§ 1.20–1.27). It recodifies the substance of the current rule on evidence. However, the Commission is tentatively considering the possibility of reworking this rule to more closely conform to the *Federal Rules of Evidence* and seeks comment on initiating a separate rulemaking docket for this purpose.

Subpart E departs from the current rules in several ways. In particular, the provisions on consolidation and severance, Rule 503, would delegate this authority to the Chief Administrative Law Judge rather than to the Secretary, as in the current rule. Administrative law judges would also have the authority to phase a proceeding. Oral testimony not conducted in the presence of presiding officer and written cross-examination have been suggested to the Commission as useful ways to expedite hearings (Rule 502). The Commission does not propose their adoption in this rulemaking. They are included in Rule 506 in order to obtain comments with respect to them.

Subpart F includes provisions on conferences, offers of settlement, and settlement judges. The provisions on conferences, Rule 601, encourages pre-hearing conferences in cases set for hearing. The rules also encourage the use of a conference to reach a settlement prior to a hearing. The proposed provisions on settlement offers and settlement judges, Rule 603, contain no major substantive changes from the current rules, which were recently promulgated (Order 32, "Amendment to § 1.18 of the Rules of Practice and Procedure," 45 FR 45,902, (July 8, 1980)). The new rules add that the Oil Pipeline Board may approve or disapprove settlement offers, subject to appeal to the Commission.

Subpart G governs decisions and administrative review of decisions in proceedings set for hearing under Subpart E, and in other proceedings designated by the Commission. It contains provisions on decisions generally, participants' rights, briefs, oral argument, types of decision, exceptions to decisions, Commission review, certified questions, interlocutory appeals, rehearing, and reopening. The subpart simplifies and clarifies rules which now appear in §§ 1.29 through 1.34. The proposed rule requires the preparation of an initial decision in which a presiding officer, other than the Commission, has presided over the reception of evidence. However, the Commission may order a different decisionmaking procedure under section 557 of title 5 of the *United States Code*.

As redrafted, the rules eliminate the confusing distinctions in the current rules between intermediate, recommended, and tentative decisions. The proposed rule also affords participants the right to either file initial briefs or make oral arguments. The presiding officer is to decide which of the two options, or both, is to be granted to participants. Participants also may submit reply briefs or make oral argument unless prohibited or restricted by the presiding officer. As a general rule, participants are required to file their briefs simultaneously.

A new provision is added at the exceptions stage of a proceeding, providing that failure to take exception to an initial decision will result in a waiver of taking exception at a later time.

Subpart T applies to all Commission proceedings, rather than only those held on-the-record. It would revise the manner in which pleadings and other documents are prepared, filed, docketed, noticed, and served. It would also control time deadlines and their extension.

B. *Renumbered Provisions.* Subparts H, I, J, K, M, S, U, and V of Part 385 and all of Part 388 (which would be established by this rule) are portions of the current Rules of Practice and Procedure that the Commission proposes to renumber, without substantive change, so as to integrate them into the new organizational structure. The following chart indicates the section of current FPC regulations to which each of these subparts corresponds. The only changes made to the provisions contained in these subparts are technical, conforming and clarifying. The Commission seeks limited comment in these provisions. At this time, we merely wish to ascertain whether these renumbered provisions have been properly integrated with the newly written provisions of Subparts A, B, E, F, G, and T. The Commission requests that no comments be submitted at this time on the renumbered, but unchanged provisions. These renumbered provisions will be the subject of subsequent rulemaking. At that time, we will seek comments on the merits of these procedures. Some of these provisions were adopted by the Commission as interim rules; the renumbering proposed here would not affect that status.

Renumbered provision	Current provision
Part 385:	Part 1:
Subpart H—Shortened procedures.	§ 1.32.
Subpart I—Commission review of remedial orders.	§ 1.38.
Subpart J—Commission review of adjustment request denials.	§ 1.40.
Subpart K—Petitions for adjustment under the NGPA.	§ 1.41.
Subpart M—Cooperative procedure with state commissions.	§ 1.37.
Subpart S—Miscellaneous	§ 1.7(d), § 1.19(a), §§ 1.21, 1.23, §§ 1.24, 1.35.
Subpart U—Appearance and practice before the Commission.	§ 1.4 (except (d)).
Subpart V—Ex Parte communications; Separation of functions of staff.	§ 1.4(d), § 1.30(f).
Part 388: Public information and requests.	§ 1.36.

C. *Miscellaneous.* The proposed rule would repeal §§ 1.1 through 1.51 of the Commission's current Rules of Practice and Procedure and terminate the applicability of the Interstate Commerce Commission's procedural rules (49 CFR Part 1100, except §§ 1100.43–1100.52 and Appendix C) as they apply to oil pipeline proceedings. In addition, the proposed rule would make technical, conforming changes to cross-references throughout the substantive rules of the Commission to reflect the proposed

revisions. Finally, the proposed rule would require **Federal Register** notice of tariff and rate schedule filings by oil pipelines; therefore, the proposed rule includes a **Federal Register** notice form which oil pipeline companies would be required to submit along with their tariff and rate schedule filings.

D. *Proposed effective date.* The Commission contemplates that these proposed rules would have a delayed effective date of possibly 60–90 days after they have been adopted. They would apply to all proceedings as of that date. However, parties in proceedings that commenced prior to the effective date could, under appropriate circumstances, seek leave to conclude those proceedings under the old rules. The Commission seeks comment on this effective date treatment and particularly on the appropriate treatment of on-going proceedings.

V. Comment Procedure

Interested persons are invited to submit written comments on the proposed rule to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Comments should refer to Docket No. RM78–22 (Part 7), on the outside of the envelope and on all documents submitted to the Commission. To ensure proper consideration of their comments, it is essential that persons submitting comments should identify specifically the section and paragraph they are addressing. When persons submitting comments urge an approach different from the one proposed here, a specific alternative provision should be submitted to the extent practicable.

Fourteen copies should be submitted with the original. All comments received by the Commission by June 1, 1981, will be considered prior to the promulgation of the final rule. Written comments will be available for public inspection during business hours at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426.

A public hearing concerning this proposal will be held at the offices of the Commission at 825 North Capitol Street NE., Washington, D.C. on May 19, 1981, beginning at 10:00 a.m. and will continue if necessary on the following day. Any person interested in this proceeding or representing a group or class of persons interested in this proceeding may make a presentation at the hearing provided a written request to participate is received by the Secretary of the Commission prior to 4:30 p.m. on April 27, 1981.

Requests to participate in the hearing should reference Docket No. RM78–22 (Part 7) and should include the telephone number of the person making the request. At least five copies of the statement shall be submitted with the request to participate to the Secretary of the Commission. The presiding officer is authorized to limit oral presentation at the public hearing both as to length and substance. The presiding officer may also limit the participation of interested persons representing similar interests to a combined presentation. Participants should, if possible, bring 100 copies of their testimony to the hearing.

The hearing will not be an evidentiary-type hearing. There will be no cross-examination. The presentation will be made before a panel whose members will be designated by the Chairman of the Commission. The panel may question persons presenting statements. Any interested person may submit questions to the presiding officer to be asked of persons making statements. The presiding officer will determine whether the question is relevant and whether the time limitations permit it to be presented. If time permits, at the conclusion of the initial oral statements, persons who have made oral statements will be given the opportunity to make a rebuttal statement. Any further procedural rule will be announced by the presiding officer at the hearing. A transcript of the hearing will be made available at the Commission's Division of Public Information.

(Administrative Procedure Act, 5 U.S.C. 551–557; Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.;* Federal Power Act, 16 U.S.C. 791–828C, as amended; Natural Gas Act, 15 U.S.C. 717–717w, as amended; Natural Gas Policy Act of 1978, 15 U.S.C. 3301 *et seq.;* Public Utilities Act, of 1978, 16 U.S.C. 2601 *et seq.;* Interstate Commerce Act, 49 U.S.C. 1 *et seq.;* E.O. 12009, 3 CFR, 1977 Comp., p. 142)

In consideration of the foregoing, the Commission proposes:

(1) To terminate the applicability of the Interstate Commerce Commission's General Rules of Practice (49 *Code of Federal Regulations,* Part 1100) to oil pipeline matters, except for §§ 1100.43 through 1100.52 (modified procedures) and Appendix C to Part 1100 (*ex parte* rules); and

(2) To amend Chapter I of Title 18, *Code of Federal Regulations,* as set forth below.

By direction of the Commission.

Edward B. Frigillana,

Acting Secretary.

1. The table of contents to Chapter I of Title 18 of the *Code of Federal Regulations* is amended by revising the entry for Part 1 and by adding a new Subchapter X to read as follows:

CHAPTER I—FEDERAL ENERGY REGULATORY COMMISSION

SUBCHAPTER A—GENERAL RULES

Part

1 Rules of General Applicability

* * * * *

SUBCHAPTER X—PROCEDURAL RULES

* 385 Rules of practice and procedure
386 [Reserved]
387 [Reserved]
* 388 Public information and requests
389—399 [Reserved]

2. Chapter I of Title 18 of the *Code of Federal Regulations* is amended in Part 1 by removing §§ 1.1 through 1.51, inclusive and by adding paragraphs (i)–(l) to § 1.101 as set forth below. Part 1 is revised in its table of contents and authority citation to read as follows:

PART 1—RULES OF GENERAL APPLICABILITY

Subpart A—Definitions and Rules of Construction

Sec.

1.101 Definitions.
1.102 Words denoting, number, gender, and so forth.

Subpart B—[Reserved]

Authority: Administrative Procedure Act, 5 U.S.C. 551–557; Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.;* Federal Power Act, 16 U.S.C. 791–828C, as amended; Natural Gas Act, 15 U.S.C. 717–717w, as amended; Natural Gas Policy Act of 1978, 15 U.S.C. 3301 *et seq.;* Public Utilities Act, of 1978, 16 U.S.C. 2601 *et seq.;* Interstate Commerce Act, 49 U.S.C. 1 *et seq.;* 12009, 3 CFR, 1977 Comp., p. 142.

Subpart A—Definitions and Rules of Construction

§ 1.101 Definitions.

* * * * *

(i) "Administrative law judge" means an officer appointed under section 3105 of title 5 of the *United States Code.*

(j) "Attorney" means an attorney admitted to practice before the Supreme Court of the United States, or the highest court of any State, Territory of the United States, or the District of Columbia, or any other person with the requisite qualifications to represent others, who acts in a representative capacity for any participant before the Commission.

(k) "Person" means an individual, partnership, corporation, association, joint stock company, public trust, an organized groups of persons, whether incorporated or not, a receiver or trustee of the foregoing, a political subdivision of a State, the District of Columbia, any

territory of the United States or any agency of any of the foregoing, any agency, authority, or instrumentality of the United States (other than the Federal Energy Regulatory Commission), or any corporation which is owned directly or indirectly by the United States or any officer, agent, or employee of any of the foregoing acting as such in the course of his or her official duty. The term also includes a foreign government or any agency, authority, or instrumentality thereof.

(l) "State Commission" means the regulatory body of any State or municipality having jurisdiction to regulate rates or charges for the sale of electric energy or natural gas to consumers of for the transportation of oil by pipeline within the State or municipality.

. . . . .

Subpart B—[Reserved]

3. Chapter I is further amended by adding a new Subchapter X consisting of Parts 385 and 386 to read as follows:

SUBCHAPTER X—PROCEDURAL RULES

Part

385 Rules of practice and procedure.
386 [Reserved]
387 [Reserved]
388 Public information and requests.
389—399 [Reserved]

PART 385—RULES OF PRACTICE AND PROCEDURE

Subpart A—Applicability and Definitions

Sec.

385.101 Applicability. (Rule 101).
385.102 Definitions. (Rule 102).
385.103 References to, and citation of, rules. (Rule 103).

Subpart B—Pleadings, Tariff or Rate Filings, Notices of Tariff or Rate Examination, Orders To Show Cause, Intervention and Summary Disposition

385.201 Applicability. (Rule 201).
385.202 Types of pleadings. (Rule 202).
385.203 Content of pleadings and tariff or rate filings. (Rule 203).
385.204 Applications. (Rule 204).
385.205 Tariff or rate filings. (Rule 205).
385.206 Complaints. (Rule 206).
385.207 Petitions. (Rule 207).
385.208 Notices of protest to tentative oil pipeline valuations. (Rule 208).
385.209 Notices of tariff or rate examination and orders to show cause. (Rule 209).
385.210 Notice. (Rule 210).
385.211 Other protests. (Rule 211).
385.212 Motions. (Rule 212).
385.213 Answers. (Rule 213).
385.214 Intervention. (Rule 214).
385.215 Amendment of pleadings. (Rule 215).
385.216 Withdrawal of pleadings. (Rule 216).
385.217 Summary dispositon. (Rule 217).

Subpart C-D—[Reserved]

Subpart E—Hearings

Sec.

385.501 Applicability. (Rule 501).
385.502 Initiation of hearing. (Rule 502).
385.503 Consolidation and severance by Chief Administrative Law Judge. (Rule 503).
385.504 Duties and powers of presiding officers. (Rule 504).
385.505 Right of participants to present evidence. (Rule 505).
385.506 Examination of witnesses. (Rule 506).
385.507 Prepared written testimony. (Rule 507).
385.508 Exhibits. (Rule 508).
385.509 Admissibility of evidence. (Rule 509).
385.510 Miscellaneous provisions. (Rule 510).

Subpart F—Conferences, Settlements, and Stipulations

385.601 Conferences. (Rule 601).
385.602 Submission of settlement offers. (Rule 602).
385.603 Settlement negotiations before a settlement judge. (Rule 603).
385.604 Refusal to make admissions or stipulations. (Rule 604).

Subpart G—Decisions

385.701 Applicability. (Rule 701).
385.702 Definitions. (Rule 702).
385.703 Contents of decisions. (Rule 703).
385.704 Rights of participants before initial decision. (Rule 704).
385.705 Additional powers of presiding officer with respect to briefs. (Rule 705).
385.706 Initial and reply briefs before initial decision. (Rule 706).
385.707 Oral argument before initial decision. (Rule 707).
385.708 Initial decisions by presiding officer. (Rule 708).
385.709 Other types of decisions. (Rule 709).
385.710 Waiver of the initial decision. (Rule 710).
385.711 Exceptions and briefs on exceptions after initial decision. (Rule 711).
385.712 Commission review of initial decision in the absence of exceptions. (Rule 712).
385.713 Request for rehearing. (Rule 713).
385.714 Certified questions. (Rule 714).
385.715 Interlocutory appeals to the Commission from rulings of presiding officers. (Rule 715).
385.716 Reopening. (Rule 716).

Subpart H—Shortened Procedures

385.801 Waiver of hearing. (Rule 801).
385.802 Noncontested proceedings. Rule 802).

Subpart I—Commission Review of Remedial Orders

385.901 Scope. (Rule 901).
385.902 Definitions. (Rule 902).
385.903 Request for nondisclosure of information. (Rule 903).
385.904 Commencement of proceeding. (Rule 904).
385.905 Stay of contested order. (Rule 905).
385.906 Pleadings. (Rule 906).
385.907 New facts and issues. (Rule 907).
385.908 Discovery. (Rule 908).
385.909 Hearing. (Rule 909).
385.910 Conduct of the hearing. (Rule 910).
385.911 Burden of proof. (Rule 911).
385.912 Proposed findings of fact, conclusions of law, and comments. (Rule 912).
385.913 Proposed order. (Rule 913).
385.914 Commission action. (Rule 914).
385.915 Ex parte communications. (Rule 915).
385.916 Withdrawal of petition for review. (Rule 916).
385.917 Sanctions. (Rule 917).

Subpart J—Commission Review of Adjustment Request Denials

385.1001 Scope. (Rule 1001).
385.1002 Definitions. (Rule 1002).
385.1003 Request for nondisclosure of information. (Rule 1003).
385.1004 Commencement of proceedings. (Rule 1004).
385.1005 Replies. (Rule 1005).
385.1006 Request for hearing. (Rule 1006).
385.1007 Presiding officer. (Rule 1007).
385.1008 Hearings. (Rule 1008).
385.1009 Proof. (Rule 1009).
385.1010 Proposed order. (Rule 1010).
385.1011 Final order. (Rule 1011).
385.1012 Ex parte communications. (Rule 1012).

Subpart K—Petitions for Adjustments Under the NGPA

385.1101 Applicability. (Rule 1101).
385.1102 Definitions. (Rule 1102).
385.1103 Commencement of proceeding. (Rule 1103).
385.1104 Initial petition. (Rule 1104).
385.1105 Intervention. (Rule 1105).
385.1106 Other filings. (Rule 1106).
385.1107 Evaluations. (Rule 1107).
385.1108 Criteria. (Rule 1108).
385.1109 Orders. (Rule 1109).
385.1110 Review of initial decision and order for adjustment. (Rule 1110).
385.1111 Conferences. (Rule 1111).
385.1112 Requests for confidential treatment. (Rule 1112).
385.1113 Interim relief. (Rule 1113).
385.1114 Motions. (Rule 1114).
385.1115 Procedural rulings. (Rule 1115).
385.1116 Appeals. (Rule 1116).
385.1117 Application for adjustment treatment as request for interpretation. (Rule 1117).

Subpart L—[Reserved]

Subpart M—Cooperative Procedure With State Commissions

385.1301 Policy. (Rule 1301).
385.1302 Notice. (Rule 1302).
385.1303 Conferences. (Rule 1303).
385.1304 Procedure governing matters referred to a board. (Rule 1304).
385.1305 Joint and concurrent hearings. (Rule 1305).
385.1306 Intervention by state commissions. (Rule 1306).

Subpart N-R—[Reserved]

Subpart S—Miscellaneous

385.1901 Interpretations and interpretative rules under NGPA. (Rule 1901).
385.1902 Appeals from action of staff. (Rule 1902).

Sec.
385.1903 Notice in rulemaking proceedings. (Rule 1903).
385.1904 Copies of transcripts. (Rule 1904).
385.1905 Subpoenas. (Rule 1905).
385.1906 Depositions. (Rule 1906).
385.1907 Reports of compliance. (Rule 1907).

Subpart T—Formal Requirements for Filings in Proceedings Before the Commission

385.2001 Filings. (Rule 2001).
385.2002 Caption of filings. (Rule 2002).
385.2003 Specifications. (Rule 2003).
385.2004 Copies of filings. (Rule 2004).
385.2005 Subscription and verification. (Rule 2005).
385.2006 Docket system. (Rule 2006).
385.2007 Time. (Rule 2007).
385.2008 Extension of time. (Rule 2008).
385.2009 Notice. (Rule 2009).
385.2010 Service. (Rule 2010).

Subpart U—Appearance and Practice Before the Commission

385.2101 Appearances. (Rule 2101).
385.2102 Suspension. (Rule 2102).
385.2103 Appearance of former employees. (Rule 2103).

Subpart V—Ex Parte Communications; Separation of Functions

385.2201 Ex Parte communications. (Rule 2201).
385.2202 Separation of functions of staff. (Rule 2202).

Subpart W-Z—[Reserved]

Authority: Administrative Procedure Act, 5 U.S.C. 551–557; Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Federal Power Act, 16 U.S.C. 791–828C, as amended; Natural Gas Act, 15 U.S.C. 717–717w, as amended; Natural Gas Policy Act of 1978, 15 U.S.C. 3301 *et seq.*; Public Utilities Act, of 1978, 16 U.S.C. 2601 *et seq.*; Interstate Commerce Act, 49 U.S.C. 1 *et seq.*; 12009, 3 CFR, 1977 Comp., p. 142.

Subpart A—Applicability and Definitions

§ 385.101 Applicability. (Rule 101.)

(a) *General rule.* This part contains procedural rules for filings and proceedings.

(b) *Exceptions.* (1) This part does not apply to formal investigations under Part 1b of this chapter.

(2) If a provision of Part 385 is inconsistent with another provision of this chapter, the latter provision controls.

(3)(i) Part 385 replaces the Interstate Commerce Commission *General Rules of Practice*, 49 CFR Part 1100, except that §§ 1100.42 through 1100.52 (modified procedure) and Appendix C to Part 1100 (ex parte) continue to apply to oil pipeline matters.

(ii) If a provision of Part 385 is inconsistent with a provision of Title 49 of the *Code of Federal Regulations* concerning oil pipeline matters which has not been replaced by Commission rule or order, the latter provision controls.

(c) *Waiver.* For good cause the Commission may waive, to the extent permitted by law, any provision in this part or provide for a different procedure.

§ 385.102 Definitions. (Rule 102.)

For purposes of this part:

(a) "Decisional authority," with respect to any question, means the Commission or Commission employee (including the Oil Pipeline Board) who at the time of the decision on such question has the authority or responsibility under this chapter, and under applicable provisions of Title 49 of the *Code of Federal Regulations*, to act with respect to that question.

(b) "Participant" means (1) a party, or (2) an employee of the Commission assigned to present the position of the Commission staff in a proceeding before the Commission.

(c) "Party" means (1) a person who files an application, petition, tariff or rate filing, complaint, or protest under section 19a(i) of the Interstate Commerce Act (49 U.S.C. 19a(i)), (2) a respondent to a proceeding, or (3) a person who has been permitted to intervene in a proceeding.

(d) "Presiding officer" (1) when used with respect to a proceeding set for hearing Subpart E of this chapter, means one or more of the members of the Commission or one or more administrative law judges designated to preside at such hearing, or, if no Commissioner or administrative law judge is yet designated, the Chief Administrative Law Judge; and (2) when used with respect to any other proceeding, means any employee (including the Oil Pipeline Board) designated by rule or order to conduct that proceeding.

(e) "Respondent" means (1) a person to whom an order to show cause or notice of tariff or rate examination is issued by the Commission, (2) a person against whom a complaint is directed, or (3) a person designated as a respondent by the Commission or by other provisions of this chapter.

§ 385.103 Reference to, and citation of, rules. (Rule 103.)

This part is referred to as the "Rules of Practice and Procedure." Each section of Part 385 is referred to as a "Rule." The number of each rule includes only the numbers at the right of the decimal point in the section designation. For example, "§ 385.103 *References to, and citation of, rules.*" is referred to as "Rule 103."

Subpart B—Pleadings, Tariff or Rate Filings, Notices of Tariff or Rate Examination, Orders To Show Cause, Intervention and Summary Disposition

§ 385.201 Applicability. (Rule 201.)

This subpart contains the requirements for pleadings, tariff or rate filings, notices of tariff or rate examination, orders to show cause, interventions, and summary dispositions.

§ 385.202 Types of pleadings. (Rule 202.)

Pleadings include applications, complaints, petitions, protests, notices of protest, answers, motions and amendments or withdrawals thereof.

§ 385.203 Content of pleadings and tariff or rate filings. (Rule 203.)

(a) *Requirements for all pleadings or tariff or rate filings.* Each pleading or tariff filing must include, if appropriate:

(1) If known, the reference numbers, docket numbers, or other identifying symbols of any relevant tariff, rate, schedule, contract, application, rule, or similar matters or material;

(2) The name of each participant on behalf of whom the pleading or tariff filing is made;

(3) The specific authorization or relief sought;

(4) The tariff sheets;

(5) If not previously set forth, the relevant facts;

(6) To the extent known when a pleading is filed, the position taken by the participant filing such pleading, and the basis in fact and law for such position;

(7) Subscription or verification, if required;

(8) A certificate of service under Rule 2010(h), if service is required;

(9) The name, address, and telephone number of an individual who, with respect to any matter contained in the filing, represents the person on behalf of whom the filing is made; and

(10) All other information required to be included by statute or Commission rule or order.

(b) *Combined pleadings.* If two or more pleadings are included in a single filing, each pleading must be separately designated and must conform to the requirements applicable to such pleading.

(c) *Requirements for first pleadings or tariff or rate filings.* In addition to the requirements in paragraph (a) of this section, the first pleading or tariff or rate filing filed by a participant or by a person who is seeking to become a party must include:

(1) The exact legal name of the person on whose behalf the filing is made;

(2) The location of that person's principal place of business; and

(3) The name and address of at least one, but not more than two, persons upon whom service is to be made and to whom communications are to be addressed in the proceeding.

§ 385.204 Applications. (Rule 204.)

A person must file an application to obtain a license, permit, certification, or similar authorization or permission.

§ 385.205 Tariff or rate filings. (Rule 205.)

A person must make a tariff or rate schedule filing to establish or change a specific rate, rate schedule, tariff, tariff schedule, fare, charge, or term, condition of service, classification, contract, practice, or an applicant's regulation, related thereto.

§ 385.206 Complaints. (Rule 206.)

(a) *General rule.* A person may file a complaint to seek Commission action against another person alleged to be in contravention or violation of any statute, rule, order, or other authority administered by the Commission, or for any other alleged wrong over which the Commission may have jurisdiction.

(b) *Content.* In addition to the requirements of Rule 203 (content), a complaint must include the name and address of each person against whom it is directed.

(c) *Answers.* The person against whom a complaint is directed must respond to such complaint by filing an answer.

(d) *Satisfaction.* (1) If the respondent to a complaint satisfies such complaint, in whole or in part, either before or after an answer is filed, the complainant and the respondent must sign and file:

(i) A statement setting forth when and how the complaint was satisfied; and

(ii) A motion for dismissal of, or an amendment to, the complaint based on the satisfaction.

(2) The decisional authority may order the submission of additional information before acting on a motion for dismissal or an amendment under paragraph (d)(1)(ii) of this section.

§ 385.207 Petitions. (Rule 207.)

(a) *General rule.* A person must file a petition to seek Commission action:

(1) Granting relief under Subparts I, J and K;

(2) Issuing a declaratory order or rule to terminate a controversy or remove uncertainty;

(3) Granting relief from a staff action (other than a decision or ruling of a presiding administrative law judge) taken pursuant to authority delegated under this part or otherwise that would be final but for this section; or

(4) Taking other action which is in the discretion of the Commission and for which this chapter prescribes no other form of pleading.

(b) *Declarations of intent under the Federal Power Act.* For purposes of this part, a declaration of intent under section 23(b) of the Federal Power Act is treated as a petition for a declaratory order.

§ 385.208 Notices of protest to tentative oil pipeline valuations. (Rule 208.)

(a) *General rule.* A person who objects to a tentative valuation of an oil pipeline under section 19a of the Interstate Commerce Act (49 U.S.C. 19a(i)) must file the notice of protest required under that section. A notice of protest has the effect prescribed in section 19a of the Interstate Commerce Act (49 U.C.S. 19a).

(b) *Service.* A notice of protest must be served by the protestant on the oil pipeline whose tentative valuation is protested.

§ 385.209 Notices of tariff or rate examination and orders to show cause. (Rule 209.)

(a) *Issuance.* (1) When the Commission seeks to determine the validity of a rate, charge, or classification demanded, observed, charged, or collected, the Commission may initiate a proceeding by issuing a notice of tariff or rate examination.

(2) The Commission may initiate a proceeding against a person by issuing an order to show cause.

(b) *Contents.* The notice or order will contain a statement of the matters about which the Commission is inquiring, and a statement of the Commission's authority under which it is acting. The statement is tentative and for the purposes of framing issues for consideration and decision by the Commission.

(c) *Answers.* A person against whom an order to show cause is directed must answer in accordance with Rule 213 (answers).

§ 385.210 Notice. (Rule 210.)

When appropriate, the Secretary will cause notices of tariff or rate filings, applications, petitions, notices of tariff or rate examinations, and orders to show cause, to be made in accordance with Rule 2009 (notice). The notice will establish the dates for filing interventions and protests.

§ 385.211 Other protests. (Rule 211.)

(a) *General rule.* A person may file a protest who objects to an application, complaint, petition, order to show cause, notice of tariff or rate examination, or tariff or rate filing. The filing of a protest does not make the protestant a party to the proceeding. The protestant must intervene to become a party. The Commission will consider protests in determining further appropriate action. The protest will be placed in the public file associated with the proceeding, but, if a hearing is set, the protest is not part of the record upon which the decision is made.

(b) *Service.* Each protest directed against a person in a proceeding must be served by the protestant on the person against whom the protest is directed. The Secretary may waive the procedural requirements of this subpart applicable to protests; however, if the requirement of service is waived, the Secretary will place the protest in the public file and may send a copy thereof to the person against whom the protest is directed.

§ 385.212 Motions. (Rule 212.)

(a) *General rule.* Unless otherwise specifically provided, a motion may be filed at any time by a participant or by a person who has filed a motion to intervene which has not been denied.

(b) *Oral motions.* A motion must be in writing, except that the presiding officer may permit an oral motion to be made on the record during the course of a hearing or conference.

(c) *Contents.* A motion must contain a clear and concise statement of the facts and law which support the motion and of the specific relief or ruling desired.

(d) *Motions to the Commission.* The Commission will designate a member of the Commission as the motions Commissioner who will rule on motions made to the Commission (other than a motion for summary disposition or interlocutory appeal). The motion is deemed denied at the end of 30 days, unless the motion is acted upon within such period. Such Commissioner will also serve as the motions Commissioner under Rule 715 (rulings on interlocutory appeals). For purposes of this paragraph, a motion made to a subordinate official of the Commission is not considered as having been made to the Commission.

§ 385.213 Answers. (Rule 213.)

(a) *Required or permitted.* (1) An answer must be made by a respondent to a complaint or order to show cause, unless the Commission orders otherwise.

(2) An answer may not be made to a protest, an answer, a motion for oral argument, or a request for rehearing, unless otherwise ordered by the decisional authority.

(3) An answer may be made to any pleading or motion not prohibited by paragraph (a)(2) of this section, except that the presiding officer may prohibit the filing of an answer to a motion for interlocutory appeal.

(4) An answer to a notice of tariff or rate examination must be made in accordance with the provisions of such notice.

(b) *Oral answers.* An answer must be in writing, except that the pleading officer may permit an oral answer to a motion made on the record in the course of a hearing or conference.

(c) *Contents.*—(1) *General answers.* An answer must contain a clear and concise statement of the disputed factual allegations and any law upon which the answerer relies. If an answer is made in response to a complaint or order to show cause, or an amendment thereto, the answerer must, to the extent practicable, admit or deny specifically and in detail each material allegation of the pleading answered, and must set forth every defense relied upon.

(2) *Answers to orders to show cause.* Mere general denials of facts referred to in an order to show cause unsupported by specific facts upon which the respondent relies will not be considered as complying with paragraph (a)(1) of this section and may be a basis for summary disposition without hearing, unless otherwise required by statute, on the ground that the respondent has raised no issues requiring a hearing or further proceedings.

(d) *Time limitations.* (1) An answer to a motion or amendment thereto must be made within 15 days after the motion or amendment is filed, unless otherwise ordered.

(2) An answer to a pleading or amendment thereto, other than an answer to a motion under paragraph (d)(1) of this section, must be made within 30 days after publication in the **Federal Register** notice of such pleading or amendment, unless otherwise ordered. In the absence of **Federal Register** publication, an answer under this paragraph must be made within 30 days after the pleading or amendment thereto was filed, unless otherwise ordered.

(e) *Failure to answer.* A person failing to answer a complaint may be considered to be in default, and all relevant facts stated in such complaint may be deemed admitted. Failure to answer an order to show cause will be treated as a general denial to which paragraph (c)(2) of this section applies.

§ 385.214 Intervention. (Rule 214.)

(a) *Filing.* (1) The Secretary of Energy becomes a party to a proceeding upon filing a notice of intervention. If the notice is not filed within the period prescribed under Rule 210 (notice), the notice must state the position of the Secretary on the issues in the proceeding.

(2) A State Commission becomes a party to a proceeding upon filing a notice of intervention, but only if such notice is filed within the period prescribed under Rule 210 (notice). After the expiration of such period, a State Commission must comply with the rules for motions to intervene applicable to a person to whom paragraph (a)(3) of this section applies, including the content requirements of paragraph (c) of this section.

(3) Any person, other than the Secretary of Energy or State Commission, who seeks to become a party must file a motion to intervene.

(b) *Contents of motion.* (1) A motion to intervene must state, to the extent known, the position taken by the movant and the basis in fact and law for such position and must state the movant's interest in sufficient factual detail to demonstrate that:

(i) The movant has a right to participate which is expressly conferred by statute or Commission, rule, order or other action;

(ii) The movant represents an interest as to which the movant may be directly affected by the outcome (which may include a movant's interest as a consumer, customer, competitor, or security holder of a party, or customer served by a party); or

(iii) The movant's participation is in the public interest.

(2) In addition to the requirements of paragraph (b)(1) of this section, a motion to intervene which is not filed within the period prescribed under Rule 210 (notice) must state the position of the movant, if know, on the issues in the proceeding and show good cause why the time limitation should be waived.

(c) *Grant of party status.* (1) If no answer in opposition to a motion to intervene is filed within 15 days after the motion to intervene is filed, the movant becomes a party at the end of the 15 days.

(2) If an answer in opposition to a motion to intervene is filed within 15 days after the motion to intervene is filed. The movant becomes a party only when the motion is expressly granted.

(d) *Grant of late intervention.* (1) In acting upon a motion to intervene filed after the period prescribed under Rule 210 (notice), the decisional authority may consider whether the movant has shown good cause for failing to file within the time prescribed, the disruption of the proceeding, and the prejudice to, or additional burdens upon, the existing parties which might be caused if the intervention is permitted.

(2) Except to the extent otherwise ordered, the grant of intervention shall not be the basis for delaying or deferring any procedural schedule established prior to such movant's intervention.

(3)(i) The decisional authority may impose limitations on the participation of late a intervener to avoid delay and prejudice to the other participants.

(ii) Except to the extent otherwise ordered, an intervener is required to accept the record of the proceeding as it was developed prior to such movant's intervention.

(4) If the presiding officer grants a motion for late intervention orally, he will promptly issue a written order confirming the oral order.

§ 385.215 Amendment of pleadings. (Rule 215.)

(a) *General rules.* (1) A participant or a person who is seeking to become a party may seek to modify its pleading by filing an amendment which conforms to the requirements applicable to the pleading to be amended.

(2) A tariff or rate filing may not be amended except pursuant to statutory authority.

(3) A written amendment filed before the fifth day before the earlier of the first prehearing conference or the first day of evidentiary hearings becomes effective as of right on the date filed. A written amendment filed after that date, or an oral amendment made to a presiding officer during the course of a hearing or conference, becomes effective only in accordance with paragraph (d) of this section.

(b) *Answers.* A participant may answer an amendment on the merits in accordance with Rule 212 of this part (answers).

(c) *Motion opposing the filing of an amendment.* A participant, or a person who has filed a motion to intervene under Rule 214 (intervention) which has not been denied, may file a motion opposing the filing of an amendment, other than an amendment effective as of right under paragraph (a)(2) of this section, within 15 days of filing of the amendment.

(d) *Acceptance of amendments.* If no motion in opposition to the acceptance of an amendment which does not become effective as of right is filed within 15 days after the amendment is filed, the amendment becomes effective at the end of the 15 day period. If a motion in opposition to the acceptance of such an amendment is filed within such period, the amendment becomes

effective at the end of the 15 day period, unless the decisional authority, before such date, issues an order rejecting the amendment, in whole or in part, for good cause.

(e) *Directed amendments.* The decisional authority, on motion or otherwise, may direct a participant or person who is seeking to become a party to file an amendment to amplify, clarify, or technically correct a pleading in writing.

§ 385.216 Withdrawal of pleadings. (Rule 216.)

(a) *Filing.* A participant may seek to withdraw a pleading by filing a notice of withdrawal.

(b) *Action on withdrawals.* When no motion in opposition is filed within 15 days, the withdrawal becomes effective at the end of that period, unless, within that period, the decisional authority issues an order disallowing the withdrawal. When a motion in opposition is filed, the withdrawal is not effective until the decisional authority issues an order accepting the withdrawal. An order under this paragraph may disallow all or part of a withdrawal for good cause.

(c) *Conditional withdrawal.* To prevent prejudice to other participants, the decisional authority, on motion or otherwise, may condition the withdrawal upon a requirement that the withdrawing party leave material in the record or otherwise make material available to other participants.

§ 385.217 Summary disposition. (Rule 217.)

(a) *General rule.* If the decisional authority determines that there is no genuine issue of fact material to the decision of a proceeding or a part thereof, the decisional authority may summarily dispose of all or part of the proceeding.

(b) *Procedures.* (1) A participant may make a motion for summary disposition of all or part of a proceeding.

(2) When a decisional authority, other than the Commission, is considering summary disposition in the absence of a motion by a participant, the decisional authority must grant the participants an opportunity to comment on the proposed disposition prior to summary disposition, unless for good cause shown the decisional authority otherwise provides.

(3) When the Commission is considering ordering summary disposition in the absence of a motion by a participant and prior to setting a matter for hearing, and if it determines that notice and comment procedures are practicable and necessary, it may notify the participants and afford them an opportunity to comment on the proposed disposition.

(c) *Disposition.* (1) (i) When a decisional authority, other than the Commission, summarily disposes of all of a proceeding, the decisional authority will issue an initial decision in the entire proceeding.

(ii) Except as provided in paragraph (c)(1)(iii) of this section, when summary disposition is made of part of a proceeding, the decisional authority may issue a partial initial decision or may postpone issuing an initial decision on such part and combine it with the initial decision on the entire or appropriate part of the proceeding.

(iii) When summary disposition is made of part of a proceeding and such disposition requires the filing of new tariff or rate schedule sheets, the decisional authority will issue an initial decision disposing of that part of the proceeding.

(2) A decision issued under paragraph (c)(1) of this section shall be treated as an initial decision issued under Subpart G of this part, except that Rules 704, 705, 706, 707, and 709 of this part do not apply (rights of participants before initial decision discretion of presiding officer before initial decision, initial and replied briefs before initial decision, oral argument before initial decision, and other types of decisions).

Subpart C—[Reserved]

Subpart D—[Reserved]

Subpart E—Hearings

§ 385.501 Applicability. (Rule 501.)

This subpart applies to a proceeding or part of a proceeding which the Commission sets for a hearing to be conducted in accordance with this subpart.

§ 385.502 Initiation of hearing. (Rule 502.)

(a) *Notice or order initiating hearing.* A hearing under this subpart will be initiated:

(1) By the Commission by issuance of an order, or

(2) By notice of the Secretary at direction of the Commission, or

(3) By order of the Oil Pipeline Board.

(b) *Contents of notice or order initiating hearing.* The order or notice under paragraph (a) of this section shall set forth:

(1) The authority and jurisdiction under which the hearing is to be held;

(2) The nature of the proceeding;

(3) The final date for the filing of protests and interventions, where the dates were not fixed by an earlier notice;

(4) The presiding officer, if one has been designated; and

(5) The date, time, and location of the hearing or prehearing conference, if known; and

(6) Any other appropriate matter.

(c) *Consolidation, severance, and phasing.* The notice or order may direct consolidation of proceedings, phasing of a proceeding, or severance of proceedings or issues in a proceeding.

§ 385.503 Consolidation and severance by chief administrative law judge. (Rule 503.)

The Chief Administrative Law Judge may, upon motion or otherwise, order proceedings pending under this subpart consolidated for hearing on any or all matters in issue in such proceedings, or order the severance of proceedings, or issues in a proceeding.

§ 385.504 Duties and powers of presiding officers. (Rule 504.)

(a) *Duties.*—(1) *Conduct of fair and impartial hearing.* It shall be the duty of the presiding officer to conduct a fair and impartial hearing, and to determine the matter justly under the law.

(2) *Appearances.* The presiding officer before whom a hearing is held shall cause all appearances to be entered on the record with a notation in whose behalf each appearance is made.

(3) *Order of presentation.* The presiding officer shall prescribe the order of presentation of the cases of all participants in the hearing.

(4) *Requirement for diligence and lack of delay.* The presiding officer shall assure that the taking of evidence and subsequent matters proceed with all reasonable diligence and with the least practicable delay.

(5) *Initial decision.* The presiding officer shall prepare and certify an initial decision to the Commission, as provided in Subpart G of this chapter.

(b) *Powers.* Except as ordered otherwise by the Commission, the presiding officer may exercise the following powers:

(1) *Scheduling.* Scheduling and otherwise regulating the course of the hearing.

(2) *Recessing, reconvening, postponing, adjourning.* Recessing, reconvening, postponing, or adjourning the hearing.

(3) *Oaths and affirmations.* Administering oaths and affirmations.

(4) *Evidence.* Ruling on and receiving evidence.

(5) *Taking of discovery.* Taking or causing discovery to be conducted.

(6) *Subpoenas.* Issuing subpoenas under Subpart D.

(7) *Conferences.* Holding conferences of the participants, as provided in Subpart F of this chapter.

(8) *Disposition of procedural matters.* Ruling on and disposing of procedural matters, including oral or written motions.

(9) *Summary disposition.* Summarily disposing of a proceeding or part thereof as provided in Rule 217 (summary disposition).

(10) *Certifying questions.* Certifying a question to the Commission as provided in Rule 714 (certified questions).

(11) *Appeal of interlocutory ruling.* Permitting appeal of an interlocutory ruling, as provided in Rule 715 (interlocutory appeals).

(12) *Intervention.* Ruling on motions to intervene as provided in Rule 214 (intervention).

(13) *Phasing.* Separating a particular issue or issues in a proceeding from others, and treating such issue or issues as a separate phase of the proceeding.

(14) *Maintaining order.* Any disregard by any person of rulings on matters of order and procedure shall be noted on the record, and may be made the subject of a special written report to the Commission. In the event a person engages in disrespectful, disorderly, or contumacious language or conduct in connection with a hearing, the presiding officer may recess the hearing for such time as is necessary to regain order. The presiding officer may request that the Commission take appropriate action, including removal, against a participant or counsel if necessary to maintain order.

(15) *Modifying time period.* Modifying any time period if such modification is in the interest of justice and will result in no undue prejudice to any participant.

(16) *Number of expert witnesses.* Limiting the number of expert witnesses who may testify on any issue consistent with the rule against repetitious testimony in Rule 905(a).

(17) *Number of persons representing a similar interest.* Limiting the number of persons (other than staff) representing a similar interest who may examine, make and argue motions and objections.

(18) *Further evidence.* Requiring, or authorizing the admission of, further evidence upon any issue at any time before the close of the evidentiary record.

(19) *General authority.* Taking any other action necessary or appropriate to the discharge of the duties vested in him, consistent with applicable law and policy.

(c) *Disqualification.* A presiding officer who believes himself disqualified may withdraw from a proceeding. The Commission may order the removal of a presiding officer for good cause either upon motion filed with the Commission or otherwise.

§ 385.506 Right of participants to present evidence. (Rule 505.)

Participants have the right to present such evidence, including rebuttal evidence, and to conduct such cross-examination as may be necessary to assure the true and full disclosure of facts.

§ 385.506 Examination of witnesses. (Rule 506.)

(a) *General rule.* Except as provided in paragraphs (b), (c), or (d) of this section, examination of a witness must be conducted orally under oath in the presence of the presiding officer with the opportunity for all participants to question the witness.

(b) *Prepared written direct testimony and prepared written rebuttal testimony.* Unless otherwise ordered by the presiding officer, direct and rebuttal testimony must be prepared in written form and comply with the requirements of Rule 507 of this part (relating to prepared testimony). Prepared testimony will be treated as an exhibit and the witness sponsoring the exhibit must be made available for oral cross-examination. The cross-examination must be conducted in accordance with the other provisions of this section.

[THIS PARAGRAPH IS NOT A PROPOSED RULE, BUT IS HERE FOR DISCUSSION ONLY]

[(c) *Oral testimony not conducted in the presence of the presiding officer.* The presiding officer need not be present at the examination of a witness: *Provided,* That:

(1) The presiding officer issues and order finding that (i) the participants agree that the examination may be so conducted, or (ii) the presiding officer finds good cause for such examination;

(2) The participants are notified in advance of the examination of the witness and the time and place of their examination;

(3) The participants are afforded the opportunity to put questions to the witness; and

(4) The participants are advised that this opportunity to put questions to the witness as provided in paragraph (c) of this section may be in lieu of the opportunity to put questions to the witness in the presence of the presiding officer.]

[THIS PARAGRAPH IS NOT A PROPOSED RULE, BUT IS HERE FOR DISCUSSION ONLY]

[(d) *Written cross-examination of witnesses.* The presiding officer may, with the consent of the participants, permit the use of prepared written cross-examination which complies with Rule 507 (prepared written testimony). The testimony may be based on interrogatories or other discovery. Prepared written cross-examination will be treated as an exhibit. When written cross-examination under this paragraph is used, a participant may, by written motion, request that such examination be supplemented by oral cross-examination. The presiding officer may grant such a motion only if the motion establishes that such supplemental oral cross-examination is necessary.]

§ 385.507 Prepared written testimony. (Rule 507.)

(a) *To be an exhibit.* Prepared written testimony of any witness must be offered as an exhibit. When prepared written testimony is required by the presiding officer, a reasonable period of time will be allowed for the preparation of such written testimony.

(b) *Time for filing.* All prepared written testimony must be served within the time provided by the presiding officer, but at least 10 days in advance of the session of the hearing at which such exhibit is offered, unless a shortened time is permitted under paragraph (c) of this section.

(c) *Late-filed testimony.* The participants in attendance at the hearing may agree unanimously that all or any part of such 10 days' prior service be waived. The presiding officer, absent such agreement, will permit the introduction of prepared written testimony if necessary for a full disclosure of the facts or may permit upon any other showing of good cause unless unduly prejudicial to any participant. Where such testimony is served within the 10 day period the presiding officer will give the participants present a reasonable opportunity to examine it.

(d) *Forms.* Prepared written testimony must have line numbers inserted on each page, in the left-hand margin, and must be authenticated by an affidavit of the witness.

§ 385.508 Exhibits. (Rule 508.)

(a) *General rule.* Except as provided in paragraphs (b) through (e) of this section, material offered in evidence except oral testimony must be offered in the form of an exhibit. A participant who seeks to have an exhibit admitted

into evidence must provide one copy of the exhibit to the presiding officer and two copies to the reporter at the time the participant moves for its admission. The presiding officer will mark for identification every exhibit offered by a participant.

(b) *Designation of matter sought to be admitted.* When a document offered as an exhibit contains material not offered as evidence, the participant offering the exhibit must plainly designate the matter offered as evidence, and must so segregate and exclude insofar as is practicable the material not so offered. If the matter not offered is so extensive as to unnecessarily encumber the record, such document will not be received in evidence but may be marked for identification. If properly authenticated, the material offered as evidence may be read into the record, or if the presiding officer so directs, a true copy of such material in proper form will be received in evidence as an exhibit. Copies of the exhibit must be delivered by the participant offering the same to the other participants appearing at the hearing who will be offered an opportunity to examine the entire document to offer in evidence in like manner other portions thereof.

(c) *Public document item by reference.* Whenever part or all of a public document is offered in evidence and the offerer shows that the document, or part thereof, is reasonably available to the public, such document need not be produced or marked for identification, but may be offered in evidence as a public document item by reference by specifying the document or relevant part thereof.

(d) *Official notice of facts.* Official notice may be taken by the presiding officer of such matters as might be judicially noticed by the courts of the United States, or any matters as to which the Commission by reason of its functions is an expert. A participant must, on timely request, be afforded an opportunity to show the contrary. A participant requesting the taking of official notice after the conclusion of the hearing must set forth the reasons claimed to justify failure to make the request prior to the close of the hearing.

(e) *Stipulations.* Participants may stipulate as to any relevant matters of fact or the authenticity of any relevant documents. The stipulations may be received in evidence at the hearing, and when so received, are binding on the stipulating participants with respect to the matters therein stipulated. A stipulation may be made orally at the hearing or in written form.

§ 385.509 Admissibility of evidence. (Rule 509.)

(a) *General standard.* The presiding officer should exclude from evidence irrelevant, immaterial and unduly repetitious material. The presiding officer may exclude from evidence any other material he determines is not of the kind which would affect reasonable and fairminded persons in the conduct of their daily affairs.

(b) *Ruling on evidence.* The presiding officer will rule on the admissibility of all evidence offered. When an objection is made to the admission or exclusion of evidence, the grounds for the objection will be stated briefly. Formal exceptions are not permitted, but this does not preclude the arguing of the validity of a ruling on evidence at a later time in such proceeding.

§ 385.510 Miscellaneous provisions. (Rule 510.)

(a) *Transcript.* (1) Every statement made at a hearing session will be transcribed in a verbatim report from which nothing will be omitted except as directed on the record by the presiding officer. Statements at a hearing must not occur off-the-record, except as directed by the presiding officer.

(2) After the closing of the record, there will be no changes in the transcript, except as provided in paragraph (b) of this section.

(b) *Transcript corrections.* Corrections in the official transcript may be made only to make it conform to the evidence presented at the hearing and to speak the truth. Transcript corrections agreed to by opposing participants may be incorporated into the record, when approved by the presiding officer, at any time during the hearing or after the close of evidence, as may be permitted by the presiding officer before the filing of the initial decision but not less than 10 days in advance of the time fixed for filing final briefs. The presiding officer may call for the submission of proposed corrections and will rule upon proposed corrections during the proceeding.

(c) *Close of evidentiary record.* The presiding officer will designate the time at which the evidentiary record is closed. Thereafter no evidence will be added to the evidentiary record unless the record is reopened under Rule 716 (reopening).

(d) *Copies of exhibits and motions to participants.* Except as otherwise provided in this subpart, copies of exhibits and motions will be furnished at the hearing to the presiding officer and to the participants.

(e) *Fees of witnesses.* Witnesses subpoenaed by the Commission will be paid the same fees and mileage as are paid for like services in the district court of the United States. Witnesses subpoenaed at the instance of participants will be paid the same fees and mileage by the participant at whose instance the witness is subpoenaed. The Commission, before issuing any subpoena, may require a deposit of an amount adequate to cover the fees and mileage involved.

(f) *Offers of proof.* An offer of proof, made in connection with a ruling of the presiding officer rejecting or excluding proffered oral testimony, will consist of a statement of the substance of the evidence which participant claims would be adduced by the testimony. If the excluded evidence is in the form of an exhibit or is a public document, a copy of such exhibit will constitute the offer of proof of the public document will be specified by identification.

Subpart F—Conferences, Settlements, and Stipulations

§ 385.601 Conferences (Rule 601.)

(a) *When convened.* Upon motion or otherwise, the Commission or the decisional authority in a proceeding may convene a conference of the participants in the proceeding at any time.

(b) *Purpose.* A conference may be convened for any purpose related to the conduct or disposition of a proceeding, including submission and consideration of offers of settlement.

(c) *General requirements.* Due notice of the time and place of a conference and of the matters to be addressed at the conference must be given to the participants. Participants attending a conference must be prepared to discuss the matters to be addressed at the conference, unless there is good cause for a failure to be prepared. A person appearing in a representative capacity must be authorized to act on behalf of such person's principal with respect to such matters. Failure of a party to attend such a conference will constitute a waiver of all objections to the agreements reached, if any, and any order or ruling arising out of such conference.

(d) *Powers of decisional authority at conference.* The decisional authority before whom the conference is held, or to whom it reports, may dispose of any procedural matters upon which he is authorized to rule during the course of the proceeding, and which it appears may appropriately and usefully be disposed of at that stage. In addition, in the case of a proceeding set for hearing under Subpart E, where it appears that the proceeding would be substantially expedited by distribution of proposed

exhibits, written prepared testimony, and other documents reasonably in advance of the hearing session, the presiding officer, with due regard for the convenience of the participants, may direct advance distribution by a prescribed date. The presiding officer may also direct the preparation and distribution of briefs and other documents as he determines will substantially expedite the proceeding.

§ 385.602 Submission of settlement offers. (Rule 602.)

(a) *Applicability.*—(1) *General rule.* This section applies to written offers of settlement filed in any proceeding to which this subpart applies. For purposes of this section, the term "offer of settlement" includes any written proposal to modify an offer of settlement.

(2) *Oil pipeline proceedings.* In the case of any proceeding under the Interstate Commerce Act, the functions of the Commission with respect to review and approval of offers of settlement under this section are vested in the Oil Pipeline Board. Action of the Board are reviewable by the Commission under section 17 of the Interstate Commerce Act.

(b) *Submission of offer.* A participant in a proceeding may submit an offer of settlement at any time. An offer of settlement must be filed with the Secretary of the Commission. The Secretary will transmit the offer to the presiding officer if the offer is filed after a hearing has been ordered and before the time the presiding officer certifies the record to the Commission. In any other case, the Secretary will transmit the offer of settlement to the Commission.

(c) *Contents of offer.* (1) An offer of settlement must include a document embodying the settlement offer, an explanatory statement, copies of or references to (including record citations if there is a record) such documents, testimony, exhibits, or other matters, which the offerer considers relevant to the offer of settlement. An offer of settlement must also include a proposed order of the Commission approving the settlement, which order must include the following provision:

> The Commission's approval of this settlement shall not constitute approval of or precedent regarding any principle or issue in this proceeding.

(2) If the offer of settlement relates to a tariff filing, the offer must include proposed tariff changes in a form suitable for inclusion in the filed rate schedules or tariffs, together with a sufficient number of copies to satisfy the filing requirements applicable to tariff filings of the type at issue in the proceeding.

(d) *Service.* A copy of the offer of settlement must be served on participants in accordance with Rule 2010 (service) and on the persons who are required by the Commission's rules to be served with the pleading or tariff or rate filing with respect to which the proceeding was initiated. The participant serving the offer of settlement must notify the persons served of the date comments on the settlement are due under paragraph (f) of this section.

(e) *Use of non-approved offers of settlement as evidence.* Offers of settlement which are not approved by the Commission, and comments thereon, will not be admissible in evidence against any participant objecting to their admission. Discussion of the parties with respect to an offer of settlement not approved by the Commission will not be subject to discovery or admissible in evidence.

(f) *Comments.* Comments on an offer of settlement will be filed with the Secretary who will transmit them to the Commission if the offer was transmitted to the Commission, or to the presiding officer in any other case. Comments may be filed on or before 20 days after the filing of the offer of settlement and reply comments may be filed on or before 30 days after the filing of such offer, unless otherwise provided for by the Commission or the presiding officer. Failure to file comments constitutes a waiver of all objections to the offer of settlement.

(g) *Uncontested offers of settlement.* If comments on an offer were transmitted to the presiding officer and such officer finds that the offer is not contested by any participant, the presiding officer will certify to the Commission the offer of settlement, a statement that the offer of settlement is uncontested, and any hearing record or pleadings which relate to the the offer of settlement. If comments on an offer of settlement were transmitted to the Commission, the Commission will determine whether the offer is uncontested. An uncontested offer of settlement may be approved by the Commission upon a finding that the settlement appears to be fair and reasonable and in the public interest.

(h) *Contested offers of settlement.* (1) If the Commission determines the offer of settlement is contested by any party, in whole or in part, the Commission may reach a decision on the merits of the contested settlement issues if the record contains substantial evidence upon which to base a reasoned decision or if the Commission determines there is no contested issue of material fact. If the Commission finds that the record is lacking in substantial evidence or that the contested issues cannot be severed from the offer of settlement, the Commission will establish procedures before a presiding officer for the purpose of receiving additional evidence upon which a decision on the contested issues can reasonably be based or take such other action as it determines to be appropriate. When contested issues are severable, the uncontested portions may be severed and decided in accordance with paragraph (g) of this section.

(2) If comments on an offer of settlement are transmitted to the presiding officer and such officer determines that the offer is contested, in whole or in part, by any participant, the officer may certify all or part of such offer to the Commission. An offer or part thereof contested by a party may be certified only if:

(i) Either (A) the presiding officer determines that there is no contested issue of material fact, or (B) the parties concur on a motion for omission of the initial decision as provided in Rule 710 (waiver of the initial decision);

(ii) The presiding officer determines that the record contains substantial evidence from which the Commission may reach a reasoned decision on the merits of the contested issues, and

(iii) The parties have had an opportunity to avail themselves of such rights as they may with respect to the opportunity to present evidence and cross-examine opposing witnesses. When the contested issues are severable, the uncontested portions of the settlement may be certified immediately to the Commission for decision as provided in paragraph (g) of this section.

(i) *Reservation of rights.* The procedural rights a participant would have in the absence of an offer of settlement are not affected if the Commission does not approve, or approves subject to condition, the unopposed portion of the offer of settlement.

§ 385.603 Settlement negotiations before a settlement judge. (Rule 603.)

(a) *Applicability.* This section applies to a proceeding set for hearing under Subpart E.

(b) *Definitions.* For purposes of this section, "settlement judge" means the administrative law judge appointed by the Chief Administrative Law Judge to conduct settlement negotiations under this section.

(c) *Requests for appointment of settlement judges.* (1) A participant may

file a motion for the appointment of a settlement judge. The motion must be made with the presiding officer, or, if the motion is made when there is no presiding officer for the proceeding, with the Commission.

(2) A presiding officer may request the Chief Administrative Law Judge to appoint a settlement judge.

(3) Notwithstanding the provisions of Rule 213(c) of this part (time limitations on answers), a motion under paragraph (a) of this section may be acted upon at any time. Answers or objections filed after a motion has been acted upon will not be considered.

(d) *Commission order directing appointment of settlement judge.* The Commission may by order, on motion or otherwise, direct the Chief Administrative Law Judge to appoint a settlement judge.

(e) *Appointment of settlement judge by Chief Administrative Law Judge.* The chief administrative law judge may appoint a settlement judge for a proceeding if requested by the presiding officer under paragraph (c)(2) of this section, or if the presiding officer concurs in a motion under paragraph (c)(1) of this section.

(f) *Order appointing settlement judge.* The appointment of a settlement judge will be by order of the Chief Administrative Law Judge. The order will specify whether and to what extent the proceeding is suspended pending termination of settlement negotiations conducted in accordance with this section. The order may confine the scope of such settlement negotiations to specified issues.

(g) *Powers and duties of settlement judge.* (1) The settlement judge will call and preside over conferences and settlement negotiations of the participants and assess the practicalities of a potential settlement.

(2) The settlement judge will submit a report to the Chief Administrative Law Judge or Commission, as appropriate, of the status of the settlement negotiations and an evaluation as to settlement prospects. The settlement judge may make recommendations as to the continuation of the settlement negotiations conducted under this section. The first report will be made no later than 30 days following the appointment of the settlement judge. The Commission or the Chief Administrative Law Judge may order additional reports at any time.

(h) *Termination of settlement negotiations before a settlement judge.* Unless an order of the Commission directing the appointment of a settlement judge provides otherwise, settlement negotiations conducted under this section will terminate upon the order of the Chief Administrative Law Judge issued after consultation with the settlement judge.

(i) *Non-reviewability.* Any decision concerning the appointment of a settlement judge or termination of settlement negotiations is not subject to review by, appeal to, or rehearing by the presiding judge, Chief Administrative Law Judge, or the Commission.

(j) *Multiple settlement negotiations.* If settlement negotiations are terminated under paragraph (h) of this section, the Chief Administrative Law Judge may subsequently appoint a settlement judge in the same proceeding to conduct settlement negotiations in accordance with this section.

§ 385.604 Refusal to make admissions or stipulations. (Rule 604.)

If a party in a proceeding set for hearing under Subpart E refuses to admit or stipulate to the genuineness of a document or the truth of a matter of fact and if the party requesting the admission or stipulation thereafter proves the genuineness of document or the truth of matter of fact, the party who made the proof may apply to the presiding officer for an order requiring the other party to pay the reasonable expenses incurred in making the proof, including reasonable attorney's fees. Unless the officer finds that there was good reason for the refusal to admit or stipulate or that the admission or stipulation sought were of no substantial importance, the order shall be made. An appeal from the order may be taken to the Commission immediately. If a party refuses to comply with the order after it becomes final, the Commission may strike all or any part of the party's pleadings or limit or deny further participation by the party. Proposed stipulations not agreed to are not admissible in evidence against any participant objecting to the admission.

Subpart G—Decisions

§ 385.701 Applicability. (Rule 701.)

This subpart applies to decisions in proceedings set for hearing under Subpart E of this part, including a decision on a certified question, interlocutory appeal, or reopening, and to a decision on rehearing, except that:

(a) The provisions of this subpart (other than those relating to rehearing or reopening) are inapplicable to consideration of an offer of settlement, and

(b) This subpart applies to summary disposition only to the extent provided in Rule 217 (summary disposition).

§ 385.702 Definitions. (Rule 702.)

For purposes of this subpart:

(a) "Initial decision" is a decision rendered in accordance with Rule 706 (initial decisions by presiding officers).

(b) "Final decision" is a decision referred to in Rule 713 (requests for rehearing of final decisions).

§ 385.703 Contents of decisions. (Rule 703.)

Each decision will become a part of the record in the proceeding and will contain:

(a) A ruling on each exception presented and findings and conclusions, with supporting reasons, upon all material issues of fact, law, or matters of discretion presented on the record, and

(b) The appropriate rule, order, sanction, relief, or denial thereof.

§ 385.704 Rights of participants before initial decision. (Rule 704.)

After the taking of testimony in a proceeding, or phase thereof, the presiding officer will afford each participant the opportunity:

(a) To submit written initial briefs in accordance with Rule 706 (briefs before initial decisions), except that the presiding officer may provide an opportunity for oral argument in lieu of, or in addition to, initial briefs; and

(b) To submit written reply briefs in accordance with Rule 706 (briefs before initial decision), except that the presiding officer (1) may provide an opportunity for oral reply argument in lieu of, or in addition to, reply briefs, and (2) may for good cause deny this opportunity for reply or limit the issues which may be addressed in such replies.

§ 385.705 Additional powers of presiding officer with respect to briefs. (Rule 705.)

(a) *Limitations on briefs.* The presiding officer may limit the length of any brief to be filed under Rule 706 (briefs before initial decisions) with due regard to the nature of the proceeding.

(b) *Additional briefs and other filings.* If appropriate, the presiding officer may permit or require briefs or other filings in addition to those provided for in Rule 706 (briefs before initial decision).

§ 385.706 Initial and reply briefs before initial decision. (Rule 706.)

(a) *When filed.* If initial or reply brief are to be filed, the presiding officer will fix the time for filing and service of such briefs giving due regard to the nature of the proceeding, the extent of the record, and the number and complexity of the issues. Unless specifically ordered otherwise, the time so fixed will be the same for all initial briefs and the same for all reply briefs.

(b) *Contents.* (1) Initial briefs filed with the presiding officer must include:

(i) A concise statement of the case;

(ii) Proposed findings and conclusions, unless waived by the presiding officer;

(iii) Arguments in support of the participant's position, and

(iv) Any other matter required by the presiding officer.

(2) Reply briefs filed with the presiding officer must be limited to responding to arguments and issues raised in the initial briefs, and the presiding officer may impose other limits on the reply brief.

(c) *Form.* (1) Exhibits admitted in evidence or marked for identification in the record must not be reproduced in the brief, but may be shown, within reasonable limits, in an appendix to the brief. Analyses of such exhibits may be included in the brief where pertinent.

(2) A brief of more than 20 pages must contain, in the front, a table of contents and points made, with page references, and a list of citations, alphabetically arranged, with page references.

(d) *Record.* Initial and reply briefs accompany the record and will be available to the Commission and the presiding officer for consideration in deciding the case.

§ 385.707 Oral argument before initial decision. (Rule 707.)

(a) *Procedure.* If oral argument is to be held, the presiding officer will designate the order of the argument, set a time limit on each argument, and make any other procedural rulings.

(b) *Scope.* (1) If oral argument is to be held without an initial brief, then each participant has the opportunity to present orally the information required or permitted to be included in initial briefs pursuant to Rule 706(b) (contents of initial briefs).

(2) If oral argument is to be held in addition to an initial or reply brief, such oral argument may be limited to issues considered by the presiding officer to be appropriate issues for oral argument.

(c) Oral argument will be transcribed and included in the record and must be available to the Commission and the presiding officer in deciding the case.

§ 385.708 Initial decisions by presiding officer. (Rule 708.)

(a) *Applicability.* This section applies to any proceeding in which a presiding officer, other than the Commission, presided over the reception of the evidence.

(b) *General rule.* (1) Unless othewise ordered by the commission or unless paragraph (b)(2) applies, the presiding officer will prepare a written initial decision.

(2) Where time and circumstances so require, the presiding officer may issue an order stating that an oral initial decision will be issued. The oral decision is considered served upon all participants when it is issued orally. Promptly thereafter the presiding officer will prepare the oral initial decision contained in the transcript in the format of a written initial decision.

(3) An initial decision prepared under paragraph (b)(1) or (b)(2) of this section, will be certified by the presiding officer, together with a copy of the record in the proceeding, if any.

(4) After certification of a written initial decision under paragraph (b)(3) of this section, the presiding officer, after notification and having received no objections from the participants, may make technical corrections to the initial decision within 35 days of its certification.

(c) *Initial decision prepared and certified by presiding officer.* (1) The presiding officer who has presided over the reception of evidence must prepare and certify the initial decision, if any, unless such officer becomes unavailable or unless the Commission otherwise provides in accordance with 5 U.S.C. 557(b).

(2) If the presiding officer becomes unavailable, the Chief Administrative Law Judge may issue an order designating another qualified presiding officer to prepare and certify the initial decision.

(d) *Finality of initial decision.* For purposes of rehearing as provided in Rule 713 (requests for rehearing), the initial decision will become a final Commission decision 10 days after exceptions are due under Rule 711 (exceptions after initial decision) unless (1) exceptions are timely filed under Rule 711 (exceptions after initial decision), or (2) the Commission issues an order staying the effectiveness of the decision pending review under Rule 712 (relating to Commission review where no exceptions are filed).

§ 385.709 Other types of decisions. (Rule 709.)

In lieu of an initial decision under Rule 708 (initial decisions), the Commission may order any type of decision as provided by 5 U.S.C. 557(b), or waiver of the initial decision as provided by Rule 710 (waiver of initial decision).

§ 385.710 Waiver of the initial decision. (Rule 710.)

(a) *General rule.* A participant may file a motion asking the Commission to issue a final decision without any initial decision. If all other participants join in the motion, it is granted unless the Commission denies the motion within 10 days after the date of filing or in the case of an oral motion under paragraph (c)(2) of this section within 10 days after the motion is transmitted to the Commission.

(b) *Content.* The motion filed with the Commission must specify:

(1) Whether all participants concur in the request to waive the initial decision;

(2) The reasons that waiver of the initial decision is in the interest of parties and the public interest;

(3) Whether any participant desires an opportunity for filing briefs;

(4) Whether any participant desires an opportunity for oral argument before the presiding officer, the Commission, or an individual Commissioner; and

(5) Whether any participant waives any other procedural right.

(c) *How and when made.* (1) A written motion under this section may be filed at any time before the matter is set for hearing, during the hearing, but no later than 5 days after the close of the hearing conducted under Subpart E.

(2) An oral motion under this section may be made during a hearing session, in which case the presiding officer will transmit the relevant portions of the transcript of the hearing in which the motion was made to the Commission.

§ 385.711 Exceptions and briefs on exceptions after initial decision. (Rule 711.)

(a) *Exceptions.* (1) Within 30 days after service of an initial decision, a participant may file with the Commission exceptions to the initial decision in a brief on exceptions. A brief opposing exceptions may be filed in response to a brief on exceptions within 20 days after the latest date for filing a brief on exceptions. A participant may, within the time set for filing briefs opposing exceptions, file a brief on exceptions solely for the purpose of incorporating by reference one or more numbered exceptions contained in another participant's brief. A brief filed under the preceding sentence need not comply with the requirements set forth in paragraph (b) of this section.

(2) A brief on exceptions or a brief opposing exceptions must not exceed 50 pages in length, unless the Chief Administrative Law Judge, upon motion, changes the page limitation.

(3) The Secretary may extend, on motion or upon direction of the Commission, the time limits for such briefs. No further briefs are permitted unless specifically ordered by the Commission.

(b) *Nature of briefs on exceptions and of briefs opposing exceptions.* (1) A brief

on exceptions and a brief opposing exceptions must include:

(i) If the brief exceeds 10 pages in length, a separate summary of the brief no more than five pages in length; and

(ii) A presentation of the participant's position and arguments in support thereof, including references to the pages of the record or exhibits where evidence appears in support of such position and arguments.

(2) A brief on exceptions must include, in addition to matters required by paragraph (b)(1) in this section:

(i) A short statement of the case;

(ii) A list of numbered exceptions, including a specification of each error of fact or law asserted; and

(iii) A concise discussion of the policy considerations that may warrant full Commission review and opinion.

(3) A brief opposing exceptions must include, in addition to matters required by paragraph (b)(1) of this section:

(i) A list of exceptions opposed, by number; and

(ii) A rebuttal of policy considerations claimed to warrant Commission review.

(c) *Oral argument.* (1) A participant filing a brief on exceptions or brief opposing exceptions may request, by written motion, oral argument before the Commission or an individual Commissioner.

(2) The motion must be filed within the time limit for filing briefs opposing exceptions.

(3) No replies to such a motion will be entertained.

(4) The motion may be granted at the discretion of the Commission. If oral argument is granted, it will be limited, unless otherwise specified, to matters properly raised by the briefs.

(d) *Failure to take exceptions results in waiver*—(1) *Complete waiver.* Failure to file a brief on exceptions within the time permitted under this section constitutes a waiver of all objections to the initial decision.

(2) *Partial waiver.* Failure to object to any part of an initial decision in a brief on exceptions constitutes a waiver of objections to that part of the initial decision.

(3) *Effect of waiver.* Unless otherwise ordered by the Commission upon a showing of good cause, a participant who has waived objections under paragraphs (d)(1) or (d)(2) of this section to all or part of the initial decision may not thereafter raise his objections to the initial decision before the Commission in oral argument or on rehearing.

§ 385.712 Commission review of initial decision in the absence of exceptions. (Rule 712.)

(a) *General rule.* If no briefs on exceptions to an initial decision are filed within the time established by rule or order under Rule 711 (briefs on exceptions), the Commission may, within 10 days after the expiration of such time, issue an order staying the effectiveness of such decision pending its review.

(b) *Briefs and argument.* When it reviews a decision under this section, the Commission may require the participants to file briefs or present oral arguments on any issue.

(c) *Effects of review.* After Completing review under this section, the Commission will issue a decision which is final for purposes of Rule 713 (requests for rehearing).

§ 385.713 Request for rehearing. (Rule 713.)

(a) *Applicability.* This section applies to any Commission final decision or other final order with respect to rehearing provided for by statute, rule, or order.

(b) *Time for filing.* A request for rehearing may be filed by any party within 30 days after issuance of any final decision or other final order in a proceeding.

(c) *Final decisions.* In the case of a proceeding set for hearing under Subpart E:

(1) For the purposes of paragraph (a) of this section, a final decision includes a Commission decision:

(i) On exceptions taken by participants to an initial decision;

(ii) When the Commission has presided at the reception of the evidence;

(iii) When the initial decision procedure has been waived by consent of the participants in accordance with Rule 710 (waiver of initial decision);

(iv) On review of an initial decision in the absence of exceptions in accordance with Rule 712 (Commission review in absence of exceptions); and

(v) Any other action designated as final decision by the Commission for purposes of rehearing.

(2) For the purposes of paragraph (a) of this section, an initial decision under Rule 708 (initial decisions) to which no exceptions were filed and no review was initiated under Rule 712 (Commission review in absence of exceptions) becomes final at the expiration of the time period for Commission review under Rule 712 of this part (Commission review in absence of exceptions).

(d) *Content of request.* A request for rehearing must state concisely the alleged error in the Commission's decision or order. The request must conform to the requirements applicable to pleadings contained in Rule 203(a) (content of pleadings). If rehearing is sought by reason of matters that were not available for consideration by the Commission at the time of its decision, the matters relied upon by the party requesting rehearing must be set forth in the request.

(e) *Answers.* The Commission will not permit answers to requests for rehearing. The Commission may afford the parties an opportunity to file briefs or present oral argument on some or all issues presented by a request for rehearing.

(f) *Request is not stay.* The filing of a request for rehearing does not operate as a stay of the Commission's decision or order unless specifically ordered by the Commission.

(g) *Commission action on rehearing.* Unless the Commission acts upon a request for rehearing within 30 days after it is filed, it is denied.

§ 385.714 Certified questions. (Rule 714.)

(a) *General rule.* During the course of a proceeding, the presiding officer may certify, and, at the direction of the Commission, will certify to the Commission for its consideration and disposition any question which is germane to the proceeding, including questions of law, policy, or procedure.

(b) *Notice.* The presiding officer will notify the participants of the certification of any question to the Commission and of the date of such certification. Such notification may be made orally during the hearing session or by order.

(c) *Presiding officer's memorandum; views of the participants.* To the extent practicable, the presiding officer should solicit the oral or written views of the participants regarding a question certified under this section. The presiding officer shall prepare a memorandum which sets forth the relevant issues, discusses the views of participants which have been submitted, and recommends a disposition of such issues. Any written views submitted by the participants and the memorandum of the presiding officer shall be appended to the question certified under this section.

(d) *Return of certified question to presiding officer.* If the Commission does not act on a certified question within 30 days after receipt of a certification under paragraph (a) of this section, the question is deemed returned

to the presiding officer for decision in accordance with the other provisions of this subpart.

(e) *Certification not suspension.* Unless otherwise directed by the Commission or the presiding officer, certification under this section does not suspend the proceeding.

§ 385.715 Interlocutory appeals to the Commission from rulings of presiding officers. (Rule 715.)

(a) *General rule.* No appeal to the Commission may be taken from a ruling of a presiding officer during the course of a proceeding, unless the presiding officer under paragraph (b) of this section or the motions Commissioner under paragraph (c) of this section determines that such ruling should be reviewed by the Commission.

(b) *Motion to the presiding officer to permit appeal.* (1) Any participant in a proceeding may, during the course of the proceeding, move that the presiding officer permit appeal to the Commission from any ruling made by the presiding officer in the proceeding. The motion will state why prompt Commission review is necessary under the standards of paragraph (b)(2) of this section.

(2) Upon receipt of a motion under paragraph (b)(1) of this section, the presiding officer will determine with or without consideration of any answer to such motion, whether to permit appeal of the motion to the Commission. The presiding officer shall permit the appeal only if he finds that extraordinary circumstance exists, such that prompt Commission review of the contested ruling is necessary to prevent detriment to the public interest or irreparable harm to a person.

(3) The presiding officer will issue an order, orally or in writing, containing the determination made under paragraph (b)(2) of this section, including the date of the action permitting an appeal to the Commission.

(4) When an appeal is permitted, the presiding officer will transmit to the Commission:

(i) A memorandum which sets forth the relevant issues and an explanation of the rulings on such issues; and

(ii) The participant's motion under paragraph (b)(1) of this section and any answer permitted thereto, except that this requirement may be waived at the discretion of the presiding officer.

(5) If the presiding officer fails to issue an order under paragraph (b)(2) of this section within 15 days after the motion is filed under paragraph (b)(1) of this section, the motion is denied.

(c) *Appeal of a presiding officer's denial of motion to permit appeal.* (1) If a motion to permit appeal is denied by the presiding officer, the participant who made the motion may appeal the denial to the motions Commissioner in accordance with this paragraph.

(2) A participant must submit an appeal under paragraph (c)(1) of this section within 7 days after the motion under paragraph (b) of this section is denied or deemed denied. The appeal must state why prompt Commission review is necessary under the standards set forth in paragraph (c)(5) of this section.

(3) A copy of the written order denying the motion or, if the denial was issued orally, the relevant portions of the transcript will be filed with the appeal.

(4) The motions Commissioner may order the presiding officer or any participant in the proceeding to provide additional information.

(5) The motions Commissioner will permit the appeal to the Commission only if he determined that extraordinary circumstances exist such that prompt Commission review of the contested ruling is necessary to prevent detriment to the public interest or to prevent irreparable harm to a person. Unless such a determination is made within 7 days after the filing the appeal, or such longer period as the motions Commissioner may provide to receive and consider information under paragraph (c)(4) of this section, the appeal to the Commission will not be permitted. If such appeal is not permitted, the contested ruling of the presiding officer will be reviewed only in accordance with the other provisions of this subpart.

(6) If a motions Commissioner permits an appeal to the Commission, the Secretary will issue an order containing that decision.

(d) *Commission action.* Unless the Commission acts upon an appeal permitted by a presiding officer under paragraph (b) of this section, or by the motions Commissioner under paragraph (c) of this section, within 15 days after the date of such permission, the ruling of the presiding officer will only be considered in accordance with the other provisions of this subpart.

(e) *Appeal not to suspend proceeding.* A decision by a presiding officer to permit appeal under paragraph (b) of this section or by the motions Commissioner to permit an appeal under paragraph (c) of this section will not suspend the proceeding unless otherwise ordered by the presiding officer of the motions Commissioner.

§ 385.716 Reopening. (Rule 716.)

(a) *General rule.* To the extent permitted by law, the evidentiary record in a proceeding may be reopened for good cause for the purpose of taking additional evidence.

(b) *By motion.* Any participant may file a motion to reopen the record which must set forth clearly the facts sought to be proven and the reasons claimed to constitute grounds requiring reopening. A participant who does not file an answer to such motion will be deemed to have waived any objection to the motion if such objection has not been raised by any other participant.

(c) *By action of the presiding officer or the Commission.* The record in a proceeding may be reopened by (1) the presiding officer at any time before the initial decision is served, or (2) the Commission any time thereafter, if the presiding officer or the Commission, as appropriate, has reason to believe that conditions of fact or of law have so changed as to require, or that the public interest requires, the reopening of the record in such proceeding.

Subpart H—Shortened Procedures

§ 385.801 Waiver of hearing. (Rule 801.)

In any proceeding in which the Commission is authorized to act after opportunity for hearing, if the parties waive hearing, such opportunity will be deemed to have been afforded by service or publication in the **Federal Register** of notice of the application or other initial pleading, request, or other filing, such notice fixing a reasonable period of time within which any person desiring to be heard may file a protest or petition. Upon the expiration of such period of time, in the absence of a request for hearing, the Commission may forthwith dispose of the matter upon the basis of the pleadings and other submittals and the studies and recommendations of the staff. A party not requesting oral hearing in its pleadings will be deemed to have waived a hearing for the purpose of such disposition, but will not be bound by such a waiver for the purposes of any request for rehearing with respect to an order so entered.

§ 385.802 Noncontested proceedings. (Rule 802.)

(a) *Where hearing waived.* In any proceeding in which the Commission is authorized to act after opportunity for hearing, if the parties waive hearing, such opportunity shall be deemed to have been afforded by service or publication in the **Federal Register** of notice of the application or other initial pleading, request, or other filing, such notice fixing a reasonable period of time within which any person desiring to be

heard may file a protest or petition. Upon the expiration of such period of time, in the absence of a request for hearing, the Commission may forthwith dispose of the matter upon the basis of the pleadings and other submittals and the studies and recommendations of the staff. A party not requesting oral hearing in its pleadings shall be deemed to have waived a hearing for the purpose of such disposition, but shall not be bound by such waiver for the purposes of any application for rehearing with respect to an order so entered.

(b) *Noncontested proceedings.* In any proceeding required by statute to be set for hearing, the Commission, when it appears to be in the public interest and to be in the interest of the parties to grant the relief or authority requested in the initial pleading, and to omit the intermediate decision procedure, may, after a hearing during which no opposition or contest develops, forthwith dispose of the proceedings upon consideration of the pleadings and other evidence filed and incorporated in the record: *Provided,* (1) The applicant or other initial pleader requests that the intermediate decision procedure be omitted and waives oral hearing and opportunity for filing exceptions to the decision of the Commission; and (2) no issue of substance is raised by any request to be heard, protest or petition filed subsequent to publication in the **Federal Register** of the notice of the filing of an initial pleading and notice or order fixing of hearing, which notice or order will state that the Commission considers the proceeding a proper one for disposition under the provisions of this subpart. Requests for the procedure provided by this subpart may be contained in the initial pleading or subsequent request in writing to the Commission. The decision of the Commission in such proceeding after noncontested hearing, will be final, subject to reconsideration by the Commission upon request for rehearing as provided by statute.

Subpart I—Commission Review of Remedial Orders

§ 385.901 Scope. (Rule 901.)

(a) *Proceedings to which applicable.* The provisions of this subpart apply to proceedings of the Commission held in accordance with section 503(c) of the Department of Energy Organization Act (42 U.S.C. 7193(c)) to review orders issued by the Secretary of Energy pursuant to section 503(a) of the Department of Energy Organization Act (42 U.S.C. 7193(c)), and initiated by notices of probable violation, proposed remedial orders, or other formal administrative initiating documents issued on or after October 1, 1977, which are contested by the recipient.

(b) *Relationship to other rules.* (1) Where provision of this subpart is inconsistent with provision in any other subpart of this part, the former provision controls.

(2) Subpart F of this part, except Rule 601, does not apply to proceedings under this subpart.

§ 385.902 Definitions. (Rule 902.)

For purposes of this subpart:

(a) "Contested order" means the remedial order, interim remedial order for immediate compliance or order of disallowance being contested in proceeding pursuant to this subpart;

(b) "Interim remedial order for immediate compliance" means an interim remedial order for immediate compliance issued pursuant to 10 CFR 205.199D (interim remedial order of immediate compliance);

(c) "Order of disallowance" means an order of disallowance issued pursuant to 10 CFR § 205.199E (disallowance);

(d) "Participant" means, as appropriate, the Secretary, the petitioner, and intervenors;

(e) "Petitioner" means a person who has received a remedial order, interim remedial order for immediate compliance, or order of disallowance who notifies the Secretary that he intends to contest the order;

(f) "Remedial order" means a remedial order issued pursuant to 10 CFR § 205.199B (remedial orders);

(g) "Secretary" means the Secretary of Energy or his delegate.

§ 385.903 Request for nondisclosure of information. (Rule 903.)

(a) For purposes of this section, nondisclosure means nondisclosure except as to the participants in the proceeding under conditions provided in paragraphs (d) and (e) of this section.

(b) If any person filing under this subpart claims that some or all of the information contained in a document is exempt from the mandatory public disclosure requirements of the Freedom of Information Act (5 U.S.C. 552), is information referred to in Section 1905 of title 18 of the *United States Code* (18 U.S.C. 1905) (disclosure of confidential information), or is otherwise exempt by law from public disclosure, the person:

(1) Must request the presiding officer not to disclose such information, except to the participants in the proceeding under the conditions provided in paragraphs (d) and (e) of this section; which request the person must serve upon the participants in the proceeding;

(2) Must file, together with the document, a second copy of the document from which has been deleted the information for which the person requests nondisclosure and must indicate in the original document that the original document is exempt, or contains information which is exempt, from disclosure;

(3) Must include a statement specifying why the information is privileged or confidential, if the information for which nondisclosure is requested is claimed to come within the exception in 5 U.S.C. 552(b)(4) for trade secrets and commercial or financial information;

(4) Must include a statement specifying the justification for nondisclosure, if the information for which nondisclosure is requested is not within the exception in 5 U.S.C. 552(b)(4).

(c) If the person filing a document does not submit a second copy of the document from which the appropriate information has been deleted, the presiding officer may assume that there is no objection to public disclosure of the document in its entirety.

(d) If information is submitted in accordance with paragraph (b) of this section, the information will not be disclosed except as provided in the Freedom of Information Act, in accordance with Part 388 of this subchapter and upon request in accordance with paragraph (e) of this section, to participants in the proceeding under the restrictions that the participants may not use or disclose the information except in the context of the proceeding conducted pursuant to this subpart and that the participants must return all copies of the information at the conclusion of the proceeding to the person who submitted the information under paragraph (b) to this section.

(e) At any time, a participant may request the presiding officer to direct a person submitting information under paragraph (b) to this section to provide that information under paragraph (b) to this section to provide that information to the participant requesting the information under this paragraph. The presiding office will so direct if the participant requesting the information agrees:

(1) Not to use or disclose the information except in the context of the proceeding conducted pursuant to this subpart; and

(2) To return all copies of the information, at the conclusion of the proceeding, to the person submitting the information under paragraph (b) of this section.

(f) If the information contained in the record of prior proceedings submitted by the Secretary under Rule 906(a)(1), is determined by the Secretary to be exempt from disclosure, the information shall not be disclosed except:

(1) As provided in the Freedom of Information Act, in accordance with Part 388 of this subchapter, and

(2) Upon request in accordance with paragraph (g) of this section, to participants in the proceeding under the restrictions that the participants may not use or disclose the information except in the context of the proceeding conducted pursuant to this section and that the participants must return all copies of the information at the conclusion of the proceeding to the presiding officer.

(g) At any time, a participant may request the presiding officer to direct that the complete record of prior proceedings, including information determined by the Secretary to be exempt from disclosure, be made available to that participant. The presiding officer will so direct if the participant requesting the complete record agrees:

(1) Not to use or disclose the information determined to be exempt except in the context of the proceeding conducted pursuant to this subpart, and

(2) To return all copies of the information determined to be exempt to the presiding officer at the conclusion of the proceeding.

§ 385.904 Commencement of proceeding. (Rule 904.)

(a) Except as provided in paragraph (b) of this section, the proceeding pursuant to this subpart will be commenced by filing with the Secretary of the Commission, for the Commission, of a written notice by the Secretary that the Secretary has been notified by a petitioner that the petitioner has filed a notice of intent to contest an order reviewable under this subpart. At the same time, the Secretary will serve a copy of the contested order upon other participants in the prior proceedings and upon persons denied intervention in the prior proceedings, and will certify to the Commission that such service has been made, stating the names and addresses of persons served.

(b) The proceeding pursuant to this subpart with respect to an interim remedial order for immediate compliance will be commenced by a petitioner's filing with the Secretary of the Commission, for the Commission, and serving on other participants in the prior proceedings, if any, a notice of petition for review of an interim remedial order for immediate compliance pursuant to 10 CFR 205.199D(i)(1) (interim remedial order of immediate compliance). The Commission will defer consideration of the merits of the order until a final remedial order is issued by the Secretary.

(c) Upon receipt of notice from the Secretary under paragraph (a) of this section, or upon receipt of a notice of a petition for review by the petitioner under paragraph (b) of this section, the Commission or its designee will designate a presiding officer for the proceeding, and the Commission or its designee will notify participants in the prior proceedings and persons denied intervention in the prior proceedings of such designation.

§ 385.905 Stay of contested order. (Rule 905.)

(a) Upon the filing of the notice with the Commission by the Secretary under paragraph (a) of Rule 904 (Commencement of proceedings), or by the petitioner under paragraph (b) of such rule, the contested order will be automatically stayed pending review pursuant to this subpart unless and until, upon request of the Secretary or other participant, the presiding officer finds that the public interest requires immediate compliance with the contested order.

(b) The Secretary or other participants may at any time, prior to the hearing under Rule 909 (hearing), or if there is no hearing, prior to the issuance of a proposed order under Rule 913 (proposed order), file a petition requesting that the contested order not be stayed, or that the stay be lifted, and setting forth the legal and factual basis for the request.

(c) The presiding officer may request a written statement of the views of participants regarding whether the contested order should be stayed or continue to be stayed and may convene an expedited hearing or conference on a petition under paragraph (b) of this section.

(d) The presiding officer may grant the petition requesting immediate compliance where he finds that the public interest so requires and will notify the participants of the determination.

(e) If the presiding officer does not grant the petition under paragraph (b) of this section within 10 days after it is filed, the petition is denied. Prior to the expiration of the 10-day period the presiding officer may extend the period for decision for up to 7 days. At the end of the extension, the petition, if not granted, is denied.

(f) If the petition under paragraph (b) of this section is denied, the presiding officer will notify the participants of such denial.

(g) A grant or denial of petition under paragraphs (b) or (c) of this section may be appealed, within 10 days after the grant or denial, to the Commission in accordance with Rule 715 (relating to interlocutory appeals). The contested order will remain stayed pending the Commission's disposition of the appeal.

§ 385.906 Pleadings. (Rule 906.)

(a) *By the Secretary.* (1) Within 20 days after the filing of notice by the Secretary under rule 904(a) (commencement of proceedings), the Secretary:

(i) Will file with the Secretary of the Commission for the presiding officer two certified copies of the entire record developed in prior proceedings on the contested order. One copy will be complete and will be a part of the record upon which the order of the Commission is based, and will be available to the participants subject to the conditions set forth in Rule 903 (f) and (g) (nondisclosure of information); the second copy will have had deletions made of information which the Secretary has determined to be confidential or not subject to disclosure;

(ii) Will file with the Secretary for the presiding officer a copy of the contested order; and

(iii) May, in addition, elect to file a statement setting forth the factual elements of the alleged violation, which statement the Secretary will serve on all participants in the proceeding.

(2) If the petitioner requests permission to raise new facts or issues pursuant to Rule 907(a) (new facts and issues), the Secretary may file, within 10 days after the filing of the petitioner's answer, a reply responding to the petitioner's request to raise new facts or issues. In the reply, the Secretary may also request the permission of the presiding officer to raise new facts or issues under the criteria set forth in Rule 907(b) (new facts and issues) and to conduct discovery relating to the new facts or issues he may raise pursuant to Rule 907(b) (new facts and issues). Failure by the Secretary to request permission to raise new facts or issues or to conduct discovery in this reply constitutes a waiver of the opportunity to do so at a later time in the proceeding.

(3) The Secretary will file with the Secretary of the Commission, for the presiding officer, and serve upon other participants in the proceedings, a brief

in support of the affirmative case, which will set forth:

(i) The elements of the alleged violation, including references to the authorities upon which the Secretary relies, including but not limited to regulations, rulings, interpretations and decisions on appeals and exceptions issued by the Department or its predecessor agencies and precedents established by the Commission; and

(ii) A complete statement of the factual and legal basis of the contested order.

(4) The Secretary's brief will be filed according to the following time period appropriate to the particular proceeding:

(i) If no participant (including persons requesting intervention) has requested permission to raise new facts or issues or to conduct discovery pursuant to paragraphs (a)(2), (b)(2), (c)(7), and (c)(8) of this section, within 20 days after the filing of the petitioner's answer under paragraph (b)(1) of this section;

(ii) If the presiding officer has determined, under Rule 908(d) (discovery) that no discovery shall be permitted, within 20 days after the presiding officer's determination under such rule;

(iii) If discovery is permitted under Rule 908(d) (discovery) within 20 days after the conclusion of the time period set for discovery under such rule;

(b) *By the petitioner.* (1) Within 15 days after the filing by the Secretary under paragraph (a)(1) of this section, the petitioner must file with the Secretary of the Commission, for the presiding officer, and serve upon the Secretary and other participants in the proceedings, an answer to the contested order admitting or denying each of the Secretary's findings in the contested order and setting forth affirmative defenses, if any.

(2) In the answer, the petitioner may:

(i) Contest any part of the record which the Secretary certified to the presiding officer under paragraph (a)(1)(i) of this section;

(ii) Request permission to raise new facts or issues not raised in the prior proceedings if the new facts or issues meet the criteria set forth in Rule 907(a) (new facts and issues); and

(iii) Request permission to conduct discovery, subject to criteria provided in Rule 908(a) (discovery). Failure by the petitioner to contest the record or to request permission to raise new facts or issues or to conduct discovery in this answer constitutes a waiver of the opportunity to do so at a later time in the proceeding.

(3) Within 15 days after filing of the Secretary's brief under paragraph (a)(3) of this section, the petitioner shall file with the Secretary of the Commission, for the presiding officer, and serve upon other participants in the proceeding, a brief stating fully the objections to the contested order, including references to the authorities upon which the petitioner relies, including but not limited to regulations, rulings, interpretations, and decisions on appeals and exceptions issued by the Department or its predecessor agencies and precedents established by the Commission.

(c) *By interveners.* (1) A person qualifying under paragraph (c)(2) of this section, may request the presiding officer to permit intervention in the proceeding under this subpart in accordance with the procedures described in this paragraph.

(2) A motion to intervene may be filed by any person claiming:

(i) An interest which may be directly affected and which is not adequately protected by existing parties and as to which the persons requesting intervention may be bound by the Commissions action in the proceeding; or

(ii) Any other interest of such nature that participation by the person requesting intervention may be in the public interest.

(3) A motion to intervene must set forth clearly and concisely the facts from which the nature of the requester's alleged right or interest can be determined, the grounds of the proposed intervention, and the position of the intervener in the proceeding, so as fully and completely to advise the participants and the presiding officer as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law raised or controverted, including references to the authorities upon which the requester relies, including, but not limited to, regulations, rulings, interpretations, and decisions on appeals and exceptions issued by the Department or its predecessor agencies and precedents established by the Commission.

(4) Motions to intervene may be filed with the Secretary of the Commission, for the presiding officer, within 20 days after the Secretary's commencement of the proceeding under Rule 904 (commencement of proceedings) unless, in extraordinary circumstances and for good cause shown, the presiding officer authorizes a late filing. A person requesting intervention must serve the motion to intervene on the participants in the proceeding at the same time the request is filed with the Secretary of the Commission.

(5) A participant in the proceedings may file an answer to a motion to intervene. Failure to object constitutes a waiver of any objection to the granting of such request. If made, answers must be filed within 15 days after the filing of the request to intervene.

(6) After expiration of the time for filing answers to requests to intervene or default thereof, as provided in paragraph (c)(5) of this section, the presiding officer will grant or deny such request, in whole or in part, or may, if found to be appropriate, authorize limited participation. The presiding officer will serve the determination on a motion to intervene upon the participants in the proceeding and upon the person requesting intervention. If the presiding officer denies a motion for intervention, the person requesting intervention may submit comments to the Commission under Rule 913(c) (proposed order) requesting the Commission to permit the intervention under the standards set forth in paragraph (c)(2) of this section.

(7) A person filing a motion to intervene, may request therein the permission of the presiding officer to raise new facts or issues not raised in the prior proceedings on the contested order, if the new facts or issues meet the criteria set forth in Rule 903(c) (request for nondisclosure of information). Failure by the person requesting permission to intervene to request permission to raise new facts or issues in the motion to intervene constitutes a waiver of the opportunity to do so at a later time in the proceeding.

(8) A person filing a motion to intervene may request the permission of the presiding officer to conduct discovery, subject to the conditions set forth in Rule 908(c) (discovery). Failure by the person requesting permission to intervene to request permission to conduct discovery in the motion to intervene constitutes a waiver of the opportunity to do so at a later time in the proceeding.

§ 385.907 New facts and issues. (Rule 907.)

(a) *Raised by the petitioner.* In the answer, as provided in Rule 906(b)(2)(ii) (new facts and issues) the petitioner may request permission of the presiding officer to raise new facts or issues not raised in prior proceedings on the contested order that:

(1)(i) Are facts or issues that were not known and could not, with the exercise of due care, have been known to the petitioner at the time they would otherwise have been raised during the prior proceedings;

(ii) Are facts or issues that the petitioner was unable to raise at the time they could have been raised during the prior proceedings because of unduly restrictive time limits imposed by the Secretary; or

(iii) Are facts or issues that the petitioner was not permitted to raise in the prior proceedings due to erroneous adverse procedural rulings; and

(2) Are necessary for a full and true disclosure of the facts.

(b) *Raised by the Secretary.* In the reply under Rule 906(a)(2) (pleadings), the Secretary may request permission of the presiding officer to raise new facts or issues not raised in prior proceedings on the contested order that:

(1) Are necessary to support the Secretary's case as a result of new facts or issues raised by the petitioner under Rule 906(b)(2)(ii) (pleadings) and this section; and

(2) Are necesary for a full and true disclosure of the facts.

(c) *Raised by interveners.* In the motion to intervene under Rule 906(c)(3) (pleadings) and this section, an intervener may request permission of the presiding officer to raise new facts or issues not raised in prior proceedings on the contested order that:

(1) If the intervener did not participate in the prior proceeding, meet the criteria of paragraphs (a)(1) and (a)(2) of this section; or

(2) If the intervener participated in the prior proceedings, are:

(i)(A) Facts or issues that were not known and could not, with the exercise of due care, have been known to the intervener at the time they would otherwise have been raised during the prior proceedings;

(B) Facts or issues that the intervener was unable to raise at the time they could have been raised during the prior proceedings because of unduly restrictive time limits imposed by the Secretary; or

(C) Facts or issues that the intervener was not permitted to raise in the prior proceedings due to erroneous adverse procedural rulings; and

(ii) Are necessary for a full and true disclosure of the facts.

(d) *Determination by the presiding officer.* The presiding officer will determine whether to grant or deny, in whole or in part, the requests of the participants to raise new facts or issues and will serve those determinations on the participants in the proceeding.

§ 385.908 Discovery. (Rule 908.)

(a) *By petitioner.* In the answer under Rule 906(b)(2) (pleadings), the petitioner may request permission of the presiding officer to conduct discovery, where such discovery:

(1) Relates to new facts or issues raised in accordance with Rule 907(a) (new facts and issues); or

(2)(i) Was not permitted in the prior proceedings on the contested order due to erroneous adverse procedural rulings; and

(ii) Is necessary for a full and true disclosure of the facts.

(b) *By the Secretary.* In the reply under Rule 906(a)(2) (pleadings), the Secretary may request permission of the presiding officer to conduct discovery where such discovery relates to new facts or issues raised in accordance with Rule 907(b) (new facts and issues).

(c) *By interveners.* In a motion to intervene under Rule 906(c)(8) (pleadings) an intervener may request permission of the presiding officer to conduct discovery where such discovery:

(1) Relates to new facts or issues raised in accordance with Rule 907(c) (new facts and issues); or

(2) If the intervener participated in the prior proceedings,

(i) Such discovery was not permitted in prior proceedings on the contested order due to erroneous adverse procedural rulings; and

(ii) Such discovery is necessary for a full and true disclosure of the facts.

(d) *Determinations by the presiding officer.* The presiding officer will determine whether to grant or deny, in whole or in part, the requests of the participants for discovery and will set a time limit within which discovery must be conducted.

(e) *Interrogatories.* In addition to discovery devices applicable to this subpart under other subparts of this part, participants may conduct discovery by means of written interrogatories under conditions determined by the presiding officer.

§ 385.909 Hearing. (Rule 909.)

(a) Participant may file, within 10 days after filing of the petitioner's brief under Rule 906(b)(3) (pleadings), a request for a hearing or a motion for the opportunity for cross-examination including the reasons why cross-examination is necessary for a full and true disclosure of the facts.

(b) If a participant has filed a request for a hearing, the presiding officer will grant the request for a hearing. The hearing will include an opportunity for the submission of oral or documentary evidence and oral arguments.

(c) The presiding officer may at any time, convene a hearing.

(d) As soon as practicable after receiving a request for hearing under paragraph (a) of this section or after determination that a hearing will be held under paragraph (c) of this section, the presiding officer will give notice to the participants of the time and place of the hearing.

(e) The presiding officer will determine the issues to be resolved in the proceeding, may specify the time available for oral argument, and will give notice thereof to the participants. The presiding officer may require additional information from the participants, and may convene a prehearing conference for the purpose of determining the issues or the nature of the proceeding to be held.

(f) If at any time prior to the issuance of a proposed order pursuant to Rule 913 (proposed order), with or without a motion of a participant, the presiding officer determines that it is necessary for a full and true disclosure of the facts, the presiding officer may order that the participants be afforded the opportunity for cross-examination on any facts or issues raised in the proceeding.

§ 385.910 Conduct of the hearing. (Rule 910.)

The presiding officer is responsible for conduct of the hearing, including the order of procedure.

§ 385.911 Burden of proof. (Rule 911.)

(a) The Secretary has the burden of going forward and must sustain the burden of proof with respect to disputed elements of affirmative case of the Secretary.

(b) The proposed order under Rule 913 (proposed order) will be based upon a preponderance of the evidence.

§ 385.912 Proposed findings of fact, conclusions of law, and comments. (Rule 912.)

(a) Within 10 days after the conclusion of the hearing, or, if no hearing is held, within 20 days after the filing of the petitioner's brief under Rule 906(b)(3) (pleadings), a participant may file with the Secretary of the Commission for the presiding officer, and serve upon the other participants proposed findings of fact and conclusions of law, comments, in support thereof and any objections with respect to procedural rulings of the presiding officer.

(b) Within 10 days after the filing of proposed findings of fact and conclusions of law under paragraph (a) of this section, a participant may file, and must serve on other participants, a reply thereto.

§ 385.913 Proposed order. (Rule 913.)

(a) After the conclusion of the hearing and after the filings under Rule 912 (a) and (b), (proposed findings of fact, conclusions of law, and comments) the presiding officer will issue a decision and proposed order based on findings of fact affirming, modifying, or vacating the contested order or directing other appropriate relief. The proposed order will be based on the entire record before the presiding officer, including the record of prior proceedings certified by the Secretary.

(b) The presiding officer will certify and file with the Secretary of the Commission, for the Commission, a copy of the record in the proceedings, including the proposed order.

(c) Participants may file, within 15 days of issuance of the proposed order of the presiding officer, with the Secretary of the Commission, for the Commission, written comments on any rulings of the presiding officer and the decision and proposed order.

§ 385.914 Commission action. (Rule 914.)

The Commission will upon consideration of the entire record and the proposed order, issue a final order affirming, modifying, or vacating the contested order or directing other appropriate relief. The Commission will serve the final order on the participants.

§ 385.915 Ex parte communications. (Rule 915.)

The provisions of Rule 2201 (*ex parte* communications) apply to proceedings pursuant to this section, commencing at the time the Secretary issues a proposed remedial order under 10 CFR 205.192, an interim remedial order for immediate compliance under 10 CFR 205.199D, or a proposed order of disallowance under 10 CFR 205.199E, as if proceedings were contested on-the-record proceedings pending before the Commission.

§ 385.916 Withdrawal of petition for review. (Rule 916.)

(a) At any time, including after a hearing has been held or convened, the petitioner may submit to the presiding officer, and serve on other participants in the proceeding, a withdrawal of the petition for review of the contested order. The presiding officer will thereupon issue, and serve the participants, an order terminating the proceeding conducted pursuant to this subpart, which order will be effective 10 days after issuance.

(b) Termination of the proceeding under paragraph (a) of this section, may be appealed to the Commission, within 10 days after issuance of the termination order, except that if the Commission does not act on an appeal within 30 days, it is deemed denied. The termination order is stayed pending the appeal. If the Commission rescinds the termination order, the proceeding will continue in accordance with this subpart.

§ 385.917 Sanctions. (Rule 917.)

Whenever it appears to the Commission that a person is engaged or about to engage in any act or practice which constitutes or will constitute a violation of rule, regulation, or order, made or imposed by the Commission or the presiding officer under this subpart, it may bring an action in the proper court of the United States to enjoin that act or practice and to enforce compliance with the order, and upon a proper showing, a permanent or temporary injunction or decree or restraining order will be granted without bond. The Commission may transmit such evidence as may be available concerning that act or practice to the Attorney General, who may institute the necessary criminal proceedings.

Subpart J—Commission Review of Adjustment Request Denials

§ 385.1001 Scope. (Rule 1001.)

(a) *Applicability.* This section applies to proceedings of the Commission held in accordance with section 504(b) of the Department of Energy Organization Act, 42 U.S.C. 719(b), to review orders issued by the Secretary of Energy pursuant to section 504(a) of the Department of Energy Organization Act denying, in whole or in part, requests for adjustments.

(b) *Relationship to other rules.* When a provision of this subpart is inconsistent with a provision of any other subpart of this part, the former provision controls.

§ 385.1002 Definitions. (Rule 1002.)

For purposes of this subpart:

(a) "Commission" includes an officer or employee designated as presiding officer in a proceeding under this subpart.

(b) "Petitioner" means a person who is aggrieved or adversely affected by a contested order, as defined in this section, and who requests a review, pursuant to this subpart, by the Commission of the denial by the Secretary.

(c) "Secretary" means the Secretary of Energy or his delegate.

(d) "Content order" means the decision or order issued by the Secretary denying, in whole or in part, a request for adjustment.

(e) "Participant" means, as appropriate, the petitioner, the Secretary, or an intervener.

§ 385.1003 Request for nondisclosure of information. (Rule 1003.)

(a) For purposes of this section, nondisclosure means nondisclosure except to the participants in the proceedings and under the conditions as provided in paragraph (e) of this section.

(b) If a person filing under this subpart claims that some or all of the information contained in a document is exempt from the mandatory public disclosure requirements of the Freedom of Information Act (5 U.S.C 552), is information referred to in 18 U.S.C. 1905, or is otherwise exempt by law from public disclosure, the person:

(1) Will request the presiding officer not to disclose such information, except to the participants in the proceedings and under the conditions as provided in paragraph (e) of this section, which request the person must serve upon the participants in the proceedings;

(2) Will file, together with the document, a second copy of the document from which has been deleted the information for which the person requests nondisclosure and must indicate in the original document that the original document is confidential or contains confidential information;

(3) If the information is claimed to come within the exception in 5 U.S.C. 552(b)(4), for trade secrets and commercial or financial information, it must include a statement specifying why the information is privileged or confidential;

(4) If the information for which nondisclosure is requested is not within the exception in 5 U.S.C. 552(b)(4), it must include a statement specifying the justification for nondisclosure.

(c) If the person filing a document does not submit a second copy of the document from which the appropriate information has been deleted, the presiding officer may assume that there is no objection to public disclosure of the document in its entirety.

(d) A participant in the proceedings who opposes a request for nondisclosure under paragraph (b) of this section must file, within 10 days of the receipt of a copy of the request for non-disclosure, with the presiding officer, and serve on the other participants, a statement specifying the reasons that the material is not exempt from disclosure.

(e) The presiding officer will make an independent determination as to a request filed under this section and will serve that determination upon the participants in the proceedings. If a

request for nondisclosure is denied, in whole or in part, the requesting person will be given notice thereof and will be afforded an opportunity to respond, no less than 5 days prior to public disclosure. If the request for nondisclosure is granted, in whole or in part, the presiding officer will issue an order stating that the information will not be disclosed except, upon request, to the participants in the proceedings, that the participants may not use or disclose the information, except in the context of the proceedings conducted pursuant to this subpart, and that upon conclusion of the proceedings, the participant return the information to the presiding officer.

§ 385.1004 Commencement of proceedings. (Rule 1004.)

(a) A petitioner commences proceedings, pursuant to this subpart, by filing with the Commission and serving upon the Secretary and any other participants in prior proceedings on the contested order a petition for review, which must contain:

(1) A copy of the decision or order denying, in whole or in part, request for adjustment (the contested order); and

(2) A complete statement of the petitioner's objections factual or legal to the contested order, including references to all authorities upon which the petitioner relies including but not limited to regulations, rulings, interpretations, and decisions on exceptions and appeals issued by the Department or its predecessor agencies and precedents established by the Commission.

(b) A petition for review must be filed within 30 days of issuance by the Secretary of the order to be contested pursuant to this subpart.

(c) Upon receiving a petition for review, the Commission or its designee will designate a presiding officer for the proceedings.

§ 385.1005 Replies. (Rule 1005.)

(a) *By the Secretary.* Within 15 days of service of the petition for review, the Secretary:

(1) Will file with the Commission a certified copy of the complete record developed in prior proceedings on the contested order, which will be available at the Commission for inspection by the participants; and

(2) Will file with the Commission and serve on the petitioners and the other participants in prior proceedings on the contested order, a reply to the petition for review stating fully his or her position supported by arguments to the petition for review.

(b) *By other participants.* A person who participated in prior proceedings on the contested order may be a participant in the proceedings pursuant to this subpart and may make filings and submittals as determined by the presiding officer.

(c) *By interveners.* A person who was denied the opportunity to participate in prior proceedings on the contested order or who is aggrieved or adversely affected by the contested order may move to intervene in accordance with Rule 214 (intervention). In order that the motion be granted, the movant must show, as appropriate, that denial of participation in prior proceedings was wrongful or why he or she is aggrieved or adversely affected by the contested order. If the presiding officer grants the motion, the person submitting the motion to intervene may make filings and submittals as determined by the presiding officer.

(d) A participant may request interim relief in a proceeding pursuant to this subpart.

(e) The presiding officer may require such other filings by the participants as he or she deems necessary in the conduct of the proceedings.

§ 385.1006 Request for hearing. (Rule 1006.)

A participant may file with the Commission and serve on the other participants a request for hearing, which will be deemed granted.

§ 385.1007 Presiding officer. (Rule 1007.)

(a) The presiding officer will determine the issues to be resolved in the proceeding and will give notice thereof to the participants. The presiding officer may require additional information from the participants and convene a prehearing conference for the purpose of determining the issues to be considered at a hearing, if one is to be held. The presiding officer may also specify the time available for oral argument and determine the nature of the hearing to be held.

(b) The presiding officer may determine, upon request by a participant, whether to permit the participant to raise new facts or issues not raised in prior proceedings on the contested order. Such a request may be granted if the facts or issues are facts or issues that:

(1)(i) Were not known and could not, with the exercise of due care, have been known to the participant at the time they could have been raised in prior proceedings; or

(ii) Are facts or issues that the participant was not permitted to raise in prior proceedings on the contested order due to an adverse procedural ruling alleged to be erroneous; and

(2) Are necessary for a full and true disclosure of the facts.

§ 385.1008 Hearings. (Rule 1008.)

As soon as practicable, after receiving any request for hearing and all the pleadings under Rules 1004 (commencement of proceedings) and 1005 (replies), the presiding officer will give notice to the participants as to the time and place of the hearing.

§ 385.1009 Proof. (Rule 1009.)

(a) A participant seeking relief from the Secretary's denial of a request for adjustment has the burden of demonstrating the participant's entitlement to the relief sought.

(b) Relief will be granted under this subpart if a participant demonstrates, by a preponderance of the evidence, that such relief is warranted.

§ 385.1010 Proposed order. (Rule 1010.)

(a) As soon as practicable, after receipt of all the pleadings or after the hearing, if one is held, the presiding officer will issue, and serve upon the participants in the proceedings, a proposed order based upon findings of fact, affirming, modifying or vacating, the contested order or directing other appropriate relief.

(b) The presiding officer will certify and file with the Office of the Secretary of the Commission, for the Commission, a copy of the record in the proceeding, including the proposed order.

(c) Participants may file, within 15 days of service of the proposed order, with the Secretary of the Commission, for the Commission, written comments on the proposed order.

§ 385.1011 Final order. (Rule 1011.)

The Commission will issue a final order, affirming, modifying or vacating the contested order or directing other appropriate relief.

§ 385.1012 Ex parte communications. (Rule 1012.)

The provisions of Rule 2201 (*ex parte* communications) apply to proceedings pursuant to this subpart, commencing at the time a petitioner files a petition for review under Rule 1004 (commencement of proceedings), as if such proceedings were contested on-the-record proceedings pending before the Commission.

Subpart K—Petitions for Adjustments Under the NGPA

§ 385.1101 Applicability. (Rule 1101.)

(a) *Proceedings to which applicable.* Except as provided in paragraph (b) of this section, this subpart applies to

proceedings of the Commission held in accordance with:

(1) Section 502(c) of the NGPA to provide for adjustments of:

(i) Commission rules, and

(ii) Commission orders having the applicability and effect of a rule as defined in section 551(4) of title 5 of the *United States Code* (5 U.S.C. 551(4)) and issued under the NGPA, except orders issued under sections 301, 302, and 303 of the NGPA;

(2) Section 206(d) of the NGPA to provide for exemptions for industrial boiler fuel facilities from incremental pricing provisions of the NGPA under § 282.206 of this chapter.

(b) This subpart does not apply to:

(1) Proceedings wherein the Commission by order grants an adjustment on its own motion or;

(2) Proceedings for which the Commission by order waives the provision of this subpart.

(c) *Relationship to other rules.* (1) Where a provision of this subpart is inconsistent with a provision in another subpart of this part, the former provision controls.

(2) When provisions of other subparts of this part require Commission action, such provisions as applied under this subpart shall be deemed to require staff action. This subpart does not require a hearing to which Subpart E applies.

§ 385.1102 Definitions. (Rule 1102.)

For purposes of this subpart:

(a) "Adjustment" means an order issued by Staff under Rule 1109 (orders):

(1) Granting relief from an order or rule issued by the Commission under the NGPA,

(i) Including exceptions, exemptions, modification, and recissions of rules and orders have the effect of rule as defined in section 551 of title 5 of the *United States Code* (5 U.S.C. 551(4)) and issued under the NGPA; but

(ii) Excluding requests for just and reasonable rates under sections 104, 106, and 109 of the NGPA; and

(2) Granting an exemption, in whole or in part, for incrementally priced industrial boiler fuel facilities from section 201 of the NGPA, under the authority of section 206(d) of the NGPA and § 282.206 (industrial boiler fuel facilities exemption);

(b) "Petitioner" means a person who files a petition for adjustment under paragraph (c) of this section;

(c) "Petition" means a petition for adjustment filed under Rule 1103 (commencement of adjustment proceedings);

(d) "NGPA" means the Natural Gas Policy Act of 1978;

(e) "Party" means, with respect to a particular petition for adjustment, the person making the petition, an intervener, or a person who has moved to intervene but whose motion has not been granted or denied under Rule 1105(b) (intervention in adjustment proceedings).

(f) "Staff" means the Director of the Office of Producer and Pipeline Regulation, or a person who is designated by the Director and who is an employee of the Commission.

§ 385.1103 Commencement of proceeding. (Rule 1103.)

A person commences a proceeding for an adjustment by filing a petition for adjustment with the Commission.

§ 385.1104 Initial petition. (Rule 1104.)

(a) *Content.* (1) *The petition must contain:*

(i) A full and complete statement of the relevant facts, including the documentary support pertaining to the circumstances, act or transaction that is the subject of the application;

(ii) A complete statement of the business reasons why the relief should be granted and the business consequences that will result if the relief is denied; and

(iii) A statement specifying how the denial or relief will cause the applicant to suffer special hardship, inequity, or unfair distribution of burdens.

(2) The petition must contain a complete statement of the legal basis of the relief requested including citations to authorities relied upon to support the petition.

(3) The petition must specify the exact nature of the relief sought.

(4) The certificate of service required under Rule 2010(h) (certificate of service) must indicate the names and addresses of all persons served.

(5) The petition must include a proposed notice of the adjustment proceeding which must state the petitioner's name, the rule or order under the NGPA of which an adjustment is sought, the date of the petition, and a brief summary of the relief requested. The proposed notice must be in the following form:

United States of America, Federal Energy Regulatory Commission

(Name of Petitioner) _____

Docket No. _____

Notice of Petition for Adjustment

On (date petition was filed), (name of petitioner) filed with the Federal Energy Regulatory Commission a petition for an adjustment under (the rule or order under the NGPA of which an adjustment is sought), wherein (name of petitioner) sought (relief requested).

The procedures applicable to the conduct of this adjustment proceeding are found in Subpart K of the Commission's Rules of Practice and Procedure.

Any persons desiring to participate in this adjustment proceeding must file a motion to intervene in accordance with the provisions of such Subpart K. All motions to intervene must be filed within 15 days after publication of this notice in the **Federal Register**.

(b) *Service.* (1) The petitioner must serve a copy of the petition, or a copy from which confidential information has been deleted in accordance with Rule 1112 (requests for confidential treatment) on each person who is reasonably ascertainable by the petitioner as a person who may suffer direct and measurable economic impact if the relief is granted.

(2) Notwithstanding paragraph (b)(1) of this section, if a petitioner determines that compliance with such paragraph of this section would be impracticable, the petitioner must:

(i) Comply with the requirements of such paragraph with regard to those persons whom it is reasonable and practicable to serve; and

(ii) Include with the petition a description of the persons or class or classes of persons to whom notice was not sent.

(3) Staff may require the petitioner to provide alternate or additional service and will cause notice of the application to be published in the **Federal Register**.

§ 385.1105 Intervention. (Rule 1105.)

(a) A motion to intervene in an adjustment proceeding, in conformity with Rule 214 (intervention) must be filed within 15 days after publication in the **Federal Register** of notice of the petition for adjustment.

(b) A motion to intervene is granted unless it is denied by staff within 75 days after the day on which it was filed.

§ 385.1106 Other filings. (Rule 1106.)

(a) *Interveners.* Responses to the petition must be filed at the time the motion to intervene is filed.

(b) *Petitioner.* The petitioner may respond to filings of another party within 15 days after service of such filings. Amended pleadings may be filed under Rule 215 (amendments) if the petitioner discovers facts unavailable at the time the initial petition was filed, or if such pleadings are requested or permitted by Staff under Rule 1107 (evaluations).

§ 385.1107 Evaluations. (Rule 1007.)

(a) Staff will consider the filings made in connection with the petition for adjustment. Staff may also consider information received under paragraph

(b) of this section. If Staff obtains information under paragraphs (b)(1) or (b)(3) of this section and relies upon such information, the petitioner will be advised of such information and will be given 15 days to respond to such information.

(b)(1) Staff may initiate an investigation of any statement in a petition and use in its evaluation of any relevant fact obtained in such an investigation.

(2) Staff may request additional information from the petitioner.

(3) Staff may solicit and accept submissions from interveners or third persons relevant to the petition.

(4) Staff may consider information obtained in informal conferences held under Rule 1111 (adjustment conferences).

§ 385.1108 Criteria. (Rule 1108.)

(a) Staff will grant a petition where there are sufficient facts to make a determination on the merits and where Staff determines that an adjustment is necessary to prevent or alleviate:

(1) Special hardship;

(2) Inequity; or

(3) An unfair distribution of burdens.

(b) When there are not sufficient facts to make a determination on the merits, the Staff may dismiss the petition without prejudice; except, that when Staff has requested additional material information under Rule 1107 (adjustment evaluations) of this section and the petitioner has failed to provide the requested information, Staff may deny the petition.

§ 385.1109 Orders. (Rule 1109.)

(a) Staff will issue a decision and an order granting or denying the petition in whole or in part. The order will articulate the basis for the decision, noting any dispute with the factual assertions of the petitioner.

(b) In addition to service otherwise required under this subpart, Staff will serve the decision and order on the persons who sought and were denied an opportunity to participate in the proceeding under this subpart.

(c) If Staff fails to issue an order granting or denying the petition for adjustment within the determination period, the petitioner may treat the application as having been denied and may, within 30 days after the close of the determination period, request review thereof as prescribel in Rule 1110(a) (review of denials). For purposes of this paragraph, "determination period" means the 150 days commencing with the filing of the petition, unless Staff for good cause extends such period.

(d) An order of Staff issued under paragraph (a) of this section granting an adjustment, in whole or in part, is final 30 days after it is issued, unless, during such 30-day period:

(1) A petition for review is filed under Subpart J of this subchapter in accordance with Rule 1110(a) (review of denials) in which case the order is final when the review process under Subpart J has been completed; or

(2) The Commission directs that the order be reviewed under Subpart J in accordance with Rule 1110(b), in which case when the review process under Subpart J has been completed unless the Commission expressly states that the order shall be effective pending review proceeding.

§ 385.1110 Review of initial decision and order for adjustment. (Rule 1110.)

(a) *General rule.* (1)Within 30 days after the issuance by Staff of an order granting or denying, in whole or in part, a petition for adjustment relief under this subpart, a person may file a petition for Commission review of that order in accordance with Subpart J of this subchapter, if the person:

(i) Is aggrieved or adversely affected by that order; and

(ii) Participated, or sought and was denied an opportunity to participate, in the proceeding under this subpart.

(2) Except as otherwise provided in this paragraph, the provisions of Subpart J shall apply to Commission review of both grants and denials of adjustment applications under this subpart.

(i) "Contested order" in Subpart J means the order issued by Staff granting or denying, in whole or in part, a petition for adjustment under this subpart.

(ii) "Staff" is substituted for "Secretary" in Subpart J. With respect to review of an order denying a petition for adjustment under this subpart, Staff may participate in the proceeding in the same manner prescribed for the Secretary in Rule 1005 (replies in reviews of adjustment denials). With respect to review of an order granting a petition for adjustment under this subpart, Staff may not participate in the proceeding except to the extent necessary to file the record as prescribed in Rule 1005(a)(1) (replies in reviews of adjustment denials). With respect to review of an order granting in part and denying in part a petition for adjustment under this subpart, Staff may participate as prescribed in Rule 1005(a)(1) (replies), only if a petition for review has been filed which specifically seeks review of the portion of the order denying the application for adjustment.

(3) A motion to intervene under Rule 1005(b) (interventions in adjustment proceedings) may be filed only by a person who sought and was denied an opportunity to participate, in the proceeding under this section.

(4) There is no exhaustion of administrative remedies until a request for review is filed under Subpart J in accordance with this section and the review process under Subpart J is completed by the issuance of an order granting or denying, in whole or in part, the relief requested.

(b) *Review initiated by the Commission.* Within 30 days after the issuance by Staff of an order granting, in whole or in part, a petition for adjustment relief under this subpart, the Commission may direct that the order be reviewed in a proceeding which, insofar as practicable, will conform to proceedings under Subpart J. The order directing such review will specify the manner in which such proceedings will be conducted and the extent to which Subpart J apply.

(c) *Separation of functions.* Any person who participated in the proceeding to review the grant or denial of that adjustment under this Rule as a witness or counsel may not advise the Commission concerning the review of the grant or denial of that adjustment.

§ 385.1111 Conferences. (Rule 1111.)

Staff may direct that a conference be convened. The conference will be conducted by Staff in accordance with procedures Staff determines will most expeditiously further the purpose of the conference. A conference will be convened only after actual notice of the time, place and nature of the conference is provided to the parties. All parties may attend the conference. However, if a party wishes to present confidential information at the conference, Staff may exclude the other parties from that part of the conference when the confidential information is presented.

§ 385.1112 Requests for confidential treatment. (Rule 1112.)

(a) If a person filing a document under this subpart claims that some or all of the information contained in a document is exempt from the mandatory disclosure requirements of the Freedom of Information Act, or is otherwise exempt by law from public disclosure, that person may request confidential treatment of such information. At the time request is made for confidential treatment, the person must submit a copy of the document which contains the confidential information and two copies of the document which exclude the information for which confidential treatment is requested. The request for

confidential treatment must describe the information deleted and specify the grounds for the claim for confidential treatment. The service requirements of Rule 2010 (service) are deemed satisfied if a copy of the document with the confidential information deleted is served.

(b) If a determination to disclose the information is made under Part 388 (public information and requests), the person who has requested confidential treatment will be given notice thereof and will be afforded no less than 10 days to respond to such determination before the information is disclosed.

§ 385.1113 Interim relief. (Rule 1113.)

(a) The petitioner may at any time file a request for interim relief in a proceeding under this subpart, setting forth the legal and factual basis for the request. Service of such request must comply with the service requirements set forth in Rule 1104(b) (initial petition of adjustment request) and must be made on each person described in such rule as well as on any other party to the proceeding.

(b) The grounds for granting interim relief are:

(1)(i) A showing that irreparable injury will result in the event the interim relief is denied; and

(ii) A showing that denial of the interim relief requested will result in a more immediate special hardship or inequity to the person requesting the interim relief than the consequences that would result to other persons if the interim relief were granted; or

(2) A showing that it will be in the public interest to grant the interim relief.

(c) A party may within 10 days after the filling of the request for interim relief file a reply to the request for interim relief.

(d) Staff may request a written statement of the views of a party regarding whether the interim relief should be granted and may convene an expedited conference on the request for interim relief.

(e) If Staff has not granted the request for interim relief within 30 days after it is filed, the request is denied.

(f)(1) Subject to paragraph (f)(2) of this section, Staff will issue an order granting or denying the request for interim relief and will notify the parties. Any grant of interim relief is subject to further modification in the order issued under paragraph (f)(1) of this section.

(2) The Commission may, on its own motion, at any time revoke, modify, rescind, stay or take any other appropriate action concerning the order granting interim relief.

§ 385.1114 Motions. (Rule 1114.)

A party may file a motion at any time. Motions must set forth the ruling or relief requested and must state the grounds therefor and the statutory or other authority relied upon. Staff will rule on all motions.

§ 385.1115 Procedural rulings. (Rule 1115.)

Staff may make any procedural rule or provide any procedural relief.

§ 385.1116 Appeals. (Rule 1116.)

All actions under this subpart are taken by Staff, except with respect to requests for public information under Part 388. Except as provided in Rule 1110 (review of initial adjustment decision) of this section, there are no appeals to the Commission from Staff action taken under this section.

§ 385.1117 Petition for adjustment treated as request for interpretation. (Rule 1117.)

(a) Staff may, if appropriate, treat a petition filed under Rule 1103 (petition for adjustment) as a request for an interpretation under section 502(c) of the NGPA, of that Act or rule or order issued under that Act.

(b) If the Staff exercises its discretion under paragraph (a) of this section to treat a petition for adjustment as a request for an interpretation, then:

(1) Staff will notify the parties to the proceeding that the petition is being treated as a request for an interpretation under Rule 1901; and

(2) The time limits in this section are stayed pending issuance of the interpretation.

(c) After the interpretation is issued, if the petitioner wishes to reinstate the adjustment proceeding, the petitioner may do so by notifying the Commission in writing that the petition should be reinstated.

Subpart L—[Reserved]

Subpart M—Cooperative Procedure With State Commissions

§ 385.1301 Policy. (Rule 1301.)

(a) The Federal Power and Natural Gas Acts, sections 209 and 17, respectively, authorize cooperation between the Federal Energy Regulatory Commission and the State commissions of the several States in the Administration of said Acts, which include authorization for:

(1) Reference of any matter arising in the administration of these Acts to a board to be composed of a member or member from a State or States affected, or to be affected, by the particular matters pending before the Commission;

(2) Conferences with State commissions regarding the relationship between rate structures, costs, accounts, charges, practices, classifications, and regulations of public utilities or natural gas companies subject to the jurisdiction of such State commissions and of the Commission; and

(3) Joint hearings with State commissions in connection with any matter with respect to which the Commission is authorized to act.

(b) The matters that should be the subject of a conference referred to a board, or heard at a joint hearing of State commissions and the Commission, obviously, cannot be determined in advance. It is understood, therefore, that the Commission or any State commission will freely suggest cooperation with respect to any proceeding or matter affecting any public utility or natural gas company subject to the jurisdiction of the Commission and of a State commission, and concerning which it is believed that cooperation will be in the public interest.

§ 385.1302 Notice. (Rule 1302.)

(a) *By Commission.* (1) Whenever there is instituted before the Commission any proceeding under either the Federal Power Act or the Natural Gas Act, the State commission or commissions of the State or States affected thereby will be given notice thereof immediately by the Commission. As deemed necessary for an understanding of the subject matter, each such notice will be supplemented by copies of applications, complaints, petitions, or orders instituting proceedings. Each such notice given to a State commission will request that the Commission be notified within a reasonable time whether the proceeding is deemed one that should be considered under the cooperative provisions of this subpart, and, if so, to advise the Commission as to the nature of its interest in the matter, and further, to specify whether it desires a conference, the creation of a board, or a joint or concurrent hearing, as defined in this subpart and the reasons for such request.

(2) Any commission suggesting some form of such cooperative procedure should also state whether there is pending, or will be pending before it, a proceeding in which a concurrent hearing might appropriately be held and whether its proposal is for such hearing covering such proceeding and the proceeding pending before the Commission.

(3) A State commission recommending to the Commission reference of a proceeding to a board, under either the

Federal Power Act or the Natural Gas Act, should state with fullness the reasons which led it to believe that such reference is desirable and in the public interest.

(4) Upon the receipt from a State commission of a communication suggesting cooperation, the Commission will consider the same, and may confer with the Commission making the request and with other interested commissions, if any, in such manner as may be most suitable, and, if cooperation in the manner proposed, or in any other manner, appears to be practicable and desirable, will so advise each interested State commission, and will invite it to participate therein.

(b) *By State commission.* (1) Each State commission should, in like manner, notify the Commission of any proceeding instituted before it the subject matter of which is also subject to the jurisdiction of the Commission, or in which it believes the Commission is interested. Such notice should be supplemented by copies of applications, petitions, complaints, or orders instituting proceedings which may be necessary to an understanding of the subject matter. Such notice should include the suggestions which the State commission may wish to make concerning cooperative procedure.

(2) Upon receipt of such notice, the Commission will consider the same and will promptly notify the State commission whether or not in its opinion cooperation in the manner proposed, or in any other manner, appears to be practicable and desirable. The Commission is free to propose cooperative procedure whether or not such proposal of cooperation has been made by the State commission first giving notice of the proceeding.

(c) *Commission or State commissions to invite participation in cooperative procedure.* In the event that cooperation in a particular proceeding has been determined upon, the Commission or a State commission before which the proceeding is pending will so advise each interested State commission and will invite it to take part therein.

§ 385.1303 Conferences. (Rule 1303).

Inasmuch as experience has proved that informal conferences are the means most often used to enable commissions to work together to promote good regulation, affording means whereby common understandings may be reached, and the imposition of inconsistent or conflicting regulations upon companies subject to both Federal and State control may be avoided and means whereby State commissions may secure the assistance in State regulatory work with sections 209 and 17, respectively, of the Federal Power and Natural Gas Acts authorize the Commission to extend, any commission, Federal or State, should always feel free to suggest a conference to another commission, concerning any matter of regulation subject to the jurisdiction of either, with respect to which it is believed that a cooperative conference may be in the public interest. The Commission desiring a conference upon any such matter should notify other interested commissions without delay, and thereupon the Commission or a State commission, as may be agreed, will promptly arrange for a conference in which all interested commissions will be invited to be represented.

§ 385.1304 Procedure governing matters referred to a board. (Rule 1304.)

(a) It is believed that the statutory provisions of sections 209 and 17, respectively, of the Federal Power and Natural Gas Acts, for the reference of a proceeding to a board constituted as therein provided, were designed for use in unusual cases, an as a means of relief to the Commission when it might find itself unable to hear and determine cases before it, in the usual course, without undue delay.

(b) Whenever the Commission, either upon its own motion or upon the suggestion of a State commission or at the request of any interested party, determines that it is desirable to refer a matter arising in the administration either of the Natural Gas Act or Part II of the Federal Power Act, to a board to be composed of a member or members from the State or States affected or to be affected by such matter, the procedure will be as follows: The Commission will send a request to each interested State commission to nominate a specified number of members to serve on such board. Whenever more than one State is involved, the representation of each State concerned shall be equal, unless one or more of the States affected chooses to waive such right of equal representation. The Commission will specify the functions to be performed by such board in each instance. When the member or members of any board have been nominated and appointed in accordance with the provisions of either section 209 of the Federal Power Act or section 17 of the Natural Gas Act, the Commission will issue an order referring the particular matter to such board, and such order will fix the time and place of hearing, define the "force and effect" which an action of the board will have, the manner in which the proceedings will be conducted, and specify the allowances to be made for the expense of the members of the board. As far as applicable, the rules of practice and procedure as from time to time adopted or prescribed by the Commission will govern such board. The board will have authority to adjourn the hearing from day to day, subpoena witnesses, rule on the relevancy, competency, and materiality of evidence, and will, after hearing all interested parties, submit its report to the Commission.

§ 385.1305 Joint and concurrent hearings. (Rule 1305.)

(a) The term "joint hearing" used in sections 209 and 17, respectively, of the Federal Power and Natural Gas Acts is understood to cover any hearing in which members of the Commission and members of one or more State commissions may sit together in a proceeding pending before one such commission, whether or not a proceeding or proceedings involving similar or corresponding issues be pending before any other commission.

(b) Two different types of proceedings have been called "joint hearings". One is that type of proceeding where members of one or more State commissions sit with members of the Commission for information or in an advisory capacity. The State commissioners in such case do not develop a record for their respective commissions and may not, at their own discretion, make a recommendation to the Commission. The other type of joint hearing is often referred to as a "concurrent hearing". Under this procedure the Commission and one or more State commissions sit together to hear and jointly make a record upon a matter over which all of the participating commissions have jurisdictions and responsibility for action.

(c) The Commission or any State commission or commissions should feel free to suggest or request a joint or concurrent hearing at any time. It is believed that the concurrent hearing is the type of cooperative hearing which is likely to be most useful and effective.

(d) Whenever a concurrent hearing has been agreed upon by the Commission and one or more State commissions, the procedure will be:

(1) Each commission will designate the representative or representatives of such commission to sit at such concurrent hearing, and will designate the representative who will be the presiding officer for such commission.

(2) It will be understood that participation in such concurrent hearing will in no way affect the complete control by each commission of the

proceeding before it. It will be understood, also, that participation in either a joint or concurrent hearing will in no way preclude any commission from causing to be present in any such case pertinent evidence with respect to matters in issue.

(3) The representative designated by the Commission will be the presiding officer to announce rulings with respect to which there is no disagreement; and such rulings will be considered concurrent rulings. However, the presiding officer for any commission which does not concur in any ruling may announce a divergent ruling and such divergent ruling, whether with respect to the admissibility of evidence or any other matter, will be considered the ruling for his or her commission.

(4) The record of the concurrent hearing will be the record of each commission paricipating, except that, if divergent rulings are made, the rulings will be reported so as to separate and distinguish clearly the record of the respective participating commissions and the evidence admitted in each record, in accordance with the rulings of the respective commissions. If, in any proceeding, the ruling of one presiding officer has the effect of admitting any voluminous exhibit or testimony which is excluded by the ruling of another presiding officer, the taking of such evidence, whenever possible, will be deferred until after the completion of the proceedings which can be conducted under concurrent rulings. When such testimony is taken, the transcript of such evidence will be made available to the participating commissions, if desired.

(5) In all respects concerning which there is no divergence of ruling, the hearing will be conducted in accordance with the rules of practice and procedure prescribed by the Commission, subject to the express understanding that each participating State commission will control its own record and make its own rulings as to the admissibility of evidence and as to other matters affecting its proceedings, and will make its own separate final decision or order therein.

(e) Before either the Commission or a participating State commission will enter any order or orders in a concurrent proceeding, opportunity will be afforded for conference between the Commission and the State commissions participating.

(f) Whenever a joint hearing other than a concurrent hearing is agreed upon, the commissioners which take part therein will agree upon the procedure to be followed in such hearing in advance of the opening of the same. With respect to any concurrent hearing, a special agreement may be made by the commissions taking part therein for a procedure or action differing from that outlined in this plan.

(g) Cooperation between two or more commissions in a concurrent hearing will preclude either from taking the position of an advocate or a litigant. If a commission wishes to take such a position, it will not be cooperating participant in that proceeding. In such situation the appropriate method of procedure will be intervention under Rule 214.

§ 385.1305 Intervention by State commissions. (Rule 1305.)

Any interested State commission may, as a matter of right, intervene in any proceeding before the Federal Energy Regulatory Commission, as provided in Rule 214.

Subpart N—[Reserved]

Subpart O—[Reserved]

Subpart P—[Reserved]

Subpart Q—[Reserved]

Subpart R—[Reserved]

Subpart S—Miscellaneous

§ 385.1901 Interpretations and interpretative rules under the NGPA. (Rule 1901.)

(a) *Purpose and applicability.*—(1) *Purpose.* The purpose of this section is to provide procedures by which:

(i) A person may seek a written interpretation from the General Counsel construing a provision of the NGPA, or clarifying a rule issued by the Commission under the NGPA; and

(ii) The Commission may publish an interpretative rule that will have general applicability and effect.

(2) *Applicability.* (i) This section applies to requests under section 502(c) of the NGPA for interpretations of the NGPA or of rules or of orders, having the appliability and effect of a rule as defined in 5 U.S.C. 551(4), issued under the NGPA. It does not apply to orders issued under sections 301, 302, and 303 of the NGPA.

(ii) This section applies to requests for interpretations to prospective, existing or completed facts, acts, or transactions. Interpretations based on hypothetical facts, acts, or transactions will not be considered.

(b) *Definitions.* For the purpose of this section, the following definitions apply.

(1) "Direct participant" means any person or legal entity who is, or plans to be an actual party in the act, transaction, or circumstance presented, and who has an immediate or direct financial interest in the act, transaction, or circumstance.

(2) "Interpretation" means a written statement of the General Counsel which applies a particular rule to a particular set of facts, acts, circumstances or transactions. In the discretion of General Counsel, the interpretation may contain a detailed factual and legal analysis, a summary of the facts or the law, or both, or it may be a conclusory statement.

(3) "Interpretative rule" means an official interpretative statement of general applicability issued by the Commission and published in the Federal Register that applies the NGPA or rules issued thereunder to a specific set of facts, acts, circumstances and transactions.

(4) "NGPA" means the Natural Gas Policy Act of 1978.

(5) "Request" means a request for an interpretation.

(6) "Rule" means a rule or an order having the effect of a rule as defined in 5 U.S.C. 551(4).

(c) *Persons who may request an interpretation.* (1) Any person who is or will be a direct participant in an act, transaction, or circumstance affected by the NGPA or a rule issued by the Commisson under the NGPA may file with the Office of the General Counsel a request for an interpretation.

(2) Requests for interpretations must be addressed to the Office of the General Counsel as follows:

Federal Energy Regulatory Commission, Interpretations Section, Office of the General Counsel, Suite 8000, 825 North Capitol Street, NE., Washington, D.C. 20426

(d) *Content of request.*—(1) *Facts.* A request for interpretation must contain a full and complete statement of the relevant and material facts pertaining to the act, transaction, or circumstance that is the subject of the request for interpretation. When the request pertains to only one step of a larger integrated transaction, the facts, circumstances, and other relevant information pertaining to the entire transaction must be included in the request.

(2) *Statement of the question.* The request must clearly designate the section of the statute, regulation, rule, or part thereof which the person making the request seeks to have interpreted and must set forth clearly and concisely the question for which an interpretation is sought. The request may also set forth a proposed answer to the question.

(3) *Anaylsis.* If the request proposes a particular answer:

(i) The request must set forth a legal analysis in support of the proposed answer and cite relevant authorities in support thereof.

(ii) The request must set forth the legal and business consequences which will flow from the proposed answer.

(4) *Factual statements.* (i) The request must be accompanied by a statement that to the best of the applicant's personal information, knowledge, and belief there is no untrue statement of a material or relevant fact and there is no omission of a material or relevant fact made in the request.

(ii) Any untrue statement or omission of a material or relevant fact upon which the Office of the General Counsel relied in a request for an interpretation is deemed to be a statement or entry under section 1001 of Title 18, *United States Code.*

(5) *Notification of other parties.* (i) A person submitting a request must specify each person who is a direct participant in the circumstance, act or transaction; must notify them in writing of the request for an interpretation; and must send them a copy of such request. Such notification and the addresses of the persons notified must be included in a request to the General Counsel.

(ii) Each person notified pursuant to paragraph (d)(5)(i) of this section may submit information regarding any fact provided in the request of which it has personal knowledge, if such fact is different from the facts presented by the applicant. Such fact must be presented to the Office of the General Counsel as set forth in paragraph (d)(4) of this section.

(e) *Additional information.* The General Counsel may request additional information, documentation or legal analysis in connection with any request for any interpretation.

(f) *Referral of information.* Information submitted in a request for interpretation may be used by the Commission or its Staff in their official capacity. Any information received will be placed in a public file in the Commission's Office of Public Information.

(g) *The interpretation.* (1) Except as provided in paragraph (g)(2) of this section, the General Counsel will provide a copy of his or her written interpretation of the NGPA or rule as applied to the act, transaction, or circumstance presented upon the person who made the request for the interpretation and upon persons named in the request as direct participants in the act, transaction, or circumstance.

(2) The General Counsel may determine not to issue an interpretation, in which case the person who made the request and direct participants as specified in the request will be notified in writing of the decision not to issue an interpretation, and the reason for the decision.

(3) Only those persons to whom an interpretation is specifically addressed and other persons who are named in the request, who have been informed by the applicant for an interpretation of the pendency of the request and who are direct participants in the act, transaction or circumstance presented, may rely upon it. The effectiveness of an interpretation depends entirely on the accuracy of the facts presented to the General Counsel. If a material or relevant fact has been misrepresented or omitted or if any material or relevant fact changes after an interpretation is issued or if the action taken differs from the facts presented in the request, the interpretation may not be relied upon by any person.

(4) An interpretation may be rescinded or modified prospectively at any time. A rescission or modification is effected by notifying persons entitled to reply on the interpretation at the address contained in the original request.

(5) Any interpretation based on the NGPA or a rule issued thereunder in effect at the time of issuance may be relied upon only to the extent such law or rule remains in effect.

(6) Except as provided in paragraph (g)(3), (g)(4) and (g)(5) of this section, the Staff will not recommend any action to the Commission which is inconsistent with the position espoused in the interpretation. The interpretation of the General Counsel is not the interpretation of the Commission. An interpretation provided by the General Counsel is given without prejudice to the Commission's authority to consider the same or like question and to issue a declaratory order to take other action which has the effect of rescinding, revoking, or modifying, the interpretation of the General Counsel.

(h) *Appeal and judicial review.* There is no appeal to the Commission of an interpretation.

(i) *Interpretative rules.* Upon the petition of any person or upon its own motion, the Commission may publish in the **Federal Register** an interpretative rule regarding any question arising under the NGPA or a rule promulgated thereunder. Any person is entitled to rely upon an interpretative rule.

(j) *Applications for adjustments treated as requests for interpretations.* Except for the notification provisions of paragraph (d)(5) of this section, the provisions of this section apply to any petition for an adjustment which is deemed a request for an interpretation under Rule 1117. Notice to all parties to an adjustment proceeding under Subpart K of this part that is deemed to be a request for an interpretation will be given under Rule 1117(d)(1).

§ 385.1902 Appeals from action of staff. (Rule 1902.)

Any staff action, other than a decision or ruling of presiding administrative law judge, taken pursuant to authority delegated to the staff by the Commission that would be final, but for the provisions of this section, may be appealed to the Commission by an interested person. The challenged staff action may be appealed by filing a petition within 30 days of the action. Answers to such petitions may be filed by any party within 10 days of service of the petition. An appeal from any ruling of a presiding administrative law judge will conform to the requirements of Rule 715 (interlocutory appeals to the Commission from rulings of presiding officers). The Commission considers that a petition for appeal from action taken by the staff is deemed denied if not acted upon by the Commission within 30 days after the filing of such petition. The Commission further considers its action on appeals made pursuant to this paragraph to be final agency action that is subject to a request for rehearing under Rule 713 (request for rehearing).

§ 385.1903 Notice in rulemaking proceedings. (Rule 1903.)

Before the adoption of rule of general applicability or the commencement of hearing on such a proposed rulemaking, the Commission will cause general notice to be given by publication in the **Federal Register**, such notice to be published therein not less than 15 days prior to the date fixed for the consideration of the adoption of a proposed rule or rules or for the commencement of the hearing, if any, on the proposed rulemaking, except where a shorter period in reasonable and good cause exists therefore: *Provided however,* That:

(a) When the Commission, for good cause, finds it impracticable, unnecessary, or contrary to the public interest to give such notice, it may proceed with the adoption of rules without notice by incorporating therein a finding to such effect and a concise statement of the reasons therefore;

(b) Except when notice or hearing is required by statute, the Commission

may issue at any time rules of organization, procedure or practice, or interpretative rules, or statements of policy, without notice or public proceedings; and

(c) This section is not to be construed as applicable to the extent that there may be involved any military, naval, or foreign affairs function of the United States, or any matter relating to the Commission's management or personnel, or to United States property, loans, grants, benefits, or contracts.

§ 385.1904 Copies of transcripts. (Rule 1904.)

The Commission will cause to be made a stenographic record of public hearings and such copies of the transcript thereof as it requires for its own purposes. Participants desiring copies of such transcript may obtain the same from the official reporter upon payment of the fees fixed therefor.

§ 385.1905 Subpoenas. (Rule 1905.)

(a) *Issuance.* Subpoenas for the attendance of witnesses or for the production of documentary evidence, unless directed by the Commission, will issue only upon petition in writing to the Commission or the presiding officer, except that during sessions of a hearing in a proceeding, such petition may be made orally on the record before the Commission or presiding officer, who is hereby given authority to determine the relevancy and materiality of the evidence sought and to issue such subpoenas in accordance with such determination. Such written petitions must be verified and must specify as nearly as may be the general relevance, materiality, and scope of the testimony or documentary evidence sought, including, as to documentary evidence specification as nearly as may be, of the documents desired and the facts to be proved by them in sufficient detail to indicate the materiality and relevance of such documents.

(b) *Service and return.* If service of subpoena is made by a United States marshal or deputy thereof, such service will be evidenced by the return of service. If made by another person, such person must make affidavit, describing the manner in which service was made, and must return such affidavit on or with the original subpoena. In case of failure to make service, the reasons for the failure must be stated on the original subpoena. In making service, a copy of the subpoena must be exhibited to and left with the person to be served. The original supoena, bearing or accompanied by the authorized return, affidavit, or statement must be returned forthwith to the Secretary or, if so desired on the subpoena, to the presiding officer before whom the person named in the subpoena is required to appear.

(c) *Fees of witnesses.* Witnesses who are subpoenaed will be paid fees as provided in Rule 510(e) (relating to fees).

§ 385.1906 Depositions. (Rule 1906.)

(a) *When permissible.* The testimony of witness may be taken by deposition, upon application by a participant in a proceeding pending before the Commission, at any time before the hearing is closed, upon approval by the Commission or the presiding officer.

(b) *Notice and application.* Unless notice is waived, no deposition will be taken except after at least 10 days' notice to the parties within the United States, and 15 days' notice when a deposition is to be taken elsewhere. Such notice must be given in writing by the participant proposing to take such deposition or by his or her attorney to the other participants or their attorneys of record and to the Commission. In such notice and application to take evidence by deposition, the participant desiring to take the deposition must state the name and post office address of the witness, the subject matter concerning which the witness is expected to testify, the time and place of taking the deposition, the name and post office address of the officer before whom it is desired that the deposition be taken, and the reason why such deposition should be taken. The other participants may, within the time stated in this section, make any appropriate response to such notice and application.

(c) *Authorization for taking.* Thereupon, if the application so warrants, the Commission or presiding officer, will issue and serve, within a reasonable time in advance of the time fixed for taking testimony, upon the participants or their attorneys an authorization naming the witness whose deposition is to be taken and the time, place and officer before whom the witness is to testify, but such time, place and officer so specified may or may not be the same as those named in the said notice and application.

(d) *Officer before whom taken*—(1) *Within the United States.* Such depositions may be taken before a member, a presiding officer or other authorized representative of the Commission, any judge, commissioner, or clerk of any court of the United States, any chancellor, judge, or justice of a State court, any mayor or chief magistrate, or a city, or any notary public, not being counsel or attorney for any of the participants, or interested in the proceeding or investigation, according to such designation as may be made in the authorization.

(2) *In foreign countries.* Where such deposition is taken in a foreign country, it may be taken before a secretary of an embassy or legation, counsel general, counsel, vice consul, or consular agent of the United States, or before such person or officer as may be designated in the authorization or agreed upon by the parties by stipulation in writing filed with and approved by the Commission or the presiding officer. The magistrate, person, or officer so deignated in this section will be referred to as the Officer.

(e) *Oath and reduction to writing.* Every person whose testimony is taken by deposition will be sworn, or will affirm concerning the matter about which he or she shall testify, before any questions are put or testimony given. The testimony will be reduced to writing by, or at the direction of, the officer, after which the deposition will be subscribed by the witness and certified in the usual form by the officer. Unless otherwise directed in the authorization, after the disposition has been subscribed and certified, it will be forwarded, together with the number of copies specified in the authorization, the copies being made by, or at the direction of, such officer by such officer in a sealed envelope addressed to the Commission at its office in Washington, D.C., with sufficient postage affixed. Upon receipt thereof, the Secretary shall file the original in the proceeding and will forward a copy to each party or his or her attorney of record and to staff counsel.

(f) *Copies.* Rule 2004 (copies of filings) is not applicable with respect to the number of copies to be provided.

(g) *Scope and conduct of examination.* Unless otherwise directed in the authorization, the deponent may be examined regarding any matter which is relevant to the issues involved in the pending proceeding, including the existence, description, nature, custody, condition, and location of any books, documents or other tangible things, and the identity and location of persons having knowledge of relevant facts. Parties or their attorneys and staff counsel will have the right of cross-examination, objection and exception to questions or evidence, the grounds relied upon will be noted by the officer upon the deposition, but he does not have power to decide on the competency or materiality or relevancy of evidence. Objections to questions or evidence not taken before the officer are deemed to be waived.

(h) *Not part of record unless received in evidence.* No part of a deposition will

constitute a part of the record in the proceeding, unless received in evidence by the Commission or presiding officer. Objection may be made at the hearing in the proceeding to receiving in evidence any disposition or part thereof for any reason which would require the exclusion of the evidence if the witnesses were then present and testifying.

(i) *Fees of officers and deponents.* Deponents whose depositions are taken and the officers taking the same are entitled to the same fees as are paid for like services in the District Courts of the United States, which fees must be paid by the party or participant at whose instance the depositions are taken.

§ 385.1907 Reports of compliance. (Rule 1907.)

When any licensee, permittee, or any other person subject to the jurisdiction of Commission is required to do or perform any act by Commission order, permit, or license provision, there must be filed with the Commission within 30 days following the date when such requirement became effective, a notice, under oath, stating that such requirement has been met or complied with: *Provided, however,* That the Commission, by rule or order, or by making specific provision therefor in a license or permit, may provide otherwise for the giving of such notice of compliance. Five conformed copies of such notice must be filed in lieu of the fourteen conformed copies required by Rule 2004 (copies of filings).

Subpart T—Formal Requirements for Filings in Proceedings Before the Commission

§ 385.2001 Filings. (Rule 2001.)

(a) *Filings with the Commission.* Unless otherwise provided in this chapter, a filing required to be made with the Commission must be submitted to the Secretary either (A) by mailing the document to: Secretary, Federal Energy Regulatory Commission, 825 N. Capital Street, NE., Washington, D.C. 20426, or (B) by hand delivering the document to: Room 3110, 825 N. Capitol Street, NE., Washington, D.C. A document is considered filed on the date stamped by the Secretary, unless subsequently rejected. Documents received after regular business hours are considered to have been filed on the next regular business day.

(b) *Rejection.* (1) Failure of a filing to comply with all or part of a statute or Commission rule or order may be grounds for rejection of the filing, unless it is accompanied by a motion requesting a waiver of such requirement and the motion is granted. If rejected, a filing is deemed not to have been filed with the Commission.

(2) Filings rejected under paragraph (b)(1) of this section are returned by the Secretary, or the office director to whom the filing has been referred, with an indication of the deficiencies thereof and the reasons for rejection and return.

(3) Failure to reject a filing under paragraph (b)(1) of this section does not waive the obligations to comply with the requirements of this chapter. Failure to comply with such requirement may be cause for striking all or part of a filing.

§ 385.2002 Caption of filings. (Rule 2002.)

Each filing must be headed with a caption that sets forth:

(a) The docket designation, if any;

(b) The title of the proceeding (a shortened designation may be used);

(c) A heading describing of the filing; and

(d) The name of the participant on whose behalf the filing is made (a shortened designation may be used).

§ 385.2003 Specifications. (Rule 2003.)

(a) *Paper.* A filing with the Commission must be typewritten, printed, or reproduced, with each copy clearly legible, on letter size, unglazed paper, 8 to 8½ inches wide by 10½ to 11 inches long, except that a log, graph, map, drawing, or chart will be accepted on larger paper if it cannot be legibly provided on letter size paper.

(b) *Format.* A filing must be double-spaced with left margins not less than 1 inch wide, and with each quotation in excess of 50 words indented and single-spaced. If a filing exceeds one page, it must be bound or stapled, at the left side only. If a filing is printed, it must be printed in not less than 10 point type with double-leaded text and single-leaded quotations.

§ 385.2004 Copies of filings. (Rule 2004.)

An original of each filing with the Commission must be accompanied by fourteen exact copies, unless a different number is required by statute or Commission rule or order. A waiver of this requirement may be requested by motion.

§ 385.2005 Subscription and verification. (Rule 2005.)

(a) *Subscription.* (1) Each filing with the Commission must be signed. The signature constitutes a certificate that the signer has read the filing being signed and knows its contents, that the contents are true as stated to the best knowledge and belief of the signer, and that the signer possesses full power and authority to sign the filing.

(2) A filing may be signed:

(i) By the person making the filing;

(ii) If signed on behalf of a corporation, trust, assocation, or other organized group, by an officer of the organization;

(iii) If signed on behalf of any governmental authority, agency, or instrumentality, by an officer or employee thereof; or

(iv) By a representative qualified to practice before the Commission under Rule 2101 (appearance and practice before the Commission) and who possesses authority to sign. The signer may be required to submit evidence of authority to sign the filing.

(b) *Verification.* Unless verification is specifically required by this chapter, no facts alleged in a filing with the Commission need be verified. If verification is required, such verification is under oath or affirmation by a person having knowledge of the matters set forth therein. If the verification is made by anyone other than the signer, a statement must be added to the verification stating the reason for the variation.

§ 385.2006 Docket system. (Rule 2006.)

The Secretary will maintain a system for docketing proceedings. The public information in a docket is available for inspection and copying by the public during the office hours of the Commission insofar as is consistent with the proper discharge of the Commission's duties and in conformity with Part 388 (public information and requests).

§ 385.2007 Time. (Rule 2007.)

(a) *Computation.* Except as otherwise required by law, any period of time prescribed or allowed by statute or Commission rule or order is computed to exclude the day of the act or event from which the time period begins to run. The last day of the period is included, unless it is a Saturday, Sunday, or legal public holiday as designated in section 6103 of title 5, United States Code (5 U.S.C. 6103), in which case the period does not end until the close of the next day which is not a Saturday, Sunday, or legal public holiday. Part-day holidays are counted as normal business days.

(b) *Issuance of Commission rules or orders.* The date and time of issuance of a Commission rule or order is the earlier of the date and time the Secretary (1) posts a full-text copy in the Division of Public Information, (2) mails or delivers copies of the order to the parties, or (3) makes such copies public. The date of issuance will appear on each order, but it need not be the date upon which the

rule or order is adopted by the Commission.

(c) *Effective date of Commission rules or orders.* Unless otherwise ordered by the Commission, Commission rules or orders are effective on the date of issuance. An initial decision issued by a presiding officer is effective at such time as it becomes final under Rule 708(d) (the date an initial decision becomes final).

§ 385.2008 Extension of time. (Rule 2008.)

Except as otherwise provided by law, whenever an act is required or allowed to be done at or within a specified time, the time prescribed may be extended by the decisional authority for good cause, upon a motion made before the expiration of the period prescribed or as previously extended. If a motion for extension of time is made after the expiration of the specified period, the act may be permitted to be done where extraordinary circumstances are shown adequately justifying the failure to act in a timely manner.

§ 385.2009 Notice. (Rule 2009.)

Unless actual notice is given, notice by the Commission is to be given by publication in the Federal Register by the Secretary. Actual notice is usually given by service under Rule 2010 (service of documents).

§ 385.2010 Service. (Rule 2010.)

(a) *By participants.* (1) A participant who files a document in a proceeding must serve a copy of it upon each person whose name is on the official service list (or applicable restricted service list) for the proceeding or phase thereof, and upon any other person who is required to be served by the Commission rule or order or as otherwise required by law.

(2) A person who receives a rejection letter or deficiency letter from the Commission must serve a copy of such letter on those to whom the person had served copies of the filing to which the rejection letter or deficiency letter relates.

(b) *By the Secretary.* The Secretary will serve a copy of a complaint, notice of tariff or rate examination, or order to show cause upon each person to whom a complaint is directed or to whom such notice or order is issued. The Secretary also will serve a copy of any rule or order by a decisional authority in a proceeding upon each person whose name is on the official service list (or applicable restricted service list) for the proceeding or phase thereof.

(c) *Official service list.* The official service list for a proceeding will contain the names and addresses of the persons designated for service in the first pleading (other than a protest) or tariff or rate filing filed by each participant. The official service list also will contain the name of counsel for the staff of the Commission. The designation of a person for service may be changed by a written notice to the Commission served on each person whose name is on the official service list.

(d) *Restricted service list.* The Secretary, an office director, or the presiding officer may establish, by order, a restricted service list for the purpose of eliminating unnecessary expense or improving administrative efficiency. A restricted service list may be established for an entire proceeding, a phase of a proceeding, one or more issues in a proceeding, or one or more cases in a consolidated proceeding. A restricted service list contains the names of the persons on the official service list who, in the judgment of the decisional authority establishing the list, are the active participants or their representatives with respect to such proceeding, phase of a proceeding, issue in a proceeding, or consolidated proceeding. A restricted service list is maintained in the same manner as, and in addition to, the official service list maintained in accordance with paragraph (c) of this section. Before a restricted service list is established, each person whose name is on the official service list will be given notice of the proposal to establish a restricted service list and the opportunity to show why such person should be included on the restricted service list or why a restricted service list should not be established. The designation of a person for service on a restricted service list may be changed by written notice to the Commission served on each person whose name is on the applicable restricted service list.

(e) *Interveners.* (1) If a motion to intervene or notice of intervention is filed within the prescribed time period, the names and addresses of the persons designated for service in the motion or notice are placed on the official service list (or applicable restricted service list.) After the motion or notice is filed, these persons are entitled to service in accordance with this section. However, the names and addresses of such persons are removed from the official service list if a motion is denied.

(2) If a motion to intervene is not filed within the prescribed period, the names and addresses of the persons designated for service in the motion are placed on the official service list (or other applicable restricted service list) after the motion is granted. Late interveners are served with only the documents that are filed after the motion is granted.

(f) *Methods.* Service must be made by mail or by actual delivery in some other manner and to a place that may reasonably be expected to provide actual and timely receipt.

(g) *Timing of service.* (1) Service is made when the document served is deposited in the mail or is actually delivered in another manner.

(2) Service of a document must be made no later than the date of the filing of the document.

(h) *Certification.* When a document that must be served is filed with the Commission, it must have the original of a certificate of service attached to it. Each copy of the document filed with the Commission must have a copy of the certificate of service attached to it. The certificate must conform to the following:

I hereby certify that I have this day served the foregoing document upon each person designated on the official service list [or the restricted service list, if applicable] compiled by the Secretary in this proceeding.
Date at ———— this ———— day of ————, 19——.
Signature ————
Counsel for ————
(if applicable) ————
Address ————
Telephone number ————

Subpart U—Appearance and Practice Before the Commission

§ 385.2101 Appearances. (Rule 2101.)

(a) A participant may appear in a proceeding in person or by an attorney or other qualified representative. An individual may appear in his or her own behalf, a member of a partnership may represent the partnership, a bona-fide officer of a corporation, trust, association or organized group may represent the corporation, trust association or group, and an officer or employee of a State commission, of a department or political subdivision of a State or other governmental authority, may represent the State commission or the department or political subdivision of the State or other governmental authority, in any proceeding.

(b) A person compelled to appear or voluntarily testifying or making a statement before the Commission or the presiding officer, may be accompanied, represented, and advised by an attorney or other qualified representative.

(c) A person appearing before the Commission or the presiding officer must conform to the standards of ethical conduct required of practitioners before the Courts of the United States, and where applicable, to the requirements of

section 12(i) of the Public Utility Holding Company Act of 1935 (15 U.S.C. 791(i)).

§ 385.2102 Suspension. (Rule 2102.)

(a) After hearing the Commission may disqualify and deny, temporary or permanently, the privilege of appearing or practicing before it in any way to a person who is found:

(1) Not to possess the requisite qualifications to represent others, or

(2) To have engaged in unethical or improper professional conduct, or

(3) Otherwise to be not qualified.

(b) Contumacious conduct in a hearing before the Commission or a presiding officer will be ground for exclusion of any person from such hearing and for summary suspension for the duration of the hearing by the Commission or the presiding officer.

§ 385.2103 Appearance of former employees. (Rule 2103.)

(a) No person having served as a member, officer, expert, administrative law judge, attorney, accountant, engineer, or other employee of the Commission may practice before or act as attorney, expert witness, or representative in connection with any proceeding or matter before the Commission which such person has handled, investigated, advised, or participated in the consideration of while in the service of the Commission.

(b) No person having been so employed may within 1 year after his or her employment has ceased, practice before or act as attorney, expert witness, or representative in connection with any proceeding or matter before the Commission which was under the official responsibility of such person, as defined in 18 U.S.C. 202 while in the service of the Commission.

(c) Nothing in paragraph (a) and (b) of this section prevents a former member, officer, expert, administrative law judge, attorney, accountant, engineer, or other employee of the Commission with outstanding scientific or technological qualifications from practicing before or acting as an attorney or representative in connection with a particular matter in a scientific or technological field if the Chairman of the Commission makes a certification in writing, published in the **Federal Register**, that the national interest would be served by such action or representation.

Subpart V—Ex Parte Communications; Separation of Functions

§ 385.2201 Ex parte communications. (Rule 2201.)

In order to avoid all possibilities of prejudice, real or apparent, to the public interest and persons involved in proceedings pending before the Commission.

(a) Except as permitted in paragraph (b) of this section, no person who is a party to, or his or her counsel, agent, or other person acting on his or her behalf, and no interceder in, any on-the-record proceedings, shall submit ex-parte, off-the-record communications to any member of the Commission or of his or her personal staff, to the Administrative Law Judge, or to any other employee of the Commission, regarding any matter pending before the Commission in any contested on-the-record proceeding, and no Commissioner, member of his or her personal staff, Administrative Law Judge, or any other employee of the Commission, shall request or entertain any such ex parte, off-the-record communications. For the purposes of this section, the term "ex parte communication" means an oral or written communication relative to the merits of an on-the-record proceeding pending before the Commission which is not on the public record and with respect to which reasonable prior notice to the parties is not given, but it shall not include requests for status reports on any matter or proceeding covered by this section; the term "decisional employee" means a Commissioner or member of his or her personal staff, an administrative law judge, or any other employee of the Commission who is or may be reasonably expected to be involved in the decisional process of the proceeding; the term "contested on-the-record proceedings" means a proceeding required by statute, constitution, published Commission rule or regulation or order in a particular case, to be decided on the basis of the record of a Commission hearing, and in which a protest or a petition or notice to intervene in opposition to requested Commission action has been filed; the term "interceder" shall include any individual outside the Commission, whether in private or public life, partnership, corporation, association, or other agency, other than a party or an agent of a party, who volunteers a communication.

(b) The prohibitions contained in paragraph (a) of this section do not apply to a communication:

(1) From an interceder who is a local, State, or Federal agency which has no official interest in and whose official duties are not affected by the outcome of the on-the-record proceedings before the Commission to which the communication relates;

(2) From an interceder relating to matters of procedure only;

(3) From a party to, or his or her counsel, agent, or other person acting on his or her behalf, in an on-the-record proceeding, if the communication relates to matters of procedure only and is directed to the Secretary of the Commission, staff counsel, or any other employee in the presence of or with the prior approval of staff counsel;

(4) From any person when otherwise authorized by law;

(5) When the communication is between the staff counsel assigned to the proceeding or, in the presence of or after coordination with such staff counsel, any other employee of the Commission (except a decisional employee) and any party or counsel to any party or parties to the proceeding or, in the presence of or after coordination with such counsel or party, and agent of any such party: *Provided*, That any employee of the Commission who may reasonably be expected to participate in the decisional process may waive such participation by entering a staff appearance in the proceeding: *Provided further*, That non-unanimous settlement offers shall therefore be served on the participants in the proceeding prior to the submission of such offers to the Commission;

(6) Which the participants agree may be made on an ex parte basis;

(7) Related to routine safety, construction, and operational inspections of project works by the Commission staff not undertaken to investigate or study a matter pending in issue before the Commission in any on-the-record proceeding;

(8) Related to routine field audits of the accounts or any books or records of a company subject to the Commission's accounting requirements not undertaken to investigate or study a matter pending in issue before the Commission in any on-the-record proceeding;

(9) Which relates solely to a request for supplemental information or data necessary for an understanding of factual materials contained in documents filed with the Commission in a proceeding covered by this section and which is made in the presence of or after coordination with counsel, except a communication with a decisional employee, in the absence of waiver of participation;

(10) The Commission may, by rule or order, modify any provision of this subpart, or 49 CFR Part 1100, Appendix C, as it applies to all or part of a proceeding, to the extent permitted by law. The prohibitions of paragraph (a) of this section do not apply to oil pipeline proceedings which are governed by 49 CFR Part 1100, Appendix C.

(c) All written communications prohibited by paragraph (a) of this

section, sworn statements reciting the substance of all such oral communications, and all written responses and sworn statements reciting the substance of all oral responses to such prohibited communications must be delivered to the Secretary of the Commission who will place the communication in public files associated with the case, but separate from the material upon which the Commission can rely in reaching its decision. The Secretary will serve such communications upon parties to the proceeding. The Secretary will also serve a copy of the sworn statement to the communicator and allow him or her a reasonable opportunity to file a response.

(d) A Commissioner, member of his or her immediate staff, administrative law judge, or any other employee of the Commission who receives an oral office of communication prohibited by paragraph (a) of this section shall decline to listen to such communication and shall explain that the matter is pending for determination. If unsuccessful in preventing such communication, the recipient thereof shall advise the communicator that he or she will not consider the communication. The recipient shall prepare a sworn statement setting forth the substance of the communication and the circumstances thereof within 48 hours and deliver the statement to the Secretary of the Commission for compliance with the procedures established in paragraph (c) of this section.

(e) Requests for an opportunity to rebut, on the record, any facts or contentions contained in an ex parte communication which the Secretary has associated with the record may be filed in writing with the Commission. The Commission will grant such requests only where it determines that the dictates of fairness so require. Where the communication contains assertions of fact not a part of the record and of which the Commission cannot take official notice, the Commission in lieu of receiving rebuttal material normally will direct that the alleged factual assertion on any proposed rebuttal be disregarded in arriving at a decision. Nor will the Commission normally permit any rebuttal of ex parte endorsements or oppositions by civic or other organizations by the submission of counter endorsements or oppositions.

(f) Upon receipt of a communication knowingly made in violation of paragraph (a) of this section, the Commission, Administrative Law Judge, or other employee presiding at the hearing may require, to the extent consistent with the interests of justice and the policy of underlying statutes, the communicator to show cause why his or her claim or interest in the proceeding should not be dismissed, denied, disregarded, or otherwise adversely affected on account of such violation.

(g) The prohibitions contained in this section shall apply from the time at which a proceeding is noticed for hearing or the person responsible for such communication has knowledge that it will be noticed for hearing or at the time at which a protest or a motion or notice to intervene in opposition to requested Commission action has been filed, whichever occurs first.

§ 385.2202 Separation of functions of staff. (Rule 2202.)

In any proceeding in which a Commission adjudication is made after hearing, an officer, employee, or agent assigned to work upon the investigation or trial of the proceeding or to assist in the trial thereof, in that or any factually related proceeding, shall participate or advise as to the findings, conclusion or decision, except as a witness or counsel in public proceedings.

Subpart Z—[Reserved]

PART 388—PUBLIC INFORMATION AND REQUESTS

Sec.

388.101 Definitions.
388.102 Scope.
388.103 Notice of proceedings.
388.104 Notice and publications of decisions, rules, statements of policy, organization, and operations.
388.105 Public records.
388.106 Index of Commission actions.
388.107 Timetables and procedure in event of withholding of public records.
388.108 Procedure in event of subpoena.
388.109 Procedures for requesting information.

Authority: Administrative Procedure Act, 5 U.S.C. 551–557; Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Federal Power Act, 16 U.S.C. 791–828C, as amended; Natural Gas Act, 15 U.S.C. 717–717w, as amended; Natural Gas Policy Act of 1978, 15 U.S.C. 3301 *et seq.*; Public Utilities Act of 1978, 16 U.S.C. 2601 *et seq.*; Interstate Commerce Act, 49 U.S.C. 1 *et seq.*; E.O. 12009, 3 CFR, 1977 Comp., p. 142.

PART 388—PUBLIC INFORMATION AND REQUESTS

§ 388.101 Definitions.

For purposes of this part,

(a) "Filings and submittals" include:

(1) Applications, declarations, complaints, petitions, and other papers seeking Commission action;

(2) Financial and statistical and other reports to the Commission, power system statements of claimed cost of licensed projects, original cost and reclassification studies, proposed accounting entries, certificates of notification (under section 204(e) of the Federal Power Act), rates or rate schedules and related data and concurrences, and other filings and submittals to the Commission in compliance with the requirement of any statute, executive order, or Commission rule, regulation, order, license, or permit;

(3) Answers, replies, responses, objections, protests, motions, stipulations, exceptions, other pleadings, notices, depositions, certificates proofs of service, transcripts of oral arguments, and briefs in any matter or proceeding; and

(4) Exhibits, attachments and appendices to, amendments and corrections of, supplements to, or transmittals or withdrawals of, any of the foregoing.

(b) "Matter or proceeding" means the Commission elucidation of the relevant facts and applicable law, consideration thereof, and action thereupon with respect to a particular subject within the Commission's jurisdiction, initiated by a filing or submittal or a Commission notice or order.

(c) "Formal record", includes in addition to the filings and submittals in a matter or proceeding, notice or Commission order initiating the matter or proceeding and, if a hearing is held, the following: The designation of the presiding officer, transcript of hearing, exhibits received in evidence, exhibits offered but not received in evidence, offers of proof, motions, stipulation, subpoenas, proofs of service, references to the Commission, and determinations made by the Commission thereon, certifications to the Commission, and anything else upon which action of the presiding officer or the Commission may be based; it does not include proposed testmony or exhibits not offered or received in evidence.

(d) "Staff papers" include the Commission staff's working notes papers, records, memoranda, and correspondence, except:

(1) A paper not relating to a proposed settlement or to an application, permission, filing, or submittal under § 35.13, or § 154.66, of this chapter, which are intended for the Commission's consideration and are within the terms of § 388.105(d) of this

part (public records) and paragraph (e) of this section, because received by the Commission in a matter or proceeding after hearing has commenced and before final Commission action; and

(2) Paper made a part of the public rules and records by inclusion in a formal record or in Commission memorandum or correspondence which is part of the public files and record.

(e) "Commission memoranda" include written communications from the staff or a presiding officer which are intended for the Commission's consideration and those to the staff or a presiding officer which are signed or transmitted by or on behalf of the Chairman, a Commissioner, the Secretary, or the Executive Director.

(f) "Commission correspondence" includes written communications and enclosures received from others than the staff and intended for the Commission or sent to others than the staff and signed by the Chairman, a Commissioner, the Secretary, the Executive Director, or other authorized official, except those which are purely personal.

§ 388.102 Scope.

This part prescribes the rules governing public notice of proceedings, publication of decisions, and public records of the Commission.

§ 388.103 Notice of proceedings.

(a) Public sessions of the Commission for taking evidence or hearing argument and public conferences and hearings before a presiding officer, including substantive rulemaking proceedings, will not be held except upon due notice.

(b) Notice of applications, complaints, and petitions, is governed by Rule 2009 (notice). Notice of applications for certificates of public convenience and necessity under section 7 of the Natural Gas Act is governed by § 157.9 of this chapter (notice of application). Notice of public sessions and proceedings and of meetings of the Commission is governed by Rule 2009 (notice). Notice of hearings and of initiation or pendency of rulemaking proceedings is governed by Rule 1903 (notice in rulemaking proceedings). Notice of applications under Part I of the act for preliminary permits and licenses is governed by §§ 4.31 and 4.81 of this chapter (acceptance or rejection and contents). Notice of proposed alterations or surrenders of license under section 6 of the Federal Power Act may be given by filing and publication in the **Federal Register** as stated in Rule 1903 (notice in rulemaking proceedings), and, where deemed desirable by the Commission, by local newspaper advertisement. Notice of rates charged and changes therein is governed by the filing requirements of Subchapters B and E of this chapter (regulations under the Federal Power Act and Regulations under the Natural Gas Act). Other notice required by statute, rule, regulation, or order, or deemed desirable, may be given by filing and publication in the **Federal Register** as governed by Rule 1903 (notice in rulemaking proceedings) or by service as governed by Rule 2010 (service).

§ 388.104 Notice and publication of decisions, rules, statements of policy, organization, and operations.

Service of intermediate and final decisions upon parties to the proceedings is governed by Rule 2010 (service). Descriptions of the Commission's organization, its methods of operation, statements of policy and interpretations, procedural and substantive rules, and amendments thereto will be filed with and published in the **Federal Register**. Commission opinions together with accomplish orders, Commission orders, and intermediate decisions will be released to the press and made available to the public promptly. Copies of Commissions opinions, orders in the nature of opinions, rulemaking and selected procedural orders, and intermediate decisions which have become final are published in the *Federal Energy Regulatory Commission Reports* and may be procedured from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20402, upon payment of prescribed charges.

§ 388.105 Public records.

(a) The public records of the Commission, available for inspection and copying upon request reasonably describing the documents during regular business hours in the public reference room maintained by the Division of Public Information, include:

(1) Submittals and filings as follows:

(i) Applications, declarations, complaints, petitions, and other papers seeking Commission action;

(ii) Financial, statistical, and other reports to the Commission, power system statements of claimed cost of licensed projects, original cost and reclassification studies, proposed accounting entries, certificates of notification (under section 204(e) of the Federal Power Act), rates or rate schedules and related data and concurrences, and other filings and submittals to the Commission in compliance with the requirement of any statute, executive order, or Commission rule, regulation, order, license, or permit;

(iii) All answers, replies, responses, objections, protests, motions, stipulations, exceptions, other pleadings, notices, depositions, certificates, proof of service, transcripts or oral arguments, and briefs in any matter or proceeding;

(iv) Exhibits, attachments and appendices to, amendments and corrections of, supplements to, or transmittals or withdrawals of, any of the foregoing; and

(v) Commission correspondence relating to the foregoing;

(2) All other parts of the formal record in any matter or proceeding set for formal or statutory hearing and any Commission correspondence related thereto;

(3) Proposed testimony or exhibit filed with the Commission but not yet offered or received in evidence.

(4) Presiding officer actions, correspondence, and memoranda to or from others, with the exception of internal communications within the Office of Administrative Law Judges;

(5) Commission orders, notices, findings, opinions, determinations, and other actions in matter or proceeding and Commission minutes which have been approved;

(6) Commission correspondence relating to any furnishing of data or information, except to or by another branch, department, or agency of the Government;

(7) Commission correspondence with respect to the furnishing of data, information, comments, or recommendations to or by another branch, department, or agency of the Government where furnished to satisfy a specific requirement of a statute or where made public by that branch, department or agency;

(8) Commission correspondence and reports on legislative matters under considerations by the Office of Management and Budget or Congress, but only after made public or released for publication by that Office or the Committee or Member of Congress involved;

(9) Staff reports on statements of claimed cost by licensees when such reports have been served on the licensee;

(10) Commission correspondence on interpretation of the Uniform System of Accounts and letters on such interpretation signed by the Chief Accountant and sent to others than the Commission, a Commissioner, or the staff;

(11) Commission correspondence on the interpretation or applicability of any

statute, rule, regulation, order, license, or permit issued or administered by the Commission and letters of opinion on that subject by the General Counsel and sent to others than the Commission, a Commissioner, or the staff;

(12) Copies of the filings, certifications, pleadings, records, briefs, orders, judgments, decrees, and mandates in court proceedings to which the Commission is a party and the correspondence with the courts or clerks of court;

(13) The Commission's Administrative and Operating Manual;

(14) Trancripts, electronic recordings, or minutes of Commission meetings closed to public observation containing material nonexempt pursuant to Subpart B of Part 375 of this chapter (Government in the Sunshine Act rules);

(15) Other records of the Commission except those which are:

(i) Specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such Executive Order.

(ii) Related solely to the internal personnel rules and practices of any agency;

(iii) Specifically exempted from disclosure by statute (other than 5 U.S.C. 552(b): *Provided*, That such statute;

(A) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or

(B) Establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(iv) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(v) Interagency or intra-agency memoranda or letters which would not be available by law to a party other than an agency in litigation with the agency;

(vi) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(vii) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would interfere with enforcement proceedings, deprive a person of a right to a fair trial or an impartial adjudication, constitute an unwarranted invasion of personal privacy, disclose the identify of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, disclose investigative techniques and procedures, or endanger the life or physical safety of law enforcement personnel; or

(viii) Geological and geophysical information and data, including maps, concerning wells;

(16) Any reasonable segregable portion of a record after deletion of the portions which are exempt under this section.

(b) The following are examples of information which are not part of the public records of the Commission:

(1) Files and records containing facts or information not permitted to be divulged by section 301 of the Federal Power Act or section 8 of the Natural Gas Act because knowledge thereof was gained during the course of examination of books, records, data, or accounts pursuant to those sections and divulgence thereof has not been ordered by the Commission;

(2) Files and records classified under Executive Order No. 10501, 3 CFR, 1949–53 Comp., p. 979, for national security purposes;

(3) Written communications between or among the Commission, members of the Commission, the Secretary, and expressly designated members of the staff while particularly assigned, in accordance with all applicable legal requirements, to aid the Commission in the drafting of any order and findings, with or without opinion in any matter or proceeding; and

(4) Unaccepted offers of settlements in any matter or proceeding unless or until made public by act of the offeror.

§ 388.106 Index of Commission actions.

The Division of Public Information maintains and makes available for public inspection and copying current indexes providing identifying information for the public as to any matter issued, adopted, or promulgated after July 4, 1967, and required by this part to be made available or published. The index will be published quarterly and copies or supplements thereto will be distributed by sale or otherwise.

§ 388.107 Timetables and procedure in event of withholding of public records.

(a)(1) The Director of Public Information will determine within 10 days after receipt of a request for public records whether to comply with such request and will immediately notify the person making such request of such determination and the reasons therefor, and of the right of such person to appeal any adverse determination in writing to the Chairman.

(2) Requests filed pursuant to this part must be in writing, addressed to the Director of Public Information, and clearly marked "Freedom of Information Request." Request for information received by the Commission not addressed and marked as indicated in paragraph (a)(2) of this section will be so addressed and marked by Commission personnel as soon as it is properly identified and forwarded immediately to the Director of Public Information. Requests made pursuant to this paragraph will be considered to be received upon actual receipt by the Director of Public Information.

(b)(1) The Chairman, in his or her capacity as administrative head of the agency pursuant to section 401(c) of the DOE Act, will make a determination with respect to any appeal within 20 days after the receipt of such appeal. If on appeal, the denial of the request for records is in whole or in part upheld, the Chairman will notify the person making such request of the provisions for judicial review of that determination.

(2) Appeals filed pursuant to this section must be in writing, addressed to the Chairman of the Commission, and clearly marked "Freedom of Information Appeals." Such an appeal received by the Commission not addressed and marked as indicated in this paragraph will be so addressed and marked by Commission personnel as soon as it is properly identified and forwarded immediately to the Chairman. Appeals taken pursuant to this paragraph will be considered to be received, upon actual receipt by the Chairman.

(c) In unusual circumstances, the time limits prescribed in this section may be extended by the Secretary by written notice to the person making such request setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. No such notice will specify a date that would result in an extension for more than 10 working days in the aggregate. One 10-day extension may be invoked at the initial stage or at the appellate stage, or divided between the two, so long as the total extended time does not exceed 10 working days with respect to a particular request. The Secretary will be responsible for allocating distribution of the 10 days on a case-by-case basis. "Unusual circumstances" as used in this paragraph means:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the requests;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which will be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

(d) If the Commission fails to comply with the applicable time limit provisions of this section, the Commission can request the court for additional time to complete its review of the records by showing that exceptional circumstances exist and that it is exercising due diligence in responding to the request.

(e) Any notification of denial of any request for records under this section will set forth the names and titles or positions of each person responsible for the denial of such request.

(f) Upon any determination to comply with a request for records, the records will be made promptly available to such person making such request.

§ 388.108 Procedure in event of subpoena.

If an officer or employee of the Commission is served with a subpoena duces tecum, for material which is not part of the public file and records of the Commission shall be produced only as authorized by the Commission. Service of such a subpoena shall immediately be reported to the Commission with a statement of all relevant facts. The Commission will thereupon enter such order or give such instructions as it deems advisable.

§ 388.109 Procedures for requesting information.

Requests for information may be addressed to the Division of Public Information of the Commission, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426. Public records are available for public inspection and copying at that office, in accordance with this part. Pleadings and other filings are filed in accordance with § 385.2001 (filings). A description of the facilities available for public reference and the procedures that may be employed to obtain information, copies of public records, or to secure informal advice and assistance from or consultation with members of the staff on problems relating to the statutes and regulations administered by the Commission is contained in § 3.8 of this chapter (information and requests).

PART 1b—RULES RELATING TO INVESTIGATIONS

4. Part 1b of Chapter I is amended as follows:

§ 1b.12 [Amended]

(a) In the last sentence of § 1b.12, by removing "§ 1.21(b) of the rules of practice," and adding in lieu thereof "§ 385.1904(b)";

§ 1b.16 [Amended]

(b) In the first sentence of § 1b.16(b), by removing "§ 1.4 of the rules of practice and procedures," and adding in lieu thereof "§ 385.2101 of this chapter";

§ 1b.16 [Amended]

(c) In the last sentence of § 1b.16(c)(4), by removing "§ 1.4 of the Commission's rules of practice, and § 1100.11 of the rules of practice of the Interstate Commerce Commission", and adding in lieu thereof "§ 385.2101 of this chapter";

§ 1b.17 [Amended]

(d) In § 1b.17, by removing "§ 1.4 of the Commission's rules of practice" and adding in lieu thereof "Subpart U of this part"

PART 2—GENERAL POLICY AND INTERPRETATIONS

5. Part 2 of Chapter I is amended as follows:

§ 2.1a [Amended]

(a) In the first sentence of § 2.1a(b), by removing "and § 1.7(e) of this Title";

§ 2.17 [Amended]

(b) In § 2.17(f), by removing "18 CFR 1.17(c)." and adding in lieu thereof "§ 385.2010(c) of this chapter";

§ 2.56a [Amended]

(c) In the first sentence of § 2.56a(g), by removing "§ 1.7(b) of the Commission's rules of practice and procedure (18 CFR 1.7(b))" and adding in lieu thereof "§ 385.1901 of this chapter";

§ 2.56 [Amended]

(d) In § 2.56(h), by removing "§ 1.7(b) of the Commission's rules of practice and procedure (18 CFR 1.7(b))" and adding in lieu thereof "§ 385.1901 of this chapter";

§ 2.59 [Amended]

(e) In § 2.59(a), by removing "§§ 1.8(d) and 154.27 of this chapter, *i.e.*, Rules of Practice and Procedure and Regulations, Under the Natural Gas Act respectively." and adding in lieu thereof "§ 385.214 and § 154.27 of this chapter).";

§ 2.59 [Amended]

(f) In § 2.59(e), by removing "§ 1.18 of this chapter" both times it appears and adding in lieu thereof "§ 385.601 of this chapter" in each instance;

§ 2.59 [Amended]

(g) In § 2.59(i), by removing "Notwithstanding the provisions of § 1.19(e) of this chapter (Rules of Practice and Procedure), relating to offers of settlement, the" and adding in lieu thereof "The";

§ 2.62 [Amended]

(h) In § 2.62(a), by removing "§§ 1.8(d) and 154.27 of this chapter, *i.e.*, Rules of Practice and Procedure and Regulations Under the Natural Gas Act, respectively," and adding in lieu thereof § 385.214 and § 154.27 of this chapter.";

§ 2.66 [Amended]

(i) In the first sentence of § 2.66(b), by removing "§ 1.7 of the Commission's rules of practice and procedure in" and adding in lieu thereof "§ 385.207 of ";

§ 2.78 [Amended]

(j) In § 2.78(a)(2), by removing "§ 1.7(b) of the Commission's rules of practice and procedure" and adding in lieu thereof "§ 385.1901 of this chapter";

§ 2.78 [Amended]

(k) In the first sentence of § 2.78(b), by removing "§ 1.7(b) of this chapter and shall conform to the requirements of § 1.15 and § 1.16" and adding in lieu thereof "§ 385.1501";

§ 2.100 [Amended]

(l) In the second sentence of § 2.100(c), by removing "§ 1.31(b)(2) of the Commission's General Rules" and adding in lieu thereof "§ 385.711(b)(4) of this chapter";

PART 3—ORGANIZATION; OPERATION; INFORMATION AND REQUESTS

6. Part 3 of Chapter I is amended as follows:

§ 3.8 [Amended]

(a) In the last sentence of § 3.8(e), by removing "§ 1.36(a)" and adding in lieu thereof "§ 388.106 of this chapter";

§ 3.103 [Removed]

(b) In § 3.103, by removing the entire section.

PART 3a—NATIONAL SECURITY INFORMATION

7. Part 3a of Chapter I is amended as follows:

§ 3a.11 [Amended]

(a) In § 3a.11(d)(1), by removing "§ 1.36(c)(14) of the rules of practice and procedures of the Federal Power

Commission (18 CFR 1.36(c)(14))," and adding in lieu thereof "§ 388.105(a) of this chapter"

PART 3c—STANDARDS OF CONDUCT

8. Part 3c of Chapter I is amended as follows:

§ 3c.5 [Amended]

(a) In § 3c.5(d)(3), by removing "Section 1.4(c) of the Federal Power Commission's rules of practice and procedure (18 CFR 1.4(c))" and adding in lieu thereof "Section 385.2103 of this chapter,"

§ 3c.6 [Amended]

(b) In the first sentence of § 3c.6(c), by removing "Section 1.36 of the Commission's rules of practice and procedure (18 CFR 1.36)" and adding in lieu thereof "Part 388 of this chapter", and, in the second sentence thereof, by deleting "Section 1.36(f)" and adding in lieu thereof "Section 388.107 of this chapter";

§ 3c.11 [Amended]

(c) In § 3c.11(f)(2), by removing "Section 1.36 of the Federal Power Commission's Rules of Practice and Procedure (18 CFR 1.36)" and adding in lieu thereof "Part 388 of this chapter";

§ 3c.11 [Amended]

(d) In § 3c.11(g)(2), by removing "Section 1.4(c) of the Federal Power Commission's Rules of Practice and Procedure (18 CFR 1.4(c)." and adding in lieu thereof "Section 385.2103 of this chapter";

§ 3c.106 [Amended]

(e) In the first sentence of §3c.106 (f)(2)(iii), by removing "Section 1.4(e) of the Federal Power Commission's Rules of Practice and Procedure (18 CFR 1.4(c))" and adding in lieu thereof "Section 385.2103 of this chapter";

§ 3c.107 [Amended]

(f) In the first sentence of § 3c.107(b)(2), by removing "Section 1.36 of the Commission's Rules of Practice and Procedure (18 CFR 1.36)" and adding in lieu thereof "Section 388.107 of this chapter";

§ 3c.107 [Amended]

(g) In the second sentence of § 3c.107(b)(2), by removing "§ 1.36(f)" and adding in lieu thereof "§ 388.107 of this chapter";

§ 3c.112 [Amended]

(h) In the first sentence of § 3c.112(h)(2), by removing "Section 1.4(c) of the Federal Power Commission's Rules of Practice and Procedure (18 CFR 1.4(c))" and adding in lieu thereof "Section 385.2103 of this chapter";

§ 3c.205 [Amended]

(i) In the first sentence of § 3c.205(b)(2), by removing "Section 1.36 of the Commission's Rules of Practice and Procedure (18 CFR 1.36)" and adding in lieu thereof "Part 388 of this chapter"; and, in the second sentence thereof, by deleting "§ 1.36(f)" and adding in lieu thereof "Section 388.107 of this chapter";

§ 3c.206 [Amended]

(j) In § 3c.206(f)(2), by removing "Section 1.36 of the Federal Power Commission's Rules of Practice and Procedure (18 CFR 1..36)" and adding in lieu thereof "Part 388 of this chapter".

PART 4—LICENSES, PERMITS, EXEMPTIONS, AND DETERMINATION OF PROJECT COSTS

9. Part 4 of Chapter I is amended as follows:

§ 4.5 [Amended]

(a) In § 4.5, by removing "§ 1.20" and adding in lieu thereof "Subpart E of Part 385";

§ 4.14 [Amended]

(b) In § 4.14(a), by removing "§ 1.20" and adding in lieu thereof "Subpart E of Part 385";

§ 4.23 [Amended]

(c) In the third sentence of §4.23, by removing "§ 1.20" and adding in lieu thereof "Subpart E of Part 385";

§ 4.31 [Amended]

(d) In §4.31(a) by removing "Conform to the requirements of §§ 1.5, 1.14, 1.15, 1.16, and 1.17 of this chapter, except as otherwise described in this part; and" and adding in lieu thereof "[Reserved]";

§ 4.33 [Amended]

(e) In § 4.33(b), by removing "must conform to the requirements of §§ 1.14, 1.15, 1.16, and 1.17 of this chapter, and";

§ 4.81 [Amended]

(d) In § 4.81(c)(3), by removing "§ 1.14(a)(2)" and adding in lieu thereof "§ 385.1901";

§ 4.92 [Amended]

(e) In § 4.92(b) by removing the text of paragraph (b)(1) and adding in lieu thereof "[Reserved]";

§ 4.92 [Amended]

(f) In § 4.92(c)(1)(i), by removing "§ 1.7(b)" and adding in lieu thereof "§ 385.1501";

§ 4.92 [Amended]

(g) In the last sentence of § 4.92(c)(2), by removing "18 CFR 1.7(b)" and adding in lieu thereof "18 CFR 385.1901";

§ 4.103 [Amended]

(h) In § 4.103(d), by removing "§ 1.7" and adding in lieu thereof "§ 385.207";

§ 4.107 [Amended]

(j) in § 4.107(a)(1), by removing the last sentence;

PART 12—SAFETY OF WATER POWER PROJECTS AND PROJECT WORKS

10. Part 12 of Chapter I is amended as follows:

§ 12.2 [Amended]

(a) In § 12.2(b), by removing "§ 1.7" and adding in lieu thereof "§ 385.207";

§ 12.4 [Amended]

(b) In § 12.4(c)(1) by removing "§ 1.7" and adding in lieu thereof "§ 385.207".

PART 16—PROCEDURES RELATING TO TAKEOVER AND RELICENSING OF LICENSED PROJECTS

11. Part 16 of Chapter I is amended as follows:

§ 16.4 [Amended]

(a) In § 16.4, by removing "§§ 1.37 and 2.1" and adding in lieu thereof "§ 2.1 and Subpart M of Part 385";

§ 16.9 [Amended]

(b) In § 16.9, by removing "§ 1.34" and adding in lieu thereof "§ 385.713";

PART 25—APPLICATION FOR VACATION OF WITHDRAWAL AND FOR DETERMINATION PERMITTING RESTORATION OF ENTRY

12. Part 25 of Chapter I is amended as follows:

§ 25.2 [Amended]

(a) In § 25.2, by removing "§ 1.20" and adding in lieu thereof Subpart E of Part 385.".

PART 32—INTERCONNECTION OF FACILITIES; EMERGENCIES, TRANSMISSION TO FOREIGN COUNTRY

13. Part 32 of Chapter I is amended as follows:

§ 32.4 [Amended]

(a) In § 32.4, by removing "and must conform, in all other respects, to the requirements of §§ 1.15 through 1.17 of this chapter";

§ 32.37 [Amended]

(b) In § 32.37, by removing "and must conform, in all other respects, to the requirements of §§ 1.15 through 1.17 of this chapter";

§ 32.61 [Amended]

(c) In the first sentence of § 32.61(i), by removing "and shall conform, in all other respects, to the requirements of §§ 1.15 through 1.17 of this chapter".

PART 33—APPLICATION FOR SALE, LEASE, OR OTHER DISPOSITION, MERGER OR CONSOLIDATION OF FACILITIES OR FOR PURCHASE OR ACQUISITION OF SECURITIES OF A PUBLIC UTILITY

14. Part 33 of Chapter I is amended as follows:

§ 33.5 [Reserved]

(a) In § 33.5, by removing the text of the entire section and adding in lieu thereof "[Reserved]".

PART 35—FILING OF RATE SCHEDULES

15. Part 35 of Chapter I is amended as follows:

§ 35.8 [Amended]

(a) In the first sentence of the fourth paragraph of the notice form in § 35.8(a), by removing "§§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10)" and adding in lieu thereof "§ 385.212 and § 385.207 of this chapter";

§ 35.13 [Amended]

(a) In the second sentence of § 35.13(a), by removing "§ 1.7" and adding in lieu thereof "§ 385.207";

§ 35.14 [Amended]

(c) In § 35.14(a)(10), by removing "§ 1.7(b) of the rules of practice and procedure" and adding in lieu thereof "§ 385.2010 of this chapter";

PART 41—ACCOUNTS, RECORDS, AND MEMORANDA

16. Part 41 of Chapter I is amended as follows:

§ 41.4 [Amended]

(a) In § 41.4, by removing the first sentence and adding in lieu thereof "Each copy of such memorandum must be complete in itself.";

§ 41.4 [Amended]

(b) In the second sentence of § 41.4, by removing "§ 1.29" and adding in lieu thereof "§ 385.706(c)";

§ 41.7 [Amended]

(c) In the first sentence of § 41.7, by removing "§ 1.20" and adding in lieu thereof "Subpart E of Part 385";

PART 131—FORMS

17. Part 131 of Chapter I is amended as follows:

§ 131.1 [Reserved]

(a) In § 131.1, by removing the text of the entire section and adding in lieu thereof "[Reserved]".

PART 152—APPLICATION FOR EXEMPTION FROM THE PROVISIONS OF THE NATURAL GAS ACT PURSUANT TO SECTION 1(C) THEREOF

18. Part 152 of Chapter I is amended as follows:

§ 152.2 [Amended]

(a) In the first sentence of § 152.2, by removing "and shall conform, in all other respects with §§ 1.15 and 1.16 of this chapter";

PART 153—APPLICATION FOR AUTHORIZATION TO EXPORT OR IMPORT NATURAL GAS

19. Part 153 of Chapter I is amended as follows:

§ 153.2 [Amended]

(a) In the first sentence of § 153.2, by removing "and shall conform, in all other respects with §§ 1.15 and 1.16 of this chapter";

§ 153.11 [Amended]

(b) In the first sentence of § 153.11, by removing "and shall conform in all other respects with §§ 1.15 and 1.16 of this chapter".

PART 154—RATE SCHEDULES AND TARIFFS

20. Part 154 of Chapter I is amended as follows:

§ 154.94 [Amended]

(a) In the second sentence of § 154.94(j)(5)(ii), by removing "Section 1.28" and adding in lieu thereof "Section 385.715";

§ 154.105 [Amended]

(b) In the first sentence of § 154.105(j), by removing "§ 1.7(b) of the Commission's rules of practice and procedure (18 CFR 1.7(b))" and adding in lieu thereof "§ 385.1901 of this chapter";

§ 154.106 [Amended]

(c) In the first sentence of § 154.106(h), by removing "§ 1.7(b) of the Commission's rules of practice and procedure (§ 1.7(b) of this chapter)" and adding in lieu thereof "§ 385.101 of this chapter";

§ 154.107 [Amended]

(d) In the first sentence of § 154.107(e), by removing "§ 1.7(b) of this chapter of the Commission's rules of practice and procedure" and adding in lieu thereof "§ 385.1901 of this chapter";

§ 154.108 [Amended]

(e) In the first sentence of § 154.108(e), by removing "§ 1.7(b) of this chapter of the Commission's rules of practice and procedure" and adding in lieu thereof "§ 385.1901 of this chapter";

§ 154.109 [Amended]

(f) In the first sentence of § 154.109(f), by removing "§ 1.7(g) of the Commission's rules of practice and procedure (18 CFR 1.7(b))" and adding in lieu thereof "§ 385.1901 of this chapter";

§ 154.109 [Amended]

(g) In the first sentence of § 154.109a(e), by removing "§ 1.7(b) of the Commission's rules of practice and procedure in this chapter (18 CFR 1.7(b))" and adding in lieu thereof "§ 385.1901 of this chapter".

PART 156—APPLICATIONS FOR ORDERS UNDER SECTION 7(a) OF THE NATURAL GAS ACT

21. Part 156 of Chapter I is amended as follows:

§ 156.3 [Amended]

(i) In the second sentence of § 156.3(a), by removing ", and applicable requirements of the Commission's rules of practice and procedure, particularly §§ 1.5, 1.15, 1.16, and 1.17 of this chapter";

§ 156.3 [Amended]

(b) In the second sentence of § 156.3(a), by removing "§ 1.11" and adding in lieu thereof "§ 385.213 and § 385.214";

§ 156.5 [Amended]

(c) In § 156.5(c), by removing the last sentence;

§ 156.7 [Amended]

(d) In § 156.7, by removing the next to last sentence;

§ 156.10 [Amended]

(e) In § 156.10, by removing "§ 1.19(b)" and adding in lieu thereof "§ 385.2009".

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AND FOR ORDERS PERMITTING AND APPROVING ABANDONMENT UNDER SECTION 7 OF THE NATURAL GAS ACT

22. Part 157 of Chapter I is amended as follows:

§ 157.6 [Amended]

(a) In the second sentence of § 157.6(a), by removing ", and other applicable requirements of the Commission's rules of practice and procedure, particularly §§ 1.5, 1.15, 1.16 and 1.17 of this chapter";

§ 157.6 [Amended]

(b) In the third sentence of § 157.6(a), by removing "§ 1.11" and adding in lieu thereof "§ 385.213 and § 385.214";

§ 157.6 [Amended]

(c) In § 157.6(c), by removing "§ 1.32(b)" and adding in lieu thereof "§ 385.802";

§ 157.8 [Amended]

(d) In the third sentence of § 157.8, by removing "§ 1.14" and adding in lieu thereof "§ 385.2001(b)";

§ 157.10 [Amended]

(e) In the first sentence of § 157.10, by removing "§ 1.8" and adding in lieu thereof "§ 385.212";

§ 157.10 [Amended]

(f) In the fourth sentence of § 157.10, by removing "§§ 1.7, 1.8 and 1.37(f)" and adding in lieu thereof "§ 385.212";

§ 157.10 [Amended]

(g) In the last sentence of § 157.10, by removing "§ 1.10" and adding in lieu thereof "§ 385.209";

§ 157.11 [Amended]

(h) In the first sentence of § 157.11(a), by removing "§ 1.19(b)" and adding in lieu thereof "§ 385.2009";

§ 157.11 [Amended]

(i) In § 157.11(b), by removing "§ 1.32(b)" and adding in lieu thereof "§ 385.802";

§ 157.14 [Amended]

(j) In the last sentence of § 157.14(a)(10)(vi), by removing "paragraph (f) of § 1.36" and adding in lieu thereof "§ 388.107";

§ 157.14 [Amended]

(k) In the second sentence of § 157.14(c), by removing "and shall conform in all other respects with §§ 1.15, 1.16, and 1.17 of this chapter unless otherwise directed by the Secretary";

§ 157.26 [Amended]

(l) In § 157.26, by removing the text of the section and adding in lieu thereof "An application under § 157.23 (which shall include the originals of all exhibits accompanying the applications) shall be verified.";

§ 157.101 [Amended]

(m) In § 157.101(c), by removing "§ 1.34" and adding in lieu thereof § 385.713".

PART 158—ACCOUNTS, RECORDS, AND MEMORANDA

23. Part 158 of Chapter I is amended as follows:

§ 158.3 [Amended]

(a) In the first sentence of § 158.3, by removing "§ 1.17" and adding in lieu thereof "§ 385.2010";

§ 158.4 [Amended]

(b) In § 158.4(c), by removing the first sentence and adding in lieu thereof "Each memorandum must be complete in itself."; and in the second sentence, by removing "§ 1.29" and adding in lieu thereof "§ 385.706";

§ 158.7 [Amended]

(c) In § 158.7, by removing "§ 1.20" and adding in lieu thereof "Subpart E of Part 385".

PART 250—FORMS

24. Part 250 of Chapter I is amended as follows:

§ 250.1 [Reserved]

(a) In § 250.1, by removing the text of the section and adding in lieu thereof "[Reserved]".

PART 270—RULES GENERALLY APPLICABLE TO REGULATED SALES OF NATURAL GAS

25. Part 270 of Chapter I is amended as follows:

§ 270.202 [Amended]

(a) In § 270.202(d), by removing "§ 1.41" and adding in lieu thereof "Subpart K of Part 385".

PART 271—CEILING PRICES

26. Part 271 of Chapter I is amended as follows:

§ 271.402 [Amended]

(a) In the first sentence of § 271.402(c)(5), by removing § 1.7(b)" and adding in lieu thereof "§ 385.1901";

§ 271.806 [Amended]

(b) In the last sentence of § 271.806(c), by removing "§ 1.7(c) of the Commission's Rules of Practice and Procedure (18 CFR 1.7(c))" and adding in lieu thereof "§ 385.207 of this chapter";

§ 271.1106 [Amended]

(c) In § 271.1106, by removing "§ 1.41" and adding in lieu thereof "Subpart K of Part 385".

PART 275—COMMISSION DETERMINATIONS AND REVIEW OF JURISDICTIONAL AGENCY DETERMINATIONS

27. Part 275 of chapter I is amended as follows:

§ 275.204 [Amended]

(a) In § 275.204(f), by removing "§§ 1.17 and 1.51" and adding in lieu thereof "§ 385.2010".

PART 281—NATURAL GAS CURTAILMENT UNDER THE NATURAL GAS POLICY ACT OF 1978

28. Part 281 of Chapter I is amended as follows:

§ 281.110 [Amended]

(a) In § 281.110(b), by removing "§ 1.6" and adding in lieu thereof "§ 385.206";

§ 281.111 [Amended]

(b) In the first sentence of § 281.111, by removing "§ 1.7 of the Commission's regulations" and adding in lieu thereof "§ 385.207 of this chapter";

§ 281.214 [Amended]

(c) In § 281.214(a), by removing "§ 1.6" and adding in lieu thereof "§ 285.206";

§ 281.215 [Amended]

(d) In the first sentence of § 281.215, by removing "§ 1.7 of the Commission's Regulations" and adding in lieu thereof "§ 385.207 of this chapter".

PART 282—INCREMENTAL PRICING

§ 282.20 [Amended]

29. Part 282 of Chapter I is amended as follows:

§ 282.201 [Amended]

(a) In the last sentence of § 282.201, by removing "§ 1.41" and adding in lieu thereof "Subpart K of Part 385 of this chapter";

§ 282.204 [Amended]

(b) In § 282.204(f)(2), by removing "§ 1.10" and adding in lieu thereof "§ 385.209 of this chapter";

§ 282.206 [Amended]

(c) In § 282.206(a)(2)(i), by removing "§ 1.7" and adding in lieu thereof "§ 385.207 of this chapter";

§ 282.206 [Amended]

(d) In the first sentence of § 282.206(b)(2)(i), by removing "§ 1.41(h)" and adding in lieu thereof "§ 385.1106(h) of this chapter";

§ 282.403 [Amended]

(e) In § 282.403(g)(1), by removing "§ 1.10" and adding in lieu thereof "§ 385.209 of this chapter".

PART 284—CERTAIN SALES AND TRANSPORTATION OF NATURAL GAS UNDER THE NATURAL GAS POLICY ACT OF 1978 AND RELATED AUTHORITIES

30. Part 284 of chapter I is amended as follows:

§ 284.6 [Amended]

(a) In § 284.6(a), by removing "§ 1.42" and adding in lieu thereof "subpart L of Part 385";

§ 284.208 [Amended]

(b) In § 284.208(d)(1), by removing "§ 1.32" and adding in lieu thereof "Subpart H of Part 385";

§ 284.222 [Amended]

(c) In the first sentence of § 284.222(b), by removing "§§ 1.32 and 157.11" and adding in lieu thereof "§ 157.11 and subpart H of Part 385 of this chapter".

PART 286—ADMINISTRATIVE PROCEDURES

31. Part 286 of chapter I is amended as follows:

§ 286.102 [Amended]

(a) In § 286.102(c), by removing "Part 1, Subchapter H, Chapter I" and adding in lieu thereof "§ 385.713 of this chapter".

PART 292—REGULATIONS UNDER SECTIONS 201 AND 210 OF THE PUBLIC UTILITY REGULATORY POLICIES ACT OF 1978 WITH REGARD TO SMALL POWER PRODUCTION AND COGENERATION

32. Part 292 of Chapter I is amended as follows:

§ 292.207 [Amended]

(a) In the first sentence of the third paragraph of the notice form in § 292.207(b)(6)(ii), by removing "§§ 1.8 and 1.10 of the Commission's rules of practice and procedure" and adding in lieu thereof "§ 385.214 and § 385.209 of this chapter".

PART 375—THE COMMISSION

33. Part 375 of Chapter I is amended as follows:

§ 375.202 [Amended]

(a) In § 375.202(b)(1), by removing "§ 1.1(f)(19)" and adding in lieu thereof "§ 388.101(c)";

§ 375.202 [Amended]

(b) In § 375.202(b)(2), by removing "§ 1.36(c)(2)" and adding in lieu thereof "§ 388.105(b)";

(c) In the last sentence of § 375.301, by removing "§ 1.7(d)" and adding in lieu thereof "§ 385.1902";

(d) By adding to § 375.301 a new paragraph to read as follows:

§ 375.301 Purpose.

* * * * *

(c) For purposes of Subpart C, "uncontested" and "in contested cases" mean that no motion to intervene, or notice of intervention, in opposition to the pending matter made under § 385.214 (intervention) has been received by the Commission.

§ 375.302 [Amended]

(e) In the first sentence of § 375.302(b) by removing "§ 1.8" and adding in lieu thereof "§ 385.212";

(f) In § 375.302, by removing paragraph (f);

(g) In § 375.302(g), by removing after "extension of time" the following: "(other than motions made while a proceeding is pending before a presiding officer as defined in § 385.102(d))", and by deleting "Part 1" and adding in lieu thereof "Part 385";

§ 375.304 [Amended]

(h) In § 375.304, by removing "the Commission's rules of practice and procedure, particularly § 1.27" and adding in lieu thereof "Part 385, particularly § 385.504";

§ 375.307 [Amended]

(i) In § 375.307(g), by removing "§ 1.11(d)(1) of this Chapter" and adding in lieu thereof "§ 385.214 of this chapter";

§ 375.307 [Amended]

(j) In § 375.307(j), by removing "§ 1.14(a)(2) of this Chapter" and adding in lieu thereof "§ 385.1901 of this chapter";

§ 375.308 [Amended]

(k) In § 375.308(h), by removing "§ 1.11(d)(3)" and adding in lieu thereof "§ 385.214";

§ 375.308 [Amended]

(l) In § 375.308(o), by removing "§ 1.14(a)(2)" and adding in lieu thereof "§ 385.1901";

§ 375.308 [Amended]

(m) In § 375.308(gg), by removing "§ 1.14(a)(2) of this Chapter" and adding in lieu thereof "§ 385.1901 of this chapter";

§ 375.309 [Amended]

(n) In § 375.309(b), by removing "§ 1.12 of this Chapter" and adding in lieu thereof "§ 1b.12 of this chapter"; and

§ 375.310 [Amended]

(o) In § 375.310(a), by removing "§ 1.38 and § 1.40" and adding in lieu thereof "Subpart I and Subpart J of Part 385 of this chapter".

34. Chapter I, Title 18 of the *Code of Federal Regulations* is amended by adding the following:

Form of Notice for "Federal Register"

Oil pipeline carriers must file a form of notice suitable for publication in the Federal Register in the following form:

United States of America Federal Energy Regulatory Commission

(Name of Carrier) _____

Docket No. _____

Notice of Proposed Changes in FERC Tariff

Take notice that (name of carrier), on (date), tendered for filing proposed changes in its FERC No. (number); Supp. No. (number) to FERC No. (number); revised page to FERC No. (number) to be effective (or issued) on (date). [The following language in the first paragraph applies only to increased rate filings.] The proposed changes would increase revenues by (dollar amount) based on the 12 month period ending (date). [If changes other than increased rates and charges are proposed, the carrier must state concisely the nature of these changes.]

[The carrier must briefly describe the reasons for the proposed changes in the second paragraph.]

Copies of the filing were served upon the carrier's subscribers.

A person desiring to be heard or to protest said filing should file an intervention or protest with the Office of the Secretary, Federal Energy Regulatory Commission, 825 N. Capitol Street NE., Washington, D.C. 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211). The interventions or protests should be filed on or before (date). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. A person wishing to become a party must intervene. Copies of this filing are

on file with the Commission and are available for public inspection.

[Docket No. 79N-0182]

Medical Devices; Mandatory, Device Experience Reporting

Correction

In FR Doc. 80-36093, published at page 76183, in the issue of Tuesday, November 18, 1980, make the following corrections:

1. On page 76184, third column, the seventh line, now reading "ethics of the the profession" should read "ethics of the medical profession."

2. On page 76188, § 803.3, in the third column, some extra material was inadvertently repeated in the fourth and fifth line of paragraph (b). The beginning of paragraph (b) should read:

(b) "Distributor" means any person or firm that furthers the marketing of a device from the original place of manufacture to the person who . . .

3. In the second line from the bottom of § 803.3(b), the word "does" should appear between the words "but" and "not."

BILLING CODE 1505-01-M

21 CFR Part 601

[Docket No. 80N-0523]

Reclassification Procedures To Determine That Licensed Biological Products Are Safe, Effective, and Not Misbranded Under Prescribed, Recommended, or Suggested Conditions of Use; Proposed Revision; Extension of Comment Period

AGENCY: Food and Drug Administration.

ACTION: Proposed Rule; Extension of Comment Period.

SUMMARY: The Food and Drug Administration (FDA) is extending the comment period on a proposal to revise the existing biologics regulations governing the review and classification of certain biological products. The extension is being granted in response to requests from a licensed manufacturer of biological products and the Joint Council of Allergy and Immunology.

DATE: Written comments by May 18, 1981.

ADDRESS: Written comments to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Michael L. Hooton, Bureau of Biologics (HFB-620), Food and Drug Administration, 8800 Rockville Pike, Bethesda, MD 20205, 301-443-1306.

SUPPLEMENTARY INFORMATION: In the Federal Register of January 16, 1981 (46 FR 4834), FDA proposed to amend the biologics regulations under Part 601 (21 CFR Part 601) concerning the review and classification of biological products licensed prior to July 1972, and issue new regulations to reclassify biological products that have been classified in Category IIIA by advisory review panels into either Category I (safe, effective, and not misbranded) or Category II (unsafe, ineffective, or misbranded). In addition, the January 16, 1981, proposal would permit interim marketing, pending completion of clinical studies, of any biological product reclassified into Category II for which there is a compelling medical need and no suitable alternative therapeutic, prophylactic, or diagnostic agent. Interested persons were given until March 17, 1981, to comment on this proposal.

A licensed manufacturer of allergenic extracts has submitted to the agency a request for an extension of the common period of at least 30 days. The request stated that there will be a scheduled meeting of an allergy and immunology society in the near future and that the proposed regulation is likely to be discussed at that meeting. The manufacturer believed that additional time beyond the original comment period would then be needed to prepare appropriate comments. In addition, the Joint Council of Allergy and Immunology has requested that the comment period be extended for 60 days. This organization represents the American Academy of Allergy, the American College of Allergists, the American Association for Clinical Immunology and Allergy, and the American Association of Certified Allergists. The Joint Council of Allergy and Immunology pointed out in its request that it has notified each of its member allergists throughout the nation of the proposed regulation and its potential impact on the availability of Category IIIA allergenic extracts, and that the additional 60 days is necessary for coordinating a response that would represent the views of its members.

Because of the length of the proposal, the timing of the meeting referenced by the manufacturer's request for a comment period extension, the efforts of the Joint Council of Allergy and Immunology to coordinate a response to the proposal, and the potential impact the proposed new procedures could have on biological products classified in Category IIIA under the existing regulations, FDA finds that the requests are reasonable. Therefore, in response to the requests, FDA is extending the comment period for all interested persons to May 18, 1981.

Interested persons may, on or before May 18, 1981, submit to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, written comments regarding the proposal. Four copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above, between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 10, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 1505-01-M

FEDERAL MARITIME COMMISSION

46 CFR Part 502

[Docket No. 81-22]

Interest in Reparation Proceedings

AGENCY: Federal Maritime Commission.

ACTION: Proposed rule.

SUMMARY: Rapid fluctuations in interest rates have required the FMC to modify its past practice regarding awards of interest in reparation proceedings. This proposed rule would prescribe the rate of interest to be granted as part of reparation awards in cargo misrating cases. Interest would be based on the rates on 6-month U.S. Treasury bills. The intended effect of the rule is to compute interest awards that more accurately reflect prevailing interest rates during the reparation period involved in each case.

DATE: Comments on or before May 13, 1981.

ADDRESS: Inquiries and comments (original and 15 copies) to: Francis C. Hurney, Secretary, Federal Maritime Commission, Room 11101, 1100 L Street, NW., Washington, D.C. 20573.

FOR FURTHER INFORMATION CONTACT: Francis C. Hurney, (202) 523-5725.

SUPPLEMENTARY INFORMATION: This proposed rule has been deemed necessary to ensure both uniformity and fairness in the disposition of cases in which interest is granted as part of an award of reparations. It has been determined that awards of interest on reparations due to the misrating of cargo should be the usual course of action. Exceptions to this norm would be considered by the Commission on an *ad hoc* basis.

Generally, a rate of interest is assessed on such reparation awards not as a punitive measure, but in order to make the complainant shipper whole. This is intended to compensate the claimant for the loss of use of monies during the overpayment period.

When interest rates in the nation's money markets are stable, it is possible to set an interest rate on reparation awards that reflects, over time, the overall levels of interest rates in the economy. Thus in May 1980, the Commission issued a policy statement indicating that in cases involving misrating of cargo and arising under section 18(b)(3) of the Shipping Act, 1916, and section 2 of the Intercoastal Shipping Act, 1933, a rate of 12 percent should generally be applied to reparation awards.

Subsequent to this statement of policy, however, interest rates in the economy became increasingly volatile and began to deviate widely from the 12 percent guideline. The Commission recognized the need for a rate of interest on reparation awards that would be more reflective of the fluctuating level of interest rates in the rest of the economy, and issued an order on January 5, 1981, repealing the interest award policy statement.

The interest rate procedure applied should not only be responsive to market interest rates but also simple to compute. The Commission believes that basing the rate of interest to be applied to the rate of interest on 6-month U.S. Treasury bills meets these objectives. The reparation rate of interest would be computed by averaging the monthly rates on 6-month Treasury bills from the month when the overpayment was made to the latest available monthly Treasury bill rate at the time the settlement officer or administrative law judge grants the award.

The monthly rates on 6-month U.S. Treasury bills are available in the *Federal Reserve Bulletin* published monthly by the Board of Governors of the Federal Reserve System. For example, Table 1.35 titled "Interest Rates Money and Capital Markets" on page A25 of the December 1980 *Federal Reserve Bulletin* lists monthly rates in secondary markets on 6-month U.S. Treasury bills for August through November 1980. Specifically, line 14 of this table shows the August through November 1980 rates respectively at 9.41, 10.54, 11.63, and 13.50 percent.

This proposed rule would appear to be exempt from the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). Section 601(2) of that Act excepts from its coverage any "rule of particular applicability related to rates . . . or practices relating to such rates. . . . While the proposed rule would seem to be one "relating to rates," due to the absence of informative legislative history on this point and the lack of interpretative guidelines, and without prejudice to any future determination as to the applicability of the Act to this or any related rule, the following regulatory flexibility analysis is being provided.

The reason for, the objectives of, and legal basis for the proposed rule are stated above. The proposed rule, if adopted could affect a significant number of small businesses. It is impossible to estimate the number of small entities that could be affected. This proposed regulation would not impose substantial reporting requirements nor any additional record keeping requirements. The Commission knows of no relevant Federal rules which may duplicate, overlap or conflict with the proposed rule.

This rule is intended to result in a favorable economic impact on small entities. Accordingly, consideration of alternatives which minimize the economic impact of the rule would appear to be unnecessary. However, the Commission has considered alternatives to the proposed rule and has determined that they are impractical. A discussion

of one of these alternatives appears above.

Comments are invited from small entities and the general public on the proposed rule's impact on small business. Any comments received will be considered by the Commission before adopting a final rule.

Therefore, pursuant to sections 22 and 43 of the Shipping Act, 1916 (46 U.S.C. 821, 841(a)) and 5 U.S.C. 553, Part 502 of the Code of Federal Regulations is proposed to be amended by the addition of a new § 502.253 as follows:

§ 502.253 Interest in reparation proceedings.

Except as to applications for refund or waiver of freight charges under § 502.92 of this part, interest will be granted on awards of reparation in cases involving the misrating of cargo and arising under section 18(b)(3) of the Shipping Act, 1916 and section 2 of the Intercoastal Shipping Act, 1933. The rate of interest will be computed by averaging the monthly rates on 6-month U.S. Treasury bills commencing with the rate for the month when the overpayment was made to the latest available monthly Treasury bill rate.

By Order of the Federal Maritime Commission.

Francis C. Hurney,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[Docket No. 21313; RM-2646; RM-2717; RM-3038; RM-3039; RM-3040]

AM Stereophonic Broadcasting; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of reply comment period.

SUMMARY: Action taken herein extends time for the filing of reply comments in Docket No. 21313, AM Stereophonic Broadcasting, from March 9, 1981, to and including March 23, 1981, in response to a motion submitted by Motorola, Inc.

DATE: Reply comments must be filed on or before March 23, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Steven A. Bookshester, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: March 4, 1981.

Released: March 10, 1981.

In the Matter of AM Stereophonic Broadcasting; Order extending time for the filing of reply comments; Docket No. 21313, RM-2646, RM-2717, RM-3038, RM-3039, RM-3040. See also 45 FR 59350, September 9, 1980.

1. Presently before the Commission is a motion submitted on March 2, 1981, by Motorola, Inc., ("Motorola"), requesting that the date for the filing of reply comments in the above-captioned proceeding be extended from March 9, 1981, to and including March 23, 1981.

2. In support of its motion, Motorola states that it has been analyzing the extensive data submitted in comments by other system proponents since shortly after those comments were filed, on or about February 9, 1981. Motorola argues that because of the length and complexity of the comments, additional time is necessary for adequate analysis. Motorola submits that allowing such time to system proponents will serve to facilitate the Commission's review of the record in this proceeding.

3. In view of the extraordinary length and complexity of the comments filed by various parties, the Commission is of the view that good cause has been shown and the public interest would be served by the grant of the brief extension of time requested by Motorola. The Commission intends to resolve this proceeding as expeditiously as possible, and all parties should be aware that, absent extraordinary circumstances, further extensions of time in this proceeding will not be granted.

4. Accordingly, it is ordered, That the motion for extension of time for the submission of reply comments in this proceeding, filed by Motorola, Inc., IS GRANTED, and the time for filing said reply comments is hereby extended to and including March 23, 1981.

Federal Communications Commission.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

Bankruptcy Grain Elevator Issue; Request for Comment

AGENCY: Agricultural Stabilization and Conservation Service.

ACTION: Notice.

SUMMARY: Secretary of Agriculture John Block has appointed a U.S. Department of Agriculture task force to review current warehouse laws and regulations and to recommend possible changes to safeguard the interests of both farmers and the Government when a commercial grain elevator is insolvent. The task force is chaired by Mr. Edward Hews, Acting Administrator of the Agricultural Stabilization and Conservation Service (ASCS).

ASCS is asking the public to submit comments and recommendations to the U.S. Department of Agriculture on how to best protect the interests of both farmers and the Government when dealing with grain elevators insolvency.

DATES: The Agricultural Stabilization and Conservation Service will consider comments that are received by 4:45 p.m. (EST), April 15, 1981.

ADDRESS: Comments should be directed to: Mr. Merrill Marxman, Elevator Task Force Working Group, Room 5959-South Building, ASCS–USDA, P.O. Box 2415, Washington, DC 20013.

FOR FURTHER INFORMATION CONTACT: Mr. Merrill Marxman, Elevator Task Force Working Group, Room 5959-South Building, P.O. Box 2415, Washington, DC 20013; telephone (202) 447–4593.

SUPPLEMENTARY INFORMATION: The USDA task force will consider the comments during its current review of all existing laws and regulations dealing with the questions of grain ownership at insolvent elevators. The public comments will be especially important to the task force as there are no current studies or reports directly related to this matter. The study by the task force will not be restricted to bankrupt elevators but will also consider possible actions that can be taken to avoid insolvency.

Dated: March 11, 1981.

Edward Hews,

Acting Administrator, Agricultural Stabilization and Conservation Service.

BILLING CODE 3410-05-M

Forest Service

Oh-Be-Joyful Wilderness Study Area; Intent To Prepare Environmental Impact Statement

The U.S. Department of Agriculture, Forest Service, will prepare an environmental impact statement for the Oh-Be-Joyful Wilderness Study Area, pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, in accordance with the Council on Environmental Quality Regulations (40 CFR 1500).

Oh-Be-Joyful Wilderness Study Area consists of approximately 5,500 acres in the Gunnison National Forest, Gunnison County, Colorado, and was designated as a Wilderness Study Area by Congress in Pub. L. 96–560 (Sec. 106), December 22, 1980. The Secretary of Agriculture was directed to make a recommendation to the President and the Congress on the suitability or unsuitability for inclusion of Oh-Be-Joyful in the National Wilderness Preservation System in accordance with Sec. 3(c) and 3(d) of the Wilderness Act of 1964 (78 Stat. 892). The final decision on the wilderness designation will be made by Congress.

Management alternatives being considered include: (1) nonwilderness; (2) wilderness; and, (3) no action. The no action alternative is constrained because Pub. L. 96–560 requires a recommendation for management within 3 years. No action would mean a deferment of the recommendation at this time.

The major issues and concerns being analyzed in determining wilderness suitability are: (1) minerals development potential; and, (2) water quality and water storage developments.

R. Max Peterson, Chief, Forest Service, is the responsible official. Federal, State, and local agencies, organizations, and individuals who may be interested in, or affected by, the study are invited to provide written comments. These comments will be used to supplement public issues and management concerns from previous planning efforts and public involvement activities. Written comments should be sent to Jimmy R. Wilkins, Forest Supervisor, Grand Mesa, Uncompahgre, and Gunnison National Forests, 1063 Main Street, Delta, Colorado 81416, by April 6, 1981.

The estimated date for filing the draft environmental impact statement is June 1981. There will be a 60-day public review period during which public hearings will be held to consider the draft environmental impact statement and the recommended action. Notification for the time and location of these meetings will be published in the **Federal Register** and local and regional newspapers at a later date, but at least 30 days prior to the hearing dates. The estimated date for filing the final environmental impact statement is May 1982.

Questions about the planning process, public involvement activities, or the environmental impact statement should be directed to Nils A. (Arnie) Arneson, Program Manager, Recreation, Lands, and Minerals, Grand Mesa, Uncompahgre, and Gunnison National Forests, 1063 Main Street, Delta, Colorado 81416 (phone 303–874–7691).

Dated: March 5, 1981.

R. M. Housley,

Acting Chief, Forest Service.

[Order 81-3-69; Docket 39412]

Air Berlin Charter Co. d.b.a. Air Berlin USA; Order To Show Cause and Instituting Investigation

AGENCY: Civil Aeronautics Board.

ACTION: Notice of Order to Show Cause and Instituting Investigation; Order 81-3-69, Docket 39412.

SUMMARY: The Board proposes to issue a certificate of public convenience and necessity to Air Berlin Charter Company d/b/a Air Berlin USA for Ft. Lauderdale/Tampa/Orlando-Brussels-West Berlin scheduled service subject to the outcome of the *Air Berlin USA Fitness Investigation.*

OBJECTIONS: All interested persons having objections to the Board's tentative findings and conclusions that this action be taken as described in the order cited above, shall, NO LATER THAN April 3, 1981, file a statement of such objections with the Civil Aeronautics Board (20 copies, addressed to Docket 37031, Dockets Section, Civil Aeronautics Board, Washington, D.C. 20428) and mail copies to Leico, Inc. d/b/a Air Berlin USA, the State of Florida, the Ambassadors in Washington, D.C. of the United Kingdom, France and Belgium and the Departments of State and Transportation.

A statement of objections must cite the Docket number and must include a summary of testimony, statistical data or other such supporting evidence.

TO GET A COPY OF THE COMPLETE ORDER: Request it from the Civil Aeronautics Board, Distribution Section, Room 516, 1825 Connecticut Ave., N.W., Washington, D.C. 20428. Persons outside the Washington metropolitan area may send a postcard request.

Trans World Airlines Additional Points Akron/Canton-Youngstown Proceeding; Order To Show Cause

AGENCY: Civil Aeronautics Board.

ACTION: Notice of Order to Show Cause (81-3-55).

SUMMARY: The Board is instituting the *Trans World Airlines Additional Points Akron/Canton-Youngstown Proceeding* and is proposing to grant unrestricted authority to Trans World at the points listed in Appendix B to Order 81-3-55 under expedited procedures of Subpart Q of its Procedural Regulations. The tentative findings and conclusions will become final if no objections are filed.

The complete text of this order is available as noted below.

DATES: Objections: All interested persons having objections to the Board issuing the proposed authority shall file, and serve upon all persons listed below, no later than April 15, 1981, a statement of objections, together with a summary of the testimony, statistical data, and other material expected to be relied upon to support the stated objections.

ADDRESS: Objections to the issuance of a final order should be filed in Docket 39114, which we have entitled the *Trans World Airlines Additional Points Akron/Canton-Youngstown Proceeding.* They should be addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428.

In addition copies of such filings should be served upon all parties listed in Appendix C to Order 81-3-55.

FOR FURTHER INFORMATION CONTACT: Mary Catherine Terry, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428 (202)673-5384.

BILLING CODE 6320-01-M

DEPARTMENT OF COMMERCE

International Trade Administration

Bicycle Tires and Tubes From Republic of Korea; Preliminary Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of Preliminary Results of Administrative Review of Countervailing Duty Order.

SUMMARY: This notice is to advise the public that the Department of Commerce has conducted an administrative review of the countervailing duty order on bicycle tires and tubes from Korea manufactured by Korea Inoue Kasei, Co. Ltd. The review is based upon information for the period January 1, 1979 through December 31, 1979. As a result of this review the Department has preliminarily determined the amount of net subsidy to be 0.83 percent of the f.o.b. invoice price of the merchandise. Interested parties are invited to comment on this decision.

EFFECTIVE DATE: March 17, 1981.

FOR FURTHER INFORMATION CONTACT: Joseph A. Black, Office of Compliance, Room 1126, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–1774).

SUPPLEMENTARY INFORMATION:

Procedural Background

On January 12, 1979 a notice of "Final Countervailing Duty Determination," T.D. 79–13, was published in the **Federal Register** (44 FR 2570). The notice stated that the Department of the Treasury ("Treasury") had determined that exports of bicycle tires and tubes from the Republic of Korea manufactured by Korea Inoue Kasei Co., Ltd. ("Inoue") benefitted from bounties or grants, within the meaning of section 303 of the Tariff Act of 1930 (19 U.S.C. 1303) ("the Act"). Accordingly, imports into the United States of this merchandise were subject to countervailing duties. As the result of an antidumping investigation liquidation was suspended by Treasury on September 18, 1978 on all shipments entered, or withdrawn from warehouse, for consumption on or after that date.

On January 1, 1980 the provisions of title I of the Trade Agreements Act of 1979 ("the TAA") became effective. On January 2, 1980 the authority for administering the countervailing duty law was transferred from Treasury to the Department of Commerce ("the Department"). The Department published in the **Federal Register** of May 13, 1980 (45 FR 31455) a notice of intent to conduct administrative reviews of all outstanding contervailing duty orders. As required by section 751 of the Act, the Department has conducted an administrative review of the order on bicycle tires and tubes from Korea manufactured by Inoue.

Scope of Review

Imports covered by this review are pneumatic bicycle tires and tubes, of rubber or plastic, whether such tires and tubes are sold together as units or separately, manufactured in Korea by Inoue. Bicycle tires and tubes are currently classifiable under item numbers 772.48 and 772.57 respectively, of the Tariff Schedules of the United States.

The review covers the period January 1, 1979 through December 31, 1979 and is limited to the countervailing programs cited in the final determination. Those programs were (1) the Foreign Capital Inducement Law ("FCIL"); (2) the accelerated depreciation provision of Article 51 of the Enforcement Decree to the Corporation Tax Law; and (3) short-term preferential financing. Treasury found that only Inoue received benefits whose aggregate *ad valorem* effect was greater than *de minimis*. Inoue received benefits under only two of the programs, FCIL and short-term preferential financing. The net amount of those benefits was determined to be 0.5 percent. The other Korean manufacturers/exporters investigated received aggregate *ad valorem* benefits of no greater than 0.34 percent which was held by Treasury to be *de minimis*.

Analysis of Programs

The benefit that we have preliminarily determined under the FCIL program is 0.63 percent *ad valorem*. This rate is the sum of two separate tax forgiveness provisions which eliminated Inoue's income tax and property tax liability. The amounts of benefit are 0.6 and 0.03 percent, respectively. We calculated the benefit from the nonpayment of income tax by multiplying Inoue's taxable income by the normal corporate income tax in Korea, which is 40 percent, and

dividing by total sales. Inoue claims that the proper rate of tax is 12 percent. The company claims that, since it is wholly owned by Japanese interests, it is eligible for this rate under a treaty between Japan and Korea designed to eliminate double taxation. To date Inoue has not supplied the Department with documentation that substantiates the claim for that rate or its relationship to the treaty.

The short-term preferential financing program provides short-term loans at preferential rates to manufacturers for the purpose of acquiring imported raw materials used in production for export. We have preliminarily determined that the rate under this program is 0.2 percent *ad valorem*.

We verified the information presented by Inoue through examination of Korean Government laws and documents; company books and records; and consultation with economic officials of the United States embassy in the Republic of Korea.

Preliminary Results of Review

As a result of our calculations, we preliminarily determine that the rate of net subsidy is 0.83 percent *ad valorem* of the f.o.b. invoice price.

The provisions of section 303(a)(5) of the Act, prior to the enactment of the TAA, apply to all entries prior to January 1, 1980. Pursuant to this section, T.D. 79–13 declared the net amount of bounty or grant (and thus the countervailing duties to be assessed) to be 0.5 percent *ad valorem*. Accordingly, unliquidated entries of bicycle tires and tubes manufactured by Inoue which were entered, or withdrawn from warehouse, for consumption prior to January 1, 1980 shall, when liquidated, be assessed countervailing duties in that amount. Such entries shall not be liquidated until the suspension of liquidation ordered on September 18, 1978 in the antidumping investigation of this product is terminated.

The provisions of section 751 of the Act apply to all entries made on or after January 1, 1980. As required by section 751 of the Act and section 355.38(c) of the Commerce Regulations, a cash deposit of estimated countervailing duties in the amount of 0.83 percent *ad valorem* shall be required on all shipments entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of the present administrative review. This requirement shall remain in effect until the publication of the final results of the next administrative review. The amount of countervailing duties to be imposed on entries made during 1980 will be determined in the next administrative review. Consequently, the suspension of liquidation previously ordered will continue for all shipments entered, or withdrawn from warehouse, for consumption on or after January 1, 1980.

Pending the publication of the final results of the present review a deposit of estimated countervailing duties of 0.5 percent of the f.o.b. invoice price shall continue to be required on each entry of the merchandise.

Interested parties may submit written comments on these preliminary results on or before April 16, 1981, and may request disclosure and/or a hearing on or before April 1, 1981. Any request for an administrative protective order must be made on or before March 23, 1981. The Department will publish the final results of the administrative review after analysis of issues raised in written comments or at a hearing.

This administrative review and notice publication are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and § 355.41 of the Commerce Regulations (19 C.F.R. 355.41).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 12, 1981.

BILLING CODE 3510-25-M

Roller Chain, Other Than Bicycle, From Japan; Preliminary Results of Administrative Review of Antidumping Finding

AGENCY: U.S. Department of Commerce, International Trade Administration.

ACTION: Notice of Preliminary Results of Administrative Review of Antidumping Finding.

SUMMARY: The Department of Commerce has conducted an administrative review of the antidumping finding on roller chain, other than bicycle, from Japan. The scope of the review covers 10 manufacturers and 95 other exporters of this merchandise to the United States. The majority of the analyses covers the period April 1, 1979 through March 31, 1980. This review indicates the existence of dumping margins in particular periods for certain manufacturers and exporters.

As a result of this review the Department has preliminarily determined to assess dumping duties for individual exporters equal to the calculated differences between United States price and foreign market value or constructed value on each of their shipments during the period of review.

Where company-supplied information was inadequate or no information was received, the Department has used the best information available. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: March 17, 1981.

FOR FURTHER INFORMATION CONTACT: William L. Matthews, or Alfredo Montemayor, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–2291).

SUPPLEMENTARY INFORMATION:

Procedural Background

On April 12, 1973, a dumping finding with respect to roller chain, other than bicycle, from Japan was published in the **Federal Register** as Treasury Decision 73–100 (38 FR 9226). On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 became effective. Title I replaced the provisions of the Antidumping Act of 1921 ("the 1921 Act") with a new title VII to the Tariff Act of 1930 ("the Tariff Act"). On January 2, 1980, the authority for administering the antidumping duty law was transferred from the Department of the Treasury to the Department of Commerce ("the Department"). The Department published in the **Federal Register** of March 28, 1980 (45 FR 20511–20512) a notice of intent to conduct administrative reviews of all outstanding dumping findings. As required by section 751 of the Tariff Act, the Department has conducted an administrative review of the finding on roller chain, other than bicycle, from Japan. The substantive provisions of the 1921 Act apply to all unliquidated entries made prior to January 1, 1980.

The Treasury Department published tentative revocations for Toyota Motor Sales Co., Ltd. on July 17, 1978 (43 FR 30635–36), Enuma Chain Manufacturing Co. on August 17, 1977 (42 FR 41517), Honda Motor Co., Ltd. on August 17, 1977 (42 FR 41517), and Daido Kogyo Co., Ltd. on October 4, 1977 (42 FR 54043). Our current analysis indicates that margins exist for Toyota Motor Sales Co., Ltd., Enuma Chain Manufacturing Co., and Daido Kogyo Co., Ltd. Therefore, revocations for these companies will not be considered by the Department at this time. Our review of Honda Motor Co., Ltd. indicates *de minimis* margins for the period October, 1978 through September, 1979. In a subsequent notice the Department will publish its proposed disposition of the revocation issue as it pertains to Honda Motor Co., Ltd.

Scope of the Review

Imports covered by this review are shipments of roller chain, other than bicycle, currently classifiable under various provisions of the Tariff Schedules of the United States Annotated (TSUSA), ranging from item numbers 652.1300 through 652.3800.

The Department knows of a total of 105 Japanese firms engaged in the manufacture and exportation of roller chain, other than bicycle, to the United States. For the majority of the firms this review covers the period April 1, 1979 through March 31, 1980. For firms with different accounting periods, we reviewed data from their most recent accounting cycle. The applicable periods are indicated for each firm under *Preliminary Results of the Review*.

We have a number of unanalyzed responses covering periods prior to April 1, 1979. These responses will be analyzed, and the results published, in subsequent administrative reviews.

The issue of the Department's obligation to conduct administrative review of entries, unliquidated as of January 1, 1980 and covered by previously issued appraisement instructions ("master lists"), is under review. Liquidation has been suspended pending disposition of the issue.

Forty-nine exporters stated that they did not export roller chain, other than bicycle, to the U.S. during the period April 1, 1979 through March 31, 1980. The estimated deposit rate for these firms shall be the most recent information for each firm. Ten exporters refused to respond to our questionnaire. For these non-responsive exporters we proceeded to use the best information available to determine the assessment and estimated deposit rates. The best information available is the highest current rate among all responding firms, which is 43.29 percent.

United States Price

In calculating United States price the Department used purchase price or exporter's sales price, as defined in section 772 of the Tariff Act or section 203 or 204 of the 1921 Act, as appropriate.

Purchase price was based either on the packed price to an unrelated purchaser in the United States, or to an unrelated Japanese trading company for export to the United States, as appropriate. Exporter's sales price was based on the packed price to the first unrelated purchaser in the United States. Where applicable, deductions were made for ocean freight, insurance, shipping charges, U.S. and foreign inland freight, currency exchange charges, brokerage charges, U.S. duty, loading charges, discounts, credit costs, commissions to unrelated parties, and selling expenses, in accordance with § 353.10 of the Commerce Regulations. No other adjustments were claimed or allowed.

Foreign Market Value

In calculating foreign market value the Department used home market price, the price to purchasers in third countries when sufficient sales did not exist in the home market, or constructed value when sufficient sales did not exist in the home market or to purchasers in third countries, all as defined in section 773 of the Tariff Act, or section 205 or 206 of the 1921 Act. The foreign market values were adjusted, where applicable, for inland freight, discounts, indirect selling expenses to offset U.S. commissions paid to unrelated parties, and direct selling expenses, in accordance with § 353.15 of the Commerce Regulations and § 153.10 of the Customs Regulations. Adjustments were also made for differences in credit costs, packing, warranties, technical assistance and levels of trade, in accordance with §§ 353.15 and 353.19 of the Commerce Regulations and §§ 153.10 and 153.15 of the Customs Regulations, where applicable. Claims for ESP offsets and level of trade adjustments were disallowed when they were not properly quantified. No other adjustments were claimed or allowed.

Where sales in the home market or to purchasers in third countries were made over an extended period of time in substantial quantities, and at prices which did not permit recovery of all costs within a reasonable period of time, the Department excluded these sales from the analysis. If the remaining sales in the home market or to purchasers in third countries were not sufficient, the Department used constructed value, as defined in section 773 of the Tariff Act or section 206 of the 1921 Act, as appropriate.

Preliminary Results of the Review

As a result of our comparison of United States price to foreign market value or, as appropriate, our comparison of purchase price or exporter's sales price to foreign market value or constructed value, we preliminarily determine that the following margins exist:

Manufacturer/exporter	Time period	Margin (percent)
A & K Company [1]	4/1/79-3/31/80	1.84
Aga Kiiki Books [1]	4/1/79-3/31/80	1.84

[1] No shipments during period.

Preliminary results of the administrative review of IBM Japan indicate that merchandise exported by this company is not subject to the finding. This matter will be addressed in a subsequent notice. The response received from Mitsubishi Motors Corporation did not afford the Department adequate time to properly analyze the data. The analysis of that data will be included in the next administrative review.

Interested parties may submit written comments on these preliminary results on or before April 16, 1981, and may request disclosure and/or a hearing on or before April 1, 1981. The Department will publish the final results of the administrative review including the results of its analysis of any such comments or hearing.

The Department shall determine, and the U.S. Customs Service shall assess, dumping duties on all entries made with purchase dates or export dates, as appropriate, during the time periods involved. Individual differences between United States price and foreign market value or, where appropriate, purchase price or exporter's sales price and foreign market value and constructed value, may vary from the percentages stated above. The Department will issue appraisement instructions separately on each exporter directly to the Customs Service.

Further, as required by § 353.48(b) of the Commerce Regulations, a cash deposit based upon the most recent of the margins calculated above shall be required on all shipments of roller chain, other than bicycle, entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results. Because the weighted-average margins for Honda and Sugiyama/HHK America are *de minimis*, the Department shall not require cash deposits on their shipments. This requirement, and the waiver for Honda and Sugiyama/HHK America, shall remain in effect until publication of the final results of the next administrative review.

This administrative review and notice are in accordance with § 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53).

March 12, 1981.

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-25-M

Electronic Instrumentation Technical Advisory Committee; Partially Closed Meeting

AGENCY: International Trade Administration

SUMMARY: The Electronic Instrumentation Technical Advisory Committee was initially established on October 23, 1973, and rechartered on August 29, 1980 in accordance with the Export Administration Act of 1979 and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical specifications and policy issues relating to those specifications which are of concern to the Department, (B) worldwide availability of products and systems, including quantity and quality, and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to electronic instrumentation, or technology, and (D) exports of the aforementioned commodities subject to unilateral and multilateral controls which the United States establishes or in which it participates including proposed revisions of any such controls.

TIME AND PLACE: April 7, 1981, at 9:30 a.m. The meeting will take place at the Main Commerce Building, Room 5611, 14th Street and Constitution Ave., N.W., Washington, D.C.

AGENDA

General Session

(1) Opening remarks by the Chairman.

(2) Presentation of papers or comments by the public.

(3) Planning for the 1982 International List Review.

(4) Discussion on use of a standardized Department of Commerce specification sheet.

(5) Incorporation of Advisory Notes into the Commodity Control List.

(6) Discussion of revisions to oscilloscope controls.

(7) Discussion on U.S. unilateral controlled items.

(8) New Business.

Executive Session

(9) Discussion of matters properly classified under Executive Order 12065, dealing with the U.S. and COCOM control program and stategic criteria related thereto.

PUBLIC PARTICIPATION: The General Session of the meeting will be open to the public and a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 16, 1980, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Govenment In The Sunshine Act, Pub.L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1) and are properly classified under Executive Order 12065.

A copy of the Notice of Determination to close meetings or portions thereof is available for public inspection and copying in the Central Reference and Records Inspection Facility, Room 5317, U.S. Department of Commerce, telephone: 202-377-4217.

FOR FURTHER INFORMATION OR COPIES OF THE MINUTES CONTACT: Mrs. Margaret Cornejo, Office of the Director of Licensing, Office of Export Administration, Room 1609, U.S. Department of Commerce, Washington, D.C. 20230, Telephone: 202-377-2583.

Dated: March 10, 1981.

Saul Padwo,

Director of Licensing.

BILLING CODE 3510-25-M

Minority Business Development Agency

Financial Assistance Application Announcement

The Minority Business Development Agency is seeking applications under its program to operate one Regional Construction Services Project for a

twelve month period beginning July 1, 1981. The total cost of the project will not exceed $367,000.

Funding Instrument: It is anticipated that the funding instrument, as defined by the Federal Grant and Cooperative Agreement Act of 1977, will be a grant.

Program Description: The Regional Construction Services Program of the Minority Business Development Agency (MBDA) provides management consulting services to minority construction businesses for the purpose of improving the operation of existing businesses or to increase the chances for success of proposed prime and/or subcontracting ventures. MBDA offers competitive grants to consulting firms (either "not for profit" or commercial entities). These firms must be capable of providing such services as:

—location and evaluation of local minority contractors
—direct services to minority construction contractors, i.e., assistance in preparation of cost, schedule and contingency analysis for bid proposals, job planning, management, and information services regarding new construction projects, zoning, land use regulations, etc.
—development of union agreements
—management and technical assistance, i.e., preparation of business plans, financial management, marketing, personnel management
—other construction services, excluding legal services.

Applications are invited for the following project: One grant for a Regional Construction Services Project to operate in Atlanta, Georgia; Memphis, Tennessee; Birmingham, Alabama; Durham, North Carolina; and Tampa and Jacksonville, Florida. Assistance will also be given to the Miami, Florida area on an as-needed basis. The project will operate at a cost not to exceed $367,000, and the Project No. is 04-10-80009-01.

Eligibility Requirements: There are no restrictions. Any profit or non-profit institution is eligible to submit an application.

Pre-Application Conference: A Pre-Application Conference for this project will be held on April 2, 1981 at 1:30 p.m. at the following address: U.S. Department of Commerce, Minority Business Development Agency, 1371 Peachtree Street, NE, Suite 505, Atlanta, Georgia 30309.

Application Materials: An application kit for this project may be rquested by writing the following address: U.S. Department of Commerce, Minority Business Development Agency, 1365 Peachtree Street, NE, Room 225, Atlanta, Georgia 30309.

In requesting an application kit, the applicant must specify its profit status; i.e., State or Local Government, federally recognized Indian tribal units, educational institutions, hospitals, or other type of profit or non-profit institution. This information is necessary to enable MBDA to include the appropriate cost principles in the application kit.

Award Process: All applications that are submitted in accordance with the instructions in the application kit will be submitted to a panel for review and ranking. Specific criteria by which applications will be evaluated is included in the application kit.

Closing Date: Applicants are encouraged to obtain an application kit as soon as possible in order to allow sufficient time to prepare and submit an application before the closing date of April 17, 1981. Applications should be submitted with an original and two copies.

11.800 Minority Business Development (Catalog of Federal Domestic Assistance) (This program is not subject to the requirements of OMB Circular A-95)

Dated: March 9, 1981.

Gordon M. Anderson,

Grant Specialist.

BILLING CODE 3510-21-M

National Oceanic and Atmospheric Administration

Marine Mammals; Issuance of Permit

On January 13, 1981, Notice was published in the Federal Register (46 FR 3040), that an application had been filed with the National Marine Fisheries Service by Gebruder Knie, Knie's Kinderzoo, 8640 Rapperswil, Switzerland for a permit to take one (1) Atlantic bottlenose dolphin (*Tursiops truncatus*) for the purpose of public display.

Notice is hereby given that on March 12, 1981, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Public Display Permit for the above taking to Gebruder Knie subject to certain conditions set forth therein.

The Permit and related documents are available for review in the following officies:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Koger Boulevard, St. Petersburg, Florida 33702.

Dated: March 12, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Marine Mammals; Issuance of Permit

On November 18, 1980, Notice was published in the Federal Register (45 FR 76217), that an application had been filed with the National Marine Fisheries Service by Marine World Africa USA, Marine World Parkway, Redwood City, California 94065, for a permit to import two (2) killer whales (*Orcinus orca*) for the purpose of public display.

Notice is hereby given that on March 11, 1981, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Public Display Permit for the importing of one (1) killer whale to Marine World Africa USA subject to certain conditions set forth therein. A decision on whether to issue a permit for the importing of the second killer whale has been deferred until further information can be obtained and evaluated.

The Permit and documentation relating to the Permit are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C.; and

Regional Director, Soutwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, California 90731.

Dated: March 11, 1981.

William H. Stevenson,

Deputy Assistant Administrator for Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-M

South Atlantic Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA.

SUMMARY: The South Atlantic Fishery Management Council, established by Section 302 of the Magnuson Fishery Conservation and Management Act (Public Law 94–265), will meet to review the Snapper-Grouper Complex and Calico Scallop Fishery Management Plan (FMP); discuss the Swordfish FMP; review the Secretary's comments on the Coastal Migratory Pelagics FMP; discuss the relationship of the Council's Scientific and Statistical Committee to the Council, as well as other appropriate and necessary fishery management business.

DATES: These public meetings will convene on Tuesday, April 7, 1981, at approximately 1:30 p.m., and will adjourn on Wednesday, April 8, 1981, at approximately 4 p.m.

ADDRESS: The meetings will take place at the Council's Headquarters Office, One Southpark Circle, Suite 306, Charleston, South Carolina.

FOR FURTHER INFORMATION CONTACT:
South Atlantic Fishery Management Council, One Southpark Circle, Suite 306, Charleston, South Carolina 29407, Telephone: (803) 571–4366.

Dated: March 12, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Change of Dates for Review of Feasibility of Government Versus Contract Operation of Central Distribution of Publications, Rockville, Md.

AGENCY: National Oceanic and Atmospheric Administration.

ACTION: Notice of Change of Dates for Review Under Office of Management and Budget Circular A–76.

SUMMARY: NOAA is hereby notifying intrested parties of its intent to change the review period for the feasibility study of central distribution of publications from 10/01/80–10/01/81 to 03/01/81–03/01/82. Reference Notice of intent published August 7, 1980, in Federal Register Volume 45, Number 154, page 52438.

SUPPLEMENTARY INFORMATION: A contract may or may not result from this review/study. Results of the study will be made available to interested parties.

FOR FURTHER INFORMATION CONTACT:
Samuel A. Lawrence, Assistant Administrator for Management and Budget, 6010 Executive Blvd., Rockville, Md., 20852, (301) 443–6134.

Dated: March 9, 1981.

Francis J. Balint,

Acting Director, Office of Management and Computer Systems.

BILLING CODE 3510-12-M

Office of the Secretary

Request From the Department of Housing and Urban Development for a National Voluntary Laboratory Accreditation Program for Solid Fuel Room Heaters

In accordance with the procedures of the National Voluntary Laboratory Accreditation Program (NVLAP); (15 CFR 7b.4c), the Department of Commerce (DOC) publishes as part of this notice a request from the Department of Housing and Urban Development (HUD) dated December 4, 1980 to develop a program to accredit laboratories which test solid fuel room heaters in accordance with Underwriters Laboratories (UL) standards UL 737 and UL 1482.

After receiving the request, DOC asked HUD to provide additional information as required by the NVLAP Part b procedures. That information has now been received and it is now appropriate to announce the HUD request.

The request is to develop a NVLAP program for solid fuel burning devices using the following two UL standards as a basis for the program:

UL 737 on Fireplace Stoves
UL 1482 on Room Heaters, Solid Fuel Type with Coal Amendments

The specific test methods contained in the standards to be included in the program are for the following elements:

Fire temperature
Toxic gas
Brand fire
Strength
Glazing
Water shock
Dielectric withstand
Motor protection
Grounding continuity
Voltage
Overcurrent
Smoke spillage
Radiant fire
Flash fire
Stability
Impact
Leakage current
Cord strain relief
Locked motor temperature
Temperature electrical
Spacings
Enclosure

This program is needed because of the rapid increase in the use of solid fuel devices during the past few years, the proliferation of types of devices available, and the hazard associated with stoves improperly designed and constructed. The 1981 Minimum Property Standards (MPS) authorized under 24 CFR 200.927 Subpart S, permits the use of self-contained warm air heating units in housing build under HUD mortgage insurance and low-rent public housing programs. HUD Notice H 80–17 clarifies this section by requiring that HUD identify testing agencies capable of performing tests in accordance with the referenced UL standards. HUD has elected to request a NVLAP program to fulfull this requirement.

Any comments as to the need for this program should be made within 60 days directly to HUD, Mr. Leslie Breden, Department of Housing and Urban Development, Washington, D.C. 20410 (202–755–5929). A copy of such comments should be sent to Mr. John W. Locke, Coordinator, NVLAP, Room 3876, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–2054). Additional inquiries related to NVLAP can also be directed to Mr. Locke.

Dated: March 11, 1981.

Robert B. Ellert,

Acting Assistant Secretary for Productivity, Innovation and Technology.

December 4, 1980.

Mr. Jordan J. Baruch, Assistant Secretary ofr Science and Technology, Department of Commerce, Washington, D.C. 20230.

Dear Mr. Baruch: The Department of Housing and Urban Develipment requests, in accordance with Section 7(b)(4) of Title 15 of the Code of Federal Regulation, that the Department of Commerce (DOC) and Department of Housing and Urban Development (HUD) work together to establish a laboratory accreditation program for solid fuel room heaters in accordance with Underwriters Standards UL 737 Fireplace Stoves and UL 1482 Room Heaters, Solid Fuel Type With coal Amendments.

We recommend that general and specific criteria, as published in the **Federal Register** announcement of January 23, 1980 (45 Fr 5572–5600), to be used in accrediting testing laboratories for solid fuel room heaters and fireplace stoves. We reserve the right to review and determine the acceptability of the finalized criteira prior to publication in the **Federal Register.**

If there are any further questions, please feel free to call Mr. Leslie Breden of my staff at 755–5929.

Sincerely,

Lawrence B. Simons,

Assistant Secretary.

BILLING CODE 3510–13–M

DEPARTMENT OF DEFENSE

Privacy Act of 1974; Amendment of a Notice for a System of Records

AGENCY: Office of the Secretary of Defense (OSD).

ACTION: Amendment of a notice for a system of records.

SUMMARY: The Office of the Secretary of Defense (OSD) is amending the systems notice for record system DMRA&L 09.0, entitled: Defense Race Relations Institute (DRRI) Student File. This action is being taken because of an organizational name change. The system notice as amended is set forth in its entirety below..

DATE: This change shall be effective April 16, 1981.

ADDRESSES: Send any comments to the Systems Manager identified in the systems notice.

FOR FURTHER INFORMATION CONTACT: Norma Cook, Privacy Act Officer, ODASD(A), Room 5C–315, Pentagon, Washington, D.C. 20301. Telephone: (202) 695–0970.

SUPPLEMENTARY INFORMATION: The Office of the Secretary of Defense (OSD) systems notice for records systems subject to the Privacy Act of 1974 (5 U.S.C. 552a) Public Law 93–579 were published in the **Federal Register** at FR Doc. 81–897 (46 FR 0427) January 21, 1951.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

March 11, 1981.

Amendments

DMRAAL 09.0

System name:

Defense Race Relations Institute (DDRI) Student File (46 FR 0427, January 21, 1981).

DMRA&L 09.0

SYSTEM NAME:

Defense Equal Opportunity Management Institute.

SYSTEM LOCATION:

Primary Location—Bldg. 559(MU811) Patrick AFB, Fla. 32925.

Hard copy backup file for students in active status, and for former students, the location is Deputy Director for Special Programs, Defense Equal Opportunity Management Institute, Patrick AFB, Fla. 32925.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All current or former students at the Defense Equal Opportunity Management Institute.

CATEGORIES OF RECORDS IN THE SYSTEM:

Life history summary, name, race, age, military organization, test and examination scores and forms, peer group and instructor ratings, advisor progress reports.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 136.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose of the file is to evaluate the progress of students enrolled at the Defense Equal Opportunity Management Institute and to create a permanent record of academic accomplishment.

Internal users, uses, and purposes:

The Defense Equal Opportunity Management Institute—Used by advisors in counseling students, to verify attendance and grades to colleges and universities; to select instructors; to make decisions to release students from the program.

Used by students to evaluate their programs.

Any individual records in the system may be transferred to any component of the Department of Defense having the need to know in the performance of official business.

External users, uses, and purposes:

Records may be disclosed to law enforcement or investigatory authorities for investigation and possible criminal prosecution, civil court action, or regulatory order.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Primary file is magnetic computer tape. Backup files are paper records in file folders.

RETRIEVABILITY:

Filed are sequenced alphabetically by last name by class.

SAFEGUARDS:

Primary location is a controlled access area. Backup files—storage is in

locked file cabinets. Only authorized personnel have access to files.

RETENTION AND DISPOSAL:

Permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Defense Equal Opportunity Management Institute, Patrick AFB, Fla. 32925.

NOTIFICATION PROCEDURE:

Information may be obtained from: Director, Defense Equal Opportunity Management Institute, Patrick AFB, Fla. 32925, Telephone: 305-494-6976.

RECORD ACCESS PROCEDURES:

Request from individuals should be addressed to the Director, Defense Equal Opportunity Management Institute, Patrick AFB, Fla. 32925.

Written requests for information should contain the full name, current address and telephone number, and class of the individual.

For personal visits, the individual should be able to provide some acceptable identification, such as military ID cards or driver's license.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR 286b and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Information is provided by the individual, student peers, instructors, counselors, and examinations.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 3810-70-M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

[ERA Case No. 51998-2322-07-22]

Nevada Power Co.; Powerplant and Industrial Fuel Use, Prohibition Orders

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Decision and Order Granting Exemption from the Prohibitions of the Powerplant and Industrial Fuel Use Act of 1978.

SUMMARY: On March 27, 1980, Nevada Power Company (Nevada Power) filed a petition with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) seeking a permanent exemption for a new powerplant from the prohibitions of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.* (FUA or the Act), which prohibits the use of petroleum or natural gas as a primary energy source by new powerplants and the construction of new powerplants without the capability to use an alternate fuel as a primary energy source. Criteria for petitioning for exemptions from the prohibitions of FUA are published at 10 CFR Parts 501 and 503 (45 FR 38276, June 6, 1980).

Nevada Power requested a permanent peakload powerplant exemption in order to use oil/natural gas as a primary energy source in an 86,506 KW oil/natural gas-fired combustion turbine to be known as Clark Unit No. 7 (Clark 7) at its Clark Station site in Clark County, Nevada.

Pursuant to section 214(a) of the Act, and subject to specified terms and conditions, ERA hereby issues this order granting a permanent peakload powerplant exemption to Nevada Power.

FOR FURTHER INFORMATION CONTACT:

Jack C. Vandenberg, Office of Public Information, Economic Regulatory Administration, Department of Energy, 2000 M Street NW., Room B-110, Washington, D.C. 20461, Phone (202) 653-4055

Louis T. Kresanosky, Office of Fuels Conversion, Economic Regulatory Administration, Department of Energy, 2000 M Street NW., Room 3012 B, Washington, D.C. 20461, Phone (202) 653-4208

Marilyn Ross, Office of General Counsel, Department of Energy, 1000 Independence Ave. SW., Room 6B-178, Washington, D.C. 20585, Phone (202) 252-2967

SUPPLEMENTARY INFORMATION: On March 27, 1980, Nevada Power filed a petition with ERA for a permanent peakload powerplant exemption in order to use oil/natural gas as a primary energy source in an 86,506 KW oil/natural gas-fired combustion turbine powerplant, Clark 7, at its Clark Station site in Clark County, Nevada. Additional information was required by ERA which was subsequently submitted by Nevada Power on May 12, 1980 and August 4, 1980. ERA accepted the petition on October 14, 1980, and published notice of acceptance, together with a statement of the reasons set forth in the petition for requesting the exemption, in the Federal Register on October 21, 1980 (45 FR 69944). Publication of the Notice of Acceptance commenced a 45-day public comment period, ending on December 5, 1980, pursuant to section 701 of FUA. During this period, interested parties were also afforded an opportunity to request a public hearing. No comments were submitted. No hearing was requested.

Nevada Power submitted a sworn statement with the petition signed by Mr. J. H. Zornes, Vice President, Generation, of Nevada Power as required by 10 CFR 503.41(b)(1). In his statement, Mr. Zornes certified that Clark 7 will be operated solely as a peakload powerplant and will be operated only to meet peakload demand for the life of the plant. He also certified that the maximum design capacity of the unit is 86,506 KW and that the maximum generation that the unit will be allowed during any 12-month period is the design capacity times 1,500 hours or 129,849,000 Kwh.

ERA's staff reviewed the information contained in the record of the proceeding. A Tentative Staff Analysis (TSA) recommended that ERA issue an order granting Nevada Power a permanent peakload powerplant exemption to use oil/natural gas in Clark 7 subject to certain terms and conditions. A Notice of Availability of the TSA was published in the Federal Register on January 23, 1981 (46 FR 7430). The publication of this notice opened a 14-day public comment period which ended February 6, 1981. Comments were received from the Environmental Protection Agency (EPA), Region IX, stating that Nevada Power had demonstrated to EPA that the proposed powerplant meets all applicable requirements of the Clean Air Act, as amended, (42 U.S.C. 7401 *et seq.*). No hearing was requested.

On August 11, 1980, DOE published in the Federal Register (45 FR 53199) a notice of proposed amendments to the guidelines for compliance with the National Environmental Policy Act of 1969 (NEPA). Pursuant to the guidelines, the granting or denial of certain FUA permanent exemptions, including the permanent exemption by certification for a peakload powerplant, was identified as an action which normally does not require an Environmental Impact Statement or an Environmental Assessment pursuant to NEPA (categorical exclusion).

This classification raises a rebuttable presumption that the granting or denial of the exemption will not significantly affect the quality of the human environment. Nevada Power has certified that it will secure all applicable permits and approvals prior to commencement of operation of the new unit under the exemption. The Environmental Checklist completed and

certified to by Nevada Power pursuant to 10 CFR 503.15(b) has been reviewed by DOE's Office of Environment, in consultation with the Office of the General Counsel. DOE has determined that Nevada Power's responses to the questions therein indicate that the operation of the peakload powerplant will have no impact on those areas regulated by specified laws that impose consultation requirements on DOE, and otherwise affirms the applicability of the categorical exclusion to this FUA action. Therefore, no additional environmental review is deemed to be required.

Order

ERA hereby grants to Nevada Power a permanent exemption from the prohibitions of FUA with respect to the use of oil/natural gas in Clark 7 provided that the powerplant is operated solely as a peakload powerplant and to meet peakload demand, subject to the following terms and conditions imposed pursuant to the authority granted to ERA by section 214(a) of the Act:

Terms and Conditions

A. Nevada Power shall not produce more than 129,849,000 KWH during any 12-month period with the proposed unit. Nevada Power shall provide annual estimates of the expected periods (hours during specific months) of operation of Clark 7 for peakload purposes (e.g. 8:00–10:00 a.m. and 3:00–6:00 p.m. during the June–September period, etc.). Estimates of the hours during which Nevada Power expects to operate Clark 7 during the first 12-month period shall be furnished within 30 days from the date of this order.

B. Nevada Power shall comply with the reporting requirements set forth in 10 CFR 503.41(d).

C. The quality of any petroleum to be burned in this unit will be the lowest grade available which is technically feasible and capable of being burned consistent with applicable environmental requirements.

D. This order shall not take effect earlier than the 60th calendar day after is is published in the **Federal Register**.

Issued in Washington, D.C. on March 11, 1981.

Robert L. Davies,

Assistant Administrator, Office of Fuels Conversion, Economic Regulatory Administration.

[FR Doc. 81-8198 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-01-M

Mapco Inc.; Final Action on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of final action taken.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces final action concerning a Consent Order after consideration of comments received from the public.

EFFECTIVE DATE: February 5, 1981.

FOR FURTHER INFORMATION CONTACT: Alan L. Wehmeyer, Office of Enforcement, Economic Regulatory Administration, Department of Energy, 324 East 11th Street, Kansas City, Missouri 64106.

SUPPLEMENTARY INFORMATION: On December 30, 1980, the Office of Enforcement of the ERA published Notice of a Consent Order which had been executed between Mapco Inc. ("Mapco") and DOE. With that Notice, and in accordance with 10 CFR 205.199J(c), the Office of Enforcement invited interested persons to comment on the Consent Order. A press release was issued simultaneously, in conformity with 10 CFR 205.199J(c). Under the terms of 10 CFR 205.199J(c), no Consent Order involving sums in excess of $500,000 shall become effective until the DOE publishes Notice of its execution and solicits and considers public comments with respect to its terms. Pursuant to 10 CFR 205.199J, the Office of Enforcement of the ERA hereby gives Notice of final action taken on the Consent Order.

I. Comments Received

The Office of Enforcement received a comment from only one firm with respect to the price rollback provisions of the Consent Order. That comment suggested that the permissible range of price reductions of from one to eight cents per gallon of propane under the Consent Order may be disruptive to the propane market. The comment further suggested that the amount of price rollback be limited to two cents per gallon, over a period of an estimated six years.

Pursuant to 10 CFR 205.199I, the Office of Enforcement has broad discretion in fashioning appropriate remedies. While it is mindful of the public interest in minimizing distortion of the market place, the Office of Enforcement also recognizes the public interest in effecting restitution promptly. The Office of Enforcement believes that the Consent Order provides Mapco sufficient flexibility to adjust its amount of price rollback to minimize distortion of the market, and that it is in Mapco's financial interest to do so.

Moreover, since the execution of the Consent Order, sales of propane have been exempted from the operation of price controls and the mandatory allocation program. With the elimination of such constraining devices as the limited "equal application rule," Mapco's competitors will have full flexibility in responding to Mapco's price reductions, as they would ordinarily respond in free market conditions.

Therefore, the Office of Enforcement does not agree that the amount of price reduction will significantly distort the market, or that extension of the price rollback period would be appropriate in the face of the industry's recent return to free market conditions.

The Office of Enforcement also received one comment with respect to its distribution of the cash payments which Mapco will make pursuant to the Consent Order. According to that comment, the only proper distribution would be to pay the money to the customers allegedly overcharged by Mapco.

The Consent Order does not preclude such a distribution, and the comment is therefore directed to the manner in which the money is ultimately disbursed rather than to the terms of the Consent Order itself. Thus the comment does not suggest that the terms of the Consent Order are inappropriate.

II. Determination

After due consideration of the comment received, the Office of Enforcement of the ERA has determined that the refund procedures as provided in the Consent Order are appropriate under the circumstances of this case.

The Office of Enforcement has concluded that the Consent Order as executed between DOE and Mapco Inc. is an appropriate resolution of the compliance proceedings described in the Notice published on December 30, 1980, and hereby gives Notice that the Consent Order is made effective by written notice issued to Mapco Inc. on February 5, 1981.

Issued in Washington, DC, on this 11th day of March, 1981.

Robert D. Gerring,

Director, Program Operations Division, Economic Regulatory Administration.

Concurrence:

Denise Bonn,

Office of General Counsel.

BILLING CODE 6450-01-M

[ERA Docket Nos. 81-17-NG, 81-18-NG, 81-19-NG, 81-20-NG, 81-21-NG]

Tennessee Gas Pipeline Company, a Division of Tenneco Inc., et al.; Applications To Amend Natural Gas Import Authorizations To Permit Purchase Price Increase

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of Applications to Amend Natural Gas Import Authorizations to Permit Purchase Price Increase.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) gives notice of receipt of applications by Tennessee Gas Pipeline Company (Tennessee), Michigan Wisconsin Pipe Line Company (Michigan Wisconsin), Northern Natural Gas Company (Northern), Vermont Gas Systems, Inc. (Vermont Gas), and the Montana Power Company (Montana Power) to amend their current natural gas import authorizations in order to permit the purchase of natural gas imported from Canada into the United States at a price of U.S. $4.94 per MMBtu effective April 1, 1981. Currently, these companies are authorized to purchase natural gas from Canada at a price of U.S. $4.47 per MMBtu.

The applications are filed with ERA pursuant to section 3 of the Natural Gas Act and DOE Delegation Order No. 0204–54. Protests or petitions to intervene are invited.

DATES: Protests or petitions to intervene are to be filed no later than 4:30 p.m. on March 24, 1981.

FOR FURTHER INFORMATION CONTACT:

Stephen J. Gary (Division of Natural Gas), Economic Regulatory Administration, 2000 M Street, N.W., Room 7108, RG–55, Washington, D.C. 20461 (202) 653–3286

Patricia J. Neel (Office of the General Counsel, Natural Gas and Mineral Leasing), 1000 Independence Ave., S.W., Forrestal Bldg., Room 5E–074, Washington, D.C. 20585 (202) 252–2900

SUPPLEMENTARY INFORMATION: By DOE/ERA Opinion and Order No. 17, issued on July 7, 1981, in ERA Docket No. 79–08–NG, Tennessee was conditionally authorized jointly with Transcontinental Gas Pipe Line Corporation (Transco) to import up to 75,000 Mcf of natural gas per day and up to 22 Bcf of natural gas per year from Sulpetro Limited through March 31, 1982. This imported volume is divided equally between Tennessee and Transco.

Michigan Wisconsin is currently authorized to import 50,000 Mcf of natural gas per day from TransCanada Pipe Lines Limited (TransCanada). In addition, Michigan Wisconsin purchases 271,000 Mcf per day of Canadian natural gas from Midwestern Gas Transmission Company and 13,000 Mcf per day from Great Lakes Gas Transmission Company.

By DOE/ERA Opinion and Order No. 19, issued on August 29, 1980, in ERA Docket No. 79–24–NG, Northern was authorized to purchase up to 200,000 Mcf of natural gas per day and up to 73 Bcf of natural gas per year from Consolidated Natural Gas Limited. By contract amendment dated October 29, 1980, however, the maximum volume of 200,000 Mcf of natural gas per day was reduced to 60,000 Mcf per day during the first contract year, which began on November 1, 1980.

Vermont Gas is currently authorized to import 20,700 Mcf of natural gas per day from TransCanada. This is the only source of natural gas supply for Vermont gas. All of this natural gas imported by Vermont Gas is consumed within the State of Vermont.

Montana Power is currently authorized to import natural gas from Canada by an order of the Federal Power Commission (FPC), issued on March 21, 1975, in Docket No. CP74–187, as amended by ERA in ERA Docket No. 79–27–NG on November 2, 1979. Montana Power Provides natural gas service within the State of Montana.

In DOE/ERA Opinion and Order No. 14B, issued on May 15, 1980, in ERA Docket Nos. 80–01–NG, *et al.*, Inter-City Minnesota Pipelines Ltd., Inc., *et al.*, and in subsequent orders in other dockets, ERA authorized the import of natural gas from Canada at a border price of U.S. $4.47 per MMBtu. On January 15, 1981, the Government of Canada announced a new border price of U.S. $4.94 per MMBtu for natural gas exported to the United States, effective April 1, 1981.

On February 26, 1981, Tennessee filed an application for authorization to pay the new border price for Canadian natural gas. Tennessee states that the need for this gas supply, as determined by ERA in DOE/ERA Opinion and Order No. 17 continues to exist. Accordingly, Tennessee submits that importation at the new price of U.S. $4.94 per MMBtu is not inconsistent with the public interest and should, therefore, be approved.

Michigan Wisconsin also filed an application on February 26, 1981, to amend its authorization to allow the importation of Canadian gas at the new price. The application states that this imported supply of natural gas is an important source for Michigan Wisconsin and, on an annual basis, represents 15 percent of Michigan Wisconsin's total supply. Michigan Wisconsin states that unless its application is granted, it will be faced with termination of that supply.

On Febraury 27, 1981, Northern filed its application for authorization to pay the new price for its Canadian supply of gas. In DOE/ERA Opinion and Order No. 19, ERA found that this supplemental supply was needed in order to avoid winter shortages on the system. Northern claims such need still exists and, therefore, approval of its application is not inconsistent with the public interest.

On March 5, 1981, Vermont Gas filed its application for authorization to pay the new price for its Canadian supply of gas. Vermont Gas has no domestic source of natural gas and, therefore, is totally dependent on this imported supply. Vermont Gas claims that alternate fuels and other forms of energy are currently more expensive than natural gas imported from Canada and, therefore, granting this application would be in the public interest.

On March 10, 1981, Montana Power filed its application for authorization to pay the new price for its Canadian supply of gas. Montana Power imports about 65 percent of the total natural gas supply required by its customers. Montana Power states that its ability to avoid curtailment of service depends on the continued importation of natural gas and, therefore, authorization should be granted.

ERA anticipates that it will consolidate for decision all applications to amend the price paid for currently authorized imports of Canadian gas. However, persons with a specific interest in the proceedings noticed herein should intervene in these dockets without prejudice to filing comments in other related dockets. In order to provide sufficient time for ERA to consider these applications prior to the effective date of the price increase, we are limiting the intervention period to seven days.

Other Information

The ERA invites protests or petitions for intervention in the applications noticed herein, or in anticipation of a consolidated proceeding to consider all Canadian price increase requests by companies currently authorized to import natural gas from Canada.

Such protests or petitons are to be filed with the Economic Regulatory Administration, Division of Natural Gas Docket Room, Room 7108, RG–55, 2000 M Street, N.W., Washington, D.C. 20461, in accordance with the requirements of

the applicable rules of practice and procedure (18 CFR 1.8 and 1.10). Protests or petitions for intervention will be accepted for consideration if filed no later than 4:30 p.m., on March 24, 1981.

Any person wishing to become a party to the proceedings or to participate as a party in any hearing therein must file a petition to intervene. Protests filed with ERA will be considered in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings.

A hearing will not be held unless a motion for a hearing is made by any party and is granted by ERA, or if the ERA on its own motion believes that a hearing is required. A party filing a motion for hearing must demonstrate how a hearing will advance the proceedings. If a hearing is ordered, due notice will be given to the parties.

A copy of the application notice herein is available for public inspection and copying in the Division of Natural Gas Docket Room, Room 7108, 2000 M Street, N.W., Washington, D.C. 20461, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., on March 11, 1981.

F. Scott Bush,

Assistant Administrator, Office of Regulatory Policy, Economic Regulatory Administration.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Project No. 3405-001]

Blachy-Lane Cooperative Electric Association; Application for Preliminary Permit

March 12, 1981.

Take notice that Blachy-Lane Cooperative Electric Association (Applicant) filed on December 8, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)—825(r)] for proposed Project No. 3405 to be known as Lake Creek Power Project located on Lake Creek in Lane County, Oregon. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Dale C. Swancutt, Blachy-Lane Cooperative Electric Association, 90680 Highway 99, Eugene, Oregon 97402. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 10-foot high, 150-foot long concrete gravity overflow dam; (2) a reservoir with a surface area of less than an acre; (3) a 5,000-foot long, 6-foot diameter penstock; (4) a power plant containing a 5,000 kW generating unit; and (5) a transmission line. The Applicant estimates that the average annual energy output would be 17 million kWh.

Purpose of Project—The power generated by the proposed project would be sold to a local utility.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks issuance of a preliminary permit for a period of 36 months, during which it would: make subsurface investigations, hydrologic studies, and a topographic survey; assess environmental impacts; consult with necessary agencies; and examine legal and financial factors. The cost of these studies is estimated by the Applicant to be $80,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 13, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 13, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's rules. Any comments, protest, or petition to intervene must be received on or before May 13, 1981.

Filing and Service of Responsive documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of applidcation for preliminary permit for Project No. 3405. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8132 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4105-000]

City of Farmington; Application for Preliminary Permit

March 12, 1981.

Take notice that the City of Farmington (Applicant) filed on February 3, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4105 to be known as Cochiti Dam Project located on the Rio Grande River in Sandoval County New Mexico. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mayor Robert S. Culpepper, City of Farmington, Post Office Box 900, Farmington, New Mexico 87401. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing U.S. Army Corps of Engineers' Cochiti Dam and Reservoir and would consist of: (1) a new trashrack; (2) a new shutoff valve; (3) two new steel penstocks; (4) a powerhouse, with a generating capacity of 13,700 kW, located adjacent to the existing stilling basin; (5) new transmission lines; (6) a new switchyard; and (7) other appurtenant works. Applicant estimates the annual energy output would be 60,200,000 kWh.

Purpose of Project—Project energy would be utilized by the Applicant to meet its present and future electric power needs.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of three years, during which time it would investigate project design alternatives, financial feasibility, environmental effects of project construction and operation, and project power potential. Depending upon the outcome of the studies, the Applicant would decide whether to proceed with an application for FERC license. Applicant estimates the cost of studies under the permit would be $250,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the rights of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant). Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to the Cochiti Project No. 3440, filed on September 5, 1980, by Western States Energy, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 13, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4105. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred R. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,
Secretary.

[FR Doc. 81-8153 Filed 3-16-81; 8:45 am]
BILLING CODE 6450-85-M

[Project No. 4010-000]

Hydro Development Investigation Guidance Committee; Application for Preliminary Permit

March 12, 1981.

Take notice that the Hydro Development Investigation Guidance Committee (Applicant) filed on January 14, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4010 to be known as the Foster Joseph Sayers Dam, located on Bald Eagle Creek in Centre County, Pennsylvania. The Applicant is a consortium of municipalities, consisting of the Bourough of Beech Creek, the township of Beech Creek, the Township of Howard, the Township of Liberty, and the Township of Curtin, all located in Pennsylvania. The proposed project would utilize Federal lands and a Federal dam under the jurisdiction of the U.S. Army Corps of Engineers. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr Dean R. Wagner, Chairman, Hydro Development Investigation Guidance Committee, Post Office Box 315, Beech Creek, Pennsylvania 16822. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 700-foot long penstock located along the right abutment of the dam; (2) a powerhouse to be located at the right abutment of the dam; and (3) appurtenant works.

The Applicant estimates that the installed generating capacity at the project would be 2,471 kW, with an average annual energy output of 10,823,000 kWh.

Purpose of Project—Project energy would be sold to a local public utility.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a

period of three years, during which time it would study the hydraulic, construction, economic, environmental, historic and recreational aspects of the project. Depending upon the outcome of the studies, the Applicant would proceed with an application for FERC license. Applicant estimates the cost of the studies under the permit would be $62,000

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevent to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Hydro Corporation of Pennsylvania's application for Project No. 3332, filed on August 19, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Any one desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 27, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4010. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. a copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-314-000]

Indiana & Michigan Electric Co.; Filing

March 11, 1981.

The filing Company submits the following:

Take notice that American Electric Power Service Corporation (AEP) on March 5, 1981 tendered for filing on behalf of its affiliate, Indiana & Michigan Electric Company (I&M) Amendment No. 21 dated March 1, 1981, to the Operating Agreement dated March 1, 1966 among Consumers Power Company, The Detroit Edison Company and I&M designated I&M's Rate Schedule FPC No. 66.

The amendment includes a new Service Schedule G which provides for the purpose of conserving energy resources during extended fuel shortages, for transfers of energy to and from systems interconnected with the parties. The Service Schedule G provides for a transmission service charge of 1.7 mills per kilowatt-hour for deliveries of Fuel Conservation Energy, and 6 mills per kilowatt-hour for generation and incremental energy costs, plus 2 mills.

The filing parties have requested that these Schedules be permitted to be effective immediately should circumstances arise requiring their use.

Copies of this filing were served upon Consumers Power Company, The Detroit Edison Company, the Public Service Commision of Indiana and the Michigan Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 31, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[Docket No. ER81-309-000]

Kansas Gas and Electric Co.; Notice of Proposed Tariff Change

March 11, 1981.

The filing Company submits the following:

Take notice that Kansas Gas and Electric Company on March 2, 1981, tendered for filing a proposed change in its FPC Electric Service Tariff No. 139. The proposed Amendment changes the minimum and maximum amounts of power.

The Amendment is necessary because the present demands are being exceeded.

Copies of this filing were served upon the Caney Valley Electric Cooperative Association, Inc.

Any person desiring to be heard or to protest said Application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 20, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Application are on file with the Commission and are available for public inspection.

[FR Doc. 81-8157 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-202-000]

Kansas-Nebraska Natural Gas Company, Inc.; Application

March 12, 1981.

Take notice that on February 23, 1981, Kansas-Nebraska Natural Gas Company, Inc. (Applicant), P.O. 600, Hastings, Nebraska 68901, filed in Docket No. CP81-202-000 an application pursuant to Section 7 of the Natural Gas Act and Section 157.7(e) and § 157.7(g) of the Regulations thereunder (18 CFR 157.7(c) and (e)) 1) for permission and approval to abandon, during the period March 1, 1981, through December 1, 1981, direct sales service and facilities no longer required for deliveries of natural gas to Applicant's customers, and 2) for a certificate of public convenience and necessity authorizing the construction and for permission and approval to abandon during the period March 1, 1981, through December 1, 1981, and operation of various field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of the budget-application pursuant to § 157.7(e) of the Commission's Regulations is to augment Applicant's ability to act with reasonable dispatch in abandoning service and removing direct sales measuring, regulating, and related facilities. Applicant states that it would abandon service and facilities only when deliveries to any one direct sales customer would not have exceeded 100,000 Mcf of natural gas during the last year of service.

The application further states that Applicant would not abandon any service unless it would have received a written request or written permission from the customer to terminate service. In the event such request or permission could not be obtained, a statement certifying that the customer has no further need for service would be filed with the Commission.

The stated purpose of the budget-application pursuant to § 157.7(g) of the Commission's Regulations is to enable Applicant to act with reasonable dispatch in constructing and abandoning facilities which would not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed facilities would not exceed $2,000,000 with no single project to exceed a cost of $500,000. Such costs, it is asserted, would be financed from working capital or from interim bank loans.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.70). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. RP81-9-000]

MIGC, Inc. (Formerly) McCulloch Interstate Gas Corp.; Filing of Amended Tariff Sheets

March 11, 1981.

Take notice that on November 20, 1980, MIGC, Inc. (MIGC) filed amended tariff sheets, Substitute Twenty-first Revised Sheet No. 32 and Substitute Third Revised Sheet No. 38 to its FERC Gas Tariff, Original Volume No. 1, relating to jurisdictional sales and service to Colorado Interstate Gas Company (CIG). The instant filing, made pursuant to § 154.38(d)(4)(vi)(a) of the Commission's Regulations, restates MIGC's existing rates for the certificated CIG services, thereby eliminating the increase proposed in the superseded October 31, 1980 filing of Twenty-first Revised Sheet No. 32 and Third Revised Sheet No. 38. The amended tariff sheets reflect rates of 219.37 cents per MMBtu and 7.91 cents per Mcf respectively.

MIGC states that the amended tariff sheets comply with Staff's recommendations that the rate increase proposed in the October 31 lining be eliminated and the currently effective rates be restated.

The instant filing was accepted by letter order of the Commission dated November 28, 1980, to be effective December 1, 1980.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 27, 1981. Protests will not be considered to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-315-000]

Minnesota Power & Light Co.; Filing

March 11, 1981.

The filing Company submits the following:

Take notice that on March 5, 1981, Minnesota Power & Light Company (Minnesota) tendered for filing an Agreement between Minnesota and Lake Superior District Power Company (Lake Superior). Minnesota states the Agreement is for the sale of firm capacity from Minnesota's coal operated steam electric generating station known as Clay Boswell Unit No. 4, located near Grand Rapids, Minnesota to Lake Superior over a period of five years.

Minnesota requests an effective date of May 1, 1981.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 31, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8159 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP80-144]

Mountain Fuel Resources, Inc. and Mountain Fuel Supply Co.; Amendment

March 12, 1981.

Take notice that on February 24, 1981, Mountain Fuel Resources, Inc. (Resources), 180 East First South Street, Salt Lake City, Utah 84139 and Mountain Fuel Supply Company (Mountain Fuel), 180 East First South Street, Salt Lake City, Utah 84139 filed in Docket No. CP80-144 a joint amendment to the amendment to Resources application pending in the instant docket pursuant to Section 7(c) of the Natural Gas Act so as to reflect amendments made to a gas transportation and exchange agreement between Applicants and Northern Natural Gas Company, Division of InterNorth, Inc. (Northern), all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

By the joint amendment to Resource's application filed November 12, 1980, Applicants requested authorization to receive, transport and redeliver natural gas for Northern and Northwest Pipeline Corporation (Northwest) through Applicants' existing pipeline facilities. It is stated that pursuant to a July 2, 1980, gas transportation and exchange agreement between Applicants and Northern, Resources would receive for the account of Northern up to a maximum of 10,000 Mcf of natural gas per day in Mesa County, Colorado, or in Rio Blanco County, Colorado, and transport and deliver such gas to Mountain Fuel at an existing point of interconnection between the facilities of Resources and Mountain Fuel located in Uintah County, Utah. It is stated that Mountain Fuel agreed to receive such volumes of gas from Resources and to deliver thermally equivalent volumes for the account of Northern at an existing point of delivery with Colorado Interstate Gas Company (CIG) located in Sweetwater County, Wyoming (Kanda).

Applicants state that in entering the above agreement the parties inadvertently overlooked the fact that compression would be necessary for Mountain Fuel to make the redeliveries to CIG for the account of Northern at the Kanda exchange point. Applicants herein propose to amend their gas exchange and transportation agreement to stipulate that when such compression is necessary, Northern would pay to Mountain Fuel a compression charge initially set at 5.0 cents per Mcf with Northern furnishing its proportionate share of compressor fuel.

Moreover, Applicants also state that the natural gas to be transported by Mountain Fuel for the accounts of Northwest and Northern on its existing southern pipeline system identified as the Uintah Basin Pipeline would be consumed entirely by Mountain Fuel's intrastate customers. Since none of the gas delivered to Mountain Fuel would leave the state of Utah, Mountain Fuel requests the continued exemption from the Natural Gas Act of its Uintah Basin Pipeline which was declared exempt from the provisions of the Natural Gas Act by order issued August 6, 1964, in Docket No. CP64-221 (32 FPC 534).

Any person desiring to be heard or to make any protest with reference to said amendment should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not file again.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-2-36-000]

Mountain Fuel Supply Co.; Tariff Sheet Filing; Effective April 1, 1981

March 11, 1981.

Take notice that on March 2, 1981, Mountain Fuel Supply Company, pursuant to Section 154.62 of the Regulations of the Federal Energy Regulatory Commission (Commission), filed Twelfth Revised Sheet No. 3-A to its FERC Gas Tariff, Original Volume No. 1. Mountain Fuel states that the filed tariff sheet relates to the Unrecovered Purchased Gas Cost Account of the Purchased Gas Adjustment provision authorized by Commission order issued February 27, 1976, in Docket No. RP76-64. More specifically, the tariff sheet reflects a net increase from that currently being collected of $.00435/Mcf (Rate Schedule X-4), $.00434/Mcf (Rate Schedule X-5), and $1.44433/Mcf (Rate Schedule X-20), all to be effective

April 1, 1981.

Any person desiring to be heard and to make any protest with reference to said filing should on or before March 20, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing must file petitions to intervene in accordance with the Commission's Rules. Mountain Fuel Supply Company's Tariff Filing is on file with the Commission and available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8169 Filed 3-19-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-211-000]

Mountain Fuel Supply Co.; Application

March 12, 1981.

Take notice that on February 24, 1981, Mountain Fuel Supply Company (Applicant), P.O. Box 11368, Salt Lake City, Utah 84111, filed in Docket No. CP81-211-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Northwest Pipeline Corporation (Northwest), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant herein proposes to transport for Northwest volumes of natural gas not to exceed 2,000 Mcf per day. Applicant states that Northwest owns or controls certain natural gas reserves in areas of Sweetwater County, Wyoming (Christmann area), and that such supply of gas is remote from Northwest's existing pipeline system. However, it is stated that Applicant operates jurisdictional transmission facilities in the Christmann area of Sweetwater County, Wyoming, and has a continuing need for additional gas supplies in order to serve better the requirements of its distribution customers. Therefore, it is stated, that Applicant and Northwest have entered into a gas purchase, transportation and exchange agreement dated May 27, 1980, which provides for the transportation and exchange of natural gas from the Christmann area of Sweetwater County, Wyoming, to an existing exchange point between Applicant and Northwest. Applicant also states that the agreement provides for the optional purchase by Applicant of up to 25 percent of the volumes delivered to Applicant by Northwest.

It is stated that under the terms of the Agreement, Northwest would deliver to Applicant for transportation all volumes of natural gas obtained by Northwest in specified areas of Sweetwater County and that the 2,000 Mcf maximum daily volume would be delivered by Northwest to Applicant at a mutually agreed upon point on Applicant's gathering facilities located in Sweetwater County and/or at such other point as may be mutually agreed upon. Applicant asserts that it would redeliver 75 percent of the volumes to Northwest near the town of Granger, Wyoming. It is stated that the redeliveries to Northwest would be accomplished by Northwest decreasing the volume which Applicant is entitled to receive under existing purchase arrangements from Northwest at said point and that balancing would be on a thermal basis which would be done as nearly as possible each month.

Applicant states that the agreement is for a term of fifteen years from the first of the month following the month in which initial delivery occurs and from year to year thereafter.

It is stated that as partial consideration for providing the transportation service for Northwest, Applicant has the option to purchase up to 25 percent of the volumes of gas delivered by Northwest to Applicant and that Applicant's purchase, if elected, would be on the same terms and conditions as the Northwest purchase in all respects. In addition, Applicant states that it would pay Northwest for each Mcf of gas purchased by Applicant hereunder Northwest's gathering transportation rate for the Green River Gathering Area as set forth in Sheet No. 2 of Northwest's FERC Gas Tariff, Original Volume No. 2 which rate is currently 24.93 cents per Mcf.

Applicant proposes to charge Northwest a cost of service based transportation rate of 17.44 cents per Mcf for gas delivered to the Granger exchange point. It is asserted that the agreement between Northwest and Applicant recognizes that the transportation charge may need to be changed periodically to reflect changes in cost.

Applicant is not proposing any new facilities and all natural gas received by Applicant from Northwest for transportation and exchange would be ultimately dispersed in Applicant's existing interstate transmission system.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecesary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-311-000]

Northern States Power Co. (Wisconsin); Proposed Tariff Change

March 11, 1981.

The filing Company submits the following:

Take notice that Northern States Power Company (Wisconsin) on March 2, 1981, tendered for filing proposed changes in its FPC Electric Service Tariff, FPC Rate Schedule. The proposed rate schdedule filing is a result of a negotiated agreement with the City of Barron, Wisconsin.

Copies of this filing were served upon the City of Barron.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions should be filed on or before March 31, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8161 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-196-000]

Northwest Pipeline Corp.; Application

March 12, 1981.

Take notice that on February 17, 1981, Northwest Pipeline Corporation (Applicant), 315 East Second Street South, Salt Lake City, Utah 84111, filed in Docket No. CP81-196-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities for a new delivery point for Mr. William Sloviaczek, a right-of-way grantor, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes herein to construct and operate a tap on its 22-inch mainline in Canyon County, Idaho, to facilitate the sale by Intermountain Gas Company (Intermountain) of approximately 190 Mcf of natural gas annually to Mr. William Sloviaczek, a right-of-way grantor.

Applicant indicates that the total cost of the proposed facilities, an estimated $14,000, would be financed from funds on hand.

Applicant further submits that Intermountain would install any additional facilities required to effectuate gas deliveries to Mr. Sloviaczek.

Applicant states that the gas sold and delivered by Intermountain would be from quantities of natural gas heretofore authorized for sale to Intermountain.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-313-000]

Otter Tail Power Co.; Filing

March 11, 1981.

The filing Company submits the following:

Take notice that on March 2, 1981, Otter Tail Power Company (Otter Tail) tendered for filing rate schedules covering scheduling and dispatching service provided to Cooperative Power Association (Association) and Central Power Electric Cooperative (Central). An effective date of April 1, 1981, is requested for the increase estimated at approximately $3,137 per year, in rates to be charged the Association per Supplement No. 3 to Otter Tail's Rate Schedule FERC No. 154. An effective date of March 20, 1981, is requested for the increase estimated at approximately $4,241, in rates to be charged Central per Supplement No. 3 to Otter Tail's Rate Schedule FERC No. 171.

Otter Tail requests waiver of the Commission's notice requirements to allow these two Schedules to become effective on April 1, 1981, and March 20, 1981, respectively.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 30, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8165 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4202-000]

Pumpkin Hill Power Co.; Application for Preliminary Permit

March 12, 1981.

Take notice that Pumpkin Hill Power Company (Applicant) filed on February 13, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)825(r)] for proposed Project No. 4202 to be known as the Lowell Tannery Project located at the Passadumkeag River in the Town of Lowell, Penobscot County, Maine. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Robert Kelly, Pumpkin Hill Farm, RFD—Box 147, Enfield, Maine 04433. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) an existing 20-foot high, 150-foot long concrete gravity dam which includes a 60-foot long spillway section and two gate sections; (2) a pond containing negligible

storage capacity; (3) a new powerhouse located on an existing foundation at the dam containing a turbine-generator with a total rated capacity of 803 kW; and (4) appurtenant facilities. The project is owned by the Lincoln Pulp and Paper Company. The Applicant estimates that the average annual energy output would be 4,468,000 kWh.

Purpose of Project—Energy produced at Project No. 4202 would be sold to Bangor Hydro-Electric Company for distribution to its customers.

Proposed Scope and Studies Under Permit—The work proposed under this preliminary permit would include economic evaluation, engineering plans, and an environmental assessment. Based on results of these studies, Applicant would decide whether to proceed with more detailed studies and the preparation of an application for license to construct and operate the project. Applicant estimates that the work to be performed under this preliminary permit would cost $20,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, state and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 13, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 13, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests or Petitions to Intervene—Anyon desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petitions to intervene must be received on or before May 13, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 4202. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's Regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. SA81-16-000]

Southern Union Gathering Co.; Application for Adjustment and Request for Interim Relief

March 11, 1981.

On February 17, 1981, Southern Union Gathering Company (Southern Union), 1800 First International Building, Dallas, Texas 75270, filed an application for an adjustment pursuant to Section 502(c) of the Natural Gas Policy Act of 1978 (NGPA) (15 U.S.C. 3412(c) (Supp. II, 1978)), § 270.202 of the Commission's regulations, and § 1.41 of the Commission's Rules of Practice and Procedure.

Specifically, Southern Union requests an adjustment of the 19.2740 cents per Mcf gathering allowance at 14.73 psia granted by the Director of the Office of Pipeline and Producer Regulation in its Order of January 28, 1980, Docket No. SA79-24, so as to permit Southern Union to collect a gathering allowance of 23.70 cents per Mcf at 14.73 psia for its sales to El Paso Natural Gas Company and Gas Company of New Mexico. In addition, Southern Union seeks interim relief pursuant to § 1.41(m) of the Commission's regulations, requesting that the proposed rate be made effective, subject to refund, as of February 17, 1981.

The procedures applicable to the conduct of this adjustment proceeding are found in 18 CFR 1.41 (44 FR 18961, March 30, 1979). Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of § 1.41. All petitions to intervene must be filed on or before April 1, 1981.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8103 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3867-000]

Stanfield Irrigation District and Westland Irrigation District; Application for Preliminary Permit

March 12, 1981.

Take notice that Stanfield Irrigation District and Westland Irrigation District (Applicant) filed on December 11, 1980, an application for preliminary permit pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3867 to be known as McKay Dam located on McKay Creek in Umatilla County, Oregon. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Robert E. O'Rourke, P.O. Box 490, Pendleton, Oregon 97801 or William Porfily, P.O. Box 406, Stanfield, Oregon 97875. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a penstock

built through the Water and Power Resource Service's McKay Dam; (2) a powerhouse with a 1,100–kW generating unit; and (3) a transmission line.

The Applicant estimates that the average annual energy output would be 4,560,000 kWh.

Purpose of Project—The power generated by the proposed project would be sold to the Pacific Gas and Electric Company or the Bonneville Power Administration.

Proposed Scope and Cost of Studies under Permit—The Applicant seeks issuance of a preliminary permit for a period of 36 months during which it would make topographic surveys; study the hydrology and geology; analyze the existing structures; assess the environmental impacts; conduct a cultural resource survey; and prepare a feasibility report. The cost of these studies is estimated by the Applicant to be $55,500.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained to substantive issues relevant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Cascade Waterpower Development Corporation's Project No. 3427, on December 11, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 3867. Any comments protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450–85–M

[Docket No. CP81–208–000]

Tennessee Gas Pipeline Co., a Division of Tenneco Inc.; Application

March 12, 1981.

Take notice that on February 24, 1981, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP81–208–000 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of approximately 5.6 miles of 16-inch pipeline and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes herein to construct and operate approximately 5.6 miles of 16-inch pipeline and appurtenant facilities which would extend from Applicant's production platform in East Cameron Block 47 to its central gathering platform in East Cameron Block 48, offshore Louisiana. Applicant states that such facilities would facilitate the receipt of natural gas reserves dedicated to it in East Cameron Block 47 pursuant to contracts with Conoco, Inc., Arco Oil and Gas Company, Getty Oil Company and Cities Service Company. It is submitted that such reserves exist between the depths of 11,583 feet and 11,597 feet which is below the base of the "OG" Sand and down to the base of the 11,600 feet "LS" Sand as identified on the log of the OCS–G–0767 Well No. 1.

It is further submitted that the proposed facilities would make available to Applicant's system 104,000,000 Mcf of reserves having a maximum day deliverability of up to 120,000 Mcf which exist in East Cameron Block 47. Such reserves which are above the base of the "OG" Sand at 9,894 feet have been dedicated to Applicant under prior long-term contracts, it is stated.

Applicant estimates the cost of the proposed facilities to be $7,130,000 which would be financed by internally generated funds and permanent financing if necessary as part of Applicant's long-term financing program.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice

and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-2-42-000]

Transwestern Pipeline Co.; Proposed Changes in FERC Gas Tariff

March 11, 1981.

Take notice that Transwestern Pipeline Company (Transwestern) on March 2, 1981, tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following sheets:

Seventeenth Revised Sheet No. 5
Seventeenth Revised Sheet No. 6
Third Revised Sheet No. 6A

These sheets are issued pursuant to (1) Transwestern's Purchased Gas Cost Adjustment provision set forth in Article 19 of the General Terms and Conditions of its tariff, (2) Article V, Transportation By Others, of Transwestern's Stipulation and Agreement in Docket No. RP78-68 approved by Commission Order issued September 10, 1980 and (3) Article IV, Advance Payments, of the RP78-68 Stipulation and Agreement. The Purchased Gas Cost Adjustment reflected herein consists of a net increase of 1.62¢/dth based upon increased purchased gas costs, adjusted for Projected Incremental Pricing Surcharges for the Months of April, 1981 through September, 1981, and a decreased balance in the Gas Cost Adjustment Account. The Transportation Adjustment included in the rates filed herein is an increase of 0.18¢/dth from the previous adjustment and the Advance Payment Adjustment is a decrease of .15¢/dth.

The proposed effective date of the above tariff sheets is April 1, 1981.

Copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 20, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-305-000]

The Union Light, Heat and Power Co.; Proposed Tariff Change

March 11, 1981.

The filing Company submits the following:

Take notice that The Union Light, Heat and Power Company (Union Light) on March 3, 1981, tendered for filing proposed changes in its FERC Electric Tariff, Original Volume No. 1 specifically the rates in said Tariff applicable to wholesale electric service to the City of Williamstown, Kentucky. Union Light proposes that the change become effective June 25, 1981.

Union Light asserts that the filing is in accordance with Part 35 of the Commission's Regulations. Union Light states that the schedule, as filed, will supersede rate schedule presently on file with this Commission.

The proposed changes would increase revenues by approximately $190,811 based on the actual twelve month period ended June 30, 1980.

The reasons stated by Union Light for the change in rate schedule is to overcome a revenue deficiency pursuant to The Cincinnati Gas & Electric Company's proposed wholesale rate increase to Union Light filed in FERC Docket No. ER81-132 and to update the fuel adjustment clause in compliance with Section 35.14 of the Regulations. The proposed rate of The Cincinnati Gas & Electric Company was suspended to June 25, 1981.

Copies of the filing were served upon The City of Williamstown, Kentucky and the Public Service Commission of Kentucky.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10).

All such petitions or protests should be filed on or before March 30, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8107 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-207-000]

United Gas Pipe Line Co.; Application

March 12, 1981.

Take notice that on February 24, 1981, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP81-207-000 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the relocation of certain pipeline facilities and for permission and approval to abandon service to Entex, Inc. (Entex) for nine of Entex's residential customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Pursuant to an agreement with Central and South West Fuels, Inc. (CSWF) dated October 15, 1980, Applicant proposes herein to relocate portions of two of its transmission lines in Harrison County, Texas, the Latex-Fort Worth 16-inch line and the Waskom-Tyler 10-inch line. Applicant asserts that the proposed relocation away from the mining area of CSWF would allow for the mining of lignite in Harrison County by CSWF. It is asserted that the lignite would provide fuel for the generation of electricity at a facility to be constructed and operated by Southwestern Electric Power Company.

Applicant states that it would remove approximately 7 miles of its 16-inch Latex-Fort Worth line and 6 miles of its 10-inch Waskom-Tyler line from the mining area and would install 8.9 miles of the Latex-Fort Worth line and 7.7 miles of the Waskom-Tyler line in

another area. Applicant would be reimbursed by CSWF for the estimated relocation cost of $3,432,966, it is stated.

Applicant further seeks to abandon service to Entex for nine residential customers of Entex as a result of the proposed relocation. It is stated that CSWF would pay all expenses incurred in converting these customers to propane gas including the cost of both initial fuel supply and the required gas tanks for operation. Applicant avers that Entex is on notice of the proposed abandonment and has no objections.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas act (18 CFR 157.70). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8146 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-199-000]

Bay State Gas Co.; Application

March 12, 1981.

Take notice that on February 20, 1981, Bay State Gas Company (Applicant), 120 Royall Street, Canton, Massachusetts 02021, filed in Docket No. CP81-199-000 an application pursuant to Section 7(c) of the Natural Gas Act and Section 284.222 of the Commission's Regulations under the Natural Gas Policy Act of 1978 (NGPA) for a certificate of public convenience and necessity for blanket authorization to transport and sell natural gas in interstate commerce as if Applicant were an intrastate pipeline as defined in Subparts C, D and E of Part 284 of the Commission's Regulations under the NGPA, as well as Section 284.203 thereof, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it received 33,668,687 Mcf of natural gas within Massachusetts from Tennessee Gas Pipeline Company, a Division of Tenneco Inc. and Algonquin Gas Transmission Company during the 12-month period ending November 1980. It is asserted that during the same period Applicant received the equivalent of 1,582,167 Mcf in liquefied natural gas from Distrigas, Corp. and produced the equivalent of 1,436,051 Mcf of gas in a liquid propane air process. It is also submitted that all of Applicant's existing operations are conducted in Massachusetts and Applicant currently holds an exemption pursuant to Section 1(c) of the Natural Gas Act for such operations issued June 18, 1974, in Docket CP74-246.

Applicant asserts that at this time it is entitled to purchase 50 Mcf of natural gas per day produced in Morgan County, Ohio, and that the natural gas is presently being delivered to the East Ohio Gas Company (East Ohio).

Applicant states that it has entered into a transportation agreement with East Ohio dated April 1, 1980, in order to effectuate the transfer of its share of natural gas produced in Ohio to its operations in Massachusetts.

Applicant submits that pursuant to its agreement with East Ohio it would be required to gather and deliver, or arrange for the gathering and delivery of, the gas to East Ohio's facilities and to sell to East Ohio 25 percent of the total volume delivered into East Ohio's facilities.

Applicant asserts that it would comply with the conditions set forth in § 284.222(e) of the Commission's Regulations.

Applicant states that the gathering and transportation allowances to it under the East Ohio transportation agreement are identical to those prescribed in numerous transportation and delivery arrangements provided by East Ohio under provisions of Ohio Revised Code Section 4905.31 and approved by the Public Utilities Commission of Ohio. Applicant, therefore, requests any waivers of the Commission's Regulations to permit the allowances to become effective under its transportation agreement with East Ohio.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8137 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3404-001]

Blachy-Lane Cooperative Electric Association; Application for Preliminary Permit

March 11, 1981.

Take notice that Blachy-Lane Cooperative Electric Association (Applicant) filed on December 8, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3404 to be known as Horn Power Project located on Lake Creek in Lane County, Oregon. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Dale C. Swancutt, Blachy-Lane Cooperative Electric Association, 90880 Highway 99, Eugene, Oregon 97402. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 6-foot high, 300-foot long reinforced concrete diversion dam; (2) a reservoir with a surface area of less than an acre; (3) a 2,500-foot-long penstock; (4) a power plant containing a 3.5 MW generating unit; and (5) a transmission line. The Applicant estimates that the average annual energy output would be 12 million kWh.

Purpose of Project—The power generated by the proposed project would be sold to a local utility.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks issuance of a preliminary permit for a period of 36 months, during which it would: make subsurface investigations, hydrologic studies, and a topographic survey; assess environmental impacts; consult with necessary agencies; and examine legal and financial factors. The cost of these studies is estimated by the Applicant to be $100,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 13, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 13, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10. for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 13, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3404. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8147 Filed 3-17-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP80-397-001]

Black Marlin Pipeline Co.; Amendment to Application

March 12, 1981.

Take notice that on March 2, 1981, Black Marlin Pipeline Company (Applicant), Two Greenway Plaza East, Houston, Texas 77046, filed in Docket No. CP80-397-001 an amendment to its pending application in the instant docket pursuant to Section 7(c) of the Natural Gas Act so as to reflect the relocation of a proposed tie-in point to the pipeline system of Northern Natural Gas Company, Division of InterNorth, Inc. (Northern), all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Applicant states that in its application filed on June 6, 1980, Applicant requested authorization to transport up to 25,000 Mcf of natural gas per day which Northern had contracted to purchase in Galveston Block 144L, offshore Texas. It is stated that Northern had proposed to construct and operate facilities to a believed existing sub-sea tap located in Block 99 on Applicant's 16-inch pipeline but that it was later discovered that said tap did not exist at the specified location and was 5,000 feet farther west on the pipeline. Applicant herein proposes to establish a sub-sea tap at that point where the pipelines would intersect in Block 99.

Applicant estimates that the cost of the proposed tap would be $271,000 which cost would be borne by Northern. It is stated that all other aspects of Applicant's instant filing remain the same.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before April 6, 1981, file with the Federal Energy

Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not file again.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8190 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-203-000]

Cities Service Gas Co.; Application

March 12, 1981.

Take notice that on February 23, 1981, Cities Service Gas Company (Applicant), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP81-203-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain pipelines taps, measuring, regulating and appurtenant facilities to enable Applicant to provide direct natural gas service to eight commercial customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant specifically proposes to:

(1) Tap its Madison 3-inch lateral pipeline and construct measuring, regulating and appurtenant facilities in Greenwood County, Kansas, for a proposed sales delivery to Cities Service Company.

(2) Tap its Oklahoma City 20-inch transmission pipeline and construct measuring, regulating and appurtenant facilities in Logan County, Oklahoma, for a proposed sales delivery to The Crude Company.

(3) Tap its Edmond-Drumright 12-inch transmission pipeline and construct measuring, regulating and appurtenant facilities in Oklahoma County, Oklahoma, for a proposed sales delivery to Forest Foster.

(4) Tap its Chase Fuel System 3-inch sales lateral pipeline and construct measuring, regulating and appurtenant facilities in Barton County, Kansas, for a proposed sales delivery to Gable Oil Company.

(5) Tap its Wichita-Ottawa 20-inch transmission pipeline and construct measuring, regulating and appurtenant facilities in Franklin County, Kansas, for a proposed sales delivery to Dwight Haworth.

(6) Tap its Chase Fuel System 3-inch sales lateral pipeline and construct measuring, regulating and appurtenant facilities in Rice County, Kansas, for a proposed sales delivery to KOP-MOR Production Company.

(7) Tap its Ft. Scott 8-inch sales lateral pipeline and construct measuring, regulating and appurtenant facilities in Vernon County, Missouri, for a proposed sales delivery to MAPCO Production Company.

(8) Tap its Quapaw 16-inch transmission pipeline and construct measuring, regulating and appurtenant facilities in Newton County, Missouri, for a proposed sales delivery to D. L. Sitton Motor Lines, Inc.

Applicant asserts that such sales of natural gas would neither significantly affect its overall gas supply nor have any detrimental effect on Applicant's existing customers.

Applicant estimates the total cost of the proposed facilities to be $60,110 which would be financed by treasury cash.

Applicant further estimates that the gas required to serve the proposed customers annually and on a peak day would be approximately 413,200 Mcf and 1,324 Mcf, respectively.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8138 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-216-000]

Columbia Gas Transmission Corp.; Application

March 12, 1981.

Take notice that on February 27, 1981, Columbia Gas Transmission Corporation (Applicant), P.O. Box 1273, Charleston, West Virginia 25325, filed in Docket No. CP81-216-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction of 54 interconnecting tap facilities to provide additional points of delivery to existing wholesale customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes the following new points of delivery for the following wholesale customers:

(1) Columbia Gas of Kentucky, Inc. 6 taps for residential service. Estimated annual usage of 1,050 Mcf.

(2) Columbia Gas of Ohio, Inc. 24 taps for residential service, 1 tap for commercial service. Estimated annual usage of 4,168 Mcf.

(3) Columbia Gas of Pennsylvania, Inc. 1 tap for residential service. Estimated annual usage of 150 Mcf.

(4) Columbia Gas of Virginia, Inc. 1 tap for commercial service. Estimated annual usage of 1,200 Mcf.

(5) Columbia Gas of West Virginia, Inc. 18 taps for residential service, 1 tap for commercial service. Estimated annual usage of 6,330 Mcf.

(6) The Dayton Power and Light Company. 1 tap for residential service, 1 tap for industrial service. Estimated annual usage of 1,275 Mcf.

Applicant states that the average cost of the 54 taps is estimated to be $300. It is stated that the total cost of $16,282 would be financed through internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the

requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8139 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Project Nos. 3661-000, 3976-000]

Continental Hydro Corporation Enagenics; Application for Preliminary Permit

March 11, 1981.

Take notice that Continental Hydro Corporation (Applicant/CHC) and Enagenics (Applicant) filed on November 4, 1980 and January 12, 1981, respectively competing applications for preliminary permits [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project Nos. 3661 and 3976, respectively, both to be known as Kentucky River Lock and Dam No. 13 located on the Kentucky River in Lee County, Beattyville, Kentucky. The application is on file with the Commission and is available for public inspection. Correspondence with Applicant (CHC) should be directed to: Mr. A. Gail Staker, 141 Milk Street, Suite 1143, Boston, Massachusetts 02109. Correspondence with Enagenics should be directed to:, Mr. Thomas H. Clarke, Jr., President, Enagenics, 1727 Q Street, N.W., Washington, D.C. 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the U.S. Army Corps of Engineers' Kentucky River Lock and Dam No. 13 and would consist of: (1) a proposed powerhouse containing an installed generating capacity of 3.85 MW (CHC) or 3.9 MW (Enagenics) and (2) appurtenant facilities. CHC estimates the annual generation would average 20.6 GWh; Enagenics estimates the annual generation would average 28.0 GWh.

Purpose of Project—Both Applicants propose to sell the output of energy generated to the Kentucky Utility Company.

Proposed Scope and Cost of Studies Under Permit—Both Applicants seeks issuance of a preliminary permit for a period of 36 months. With the 36 month time frame the Applicants propose to conduct data acquisition and analysis, technical studies, potential energy production and capacity evaluations, project layout and design, construction options, environmental, recreational economic, and historical examinations.

The Applicants estimate the cost of the proposed studies would be $55,000 (CHC), and $50,000 (Enagenics).

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 11, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 10, 1981. A notice of intent must conform with the requirements of 18 CFR § 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR § 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10. for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 11, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Projects Nos. 3661 and 3976. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must

also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 3674-000]

Dam Three Development LTD; Application for Preliminary Permit

March 11, 1981.

Take notice that Dam Three Development LTD (Applicant) filed on November 5, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3674 to be known as Kentucky River Lock and Dam No. 3 located at the U.S. Army Corps of Engineers on the Kentucky River in Henry and Owen County, Kentucky. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Ken Lever, 6566 France Avenue, South Minneapolis, Minnesota 55435. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers dam. The proposed Project No. 3674 is located on Federal lands. Project No. 3674 would consist of: (1) two proposed powerhouses containing four generating units with a total installed capacity of 6 Mw; (2) proposed transmission lines approximately one mile in length and interconnected with a 130 Ky powerline owned; and (3) appurtenant facilities. The Applicant estimates that the average annual energy input would be 28,700,000 kWh.

Purpose of Project—The Applicant proposes to sell the generated output of energy to Kentucky Utilities Company, or a local utility company.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time studies would be made to determine the engineering, environmental, and economic feasibility of the project. In addition, historic and recreational aspects of the project would be determined, along with consultation with Federal, State, and local agencies for information, comments and recommendations relevant to the project. The Applicant estimates that the cost of the studies would be $100,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 11, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 10, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 11, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 3674. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4002-000]

Enagenics; Application for Preliminary Permit

March 11, 1981.

Take notice that Enagenics (Applicant) filed on January 13, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4002 to be known as the Sumner Hydro Project located on the Pecos River in DeBaca County, New Mexico. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Thomas H. Clarke, Jr., President, Enagenics, 1727 Q Street, N.W., Washington, D.C. 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing Water and Power Resources Service's Fort Sumner Dam and Reservoir and would consist of: (1) a new penstock utilizing the existing outlet works near the right dam abutment; (2) a new powerhouse containing generating units having a total rated capacity of 7,100 kW; (3) a

tailrace; (4) a new transmission line, approximately 10 miles long; and (5) appurtenant facilities.

The Applicant estimates that the average annual energy output would be 7,450,000 kWh.

Purpose of Project—Project energy would be sold to the Farmers Electric Cooperative. Other alternative markets, such as nearby public institutions and industrial users, will be investigated.

Purpose, Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of three years, during which time it would prepare studies of the hydraulic, construction, economic, environmental, historic and recreational aspects of the project. Depending on the outcome of the studies, Applicant would prepare an application for an FERC license. Applicant estimates the cost of the studies under the permit would be $45,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Sequoia Energy Corporation's application for Project No. 3718, filed on November 13, 1980, under 18 CFR 4.33 (1980). Anyone desiring to file a competing application must submit to the Commission, on or before April 20, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than June 19, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 20, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4002. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. CP81-200-000]

Fitchburg Gas and Electric Light Co; Application

March 12, 1981.

Take notice that on February 20, 1981, Fitchburg Gas and Electric Light Company (Applicant), 120 Royall Street, Canton, Massachusetts 02021, filed in Docket No. CP81-200-000 an application pursuant to Section 7(c) of the Natural Gas Act and Section 284.222 of the Commission's Regulations under the Natural Gas Policy Act of 1978 (NGPA) for a certificate of public convenience and necessity for blanket authorization to transport and sell natural gas in interstate commerce as if Applicant were an intrastate pipeline as defined in Subparts C, D, and E of Part 284 of the Commission's Regulations under the NGPA as well as Section 284.203 thereof, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it received 2,606,426 Mcf of natural gas within Massachusetts from Tennessee Gas Pipeline Company, a Division of Tenneco Inc. during the 12-month period ending November 1980. It is asserted that during the same period Applicant received the equivalent of 226,274 Mcf of liquefied natural gas from Bay State Gas Company and produced the equivalent of 99,876 Mcf of gas in a liquid propane air process. It is also submitted that all of Applicant's existing operations are conducted in Massachusetts and that Applicant currently holds an exemption pursuant to Section 1(c) of the Natural Gas Act for such operations issued August 25, 1966, in Docket No. CP66-380.

Applicant asserts that at this time it is entitled to purchase 25 Mcf of natural gas per day produced in Morgan County, Ohio, and that the natural gas is presently being delivered to the East Ohio Gas Company (East Ohio).

Applicant states that it has entered into a transportation agreement with East Ohio dated April 1, 1980, in order to effectuate the transfer of its share of the gas produced in Ohio to its operations in Massachusetts.

Applicant submits that pursuant to its agreement with East Ohio it would be required to gather and deliver, or arrange for the gathering and delivery of, the gas to East Ohio's facilities, and to sell to East Ohio 25 percent of the total volume delivered into East Ohio's facilities.

Applicant asserts that it would comply with the conditions set forth in Section 284.222(e) of the Commission's Regulations.

Applicant states that the gathering and transportation allowances to it under the East Ohio transportation agreement are identical to those prescribed in numerous transportation and delivery arrangements provided by East Ohio under provisions of Ohio Revised Code Section 4905.31 and approved by the Public Utilities Commission of Ohio. Applicant, therefore, requests any waivers of the Commission's Regulations to permit the allowances to become effective under its transportation arrangements with East Ohio.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project Nos. 3473 and 3784]

Jack M. Fuls, et al.; Notice Denying Notice of Intent To File a Competing Application

March 12, 1981.

In the matter of Jack M. Fuls, Deschutes Reclamation and Irrigation Company, Inc., Central Oregon Irrigation District and North Unit Irrigation District.

Clyde W. Purcell, Mary Lou Purcell and Prineville Water Company filed a Notice of Intent to file a competing application for a preliminary permit for the Bend Diversion Dam Power Project located on the Deschutes River in Deschutes County, Oregon. The Notice of Intent is rejected because it is not timely filed.

The Notice of Intent filed by the Purcells and Prineville is not timely because it fails to comply with the deadline clearly specified in the Notice of Application for Preliminary Permit for Project No. 3473. That notice stated that the deadline for Notices of Intent was January 23, 1981. The Notice of Intent filed by the Purcells and Prineville was docketed January 26, 1981. The Notice of Intent was thus not timely. The Notice of Intent is therefore rejected.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8191 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP80-341-002]

Northern Natural Gas Co., Division of InterNorth, Inc.; Amendment to Application

March 12, 1981.

Take notice that on March 2, 1981, Northern Natural Gas Company, Division of InterNorth, Inc. (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP80-341-002 an amendment to its pending application in the instant docket pursuant to Section 7(c) of the Natural Gas Act so as to reflect the relocation of a proposed tie-in point to the pipeline system of Black Marlin Pipeline Company (Black Marlin), all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Applicant states that in its application filed on April 25, 1980, and amended June 12, 1980, Applicant requested authorization to construct and operate 11.3 miles of 10-inch pipeline and 2.3 miles of 6-inch pipeline between the producer platforms in Galveston Area Block 144L, offshore Texas, to Black Marlin's 16-inch pipeline in Block 99 in order to attach and transport natural gas reserves located in Block 144L which Applicant has contracted to purchase.

It is stated that the original proposed tie-in point was thought to be an existing sub-sea tap on Black Marlin's 16-inch pipeline in Block 99 but that it was later discovered that no tap existed at the specified location and is now believed to be approximately 5,000 feet farther west on the pipeline. Applicant herein proposes to change the tie-in point to that point located in Block 99 at which the facilities of Applicant and Northern intersect. Applicant moreover states that the revised tie-in point would result in the construction and operation of 9.2 miles of 10-inch pipeline and 2.3 miles of 6-inch pipeline.

It is stated that the revision provides for the same route as previously proposed with the exception that approximately 2.1 miles of 10-inch pipeline extending west from the point of intersection with Black Marlin's 16-inch pipeline would be deleted.

Applicant estimates that the total project cost of the proposed facilities has declined to $7,790,000 which is attributable to the cost saving due to the reduction of the required miles of 10-inch pipeline offset by the increased cost to construct the sub-sea tap and the general increased cost of off-shore pipeline construction since the time of the last amended filing.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before April 6, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. All persons who have heretofore filed need not file again.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8192 Filed 3-16-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4037-000]

Richard Charles Young and George Robert Young; Application for Preliminary Permit

March 11, 1981.

Take notice that Richard Charles Young and George Robert Young (Applicant) filed on January 21, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4037 to be known as Montgomery Creek located on Montgomery Creek in Plumas County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Messrs. Richard Young and George Young, P.O. Box 32, Warren and Nelson Streets, Taylorsville, California 95983. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) an infiltration galley; (2) a penstock; (3) a powerhouse containing two generating units, 100- and 200-kW respectively; and (4) a transmission line.

The Applicant estimates that the average annual energy output would be 1,000,000 kWh.

Purpose of Project—The power generated by the proposed project would possibly be sold to Pacific Gas and Electric Company.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks issuance of a preliminary permit for a period of 36 months during which it would assess market potential and environmental impacts; study hydrology; project costs; assess legal, financial and site issues; and document findings. The cost of these studies is estimated by the Applicant to be $100,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 11, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 10, 1981. A notice of intent must conform with the requirements of 18 CFR § 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 11, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4037. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

notice.

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 1, 1981.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,
Secretary.

OTHER PURCHASERS VOLUME NO 0378

8117581 CONSOLIDATED GAS SUPPLY

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 1, 1981.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 1, 1981.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.208, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 1, 1981.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 1, 1981.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

ENVIRONMENTAL PROTECTION AGENCY

[OPTS-59045; TSH-FRL 1790-8]

Certain Chemicals; Premanufacture Exemption Applications

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1)(A) of the Toxic Substances Control Act (TSCA) requires any person intending to manufacture or import a new chemical substance for a commercial purpose in the United States to submit a premanufacture notice (PMN) to EPA at least 90 days before he commences such manufacture or import. Under Section 5(h) the Agency may, upon application, exempt any person from any requirement of section 5 to permit such person to manufacture or process a chemical for test marketing purposes. Section 5(h)(6) requires EPA to issue a notice of receipt of any such application for publication in the Federal Register. This notice announces receipt of two applications for an exemption from the premanufacture reporting requirements for test marketing purposes and requests comments on the appropriateness of granting the exemption.

DATE: The Agency must either approve or deny these applications by March 27, 1981. Persons should submit written comments on the applications no later than April 1, 1981.

ADDRESS: Written comments to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW, Washington, DC 20460, (202-426-2610).

FOR FURTHER INFORMATION CONTACT: Rachel Diamond, Chemical Control Division (TS-794), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-221, Washington, DC 20460, (202-426-3980).

SUPPLEMENTARY INFORMATION: Under Section 5 of TSCA [90 Stat. 2012 (15 U.S.C. 2604)], any person who intends to manufacture or import a new chemical substance for commercial purposes in the United States must submit a notice to EPA before the manufacture or import begins. A "new" chemical substance is any chemical substance that is not on the Inventory of existing chemical substances compiled by EPA under Section 8(b) of TSCA. EPA first published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the Federal Register on May 15, 1979 (44 FR 28558-Initial) and July 29, 1980 (45 FR 50544-Revised). The requirement to submit a PMN for new chemical substances manufactured or imported for commercial purposes became effective on July 1, 1979.

Section 5(a)(1) requires each PMN to be submitted in accordance with section 5(d) and any applicable requirement of chemical substances that are subject to testing rules under section 4. Section 5(b)(2) requires additional information in PMN's for substances which EPA, by rules under section 5(b)(4), has determined may present unreasonable risks of injury to health or the environment.

Section 5(h), "Exemptions," contains several provisions for exemptions from some or all of the requirements of section 5. In particular, section 5(h)(1) authorized EPA, upon application, to exempt persons from any requirement of section 5(a) or section 5(b) to permit the persons to manufacture or process a chemical substance for test marketing purposes. To grant such an exemption, the Agency must find that the test marketing activities will not present any unreasonable risk of injury to health or the environment. EPA must either approve or deny the application within 45 days of its receipt, and the Agency must publish a notice of its disposition in the Federal Register. If EPA grants a test marketing exemption, it may impose restrictions on the test marketing activities.

Under section 5(h)(6), EPA must publish in the Federal Register a notice of receipt of an application under section 5(h)(1) immediately after the Agency receives the application. The notice identifies and briefly describes the application (subject to section 14 confidentiality restrictions) and gives interested persons an opportunity to comment on it and whether EPA should grant the exemption. Because the Agency must act on the application within 45 days, interested persons should provide comments within 15 days after the notice appears in the Federal Register.

EPA has proposed Premanufacture Notification Requirements and Review Procedures published in the Federal Register of January 10, 1979 (44 FR 2242) and October 16, 1979 (44 FR 59764) containing proposed premanufacture rules and notice forms. Proposed 40 CFR 720.15 (44 FR 2268) would implement section 5(h)(1) concerning exemptions for test marketing and includes proposed 40 CFR 720.15(c) concerning the section 5(h)(6) Federal Register notice. However, these requirements are not yet in effect. In the meantime, EPA has published a statement of Interim Policy published in the Federal Register of May 15, 1979 (44 FR 28564) which applies to PMN's submitted prior to promulgation of the rules and notice forms.

Interested persons may, on or before April 1, 1981, submit to the Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Rm. E-401, 401 M St., SW, Washington, DC 20460, written comments regarding these notices. Three copies of all comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the document control number "[OPTS-59045]". Comments received may be seen in the above office between 8:00 a.m. and 4:00 p.m., Monday through Friday excluding legal holidays.

(Sec. 5, 90 Stat. 2012 (15 U.S.C. 2604))

Dated: March 10, 1981.

Edward A. Klein,

Director, Chemical Control Division.

TM 81-3

The following summary is taken from the data submitted by the manufacturer

8110430 NORTHERN NATURAL GAS CO
BILLING CODE 6450-85-C

in the test marketing exemption application.

Close of Review Period. March 27 1981.

Manufacturer's Identity Claimed confidential business information.

Specific Chemical Identity Claimed confidential business information. Generic name provided: Polydimethylsiloxane, alkyl and terpenyl substituted.

Use. Silicone coating polymer

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Appearance and odor—Viscous amber liquid, slight terpene odor.

Specific gravity ($H_2O=1$—0.98.

Percent volatile by volume—0.

Solubility in water—Negligible.

Flashpoint (PMCC)—250° F.

Toxicity Data

Oral LD_{50} (rat)—52 gm/kg. Range 47–60 gm/kg.

Skin and eye irritation (rabbit)—Non-irritant.

Exposure. The manufacturer states that a limited number of workers may be exposed demally during the test marketing period.

Environmental Release/Disposal. No data were submitted.

TM 81–4

The following summary is taken from the data submitted by the manufacturer in the test marketing exemption application.

Close of Review Period. March 27. 1981.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: (Aryl)oniumpolyhalo salt of semi-metal.

Use. Silicone coating polymer.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties. The chemical is a viscous, syrupy fluid at room temperature.

Toxicity Data

Primary eye irritation (rabbit)—Primary eye irritant. Grade range 15–25/110.

Primary skin irritation (rabbit)—Non-irritant.

Acute dermal toxicity (rabbit)—MLD >2,000 mg/kg.

Acute oral toxicity (rat)—MLD >500 mg/kg. MLD >5,000 mg/kg.

Mutagenicity Screening/*Salmonella* Microsomal Assay:

TA1537 (without enzyme activation)—Positive.

TA1535 (with enzyme activation)—Positive.

TA1538, TA98, TA100—Negative.

DNA Repair

Pol A^+—No effects observed.

Pol A —No effects observed.

In-*vitro* Point Mutation:

BALB/3T3 cells—Cytotoxic, dose related mutants without enzyme activation were recorded.

Exposure. The manufacturer states that a limited number of workers may be exposed dermally during the test marketing period.

Environmental Release, Disposal. No data were submitted.

[PF-218; PH-FRL 1780-2]

Certain Pesticide Chemicals; Filing of Pesticide Petitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that Monsanto Co. has filed pesticide petitions with EPA proposing that tolerances be established for certain pesticide chemicals in or on certain raw agricultural commodities.

ADDRESS: Written comments to: Robert J. Taylor, Product Manager (PM) 25, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

Written comments may be submitted while a petition is pending before the agency. The comments are to be identified by the document control number "[PF–218]" and the specific petition number. All written comments filed in response to this notice will be available for public inspection in the product manager's office from 8:00 a.m. to 4:00 p.m., Monday through Friday excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: Robert J. Taylor (703–557–7066).

SUPPLEMENTARY INFORMATION: EPA gives notice that the following pesticide petitions have been submitted to the agency to establish tolerances for certain pesticide chemicals in or on certain raw agricultural commodities in accordance with the Federal Food, Drug, and Cosmetic Act. The analytical method for determining residues, where required, is given in each specific petition.

PP 1F2455. Monsanto Co., 1101 17th St., NW., Washington, D.C. 20036. Proposes amending 40 CFR 180.364 by increasing the proposed tolerance for the combined residues of the herbicide glyphosate (*N*-phosphonomethylglycine) and its metabolite aminomethylphosphonic acid in or on the raw agricultural commodity cottonseed from 6 parts per million to 15 parts per million. The proposed analytical method for determining residues is gas chromatography using a phosphorous-specific photometric detector

PP 1F2460. Mansanto Co., 1101 17th St., NW., Washington, D.C. 20036. Proposes amending 40 CFR 180.314 by establishing tolerances for residues of the herbicide *S*-2, 3, 3-trichloroallyl diisopropylthiocarbamate in or on the following raw agricultural commodities: sunflower seed, mustard seed, safflower seed, flax seed, and buckwheat seed at .02 part per million. The proposed analytical method for determining residues is gas chromatography using a electron capture detector

(Sec. 408(d)(1), 68 Stat. 512. (7 U.S.C. 135))

Dated: March 6, 1981

BILLING CODE 6560-32-M

[OPP-50525; PH-FRL 1780-4]

Issuance of Experimental Use Permits

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has issued experimental use permits to the following applicants: Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172, which defines EPA procedures with respect to the use of pesticides for experimental purposes.

FOR FURTHER INFORMATION CONTACT: The product manager cited in each petition at the address below: Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, 1921 Jefferson Davis Highway, Arlington, VA 22202.

SUPPLEMENTARY INFORMATION: EPA has issued the following experimental use permits:

464–EUP–65. Dow Chemical Co., PO Box 1706, Midland, MI 48640. This experimental use permit allows the use of 1,000 pounds of the insecticide chlorpyrifos on wheat to evaluate control of aphids, brown wheat mites, grasshoppers, army worms, and cutworms. A total of 400 acres are involved. The program is authorized only in the States of Illinois and Texas. The experimental use permit is effective from January 9, 1981 to January 9, 1982. The experimental use permit is issued under the special condition that all treated crops be destroyed and that livestock may not be permitted to graze in treated areas or be fed treated crops listed in this permit. (PM

12. Jay S. Ellenberger, Rm. 400, CM#2, 703-557-7024.)

8590-EUP-3. Agway, Inc., Chemical Div., PO Box 4933, Syracuse, NY 13221. This experimental use permit allows the use of the active ingredient of the herbicide Alkanolamine salt of dinoseb (2-sec-butyl-4,6-dinitrophenol) on field and sweet corn to evaluate its use as a plant growth regulator. A total of 8,000 acres are involved (4,000 acres per year over a 2-year period). The program is authorized only in the States of Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and Wisconsin. The program is effective from March 1, 1981 to March 1, 1983. A permanent tolerance for residues of the active in or on the raw agricultural commodities corn fodder and forage, corn grain including popcorn; and fresh corn including sweet corn has been established (§ 180.291). (PM 22, Richard F. Mountfort, Rm. 412D, 703-557-7070).

11273-EUP-18. Sandoz, Inc., Crop Protection, 480 Camino Del Rio South, Suite 204, San Diego, CA 92180. This experimental use permit allows the use of 30,000 pounds (24,000 pounds of the active ingredient norflurazon 4-chloro-5- (methylamino)-3-(alpha, alpha, alpha-trifluoro-m-tolyl)-3(2*H*)-pyridazinone) of the herbicide norflurazone on soybeans to evaluate control of grass and broadleaf weeds. A total of 15,000 acres are involved. The program is authorized only in the States of Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, and Texas. This experimental use permit is effective from January 21, 1981 to April 20, 1982. A temporary tolerance for residues of the active ingredient in or on soybeans has been established. (PM 23, Richard F. Mountfort, Rm. 412D, 703-557-7070).

Persons wishing to review these experimental use permits are referred to the designated product managers. Inquiries regarding these permits should be directed to the persons given above. It is suggested that interested persons call before visiting the EPA Headquarters office, so that the appropriate file may be made available for inspection purposes from 8:00 a.m. to 4:00 p.m., Monday through Friday, excluding legal holidays.

(Sec. 5, 92 Stat. 819, as amended, (21 U.S.C. 136))

Dated: March 6, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

[FR Doc. 81-8001 Filed 3-16-81; 8:45 am]

BILLING CODE 6560-32-M

[OPP-180589; PH-FRL 1780-6]

Washington; Issuance of Specific Exemption for Nemacur on Raspberries

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted a specific exemption to the Washington State Department of Agriculture (hereafter referred to as the "Applicant") for the use of Nemacur 3 EC on 2,000 acres of raspberries in Washington to control the lesion nematode. The specific exemption was granted under the Federal Insecticide, Fungicide, and Rodenticide Act.

DATE: The specific exemption expires on April 1, 1981.

FOR FURTHER INFORMATION CONTACT: Jack E. Housenger, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 502C, CM No. 2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7123).

SUPPLEMENTARY INFORMATION: The Applicant reports that the lesion nematode *Pratylenchus penetrans* is the major nematode problem for Washington raspberry growers. It causes damage to raspberry plant roots, and when high populations of nematodes develop, plants lose vigor and the ability to produce good crops, according to the Applicant. The Applicant indicates that the problem is an emergency for those who are losing production, cane growth, and land usable for raspberries.

No products are registered for post-plant use on raspberries. DBCP was registered for post-planting use on raspberries, but registration was withdrawn in 1977. Since then raspberry growers have been left with no feasible nematode control method in established plantings. The Applicant indicates that losses to growers due to uncontrolled nematode infestations could reach $0.8 million.

The Applicant proposed to make a single application of Nemacur 3 EC which contains the active ingredient (a.i.) ethyl 3-methyl-4-(methylthio) phenyl (1-methylethyl) phosphoramidate.

EPA has determined that the combined residues of Nemacur and its sulfoxide and sulfone metabolites in or on raspberries resulting from the proposed use should not exceed 0.1 part per million (ppm). This level has been judged adequate to protect the public health. While some nontarget wildlife mortality may occur from this use, EPA does not anticipate an unreasonable threat to the environment.

After reviewing the application and other available information, EPA has determined that the criteria for an exemption have been met. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until April 1, 1981, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. The product Nemacur 3 EC (EPA Reg. No. 3125-283), manufactured by Mobay Chemical Corp., may be applied at a rate of 6 to 12 pounds a.i. per acre.

2. Applications will be made to established plantings.

3. Applications will be made only when State personnel determine that populations of lesion nematode are sufficient to warrant treatment.

4. A single ground application will be made when adequate rainfall can be expected to incorporate the nematocide.

5. A maximum of 2,000 acres may be treated.

6. Applications will be made by State-certified private or commercial applicators.

7. All applicable directions, restrictions, and precautions on the EPA-registered product label must be followed.

8. Nemacur must not be applied to any body of water and drift reduction precautions must be observed. The pesticide is not to be applied where excessive runoff is likely to occur. Care must be taken to prevent contamination of water by the cleaning of equipment or disposal of wastes or excess pesticides.

9. Nemacur is highly toxic to wildlife. It is recommended that the Washington State Department of Game be provided the opportunity to observe the application of Nemacur and monitor its effects on wildlife populations. If any wildlife mortality occurs, it should be reported to the Washington State Department of Game.

10. Treatment of raspberries as proposed should not result in the combined residues of ethyl 3-methyl-4-(methylthio) phenyl (1-methylethyl) phosphoramidate and its sulfoxide and sulfone metabolites exceeding 0.1 ppm in or on raspberries. Raspberries with residues not exceeding 0.1 ppm may enter interstate commerce. The Food and Drug Administration, U.S. Department of Health and Human Services, has been advised of this action.

11. EPA shall be immediately informed of any adverse effect resulting from the use of this pesticide in connection with this exemption.

12. The Applicant shall be responsible for assuring that all provisions of this specific exemption are met and must submit a report summarizing the results of this program by August 15, 1981.

(Sec. 18 as amended 92 Stat. 819; (7 U.S.C. 136))

Dated: February 24, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Advisory Committee on Radio Broadcasting and its Technical and Allocations Subgroups; Meeting

March 5, 1981.

The following open meeting will be held on Tuesday, April 7, 1981, at the time stated below, in Room A-110 of the FCC Annex, 1229-20th Street, N.W., Washington, D.C.:

A. The twelfth meeting of the Advisory Committee on Radio Broadcasting, starting at 12:30 p.m. The agenda will be:

1. Call to order by the Chairman;
2. Approval of minutes of previous meeting;
3. Recess for conduct of meetings of the Subgroups on Allocations and Technical Matters;
4. Reconvening of meeting of the Advisory Committee;
5. Receipt of reports by Allocations Subgroup;
6. Receipt of reports by Technical Subgroup;
7. Other business;
8. Future meeting dates;
9. Adjournment.

B. The fifth meeting of the Subgroup on Radio Spectrum Allocations, starting after Item No. 3 of the Advisory Committee Agenda. The agenda for the subgroup will be:

1. Call to order;
2. Approval of minutes of previous meeting;
3. Reports on tasks performed by members of the Subgroup;
4. Assignment of further tasks to be performed and reported by designated persons;
5. Other business;
6. Next meeting date;
7. Adjournment.

C. The fifth meeting of the Subgroup on Technical Matters, starting upon conclusion of the fifth meeting of the Subgroup on Radio Spectrum Allocations. The agenda will be:

1. Call to order;
2. Approval of minutes of previous meeting;
3. Reports on tasks performed by members of the Subgroup;
4. Assignment of further tasks to be performed and reported to the Subgroup;
5. Other business;
6. Next meeting date;
7. Adjournment.

If it should not be possible to complete consideration of an entire agenda on the scheduled date, that meeting will be continued at an announced date and time.

All interested parties are invited to participate and may submit comments, addressed to Mr. Henry L. Baumann, Chairman, Advisory Committee on Radio Broadcasting, Federal Communications Commission, Washington, D.C. 20554.

Federal Communications Commission.

William J. Tricarico,

Secretary.

[FR Doc. 81-8007 Filed 3-16-81; 8:45 am]

BILLING CODE 6712-01-M

[BC Docket No. 81-132; File No. BPCT-5128 et al.]

Channel 24 Christian Television, Inc., et al.; Hearing Designation Order

In the matter of Channel 24 Christian Television, Inc., Portland, Oregon; [BC Docket No. 81-132 File No. BPCT-5128]; Tavitac Corporation, Portland, Oregon; [BC Docket No. 81-133 File No. BPCT-5200]; National Subscription Television of Portland, Inc., Portland, Oregon; [BC Docket No. 81-134 File No. BPCT-5201]; Broadcast Associates, Inc. Portland, Oregon; For Construction Permit; [BC Docket No. 81-135; File No. BPCT-5202]

Hearing Designation Order; Designating Applications for Consolidated Hearing on Stated Issues

Adopted: February 27, 1981.

Released: March 10, 1981.

By the Chief, Broadcast Bureau:

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it the above-captioned mutually exclusive applications for authority to construct a new commercial television broadcast station on Channel 24, Portland, Oregon; informal objections to the grant of Channel 24 Christian Television, Inc.'s application, filed by Barbara J. Safriet, on behalf of the Healy Heights-Council Crest Neighborhood Association, and by G. Ray and Jeanne H. Steed; a petition for leave to amend and an accompanying amendment, filed by Tavitac Corporation (Tavitac); a request for extension of time to comment on Tavitac's petition, filed by Channel 24 Christian Television, Inc. (Channel 24); Channel 24's comments; Tavitac's motion to strike Channel 24's comments; [1] Channel 24's motion for extension of time to respond to Tavitac's motion to strike; Tavitac's reply; and other related pleadings.[2] Also before the Commission is Tavitac's amendment; an erratum thereto; Channel 24's amendment; and Tavitac's comment on Channel 24's amendment.[3]

2. Channel 24's and BAI's proposed antenna site locations each could result in interference to a nearby standard broadcast station. Accordingly, a grant of either of the aforementioned applications will be conditioned on the applicant's installation of detuning apparatus necessary to prevent adverse effects upon the radiation pattern of any affected standard broadcast station.

3. The applications of BAI and NSTP contemplate operating subscription television (STV) over their proposed facilities. These parties have applications for STV authorizations pending before the Commission. The STV applications will not be consolidated for hearing in this proceeding, however. STV is essentially an entertainment format comparable to other entertainment packages except that it is supported directly by viewers' subscriptions rather than by advertising revenues. Accordingly, the Commission's reluctance to compare applicants on the basis of entertainment formats expressed in *George E. Cameron, Jr. Communications*, 71 FCC 2d 460 (1979), provides ample precedent for precluding consideration of STV proposals in otherwise routine hearings on applications for television construction permits. If an applicant

---

[1] Tavitac's motion to strike and the subsequent pleadings filed by Tavitac and Channel 24 constitute unauthorized filings under Section 1.45(c) of the Commission's Rules, 47 CFR 1.45(c). However, inasmuch as they will not cause delay, we will permit their consideration. In both its petition and its motion to strike Tavitac described the circumstances which necessitated the filing of its amendment after the deadline for amending as of right had passed. Tavitac indicates that its original site became unavailable and that it exercised due diligence in both finding an alternate site and reporting the change to the Commission. Petitioner explicitly denounces any intention to accrue comparative advantage by virtue of filing of its amendment and points out that acceptance of the amendment would obviate the necessity for enlarging the hearing by inclusion of a site availability issue. The Bureau finds that petitioner has made the requisite good cause showing necessary for acceptance of a late filed minor amendment. 47 CFR 73.522(b)(1). Accordingly, we shall grant the petition to amend and accept the amendment.

[2] Both Channel 24 and Tavitac have requested an extension of time in order to respond to the other's pleading. Inasmuch as the extensions would not interfere with the Commission's procedures, they are granted.

[3] In *Revised Procedures for Processing of Contested Broadcast Applications*, 72 FCC 2d 202, 211 (1979), the Commission stated that once the time for amending as of right had passed, amendments filed pursuant to Section 1.65 will be permitted: "* * * provided that no comparative advantage is claimed thereby. * * *" Channel 24 filed a petition for leave to amend on January 14, 1981, beyond the date prescribed by the Commission for amending its application as of right. The amendment states that the applicant has applied for consent to assign its permit for a new noncommercial FM station in Alaska. Since the assignment of a broadcast interest could improve the applicant's comparative position, the amendment will be accepted pursuant to Section 1.65 of the Rules; however, no comparative advantage shall thereby be accrued.

proposing STV operation should prevail in this proceeding, its application for subscription television authorization will be promptly processed.

4. *Channel 24 Christian Television, Inc.* Analysis of the financial data submitted by the applicant reveals that $529,236 will be required to construct the proposed station and operate for three months, itemized as follows:

Equipment down payment	$282,716
Equipment payments with interest	74,820
Building	11,800
Operating costs including land rental (3 months)	60,900
Total	529,236

Channel 24 plans to finance construction and operation with the following funds: $525,000 in loan commitments from religious institutions and private individuals, $144,000 in donations, $78,000 in cash, and $822,000 in program commitments.

5. Applicant relies on $525,000 in loan commitments from various private parties to finance its station. However, only one lender, William O. Hammerbeck, has provided sufficient financial information to indicate he has adequate net liquid assets to meet his $35,000 commitment. Applicant cannot rely on $144,000 in donation pledges since it failed to provide donors' balance sheets indicating they have sufficient net liquid assets to meet their commitments. The *New Financial Qualifications Standard for Broadcast Television Applicants*, 72 FCC 2d 784 (1979), requires an applicant to demonstrate its ability to construct its proposed station and operate for three months without reliance upon broadcasting or other revenue. Therefore, applicant's reliance upon $822,000 in programming commitments is misplaced. Accordingly, an appropriate financial issue will be designated.

6. Two informal objections have been filed against the applicant. Barbara J. Safriet filed an informal objection on May 16, 1978, on behalf of the Healy Heights-Council Crest Neighborhood Association. Objector claims that placement of applicant's tower on Healy Heights would increase the level of non-ionizing radiation in the area, which she alleges presently has the highest such level in the country. G. Ray and Jeanne H. Steed filed an informal objection on May 19, 1978, which also expresses concern over an increase in non-ionizing radiation in the area. In addition, the Steeds fear that the tower would constitute a hazard to residences located near the tower. They claim that during the winter ice which forms on the upper sections of the tower would fall onto the houses located near the structure. The Commission has the statutory obligation, under the public interest standard of the Communications Act and other federal statutes, to consider the possible effects on public health and safety of the equipment the Commission licenses.[4] Because this agency does not possess the same level of expertise as do expert agencies with regard to the biological effects of non-ionizing radio frequency radiation, the Commission ordinarily refers to the standards set by expert agencies such as the Occupational Safety and Health Administration (OSHA) and the Environmental Protection Agency (EPA).[5] Although OSHA and the American National Standards Institute (ANSI) have both adopted a standard of 10 mW/cm2 for short-term exposure to non-ionizing radiation, there is no national standard as of yet with regard to general population exposure. The EPA is currently considering proposing a general population exposure standard. If it does, the Commission may take that standard into account in its licensing proceedings. Since no national standard now exists,[6] and since the level of radiation measured at Healy Heights is well below the short-term exposure standard, we decline to specify an issue regarding the health effects of electromagnetic radiation in this proceeding.[7] Further no issue will be designated concerning the potential ice hazard the tower might pose to surrounding residences. We consider this a matter within the ambit of local health, safety and zoning agencies. Accordingly, the informal objections of Barbara Safriet and G. Ray and Jeanne H. Steed shall be denied.

7. *National Subscription Television of Portland, Inc.* Analysis of the financial data submitted by NSTP reveals that $1,491,500 will be required to construct the proposed station and operate for three months, itemized as follows:

Equipment down payment	$782,500
Equipment payments with interest	208,000
Land (down payment only)	220,000
Building	30,000
Miscellaneous	82,000
Operating costs (3 months)	159,000
Total	1,491,500

NSTP plant to finance construction and operation with the following funds: a $3,350,000 loan from Tandem Productions Inc. (Tandem) and $10,000 in existing capital.

8. An applicant must list all of its anticipated expenditures. See Form 301, Section III, page 1, question 1(a). Applicant states that it will spend $220,000 as a down payment for its land. However, applicant failed to disclose the full purchase price of the land. Accordingly, an issue will be specified to determine what the purchase price of the land will be and what portion of it, if any, must be paid during the first three months of operation.

9. FCC Form 301, Section III, question 4(b) requires any party (except an equipment manfacturer or financial institution) loaning an applicant more than one percent of its needed capital, to provide a balance sheet which indicates the party's financial ability to comply with the terms of the agreement. Tandem plans to lend NSTP $3,350,000. However, Tandem submitted a financial statement which failed to segregate its current liabilities from its long-term liabilities. Thus, it is impossible to determine whether Tandem has net liquid assets sufficient to fulfill its loan commitment. Further, Tandem's last loan commitment letter has expired, and, according to the letter: "Extensions of this commitment * * * are subject to further resolution of the Board of Directors of Tandem." In light of the absence of a further extension of Tandem's loan commitment and Tandem's failure to demonstrate it has net liquid assets sufficient to fulfill its loan commitment, NSTP cannot rely on the loan. However, NSTP has shown it has $10,000 in existing capital. Accordingly, an issue will be designated to determine whether over and above the $10,000 mentioned above, applicant can obtain the additional funds necessary to construct and operate its proposed television station for three months.

---

[4] *See Notice of Inquiry on the Responsibility of the Federal Communications Commission to Consider the Biological Effects of Radio Frequency Radiation*, 44 FR 37008, 37010 (1979).

[5] *Id.*

[6] While a national standard has not yet been formulated, the city of Portland has set a general exposure standard. The city's zoning code permits the construction and operation of broadcast transmitter facilities if the additional transmitter would not result in a threat to health or safety as defined by the general population exposure standards adopted by the City on Jan. 8, 1980. *See Standards for General Population Exposure to Microwave and Radiofrequency Emissions* (Jan. 8, 1980), Special Supplement to Nov. 16, 1979, Staff Report to the Portland Planning Commission.

[7] Dr. Richard A. Tell of the EPA measured radiation at level of 14–153 uW/cm2 in the Healy Heights neighborhood. Letter from Richard A. Tell to Dr. William E. Morton, 10/17/77. This level is about 100 times lower than the 10 mW/cm2 standard for short-term exposure, and is about 10 times lower than the general population long-term exposure standard of 1 mW/cm2 in force or under consideration by several other countries. *See Notice of Inquiry on the Responsibility of the Federal Communications Commission to Consider the Biological Effects of Radio Frequency Radiation*, *supra* at 37011

10. *Broadcast Associates, Inc.* Analysis of the financial data submitted by applicant reveals that $1,254,920 will be required to construct the proposed station and operate it for three months, itemized as follows:

Equipment (rental)	$367,920
Land	112,000
Building	80,000
Miscellaneous	250,000
Operating costs (3 months)	375,000
Total	1,254,920

BAI plans to finance construction and operation with the following funds: $1,250,000 in capital contributions from its shareholders, $66,667 from American Subscription of Portland, and $1,815 in cash.

11. BAI relies on $1,250,000 in capital contributions from its shareholders. Applicant's reliance is misplaced since it neglected to provide a copy of the agreement binding its shareholders to contribute and failed to provide shareholders' balance sheets indicating the availability of sufficient net liquid assets. Applicant also relies on payment of $66,667 from American Subscription of Portland, Inc. (ASTP) to finance the construction and operation of its proposed station for the first three months. BAI alleges that ASTP has guaranteed payment of $66,667 for use of applicant's air-time during the first three months of operation. Payment presupposes the grant of applicant's subscription television application. Since the grant of a construction permit and the authorization of subscription television service are made independently, BAI's reliance upon $66,667 in subscription television commitments is misplaced. Accordingly, an appropriate financial issue will be designated.

12. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

13. Accordingly, It is ordered, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications Are Designated for Hearing in a Consolidated Proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine whether Channel 24 Christian Television, Inc., has an additional $416,236 to finance the construction and operation of its proposed station.

2. To determine, based on the evidence adduced above, whether Channel 24 Christian Television, Inc. is financially qualified.

3. To determine with respect to National Subscription Television of Portland, Inc.:

(a) The full purchase price of the land applicant plans to buy;

(b) What portion of the purchase price, if any, must be paid during the first three months of operations;

(c) In light of the evidence adduced pursuant to (a) and (b) what applicant's proposed station would cost to construct and operate for three months;

(d) The availability of additional funds over and above the $10,000 indicated; and

(e) Whether in light of the evidence adduced pursuant to (a) through (d), applicant is financially qualified.

4. To determine whether Broadcast Associates, Inc., has or can obtain an additional $1,253,105 to finance the construction and operation of its proposed station.

5. To determine, based on the evidence adduced above, whether Broadcast Associates, Inc. is financially qualified.

6. To determine which of the proposals would, on a comparative basis, best serve the public interest.

7. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

14. It is further ordered, That, in the event of a grant of the application of Channel 24 Christian Television, Inc., the construction permit shall be subject to the following condition:

Applicant will install and maintain any detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the affected standard broadcast station, KPAM.

15. It is further ordered, That, in the event of grant of the application of Broadcast Associates, Inc., the construction permit shall be subject to the following condition:

Applicant will install and maintain any detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the affected standard broadcast station, KYTE.

16. It is further ordered, That the informal objections filed by Barbara Safriet and G. Ray and Jeanne H. Steed are denied.

17. It is further ordered, That the petition to amend filed by Tavitac Corporation is granted; its amendment is accepted; its motion to strike Channel 24's comments is denied; Channel 24's petition to amend filed January 14, 1981, is granted; and its amendment is accepted.

18. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein shall, pursuant to Section 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission in triplicate a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

19. It is further ordered, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and Section 73.3594 of the Commission's Rules, give notice of the hearing (either individually or, if feasible and consistent with the Rules, jointly) within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

Richard J. Shiben,

Chief, Broadcast Bureau.

BILLING CODE 6712-01-M

[Report No. A-24]

FM Broadcast Applications Accepted for Filing and Notification of Cut-Off Date

Released: March 11, 1981.

Cut-Off Date: April 27, 1981.

Notice is hereby given that the applications listed in the attached appendix are hereby accepted for filing. They will be considered to be ready and available for processing after April 27, 1981. An application, in order to be considered with any application appearing on the attached list or with any application on file by the close of business on April 27, 1981, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C., not later than the close of business on April 27, 1981.

Petitions to deny any application on this list must be on file with the Commission no later than the close of business on April 27, 1981.

Notice is also given that the application listed below seeking interim authority to operate the facilities of former stations WMJX (FM), Miami, Florida has been accepted for filing. It will be considered to be ready and available for processing after April 27,

1981. Any other parties who will not be applicants for permanent authority to operate these facilities, in order to be entitled to consideration, should file by the close of business on April 27, 1981.

BILLING CODE 6712-01-M

Study Group A of the U.S. Organization for the International Telegraph and Telephone Consultation Committee (CCITT); Meeting

March 10, 1981.

The Department of State announces that Study Group A of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT) will meet on March 25, 1981 at 10:00 a.m. in Room 856, of the Federal Communications Commission, 1919 M Street, N.W., Washington, D.C. This Study Group will deal with U.S. Government aspects of international telegram and telephone operations and tariffs.

The Study Group will discuss international telecommunications questions relating to telgraph, telex, new record services, data transmission and leased channel services in order to develop U.S. positions to be taken at upcoming international CCITT meetings. In particular, this meeting of Study Group A will examine the questions and contributions relating to the upcoming May, 1981 meeting of CCITT Study Group I.

Members of the general public may attend the meeting and join in the discussion subject to instructions of the Chairman. Admittance of public members will be limited to the seating available.

Requests for futher information should be directed to Earl S. Barbely, Federal Communications Commission, Washington, D.C., telephone (202) 632–3214.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Privacy Act of 1974; Addition of New Routine Use to an Existing System of Records

AGENCY: Federal Emergency Management Agency.

ACTION: Proposed addition of a new routine use to an existing FEMA system of records entitled, "National Flood Insurance Application and Related Documents Files—FEMA/FIA–2."

SUMMARY: The purpose of this proposal is to give notice that an additional routine use "* * *; to State and local government individual and family grant and assistance agencies which furnish

to the Federal Insurance Administration the names and addresses of policyholders for purposes consistent with relocation projects of the Federal Insurance Administration and acquisition projects under the National Flood Insurance Program carried out pursuant to Section 1362 of the National Flood Insurance Act of 1973, as amended, and to State and local government agencies engaged in floodplain management improved real property acquisition and relocation projects consistent with the National Flood Insurance Program." is being proposed to be added to the National Flood Insurance Application and Related Documents Files. We believe that this action is necessitated in order for a State or local government to meet the Federal Insurance Administration's guidelines for "Community Initiated" acquisition (45 FR 59220) of property located in a floodplain zone for recreation purposes. The specific text of the guidelines can be found in the referenced Federal Register. We believe that the purpose for which the National Flood Insurance Application and Related Documents Files system of records was established is consistent with our proposed routine use addition as the purpose for carrying out the National Flood Insurance Program. As such, we do not believe that the new routine use meets the criteria for filing a report to Congress or OMB and we have not done so. We would, however, welcome any comments that they may have as well as those comments from the general public on our proposed new routine use.

In an effort to economize on the cost of publication in the Federal Register, we are publishing only the sections of the system of records affected by this notice. For clarification purposes, the entire text of the routine use section is being reprinted. The remaining portions of the system can be viewed in the October 14, 1980, Federal Register, 45 FR 67841.

DATE: Any interested parties may submit written comments regarding this proposal. To be considered, comments must be received on or before April 16, 1981. Unless comments are received on or before that date which would result in a contrary determination, the routine use will become effective as proposed without further notice on April 16, 1981.

ADDRESS: Address comments to the Rules Docket Clerk, Federal Emergency Management Agency, (Room 801), 1725 I Street, N.W., Washington, D.C. 20472. Comments received will be available for public inspection at the above address from 9 a.m. to 4 p.m. during normal working days.

FOR FURTHER INFORMATION CONTACT: Linda M. Keener, Office of Public Affairs, (202) 634–6772.

SUPPLEMENTARY INFORMATION: Based on the above reasons outlined under the Summary section, the Federal Emergency Management Agency finds it necessary to include the following routine use in the "National Flood Insurance Application and Related Documents Files." (The new language is italicized).

FEMA/FIA–2

SYSTEM NAME:

National Flood Insurance Application and Related Documents Files.

* * * * *

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To property loss reporting bureaus, State insurance departments, and insurance companies investigation fraud or potential fraud in connection with claims, subject to the approval of the Office of Inspector General, FEMA; for use of insurance agents, brokers and adjusters, and lending institutions for carrying out the purposes of the National Flood Insurance Program; to Small Business Administration, the American Red Cross, the Federal Disaster Assistance Administration, the Farmers Home Administration; State and local government individual and family grant and assistance agencies, including but not limited to the State of Ohio Disaster Services Agency and the Johnstown, Pennsylvania, Redevelopment Authority for determining eligibility for benefits and for verification of nonduplication of benefits following a flooding event or disaster; *To State and local government individual and family grant and assistance agencies which furnish to the Federal Insurance Administration the names and addresses of policyholders for purposes consistent with relocation projects of the Federal Insurance Administration and acquisition projects under the National Flood Insurance Program carried out pursuant to Section 1362 of the National Flood Insurance Act of 1973, as amended, and to State and local government agencies engaged in floodplain management improved real property acquisition and relocation projects consistent with the National Flood Insurance Program.*

* * * * *

Dated: March 3, 1981.

Peg Maloy,

Acting Director, Office of Public Affairs, Federal Emergency Management Agency.

BILLING CODE 6718-01-M

FEDERAL MARITIME COMMISSION

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for review and approval, if required, pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10423; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before March 26, 1981. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Agreements Nos.: T–3955 and T–3955–1.

Filing Party: Mr. T. Terrell Sessums, General Counsel, Tampa Port Authority, P.O Box 2192, 811 Wynkoop Road, Tampa, Florida 33601.

Summary: Agreement No. T–3955, between the Tampa Port Authority (authority) and Mitsui & Co. (U.S.A.), Inc. (Tenant) provides that the Authority will construct and/or acquire phosphoric acid storage tanks up to 30,000 tons capacity along with rail unloading facilities and other related facilities and equipment at Big Bend Terminal, Hillsborough County, Florida. To finance the project, the Authority has

authorized issuance of Special Purpose Revene Bonds not exceeding $3,000,000 and Refunding Revenue Bonds not exceeding $17,000,000. The Authority will lease the project to the Tenant with an option to purchase the project, reserving the Authority easements for ingress and egress. Tenant will pay rent to the Authority annually in an amount equal to the tax factor provided by the Laws of Florida. The lease commences upon the date the bonds have been issued and delivered to the purchaser(s) and expires on March 1, 1991, or on such date as all the bonds have been paid and retired.

Agreement No. T-3955-1 amends Section 503 of the basic agreement by changing Clause (b) thereto, in the computation of the Advalorem Tax Rate in determining the amount of the annual rental for the premises.

By order of the Federal Maritime Commission.

Dated: March 11, 1981.

Francis C. Hurney,

Secretary.

[FR Doc. 81-8003 Filed 3-16-81; 8:45 am]

BILLING CODE 6730-01-M

Agreements Filed

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street NW., Room 10218; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, Louisiana; San Francisco, California; Chicago, Illinois; and San Juan, Puerto Rico. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before April 6, 1981. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

Agreement No.: T-3712-3.

Filing Party: R. F. Brimo, Treasurer, Global Terminal and Container Services, Inc., P.O. Box 273, Jersey City, New Jersey 07303.

Summary: Agreement No. T-3712-3, between Global Terminal and Container Services, Inc. (Global) and Italian Line (IL) modifies the parties' basic agreement whereby Global provides and performs for IL container, terminal, stevedoring and LCL cargo handling services for containers and RO/RO cargo, to be loaded onto or discharged from IL's owned or controlled vessels operating between the Port of New York and the Mediterranean.

The purpose of the modification is to extend the term of the agreement to May 31, 1982, and to increase the number of storage units per day to 600 empty containers.

Agreement No.: T-3952.

Filing Party: E. F. Brimo, Treasurer, Global Terminal and Container Services, Inc., P.O. Box 273, Jersey City, New Jersey 07303.

Summary: Agreement No. T-3952, between Global Terminal and Container Services, Inc. (Global) and Korea Shipping Corporation (KSC), provides that Global will furnish the necessary equipment and labor for the performance of comprehensive terminal and stevedoring services for KSC at the Port of New York. As compensation, KSC shall pay Global at rates in accordance with schedules attached to the agreement. The agreement's term is 5 years and is a renewal of Agreement No. T-3716 which expired on February 19, 1981.

Agreement No.: T-3953.

Filing Party: E. F. Brimo, Treasurer, Global Terminal and Container Services, Inc., P.O. Box 273, Jersey City, New Jersey 07303.

Summary: Agreement No. T-3953, between Global Terminal and Container Services, Inc. (Global) and Orient Overseas Container Line (OOCL), provides that Global will furnish the necessary equipment and labor for the performance of comprehensive terminal and stevedoring services for OOCL at the Port of New York. As compensation, OOCL shall pay Global at rates in accordance with schedules attached to the agreement. The term of the agreement is 5 years.

Agreements Nos. T-3954 and T-3954-1.

Filing party: Mr. David C. Weigel, Deputy Attorney General, Offices of Attorney General, 219—State House, Indianapolis, Indiana 46204.

Summary: Agreement No. T-3954, between the Indiana Port Commission (Port) and the Mapco Land Corporation (Lessee) provides for the lease of 63.55 acres at the Southwind Maritime Centre, on the Ohio River near Mt. Vernon, Indiana. The Lessee will use the premises to store and ship coal and/or other ores. The primary term of the lease is 30 years, with renewal options for 7 successive terms of up to 10 years each, with Lessee determining the exact length of any term if any term is not a full 10 years. Lessee shall pay no rent to the Port for the first lease year; during the next 3 years an annual rent of $52,000 will be paid; the fifth lease year the rental will be $1,800 per acre; every 5 year interval thereafter for the remaining term of the lease the annual rental will be $1,800 per acre. Wharfage will be paid by Lessee to the Port as per schedule shown in the agreement. Lessee will construct the necessary facilities to ship their anticipated volume. The Port agrees to construct, at its expense up to $1,500,000, a barge mooring at the facility.

The purpose of Agreement No. T-3954-1 is to: (a) amend Section IV of the basic lease by providing that the Lessee will construct its facilities on a 63.5 acre site as described in Exhibit "A" of the agreement; (b) amend easements at the leased premises; (c) to provide Lessee shall be liable for any crop damage occurring by its practices; and (d) to include an Exhibit "C" in the amendment indicating the Port's jurisdiction over Maritime Activities along the bank of the Ohio River at Southwind Maritime Centre.

Agreement No. T-3956.

Filing party: Mr. Robert W. Goethe, Assistant Executive Director, Georgia Ports Authority, P.O. Box 2406, Savannah, Georgia 31402.

Summary: Agreement No. T-3956, between Georgia Ports Authority (Port) and Moller Steamship Co., Inc., as agent for Maersk Line (Lessee), provides for the one-year lease and exclusive use of certain paved premises located within Container Central at Garden City Terminal, Chatham County, Georgia. The premises will be used for the storage and handling of Lessee's containers, including trailers and chassis used to transport containers, which will be handled on and off ships using Port's facilities only. The parties agree to a fixed monthly rental of $1,900 during the lease term, plus applicable port tariff charges. The agreement contemplates that Lessee will generate no less than 320 short tons of containerized cargo, per parking slot, subject to allowances for operational time loss. The parties further agree to indemnification, assignment and subletting, berthing rights, and other terms provided for in the agreement.

Agreement No. T-3957.

Filing party: Mr. John E. Nolan, Assistant Port Attorney, Port of Oakland, Box 2064, 66 Jack London Square, Oakland, California 94604.

Summary: Agreement No. T-3957, between the Port of Oakland (Port) and Neptune Orient Lines (Neptune) provides for the nonexclusive preferential assignment of certain premises, including two container cranes, in the Port of Oakland. As compensation, Neptune will pay Port a minimum of $1,280,000 per annum in tariff charges and a minimum of $666,000 per annum in crane rental charges. The term of the agreement is for 10 years, with the option to terminate the agreement at the end of the fifth year.

Agreement No. 5600-41.

Filing party: Charles F. Warren, Esquire, Attorney-in-Fact, Warren & Associates, P.C., 1100 Connecticut Avenue, N.W., Washington, D.C. 20036.

Summary: Agreement No. 5600-41 would amend various articles of the Philippines

North America Conference Agreement for the purpose of (1) allowing each group to permit operations via substituted overland service, either at origin or destination; (2) eliminating the unanimity requirement for effecting changes in the agreement; (3) changing the voting requirement for effecting decisions at conference meetings on matters relating to general conference business, general rate increases, open rates, and tariff matters; (4) changing the voting and time requirements necessary for effecting decisions by telephone ballot; (5) eliminating the provision which permits the use of a circular ballot; and (6) interposing a cargo-lifting requirement in lieu of a sailing requirement in order to maintain voting privileges.

Agreement No. 10412.

Filing party: Lawrence K. Sandness, Esquire, Cummings & Lockwood, 10 Stamford Forum, Stamford, Connecticut 06904.

Summary: The subject agreement, between Societe Ivoirienne de Transport Maritime (SITRAM) and Farrell Lines, Inc., (Farrell), provides that SITRAM may charter space on Farrell's vessels operating between the Ivory Coast and the United States according to terms set forth in the agreement.

By Order of the Federal Maritime Commission.

Dated: March 11, 1981.

Francis C. Hurney,

Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Bank Holding Company; Proposed de Novo Nonbank Activities

The bank holding company listed in this notice has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(1) of the Board's Regulation Y (12 CFR § 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to the application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on the application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for the application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than April 7, 1981.

A. *Federal Reserve Bank of New York* (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

Citicorp, New York, New York (finance, servicing, and insurance activities; Washington): to engage through its subsidiary, Citicorp Washington Financial Center, Inc., in the activities of making or acquiring consumer loans; extending credit to dealers for the purposes of financing inventory and working capital; purchasing and servicing for its own account of sales finance contracts; making mortgage loans for its own account or the account of others and servicing such loans; and acting as agent or broker for the sale of credit-related life, accident and health, and property and casualty insurance in connection with extensions of credit. Citicorp would also engage in these activities through its subsidiary, Citicorp Washington Industrial Loan Company (Domestic), but would also engage through this subsidiary in the activity of servicing extensions of credit for any person. These activities would be conducted from an office in Kennewick, Washington, serving the entire State of Washington.

B. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, March 10, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Republic of Texas Corporation; Acquisition of Bank

Republic of Texas Corporation, Dallas, Texas, has applied for the Board's approval under 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares) of the voting shares of Security National Bank, Austin, Texas. The factors that are considered in acting on the application are set forth in 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than April 9, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, March 10, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Companies; Notice of Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify

clearly the specific application to which they relate, and should be submitted in writing and, except as noted, received by the appropriate Federal Reserve Bank not later than April 10, 1981.

A. *Federal Reserve Bank of New York* (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045.

Citicorp, New York (consumer finance and insurance activities; Virginia): to expand the service area of two existing offices of its indirect subsidiary, Citicorp Person-to-Person Financial Center, Inc., located in Richmond, Virginia, and Norfolk, Virginia. The previously approved activities of the two offices are: the making or acquiring of loans and other extensions of credit, secured or unsecured, for consumer and other purposes; the extension of loans to dealers for the financing of inventory (floor planning) and working capital purposes; the purchasing and servicing for its own account of sales finance contracts; the sale of credit related life and accident and health or decreasing or level (in the case of single payment loans) term life insurance by licensed agents or brokers, as required; the sale of credit related vendor's single interest insurance protecting real and personal property subject to a security agreement with Citicorp Person-to-Person Financial Center, Inc., to the extent permissible under applicable state insurance laws and regulations; and the servicing, for any person, of loans and other extensions of credit. The proposed expanded service area of both offices would be comprised of the entire state of Virginia for all of the aforementioned activities; except that this application would not expand the service area for the sale of credit related property and casualty insurance. Credit related life, accident, and health insurance may be written by Family Guardian Life Insurance Company, an affiliate of Citicorp Person-to-Person Financial Center, Inc.

B. *Federal Reserve Bank of Cleveland* (Harry W. Hunning, Vice President) 1455 East Sixth Street, Cleveland, Ohio 44101:

Pittsburgh National Corporation, Pittsburgh, Pennsylvania (mortgage banking; Arizona): to engage *de novo* through its subsidiary, The Kissell Company, in mortgage banking activities, including the making or acquiring and servicing for its own accounts and/or the accounts of others, loans and other extensions of credit. Such activities will be conducted from an office of the subsidiary located in Tucson, Arizona, serving the metropolitan Tucson, Arizona area and the counties of Pima, Cochise, Graham, Pinal, and Yuma, Arizona. Comments on this application must be received not later than April 13, 1981.

C. *Federal Reserve Bank of Kansas City* (Thomas M. Hoenig, Assistant Vice President), 925 Grand Avenue, Kansas City, Missouri 64198:

Southwest Bancshares Corporation, Oklahoma City, Oklahoma (insurance agency activities; Oklahoma): to engage through a *de novo* subsidiary, Southwest Bancshares Insurance Agency, Inc., in the sale as agent or broker of credit life and accident insurance in connection with extensions of credit by Applicant's banking subsidiary, Farmers and Merchants Bank, Eufaula, Oklahoma, from an office in Eufaula, Oklahoma, and will serve the area served by Farmers and Mechants Bank.

D. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, March 11, 1981.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Alcohol, Drug Abuse, and Mental Health Administration

National Advisory Bodies; Meetings

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following national advisory bodies scheduled to assemble during the month of April 1981.

Community Alcoholism Services Review Committee: April 1–6; 7:00 p.m., Ramada Inn Hotel, 1251 West Montgomery Avenue, Rockville, Maryland 20850, Open—April 1: 7:00 to 9:30 p.m., Closed—Otherwise. Contact: Phillip Dawes, Room 16C–26, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857 (301) 443–6470.

Purpose: The Community Alcoholism Services Review Committee is charged with the initial review of grant applications for Federal assistance in the program area administered by the National Institute on Alcohol Abuse and Alcoholism (NIAAA) relating to alcoholism service activities and makes recommendations to the National Advisory Council on Alcohol Abuse and Alcoholism for final review.

Agenda: From 7:00 to 9:30 p.m. on April 1, the meeting will be open for reports and discussion of administrative and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, ADAMHA, pursuant to the provisions of Section 552b(c)(6), Title 5 U.S. Code and Section 10(d) of Pub. L. 92–463 (5 U.S.C. Appendix I).

Mental Health Small Grant Review Committee, April 6–9; 1:30 p.m., The Gramercy Inn, Parkview and Westview Rooms, and Room 331, 1616 Rhode Island Avenue, N.W., Washington, D.C. 20036, Open—April 6; 1:30–2:30 p.m., Closed—Otherwise. Contact: LaVerl P. Klein, Room 9–104, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443–4843.

Purpose: The Mental Health Small Grant Review Committee is charged with the initial review, based on the scientific and technical merit of applications submitted to the NIMH for Federal assistance of activities for research in all disciplines pertaining to alcohol, drug abuse, and mental health, including psychology, sociology, anthropology, psychiatry, and the biological sciences, and makes recommendations to the National Advisory Councils of the respective Institutes for final review.

Agenda: From 1:30–2:30 p.m. on April 6, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be peforming initial review of grant applications for Federal assistance and will not be open to the public in

accordance with the determination by the Acting Administrator, ADAMHA, pursuant to the provisions of Section 552b(c)(6), Title 5 U.S. Code and Section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

The Treatment and Rehabilitation Work Group of the Interagency Committee on Federal Activities for Alcohol Abuse and Alcoholism: April 7; 10:00 a.m.—Open, Conference Room N, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857. Contact: David Clough, Room 11-19, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443-2070.

Purpose: The functions of the Work Group are to evaluate all Federal efforts in the areas of alcohol abuse and alcoholism treatment and rehabilitation, provide for the communication and exchange of information necessary, and seek to coordinate and enhance these programs and activities, and submit recommendations to the Interagency Committee, as necessary.

Agenda: Tentative agenda items include updated reports from work group members, and a report on criminal justice/alcoholism treatment issues.

Substantive information may be obtained from the contact persons listed above. Summaries of the meetings and rosters of Committee members for NIMH will be furnished upon request by Mrs. Ruth Gorin, Office of the Associate Director for Extramural Programs, Room 9-95, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443-4333. For NIAAA: Ms. Helen Garrett, Committee Management Officer, Room 16C-21, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443-2860.

Dated: March 11, 1981.

Elizabeth A. Connolly,

Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

BILLING CODE 4110-88-M

Food and Drug Administration

Advisory Committees; Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a)(1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), and FDA regulations (21 CFR Part 14) relating to advisory committees.

The following advisory committee meetings are announced:

Endocrinologic and Metabolic Drugs Advisory Committee

Date, time, and place. April 6 and 7, 9 a.m., Conference Rm. F, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.

Type of meeting and contact person. Open public hearing, April 6, 9 a.m. to 10 a.m.; open committee discussion, April 6, 10 a.m. to 11 a.m.; closed presentation of data, April 6, 11 a.m. to 12 m.; open committee discussion, April 6, 1 p.m. to 5 p.m., April 7, 9 a.m. to 5 p.m.; A. T. Gregoire, Bureau of Drugs (HFD-130), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3542.

General function of the Committee. The Committee reviews and evaluates available data on the safety and effectiveness of marketed and prescription drugs for use in endocrine and metabolic disorders.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee.

Open committee discussion. The Committee will discuss the FDA action report; tumorigenicity of lopid lowering agents; Ciprofibrate (IND 10,769); Lopid (NDA 18-422), a lipid lowering agent; subcommittee report on regulatory criteria for lipid-altering agents; new uses for marketed durgs; anabolic steroids for the treatment of refractory anemia; and Cibacalcin (NDA 18-470).

Closed presentation of data. The Committee will discuss unpublished clinical data relating to IND 10,769. This portion of the meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552b(c)(4)).

Applications for reimbursement. Must be submitted by March 25, 1981.

Anesthesiology Device Section of the Respiratory and Nervous System Devices Panel

Date, time, and place. April 13, 9 a.m., Rm. 1409, 200 C St. SW., Washington, DC.

Type of meeting and contact person. Open public hearing, 9 a.m. to 10 a.m.; open committee discussion, 10 a.m. to 12 m.; closed presentation of data, 12 m. to 1 p.m.; open committee discussion, 1 p.m. to 4 p.m.; David S. Shindell, Bureau of Medical Devices (HFK-430), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 20910, 301-427-8228.

General function of the Committee. The Committee reviews and evaluates available data on the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested persons may present data, information, or views, orally or in writing, on issues pending before the Committee. Those desiring to make formal presentations should notify the contact person before March 30, 1981, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time required to make their comments.

Open committee discussion. The Committee will review and discuss the safety and effectiveness data for the endotracheal tube changer submitted in support of premarket approval application P800068, and data for the transcutaneous carbon dioxide monitor submitted in support of premarket approval application P800043.

Closed presentation of data. The sponsor of premarket approval application P800043 will present information concerning the device and respond to questions from the Panel members. This portion of the meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552b(c)(4)).

Applications for reimbursement. Must be submitted by March 30, 1981.

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this Federal Register notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be requested from the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 14.

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. The Federal Advisory Committee Act (FACA), as amended by the Government in the Sunshine Act (Pub. L. 94–409), permits such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed, however, shall be closed for the shortest possible time, consistent with the intent of the cited statutes.

The FACA, as amended, provides that a portion of a meeting may be closed where the matter for discussion involves a trade secret; commercial or financial information that is privileged or confidential; information of a personal nature, disclosure of which would be a clearly unwarranted invasion of personal privacy; investigatory files compiled for law enforcement purposes; information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action; and information in certain other instances not generally relevant to FDA matters.

Examples of portions of FDA advisory committee meetings that ordinarily may be closed, where necessary and in accordance with FACA criteria, include the review, discussion, and evaluation of drafts of regulations or guidelines or similar preexisting internal agency documents, but only if their premature disclosure is likely to significantly frustrate implementation of proposed agency action; review of trade secrets and confidential commercial or financial information submitted to the agency consideration of matters involving investigatory files compiled for law enforcement purposes; and review of matters, such as personnel records or individual patient records, where disclosure would constitute a clearly unwarranted invasion of personal privacy.

Examples of portions of FDA advisory committee meetings that ordinarily shall not be closed include the review, discussion, and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices; consideration of labeling requirements for a class of marketed drugs or devices; review of data and information on specific investigational or marketed drugs and devices that have previously been made public; presentation of any other data or information that is not exempt from public disclosure pursuant to the FACA, as amended; and, notably deliberative sessions to formulate advice and recommendations to the agency on matters that do not independently justify closing.

Applications for reimbursement for participation in the meetings listed above should be sent to the Office of Consumer Affairs (HFE–88), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, rather than to the Dockets Management Branch as prescribed in § 10.210 of the regulations (21 CFR 10.210). If you wish to submit an application or wish more information regarding the reimbursement program, please call 301–443–3170.

FDA has established expedited procedures for review of any application for reimbursement for participation in the meetings announced in this notice. The Office of Consumer Affairs, FDA, will file any application for reimbursement for participation in the meetings announced in this notice in the docket for this notice.

Dated: March 9, 1981.

Mark Novitch,

Acting Commissioner of Food and Drugs.

[FR Doc. 81-8089 Filed 3-16-81; 8:45 am]

BILLING CODE 4110-03-M

[Docket No. 80D-0278]

Single-Entity Barbiturates; Class Labeling Guidance; Correction

AGENCY: Food and Drug Administration.

ACTION: Correction.

SUMMARY: In FR Doc. 80–35842 appearing at page 76356 in the Federal Register of Tuesday, November 18, 1980, various corrections are made.

FOR FURTHER INFORMATION CONTACT: Agnes Black, Federal Register Writer (HFC–11), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–2994.

SUPPLEMENTARY INFORMATION: The notice on single-entity barbiturates contains various errors. Corrections are made as follows:

1. At page 76356, first column, the seventh and eighth lines under "Supplementary Information" are changed to read "each product within the drug class because all drugs in the class are closely related".

2. At page 76357, third column, fifth line under the heading "Barbiturate Class Labeling," "sybhypnotic" should read "subhypnotic".

3. At page 76358, under the structural formula for butabarbital sodium, "Sodium 5-*sec*-butyl-5-ethylbarbiturate" should read "Sodium 5-sec-butyl-5-ethylbarbiturate".

4. At page 76361 under Table 2., the "Reference" for "Hexobarbital" should read "1 [illegible]", and the "Reference" for "Secobarbital" should read "1 and 38."

5. At page 76361, third column, the eighth line under item 3. should read: "sedatives in the postoperative surgical period."

6. At page 76362, second column, in the sixth line of item 2., change "cortixosteroid" to "corticosteroid".

7. At page 76362, third column, the eleventh line under item 2. should read "sufficient evidence that phenobarbital sodium is".

8. At page 76363, first column, in the first line under the heading "Drug Abuse and Dependence" change the colon to a period.

9. At page 76363, third column, second line, change "60 mg" to "600 mg".

10. At page 76364, second column, under the heading "*Anticonvulsant use*" in the tenth line, change "29 mg" to "20 mg".

11. At page 76364, in Table 3., add the heading "Barbiturate Blood Level in ppm (μg/mL)" just above the list of barbiturates.

12. At page 76365, in Table 5., for the entry "Phenobarbital sodium" under the heading "Anticonvulsant" change "Status epilipticus 200 repeated in 6 hr as necessary" to "Status epilepticus 200 to 320 mg repeated in 6 hr as necessary."

13. At page 76365, in Table 5., for the entry "Amobarbital sodium" under the heading "Daytime sedation" change "30 to 50 2–3 times daily" to "30 to 50 mg 2–3 times daily.

14. At pages 76365–76366, under "References" make the following changes:

a. In item 2., change "1979" to "1969".

b. In item 6., change the first line to read: "Kales, A., et al., "Effectiveness of".

c. In item 13., change "K. G. Prescott" to "K. F. Prescott".

d. In item 27., change "Brabstad" to "Branstad", and change "Macromolecles" to "Macromolecules".

e. In item 29., change "Amylobaritone" to "Amylobarbitone".

f. In item 32., change "Pharmacolgica" to "Pharmacologica".

g. In item 61., change "Dephneylhydantoin" to "Diphenylhydantoin".

h. In item 63., change "Associaition" to "Association".

Dated: March 5, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

[Docket No. 80P-0366/CP]

Tomato Juice Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces that a temporary permit has been issued to the T. H. Richards Processing Co. to market test tomato juice from concentrate. The purpose of this temporary permit is to permit the applicant to measure consumer acceptance of the food.

DATES: This permit is effective for 15 months, beginning on the date the new food is introduced into or caused to be introduced into interstate commerce, but no later than June 15, 1981. However, the permit may terminate sooner, depending upon the final action on FDA's proposal to amend the standard of identity for tomato juice published in the **Federal Register** of May 9, 1978 (43 FR 19864). If the proposal is affirmed, the permit will terminate on the effective date of the final regulation. If the proposal is rejected, the permit will expire 30 days after such negative ruling on the proposal.

FOR FURTHER INFORMATION CONTACT: F. Leo Kauffman, Bureau of Foods (HFF–214), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–245–1164

SUPPLEMENTARY INFORMATION: In accordance with § 130.17 (21 CFR 130.17) concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), notice is given that a temporary permit has been issued to the T. H. Richards Processing Co., P.O. Box 2470, Sacramento, CA 95811. The permit covers limited interstate marketing tests of tomato juice that deviates from the standard of identity prescribed for tomato juice under § 156.145 (21 CFR 156.145). The product is prepared from tomato paste that complies with the requirements of § 155.191(a)(1) (21 CFR 155.191(a)(1)). The test product is equivalent to a single-strength tomato juice normally found in the marketplace. The finished product contains no less than 5.5 percent tomato soluble solids. The permit provides for the temporary marketing of 200,000 cases of twelve 46-ounce and 50,000 cases of forty-eight 5½-ounce containers of the product to be distributed in the States of Arizona, California, Colorado, Florida, Idaho, New Mexico, New York, Ohio, Oregon, and Washington.

The test product is to be packed at the T. H. Richards Processing Co. plant located in Sacramento, CA.

The principal display panel of the label states the product's name as "tomato juice from concentrate." Each of the ingredients used is stated on the label as required by the applicable sections of 21 CFR Part 101, except that the tomato ingredient complying with the requirements of § 155.191(a)(1) is declared as "tomato concentrate." This permit is effective for 15 months, beginning on the date the new food is introduced or caused to be introduced into interstate commerce, but no later than June 15, 1981. However, the permit may terminate sooner, depending upon the final action on FDA's proposal to amend the standard of identity for tomato juice published in the **Federal Register** of May 9, 1978 (43 FR 19864). If the proposal is affirmed, the permit will terminate on the effective date of the final regulation. If the proposal is rejected, the permit will expire 30 days after such negative ruling on the proposal.

Dated: March 3, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

[Docket No. 80H-0475]

Baurs-Krey Associates, Inc.; Premarket Approval of Weicon "™" (Tefilcon) Hydrophilic Contact Lens

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the Weicon "™" (tefilcon) Hydrophilic Contact Lens, sponsored by Baurs-Krey Associates, Inc., New York, NY. After reviewing the recommendation of the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel, FDA notified the sponsor that the application was approved because the device had been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by April 16, 1981.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Henry Goldstein, Bureau of Medical Devices (HFK–402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7445.

SUPPLEMENTARY INFORMATION: On March 7, 1980, Baurs-Krey Associates, Inc., New York, NY, submitted to FDA an application for premarket approval of the Weicon"™" (tefilcon) Hydrophilic Contact Lens. The application was reviewed by the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel, an FDA advisory committee, which recommended approval of the application. On November 19, 1980, FDA approved the application by a letter to the sponsor from the Acting Director of the Bureau of Medical Devices.

Before enactment of the Medical Device Amendments of 1976 (the amendments) (Pub. L. 94–295, 90 Stat. 539–583), soft contact lenses and solutions were regulated as new drugs. Because the amendments broadened the definition of the term "device" in section 201(h) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 321(h)), soft contact lenses and solutions are now regulated as class III devices (premarket approval). As FDA

explained in a notice published in the Federal Register of December 18, 1977 (42 FR 63472), the amendments provide transitional provisions to ensure continuation of premarket approval requirements for class III devices formerly regulated as new drugs. Furthermore, FDA requires, as a condition to approval that sponsors of applications for premarket approval of soft contact lenses or solutions comply with the records and reports provisions of Part 310 (21 CFR Part 310), Subpart D, until these provisions are replaced by similar requirements under the amendments.

A summary of the safety and effectiveness data on which FDA's approval is based is on file in the Dockets Management Branch (address above) and is available upon request from that office. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

The labeling of an approved contact lens states that the lens is to be used only with certain solutions for disinfection and other purposes. The restrictive labeling informs new lens users that they must avoid using inappropriate products, e.g., solutions for use with hard contact lenses. However, the restrictive labeling needs to be updated periodically to refer to new solutions that FDA approves for use with an approved contact lens. A sponsor who fails to update the restrictive labeling may violate the misbranding provisions of section 502 of the act (21 U.S.C. 352) as well as the Federal Trade Commission Act (15 U.S.C. 41–58), as amended by the Magnuson-Moss Warranty-Federal Trade Commission Improvement Act (Pub. L. 93–637). Furthermore, failure to update the restrictive labeling to refer to new solutions that may be used with an approved lens may be grounds for withdrawing approval of the application for the lens, under section 515(e)(1)(F) of the act (21 U.S.C. 360e (e)(1)(F)). Accordingly, whenever FDA publishes a notice in the Federal Register of the agency's approval of a new solution for use with an approved lens, the sponsor of the lens shall correct its labeling to refer to the new solution at the next printing or at any other time FDA prescribes by letter to the sponsor.

Opportunity for Administrative Review

Section 515(d)(3) of the act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the Federal Register. If FDA grants the petition, the notice will state the issues to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before April 16, 1981, file with the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, four copies of each petition and supporting data and information identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 9, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

[Docket No. 81M-0071]

Becton Dickinson and Co.; Premarket Approval of BBL Sceptor System

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the BBL Sceptor System sponsored by Becton Dickinson and Co. Washington, DC. After reviewing the recommendation of the Microbiology Device Section of the Immunology and Microbiology Devices Panel, FDA notified the sponsor that the application was approved because the device has been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by April 16, 1981.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Henry A. Goldstein, Bureau of Medical Devices (HFK–402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7445.

SUPPLEMENTARY INFORMATION: On June 3, 1980, Becton Dickinson and Co., Washington, DC. submitted to FDA an application for premarket approval of the BBL Sceptor System, an antimicrobial agent susceptibility testing system. The application was reviewed by the Microbiology Device Section of the Immunology and Microbiology Devices Panel, an FDA advisory committee, which recommended approval of the application. On February 18, 1981, FDA approved the application by a letter to the sponsor from the Acting Director of the Bureau of Medical Devices.

A summary of the safety and effectiveness data on which FDA's approval is based is on file in the Dockets Management Branch (address above) and is available upon request from that office. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and of FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of

material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before April 16, 1981, file with the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, four copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 9, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110–81–M

Office of Human Development Services

Advisory Board on Child Abuse and Neglect; Meeting

Notice is hereby given, pursuant to Public Law 92–463, of the meeting of the Advisory Board on Child Abuse and Neglect, April 6–7, 1981, Hyatt-Regency Hotel, Milwaukee, Wisconsin. The meeting on April 6 is scheduled to begin at 6 p.m. The April 7 meeting will begin at 12 noon.

The Advisory Board on Child Abuse and Neglect was established by the Department of Health and Human Services to assist the Secretary in coordinating programs and activities related to child abuse and neglect planned, administered, or assisted by the Federal agencies whose representatives are members of the Advisory Board. The Advisory Board shall also assist the Secretary in the development of Federal standards for child abuse and neglect prevention and treatment programs and projects.

At this meeting the Advisory Board will discuss the Future of Child Abuse and Neglect programs; a Coordination Plan; the National Conference on Child Abuse and Neglect and Needed Follow-Up to Conference Activities; Evaluation and Impacts of NCCAN's Service Improvement Program; and Final fiscal year 1981 Recommendations to the Secretary from the Advisory Board.

Further information on the Advisory Board meeting may be obtained from Ms. Arlene Taylor, National Center on Child Abuse and Neglect, Room 2008E, Donohoe Bldg., P.O. Box 1182, Washington, D.C. 20013, Telephone (202)245–2859.

Advisory Board meetings are open for public observation.

March 12, 1981.

Mamie J. Welborne,

Human Development Services, Committee Management Officer.

BILLING CODE 4110–88–M

DEPARTMENT OF THE INTERIOR

National Park Service

Gateway National Recreation Area; Gateway Advisory Commission Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act, that a meeting of the Gateway National Recreation Area Advisory Commission will be held commencing at 3 p.m., Monday, March 30, 1981, at 26 Federal Plaza, New York, N.Y., Room 3037A.

The Commission was established by Pub. L. 92–592 to meet and consult with the Secretary of the Interior on general policies and specific matters relating to the development of Gateway National Recreation Area.

The matters to be discussed at this meeting include:

1. FY 81 Budget Report: Status of funds, re: construction/planning/operations.
2. Fort Wadsworth.
3. Transportation planning: B9, B46 Buses.

New Business

1. Summer program.
2. Phase II, Floyd Bennett Field Plan.
3. Committee Reports.

The meeting will be open to the public. However, facilities and space to accommodate members of the public are limited, and persons will be accommodated on a first-come, first served basis. Any member of the public may file with the Commission, a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting or who wish to submit written statements, may contact Herbert S. Cables Jr., Superintendent, Gateway National Recreation Area, Headquarters, Building 69, Floyd Bennett Field, Brooklyn, N.Y. 11234, area code (212) 630–0353.

Minutes of the meeting will be available for inspection four weeks after the meeting at the Gateway National Recreation Area Headquarters Building.

Herbert S. Cables Jr.,

Superintendent.

BILLING CODE 4310–70–M

INTERSTATE COMMERCE COMMISSION

[Docket No. AB–6 (Sub–67F)]

Burlington Northern, Inc.—Abandonment—Near Starbuck and Villard in Pope County, MN; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a decision decided March 9, 1981, a finding which is administratively final was made by the Commission, Division 2, Acting as an Appellate Division, stating that the public convenience and necessity permit the abondment by Burlington Northern, Inc., of the portion of a line of a railroad from milepost 67.00 near Starbuck to milepost 51.81 at Villard, MN, a total distance of 15.39 miles in Pope County, MN, subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.—Abandonment Goshen*, ICC 91 (1979). A certificate of abandonment will be issued to Burlington Northern, Inc., based on the above-described finding of abandonment, within 15 days of publication of this notice, unless within that time the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued. The offer must be filed with the Commission and served concurrently on the applicant with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment

will be postponed. An offeror may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made on the Commission to set conditions or amount of compensation, a certificate of abandonment will be issued no later than 50 days after notice is published. Upon notification to the Commission of the execution of an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extension or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96-448, effective October 1, 1980). All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

Agatha L. Mergenovich,
Secretary.

[FR Doc. 81-8000 Filed 3-16-81; 12:30 pm]
BILLING CODE 7035-01-M

[No. AB-1 (Sub-98)]

Chicago and North Western Transportation Company—Abandonment Between Sycamore and Byron, IL; Notice of Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by decision decided February 23, 1981, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that the public convenience and necessity permit the abandonment by the Chicago and North Western Transportation Company of the line of railroad extending between milepost 57.5 near Sycamore and milepost 88.3 near Byron, a distance of 30.8 miles in De Kalb and Ogle Counties, IL, subject to the conditions for the protection of employees developed in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). A certificate of abandonment will be issued to the Chicago and North Western Transportation Company based on the above-described finding of abandonment, unless 30 days after publication, the Commission further finds that:

(1) a financially responsible person (including a government entity) has offered financial assistance to enable the rail service involved to be continued. The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 10423, no later than 10 days from publication of this Notice; and (2) it is likely that such proffered assistance would:

(a) cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed. An offer may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made on the Commission to set conditions or amount of compensation, a certificate of abandonment will be issued no later than 50 days after notice is published. Upon notification to the Commission of the execution of an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96-448, effective October 1, 1980). All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

Agatha L. Mergenovich,
Secretary.

[FR Doc. 81-8001 Filed 3-16-81; 8:45 am]
BILLING CODE 7035-01-M

Motor Carriers; Decision-Notice

The following operating rights applications, filed on or after July 3, 1980, are filed in connection with pending finance applications under 49 U.S.C. 10926, 11343 or 11344. The applications are governed by Special Rule 252 of the Commission's General Rules of Practice (49 CFR 1100.252).

Persons wishing to oppose an application must follow the rules under 49 C.F.R. 1100.252. Persons submitting protests to applications filed in connection with pending finance applications are requested to indicate across the front page of all documents and letters submitted that the involved proceeding is directly related to a finance application and the finance docket number should be provided. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. However, the Commission may have modified the application to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each applicant has demonstrated that its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statement as to the finance application *or* to the following operating rights applications directly related thereto filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except where the application involves duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice by effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be

construed as conferring only a single operating right.

Dated: March 6, 1981.

By the Commission, Review Board Number 3. Members Krock, Joyce and Dowell.

MC 120028 (Sub-22F), filed January 2, 1981. (Supplemental) (Previously published in the **Federal Register** on February 2, 1981 at page 10215). Applicant: CRAW CARTING, INC.—Extension—160 Despatch Drive, P.O. Box 267, East Rochester, NY 14445. Representative: Herbert M. Canter, 305 Montgomery Street, Syracuse, NY 13202. To operate as a common carrier, by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *general commodities* (except classes A and B explosives), between points in Albany, Broome, Columbia, Dutchess, Erie, Fulton, Genesee, Greene, Hamilton, Herkimer, Livingston, Monroe, Montgomery, Niagara, Ontario, Orleans, Putnam, Rensselaer, Saratoga, Schenctady, Schoharie, Ulster, Washington, Wayne, Westchester and Wyoming Counties, NY, the cities of Glens Falls, Oneonta, New York, Syracuse and Utica, NY, and the Villages of Baldwinsville, Cato, Hannnibal, Meridian, Stamford, Sterling and Sidney, NY. Condition: This application is authorizing a new service. Therefore an additional filing fee of $350 will be required before an effective notice will be issued.

Notes.—(1) The original application was published as a gateway elimination application. (2) The purpose of this application is to bridge authority Craw now holds with authority it is purchasing from Tanney's Motor Transportation, Inc. in MC-F-14543.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8109 Filed 3-16-81 8:45 am]

BILLING CODE 7035-01-M

[Volume No. 38]

Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: March 10, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 11.37. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 297 (Sub-16)X, filed February 23, 1981. Applicant: WOODLAND TRUCK LINE, INC., P.O. Box 70, Woodland, WA 98674. Representative: Lawrence V. Smart, Jr., 419 NW 23rd Ave., Portland, OR 97210. Applicant seeks to remove restrictions from its lead and Sub-3, 5, and 7 certificates to (1) eliminate all exceptions to its general commodities authority except "classes A and B explosives" in the lead, Sub-3 and 7; (2) change the commodity descriptions (a) in the lead, from milk and farm products to "food and related products" and "farm products"; and (b) in Sub-5, from paper products to "pulp, paper and related products", from door components to "building materials", and from lumber to "lumber and wood products"; (3) in Sub-3, remove the exception against service to points in the commercial zones of Kelso and Longview, WA, from authority to provide radial service between Woodland, WA and points in WA within 15 miles of Woodland; and in Sub-7, against radial service between Kelso and Longview, WA and Portland, OR and Vancouver, WA on a regular route between Woodland, WA and Spirit Lake, WA, and (4) authorize radial authority in the lead, between Portland, OR and Woodland, WA; and in Sub-5, between Woodland, WA and points in OR.

MC 26396 (Sub-392)X, filed February 23, 1981. Applicant: THE WAGGONERS TRUCKING, P.O. Box 31357, Billings, MT 59107. Representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, NE 68501.
